Surgery of Violence (1975)

Injuries caused by explosive weapons may suddenly present a doctor with urgent, unfamiliar problems in the treatment of the victims. The recent experience of surgeons and physicians at the Royal Victoria Hospital, Belfast, has been drawn upon to provide advice on some important aspects of the surgery of violence. First published as a series of articles in the *BMJ* during February and March this year, they are now collated into a book. Among the subjects the authors discuss are wounds of trunk and limbs, blast injuries of the ear, intensive care, and disaster planning. In addition the book includes a bibliography of 30 recent papers on traumatic surgery written by members of the staff of the Royal Victoria Hospital.

Price £1.00 (U.S.A. \$3.00)

Cardiovascular Diseases in the Tropics (1974)

The book presents the present state of knowledge regarding many conditions previously thought to be peculiar to the temperate and developed countries and also deals with those disorders peculiar to the tropical situation. It provides an up-to-date review suitable both for clinical and epidemiological work and for further research into these disorders.

Price £4.50 (U.S.A. \$13.50)

Medicine in Old Age (1974)

The series of twenty two articles published in the *British Medical Journal* throughout the winter have been collected in book form as a convenient source of reference for general practitioners. The emphasis is on remedial mechanisms, and the use that can be made of psychogeriatric and social services in keeping the elderly healthy and relatively independent members of the community.

Price £2.00 (U.S.A. \$6.00)

Today's Drugs/3 (1973)

The third and final volume of the 'Today's Drugs' series, like its predecessors, is based on *BMJ* articles revised and brought up to date by their authors. It deals with respiratory agents, drugs acting on central nervous system, and a miscellaneous group of drugs.

First they need a quick shot in the arm...

In confusional states following acute febrile illness or surgery, alcoholic or drug-induced psychoses, and in peripheral neuritis associated with a malabsorption syndrome, patients should benefit from 2 days intensive intravenous administration of Parentrovite high potency B and C vitamins. After which, therapy can be continued by the intravenous or the intramuscular route for 5-7 days. This treatment rapidly assists a return to normal intracellular glucose metabolism, the consequence of which is a significant improvement in the patients condition.

Parentrovite high potency injectable vitamins for initial therapy

then **Orovite** follows on naturally from Parentrovite

As soon as the clinical situation allows, the patient can be switched to maintenance therapy with Orovite until full health is restored.

Orovite: high concentrations of vitamins B and C in tablet or elixir form.

Full information on Orovite (regd.) and Parentrovite (regd.) is available on request from Bencard, Great West Road, Brentford, Middlesex.

Eczema

Gr: (ἐκζέω, I bubble up)

*Dry eczema occurs *beneath* a barrier of dry, scaly skin.

*Treatment with massively potent fluorinated steroids may produce skin atrophy and wasting, systemic absorption and adrenal suppression.

*The milder, natural steroid, hydrocortisone, in Calmurid® HC achieves at least equal results . . . without the hazards of the fluorinated steroids. "The results show that in the treatment of atopic eczema a preparation of 1% hydrocortisone and 10% urea (Calmurid HC) was as effective as a 0.1% betamethasone 17-valerate cream". Brit. J. Derm., 88, 493 (1973).

*Calmurid HC achieves these *major* results with a *milder* steroid because of the deeply penetrating power of the base (Calmurid).

*Inflammation, dryness and scaliness quickly disappear.

*These properties make Calmurid HC an invaluable treatment for dry eczema: especially in long-term therapy and with infants and children.

Why should you take it lying down?

Whilst the patient on methyldopa and sympatholytic drugs such as bethanidine or guanethidine is upright his blood pressure is controlled

adequately. But when he lies down his blood pressure rises — try measuring it when he is supine.

In contrast 'Inderal' offers

In a few minutes his antacid will stop working. What then?

Antacids and stomach coatings work. Very well. But not always for long, and only against hyperacidity. That's why you need 'Stelabid'.

Given twice daily 'Stelabid' provides protection against hypersecretion, hypermotility and painful spasm.

Its calming action alleviates the anxiety and stress so often associated with gastro-intestinal disturbances.

'Stelabid' prescribed with antacids, can provide a persistent and effective

symptomatic control of many gastro-intestinal conditions including functional disorders and peptic ulcer.

'Stelabid' Tablets can give continuous relief during the day. For patients with night pain 'Stelabid' Forte provides an extra measure of protection, and 'Stelabid' Elixir is recommended for patients who prefer a liquid preparation.

THE HEINZ FELLOWSHIPS OF THE BRITISH PAEDIATRIC ASSOCIATION

H. J. Heinz Company Limited generously endows Fellowships in Paediatrics which the Nuffield Foundation administers in conjunction with the British Paediatric Association.

Two or three Fellowships will be offered each year, the number and type awarded in any one year depending on circumstances and the calibre of applicants available.

Types of Fellowship, which are open to men or women, are:

(a) To enable a paediatrician from any part of the Commonwealth overseas to spend up to twelve weeks in the United Kingdom, meeting British paediatricians and seeing something of the work. Preferences will be given to those recently established in an academic career who can arrange their visit to allow attendance at the Annual General Meeting of the British Paediatric Association in April, 1977.

(b) To further the training of a young paediatrician from any part of the Commonwealth overseas by spending one year in postgraduate study of paediatrics and child health at approved centres in the United Kingdom with a view to assisting the Fellow on return to his country to further paediatric knowledge by teaching. The award is not intended to enable the Fellow to obtain a higher degree in medicine.

(c) To enable a paediatrician from the United Kingdom of Senior Registrar or Consultant status, but in the early years of professional life, to make a short working visit (up to three months) to a centre in a developing country, teaching or conducting research so as to benefit both the Fellow and his hosts. The applicant should submit a brief programme and indicate the likely benefits to himself and to his hosts which he suggests will accrue.

Applications for these awards must be received by the Nuffield Foundation not later than 1st November, 1975. Applications submitted in response to the earlier advertisement published in 1975 will automatically be re-considered if they have not already proved successful.

The conditions for the Fellowships and application forms may be obtained from the Director of the Nuffield Foundation, Nuffield Lodge, Regent's Park, London NW1 4RS. (H17251) 26

SPECIAL APPOINTMENTS

Bristol Polytechnic

Student Health Service

Medical Officer

Applications are invited for the above post, duties to commence 1st September, 1975 or as soon as conveniently possible after.

The Polytechnic is a growing institution with a current total student population of approximately three thousand. This is expected to grow to a total of seven thousand students in the 1980s, the majority of whom for teaching purposes will be accommodated in new buildings at present being erected on a site just north of the City.

The Medical Officer will be expected to co-operate with three existing part-time general practitioners already in post, and will be responsible for the development of the Student Health Service on the new Polytechnic site.

The person appointed will advise the Polytechnic on matters concerning health and safety and provide general medical services for such students as register with him. There will also be a small teaching commitment.

APPOINTMENTS

Applicants for medical appointments are advised to check whether the post advertised is included in the Important Notice and to scrutinize carefully the remuneration and terms of service offered. Any member who is in doubt about these terms in relation to B.M.A. agreements should consult the Secretary of the Association.

Advertisers are reminded that the Race Relations Board insists that no descriptive term implying racial, national, or ethnic characteristics may be used in any advertisement. Further, readers are advised not to apply for any appointment which discriminates between applicants on grounds of creed or sex.

HOSPITAL APPOINTMENTS

Applicants should state names, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given: Canvassing disqualifies (Statutory Instrument, 1974, No. 361).

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters should be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association.

In particular, they will find full details of facilities provided in most hospitals in the United Kingdom in the current edition of the *Hospital Gazetteer*. If such details are not included members are advised to consult the Secretary of the B.M.A.

Applicants requiring hospital married accommodation are strongly advised to obtain, prior to interview, clarification in writing from the employing authority as to whether such accommodation will be available on appointment.

No advertisement may stipulate that a non-resident must live less than 10 miles from a hospital. Advertisements for post-registration house officers, senior house officers and registrars should state clearly whether the post is resident, i.e. compulsorily resident.

In all advertisements grade should be clearly indicated. Normally a consultant vacancy must be advertised as (a) part-time with the number of sessions clearly stated, or (b) whole-time with the option of maximum part-time.

In the view of the BMA, an advertiser should not insist on possession of English higher qualifications in preference to Scottish or Irish qualifications (or vice versa).

SALARY SCALES OF HOSPITAL MEDICAL STAFF

HOUSE OFFICER: Each post in this grade shall be tenable for six months. £2,859 per annum for the posts held during the first year; £3,075 per annum for posts held during the second year; £3,294 per annum for posts held during the third and subsequent years, subject to full registration.

Next week may be too late

An illness or an accident can be costly.
Fortunately, most of us recover and the setback to family finance is only temporary.
But can the same be said of permanent incapacity?
Adequate insurance is the answer for the majority of doctors.

COMMUNITY MEDICINE

Careers in Community Medicine

NORTHERN CONSORTIUM

of Mersey, Northern, North Western, Trent and Yorkshire Regional Health Authorities and the Department of Health and Social Services, Northern Ireland

A further intake to a two-year programme of in-post training is planned to begin in the Autumn for doctors who wish to prepare for a career in community medicine and the first part of the Membership examination of the Faculty of Community Medicine of the Royal College of Physicians.

The training programme is sponsored by the above authorities in conjunction with the appropriate departments of the Universities of Leeds, Leicester, Liverpool, Manchester, Newcastle, Nottingham and Sheffield and the Queen's University of Belfast.

The two-year appointment will offer a planned programme of experience and training at District, Area and Regional levels in the same locality. This in-service training will be integrated with a modular academic course provided jointly by the participating university departments. There will be one module of two or three weeks duration for each of the six terms of the training programme. In addition, trainees will be attached for tutorial purposes to the university department closest to their place of work and between modules will normally spend the equivalent of one day a week in academic studies under the guidance of a tutor covering parts of the syllabus agreed by all the teaching departments.

Some doctors may already have acquired substantial in-service experience allied to community medicine and for these, special arrangements may be possible to enable them to benefit from the academic modules.

Applications are invited from registered medical practitioners with post-registration clinical experience. The training posts established will be equivalent to registrar in the clinical specialties (salary £4152 to £5109).

This is a non-resident appointment but some Authorities may be able to help with the provision of accommodation on a voluntary basis for which an appropriate charge would be made.

Application forms and further details may be obtained from Mr K N Holland, Co-ordinator, Room 510, Fulwood House, Old Fulwood Road, Sheffield S10 3TH. Application forms should be returned by 23rd June 1975.

Applicants will be free to express in order of preference their choice of participating authorities. If applicants require further advice or details of local regional arrangements they may contact the Regional Medical Officer's Department at the following addresses:-

Principal Medical Officer

London

£11,850

This is a senior post in the Medical Advisory Service, which maintains a watch on the health of civil servants; the doctor appointed will act as Deputy to the Medical Adviser.

The mandate includes assessing future work capacity in cases of prolonged sickness, and advising management both on health problems limiting work performance and on working conditions which may constitute health hazards. The post will afford opportunities for clinical practice and the day-to-day organisation of epidemiological studies.

Candidates must be fully registered as Medical Practitioners

in the United Kingdom. They should preferably hold a higher professional qualification. Experience of clinical practice and epidemiological studies is highly desirable.

Salary: £11,850. Non-contributory pension scheme.

For further details and an application form (to be returned by 27 June 1975) write to Civil Service Commission, Alencon Link, Basingstoke, Hants.
