## General Information

**Registration.** For members, other than Representatives and overseas visitors, registration for the symposia and clinical visits will take place at the Registration Bureau, foyer, University Refectory.

### Postgraduate Training Allowance and Seniority Payments

The Department of Health and Social Security and the Scottish Home and Health Department have recognised the two symposia for the purposes of the Postgraduate Training Allowance and Seniority Payments for N.H.S. general practitioners. The value of each afternoon's attendance will count as one session. Certificates of attendance will be available at the meetings.

Approval of sessions for these purposes does not entitle the doctor to claim either subsistence, travel costs or locum fees.

Further details on the above sessions may be obtained from:

The Executive Officer (Leeds Meeting),

B.M.A. House, Tavistock Square, London WC1H 9JP (Tel: 01-387 4499)

(For information on Social Timetable and other functions, please consult the *British Medical Journal* of 22 March 1975.)

### Travelling and Subsistence Allowance

The Clinical Visits ( $\frac{1}{3}$  session each) have been approved by the Regional Postgraduate Committee under Section 63 of the Health Services and Public Health Act 1968 for payment of fees and expenses to general practitioners subject to satisfaction of the usual conditions. As the meeting is of less than one week's duration, payment will be made to doctors practising in England and Wales only. The appropriate claim forms will be available at the meeting.

**"It is concluded that maintenance treatment of ulcerative colitis with sulphasalazine (salazopyrin) should be continued indefinitely unless contraindicated by side effects".<sup>1</sup>**

The results of the above controlled trial carried out at the Nuffield Department of Clinical Medicine, Radcliffe Infirmary, Oxford, are all the more welcome as earlier trials of cortisone<sup>2</sup> and prednisone<sup>3</sup> at standard dosages have shown them to be totally ineffective in reducing the number of recurrences of ulcerative colitis.

"Fortunately, Sulphasalazine tablets, 0.5 grams, 4 times a day will prevent relapses in the majority of patients with colitis, and only a few patients cannot tolerate this relatively small dose, which can be continued indefinitely, since we do not know when, if ever, it can be safely stopped".<sup>4</sup>

**"A striking difference in the relapse rate".**

"The patients who received dummy tablets had more than four times the relapse rate of those receiving sulphasalazine".<sup>1</sup> (Salazopyrin).

Salazopyrin (sulphasalazine) is available as the plain 0.5 g. tablet, 0.5 g. EN-tab and as an 0.5 g. suppository. Literature and detailed information on Salazopyrin are available on request.

## GENERAL PRACTICE TRAINING POSTS

### GT. YARMOUTH AND LOWESTOFT VOCATIONAL TRAINING SCHEME

These will commence as an optional period of up to 3 months as a Trainee in General Practice, followed by Hospital posts (2 years), the remaining part of the Trainee year being done at the end of the hospital period. The initial period in General Practice will commence on or after 1st November, 1975, with the hospital posts commencing on 1st February, 1976.

The Hospital period consists of 6 month periods in Obstetrics and Gynaecology (recognised for D.Obst. R.C.O.G.) General Medicine and Paediatrics (recognised for D.C.H.), with a 6 month optional period of the Candidate's choice, during which posts are available in several other hospital departments with Health Visitors attending hospital specialist out-patient clinics. There is a good library at Northgate.

Other rotations can be arranged for candidates who may have already done post-registration hospital posts suitable for Vocational Training, and who wish.

During the whole period of regular study half-day is held on topics relating to General Practice. Married accommodation is available during the hospital period (and the initial period in General Practice, where appropriate).

At present, all hospital posts are in Great Yarmouth, and training practices exist in Gt. Yarmouth, Gorleston, Lowestoft and the surrounding rural areas.

Closing Date: 27th June, 1975. Interview date 24th July.

Further information and application forms may be obtained from the Course Organiser, Dr. R. M. Stuart, c/o P. G. Secretary, Northgate Hospital, Gt. Yarmouth. (42343) 21

### DONCASTER AREA HEALTH AUTHORITY DONCASTER VOCATIONAL TRAINING PROGRAMME

**FOR GENERAL PRACTICE**  
Applications are invited for one remaining place on the Doncaster Vocational Training Scheme, which has become available due to the inability of an appointed trainee to take up the post. The post available is a basic 3-year programme commencing 1st August, 1975, which involves six months in general practice, followed by four six month hospital posts in Geriatrics, Psychiatry, Obstetrics and Paediatrics, with a final six months in general practice.

The programme are based on Doncaster Royal Infirmary, a new district general hospital of 804 beds, with postgraduate centre and extensive medical library. The educational programme consists of weekly meetings continuing throughout the length of the programme. Outside visits are arranged where appropriate e.g. to local industry.

Doctors completing the basic programme will qualify for the Vocational Training Allowance. The programme will also be acceptable for D.Obst. R.C.O.G., D.C.H. and the M.R.C.G.P. Applications may be made available to suit individual needs of doctors undertaking the basic 3-year programme.

Applications with curriculum vitae and the names of two referees, and any enquiries, should be made in writing to The Secretary, Vocational Training Scheme for Vocational Training Postgraduate Medical Teaching Centre, Doncaster Royal Infirmary, Thorne Road, Doncaster DN2 5LT. (43010) 21

# Vocational Training for General Practice

Devon Area Health Authority  
Exeter University  
Exeter and Mid-Devon Hospitals

Applications are now invited for three places starting on 1st November, 1975 on the vocational training scheme of the Department of General Practice in the Postgraduate Medical Institute of Exeter University. The course is designed and recognised for the M.R.C.G.P. examination.

All three programmes will begin with two months introductory training in a teaching practice. The hospital posts start on 1st January, 1976 and will include four of the following five six-month posts: acute medicine combined with dermatology, paediatrics (D.C.H.), psychiatry, geriatrics, and accident and emergency.

One year in all is spent in a university-approved teaching practice and throughout the three years a half-day release course is held. Trainees participate actively in the planning of the course and the emphasis is on small-group work.

The Exeter Department is the only university department of general practice in the country outside a medical school.

Applications and enquiries should be made as soon as possible to: Dr. D. J. Pereira Gray, Senior Lecturer in-charge, Department of General Practice, Postgraduate Medical Centre, Barrack Road, Exeter, EX2 5DW.

## Occupational Medicine Advisers up to £9,970

The Employment Medical Advisory Service is the nucleus of all medical activities in the Health and Safety Executive and is responsible for all aspects of occupational medicine.

There are now vacancies for full-time advisers within the service, based in or near the following:

EMAS Headquarters (London)	London & South-East (London) - 2 posts
Eastern & S.E. Midlands (Essex)	Midlands (Coventry)
Eastern & S.E. Midlands (Leicester)	Northern (Darlington)

Vacancies may arise in other areas.

The work of a Medical Adviser is varied in content and in the demands it places on professional expertise. It includes direct medical supervision of people at work, young people not fully fit for employment and people undergoing training or rehabilitation, investigations and formal surveys and provision of guidance on working conditions and other matters affecting occupational health and medicine. Communication and contact with workers, their representatives, employers, general practitioners and medical staff in hospitals and private industry are essential to the work.

Where possible, Advisers will work in Groups supported by nursing and clerical staff and laboratory and statistical facilities.

Applicants (men and women) must be fully registered medical practitioners in the United Kingdom. Experience in industrial medicine or in allied subjects, such as toxicology, pulmonary physiology, rehabilitation or psychiatry, is desirable and the possession of higher qualifications will be an advantage. A current driving licence is essential.

Starting salary between £6,990 and £9,560 (higher in London). There are good prospects of promotion as the Service develops, to posts with salaries of £11,000 and beyond. The pension is non-contributory and previous superannuation rights will normally be transferable.

# APPOINTMENTS

Applicants for medical appointments are advised to check whether the post advertised is included in the Important Notice and to scrutinize carefully the remuneration and terms of service offered. Any member who is in doubt about these terms in relation to B.M.A. agreements should consult the Secretary of the Association.

Advertisers are reminded that the Race Relations Board insists that no descriptive term implying racial, national, or ethnic characteristics may be used in any advertisement. Further, readers are advised not to apply for any appointment which discriminates between applicants on grounds of creed or sex.

## HOSPITAL APPOINTMENTS

Applicants should state names, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given: Canvassing disqualifies (Statutory Instrument, 1974, No. 361).

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters should be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association.

In particular, they will find full details of facilities provided in most hospitals in the United Kingdom in the current edition of the *Hospital Gazetteer*. If such details are not included members are advised to consult the Secretary of the B.M.A.

Applicants requiring hospital married accommodation are strongly advised to obtain, prior to interview, clarification in writing from the employing authority as to whether such accommodation will be available on appointment.

No advertisement may stipulate that a non-resident must live less than 10 miles from a hospital. Advertisements for post-registration house officers, senior house officers and registrars should state clearly whether the post is resident, i.e. compulsorily resident.

In all advertisements grade should be clearly indicated. Normally a consultant vacancy must be advertised as (a) part-time with the number of sessions clearly stated, or (b) whole-time with the option of maximum part-time.

In the view of the B.M.A., an advertiser should not insist on possession of English higher qualifications in preference to Scottish or Irish qualifications (or vice versa).

## SALARY SCALES OF HOSPITAL MEDICAL STAFF

**HOUSE OFFICER:** Each post in this grade shall be tenable for six months. £2,859 per annum for the posts held during the first year; £3,075 per annum for posts held during the second year; £3,294 per annum for posts held during the third and subsequent years, subject to full registration.

# Some haematinics go further than others in treating the whole problem

*In routine iron deficiency anaemia*

## **Ferrograd<sup>®</sup> C**

*Dried Ferrous Sulphate BP 325mg  
and 500mg vitamin C (as sodium ascorbate)*

*For prophylaxis against the  
deficiencies of pregnancy*

## **Irofol<sup>®</sup> C**

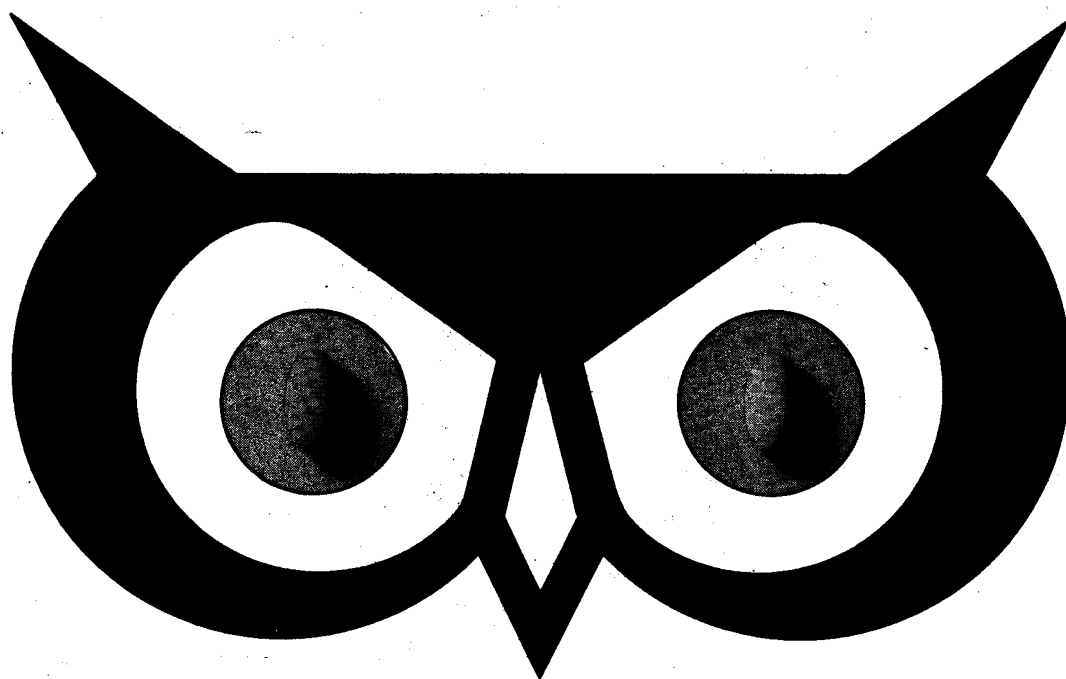

*Dried Ferrous Sulphate BP 325mg,  
500mg vitamin C (as sodium  
ascorbate) and 350mg folic acid.*

The problem with most haematinics is that the closer haemoglobin gets to normal, the less iron gets absorbed. Which may leave body iron stores still depleted and your patient vulnerable to sudden demand. That's where our massive half-gram dose of vitamin C really pays dividends. In patients with normal haemoglobin levels it can improve iron absorption by up to 47%\*, going on to replenish those vital body stores. Which together with the other advantages of a controlled-release vehicle, one-a-day dosage and in the case of Irofol C, a prophylactic dose of folic acid to fulfil the extra needs of pregnancy, offer very conclusive reasons for choosing Abbott haematinics.
