

# Tomorrow. Today.

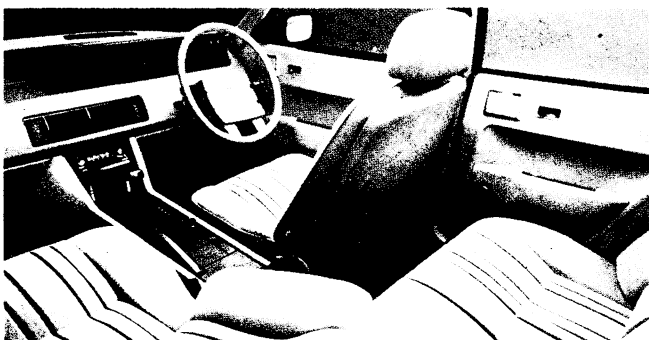

## The new Rover 3500.

We announce a car that sets new standards of design, comfort, safety, reliability and value.

The new Rover 3500 looks, feels and handles like a very, very expensive car.

Which it isn't.

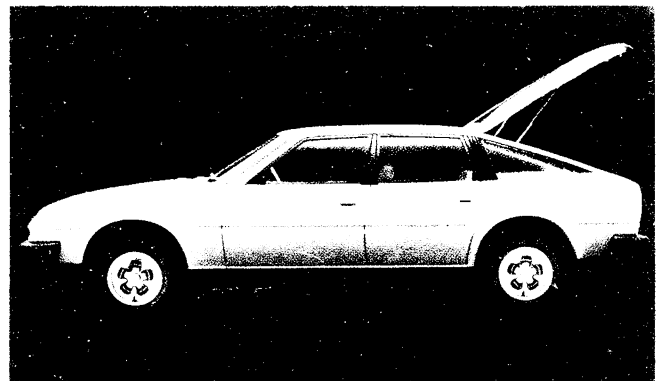

The secret is simple, logical engineering. We've designed an advanced, aerodynamic car round a refined V8 Rover engine.

The combination gives you power: 0-60 in 8.6 seconds (manual), 9.0 seconds (automatic).

It gives you economy: between 24 and 26 touring mpg (automatic and manual respectively)\*

It gives you luxury and space. The new Rover is superbly appointed and has an assisted-lift tailgate that opens into a generous luggage area.

You'll find the new car at your Rover showrooms. You'll also find that it's protected by Leyland's Supercover, the most comprehensive after-sales commitment available to the British driver.

You'll find something else.

A price that makes you realise exactly why a Rover is such a sound investment.

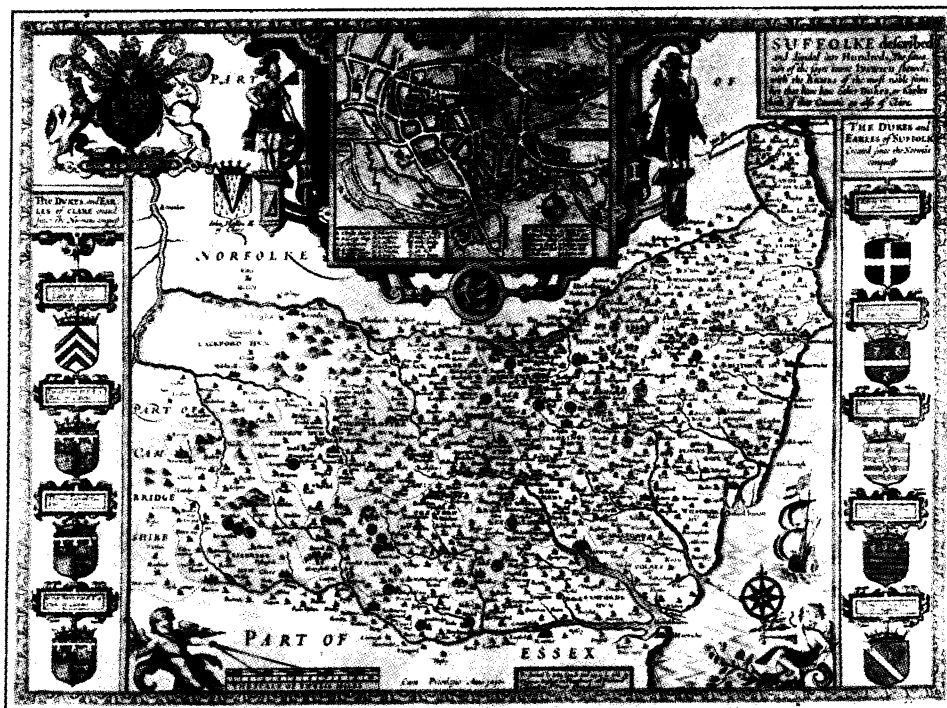

Tomorrow's car costs £4750.20 (automatic £149.76 extra) inc. car tax, VAT & front seat belts (delivery and number plates extra).

\*Speed and mpg figures from Leyland Cars Engineering Division.

Tomorrow, wouldn't you rather be in a Rover?

# Triplex Ten Twenty - a major advance in windscreen safety.

## Specified for the new Rover 3500

Rover, maintaining their leadership in car safety design, have specified the Triplex Ten Twenty laminated windscreen, in tinted form, as standard fitment on the new Rover 3500. Rover first - others will follow.

The Ten Twenty laminated windscreen is made by Triplex, a member of the Pilkington Group, and carries its famous XXX trademark. We are world leaders in safety glass technology and Ten Twenty is the most advanced windscreen we've ever made.

What is Ten Twenty? It is a new *laminated windscreen* which retains the best features of existing toughened and laminated products and in addition virtually *eliminates severe injuries to both face and eyes* due to windscreen breakage in an accident. Should head impact break the windscreen the glass in the area which is hit by the face breaks down into very small particles which have blunt edges. The flexible interlayer cushions the head and protects the occupants by retaining them within the car. The small particles remain bonded to the interlayer. Should the outer glass be hit by a flying road stone *it will not shatter and visibility is retained.*

## Fybranta in diverticular disease

In a recent clinical trial published in the British Medical Journal\*, a comparison was made between three forms of treatment for patients with symptomatic diverticular disease. The authors concluded from this study that Fybranta Tablets are more effective than a high-residue diet or a bulking agent.

Fybranta did not merely improve the symptoms, the paper states that Fybranta also normalized the pathophysiological changes which diverticular disease brings about.

60% of the patients were entirely symptom free

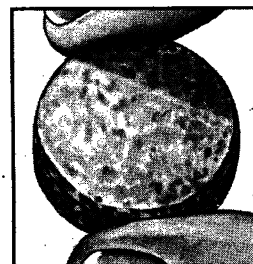

after one month on the Fybranta regime. In addition, in all patients stool weight increased significantly, transit time was reduced by nearly a half and intra-colonic pressure was reduced to within normal limits.

Fybranta tablets are easily carried when the patient cannot eat at home.

Chewed with a drink, they supply a day's cereal fibre in a highly acceptable form.

Each tablet contains: Bran 2g.  
Calcium phosphate BPC 100mg.

# FIGHT BACK AGAINST CANCER

It is good to remember that most people live their lives untouched by any form of cancer.

But as all too many are aware, cancer is something that casts its shadow far beyond those it directly affects. That is why so many people think it right to help the urgent work of the Imperial Cancer Research Fund.

From our discoveries in the past has come much of today's hope for sufferers. To go forward with our research for future alleviation, we ask *your* help in the present.

## LEGAL NOTICE

MRS. EDITH MAUD THIRZA COLLISON

"The Will of the late EDITH MAUD THIRZA COLLISON who died in South Africa on the 18th day of January, 1950, bequeaths a one-quarter share of the residue of her estate to a body described in the Will as 'INSTITUTE FOR CANCER RESEARCH LONDON'. Investigations made on behalf of the Administrator indicate that there is no body answering to that precise description. Application has accordingly been made to the Supreme Court of South Africa for directions as to the distribution of the one-quarter share in question which amounts to some 33,000 South African Rand. That Court has issued an order, the material parts of which are published to enable any person interested to make representation to the Court in accordance with the order of Court."

1. That a Rule Nisi be and it is hereby issued calling upon all persons interested to show cause why an Order should not be made:- I. Determining whether the bequest in the Will of the late EDITH MAUD THIRZA COLLISON who died at Isipingo Beach, Natal, South Africa, on the 18th day of January, 1950 of a one-quarter share of the residue of her Estate to "Institution for Cancer Research London"; (a) lapses so that the said one-quarter share will be distributed as on the intestacy of the said EDITH MAUD THIRZA COLLISON, or (b) vests in some body or organisation by virtue of the said description as "Institution for Cancer Research London" and, if so, in what body or organisation? or (c) should be directed to be applied to or in favour of some other body or bodies carrying out cancer research in the United Kingdom and, if so, to or in favour of which body or bodies? II. That the Applicant be authorised and directed to administer the Estate of the said EDITH MAUD THIRZA COLLISON in accordance with the said determination; III. Granting further, other or alternative relief; IV. Ordering that the costs of these proceedings be paid out of the said one-quarter share of the residue of the Estate of the said EDITH THIRZA COLLISON:

That the said Rule Nisi be returnable before this Court on the 3rd day of September, 1976 and that any person wishing to make any representations to or advance any contentions before this Court should give notice of his or her intention so to do on or before the 21st day of August 1976 and should, on or before the said day, deliver any affidavit upon which reliance may be sought to be placed. ### VOCATIONAL TRAINING FOR GENERAL PRACTICE

One place on the vocational training scheme organised by the Department of General Practice of the University of Exeter has suddenly become available through illness. Programme will consist of four 6 month S.H.O. posts: Paediatrics (D.G.H.), Accident & Emergency, Psychiatry and Medicine/Dermatology with a total period of 12 months in a University approved training General Practice. The Paediatric post starts on 1st August, 1976. The Exeter Department is the only University Department of General Practice in the country outside a Medical School. Applications are invited from those interested in this three year course or from those who have already completed one or two S.H.O. posts, and now wish to complete their training. Throughout the three years a half-day release course is held, trainees participate actively in the planning of the course, and there is emphasis on small group work. Additional courses are available for trainees and include, an introductory day-release course for each intake, and an intensive day release M.R.C.G.P. Course. Applications should be made immediately to Dr. D. J. Pereira Gray, F.R.C.G.P., Senior Lecturer in Charge, Department of General Practice, Postgraduate Medical Institute, Barrack Road, Exeter, EX2 5DW. Tel: Exeter 31159. (21406) 21

# APPOINTMENTS

Applicants for medical appointments are advised to check whether the post advertised is included in the Important Notice and to scrutinize carefully the remuneration and terms of service offered. Any member who is in doubt about these terms in relation to B.M.A. agreements should consult the Secretary of the Association.  
Advertisers are reminded that the Race Relations Board insists that no descriptive term implying racial, national, or ethnic characteristics may be used in any advertisement. Further, readers are advised not to apply for any appointment which discriminates between applicants on grounds of creed or unreasonably on grounds of sex.

## HOSPITAL APPOINTMENTS

Applicants should state names, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given: Canvassing disqualifies (Statutory Instrument, 1974, No. 361).

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.  
Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters should be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association.

In particular, they will find full details of facilities provided in most hospitals in the United Kingdom in the current edition of the Hospital Gazetteer. If such details are not included members are advised to consult the Secretary of the B.M.A.

Applicants requiring hospital married accommodation are strongly advised to obtain, prior to interview, clarification in writing from the employing authority as to whether such accommodation will be available on appointment.

No advertisement may stipulate that a non-resident must live less than 10 miles from a hospital. Advertisements for post-registration house officers, senior house officers and registrars should state clearly whether the post is resident, i.e. compulsorily resident.

In all advertisements grade should be clearly indicated. Normally a consultant vacancy must be advertised as (a) part-time with the number of sessions clearly stated, or (b) whole-time with the option of maximum part-time.

In the view of the B.M.A. an advertiser should not insist on possession of English higher qualifications in preference to Scottish or Irish qualifications (or vice versa).

## MENTAL HEALTH AUTHORITY, VICTORIA

# Consultant Psychiatrist

## Parkville Psychiatric Unit

Applications are invited for the position of Consultant Psychiatrist at Parkville Psychiatric Unit.

Parkville Psychiatric Unit is a 36-bed unit conducted jointly by the Mental Health Authority of Victoria and the Department of Psychiatry of Melbourne University. It is centrally located only a short distance from the centre of Melbourne and is situated in attractive parklands close to schools, university and amenities. Housing may be available.

The Unit combines the functions of teaching and research with service commitments. There are five Consultant Psychiatrist positions within the Unit, each leading multidisciplinary teams. Four of these teams practice eclectic psychiatry, while the fifth is concerned specifically with psychotherapy, both individual and group.

### Duties include:

1. Careful evaluation and assessment of patients needs and strengths leading to proper selection for psychotherapy.
2. Psychotherapeutic management of in-patients, day-patients and out-patients, including provision of a consulting service to outside practitioners, patients, relatives or others requiring advice.
3. Supervising and guiding trainee psychiatrists and qualified psychiatrists in the psychotherapeutic treatment of patients and, where applicable, assisting and advising in administrative methods for improving patient welfare, rehabilitation and community education.
4. Participation in psychotherapy education of paramedical and nursing staff and medical students.
5. Evaluation of methods and treatments.
6. Teaching about psychotherapy in the widest sense.

The position offers university status and considerable flexibility for the successful applicant to make arrangements for his commitment to service, training, teaching and research.

### QUALIFICATIONS:

To be a legally qualified medical practitioner registered or registrable in the State of Victoria, i.e., with a basic medical qualification conferred by a recognised medical school or university in any of the Australian States, the Australian Capital Territory, the United Kingdom, the Republic of Ireland or New Zealand.

To be a Member of the Australian and New Zealand College of Psychiatrists, or to hold a recognised Diploma of Psychological Medicine, or other recognised equivalent postgraduate qualification in psychiatry.

To have displayed ability to take full clinical responsibility for psychiatric patients without supervision, and to advise colleagues, including general practitioners, on the management of patients in their care.

To be, in the opinion of the Authority, capable of teaching medical undergraduates and graduates as well as nurses and other auxiliary disciplines and be willing to teach as normal part of his duties.

To have made contributions to research and scientific literature or to have had experience in special aspects of psychiatry accepted by the Authority as evidence of advanced knowledge of psychological medicine.

Applicants should be experienced psychotherapists in individual and group work, and experienced teachers of undergraduates and postgraduates.

### SALARY: \$24,764 minimum \$29,229 maximum

Under certain circumstances, a salary of \$30,540 may be payable to a person with sufficiently high qualifications and breadth of experience.

### LEAVE:

Four (4) weeks annual leave, plus time in lieu for any public holidays worked.

Four and a half (4½) months long service leave with full pay for every fifteen years of service.

Generous sick leave provisions are also available.

### REMOVAL EXPENSES:

In the case of an appointee from interstate or overseas, reimbursement of removal expenses within certain limits from his place of residence to Melbourne is made on condition that he enters into an agreement to remain in the service for 4 years after appointment. If the appointee resigns before the completion of the four years, the amount payable is reduced by 1/4th for each completed period of 6 months service. No removal expenses are payable on first appointment to an appointee from within Victoria.

### SUPERANNUATION:

Subject to passing a medical examination, appointees may join the permanent staff and contribute to the State Superannuation Fund.

### PRIVATE PRACTICE:

With the approval of the Minister of Health a limited right of private practice may be granted.

Applications which should be made on the prescribed application form should be addressed to the:

**Deputy Chief Medical Officer,  
Mental Health Authority,  
271 William Street, Melbourne,  
Victoria, 3000 Australia  
Telephone: 60 21 888**

from whom further information and the necessary application forms may be obtained.

Stimulates a rapid release of insulin.

Acts promptly and predictably because absorption is rapid and complete.

Lessens the risk of accumulation; the drug is almost totally excreted within 24 hours, mostly in the form of inactive metabolites.

Shows no tendency to increase body weight.

Offers highly flexible dosage, permitting precise adjustment to the patient's individual needs.

Achieves high success-rate . . . often successful in patients who failed on other sulphonylureas.

No antabuse effect observed.

5 mg. scored tablets in packs of 60

# What the papers say

## Shortest Acting

"With doses up to 1 mg, the natriuresis was largely complete within 3 hrs."<sup>3</sup>  
 "It (Burinex) has a short duration of action, being virtually complete in 3 hrs."<sup>4</sup>

## Fast Acting

"The rapid absorption from the gastrointestinal tract is reflected in the brisk diuresis established within the hour!"<sup>1</sup>  
 "Its (Burinex Injection) onset of action is within 10 min."<sup>2</sup>  
 "Bumetanide is rapidly absorbed from the gut."<sup>3</sup>

## Clinically Effective

"Fourteen patients showed a good diuretic response on bumetanide where previous treatment with frusemide had proved either unsatisfactory or too slow."<sup>5</sup>  
 "An impressive diminution of the signs of pulmonary oedema was seen in most patients and in some the clearance of alveolar oedema was dramatic."<sup>6</sup>

"Based upon our experience with the use of bumetanide in several hundreds of patients and the detailed studies reported above, it may be concluded that this new diuretic agent is a very useful drug in the treatment of congestive cardiac failure."<sup>7</sup>

"Our study... confirms that bumetanide is a potent diuretic effective over a wide dose range and in a variety of clinical conditions."<sup>1</sup>

## Well tolerated

"Burinex was extremely well tolerated."<sup>12</sup>  
 "Bumetanide was well tolerated by patients."<sup>1</sup>  
 "Overall, bumetanide showed itself to be a safe and effective diuretic when administered to severely ill patients in a busy hospital milieu."<sup>5</sup>

## The correct amount of K

"It is known from short-term studies that 1 mg. of bumetanide increases the excretion of potassium by 10-15 mmol daily (Asbury et al, 1972; Olesen et al, 1973; Davies et al, 1974). Two tablets of the combined preparation Burinex K contain 1 mg. of bumetanide and 16 mmol of potassium."<sup>8</sup>

## At the correct time

"35% of the potassium chloride is released by one hour, the rest being released over a period of six hours."<sup>4</sup>

## The Morning OR Evening diuretic

"The rapid onset and short duration of action of loop diuretics are clearly desirable when a rapid diuresis is indicated, and when given in the evening to patients with chronic heart failure, the short duration of action can ensure a good nights sleep undisturbed by nocturia or breathlessness."<sup>9</sup>

"The use of potent and short-acting diuretics such as bumetanide allow the Physician and patient scope to decide upon the most appropriate time for administration and so reduce major disruptions in the patient's daily routine."<sup>10</sup>

"Patients who go out to work may find Burinex K given in the evening more socially acceptable."<sup>11</sup>

## Patients prefer Burinex K

"These results indicate that when long-term diuretic/potassium supplement therapy is required, Burinex K is a more acceptable regimen to the patients than one in which diuretic + Slow K are given separately."<sup>13</sup>

"Patients showed a highly significant preference to take two tablets on one occasion (Burinex K) rather than two different types of tablet on three separate occasions (Lasix + K)."<sup>14</sup>
