# CARE OF THE ELDERLY

## Report of the Working Party on SERVICES FOR THE ELDERLY

This Report, which has been produced by a Working Party of the BMA's Board of Science and Education, discusses the aspects of care which particularly affect the welfare of the elderly, and places special emphasis upon maintaining independence in the community. It considers the interdependent roles of the local authority, health and voluntary services and recommends ways of improving these services to meet the needs of this rapidly increasing section of the population.

**OCCUPATIONAL HEALTH**

**CENTRAL ELECTRICITY GENERATING BOARD**

**MEDICAL OFFICER**

Applications are invited from fully registered Medical Practitioners in the United Kingdom for the post of Medical Officer in the Medical Branch of the Nuclear Health and Safety Department based at Headquarters, London.

The Branch provides specialist advice to the Board on radiological protection and also acts as a focal point for the Board's medical service as a whole.

The successful candidate, in addition to advising on medical supervision of radiation workers at nuclear power establishments, will provide an occupational health service to CEGB Headquarters and to the Berkeley Nuclear Research Laboratories, Gloucestershire, a total of 3,100 personnel. Responsibility is to the Head of the Medical Branch and includes management of a Haematology laboratory which is under the technical direction of a consultant haematologist.

Candidates should have a good clinical background and previous industrial experience is desirable but not essential.

Salary will be within the BMA recommended scale for Medical Officers.

Applications stating full relevant details and present salary to the **Personnel Officer, Central Electricity Generating Board, Sudbury House, 15 Newgate Street, London EC1A 7AU**, by 19 August 1976. Quote Ref. BMJ/94. (22492) 24

**COMMERCIAL APPOINTMENTS**

**Director of Clinical Research  
Immunology/Cancer Chemotherapy**

This is a new appointment with a leading international company in the health care field. It will be based at the company's UK Research Headquarters in an attractive parkland location in the Home Counties.

The successful candidate will report to the Medical Director and be responsible for setting up a specialised Clinical Research Department within the UK company. Initially, this will be concerned with the Phase II and III studies on new compounds emerging from the local company and the US parent company's research programmes, primarily in the Clinical Immunology and Cancer Chemotherapy fields. These studies will be conducted mainly in the UK, but travel to the USA 2 or 3 times a year is likely and there may also be some European involvement.

Candidates, ideally in the 32-45 age range, should hold a good British medical degree, and have a sound and relevant

background in clinical medicine. This could involve several years' work in the Immunology or Cancer Chemotherapy field in a hospital/academic environment, backed by an interest in the systematic evaluation of new drugs. Alternatively, it could entail more generalised clinical trial experience within the pharmaceutical industry, backed by clear organisational skills.

A substantial five-figure salary will be paid commensurate with the responsibilities and the qualifications, experience and personal qualities of the successful candidate. Other benefits include the provision of a company car and encouragement for simultaneous tenure of a Clinical Assistantship for at least one session per week.

Please write in complete confidence for an application form, or phone if you would like to discuss the position further before applying:

## Medical Officer

The National Coal Board's medical contribution to the intensive programme to eliminate pneumoconiosis includes a comprehensive X-Ray Service with Centres in each of the major coalfields. The X-Ray Service has recently been extended to comply with additional responsibilities resulting from the Coal Mines (Respirable Dust) Regulations 1975 and as a result of promotion within the Service there is now a vacancy for a medical officer.

In addition to the clinical and epidemiological aspects of radiography in the coal mining industry, chest X-ray surveys are undertaken for other industries with potential dust hazards such as asbestosis and silicosis. Staff are encouraged to develop original research and to take part in national projects. Close contact with local hospitals and chest clinics is essential.

Applicants should have previous experience in chest diseases and/or radiology. Initial training will be given in Yorkshire and thereafter the successful applicant will be based in South Wales, where experience in general occupational medicine will also be available.

Salary will depend on experience, but initially will be in excess of £7000, with good promotion prospects.

# APPOINTMENTS

Applicants for medical appointments are advised to check whether the post advertised is included in the Important Notice and to scrutinize carefully the remuneration and terms of service offered. Any member who is in doubt about these terms in relation to B.M.A. agreements should consult the Secretary of the Association.

Advertisers are reminded that the Race Relations Board insists that no descriptive term implying racial, national, or ethnic characteristics may be used in any advertisement. Further, readers are advised not to apply for any appointment which discriminates between applicants on grounds of creed or unreasonably on grounds of sex.

## HOSPITAL APPOINTMENTS

Applicants should state names, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given: Canvassing disqualifies (Statutory Instrument, 1974, No. 361).

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters should be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association.

In particular, they will find full details of facilities provided in most hospitals in the United Kingdom in the current edition of the Hospital Gazetteer. If such details are not included members are advised to consult the Secretary of the B.M.A.

Applicants requiring hospital married accommodation are strongly advised to obtain, prior to interview, clarification in writing from the employing authority as to whether such accommodation will be available on appointment.

No advertisement may stipulate that a non-resident must live less than 10 miles from a hospital. Advertisements for post-registration house officers, senior house officers and registrars should state clearly whether the post is resident, i.e. compulsorily resident.

In all advertisements grade should be clearly indicated. Normally a consultant vacancy must be advertised as (a) part-time with the number of sessions clearly stated, or (b) whole-time with the option of maximum part-time.

In the view of the B.M.A. an advertiser should not insist on possession of English higher qualifications in preference to Scottish or Irish qualifications (or vice versa).

## SALARY SCALES OF HOSPITAL MEDICAL STAFF

## THAMES CONSORTIUM TRAINEESHIPS IN COMMUNITY MEDICINE

Applications are invited for a 2-year course of in-service training to begin in October 1976. It is designed to prepare doctors for a career in community medicine, and for the Membership examination of the Faculty of Community Medicine of the Royal Colleges of Physicians. It is being offered by the Thames Consortium, which consists of the following institutions: Department of Community Medicine, Guy's Hospital Medical School. Department of Community Medicine, St. Thomas' Hospital Medical School. Department of Community Medicine, Middlesex Hospital Medical School. Department of Community Medicine, University College Hospital Medical School. Department of Clinical Epidemiology and Social Medicine, St. George's Hospital Medical School. Department of Community Medicine, Westminster Hospital Medical School. Department of Epidemiology, St. Mary's Hospital Medical School. The Royal Army Medical College, Millbank. Department of Biochemistry, University of Surrey. Health Services Research Unit, University of Kent.

The Consortium, in collaboration with the Regional Health Authorities (South West Thames, South East Thames, North East Thames, North West Thames and East Anglia) will provide a co-ordinated series of modules of academic tuition, amounting to a total of 20 weeks over a period of 2 years. All teaching will be London-based, and each academic unit will contribute instruction in the subjects of its special experience and interest. Between modules, each trainee will spend the equivalent of 1 day a week on studies supervised by the academic centre to which he is attached. During the 2 years, doctors will be expected to gain appropriate in-service experience in training posts at various operational levels within the health service. For this purpose, up to 7 training posts are offered in the 5 Regions mentioned above.

The training posts will be at the grade of Registrar in Community Medicine (salary £4152 x £222(3) to £4818 x £291(1) to £5109). Where doctors currently earning higher salaries are appointed, it will be at the discretion of the health authorities to allow protection of salary.

Applicants should be registered medical practitioners who have at least 1 year's post-registration experience. Further details of the course and an application form can be obtained from Dr. J. M. Weddell, Co-ordinator, Thames Consortium, c/o Department of Community Medicine, 60 Sanctuary Street, London, SE11 5NG. The closing date for applications is 27th August. Those who are short-listed will be given an interview at the Region of their first choice.

Redcliffe is a seaside city with a wide range of sporting facilities and a very pleasant mild climate.

As well as visiting sessional work at the hospital which would include in-patient and out-patient care there is an excellent potential for private practice as a Specialist physician with hospital facility also available.

The full time staff establishment at the hospital is now fifteen and a building program now in progress will increase the size of the hospital to 360 beds in a few years time.

Applicants must be eligible for registration as a Specialist in Queensland and applications should be forwarded to the **Medical Superintendent, Redcliffe Hospital, Anzac Avenue, Redcliffe, 4020, Queensland, Australia** as soon as possible.

Further information will be supplied on request by contacting the Medical Superintendent. (6831)

# THE NORTH BRISBANE HOSPITALS BOARD

Queensland Cytology Laboratory & Royal Women's Hospital Pathology Services

## PATHOLOGIST IN CHARGE

Applications are invited from pathologists with a particular interest in cytology for the above position. Although preference will be given to applicants with experience in cytology applications would be welcomed from pathologists interested in undergoing training in this field. The Cytology Laboratory which provides services for the State of Queensland is situated in the Royal Women's Hospital which is in turn part of a hospital complex which also includes the Royal Brisbane Hospital, the Royal Children's Hospital and a Hospital.

Pathology services for the hospital complex are integrated and an appointee, while having specific responsibility for the Cytology Service and for overall supervision of the work of the pathology laboratory at the Women's Hospital can participate in the overall activities of a large group of laboratories and draw upon their resources. An appointee with special interest in gynaecological pathology and/or neonatal pathology would be encouraged to maintain involvement in this work and if desired, in other areas of anatomical pathology.

The Cytology Laboratory is expected to be processing 100,000 specimens per year by 1978. Its work in cancer detection involves close liaison with the Queensland Anti-cancer Council, and the director is encouraged to participate in the Council's public education programmes throughout the State. The Royal Women's Hospital has 300 beds and there are some 9,000-10,000 confinements per year. Gynaecological cases are currently admitted to the Royal Brisbane Hospital but transfer to the Women's Hospital is under consideration. The pathology laboratory at the hospital carries out most investigations for the hospital, and for its out-patients but some tests are performed in the laboratories at the Royal Brisbane Hospital. The salary for the position is currently \$30,525. The successful applicant will be required to contribute to the State Service Superannuation Fund.

Further information can be obtained from the Director of Pathology, Royal Brisbane Hospital, but applications, listing full personal particulars and naming two referees should reach the Executive Director — Medical Services, the North Brisbane Hospitals Board, Base Hospitals Post Office, Brisbane 4029 not later than 1st October, 1976 (H12381).

# When the Blood Pressure signals hypertension

## Hygroton® 50mg

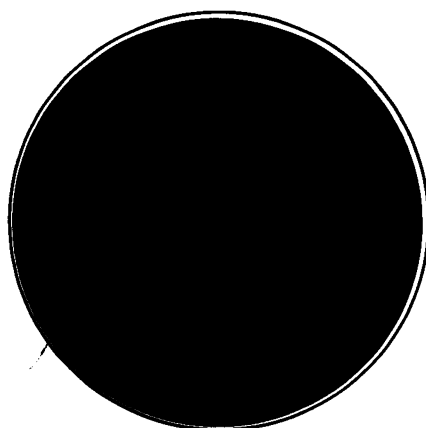

### Moderate to severe hypertension

Use Hygroton in combination with other hypotensives e.g. beta-blockers including Lopresor (Geigy), methyldopa, clonidine, and so control the blood pressure with a reduced dose of these agents and a reduction in their side-effects.

### Mild to moderate hypertension

The early hypertensive needs treatment NOW with long-acting Hygroton.

## Hygroton® 50mg

Base line therapy in **Hypertension**

Hygroton is available as white scored compressed tablets each containing 100mg and as pale yellow scored compressed tablets containing 50mg, 3-(4-chloro-3-sulphamoylphenyl)-3-hydroxyisoindolin-1-one (Chlorthalidone B.P.).

Full prescribing information is available  
Geigy Pharmaceuticals, Macclesfield, Cheshire SK10 2LY.

**Hygroton®** **Geigy**  
Long acting anti-hypertensive diuretic
