# Are you using your loaf?

## Consider a few simple facts

### Bread is a valuable source of protein, calcium, iron, the B Vitamins (Niacin and Thiamin) and energy.

Bread supplies, in the average daily diet in Great Britain, 15.8% of the protein, 13.4% of the calcium, 18.8% of the iron, 13.5% of the niacin, 22.3% of the thiamin and 14.5% of the energy according to the government's latest published National Food Survey (1974).

All this from a food which, in the past, has largely been thought of as a 'filler'.

100 grams of white bread (28oz loaf) provides 7.8g protein, 92mg calcium, 1.8mg iron, 0.18mg thiamin, 1.7mg niacin and 243 calories.

### Compared with cheese, milk, eggs, meat, fish, potatoes and butter, bread is the housewife's bargain protein.

In Great Britain a 28oz standard loaf provides 61.6 grams of protein and costs about 18p. The same amount of money will buy (July 1976) 6.3oz cheddar cheese (45.4g protein), 6.3 standard eggs (43.2g), 2.1 pints of milk (37.8g), 4.8oz stewing beef (26.4g), 4.8oz fresh cod (24.5g), 3lb new potatoes (24g), 7oz butter (0.7g).

This, from a food which, all too often, the housewife thinks of as a mere accompaniment to a more 'important' food.

Prices based on Department of Prices and Consumer Protection information, and local enquiries. Source of nutritional value: 'The Composition of Foods' by R. A. McCance and E. M. Widdowson - H.M.S.O. 1967.

### The protein in bread is a valuable part of your diet.

A common belief is that the protein in bread is not really valuable, especially in contrast to animal protein.

Most people in the U.K. derive their protein from a mixture of animal and vegetable sources, and seldom eat one type of protein on its own. And, says modern nutritional knowledge, this is just as it should be because any relative shortage of individual essential amino acids in bread's protein is more than made good by an abundance in the animal protein. If you get a reasonable proportion of your protein from bread and a reasonable proportion from animal sources (as for instance, when you eat a ploughman's lunch of bread and cheese, or an egg on toast or a meat sandwich), you get a combination which is just as good and effective as most animal proteins alone.

### Bread is an important part of any weight-watchers diet

Usually the first thing a slimmer 'elbows' from his or her diet is bread. The popular belief is that bread provides little real value in the diet and that it is highly fattening. Its nutritional value has already been made clear above. In calories 1oz of bread provides 69 calories compared with 226 calories from 1oz of butter, 120 calories from 1oz of cheddar cheese and 40 calories from 1oz of fried cod. Bread comes out reasonably well in the scorecard, being neither high nor low, and much the same as lean beef (64 calories per ounce). Yet lean beef is usually put high on a slimmer's list of priorities.

This is just another example of how the real facts about bread differ from the commonly-held beliefs.

**Bread, more than most other foods, suffers from old concepts which do not stand up to new facts.**

Shouldn't you use your loaf - and help guide other people to use theirs?

# CARE OF THE ELDERLY

## Report of the Working Party on SERVICES FOR THE ELDERLY

This Report, which has been produced by a Working Party of the BMA's Board of Science and Education, discusses the aspects of care which particularly affect the welfare of the elderly, and places special emphasis upon maintaining independence in the community. It considers the interdependent roles of the local authority, health and voluntary services and recommends ways of improving these services to meet the needs of this rapidly increasing section of the population.

## ST. ANDREW'S HOSPITAL NORTHAMPTON

### THE FOREMOST PRIVATE PSYCHIATRIC HOSPITAL IN BRITAIN

ST. ANDREW'S HOSPITAL, which was established in 1838 as a non-profit making charitable foundation, is a progressive hospital staffed and equipped for the treatment of every type of psychiatric illness.

**SHORT STAY** patients are, in general, admitted to Isham House, a modern and luxurious Nursing Home within the grounds. The accommodation consists of private bedrooms, most of which have private bathrooms. All forms of treatment are available, with emphasis on individual and group psychotherapy.

**PSYCHO-GERIATRIC** patients are admitted to "The Harper Unit" in the main hospital, which has recently been opened. This unit, which has both private rooms and cubicle accommodation, has been completely reconstructed and adapted specifically to provide a high standard of care and privacy and the ratio of nurses to patients is generous.

**LONG STAY** patients are admitted to a separate part of the main hospital, which has also been completely modernised.

All patients are under the care of full-time Consultant Psychiatrists.

**FACILITIES AND AMENITIES** for occupational therapy and recreation are excellent, and include a 9-hole golf course, squash court, tennis courts, heated indoor swimming pool and a Social Centre with restaurant, shop and hairdressing salon. All these are set in the hospital's own 100 acres of attractive well-wooded grounds.

Northampton is about one hour's journey from London, either by train or on the M.1 motorway, and is easily accessible from all parts of the country.

Subscribers to the main private patient schemes may claim benefit in accordance with the rules of these schemes.

Further particulars, including fees, may be obtained from the Medical Director, St. Andrew's Hospital, Northampton (Tel: 0604-21311) who can be seen in consultation by appointment at the hospital, or at 152, Harley Street, London W1.

## WOLFE MEDICAL ATLASES

### A Colour Atlas of PHYSICAL SIGNS IN GENERAL MEDICINE

M. Zatouroff, M.B., M.R.C.P., D.C.H.

An important book designed as a diagnostic aid to both clinical undergraduates and postgraduates and to general practitioners. This unique collection of photographs, covering all racial types, ranges over the whole body, showing the appearance of physical signs at various stages of presentation. The ground covered has general relevance, and a section on folk medicine will be particularly valuable in pointing out the significance of certain burns, scars or stains.

The accompanying text describes the implications of each sign and suggests an 'approach to seeing' for those in training.

ABOUT 25 MILES FROM LONDON; we are a busy, five-man, compact and large-list N.H.S. practice and are blessed with all the usual facilities of good general practice, including G.P. medical beds and an excellent postgraduate centre in the local modern district hospital. We range in age from 30 to 50 and include V.T.S. Organiser, Police Surgeon, Trainer and L.M.C. member. We have a very settled and happy relationship within the partnership, the local medical community and the practice, and we live and work in an extremely pleasant environment. We are looking for a replacement fifth partner, a graduate of a British University, who would share the work and rota equally from the start, as a salaried partner for a year and with full party after a further three years. We would prefer a vocationally-trained applicant, not married to a fellow doctor and F.P. qualifications or interest would be an advantage. Interviews from 1st September or informal visit by appointment earlier. Please write with details to Dr. R. V. Knight and Partners, 4 Hall Grove, Welwyn Garden City.

A CONGENIAL PARTNERSHIP in East Anglian city require a replacement for a seventh partner due to retirement. The practice is run from a rented, central surgery with resident caretaker and full ancillary help. Open access to pathology and radiology in modern District Hospital. G.P. obstetric unit and active postgraduate centre. Rented housing is available, if required. We are looking for a graduate of a British University, capable of working hard and enjoying the adequate leisure that this practice provides. A sense of humour is a necessary qualification. Box 2301 BMJ.

ACTIVE PARTNER Female/male required in well run group of five as replacement starting 1st September, 1976. Salary £6,000 p.a. Graduate of British University with some experience and enthusiasm. Full appointment system and ancillary services. Teaching group. Interesting but not onerous. Very reasonable off duty. London S.E.1. (i.e. near Centre) Box 2282 BMJ.

AN OLD ESTABLISHED semi-rural practice, run from a new Health Centre, half an hour from York and Leeds, requires Graduate of British University as replacement third partner. The practice is well organised with full ancillary help and attachments, allowing ample time for leisure and work. Please send details to Drs. Hardy, Sim, Health Centre, Snaith, Nr. Goole, North Humberside.

A GRADUATE OF A British University to join expanding practice now with view to partnership in October, 1976 when senior of three retires. Good medicine practised, with obstetrics, in pleasant Kent/Surrey/London border area, with good hospitals, G.P. Medical Centre, schools and recreational facilities. Ancillary staff and D/N and H/V attachments. For further details apply with curriculum vitae to Box 2405 BMJ.

ATTRACTIVE compact rural Partnership in Leicestershire requires graduate of British University to replace retiring fifth partner by 1st January, 1977. Purpose built premises, own and attached ancillary staff. Appointment system, rota, congenial partners. Access to Hospital beds, Pathology and X-rays. Obstetrics essential. Excellent Postgraduate facilities at new teaching Hospital. Six weeks holiday each year. Immediate share at least £6,000, parity end third year. Dr. J. W. Wood and Partners, Kings Walk Surgeries, Earl Shilton, Leicester LE9 7NJ or Tel: Earl Shilton 44434, transferring the charge.

BECAUSE OF UNEXPECTED resignation, old established two man practice with nearly full list, requires replacement partner in October. Remaining partner Scottish Graduate. Usual attachments and excellent hospital facilities in town with good educational institutions, including three independent schools. Graduate of British University of any age group welcome. Tel: Wakefield 50596.

CHESTER CITY Replacement required for partner retiring in January 1977. Graduate of British University. Two person urban practice of 5,250 patients, in mini-Health Centre. All usual attachments, and open access for investigations. G.P. beds available in modern Maternity Hospital. New local postgraduate centre. Remaining partner approved trainer. ## COMMERCIAL APPOINTMENTS

## Medical Director

## Merck Sharp and Dohme – Holland 16 staff

This is a senior appointment with a leading and highly-respected international pharmaceutical company. It is one of the most prestigious medical positions within the Dutch pharmaceutical industry, and should prove of particular interest to physicians with existing experience of Holland or of the pharmaceutical industry.

The Medical Director will be a member of the Senior Management Team of Merck Sharp & Dohme b.v., and take overall charge of the company's medical operations – both pre- and post-marketing – throughout Holland. He or she will head up a department of 16 staff organised into four sections and led respectively by an Associate Medical Director, an Associate in Basic Clinical Research, a Registration and Literature Control Manager, and a Medical Education Manager.

Suitable candidates will already hold responsible and broadly-based medical positions, and have proven managerial expertise

or clear leadership potential. Experience of the pharmaceutical industry is not an absolute requirement, but would clearly be highly advantageous. Knowledge of Dutch will be necessary for the post in addition to a knowledge of English, but appropriate tuition facilities will be provided if required.

The post commands an exceptionally attractive salary, together with a luxury car and substantial other benefits, reflecting the senior status of the appointment.

The successful candidate will be based at the company's spacious modern headquarters on the outskirts of Haarlem, about twenty minutes' drive from Amsterdam airport.

*Please write for further information and an application form, quoting reference ED8, or 'phone if you would like to discuss the position further. All enquiries will be treated in the strictest confidence and no information will be disclosed to our clients without your prior authorisation.*

# APPOINTMENTS

Applicants for medical appointments are advised to check whether the post advertised is included in the Important Notice and to scrutinize carefully the remuneration and terms of service offered. Any member who is in doubt about these terms in relation to B.M.A. agreements should consult the Secretary of the Association.

Advertisers are reminded that the Race Relations Board insists that no descriptive term implying racial, national, or ethnic characteristics may be used in any advertisement. Further, readers are advised not to apply for any appointment which discriminates between applicants on grounds of creed or unreasonably on grounds of sex.

## HOSPITAL APPOINTMENTS

Applicants should state names, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given: Canvassing disqualifies (Statutory Instrument, 1974, No. 361).

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters should be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association.

In particular, they will find full details of facilities provided in most hospitals in the United Kingdom in the current edition of the Hospital Gazetteer. If such details are not included members are advised to consult the Secretary of the B.M.A.

Applicants requiring hospital married accommodation are strongly advised to obtain, prior to interview, clarification in writing from the employing authority as to whether such accommodation will be available on appointment.

No advertisement may stipulate that a non-resident must live less than 10 miles from a hospital. Advertisements for post-registration house officers, senior house officers and registrars should state clearly whether the post is resident, i.e. compulsorily resident.

In all advertisements grade should be clearly indicated. Normally a consultant vacancy must be advertised as (a) part-time with the number of sessions clearly stated, or (b) whole-time with the option of maximum part-time.

In the view of the B.M.A. an advertiser should not insist on possession of English higher qualifications in preference to Scottish or Irish qualifications (or vice versa).

# Senior Registrar in Psychiatry

for the Department of Psychological Medicine of the Jersey Group of Hospitals.

The Hospital Group provides a free Hospital Service to the Islands population of about 74,000 and, although outside the U.K. National Health Service, is run on similar lines. It maintains close professional links with the N.H.S. and keeps fully aware of current developments in theory and technique.

However, as our service is on a smaller scale, administration is simpler enabling us to work smoothly and efficiently to provide the fullest and best possible care for the whole island.

The Department of Psychology treats all forms of psychiatric illness. It consists of three Consultants, and on the appointment of the above post, two Senior Registrars working at three hospitals, St. Saviour's, the General Hospital, and Overdale. The last two being in St. Helier, while St. Saviour's, a 285 bed hospital for the mentally ill and handicapped, is on the east side of the island. Most of the acute psychiatric work is done at the General Hospital, while St. Saviour's takes the intermediate and long-stay patients, and Overdale caters for psycho-geriatric patients. These three comprise the Department's complement of 327 beds.

Our service is continually under review, many new developments having already taken place. For instance, at St. Saviour's there have been considerable improvements and alterations, including the building of a short-stay and day centre, and a specially equipped children's unit. A three phase plan of expansion, of which the first is already under construction, has been developed on the site of the General Hospital. Most relevant to the Department will be the completion of two psychiatric units, one for adults, and one for children.

Jersey itself is the largest of the Channel Islands, and lies a few miles from the Normandy coast. Non-industrial, the bulk of revenue is derived from agriculture, banking and tourism. The population, which fluctuates seasonally, is centred around the one major town, St. Helier. Although a Crown dependency, the island is self governing. V.A.T. does not apply, and income tax is considerably lower than in the U.K.

*The salary scale for the post of Senior Registrar is the same as that of the N.H.S., with reciprocal superannuation agreements. Residential accommodation is available, and applicants, who must be fully registered, can obtain further details from the Senior Consultant Psychiatrist, General Hospital, St. Helier, Jersey, Channel Islands, (Telephone 0534 24242; applications, with full curriculum vitae, to the Hospital Executive Officer, St. Saviour's Hospital, St. Saviour, Jersey, Channel Islands, (Telephone 0534 54524).*

"Whenever possible,  
narrow range antibiotics should be used  
in preference to broad-spectrum drugs"

Antibiotics at Risk, Leading Article, Brit. Med. J. 1975, 2, 582

The vast majority of common  
bacterial infections seen  
in general practice can be  
attributed to just five major  
pathogens—Staphylococcus, Streptococcus,  
Pneumococcus, H. influenzae and  
Mycoplasma pneumoniae.

The spectrum of Erythrocin 500  
covers these pathogens decisively, with  
virtually no 'overspill' and, consequently,  
less risk of resistance developing.

More specific spectrum prescribing  
is the responsible attitude to  
antibiotic therapy.

# Erythrocin® 500
