Imodium
JANSSEN

stops diarrhoea safely and rapidly

unique chemical entity... loperamide (R 18 553) is an entirely new molecule, first synthesized by Janssen Research; the compound specifically inhibits hypermotility by a direct effect on the intestinal wall.

highly effective in acute diarrhoea... quickly relieves spasms and cramps; stops diarrhoea due to gastroenteritis, diet, functional causes, etc.; even more effective than diphenoxylate in double-blind studies.^{1,2}

no incompatibility... no incompatibility with other therapies has been reported.

remarkably safe... contains no atropine, devoid of CNS activity; no adverse effects noted in long-term safety studies.³

patient-controlled dosage schedule... in adults, two capsules to start, one capsule after each unformed stool until bowel function is normalized.

Summary of Prescribing Information

Indications : Imodium is indicated for the control of acute diarrhoea regardless of origin.

Side-effects : no specific drug related side-effects have been reported to date.

Precautions : overdose may lead to constipation. Safety of use in pregnancy has not been established. Imodium should not be used in patients with a known hypersensitivity to the drug and in those in whom inhibition of peristalsis must be avoided (e.g. subobstruction due to a tumour).

Availability : Capsules containing 2 mg of loperamide.

Dosage :

	Adults	Children over 5
Acute diarrhoea	2 caps.	1 caps.
Subsequently after each loose stool	1 caps.	1 caps.

In acute diarrhoea a 5-day period of treatment should be adequate.

Full information is available on request.

A doctor can gain a lot from 5 years in the Royal Navy.

As a qualified doctor, you can join the Royal Navy for 3 or 5 years on a Short Service Commission.

In that time, you'll spend up to a year practising medicine in a Naval ship.

You could have the chance of working and living overseas for a time.

And you'll be able to do your General Professional Training in one of the clinical and medical scientific disciplines at a Naval hospital or an RN establishment.

At sea.

After a short Officers course at the Royal Naval College, Dartmouth, and a basic course in maritime medicine at the Institute of Naval Medicine, Alverstoke, you'll normally go to sea for about 12 months.

You'll be responsible for the medical care of some 250 to 500 men in your ship (and advise the Captain on health and environmental problems).

You won't lose touch with modern medicine, as you can visit local hospitals in ports of call and use the teaching aids provided by your Naval tutor.

Postgraduate training and specialisation.

After your sea-time, career counselling will determine your postgraduate training programme.

There are opportunities for General Professional Training in preparation for a clinical career in general practice, the hospital specialities, or the medical scientific disciplines such as Aviation, Underwater, Submarine and Nuclear Medicine; or in Occupational and Community Medicine.

If you decide to transfer to a 16-year pensionable Commission, or a permanent Commission, you could move on to recognised higher training programmes which include research training and higher training posts in civilian units.

At Alverstoke, the Dean of Naval Medicine co-ordinates postgraduate medical training and research.

Naval hospitals.

The two largest are at Haslar (near Portsmouth) and Plymouth.

They undertake the care of Naval personnel, their families and NHS civilians, providing a broad spectrum of clinical material. Both hospitals are recognised for higher training in the major specialities.

There is a full range of modern, technical equipment, and the nursing and paramedical staff are highly skilled.

There are smaller hospitals in Malta and Gibraltar.

Salary.

If you join us immediately after registration, your salary will be £5,997 as a Surgeon Lieutenant.

You can, however, join at any age up to 39. In that case, your postgraduate experience is taken into account, and you could join as a Surgeon Lieutenant Commander earning £8,015 a year.

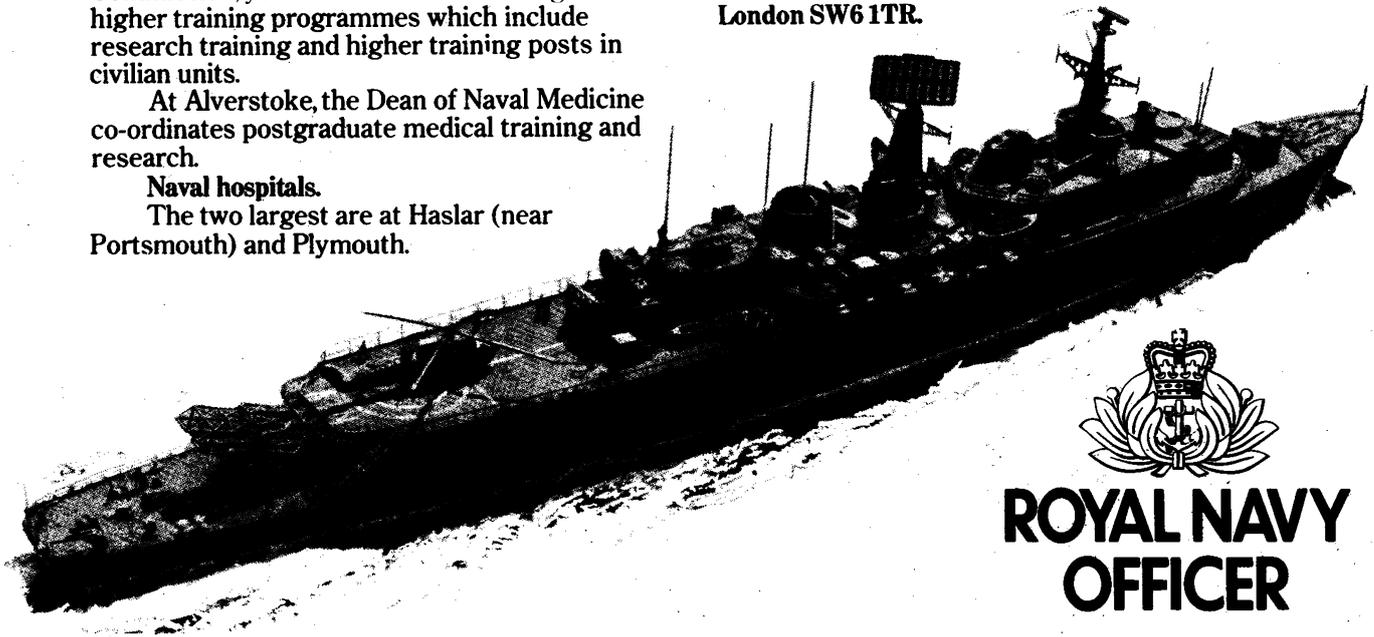

If you leave at the end of your 3 year Commission, you'll receive a tax-free gratuity of £1,500, or, after 5 years, £3,000.

If you decide to stay on, you can apply for a 16-year pensionable Commission or a permanent Commission.

The salary structure is based on an analogue computed from the average earnings of general practitioners in the NHS, with an additional X factor. There is extra pay for recognised postgraduate qualifications and Senior Specialist or Consultant status.

If you're posted overseas, you can, of course, take your family with you. There are, too, generous boarding school allowances for your children, starting at £807 for your first child.

For more information, write to Surgeon Commander H.B. Blackstone, MRCS, LRCP, MRCP, RN, (724 FM17), Medical Directorate General (Navy), Ministry of Defence Empress State Building, London SW6 1TR.

Old typewriters never die. They end up in reception

No self respecting reception should have to put up with a tatty typewriter. Because a machine that looks old and tired types that way too.

The answer? Invest in a fast, reliable, streamlined Adler, and you'll be doing a great job for your practice.

By getting a smart machine that turns out clean professional work. The Gabriele 5000 electric is an example. About half the weight and cost of big electrics, it shares many of their features – 5 repeat keys, 3 repeat function keys, full tabulator and a half space key.

For the receptionist who spends a lot of time typing, we recommend the Adler MX electric. It's cut out for the heavier duties, but pound for pound it costs and weighs significantly less than full size models.

So, if your reception typewriter is showing its age, fill in the coupon or contact your local Adler dealer about the Gabriele and the MX. After all, making the right impression is Adler's business.

**Peugeot 504L diesels.
The exclusive facts.**

Peugeot 504 diesels, saloon and estate. Exceptional economy, especially for the high-mileage motorist, 35 mpg* with Derv at around 65p a gallon.

So on fuel alone you get the cost-per-mile economy of a Mini (think what you'd save in a year!).

And the Peugeot diesel's built-in strength and reliability means even further economies in maintenance and repairs.

But don't imagine that Peugeot diesel economy implies any stark austerity. The superbly-fitted saloon carries five in quiet, smooth luxury. Estate load capacity is 66 cu. ft. Top speed is a healthy 87 mph.* And standard equipment includes reclining front seats, heated rear window, power assisted dual-circuit brakes, radial tyres, anti-theft steering lock, two-speed wipers, laminated windscreen and electric screen washers, hazard warning lights and inertia reel seat belts.

*Source: What Car?

**We've always taken
things seriously.**

Why are Peugeot cars famous for strength? Peugeot is the world's second oldest car manufacturer, and the second largest in France, making nearly ¼ million cars a year. With sales and service throughout the UK. They have a wealth of experience in diesels, producing nearly a million engines over the last 15 years.

And Peugeot engineers combine old fashioned beliefs with modern technology. They say: "if you

can't make it well, don't make it at all." Peugeot make all major components themselves. Their own engines and gearboxes, body panels and shock absorbers. Each part designed and engineered for strength and safety. And every engine, gearbox and completed car given an individual test.

Small wonder you get the lion's share of reliability and safety with Peugeot. Because Peugeot give you the lion's share of strength.

I'd like to know more about Peugeot 504 Diesels Saloon and Estate. Please also send brochures on Peugeot 104 Saloon, 204 Saloon and Estate, 304 Saloon and Estate, 504 Saloon and Estate, 604 Saloon. Personal export facilities . (Delete those you don't require.)

COMMERCIAL APPOINTMENTS

Physicians

New Appointments in Clinical Research

for Allen & Hanburys Research Limited, a major subsidiary of Glaxo Holdings Limited and engaged in the discovery and systematic evaluation of new drugs. Forthcoming company expansion provides the opportunity to appoint two additional physicians in the Medical Department.

Both posts will involve the evaluation of new drugs in patients and healthy volunteers. In one post the major part of the work will be the design, organisation and supervision of clinical trials in the UK and sometimes overseas, whereas in the other the emphasis will be upon clinical pharmacology. Close liaison exists between the Medical Department and other scientists within the Company, as well as with physicians in university departments and other hospitals.

Initial salary will be for discussion, dependent upon experience and qualifications. Benefits include participation in the Group Pension and profit-sharing schemes, and a company car is provided. A local allowance is paid at Ware. Assistance with removal expenses will be given in appropriate circumstances.

Physicians with a sound Medical background who are interested in a career in clinical research should write briefly in the first instance to:-

Dr. D. A. Richards,
Head of Medical Department,
Allen & Hanburys Research Limited,
Priory Street,
Ware, Herts. SG12 0DJ.

COMMERCIAL APPOINTMENTS

Wellcome

Applications are invited from

Registered Medical Practitioners

for interesting and challenging posts in the Clinical Research Division at the Wellcome Research Laboratories.

The Clinical Research Division is responsible for prelicensure phases of the clinical development and assessment of potential new therapeutic agents in all parts of the world excepting the United States. At present over 70 staff are employed, and the Division is expanding. The successful applicants would be concerned particularly with new and existing agents used:

in the Treatment of Neoplastic Disease; in the Modulation of Immune Responses; or with Vaccines and Sera.

They will be expected to participate in research projects which require liaison with laboratory scientists at The Wellcome Research Laboratories and medical research groups both in the United Kingdom and abroad.

The work provides opportunities for original clinical research. Participation in scientific meetings and publication of results are encouraged. Work at the Wellcome Research Laboratories might be combined with an appropriate hospital clinical appointment.

Applicants should have several years postgraduate medical experience. A higher medical qualification would be advantageous as would previous experience in the specialities concerned, but these are not essential.

The Laboratories are located in pleasant parkland 12 miles south of the centre of London. Salary will be according to age and experience, and fringe benefits are excellent including generous relocation expenses where appropriate.

For further information
and an application form write to

Applications are invited for the post of **RESIDENT SENIOR HOUSE OFFICER** in the Accident and Emergency Department of Ancoats Hospital. The successful candidate will be one of a team of casualty officers with a senior casualty officer (Medical Assistant Grade) providing 24 hour cover on a rotation basis. This is a new Accident and Emergency unit in a busy General Hospital in the centre of the city, comprising general medicine, general surgery, traumatic and orthopaedic surgery and E.N.T. surgery, which gives invaluable experience. The appointee will mainly be required to work 40 hours and there are adequate facilities for study at the nearby University and at the post graduate medical centre at North Manchester General Hospital. The post is recognised for F.R.C.S. Married accommodation may be available if required. Post vacant immediately.

Applications with the names and addresses of two referees should be forwarded to the District Administrator, Manchester Area Health Authority (T), North District, Central Drive, Crumpsall, Manchester M8 6RL immediately. (30272) 51-8

APPOINTMENTS

Applicants for medical appointments are advised to check whether the post advertised is included in the Important Notice and to scrutinize carefully the remuneration and terms of service offered. Any member who is in doubt about these terms in relation to B.M.A. agreements should consult the Secretary of the Association.

Advertisers are reminded that the Race Relations Board insists that no descriptive term implying racial, national, or ethnic characteristics may be used in any advertisement. Further, readers are advised not to apply for any appointment which discriminates between applicants on grounds of creed or unreasonably on grounds of sex.

HOSPITAL APPOINTMENTS

Applicants should state names, address, age, nationality, and qualifications, and envelope (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given: Convassing disqualifies (Statutory Instrument, 1974, No. 361).

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters should be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association.

In particular, they will find full details of facilities provided in most hospitals in the United Kingdom in the current edition of the Hospital Gazetteer. If such details are not included members are advised to consult the Secretary of the B.M.A.

Applicants requiring hospital married accommodation are strongly advised to obtain, prior to interview, clarification in writing from the employing authority as to whether such accommodation will be available on appointment.

Advertisements for post-registration house officers, senior house officers and registrars should state clearly whether the post is resident, i.e. compulsorily resident.

In all advertisements grade should be clearly indicated. Normally a consultant vacancy must be advertised as (a) part-time with the number of sessions clearly stated, or (b) whole-time with the option of maximum part-time.

In the view of the B.M.A., an advertiser should not insist on possession of English higher qualifications in preference to Scottish or Irish qualifications (or vice versa).

Medical Officer

Algeria

We are major consultants to the Algerian Steel Authority engaged in a £500m expansion of the Annaba Steelworks.

We are looking for a Medical Officer to provide an ongoing General Practitioner service for our team of engineers in Annaba. We have 170 staff on site who, together with their families, make up a community of some 350 expatriates. A Company Doctor has been holding down this post for two years and useful contacts have been established with the local Medical Authorities and Hospitals. Excellent facilities are available in Annaba including a modern, well-equipped surgery.

The ability to speak at least some French is important and an initial standard of 'O' level or equivalent, is required. It will be expected that the successful candidate will reach a minimum standard sufficient to communicate with French only speaking

people in a reasonably short time after arrival in Algeria. Short intensive courses can be arranged before departure, supplemented by classes on site.

We offer a two, possibly three, year contract in the first instance (renewable by mutual agreement) together with an attractive salary amounting to approximately twice UK earnings, free furnished accommodation and a Company car.

Primary education is available in the Company's own English School in Annaba and education allowance and fare paid travel is provided for older children.

Please write briefly in the first instance giving career details, to Mr G J Dempsey, W S Atkins & Partners, Woodcote Grove, Ashley Road, Epsom, Surrey, or telephone Epsom 26140 extension 2686 for an application form.

TARANAKI HOSPITAL BOARD
Hawera Hospital, New Zealand

ANAESTHETIST
(Whole or Part-time)

Applications are invited from suitably qualified medical practitioners for the position of Anaesthetist, either whole-time or on a not less than 7/10ths sessional basis, at the Hawera Hospital in Hawera. It is hoped that the appointee will be a specialist holding a higher qualification in anaesthesia but applications should be submitted also by persons not holding a higher qualification but who have a special interest and experience in the field of anaesthesia. Hawera Hospital has 117 general beds and is well equipped for a hospital of its size. The average occupancy last year was 88. Conditions of employment will be in accordance with the New Zealand Hospital Service Determination for medical officers. The salary for a specialist will be within a nine step scale NZ\$14,256/\$18,365 a year with automatic annual increments to the maximum. An appointee not being a specialist will hold the position of medical officer of special scale on a salary within the range NZ\$9,933/\$17,294 a year with intermediate steps within six scales. These rates are subject to an additional cost of living allowance of NZ\$7 a week. Salary for a part-time appointee will be in proportion to the hours worked and the commencing salary in either case will be determined by the Medical Officers' Salaries Grading Committee. The hospital serves a closely settled prosperous farming area with a population in excess of 22,000. The area has a temperate climate, attractive countryside and excellent educational facilities for the family. Sporting activities such as shooting, fishing, ski-ing, golf etc. are easily available and relatively inexpensive. Considerable assistance towards fares and removal expenses can be given to whole-time or substantially whole-time appointees, subject to a contract of minimum service.

Conditions of appointment and application forms are available on airmail request from the Secretary, Taranaki Hospital Board, Private Bag, New Plymouth, New Zealand, with whom applications close on 26th November, 1976. (24008) 118

**THE ROYAL AUSTRALASIAN
COLLEGE OF PHYSICIANS**

**DIRECTOR OF
CONTINUING MEDICAL EDUCATION**

Applications are invited from graduates in medicine for the position of Director of Continuing Medical Education of The Royal Australasian College of Physicians. It is expected that the successful applicant will have the qualifications and experience to establish and direct a Centre for Continuing Medical Education to provide for the needs of physicians in Australia, New Zealand and South-East Asia. The Centre will be established in accordance with the recommendations made by the Advisory Committee on Continuing Education which were based on the report of Dr. D. R. Wilson, Guest Director of Continuing Medical Education, presented to Council in May 1976. The centre will initially be located adjacent to the College headquarters in 147 Macquarie Street, Sydney. A salary equivalent to a professional salary is envisaged and will be subject to negotiation and dependent on qualifications and experience. It is intended that the College negotiates a position of suitable status for the Director in a University Department of Medicine, and that this be either clinical or educational. The appointment is to be made as soon as possible, the date of commencement being subject to negotiation. A College superannuation scheme is available. Reasonable removal expenses would be negotiated. The appointment, the facilities available, the reports to Council of Advisory Committee on Continuing Education and the Wilson Report are available from the Honorary Secretary. The closing date for applications is 31st December, 1976.

Applications must provide personal details and the names of three referees, and be forwarded to the Honorary Secretary, The Royal Australasian College of Physicians, 145 Macquarie Street, Sydney, NSW 2000, Australia. (H12809) 118

CYCLO-PROGYNOVA

Effective therapy for all menopausal symptoms

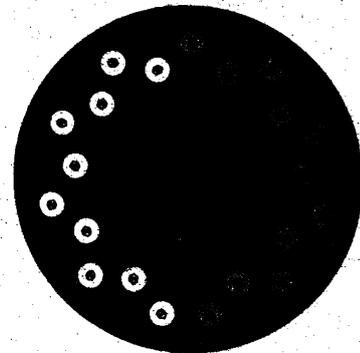

Pre-menopausal

Where bleeding has occurred during the past 12 months.

Cyclo-Progynova

Provides highly effective treatment of menopausal symptoms.

Corrects erratic cycles.

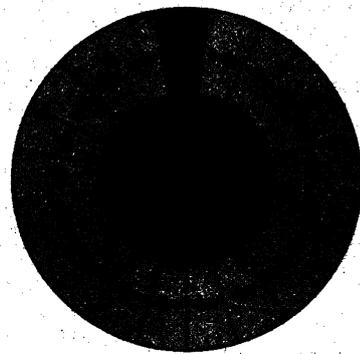

Post-menopausal

Where bleeding has not occurred during the past 12 months.

Cyclo-Progynova

Provides highly effective treatment of all menopausal symptoms where a predictable monthly bleeding is both reassuring to the doctor, and acceptable to the patient. Where patient and doctor consider re-introduction of bleeding undesirable, Progynova* offering only the oestradiol, provides highly effective treatment of menopausal symptoms.

N.B. Cyclo-Progynova should not be relied upon for contraception.

Cyclo-Progynova Product Information

Presentation
Circular memo-pack holding 11 white tablets each containing 2mg oestradiol valerate and 10 orange tablets each containing 2mg oestradiol valerate and 0.5mg DL-norgestrel.
All tablets are sugar-coated with 'B' in a regular hexagon printed on each side.

Uses
1) The alleviation of symptoms characteristic of the menopause. Cyclo-Progynova may be used both before and after the menopause.
2) The correction of irregularities of the menstrual cycle caused by abnormal oestrogen production and diminishing corpus luteum function in the menopause approaches.
N.B. Cyclo-Progynova should not be used as an oral contraceptive.

Dosage and administration
Patients still having periods may start tablet-taking on the fifth day of the cycle, commencing the first day of bleeding as day one. Patients whose periods are very irregular or non-existent may start taking the tablets at any time. The memo-pack sticker should be smoothed so that the starting day is correctly indicated in the red section.

One white tablet is taken daily for eleven days, followed by one orange tablet daily for ten days. An interval of seven days follows each pack, during which bleeding will normally occur.

Contra-indications
Severe disturbances of liver function, jaundice or persistent itching during a previous pregnancy, Dubin-Johnson syndrome, Nausea syndrome, existing or previous thrombo-embolic processes (including strokes), risk-to-risk movements, existing or treated cancer of the breast or the endometrium, adenomatous polyps, unexplained uterine, congenital (disorders of lipid metabolism, a history of lapses of pregnancy, associated with deterioration in previous pregnancies.

Warnings/Side-effects
Some women are predisposed to diabetes during steroid therapy. Urinary bladder may be affected by oestrogens and should be checked frequently.
Note: Treatment should be stopped at once if jaundice or pregnancy occur or if there is a significant rise in blood pressure. Cyclo-Progynova is designed to produce regular withdrawal bleeding and it should be realized that although occasional spotting or breakthrough bleeding may occur during the course of tablet use, persistent irregular bleeding should be investigated by a gynaecologist.

Precautions and special instructions
As with other oestrogen-progestagen formulations, periodical gynaecological examinations are advised for patients receiving long-term treatment with Cyclo-Progynova. In patients with chronic liver disease, liver function should be checked every 8-12 weeks.
Irregular bleeding during tablet-taking should be investigated. The use of Cyclo-Progynova with an oral contraceptive is not recommended.

Overdosage
Toxic effects of overdosage have not been reported, but, if desired, gastric lavage can safely be used. There are no special antidotes, and further treatment should be symptomatic.

Pharmaceutical precautions
Store in cool, dry conditions. Shelf-life five years.

Daily Tenormin

ONE DAILY FOR HYPERTENSION

The chances are they'll take it.

TENORMIN, a major new antihypertensive, is receiving an exceptionally favourable response from trialists throughout the UK. (writes our Medical Correspondent).

The enthusiasm of trialists is based largely on the product's simple dose without complications. Thus, Tenormin provides a simple, effective programme to encourage long-term compliance in the treatment of hypertension.

One daily

One tablet a day is seen as a singular advance in antihypertensive therapy. The effect of the drug is to lower blood pressure within 48 hours in most patients without producing postural effects.

Well tolerated

Tenormin's side effects, say the trialists, are at a new low level. Or, as one trialist puts it "...atenolol [Tenormin] is almost as well tolerated as placebo..."¹ coupled with a single daily dose means that patient acceptance is likely to be high.

Cardioselective

Tenormin is highly cardioselective and thus preserves the asthmatic patients beneficial response to bronchodilators.²

Well-being

Many patients on Tenormin have reported a "...feeling of well being..."³ and, in fact, are happy to continue a normal life-style.

And that, of course, combined with Tenormin's other benefits, means fewer problems for the overworked practitioner.

Nationwide trials confirms TENORMIN'S simple effectiveness.

TENORMIN

Full prescribing information is available on request from Stuart Pharmaceuticals Limited, Carr House, Carrs Road, Cheadle, Cheshire SK8 2EG.

'Tenormin' is a trademark for atenolol.
