

STATISTICS AT SQUARE ONE

by T. D. V. SWINSCOW

from the British Medical Journal

The statistical testing of data is indispensable in many types of medical investigation and a help on countless occasions in clinical practice. This book provides step-by-step instruction. Subjects covered include standard deviation, χ^2 tests, t tests, non-parametric tests and correlation. Methods specially adapted to pocket calculators.

"The ability to put symbols in sequence may well be one of the greatest advances in man's development. . . . This excellent and attractive volume will give you an idea into which category an article or projected article fits. The ink you save may be your own. It is superb value."

O'Donnell, Barry, *British Medical Journal*, 1977, 1, 451.

"... this gem of a practical booklet squeezes the essence of biostatistics into 75 well-written, well-organized pages. Newcomers to the field will like the way obscure concepts are clarified; experts will find the book valuable as a teaching aid."

de Jong, Rudolph H., *J.A.M.A.*, 1977, 237, 1874

NON-MEMBERS RATE: Minimum charge £3.30 for eighteen words, additional words at the rate of £1.10 for each six or less. Name and address count word for word. A Box Number counts as three words, and an additional charge of 40p is made for sorting and forwarding Box Number replies.

APPOINTMENTS: EDUCATIONAL: NOTICES AND HOMES: Minimum charge £2.88 for four lines and 72p for each additional line. Box Number address counts as one line, and 40p to be added for postage of replies.

GENERAL AND COMMERCIAL (TRADE): Personal: Accommodation: Nursing: Consulting Rooms: Houses and Property: Travel: Hotels: Nursing: Medical and Secretarial Agencies: Commercial. Minimum charge £3.60 for 18 words including name and address and telephone number. Each additional six words or less £1.20. Box No's count as three words. Advertisers using a box number should add 40p for postage replies.

Semi-Display Advertisements

£5.50 per single column cm and pro rata. Full page £550. Half page £275. **Mechanical Data:** Classified: col. length 25.7cm, single col. width 4.4cm, double col. width 9.3cm, 3 col. width 14.2cm, full page width 19.1cm. Minimum depth of semi-display advertisements is three single column centimetres. Complete artwork required for s.c. semi-display advertisements. Printed offset litho.

All classified advertisements, subject to approval, will appear in the forthcoming issue provided they reach this office not later than 10a.m. on the Friday of the week preceding date of issue. Semi-display advertisements must reach this office by 10a.m. on the Tuesday of the week preceding date of issue.

Cancellation and corrections of advertisements must be received before 12 noon on the Friday of the week preceding date of issue (issues affected by public holidays excepted).

It is requested that when stamped addressed envelopes are enclosed in response to advertisements advertisers will ensure that a reply is sent.

Every effort is made to ensure the accuracy of advertisements appearing in the Journal. No recommendation is implied by acceptance, and the Editor of the *British Medical Journal* reserves the right to refuse, discontinue or interrupt the insertion of any advertisement.

NOTICE TO READERS

REPLIES TO BOX NUMBERS. The names and addresses of advertisers under box numbers are held by us in strict confidence and cannot be disclosed. Each Box Number should be addressed separately. Two or more replies can be enclosed in one envelope. The replies will be forwarded to the advertisers in plain envelopes.

NOTICE TO SUBSCRIBERS

United Kingdom and Irish Republic Edition. The annual subscription rates for members of the medical profession who are not members of the B.M.A. is £40.00. Subscriptions can be ordered direct from the Subscription Manager, *British Medical Journal*, B.M.A. House, Tavistock Square, London WC1H 9JR, or through any leading subscription agent or bookseller.

Overseas Edition (not containing classified advertisements). The rate for non-members is US\$56.00 or the equivalent in local currencies, direct from the Subscription Manager. Orders can also be placed through any leading subscription agent or bookseller. Readers in the U.S.A. can send their subscription order with or without payment to: *British Medical Journal*, 1172 Commonwealth Avenue, Boston, Mass. 02134.

Single Copies of issues published in the current year cost 80p in the United Kingdom and Irish Republic and US\$2.00 overseas. Back number prices on application to the Subscription Manager.

What the papers say

Shortest Acting

"With doses up to 1 mg, the natriuresis was largely complete within 3 hrs."³
 "It (Burinex) has a short duration of action, being virtually complete in 3 hrs."⁴

Fast Acting

"The rapid absorption from the gastrointestinal tract is reflected in the brisk diuresis established within the hour."¹
 "Its (Burinex Injection) onset of action is within 10 min."²
 "Bumetanide is rapidly absorbed from the gut."³

Clinically Effective

"Fourteen patients showed a good diuretic response on bumetanide where previous treatment with frusemide had proved either unsatisfactory or too slow."⁵
 "An impressive diminution of the signs of pulmonary oedema was seen in most patients and in some the clearance of alveolar oedema was dramatic."⁶

"Based upon our experience with the use of bumetanide in several hundreds of patients and the detailed studies reported above, it may be concluded that this new diuretic agent is a very useful drug in the treatment of congestive cardiac failure."⁷

"Our study... confirms that bumetanide is a potent diuretic effective over a wide dose range and in a variety of clinical conditions."¹

Well tolerated

"Burinex was extremely well tolerated."¹²
 "Bumetanide was well tolerated by patients."¹
 "Overall, bumetanide showed itself to be a safe and effective diuretic when administered to severely ill patients in a busy hospital milieu."⁵

The correct amount of K

"It is known from short-term studies that 1 mg. of bumetanide increases the excretion of potassium by 10-15 mmol daily (Asbury et al, 1972; Olesen et al, 1973; Davies et al, 1974). Two tablets of the combined preparation Burinex K contain 1 mg. of bumetanide and 16 mmol of potassium."⁸

At the correct time

"35% of the potassium chloride is released by one hour, the rest being released over a period of six hours."⁴

The Morning OR Evening diuretic

"The rapid onset and short duration of action of loop diuretics are clearly desirable when a rapid diuresis is indicated, and when given in the evening to patients with chronic heart failure, the short duration of action can ensure a good nights sleep undisturbed by nocturia or breathlessness."⁹

"The use of potent and short-acting diuretics such as bumetanide allow the Physician and patient scope to decide upon the most appropriate time for administration and so reduce major disruptions in the patient's daily routine."¹⁰

"Patients who go out to work may find Burinex K given in the evening more socially acceptable."¹¹

Patients prefer Burinex K

"These results indicate that when long-term diuretic/potassium supplement therapy is required, Burinex K is a more acceptable regimen to the patients than one in which diuretic + Slow K are given separately."¹³

"Patients showed a highly significant preference to take two tablets on one occasion (Burinex K) rather than two different types of tablet on three separate occasions (Lasix + K)."¹⁴

*Burinex is a trade mark

... But of course the decision is yours.

Rx Burinex K*

Tablets contain 0.5 mg bumetanide with a slow release core of 573 mg (7.7mEq) of potassium chloride.
