

# the fungicidal breakthrough

Scanning Electron Microscopic photographs of *Candida albicans* before and after treatment with miconazole.

1. Untreated cells appear as isolated yeast forms in an oval shape and with a smooth surface showing the formation of polar buds (pb).

2. Upon exposure to a fungistatic dose ( $10^{-7}$  M) of miconazole the cells tend to cluster. Budding becomes disorganized with visible budding scars (bs) that are randomly distributed over the surface of the cells.

3. Treatment with a fungicidal dose of miconazole causes the cell wall (cw) to burst. Vesicles of cytoplasm disintegrate and adhere to the surface of yet unbroken cells (cpr). (The interior of the cells is completely lytic).

# The Doctors' Sickness and Accident Plan

Most Doctors' can cope with short periods of sickness or injury – the financial problems arise when it stretches into weeks or months.

Under this plan you can take out as many annual units of £1,000 each as you feel appropriate, up to 15, provided that the total you insure for does not exceed 60% of your earned income, because under current tax practice, the income is paid to you tax free for at least the first year. In addition you will normally receive State benefits.

Furthermore, the benefit is paid regularly every month until you are fit for work, if necessary, up to retirement age of 65.

Our Sickness and Accident Plan comes into operation only after you have been unable to work for 4, 13 or 26 weeks. A quick glance at the table below shows what we mean, and it is up to you to decide how long a waiting period would suit you best.

Premiums are returned in respect of any period during which you are receiving a benefit under the Plan.

Cost for each year for every £1,000 worth of annual income to age 65\*  
(Maximum age at entry 54)

Age Next Birthday to age 24	Waiting Period		
	4 weeks	13 weeks	26 weeks
25-29	£11.30	£6.00	£4.40
30-34	£13.00	£7.90	£6.00
35-39	£15.20	£9.40	£7.20
