Range—during week, 28 degrees; mean daily, 17.1 degrees.		
Mean humidity of air (saturation=100), 89.		
Mean direction of wind, Var.—Rain in inches, 1.57.		

TO CORRESPONDENTS.

*. * All letters and communications for the JOURNAL, to be addressed to the EDITOR, 37, Great Queen St., Lincoln's Inn Fields, W.C.

CORRESPONDENTS, who wish notice to be taken of their communications, should authenticate them with their names—of course not necessarily for publication.

P. S.—The following are the facetious words used by Lord Chelmsford at the dinner of the British Medical Association, when he returned thanks for the Navy:—

"My connection with the navy was so long ago, as to be rather a dream than a remembrance: and I am not sure whether I should be considered a suitable representative by the sailors, having paid them the bad compliment of leaving them for a profession which they hold in very small respect. Lawyers are called by them land sharks; and, having become one of those voracious animals, it can only be because through a species of transmigration I entered into the Great Seal, that a sailor could look upon me with any favour. I look back with pride to the time when I was associated with the brave defenders of our country; and England may rest assured that the day will never come when she will expect in vain each man amongst them to do his duty."

MEMBERS PRESENT AT THE ANNUAL MEETING.—The name of Dr. Tunstall, of Bath, was accidentally omitted from the list of those who were present at the recent meeting of the British Medical Association.

ENGRAVING OF THE LATE DR. RIGBY.—A correspondent writes:—"Will you call attention to the circumstance of no engraving of the late Dr. Rigby having as yet been sent to the subscribers."

COMMUNICATIONS have been received from:—Mr. J. VOSE SOLOMON; Dr. SHARPEY; Dr. DOBELL; Dr. GIBBON; Mr. BOWMAN; Mr. J. F. WEST; Mr. A. GOODCHILD; Mr. T. J. WALKER; Mr. G. KERSWILL; Mr. HENRY THOMPSON; Mr. BERKELEY HILL; Dr. J. TUNSTALL; Mr. C. H. MARRIOTT; Dr. EDWARD COPEMAN; Dr. A. W. WILLIAMS; Mr. B. HOLT; Mr. SANKEY; and Mr. A. W. ENGLISH.

A CUP OF COFFEE IN ONE MINUTE.

Dunn's Essence of Coffee, War-
ranted to Keep Good in any Climate.

This Essence of the finest kinds of Coffee, improved by a process, the result of the experience of more than half a century, contains all the fragrant and exhilarating properties of the Coffee in the highest perfection. It is admirably adapted to persons travelling, and to Officers in the Army and Navy.

Extracts from the "Commercial Handbook of Chemical Analysis," by A. Normandy, M.D.

"Coffee is met with in commerce as a manufactured article in the state of Essence, or rather Extract of Coffee. That preparation, providing it be genuine, is peculiarly adapted to the use of Travellers, who are thus enabled to procure a cup of good Coffee without trouble or apparatus. Of all the attempts which have been made to manufacture such an Extract, and of most of which I have had samples, I have found on examination that

only one kind, that manufactured by DUNN, of Pentonville, would keep.

"I think I can confidently assert that DUNN'S Essence of Coffee is the only one which has stood ground; all other attempts, for some reason or other, have hitherto proved failures, and eventually have been abandoned."

Sold in bottles from 1s. to 2s. each.

DUNN'S UNADULTERATED CHOCOLATE and COCOA.
DUNN'S CHOCOLATE BON-BONS, CHOCOLATE DROPS,
CHOCOLATE STICKS etc., and every kind of French Chocolate.

All articles manufactured by the firm of DUNN and HEWETT are guaranteed free of adulteration under a penalty of £50, to be given to some charitable institution, if found at any time adulterated, under certificate of Dr. Normandy, Analytical Chemist to the House of Commons.

Manufactory, Pentonville, London.—To be had of all Grocers.
