

## SUBSCRIPTIONS.

THE following Laws of the Association will be strictly enforced:—

15. The subscription to the Association shall be One Guinea annually; and each member on paying his subscription shall be entitled to receive the publications of the Association of the current year. The subscriptions shall date from the 1st of January in each year, and shall be considered as due unless notice of withdrawal be given in writing to the Secretary on or before the 25th of December previous. If any member's subscription remain unpaid twelve months after it shall have become due, the publications of the Society shall be withheld from such member until his arrears be paid.

16. The name of no member shall remain on the books of the Association, whose arrears extend over three years; but the omission of the name from the list of members shall not be deemed, either in honour or equity, to relieve any member from his liability for the subscriptions due for the period during which he has availed himself of the privileges of membership.

PHILIP H. WILLIAMS, M.D., *General Secretary.*

## ADVERTISEMENTS.

## Williams &amp; Son's Pure Glycerine

SOAP, analysed by Dr. HOFMANN, F.R.S., and Professor REDWOOD, Ph.D., strongly recommended by many eminent Members of the Medical Profession, and favourably noticed by the following Medical Journals.

The *British Medical Journal*.  
The *Lancet*.  
The *Medical Times and Gazette*.  
The *Medical Circular*.  
The *Edinburgh Medical Journal*.  
The *Dublin Hospital Gazette*.

It is suited to all cases of delicate skin (whether arising from disease or otherwise), and is admirably adapted for nursery use. May be had of all respectable Chemists, Perfumers, etc.

SOAP WORKS, CLERKENWELL, LONDON, E.C.

## For Varicose Veins and Weak-

NESS. Very superior SURGICAL ELASTIC STOCKINGS and KNEE-CAPS, on a New Principle, pervious, light in texture, and inexpensive, yielding an efficient and unvarying support, under any temperature, without the trouble of Lacing or Bandaging. Likewise, a strong low-priced article for Hospitals and the Working-classes.

ABDOMINAL SUPPORTING BELTS for both Sexes, those for Ladies' use, before and after accouchement, are admirably adapted for giving adequate support with EXTREME LIGHTNESS—a point little attended to in the comparatively clumsy contrivances and fabrics hitherto employed.

Instructions for measurement and prices on application, and the articles sent by post from the

Manufacturers,

## Aloina.—The discoverers of this

(vide "Edinburgh Monthly Journal of Medical Science for Feb. 1851), the CRYSTALLINE PURGATIVE PRINCIPLE OF ALOES, continue to prepare and supply it. They have the gratification of knowing that the most eminent of the profession prescribe it, to the exclusion altogether of the various kinds of aloes. Orders executed direct or through any Drug house, by T. & H. SMITH & CO., 69, Coleman Street, London, and 21, Duke Street, Edinburgh.

## JozEAU'S Copahine Mege.

Or SACCCHARATED CAPSULES. — Copaiha and Cubebs are doubtless the best remedies, but these drugs are of a repulsive taste and odour, and occasion colicky pains, nausea, and gastric disturbance. M. JozEAU has succeeded in rendering these valuable therapeutic agents perfectly innocuous, by increasing, in his Copahine, all the curative properties. This preparation has been adopted by the Paris Academy of Medicine, after more than a thousand trials in Paris, and the different London Hospitals, viz., St. Thomas's, Guy's, and St. Bartholomew's, under the care of Messrs. Lloyd, Poland, and Le Gros Clark. "Lancet" Nov. 6, and Dec. 10, 1852. The Copahine which is in form of a pretty pink sugar-plum, effects a cure in about six days, either in recent or chronic diseases. 100 Capsules, 4s. 6d. at G. JOZEAU'S, French Chemist, 49, Haymarket, London; 22, Rue St. Quentin, Paris; and all the most important Chemists.

TO SURGEONS, APOTHECARIES, AND DRUGGISTS.

## Bouchardat's Gluten Bread,

SEMOLA, and CHOCOLATE, for Consumption, Diabetes, and General Debility.

"Gluten Bread may be eaten like ordinary toast with any meal, whilst the Semola may be prepared with milk, and taken separately or in puddings. In the treatment of Consumptive Patients, we attach very great value to the use of these substances. Their action is to increase the activity of all vital functions, since, by so largely increasing the evolution of Carbonic Acid, they must aid in the transformation of Starchy and other Hydro-carbonaceous foods, and at the same time the Nitrogen supplies the element requisite for the formation of the tissues of the body. Hence they increase assimilation."—"Consumption in its Early and Remediable Stages," by Edward Smith, LL.B., F.R.S.
