Diseases of Women. By

LAWSON TAIT, F.R.C.S., Surgeon to the Birmingham Hospital for Women, etc.

"The distinguished merit of this book is its originality and practical character."—*Med. Times & Gazette*.

"It abounds in valuable hints as to diagnosis and treatment, which cannot but prove most useful to the general practitioner, while in it the gynaecologist will find the most recent theories as to the etiology and pathology of these affections, many of the views put forward being striking and original."—*Dub. Med. Jour.*

WILLIAMS & NORGATE, London and Edinburgh.

Malarial Poisoning, Agues,

etc.: Their PREVENTION and CURE. Being the Experiences of a Long Residence in an Ague District. By the Rev. RICHARD B. HAM, M.A., late Rector of Queenborough. With an Introduction by HORACE DOBELL, M.D.

"A remarkable little book... particularly valuable to all who are exposed to malarial or ague influences."—*Batham and Rochester News*.

London: WERTHEIMER, LEA, & Co., Circus Place, London Wall.

Second Edition, in 2 Vols., 8vo, Revised or Rewritten, and enlarged throughout, with nearly 1,000 Illustrations, chiefly new and original, 31s. 6d.

The Science and Practice of SURGERY.

By FREDERICK J. GANT, F.R.C.S., Senior Surgeon to the Royal Free Hospital.

With Chapters on Special Subjects by: Wm. Adams, F.R.C.S.; Robert Barnes, M.D., F.R.C.P.; Morell Mackenzie, M.D.; F. A. Mahomed, M.D.; Hy. Power, F.R.C.S.; Laidlaw Purves, M.D.; C. S. Tomes, M.A. Oxon., F.R.S.; Professor Erasmus Wilson, F.R.S.

"In Mr. Gant's able and laborious work, the reader has the advantage of mature experience in special subjects, that are either omitted or very lightly referred to in ordinary works on surgery."—*Lancet*.

"This work does credit to the author's thorough surgical knowledge, and may be safely recommended as containing full and trustworthy information on the various divisions of surgery."—*Brit. Med. Jour.*

"We shall be much surprised if it does not become one of the most popular surgical text-books in the English language."—*Medical Press*.

"A very complete and trustworthy guide to practice."—*Medical Times*.

"It is well known that Mr. Gant has made special studies of diseases of the genito-urinary organs and of the joints; and has come to be considered one of the highest authorities in all that pertains to the management of these troublesome affections."—*Philadelphia Medical Times*.

"The author has evidently taken great pains to bring his treatise up to the times, as a work of reference as well as a text-book for the Student."—*New York Med. Journal*.
