Clinical Lectures on Diseases

of BONE. By C. MACNAMARA, Surgeon to the Westminster Hospital, Surgeon-Major H.M. Indian Med. Service; also of the Royal Westminster Ophthalmic Hospital.

"Old ruts are left without any sacrifice of usefulness, and the practical instruction is very sound."—*The Lancet*.

"One could hardly have a better guide in the various questions of treatment of disease of bone than the author."—*British Medical Journal*.

"The chapter on tuberculous diseases of the joints is especially interesting."—*American Jnl. of Med. Science*.

"The form in which these lectures are laid before his audience is a model of class instruction."—*Practitioner*.

London: MACMILLAN & Co.

With 13 Illustrations, 8vo, 2s. 6d.

How to Use a Galvanic

BATTERY. By HERBERT TIBBITS, M.D., F.R.C.P. Edin., Senior Physician to the West End Hospital for Paralysis and Epilepsy.

"In a pamphlet of a little over fifty pages, Dr. Tibbits has managed to compress a large amount of information of just the kind that the practitioner requires, and we can recommend it as a really useful practical guide to the subject."—*The Lancet*.

J. & A. CHURCHILL, New Burlington Street.

Now ready, royal 8vo, 18s., Ten Coloured Plates.

The Throat and its Diseases,

with 100 Typical Illustrations in Colour, and 50 Wood Engravings, designed and executed by the Author, LENNOX BROWNE, F.R.C.S. Ed., Senior Surgeon Central Throat and Ear Hospital, etc.

"Eminently suited to meet the wants of the class for whom it is designed—viz., those engaged in the active practice of their profession."—*Amer. Jour. Med. Sciences*.

"Essentially clinical and practical."—*Brit. Med. Jour.*

BAILLIÈRE, TINDALL, & Cox, King William St., Strand.

Just published, with over 100 Illustrations, 8vo, 5s.

A Practical Introduction to

A MEDICAL ELECTRICITY. By A. DE WATTEVILLE, M.A., B.Sc., M.R.C.S., Assistant-Physician to the Hospital for Epilepsy and Paralysis; late Electro-Therapeutical Assistant to University College Hospital.

"We heartily commend the book to the careful study of those who are interested in electro-therapeutics."—Dr. RUSSELL REYNOLDS, F.R.S., in *Brain*.

"We can honestly recommend the book to our readers as an admirable practical guide to electro-therapeutics."—*Dub. Med. Jour.*

"On the question of treatment, the directions are reduced to something like scientific precision."—*Med. Examiner*.

"We give the author a sincere welcome, and look forward to his doing great service in the department of medicine in which he has fortunately engaged."—*Westminster Review*.

"It is an exceedingly able *exposé* of the physical questions involved in applying electricity medically; and it contains also a number of practical hints which will be found of great advantage to those who intend occupying themselves with the various applications of electricity in general practice.... and who wish a short, clear, and accurate summary of what is known on the subject."—*Practitioner*.

London: H. K. LEWIS, 136, Gower Street.

Tablets of Anatomy and

PHYSIOLOGY, by THOMAS COOKE, F.R.C.S., Senior Assistant Surgeon to the Westminster Hospital, and Lecturer at the School of Anatomy, Physiology, and Operative Surgery. Second Edition, containing most of the new discoveries:—Anatomy, 15s.; Physiology, 10s. (Longman and Co.)

"In the fewest words and plainest language, they contain, in about one-tenth the space, the matter which is found in the most accredited standard works."—*Lancet*.

"Probably no Anatomical or Physiological work is more universally appreciated."—*Students' Journal*.

Now ready, Part X, with 4 Coloured Plates (13 Figures), imp. 4to, 7s. 6d.

Godlee's Atlas of Human

ANATOMY, accompanied by an Explanatory Text. J. & A. CHURCHILL, New Burlington Street.

Nearly ready, fcap. 8vo, 7s.

The Student's Outlines of

MEDICAL TREATMENT. By SAMUEL FENWICK, M.D., F.R.C.P., Physician to the London Hospital.

J. & A. CHURCHILL, New Burlington Street.

In October, crown 8vo.

The Riviera: Sketches of the

Health Resorts of the North Mediterranean Coast of France and Italy; with Chapters on the General Meteorology of the District, its Medical Aspect and Value, etc.

By EDWARD I. SPARKS, M.A., B.M. Oxon., Fellow of the Royal College of Physicians; late Physician to the Skin Department of Charing-cross Hospital, and to the Royal Infirmary for Children and Women.

J. & A. CHURCHILL, New Burlington Street.

Now ready, 8vo, 1s.

Remarks on the Routine Use

of the OPHTHALMOSCOPE in CEREBRAL DISEASE.

By J. HUGHLINGS-JACKSON, M.D., F.R.C.P., F.R.S., Physician to the London Hospital and to the National Hospital for the Epileptic and Paralyzed.

J. & A. CHURCHILL, New Burlington Street.
