FIGHT BACK AGAINST CANCER

It is good to remember that most people live their lives untouched by any form of cancer.

But as all too many are aware, cancer is something that casts its shadow far beyond those it directly affects. That is why so many people think it right to help the urgent work of the Imperial Cancer Research Fund.

From our discoveries in the past has come much of today's hope for sufferers. To go forward with our research for future alleviation, we ask *your* help in the present.

The Doctors' Sickness and Accident Plan

Most Doctors' can cope with short periods of sickness or injury – the financial problems arise when it stretches into weeks or months.

Under this plan you can take out as many annual units of £1,000 each as you feel appropriate, up to 15, provided that the total you insure for does not exceed 60% of your earned income, because under current tax practice, the income is paid to you tax free for at least the first year. In addition you will normally receive State benefits.

Furthermore, the benefit is paid regularly every month until you are fit for work, if necessary, up to retirement age of 65.

Our Sickness and Accident Plan comes into operation only after you have been unable to work for 4, 13 or 26 weeks. A quick glance at the table below shows what we mean, and it is up to you to decide how long a waiting period would suit you best.

Premiums are returned in respect of any period during which you are receiving a benefit under the Plan.

Cost for each year for every £1,000 worth of annual income to age 65*
(Maximum age at entry 54)

Age Next Birthday to age 24	Waiting Period		
	4 weeks	13 weeks	26 weeks
25-29	£11.30	£6.00	£4.40
30-34	£13.00	£7.90	£6.00
35-39	£15.20	£9.40	£7.20
40-44	£18.90	£11.80	£9.10
45-49	£25.70	£17.30	£13.80
50-54	£33.70	£23.10	£18.20
55-59	£46.50	£33.40	£26.50
60-64	£67.00	£49.90	£40.30
	£71.50	£51.40	£41.00

*Premiums for women are equally competitive.

Lopresor[®] 100

metoprolol tartrate

simply right for
hypertension

Efficacy-Tolerability- β_1 Selectivity-
Simple dosage regime:
the essentials of Lopresor simplicity
in hypertension

Geigy

Lopresor Presentation: Pale red, round film-coated tablets, each containing 50mg. Lopresor is also available as light blue round tablets, each containing 100mg.
Indications: Hypertension and angina pectoris. **Dosage and Administration:** *Hypertension:* Initially, one 100mg tablet morning and evening should be given. The dosage may be increased to 2 x 100mg twice daily according to response. Most patients will respond to two 100mg tablets twice daily or less, particularly if Lopresor is used in conjunction with a diuretic such as chlorthalidone or a vasodilator such as hydralazine. The total daily dose of Lopresor may be given as a single dose if required. *Angina pectoris:* One or two x 50mg tablets twice or three times daily. **Side-effects:** Slight gastro-intestinal discomfort and disturbance of sleep pattern occasionally occur. There have been reports of skin rashes and/or dry eyes associated with the use of beta-adrenoceptor blocking drugs. The reported incidence is small and in most cases the symptoms have cleared when treatment was withdrawn. Discontinuance of the beta-adrenoceptor blocking drugs should be considered if any such reaction is not otherwise explicable. Cessation of therapy with a beta-blocker should be gradual. **Precautions:** Cardiac failure must be controlled before initiating Lopresor therapy. Caution should be observed when treating asthmatics. It may be necessary to adjust the dosage of antidiabetic medication. As with other drugs, beta-blockers should only be used during pregnancy if there are compelling reasons. **Contra-indications:** Atrioventricular block, digitalis-refractory heart failure, severe bradycardia and cardiogenic shock. **Packs:** Lopresor 100mg (PL0001/0066) Packs of 100 tablets £8.97. Calendar packs of 56 tablets £5.03. Lopresor 50mg (PL0001/0065) Packs of 100 tablets £4.83. Further information is available on request from Geigy Pharmaceuticals, Horsham, West Sussex.
