# New BMF Car Purchase Plan could save you money every month.

Since VAT increased to 15% leasing has become less attractive to the medical professions as a means of running a car.

BMF have recognised this problem and have introduced a Car Purchase Plan offering substantial

monthly savings.

For example on a £5,000 loan a saving of over £15 per month can be made against a comparable car leasing agreement.

The Plan is spread over 4 years at a fixed rate. You will be entitled to

full tax allowances and should you wish to change your car within that period, there's no difficulty.

Result: improved cash flow, better use of your money and a new car at today's price—NOW!

Purchase Price £	Deposit 15% £	Monthly Payments Over 48 Months £	Specimen Leasing Rentals inc. VAT 15% £	Monthly Savings £
3,000	450	77.52	86.97	9.45
4,000	600	103.36	115.97	12.61
5,000	750	129.20	144.95	15.75
6,000	900	155.04	173.95	18.91
7,000	1,050	180.88	202.93	22.05

Payments include charges at the rate of 11.5% per 12 months and pro rata; equivalent annual percentage rate of 21.5%.

Yes, I am interested. Please send me your brochure which includes the new Car Purchase Plan.

## NOW a complete telephone answering system for office or home: CALLTAKER

£169.50 inc. VAT. & Delivery

Install a Calltaker ASX2200 and you go out, confident that not one incoming call will be missed. All will be answered with your own pre-recorded message. Promptly. Without waste. Automatic controls ensure that recording of incoming messages ends when callers stop speaking - and that your line is then immediately reopened to accept the next call. You can also use the Calltaker to vet incoming calls before accepting them, or as a dictating cassette machine or as a two way conversation recorder. Simple controls and clear warning lights make it easy to operate.

Naturally Calltaker is guaranteed for parts and labour for a full year. And, as added protection, Securicor (or equivalent) personally deliver it to your address.

For further information telephone Farnham (0252) 721678 now, or use the enquiry form below. Orders will be fulfilled within twenty-eight days.

*"Committed to providing  
personal treatment of general adult  
psychiatric illnesses"*

Dr. Hugh Crichton-Miller, one of the founders of British psychiatry, started the Bowden House Clinic in 1911 with treatment and patient care provided in a warm, friendly atmosphere. This tradition is maintained to-day by skilled staff devoted to the comfort of residents and supported by comprehensive treatment supervised by consultants in various branches of medicine. Facilities include a Physiotherapy Unit, a Geriatric Unit, an Art Therapy Centre and indoor and outdoor games in pleasant grounds. Accommodation with private room, own telephone, colour television and bathroom en-suite is available.

Comprehensive treatment and care are offered over the whole range of emotional and mental disorders, including:

- alcoholic and other problems of addiction
- phobias and obsessional states
- psychosomatic disorders
- eating disorders such as anorexia nervosa and obesity
- depression and schizophrenia
- neurasthenia and the vegetative neuroses

Applications for admission should be made to:

# NATRILIX®

indapamide

## a primary antihypertensive agent

Natrilix offers a simple, effective means of controlling blood pressure both in newly diagnosed and in poorly controlled patients with mild to moderate hypertension

### Prescribing information

#### Presentation

Pink biconvex sugar-coated tablets each containing 2.5 mg indapamide hemihydrate.

#### Uses

For the treatment of hypertension.

#### Dosage and administration

##### Adults

The dosage is one tablet daily to be taken in the morning.

##### Children

There is no experience of the use of this drug in children.

#### Contra-indications, warning, etc.

There are no absolute contra-indications to the use of Natrilix but caution should be exercised when prescribing it in cases of severe renal or hepatic impairment. As with all new drugs, the administration of Natrilix should be avoided during pregnancy although no teratological effects have been seen in animals. At doses higher than that recommended, Natrilix has a diuretic effect, therefore it is not recommended to prescribe it with a diuretic agent which may cause hypokalaemia. Also, slight weight loss has been reported in some patients taking Natrilix. Reported side effects have included nausea and headache,

but they are generally uncommon and mild in nature.

Serum urate levels may rise slightly but there is no evidence that glucose tolerance is adversely affected.

Box of 30 tablets.

Product licence number 0093/0022.

NATRILIX is available as: FLUDEX® in Africa, Belgium, France, Holland, Portugal, Switzerland.

NATRILIX® in English speaking Countries of Africa, Brazil, Central America, Germany, Ireland, Italy, Middle East, South East Asia, United Kingdom.

TERTENSIF® in Spain.

NATRIX® in Korea.

Further information is available on request from Servier Laboratories Ltd., Servier House, Horsenden Lane South, Greenford, Middx. UB6 7PW.

Les Laboratoires Servier, 22, rue Garnier - 92201 Neuilly - France.

# Lopresor<sup>®</sup> 100

metoprolol tartrate

simply right for  
hypertension

Efficacy-Tolerability- $\beta_1$  Selectivity-  
Simple dosage regime:  
the essentials of Lopresor simplicity  
in hypertension

**Geigy**

**Lopresor Presentation:** Pale red, round film-coated tablets, each containing 50mg. Lopresor is also available as light blue round tablets, each containing 100mg.  
**Indications:** Hypertension and angina pectoris. **Dosage and Administration:** *Hypertension:* Initially, one 100mg tablet morning and evening should be given. The dosage may be increased to 2 x 100mg twice daily according to response. Most patients will respond to two 100mg tablets twice daily or less, particularly if Lopresor is used in conjunction with a diuretic such as chlorthalidone or a vasodilator such as hydralazine. The total daily dose of Lopresor may be given as a single dose if required. *Angina pectoris:* One or two x 50mg tablets twice or three times daily. **Side-effects:** Slight gastro-intestinal discomfort and disturbance of sleep pattern occasionally occur. There have been reports of skin rashes and/or dry eyes associated with the use of beta-adrenoceptor blocking drugs. The reported incidence is small and in most cases the symptoms have cleared when treatment was withdrawn. Discontinuance of the beta-adrenoceptor blocking drugs should be considered if any such reaction is not otherwise explicable. Cessation of therapy with a beta-blocker should be gradual. **Precautions:** Cardiac failure must be controlled before initiating Lopresor therapy. Caution should be observed when treating asthmatics. It may be necessary to adjust the dosage of antidiabetic medication. As with other drugs, beta-blockers should only be used during pregnancy if there are compelling reasons. **Contra-indications:** Atrioventricular block, digitalis-refractory heart failure, severe bradycardia and cardiogenic shock. **Packs:** Lopresor 100mg (PL0001/0066) Packs of 100 tablets £8.97. Calendar packs of 56 tablets £5.03. Lopresor 50mg (PL0001/0065) Packs of 100 tablets £4.83. Further information is available on request from Geigy Pharmaceuticals, Horsham, West Sussex.
