# Private Medical & Surgical Rehabilitation

The Rehabilitation Unit at Unsted Park provides facilities for the intensive rehabilitation of patients of all ages. Treatment is carried out by a highly qualified, multi-disciplinary team under medical supervision, comprising physiotherapists, remedial gymnasts, occupational therapists, art therapist, speech therapist and nurses. The team is responsible for regular assessments of patients and for establishing individual treatment programmes.

*Subscribers to the main Private Contributory Schemes may claim benefits within the terms of these schemes.*

*Further information is available from the Matron,*

## Unsted Park

Munstead Heath, Godalming, Surrey.  
Telephone: Bramley (048647) 2061.

*"Committed to providing personal treatment of general adult psychiatric illnesses"*

Dr. Hugh Crichton-Miller, one of the founders of British psychiatry, started the Bowden House Clinic in 1911 with treatment and patient-care provided in a warm, friendly atmosphere. This tradition is maintained to-day by skilled staff devoted to the comfort of residents and supported by comprehensive treatment supervised by consultants in various branches of medicine. Facilities include a Physiotherapy Unit, a Geriatric Unit, an Art Therapy Centre and indoor and outdoor games in pleasant grounds. Accommodation with private room, own telephone, colour television and bathroom en-suite is available.

Comprehensive treatment and care are offered over the whole range of emotional and mental disorders, including:

- alcoholic and other problems of addiction
- phobias and obsessional states
- psychosomatic disorders
- eating disorders such as anorexia nervosa and obesity
- depression and schizophrenia
- neuresthenia and the vegetative neuroses

Applications for admission should be made to:

# New strength tablet from Geigy

## VOLTAROL<sup>®</sup> 50

diclofenac sodium

**bridges the gap  
between efficacy and tolerability**

**Rheumatoid arthritis**

**Osteoarthritis**

### Simpler dosage for better patient compliance

**Mode of action** Voltarol is a non-steroidal agent with marked analgesic/anti-inflammatory and antipyretic properties. Like most other drugs in this class, it is an inhibitor of prostaglandin synthetase.

**Indications** Rheumatoid arthritis, osteoarthritis.

**Dosage** Severe cases: 1 x 50 mg tablet 3 times daily. Maintenance therapy: 1 x 50 mg tablet morning and evening may be sufficient. Mild cases: Initially 1 x 25 mg tablet 3 times daily. Maintenance dosage should be adjusted to the minimum amount that will provide continuous therapeutic control.

**Contraindications** Peptic ulcer. Voltarol is contra-indicated in asthmatic patients in whom attacks of asthma, urticaria or acute rhinitis are precipitated by aspirin or other non-steroidal anti-inflammatory agents with prostaglandin synthetase inhibiting activity.

**Precautions** Voltarol should not be prescribed during pregnancy, unless there are compelling reasons for doing so. Patients with a history of peptic ulcer, haematemesis or melaena, or with severe hepatic or renal insufficiency, should be kept under close surveillance. Voltarol has been reported to depress salicylate levels and vice versa; the clinical relevance of this phenomenon is not yet known.

**Warnings and side-effects** Initially, some patients may complain of epigastric pain, nausea and diarrhoea, headache and slight dizziness. These side-effects are often transient, disappearing with continuation of medication. Occasionally skin rash, peripheral oedema and abnormalities of serum transaminases have been reported.

Very rarely peptic ulcer and haematemesis or melaena have been reported, mainly in patients with a history of such disorders, or who were receiving concomitant antirheumatic medication.

**Accidental overdosage** There is no known antidote to Voltarol and the treatment is symptomatic. Immediate treatment

consists of forced emesis to recover undigested tablets.

**Pharmaceutical precautions** Storage - protect from moisture.

**Legal category** Prescription only.

**Presentation** Voltarol, sodium-[o-[(2,6-dichlorophenyl)amino]-phenyl]-acetate, is available as: yellow, round, slightly bi-convex, enteric coated tablets with bevelled edges, approximately 7 mm diameter, imprinted GEIGY on one side. Each tablet contains 25 mg. Voltarol is also available as: light-brown, round, slightly bi-convex, enteric coated tablets with bevelled edges, approximately 8 mm diameter, imprinted GEIGY. Each

tablet contains 50 mg.

**Package quantities**  
Voltarol 25 mg Packs of 100.  
Basic N.H.S. price £9.00.  
Voltarol 50 mg Packs of 100.  
Basic N.H.S. price £17.50.

**Further information** Pharmacodynamic studies have shown no potentiation of oral hypoglycaemic and anticoagulant drugs.

**Product licence numbers**  
Tablets 25 mg. PL0001/0036.  
Tablets 50 mg. PL0001/0082.

**Product licence holder**  
Geigy Pharmaceuticals, Horsham, West Sussex.
