The BMA's Board of Science and Education has recently published its contribution to the International Year of the Child 1979:

# "OUR CHILDREN'S HEALTH"

The book draws attention to the gaps and deficiencies in our child health services and our medical care of children. The 12 chapters include: The Baby, Immunisation and Vaccination, Accidents, Handicapped Children and Educating for Health.

**Price: £1.00 postage paid.**

*Available from:*

The Publisher,  
British Medical Journal,  
BMA House,  
Tavistock Square,  
London WC1H 9JR.

The combination of simple language and straightforward line drawings has made the

# ABC OF OPHTHALMOLOGY

one of the most popular series of articles in the Medical Practice section of the British Medical Journal.

All the common problems are covered—visual defects, squints; glaucoma and cataracts—together with detailed instruction on examination, diagnosis and management.

# Large or small we've got the perfect prescription for a successful conference.

From medical congresses to gas turbines, hair dressing shows to car launches, fashion parades to marketing seminars – the range we handle is endless. And every event receives the full co-ordination of our specialist team, according to requirements.

Up to 2,500 delegates at a time, from some 51 countries, have enjoyed the luxurious surroundings of the main auditorium, the Wembley Grand Hall. Such facilities as satellite and closed circuit relays on a 16-foot TV screen, multi-screen projection and eight languages in simultaneous translation, make it the focal point of many an international meeting.

But we're far from only being interested in large numbers! In our specially designed multi-purpose complex, the Avon and Severn Suites are adaptable for functions for 130 to 500 people, and offer projection equipment, closed circuit TV and

simultaneous translation facilities. Smaller rooms for up to 60 are an ideal setting for board meetings, lunches, sales reviews and recruitment interviews.

While for conferences incorporating exhibitions, the Thames Suite provides a versatile display area of 3,000 square metres on two levels.

Our flexibility extends to the catering field too, with an exciting range of bars, and a choice of anything from a finger buffet for 20 to a four-course meal for up to 2,000 at the Centre.

The proven potential of Wembley Conference Centre is vast, and it's only 10 minutes by rail or 20 minutes by road from Central London. So next time you are planning an event, give Bernard Owen a ring on 01-902 8833. Let us help you realise the full potential of your conference from the start.

# NATRILIX<sup>®</sup>

indapamide

## a primary antihypertensive agent

Natrilix offers a simple, effective means of controlling blood pressure both in newly diagnosed and in poorly controlled patients with mild to moderate hypertension

### Prescribing information

**Presentation**  
Pink biconvex sugar-coated tablets each containing 2.5 mg indapamide hemihydrate.

### Uses

For the treatment of hypertension.

### Dosage and administration

**Adults**  
The dosage is one tablet daily to be taken in the morning.

### Children

There is no experience of the use of this drug in children.

### Contra-indications, warning, etc.

There are no absolute contra-indications to the use of Natrilix but caution should be exercised when prescribing it in cases of severe renal or hepatic impairment. As with all new drugs, the administration of Natrilix should be avoided during pregnancy although no teratological effects have been seen in animals. At doses higher than that recommended, Natrilix has a diuretic effect, therefore it is not recommended to prescribe it with a diuretic agent which may cause hypokalaemia. Also, slight weight loss has been reported in some patients taking Natrilix. Reported side effects have included nausea and headache,

but they are generally uncommon and mild in nature. Serum urate levels may rise slightly but there is no evidence that glucose tolerance is adversely affected.

Box of 30 tablets.

Product licence number 0093/0022.

NATRILIX is available as: FLUDEX<sup>®</sup> in Africa, Belgium, France, Holland, Portugal, Switzerland.

NATRILIX<sup>®</sup> in English speaking Countries of Africa, Brazil, Central America, Germany, Ireland, Italy, Middle East, South East Asia, United Kingdom.

TERTENSIF<sup>®</sup> in Spain.

NATRIX<sup>®</sup> in Korea.

Out of the shadows of depression  
and irrational fear with

**Anafranil® 10mg**  
(clomipramine hydrochloride)

**Geigy**

**Anafranil** (clomipramine hydrochloride). **Dosage:** Depression – 30–50mg per day. In severe cases increase to 75mg or higher if necessary. Phobic/Obsessional States – generally higher dosage – build up to 100–150mg per day. **Contra-indications:** 1) Anafranil is contra-indicated in conjunction with, or within 14 days of treatment with a monoamine oxidase inhibitor. 2) In existing liver damage. 3) In cardiac/circulatory failure or following a recent myocardial infarction. **Precautions:** Caution is necessary in ischaemic heart disease, glaucoma, and retention of urine. Great caution in patients with epilepsy. Anafranil may antagonise the action of certain antihypertensive drugs, and may potentiate the cardiovascular action of noradrenaline and adrenaline. As with other drugs, avoid using during the first trimester of pregnancy if possible. **Side effects:** Dry mouth, sweating, difficulty with accommodation, constipation, disturbance of micturition, tachycardia. Less commonly tremor, ataxia, orthostatic hypotension and vertigo. More rarely anxiety, agitation, fatigue, drowsiness, confusion, insomnia and headache. Epileptiform seizures have occurred in a small number of patients. Symptomless hypothermia and allergic skin reactions are extremely rare. Interference with sexual function, particularly ejaculation, may be encountered. Agranulocytosis has occasionally occurred in patients on tricyclic antidepressants – routine blood counts are advised during treatment with Anafranil. **Availability:** Two-tone yellow/caramel capsules of 10mg (PL0001/0037) £3.10 per 100. Two-tone orange/caramel capsules of 25mg (PL0001/5000) £6.11 per 100. Two-tone blue/caramel capsules of 50mg (PL0001/0068) £11.63 per 100. Orange flavoured and coloured syrup containing 25mg of Anafranil in 5ml (PL0001/5001) £5.55 per 150ml bottle. Full prescribing information is available on request from Geigy Pharmaceuticals, Horsham, West Sussex.
