# ST. ANDREW'S HOSPITAL, NORTHAMPTON

## PRIVATE TREATMENT OF ALCOHOLISM

Our well established alcoholism treatment unit offers intensive resident therapy in pleasant surroundings, first-class accommodation, a friendly, relaxed atmosphere — and at a reasonable cost.

The programme includes group therapy, social skills training, educational films, videos and discussions, together with a comprehensive range of recreational facilities catering for men and women of all ages.

Staffed by a Consultant Psychiatrist, Psychologist, and specially trained nursing staff, the unit is readily accessible from all parts of England and Wales. Regular follow-up groups — for patients and their relatives — take place in London and Northampton.

## GROUP PSYCHOTHERAPY UNIT

The Group Psychotherapy Unit is a part of the increasing range of specialised facilities offered by St. Andrew's Hospital. It is run by two Consultant Psychiatrists, assisted by a Psychotherapist and an Occupational Therapist.

We have found that with an intensive approach of daily interpretative groups, social skills training and art and drama therapy, encouraging results can be obtained with ten to twelve weeks' in-patient or out-patient treatment. This is helped by the friendly, informal atmosphere of the hospital.

# HOW TO DO IT

Every doctor knows the sinking sensation induced by waiting one's turn for an examination viva and the social anxieties of changing jobs. The misery of first night nerves does not, however, disappear with time: each decade brings new challenges. On these occasions—chairing a committee, giving evidence in court, appearing on television—practical tips can be enormously helpful. The same is true of the many skills not taught in medical school—how to lecture, referee papers, edit, or use a library. All these and many more nuggets of down-to-earth advice have been collected from past issues of the *BMJ* to form a compendium for the novice—whatever his or her age or seniority.

Price: Inland £4.00;  
Abroad US\$10.00

(Concessionary price to BMA  
members: Inland £3.50;  
Abroad US\$8.75.

When ordering BMA members must  
quote their membership number or  
the full price will be applicable.)

Payment must be enclosed with order or a surcharge  
of 30p will be made for rendering invoices and  
statements.

# See the treatment of UTI in a new light

## SELECTIVE

### Selective

Very few lower gastrointestinal disorders occurred. This, in all probability, reflects its selective antibacterial activity which limits drug disturbance of the normal colonic and vaginal flora.<sup>3</sup>

### Effective

In our clinical trials mecillinam achieved a cure-rate of over 90% at 2 weeks in patients with urinary-tract infections.<sup>1</sup>

The original bacterial strain in the urine was eradicated in 100% of the cases.<sup>2</sup>

### Low Toxicity

Mecillinam has a novel mode of action but shares the penicillins' low toxicity.<sup>4</sup>

...the data establish that pivmecillinam is a safe and potent drug in the treatment of urinary tract infection.<sup>5</sup>
