TEGRETOL[®]
carbamazepine BP

an extra dimension in
epilepsy control

Effective control of temporal lobe and grand mal epilepsy with benefits for mood and behaviour.

"If, as this study suggests, carbamazepine is less liable to impair mentation and psychiatric states of epileptic patients than other drugs, then it represents an important advance in therapy."

Trimble, M.

Tegretol in Epilepsy, Proceedings of an International Meeting, Guernsey (1977).

Geigy

TEGRETOL (carbamazepine BP) Uses: Epilepsy – grand mal and temporal lobe Trigeminal neuralgia. Dosage: Use a gradually increasing, divided dosage regimen. Children: up to 1 year old, 100-200mg per day; aged 1-5 years, 200-400mg per day; aged 5-10 years, 400-600mg per day; aged 10-15 years, 600-1000mg per day. Adults: 100-200mg per day, increasing to 800-1200mg per day; in some cases 1600mg per day may be needed. It is recommended that plasma drug levels be monitored; optimum therapeutic range is 3-10µg/ml (13-42µmol/l). Contra-indication: Previous drug sensitivity to Tegretol. Precautions: As with other drugs, avoid using during the first trimester of pregnancy if possible. Do not administer with, or within 14 days of MAOI therapy. It is suggested that serum folic acid levels be monitored during anticonvulsant therapy. In rats treated with carbamazepine for two years, incidence of tumours of the liver was found to be increased. There is, however, no evidence to indicate that this observation has any significant bearing on the therapeutic use of the drug. Side-effects: Dizziness, drowsiness, dry mouth, diarrhoea, nausea and vomiting. Idiosyncrasy may be manifested in the following ways – generalised erythematous rash, light sensitive dermatitis, jaundice, leucopenia, aplastic anaemia, acute renal failure. It is suggested that the white cell count be checked in the early stages of treatment. Availability: White, unscored, compressed tablets, 7mm in diameter, impressed 'Geigy' on one side containing 100mg (PL0001/5027). £2.60 per 100. White, scored, compressed tablets, 9mm in diameter, impressed 'Geigy' on one side containing 200mg (PL0001/5028). £4.83 per 100. Syrup, white caramel flavoured, containing 100mg per 5ml (PL0001/0050). £4.65 per 300ml bottle. Full prescribing information is available on request from Geigy Pharmaceuticals, Horsham, West Sussex.
