

In vaginal candidosis:

**Nizoral** TRADEMARK

ketoconazole

*The elegant way  
to treat an inelegant problem*

**2 oral tablets  
once daily for 5 days  
is all it takes today  
to cure vaginal candidosis.**

For the treatment of vaginal candidosis, each tablet contains 200 mg of ketoconazole. For maximal absorption Nizoral should be taken on an empty stomach, 30 minutes before meals. The use of agents which reduce gastric acidity (e.g. H<sub>2</sub> antagonists) should be avoided. If indicated, such drugs should be taken not less than 2 hours after Nizoral. Concomitant use with cyclosporin A results in increased blood levels of cyclosporin A. It is recommended that if the two drugs are given concomitantly, the dose of cyclosporin A should be reduced. Side-effects: nausea, skin rash, dizziness, headache, taste disturbance. Alterations in liver function tests have occurred in patients on ketoconazole; severe hepatitis have been reported with an incidence of about 1 per 10,000 patients. Some of these patients had been on long-term therapy. If any symptoms suggestive of hepatitis, treatment with ketoconazole should be stopped. Mild elevations of liver enzyme levels, on the other hand, do not necessitate discontinuation of the treatment. Further information available on request.

Non-specialists overwhelmed by too many systematic descriptions of individual disease will welcome the new approach of *ABC of Dermatology*. Here the history, clinical appearance, and pathology of a few common key conditions are discussed and then used as a basis for comparison with other skin diseases. Also dealing in detail with allergic reactions, autoimmunity, acne, and infections, this handbook is **fully illustrated in colour**, providing a clear guide to assessment and treatment as well as an understanding of the histological changes underlying the clinical presentations.

*or any leading medical bookseller.*

You are reading the  
**British Medical Journal**

*Do you read its books?*

The *BMJ* regularly publishes collections of articles that have appeared as popular series in the journal, thus providing doctors with books that are comprehensive and handy guides to particular medical topics. It also publishes books of more general medical interest.

# BMJ Books

Reviews of the first edition. . .

"A very easy to read and understandable book, written for general practitioners, essential for all practice managers, and general practitioners without a practice manager."

"This is a very comprehensive book, which covers most aspects of all you need to know as an employer, in layman's language."

*Practice Outlook* January 1985: page 19.

"The book guides GPs through all the stages of achieving good staff relations and avoiding management problems."

*Medeconomics* May 1985: page 93.

"The book is easy to read, concise, and extremely good value. It is a must for every practice bookshelf."

*J R Coll Gen Pract* 1985; 35: 261

Price: Inland £5.95; Abroad £7.00; USA\$10.50

The statistical testing of data is indispensable in many types of medical investigation and a help on countless occasions in clinical practice. This book provides step by step instruction. Subjects covered include standard deviation,  $\chi^2$  tests, t tests, non-parametric tests, and correlation. The book includes sections on Fisher's exact probability test and rank correlation not published in the original *BMJ* series. Methods specially adapted to pocket calculators.

"... John Mills and Richard Harding ... have succeeded admirably in compressing several gallons into a pint pot, and have managed to make their work interesting ... and eminently readable ... It is highly recommended, and essential reading for all those associated, however slightly, with flying."

*SA Med J* 1984; 65: 786

"It is an interesting and concise introduction to aviation medicine for all of us who travel by air or who give advice to those who do ... Through being written for the broad spectrum of the medical profession, it fills a long neglected need."

*NZ Med J* 1984; 97: 705

Price: Inland £6.95; Abroad £8.00; USA\$13.00  
BMA members: Inland £6.45; Abroad £7.50; USA\$12.00

Why are medical journals so dull? Richard Asher, who asked the question, was never dull: good sense, pungent wit, and lively humour were his hallmarks, while his writings on clinical matters, with their combination of lucidity, sympathy, and insight, remain models for all aspiring medical authors. *A Sense of Asher*, a selection of his writings, was first published in a Keynes Press limited edition and quickly sold out. This paperback version, now in its fourth reprinting, contains the complete text of the original – commended by critics as a marvellous gift for a doctor's bedside table and enjoyable light reading for anyone in medicine.

Price: Inland £7.00; Abroad £8.50; USA\$14.00

This second, revised edition of *Medicine in Old Age* brings the general medical reader up to date on recent advances in geriatrics. It includes accounts of the management of dementia, gastrointestinal problems, anaemia, and urinary tract disease as well as guidance on drug treatment and the specific problems of interpreting laboratory findings in the old. Chapters on rehabilitation and the role of the general practitioner and day hospitals – which have helped to convert mere existence into a full life for many elderly patients – complete a useful introduction to this important subject.

Price: Inland £6.95; Abroad £9.45; USA\$14.00

# BMJ Books

If you are intending to prescribe drugs to a woman in pregnancy or the puerperium you must balance risks against benefits: no harm should be allowed to befall the baby because of the drug, but equally no harm must come to the mother and baby because a disease is being inadequately treated. *Prescribing in Pregnancy* gives you the information on which a clinical decision can be made. Essential reading for doctors who prescribe for women who are, or who may become, pregnant.

"... concise, easy to read, contemporary and well referenced ... should be required reading for residents and practising physicians in obstetrics."

*Can Med Assoc J* 1988; 138: 931

Price: Inland £5.95; Abroad £7.50; USA\$11.50  
BMA members: Inland £5.45; Abroad £7.00; USA\$10.50

The extraordinary technical developments in molecular biology over the past few years, and the equally rapid advances in understanding of cell biology, will almost certainly result in far reaching changes in medical research and practice. In this collection of articles experts in molecular and cell biology provide the background information to give clinicians an insight into the way in which the medical sciences may be moving over the next few years and into the exciting possibilities opening up for the treatment of genetic disorders, cancer, and the common illnesses of Western society such as degenerative vascular disease and diabetes.

Price: Inland £5.95; Abroad £7.50; USA\$12.00  
BMA members: Inland £5.45; Abroad £7.00; USA\$11.00

Newly graduated clinicians have to acquire the practical skills of their specialty – few doctors can remember every step of a procedure after seeing a single demonstration. A step by step guide for those making their first attempts, *Procedures in Practice* has now been completely updated and expanded to cover everything from arterial puncture to vaginal examination. Extensively illustrated, it has been produced in a new pocket size format, so you can always keep it with you.

Price: Inland £6.95; Abroad £8.75; USA\$15.00  
BMA members: Inland £6.45; Abroad £8.25; USA\$14.00

*Reviews of the first edition*

"... all physicians [should] ensure that their hospital library has this book, and that they themselves read it."

*Med J Aust* 1981; 1: 665

"A reading of this book ... should provide a sound basis in epidemiological techniques for any intending researcher."

*NZ Med J* 1980; 91: 73

The second edition of this popular *BMJ* handbook has been revised to include further details of epidemiological methods and some of their more dramatic applications, such as the investigations on the Spanish cooking oil epidemic, and AIDS.

Price: Inland £3.95; Abroad £5.50; USA\$8.50  
BMA members: Inland £3.45; Abroad £5.00; USA\$7.50

Medical students and practitioners are often concerned with examples of diagnostic logic, but seldom consider them in the context of a general philosophy. Is diagnostic logic out on a limb, or is it based on the same principles as logic in general? In *Logic in Medicine* doctors and philosophers combine to provide a coherent system of diagnostic logic with a broader view of the science and art of reasoning. The abstract theory of theories has highly practical applications, and the authors explore the uses of computer technology and artificial intelligence systems as well as "fuzzy logic", "relevant logic", and the logic of economics and ethics. A book for all who wish to clear their minds of cant.

Price: Inland £5.95; Abroad £7.50; USA\$11.50  
BMA members: Inland £5.45; Abroad £7.00; USA\$10.50

The British have been travelling overseas for centuries, but never in such enormous numbers as now. Holidaymakers from Britain between them take about 15 million trips abroad each year, and thousands more go to work, either for firms or voluntary organisations. Strange climate, customs, food, and diseases can all cause illness. *Well Away* advises non-medical readers on how to avoid this. Adapted by Eric Walker and Glyn Williams from their *ABC of Healthy Travel* it gives straightforward practical advice on everything from immunisations and insurance before departure to first aid while abroad. This is one guidebook no traveller can afford to be without.

## LEARNING MEDICINE

PETER RICHARDS

*Learning Medicine* gives a clear picture of the life of a medical student and outlines the choices to be made when it comes to later postgraduate training and employment. For sixth formers thinking about a medical career or houseman planning future specialisation, this handbook explains what to look for and how to go about it. **Published annually.**

## THE NEW PAEDIATRICS: Child health in ethnic minorities

JOHN BLACK

Children from ethnic minorities in Britain may suffer from conditions unknown in the general population. Proper treatment is not only vital for the individual child, but it is often through their children that immigrant families first come into contact with medical services, and their subsequent attitude to medical care may be determined by the amount of tolerance and understanding they receive over their children.

Price: Inland £4.95; Abroad £6.00; USA\$8.50

## AS YOU WERE: VE DAY – A Medical Retrospective

A collection of specially commissioned reminiscences by doctors from their experiences in the second world war and their feelings as it came to an end. These highly personal memories reflect the many aspects of war from a medical viewpoint.

Price: Inland £6.00; Abroad £8.75; USA\$12.50  
BMA members: Inland £5.50; Abroad £8.25; USA\$11.50

## PRISON HEALTH CARE

RICHARD SMITH

Before writing this book Dr Richard Smith visited more than 20 prisons in five different countries and spoke to dozens of people concerned with prisons, including prisoners themselves. His book explodes many misconceptions about prison health services but also exposes deficiencies and discusses ways in which they could be overcome.

Price: Inland £8.00; Abroad £11.00; USA\$17.60  
BMA members: Inland £7.50; Abroad £10.50; USA\$16.60

## PRACTISING PREVENTION

How exactly can general practitioners find time in their busy surgeries to start preventive activities? This practical and authoritative book, written mostly by general practitioners, not only tells doctors of all the preventive activities that they and the rest of the practice team might undertake but also spells out which will produce the richest rewards.

Price: Inland £5.95; Abroad £7.50; USA\$13.00  
BMA members: Inland £5.45; Abroad £7.00; USA\$12.00

## ORGANISING A PRACTICE

One of the many things that they didn't teach at medical school was how to organise a general practice. Yet good organisation is almost as important as clinical knowledge, particularly for important activities like prevention and audit. This book, written almost entirely by practising GPs, covers most aspects of organisation.

Price: Inland £5.95; Abroad £7.50; USA\$13.00

## BRITISH NATIONAL FORMULARY

Price: Inland £7.10; Abroad £10.10; USA\$17.00

## EMERGENCIES IN THE HOME

General practitioners are often the first doctors to see acutely ill patients, and often in difficult circumstances. This book tells general practitioners straightforwardly what they need to know to deal with such emergencies – both the common and the less common. A specialist and a general practitioner have co-operated on each chapter, making it both authoritative and practical.

Price: Inland £5.50; Abroad £7.50; USA\$13.00  
BMA members: Inland £5.00; Abroad £7.00; USA\$12.00

## BLOOD PRESSURE MEASUREMENT

J C PETRIE, E T O'BRIEN, W A LITTLER, M de SWIET

Simple guidelines prepared by a working party of the British Hypertension Society set out exactly what must be done to ensure that indirect blood pressure measurement is accurate.

Price: £1.00

## HISTORY OF THE BRITISH MEDICAL ASSOCIATION Volume II 1932-1981

By Elston Grey-Turner, CBE, MC, TD, MD, MRCS, LRCP (Secretary, BMA 1976-1979) and F M Sutherland, MA, FLA (Librarian, BMA 1961-1981).

A companion volume to the history of the BMA's first hundred years published in 1932, *The History of the BMA Volume II* covers the next 40 years. The authors describe the change in the BMA's role overseas, the baffling new ethical problems, and the expansion of the BMA's publishing activities.

**Hismanal**<sup>TRADEMARK</sup>  
astemizole

**The antihistamine of exceptional strength from the first  
to the last day of therapy.**

 **JANSSEN**  
PHARMACEUTICAL  
2340 Beerse, Belgium

**Prescribing information**

**Uses:** Hismanal<sup>®</sup> is a potent and non-sedative antihistamine indicated for the treatment of seasonal and perennial allergic rhinitis, allergic conjunctivitis, chronic urticaria and other allergic conditions.  
**Dosage and administration:** adults and children over 12 years: 10 mg daily. Children 6-12 years: 5 mg once daily. Children younger than 6 years: 2 mg per 10 kg daily. Hismanal should be taken on an empty stomach. **Precautions:** Hismanal should be used in pregnant women only when, in the judgement of the physician, the potential benefits outweigh the possible hazards. **Adverse reactions:** weight gain may occur during prolonged treatment. **Overdose:** in case of overdose, gastric lavage should be followed by close observation and ECG monitoring as arrhythmias have occasionally occurred after intake of doses in excess of 200 mg.
