of the drug is not less than 100 mg. The blood levels of cyclosporin A are given concurrently. Side-effects: nausea, skin rash, liver function tests have occurred in patients on ketoconazole. Adverse effects reported with an incidence of about 1 per 10,000 patients. Some of the adverse effects to the drug. This should be borne in mind in patients on long-term therapy. In some cases suggestive of hepatitis, treatment with ketoconazole should be stopped. Mild side-effects, on the other hand, do not necessitate discontinuation of the treatment.

## RECOLLECTIONS AND REFLECTIONS

by Sir Douglas Black

"... buy this jewel of a book ... should become a medical classic: first, because it is beautifully written and, second, because it reflects deeply and succinctly on the nature of medicine and its organisation."

*Journal of the Royal College of Physicians*

"His prose is clear, his style stimulating ... Do read Sir Douglas's charming book." *L. E. Bottinger*

## NOT ALWAYS ON THE LEVEL

by E J Moran Campbell

"... a delight that nobody should miss." *Sarcoidosis*

"Written in a direct, rough hewn style that carries conviction ... a self portrait of a man who is patently (and at times painfully) honest in his attempt to come to terms with the 'romance and earthiness' of his life and work ... Campbell is content to present the facts without commenting on their wider implications ... final chapters courageously convey a vivid impression of what it can mean to live with a 'roller coaster mind ...' *Michael Shepherd*

## DOCTORS IN SCIENCE AND SOCIETY

by Sir Christopher Booth

"The essays exude all the joy and enlightenment of research and demonstrate time and again how such analysis enriches and enlarges our understanding of present events and social forces." *The Scientist*

"... a delight to read and a pleasure to handle ... At the price of a meal out it is superb value. 'Buy good books', wrote Lord Chesterfield to his son, 'and read them'. I can give no better advice about this book." *The Lancet*

"... a well written and well researched series of contributions that will give pleasure and instruction to what should be a wide readership."

## ABC OF DERMATOLOGY

P K Buxton

Non-specialists overwhelmed by too many systematic descriptions of individual disease will welcome the new approach of *ABC of Dermatology*. Here the history, clinical appearance, and pathology of a few common key conditions are discussed and then used as a basis for comparison with other skin diseases. Also dealing in detail with allergic reactions, autoimmunity, acne, and infections, this handbook is **fully illustrated in colour**, providing a clear guide to assessment and treatment as well as an understanding of the histological changes underlying the clinical presentations.

## ABC OF EAR, NOSE AND THROAT *Second edition*

H Ludman

As any general practitioner knows, diseases of the ear, nose and throat are some of the most common complaints that bring patients to the surgery – children suffering misery and discomfort and adults having to take time off work. In the second, revised edition of *ABC of Ear, Nose and Throat* Harold Ludman gives busy clinicians expert, up to date advice on assessing and managing these conditions.

Price: Inland £5.95; Abroad £7.50; USA\$14.00 BMA members: Inland £5.45; Abroad £7.00; USA\$13.00

## ABC OF AIDS

Edited by Michael W Adler

The *ABC of AIDS* provides essential details on the development of the epidemic, management of early HIV infection, tumours, and the respiratory, neurological, and gastrointestinal manifestations. It discusses the treatment of infections and the prospects for vaccines and prevention as well as outlining programmes for counselling, nursing, and the control of infection. Edited by Michael Adler, a leading authority on the topic, the *ABC of AIDS* is a vital guide that no medical practitioner can afford to be without.

Price: Inland £9.95; Abroad £12.50; USA\$21.00 BMA members: Inland £8.95; Abroad £11.50; USA\$19.00

## ABC OF DIABETES *Second edition*

Peter J Watkins

Many advances in the treatment of diabetes have been made in the past decade; the outlook for diabetic pregnancy has been transformed; photocoagulation for retinopathy is reducing blindness; and at last diabetic renal disease is receiving some attention. Dr Peter Watkins's articles provide a practical guide to the management of diabetes for non-specialist doctors and nurses. There have recently been several more developments both in understanding the causes of diabetes and improving its management, and this second, revised, edition incorporates the most important of these latest innovations.

## ABC OF ALCOHOL *Second edition*

Alex Paton

One of today's most pressing medical and social problems is comprehensively reviewed in the *ABC of Alcohol*. With an extended introduction by Richard Smith, assistant editor of the *BMJ*, this second, revised and expanded edition brings readers up to date on current approaches to the diagnosis and treatment of alcoholism. Essential reading for all doctors who need to understand the appalling difficulties that this condition creates for patients and their families – and indeed for doctors themselves.

## ABC OF RESUSCITATION

Edited by T R Evans

"... cannot be recommended highly enough ... Do yourself and your patients a great favour – buy it."  
*SA Med J* 1986; 70 x

The emergency treatment of any condition in which the brain fails to receive oxygen is literally a matter of life and death; the sooner it can be started the greater the chance of survival. Prompt action by witnesses of a cardiac arrest or at the scene of an accident can save lives by saving time, but hospital staff often do not possess the skills even in basic resuscitation that might be expected. In this authoritative guide members of the Resuscitation Council (UK) and other invited experts explain the techniques and consider some of the problems that surround this vital aspect of health care.

Price: Inland £4.95; Abroad £6.50; USA\$10.50 BMA members: Inland £4.45; Abroad £6.00; USA\$9.50

## ABC OF 1 TO 7 *Second edition*

H B Valman

Practice rather than theory is the keynote of the *ABC of 1 to 7* in its straightforward advice on the diseases, emotional problems, and development disorders of early childhood. This has now been amplified in a second edition which contains new chapters on recurrent headache and child abuse as well as extensive revisions of chapters on sleep problems, bronchial asthma, and primary and community care. The *ABC of 1 to 7* has already become the standard guide for general practitioners, medical students, vocational trainees, and clinical medical officers. The second, revised and expanded, edition brings it fully up to date.

## ABC OF SPINAL CORD INJURY

David Grundy, John Russell, Andrew Swain

In spinal cord injury correct management from the outset is vital to prevent further damage. But what is the correct management? The *ABC of Spinal Cord Injury* sets it out step by step: how the injured patient should be moved from the scene of the accident; the assessment of his injuries; transfer to a spinal treatment centre; immediate medical problems and later complications; and the specialised nursing, physiotherapy, and occupational therapy that are essential in helping the patient and his family adjust to what may be a lifetime of disability. A valuable introduction to a topic that non-specialists need to know more about.

## ABC OF HYPERTENSION *Second edition*

A short guide to a complex and rapidly developing topic, the second, revised, edition of *ABC of Hypertension* reviews up to date information from all recent clinical trials on hypertension and includes the latest recommendations of the British Hypertension Society. With its comprehensive survey of drug treatment – including advice on treating hypertension in pregnancy and in the elderly – this is an invaluable source of facts and guidance for practising doctors and medical students.

## ABC OF NUTRITION

A Stewart Truswell

"Would that all writers who currently pontificate on nutritional matters could adopt such a style or show a fraction of the intellectual analysis that has gone into this publication."

*Nutrition Bulletin* (The British Nutrition Foundation) January 1987

"Truswell . . . has written the introductory textbook for students of nutrition at any level . . . All physicians, medical students, nurses, nursing students, dieticians, dietician students, and those interested in nutrition education should have a copy of this book."

*Am J Clin Nutr* 1986; 44: 431-2

"... it offers . . . an authoritative and down-to-earth review of most aspects of nutrition . . . the ABC . . . is head and shoulders above any other short synopsis of up-to-date advice on nutrition."

*Br Dent J* 1986; 161: 128-9

"I for one will recommend this excellent book for medical undergraduates and . . . any general practitioner . . ."

*Irish Medical Journal* 1986; 79: 203

## THE FIRST YEAR OF LIFE *Second edition*

H B Valman

Bernard Valman's articles on the first year of life, first published in the *BMJ* in 1979 and then reproduced as a book, have proved invaluable to many doctors and others concerned in the care of children. The second edition of *The First Year of Life* includes changes to bring the book up-to-date and incorporates a much fuller section on whooping cough. The section on contraindications to immunisation has also been revised to take account of the latest guidance.

Price: Inland £6.95; Abroad £8.00; USA\$14.00 BMA members: Inland £6.45; Abroad £7.50; USA\$13.00

## ABC OF SEXUALLY TRANSMITTED DISEASES

Michael W Adler

"This book is recommended for anyone wishing to bring himself up to date with an increasingly expanding speciality . . ."

*J roy nav med Serv* 1984; 70: 187-188

"... Professor Adler has successfully provided a clear concise and up to date textbook on sexually transmitted disease . . . His approach, refreshingly problem orientated, deals with the patient rather than the disease, and emphasises the psychological impact on the patient of a diagnosis to which much stigma is still attached."

Price: Inland £4.95; Abroad £6.50; USA\$10.50 BMA members: Inland £4.45; Abroad £6.00; USA\$9.50

## ABC OF PLASTIC AND RECONSTRUCTIVE SURGERY

Dai Davies

With improved illustrations to show the surgical procedures used and the results that can be achieved, this book includes chapters on cleft lip and palate; burns, scars; benign and malignant skin conditions; cosmetic and reconstructive surgery of the breast; and craniofacial and microvascular surgery.

Price: Inland £6.95; Abroad £9.00; USA\$15.00 BMA members: Inland £6.45; Abroad £8.50; USA\$14.00

## APPROPRIATE TECHNOLOGY

Many of the difficulties of Third World medicine – the effects of poverty, starvation, overpopulation, and political unrest – are beyond the individual doctor's control; but what the Western trained doctor practising in the developing world can and must do is to adapt his practice to compensate for the absence of sophisticated equipment, trained staff, and expensive drugs. Written by doctors and technicians with first hand experience of the problems, *Appropriate Technology* is a guide to the sensible choice and use of resources.
