

In vaginal candidosis:

TRADEMARK

**ketoconazole**

ketoconazole

*The elegant way  
to treat an inelegant problem*

2 oral tablets  
**once** daily for **5** days  
is all it takes today  
to cure vaginal candidosis

On the basis of clinical studies, the incidence of severe side effects is not less than 1% in patients treated with ketoconazole. The incidence of cyclosporin A is 10% in patients treated with cyclosporin A. It is important to monitor patients for side effects: nausea, skin rash, headache, dizziness, and changes in liver function tests have occurred in patients on ketoconazole; severe side effects have occurred with an incidence of about 1 per 10,000 patients. Some of these side effects may be fatal. This should be borne in mind in patients on long-term therapy. In the event of hepatitis, treatment with ketoconazole should be stopped. Mild side effects, on the other hand, do not necessitate discontinuation of the treatment.

# RECOLLECTIONS AND REFLECTIONS

by Sir Douglas Black

"... buy this jewel of a book ... should become a medical classic: first, because it is beautifully written and, second, because it reflects deeply and succinctly on the nature of medicine and its organisation."

*Journal of the Royal College of Physicians*

"His prose is clear, his style stimulating ... Do read Sir Douglas's charming book." *L. E. Bottinger*

Price: Inland £14.95; Abroad £17.50; USA \$29.00

BMA members: Inland £13.95; Abroad £16.50; USA \$27.00

# NOT ALWAYS ON THE LEVEL

by E J Moran Campbell

"... a delight that nobody should miss." *Sarcoidosis*

"Written in a direct, rough hewn style that carries conviction ... a self portrait of a man who is patently (and at times painfully) honest in his attempt to come to terms with the 'romance and earthiness' of his life and work ... Campbell is content to present the facts without commenting on their wider implications ... final chapters courageously convey a vivid impression of what it can mean to live with a 'roller coaster mind ...' *Michael Shepherd*

Price: Inland £14.95; Abroad £18.50; USA \$30.00

BMA members: Inland £13.95; Abroad £17.50; USA \$28.00

# DOCTORS IN SCIENCE AND SOCIETY

by Sir Christopher Booth

"The essays exude all the joy and enlightenment of research and demonstrate time and again how such analysis enriches and enlarges our understanding of present events and social forces." *The Scientist*

"... a delight to read and a pleasure to handle ... At the price of a meal out it is superb value. 'Buy good books', wrote Lord Chesterfield to his son, 'and read them'. I can give no better advice about this book." *The Lancet*

"... a well written and well researched series of contributions that will give pleasure and instruction to what should be a wide readership."

*Journal of The Royal College of Physicians*

Price: Inland £14.95; Abroad £19.50; USA \$32.00

## One revolution leads to another

The extraordinary technical developments in molecular biology over the past few years, and the equally rapid advances in understanding of cell biology, will almost certainly result in far reaching changes in medical research and practice. In this collection of articles experts in molecular and cell biology provide the background information to give clinicians an insight into the way in which the medical sciences may be moving over the next few years and into the exciting possibilities opening up for the treatment of genetic disorders, cancer, and the common illnesses of Western society such as degenerative vascular disease and diabetes.

# THE KEYNES PRESS

***Books for the collector***

*Limited editions  
of medical classics published under an imprint  
named after Sir Geoffrey Keynes*

BRITISH MEDICAL JOURNAL

Sir Geoffrey Keynes, who died in July 1982 at the age of 95, was one of the great polymaths. His twin loves were medicine and surgery, on the one hand, and literature and the arts, on the other and he pursued both with equal success. He worked closely with the Nonesuch Press, editing several of its books, and it is therefore fitting that the Keynes Press should be named after him. Aimed primarily at reprinting classics with a medical interest published in the period of Keynes' life, the press pursues the same standards of scholarship and elegance that characterised the Nonesuch Press. Each book is specially edited and designed, and contains a commissioned introduction by an expert.

**The Great Malaria Problem and its Solution** by Ronald Ross. Introduction by L J Bruce-Chwatt, emeritus professor of tropical public health at the University of London. Adapted from Ross's memoirs, this Keynes Press edition gives the full story of his discovery of the mode of transmission of malaria by the *Anopheles* mosquito. Engagingly written it provides a fascinating insight into the process of scientific research as well as a self portrait of one of the most impressive and colourful individuals in the history of tropical medicine. "Anybody, young or old, who relishes an adventure story, a potpourri of physical hardship, personal grit and determination, and painstaking detection, will find it impossible to put the book aside until he has read it from cover to cover." (W Peters)  
*Inland £45.00; Abroad £52.00; USA\$73.00*

**The Fatal Illness of Frederick the Noble** by Morrell Mackenzie. Introduction by Harold Ludman, consultant, ear, nose, and throat surgeon, King's College Hospital, and Jonathan Steinberg, fellow of Trinity Hall, Cambridge. Mackenzie's account of his part in the treatment of Crown Prince Frederick of Prussia for a tumour of the larynx, a case that, besides arousing violent disagreement about acceptable medical practice, historically had far reaching repercussions throughout Europe. "... a contribution to medical history embellished in bookish glory." (Michael Harmer).

*Inland £40.00; Abroad £47.00; USA\$68.00.*

**The Medical Dictator** by Major Greenwood. Wryly humourous, shrewd, but generous in his assessment of men and their achievements, Major Greenwood used their lives as starting points for his own observations on science, statistics, medical education, medical politics and life in general. Introduction by Austin Bradford Hill "... elegant edition of a true medical classic." (Richard Schilling)

*Inland £40.00; Abroad £43.00; USA\$64.00.*

**The Portraiture of William Harvey** by Geoffrey Keynes. For his 1948 Thomas Vicary lecture at the Royal College of Surgeons Geoffrey Keynes presented a scholarly and fascinating account of the portraits of William Harvey, in which he displayed all his considerable powers of observation and deduction as well as his knowledge of the art of portraiture and of the history of medical science. This Keynes Press edition contains the complete text of the original with new high quality reproduction of the illustrations. "Keynes's scholarship is impressive, his writing is lucid as always, and his detective work makes exciting reading" (Neil McIntyre).

*Inland £40.00; Abroad £46.00; USA\$64.50.*

**Platt versus Pickering.** The epic debate between Sir George Pickering and Lord Platt on the nature of hypertension. Collected with a commentary and introduction by John Swales, professor of medicine at the University of Leicester. "Historic, informative, and beautifully produced." (Eoin O'Brien).

*Inland £45.00; Abroad £51.00; USA\$71.50*

**Instincts of the Herd in Peace and War** by Wilfred Trotter. An analysis of human aggression, foretelling with chilling accuracy how this would lead to the threat of universal destruction. First published in 1916, its message is even more urgent today. Introduction by Douglas Holdstock, consultant physician at Ashford Hospital.

*Inland £45.00; Abroad £52.00; USA\$73.00.*

**A Varied Life: Memoirs of a Swansea GP.** The diaries of Urban Marks, whose career as a GP spanned the introduction of Lloyd George's national insurance scheme and the start of the National Health Service as well as two world wars. Illustrated by Paul Cox and with an introduction by Andrew Smith, general practitioner, Wickham on Tyne. "A delightful book" (Lord Taylor).

*Inland £35.00; Abroad £37.50; USA\$52.50*

**Notes on the Composition of Scientific Papers** by Clifford Allbutt. Introduction by Alex Paton, postgraduate dean, North East Thames Region. "A splendid book to recommend to anyone who wishes to write well." (O L Wade).

*Inland £35.00; Abroad £39.50; USA\$55.50.*

**The Anatomy of Courage** by Lord Moran. Introduction by Denis Williams, consulting neurologist, National Hospital for Nervous Diseases, London. "I have always thought that the *Anatomy of Courage* shared a place on a shelf with the writings of Robert Graves and Erich Remarque and with the poems of Wilfred Owen. Rereading it has done nothing but confirm this view." (Richard Lovell).

*Inland £35.00; Abroad £41.00; USA\$57.50.*

**Hismanal**<sup>TRADEMARK</sup>  
astemizole

**The antihistamine of exceptional strength from the first  
to the last day of therapy.**

 **JANSSEN**  
PHARMACEUTICAL  
2340 Beerse, Belgium

**Prescribing information**

**Uses:** Hismanal<sup>®</sup> is a potent and non-sedative antihistamine indicated for the treatment of seasonal and perennial allergic rhinitis, allergic conjunctivitis, chronic urticaria and other allergic conditions.  
**Dosage and administration:** adults and children over 12 years: 10 mg daily. Children 6-12 years: 5 mg once daily. Children younger than 6 years: 2 mg per 10 kg daily. Hismanal should be taken on an empty stomach. **Precautions:** Hismanal should be used in pregnant women only when, in the judgement of the physician, the potential benefits outweigh the possible hazards. **Adverse reactions:** weight gain may occur during prolonged treatment. **Overdose:** in case of overdose, gastric lavage should be followed by close observation and ECG monitoring as arrhythmias have occasionally occurred after intake of doses in excess of 200 mg.
