# Nizoral

(ketoconazole)

## Did you know

that in seborrhoeic dermatitis  
a dominant role is played by  
*Pityrosporum* yeasts?

## And did you know

that *Pityrosporum* is exceptional  
sensitive to ketoconazole,  
alias Nizoral?

## If you do, you know why Nizoral cream is the right answer to seborrhoeic dermatitis

Apply twice daily until a few days after remission of symptoms.

**Indications:** Nizoral cream is indicated for topical application in the treatment of dermatophyte infections of the skin, as well as in the treatment of cutaneous candidosis and tinea (pityriasis) versicolor. Nizoral cream is also indicated for the treatment of seborrhoeic dermatitis, a skin condition related with the presence of *Pityrosporum ovale*. **Precautions:** Irritation may occur when Nizoral cream is used immediately after prolonged treatment with topical corticosteroids. Therefore, it is recommended to continue applying the topical corticosteroid in the mornings and to apply Nizoral cream in the evenings, and to subsequently and gradually withdraw the steroid therapy over a period of 2-3 weeks.

# CIA software — available now

---

## Calculate with confidence:

*Confidence Interval Analysis (CIA)* is a computer program that takes the sweat out of calculating confidence intervals. Devised by Martin Gardner, professor of medical statistics, MRC Environmental Epidemiology Unit, University of Southampton. The program is menu driven with easy access to each chapter and to the method required within each chapter. Topics covered include calculating confidence intervals for:

- means and their differences
- proportions and their differences
- regression and correlation
- non-parametric analyses

For each method relevant intermediate statistics and the required confidence interval are produced on the screen. Complete with its own manual, the program may also be used in conjunction with the book *Statistics with Confidence*, which provides numerous worked examples. The software is available for IBM compatibles on either a 5¼" or a 3½" disk.

**Price: £65.00. Educational establishments, research institutes, and the NHS — £45.95. Prices include VAT in the UK and air mail despatch abroad.**

The book *Statistics with Confidence – Confidence intervals and statistical guidelines* is available price £7.95 in the UK and £9.50 abroad (BMA members £7.45 and £9.00, respectively)
