

depression?

**improvement often starts within
a week on 'Concordin'**

CONCORDIN[®]

Protriptyline hydrochloride

'Concordin'-5

Each tablet contains 5 mg protriptyline hydrochloride

in mild to moderate depression

'Concordin'-10

Each tablet contains 10 mg protriptyline hydrochloride

in moderate to severe depression

Depression usually responds quickly to 'Concordin'. Fatigue, lethargy as well as the overall depressed mood are relieved—the patient may very soon regain interest in everyday activities. An initial improvement—generally without problems of drug-induced sedation—is often seen within a week.

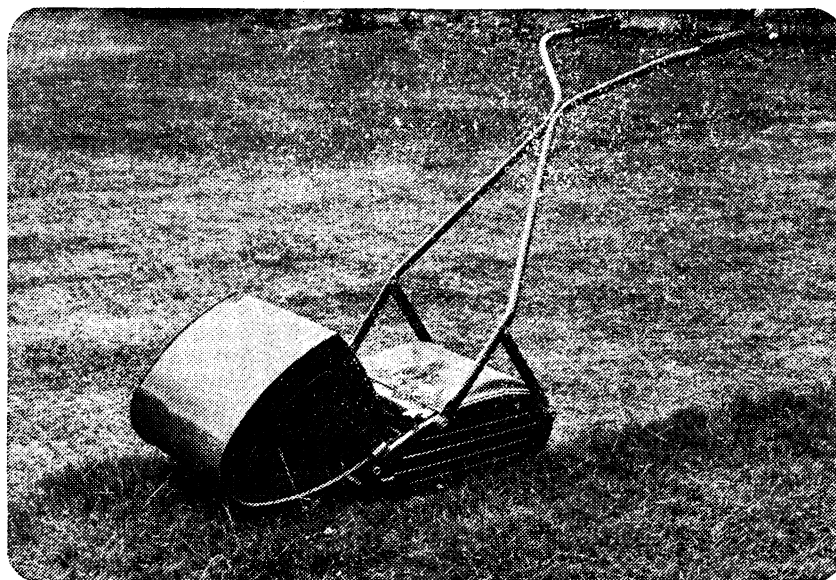

Detailed information is available to physicians on request.

If the weekend is disrupted by diarrhoea

Penbritin KS gives fast effective relief

Penbritin **KS** works fast

In just 24 hours Penbritin KS gives both symptomatic and antibacterial treatment of diarrhoea and enteritis.

Penbritin **KS** is effective

Penbritin KS eliminates infection from the wall of the intestine, kills organisms in the lumen, consolidates stools, adsorbs toxins and soothes inflamed mucosa.

Penbritin **KS** is virtually non-toxic

Penbritin KS contains ampicillin and sulphadimidine, two of the safest and most widely used antibacterials.

Penbritin **KS** formulation

Penbritin—provides wide antibacterial cover.

Sulphadimidine—widens the spectrum of activity still further, ensuring complete removal of infecting organisms.

Light Kaolin—consolidates stools, adsorbs toxins and soothes inflamed mucosa.

Full information is available on request.

Penbritin KS (regd.) is a product of
Beecham Research Laboratories,
Brentford, England.

Break the threadworm life-cycle with single-dose Pripsen

Threadworms often infect families, one child can infect the others.

A single dose of Pripsen, taken by each member of the family, can eradicate threadworm infection. Pripsen treats the affected child and protects others against infection. As a precaution against possible re-infection a second dose of Pripsen should be given after two weeks.

Pripsen (piperazine phosphate and standardized senna) is also effective against roundworms.

Tube of 10G (one full dose). Tins of 80G (dose measure enclosed).
Pripsen can be mixed with milk or water.

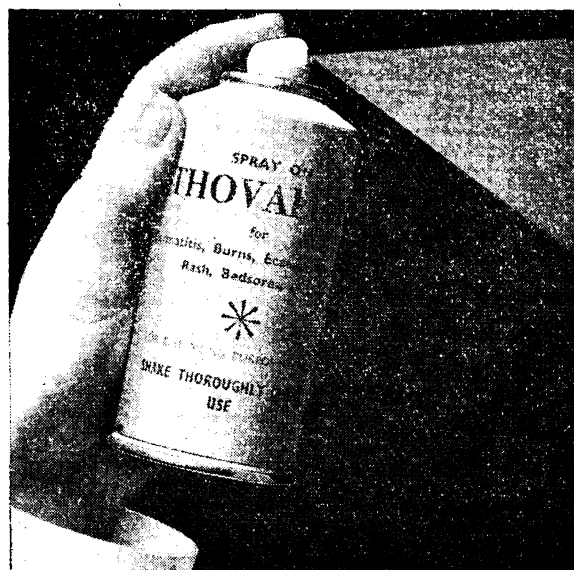

PRIPSEN

single-dose anthelmintic

Westminster Laboratories Limited, Hull, Yorks.

THIS IS SPRAY ON THOVALINE FOR BURNS

Extensively used in hospitals throughout the country. THOVALINE is also available as a cream in handy tub packs.

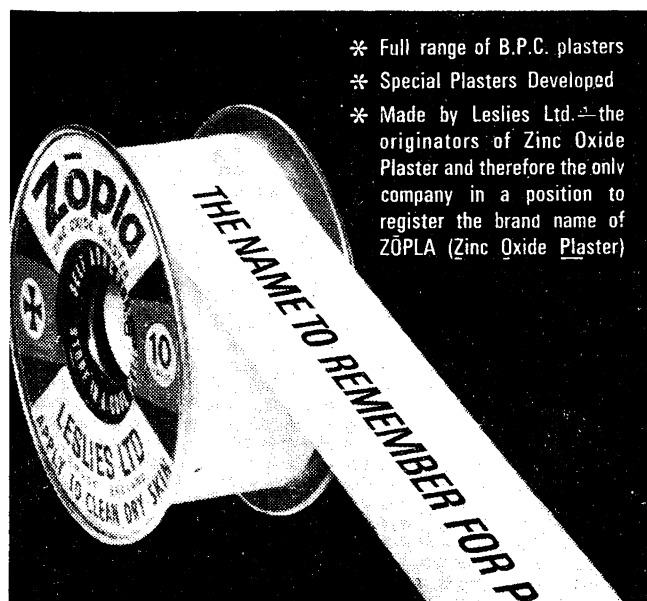

ACTIVE INGREDIENTS:

Talc B.P.C. 7.4% ; Kaolin (light) B.P. 3.5% ; Zinc Oxide B.P. 21.8% ;
Cod Liver Oil B.P. 2.15% ; Wool Fat B.P. 1.075%.

When you prescribe elastic stockings

Scholl make sure the patient wears them

Scholl know as well as you do just how much women hate the idea of elastic hosiery. And that though they'll often take the prescription, they don't always wear the stockings.

So Scholl make their elastic hosiery attractive by making the stockings as un-detectable as possible. They conform to all the specifications of the Drug Tariff and they give the patient all the support and comfort you want her to have. But they look nicer than ordinary elastic stockings. Feel lighter. So that your patient doesn't feel embarrassed by them. And instead of leaving them in the drawer, she wears them.

Scholl 'Soft Grip'
for conditions requiring 'Elastic Yarn Standard Weight'.

Worn *under* normal sheer nylons, Soft Grip are almost invisible. They are made in double-expansion mesh with two-way elasticity to provide firm, even support *around* the leg with plenty of comfortable 'give' lengthwise.

Scholl 'Nylastik'
for cases needing 'Lightweight Elastic Yarn Stockings'.

Nylastik are worn *instead* of nylons, and, on the leg, appear almost indistinguishable from an ordinary 30 denier stretch stocking.

Scholl
the world's
largest makers of
Elastic Hosiery

EDWARD ARNOLD

41 Maddox Street, London, W.1

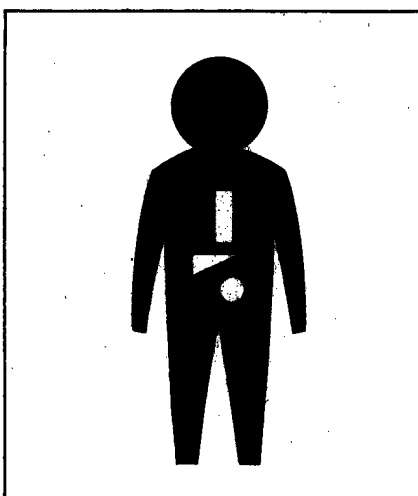

You'll never know malabsorption exists if you prescribe **Ferrograd[®] C** for all iron deficiency anaemias

and you'll automatically ensure
depleted body stores are replenished
simply by continuing treatment

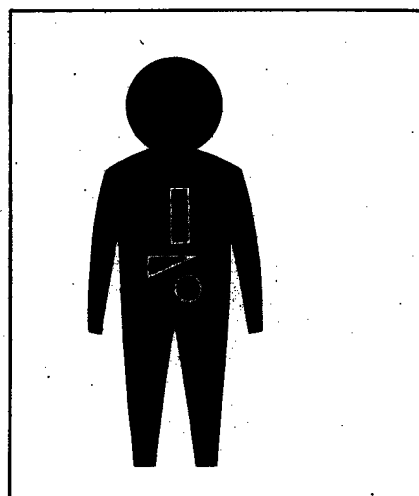

and your patients will very rarely
complain of side effects after the
once-daily, before-food dosage.

As the haemoglobin level approaches
normal during treatment with iron salts
alone, absorption will tend to decrease

even though iron stores remain
depleted. With high dose vitamin C—
as in Ferrograd C—absorption of iron

continues at a higher rate after haemo-
globin levels are normal so that body
stores are replenished.

Each Ferrograd C tablet contains the exsiccated equivalent of 525 mg ferrous sulphate BP (\equiv 105 mg Fe) in a Gradumet[®] and 500 mg vitamin C as sodium ascorbate

Ferrograd[®] C

Once-daily ferrous sulphate with high dose vitamin C
for maximum absorption and replacement of iron stores

Full information available on request from Abbott Laboratories Limited Queenborough Kent

When depression and
anxiety walk together...

'Surmontil'

the M&B antidepressant with
psychosedative properties

Treatment of depression alone frequently leads to aggravation of underlying anxiety or agitation. The intrinsic double action of 'Surmontil' as antidepressant and anxiolytic obviates the need for supplementary medication in these cases.

At the same time, the central sedative activity of 'Surmontil' helps to restore normal sleep patterns.

Available as tablets containing 25 mg. trimipramine and injection solution, 12.5 mg. per ml. also 10 mg. tablets for children, mild cases and to facilitate dosage adjustment.

Full information is available on request

a new
fundamental
approach

to the problem
of sputum

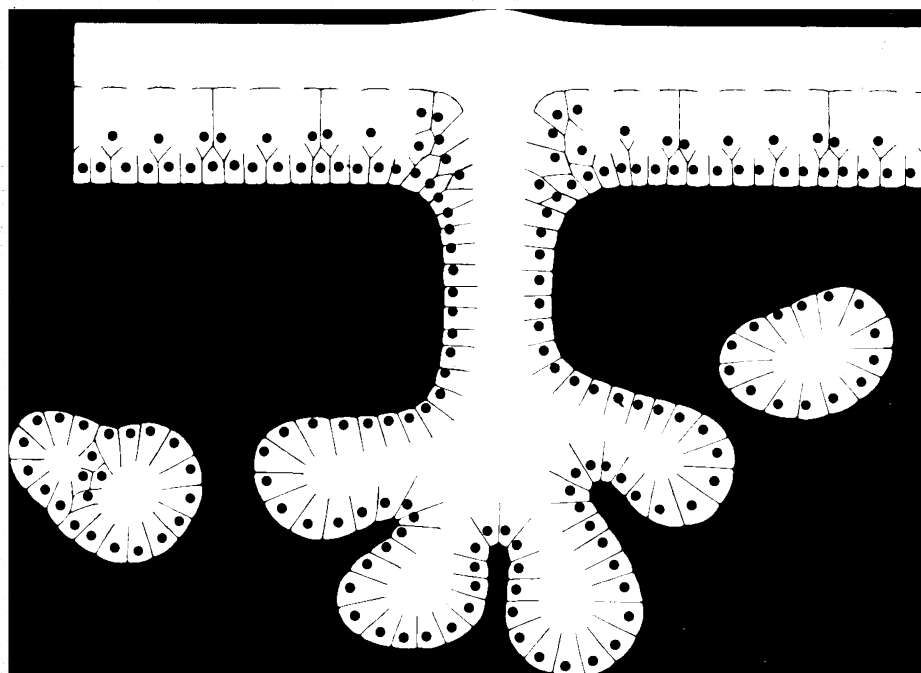

mobilises mucus
mobilises the bronchitic

tablets and elixir

A feltwork of fibres is responsible for the thick, sticky sputum characteristic of the bronchitic.¹

Bisolvon alone solves the problem for the patient with non-purulent sputum by:

- I. disrupting this feltwork of fibres
- II. reducing sputum stickiness
- III. promoting the flow of easily expectorated sputum
- IV. decreasing sputum volume after a few days' treatment

Composition Bisolvon is N-cyclohexyl-N-methyl-(2-amino-3, 5-dibromobenzyl)-amine hydrochloride

Pharmacology In animal experiments Bisolvon stimulates increased secretion of fluid by mucous glands of the respiratory tract and it also breaks down the feltwork of acid mucopolysaccharide fibres which are responsible for the viscosity of non-infected bronchitic sputum.²

Clinical Effects When given orally Bisolvon's effect becomes apparent to the patient within 2-3 days by an increased production of thin, easily expectorated sputum. As treatment progresses sputum volume decreases without an increase in viscosity, and with continued ease of expectoration.

Indications Acute and chronic bronchitis and other conditions where tenacious sputum is a problem.

Contra-indications There are no absolute contra-indications, but caution should be observed when

administering Bisolvon to patients with gastric ulceration.

Precaution When a patient under treatment for tuberculosis is receiving Bisolvon, sputum cultures for tubercle bacilli should be continued for at least three months before a negative result is assumed.

Side-effects Mild gastro-intestinal side-effects may occasionally occur. In a small number of patients a transient rise in serum transaminase levels may be seen, but these should fall again as treatment with Bisolvon continues.

Dosage Adults: 8 mg. three times daily. Children age 5 to 10: 4 mg. four times daily. Children under 5: 4 mg. twice daily.

Availability Tablets, 8 mg.; packs of 20 and 250. Elixir, 4 mg. in 5 ml. (with 17.5 mg. chloroform); packs of 200 ml. and 1-litre.

Better

So often the only prescription needed

It began as only an insect bite, but now the ugly red swelling of cellulitis marks her skin. It worries her far more than the throbbing and the tenderness because she feels disfigured. When she comes to see you, she is resentful. Why should it happen to her?

You know that to clear the symptoms you have to attack the organisms that cause the infection. And you have to do it quickly — first time if possible.

Penbritin is the answer. In skin infections of bacterial origin, fast acting Penbritin kills the bacteria and clears the symptoms. But the real effectiveness of Penbritin can best be judged in its treatment of skin and soft tissue infections of a more serious nature. In wound infections, for example, Penbritin, with its exceptionally high blood levels and deep penetration of the tissue at the site of infection, will not merely inhibit bacterial growth — it will kill the infecting organisms.

In skin and soft tissue infections, Penbritin is the answer. And so often the only prescription needed.

Availability: Penbritin (ampicillin B.P.). Paediatric Tablets containing 125 mg.; Capsules, 250 and 500 mg.; Syrup, 125 mg./5 ml.; Syrup Forte, 250 mg./5 ml.; Injections, 100 mg., 250 mg., 500 mg.

Dosage: Children under 2 years: 62.5—125 mg. 2—10 years: 125—250 mg. Adults: 250 mg. All dosages q.d.s. a.c.

In severe infections these doses may be increased or Penbritin given by injection.

Contra-indication: Penicillin allergy.

Side effects: As with other penicillins.

Further information is available on request.

Screening for Health

Theory and Practice

By H. P. Ferrer, MB, ChB (Ed), DPH (Distinc)

The data for this publication is based on material originally obtained for the Diploma of Public Health at Liverpool University. The book emphasizes the importance of screening tests in a comprehensive health service. The work covers classical periods of screening from mass radiography tests to cancer. Also covered are hypertension, anaemia, urine infections, diabetes and other screening tests. A bibliography is provided for each with an assessment of their value and limitations.

224 pages illustrated 55s.

Exfoliative Cytology of the Stomach

By D. D. Gibbs, BA, DM, FRCP, DCh

This book has three aims: firstly, to help those who have occasion to interpret cytological preparations from gastric material; secondly to view the technique and practice of gastric cytodiagnosis in historical perspective; and thirdly to consider the relevance of cytology in the context of the natural history of gastric cancer.

178 pages illustrated 55s.

A System of Orthopaedics and Fractures

Third Edition

By A. Graham Apley, MB, BS, FRCS

For its third edition A SYSTEM OF ORTHOPAEDICS AND FRACTURES has been extensively revised and much new work has been incorporated. Illustrations have been introduced on a lavish scale. Mr. Apley has not only assembled a noteworthy collection of x-rays, photographs and diagrams, but by grouping them in composites he has enhanced their instructional value. The organized and practical approach has been retained as also has the presentation of Look, Feel and Move.

558 pages Lavishly illustrated £6 6s.

Diagnostic Methods

Edited by John W. Mills, MD, MRCP, DMRD

In this book practically every method and aspect of diagnosis is mentioned. Many of the specialist techniques now available are complex and expensive and it is becoming increasingly important to ensure that the indications, limitations, possible hazards and information obtained from the tests should be clearly appreciated not only by those who perform them, but also by those who prepare the patient or specimen for the test. Postponement or an unsatisfactory result of a test is often the direct consequence of inadequate or incorrect preparation—the authors have, therefore, emphasized this aspect in this book.

ALLEN & HANBURYS LIMITED LONDON E 2

two complementary anti-hypertensive agents—but 'single tablet' convenience

Hydromet

Methyldopa BP and hydrochlorothiazide BP ®

For many hypertensive patients, 'Hydromet' is often the most suitable treatment. 'Hydromet' contains both methyldopa and hydrochlorothiazide, a combination already widely used in this country for the severer grades of hypertension. Note the substantial advantages which 'Hydromet' can bring to your patients:

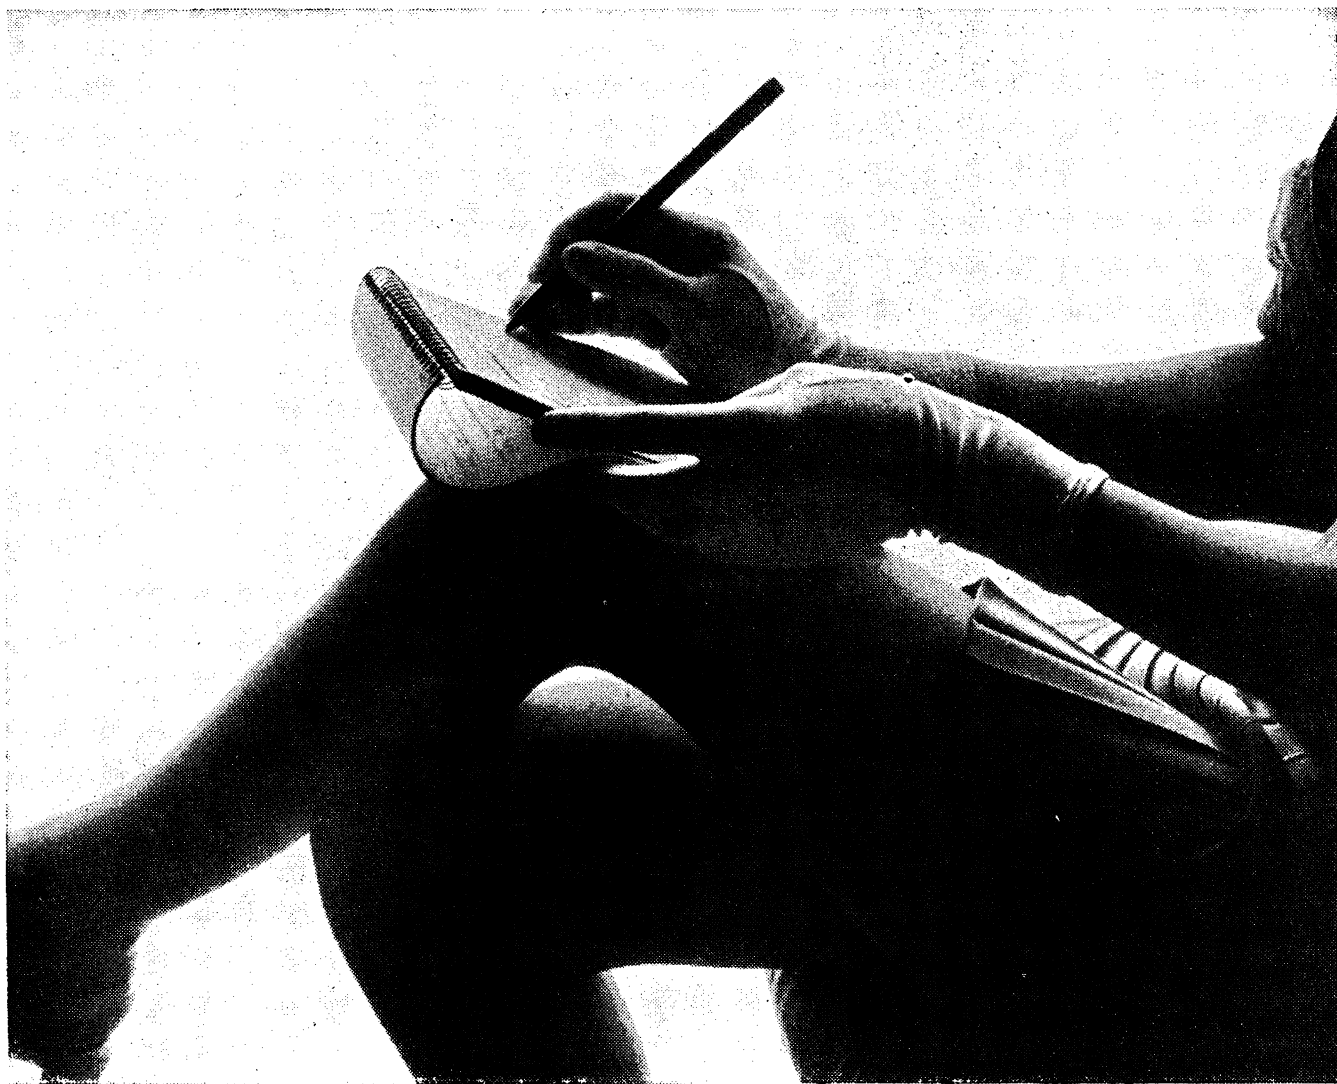

- the convenience of a single tablet
- 'Hydromet' usually makes a satisfactory control of blood pressure possible on a lower dosage of methyldopa
- in some severe and resistant cases, 'Hydromet' can produce a greater antihypertensive response than methyldopa alone
- the diuretic action of hydrochlorothiazide is useful when hypertension is complicated by heart failure and oedema
- symptomatic postural hypotension is much less frequent than it is with other powerful antihypertensive agents

Available as tablets containing methyldopa BP equivalent to 250 mg anhydrous methyldopa and 15 mg hydrochlorothiazide BP. Detailed information is available to physicians on request.

® denotes registered trademark. 'Aldomet' is a registered trademark.

*Embarrassed by contact dermatitis.*

Synalar gives fast relief in a wide range of inflammatory dermatoses

Speed of action. Low concentrations of Synalar achieve optimal skin penetration, frequently with therapeutic response in 24-48 hours. This rapid action greatly reduces the incidence of scratching. The speedy restoration of the epidermal barrier lessens the risk of secondary bacterial infection.

Efficacy. Synalar has a 95% success rate in inflammatory dermatoses and in pruritic and allergic conditions of

the skin. It has often been successful in difficult skin conditions which, previously, had been unresponsive to other steroid preparations.

Range. The complete flexibility of the Synalar range makes the selection of treatment, according to the type and severity of the condition, a simple one. Synalar is available in cream, ointment, lotion and aerosol form, for the initial treatment of severe

cases; for maintenance therapy and less severe dermatoses, Synandone is available as cream, ointment and lotion.

Best for British women

New Feminor 21—Specially formulated for efficient conception control

The dose of oestrogen required for consistent inhibition of ovulation shows individual and racial differences. For British women the best results have been obtained with 0.1 mg.* Feminor 21 is thus the ideal formulation for them. To inhibit ovulation it employs 0.1 mg of an oestrogen (mestranol) alone for the first sixteen days—with the addition of a progestogen

(norethynodrel) for the last five days to establish a normal, secretory endometrium. Because the total amount of hormone taken is limited to that necessary for effective inhibition of ovulation there is minimum physiological disturbance. The sequential dosage establishes a very regular menstrual cycle with a marked reduction in side effects such as breakthrough bleeding, breast discomfort and weight gain. The 21-tablet regimen is simple to follow, and the new cosmetic-type pack is designed for ease and convenience.

Feminor 21 is presented in packs con-

taining three months supply. A pack containing one month's supply is also available. Each monthly course consists of 21 tablets: 16 pink tablets containing mestranol 0.1 mg, 5 white tablets containing mestranol 0.1 mg, norethynodrel 2.5 mg.

Basic NHS Cost: 15/- three month pack, (5/10d one month pack).

Medical Div, London Rubber Industries
Ltd, Hall Lane, Chingford, London E4.

New Feminor 21

of its having been given for long periods to children with mucoviscidosis both with benefit and without any finding of resistant staphylococci in the sputum. Possibly the site or nature of the lesion determines the behaviour of the organism.

Side-effects

Only mild gastrointestinal disturbances and occasional rashes have been reported.

Vancomycin

Vancomycin ("Vancocin" Lilly) has a very narrowly restricted range of usefulness, and the profession should consider itself fortunate in being still able to obtain it. The manufacture of ristocetin, a closely similar antibiotic subject to the same restrictions, has been abandoned presumably because of inadequate demand. Vancomycin is an amphoteric substance of complex and not fully ascertained structure and is used in the form of the base or the sulphate.

Antibacterial Activity

This is exerted exclusively on Gram-positive organisms, and, though various species are susceptible, therapeutic interest is confined to staphylococci and streptococci, including *Str. faecalis*. The effect exerted is not merely inhibitory but bactericidal. Abnormal resistance is rare, and no material increase in resistance follows even prolonged exposure to the antibiotic. The combination of bactericidal activity with indefinite retention of sensitivity is the secret of this antibiotic's success. It is not usually necessary to combine another with it, but should this be attempted a combination with another bactericidal antibiotic may be synergic.

Pharmacology

There is no absorption from the alimentary tract, and intramuscular injections cause local necrosis and excessive pain. Administration must therefore be intravenous, preferably through an indwelling catheter into the vena cava. The unchanged antibiotic is almost wholly excreted in the urine, but at a slow rate, so that frequent administration is not called for: perhaps ideally 0.5 g. should be given six-

hourly but 1 g. 12-hourly maintains a continuously adequate blood level.

Clinical Indications

It might almost be said that there is only one: the treatment of staphylococcal or streptococcal endocarditis resistant to other antibiotics. This resistance is more often clinical than bacterial—that is, an antibiotic or combination to which the organism appears sensitive has been tried and failed, and vancomycin is then substituted for it. The patient's pursuit of a long course of intravenous treatment will then often succeed. It has recently been claimed in the United States that vancomycin is the antibiotic of choice for endocarditis due to any sensitive organism in drug addicts, in whom the prognosis is normally very poor.

One other use deserves mention. Recent reports from the United States strongly commend vancomycin, given orally in 0.5 g. doses at initially 4-hour intervals, for acute staphylococcal enterocolitis.

Side-effects

Individual injections into small veins even when made slowly are apt to cause thrombophlebitis. The main general danger is loss of hearing, and this should be guarded against by monitoring the blood level in any patient whose renal function is at all suspect, the aim being not to allow the level to exceed 25 µg./ml. If there is any impairment of renal function it will be found necessary to prolong the interval between doses. Vancomycin cannot be eliminated by renal dialysis.

ANY QUESTIONS?

We publish below a selection of questions and answers of general interest.

Acidifying Urine

Q.—What is the most effective regimen for keeping urine constantly acid? What precautions need be taken?

A.—My first reaction to this question is why should anyone want to keep the urine constantly acid. It is not easy to think of any circumstances in which it should be necessary. Normally the pH of the urine is usually on the acid side of neutrality, and if it is constantly alkaline then a cause should be sought and dealt with first of all.

When mandelic acid is used for the treatment of urinary infections it is desirable to maintain an acid urine (pH below 5.5), and for this purpose the administration of am-

monium chloride 2 g. daily is usually quite effective. I have not found it necessary to employ any other method of acidifying the urine, nor am I aware of any other regimen which has been suggested as being more effective. In any event, other and newer drugs which do not require acidification of the urine have largely replaced mandelic acid in the treatment of urinary infections.

When a forced diuresis is used to hasten the elimination of certain drugs which have been taken in excessive amounts it is sometimes desirable to acidify the urine—for example, in overdosage with amphetamine or pethidine. For this purpose ammonium chloride, given intravenously if necessary, is also effective, or, as mentioned in a recent

answer in this column,¹ the intravenous administration of sodium acid phosphate, lysine, or arginine hydrochloride has been recommended as an alternative.

Sleep-walking

Q.—Is there any effective treatment for sleep-walking in a normal healthy 20-year-old girl?

A.—Yes, effective treatment is available. Sleep-walking itself is not a normal, healthy activity. It is a disturbance arising from motives of which the individual is unaware.

THE DROP THAT SOOTHES THE INFECTED EAR

'Otosporin' rapidly destroys virtually *all* bacteria commonly found in ear infections, reduces irritation, inflammation and pain.

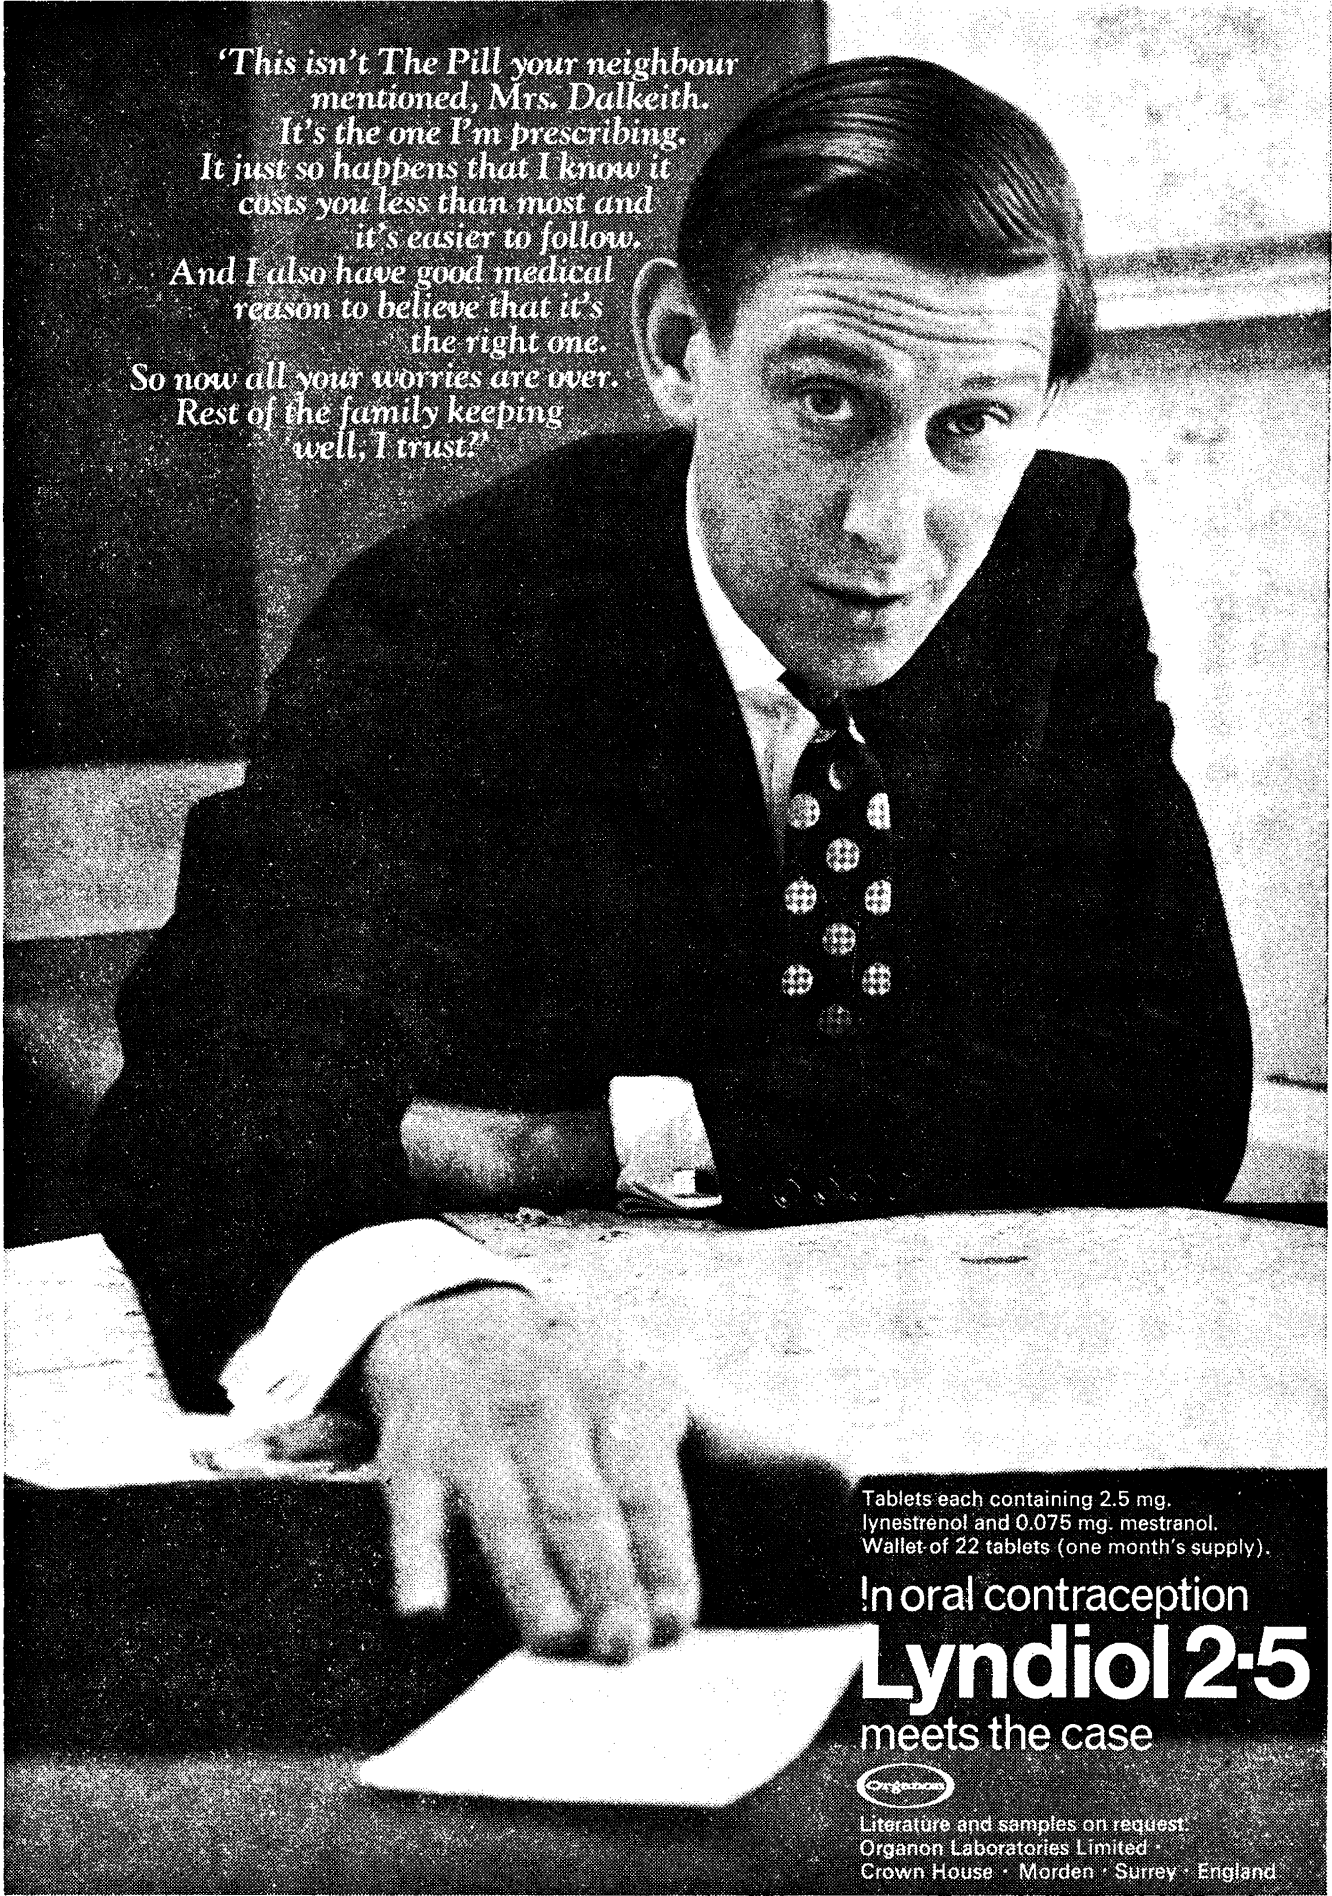

'Otosporin' brand Drops contain polymyxin B sulphate, neomycin sulphate and hydrocortisone in a bland suspension designed to facilitate penetration. Issued in bottles of 5 ml.

OPILON

selectively improves blood flow in the skin

Strain-gauge plethysmography is one of several techniques for evaluating blood flow in limbs. These tracings were produced using this technique: the steepness of the slopes of the tracing is representative of blood volume. In this instance the patient suffered

from Raynaud's phenomenon in both hands. The tracing above shows blood flow in the finger before treatment, and that below after treatment with OPILON (thymoxamine). The dramatic increase in blood flow is as much as fifteen times.

Opilon is a specific alpha adrenergic blocking agent and its action is confined almost entirely to the periphery. Clinical evidence such as that described above, shows its beneficial influence on blood flow in the skin and superficial tissues. Opilon is not related to the nicotinic acid derivatives and unlike the beta adrenergic drugs, such as isoxuprine, does not affect cardiac rhythm.

Opilon is indicated where peripheral ischaemia is evident, such as Raynaud's phenomenon, chilblains, Ménéjère's syndrome, acrocyanosis and excessively cold hands and feet. Opilon may also be used to maintain nutrition of the skin, important in many occlusive peripheral disorders.

Tablets of 40 mg thymoxamine in bottles of 50 and 250.

BAD LEGS?

Tired heavy aching legs

Before 'bad legs'
become an ugly
problem—
PAROVEN®

All the early symptoms of venous insufficiency—tired, heavy, aching legs, skin disorders, and night cramps—respond to PAROVEN therapy. [1-3]

PAROVEN, containing trihydroxyethylrutoside, reduces the increased capillary permeability which "is at the bottom of the majority of the complications of varicose disorders". [4]

Indications

Conditions associated with lower limb venous insufficiency.

Tired, heavy, aching legs. Night cramps. Skin disorders.

Superficial thrombophlebitis.

Varicose states.

Dosage

1 tablet 3 or 4 times a day.

Maintenance dosage [as little as one tablet a day] may be adjusted to patients' needs.

Packages

Tablets of 250 mg. hydroxyethylrutosides [not less than 45% troxerutin]. Tins of 20-100 tablets.

An aid to oral hygiene

Maintenance of oral hygiene during the post-operative period, especially among geriatric patients, is obviously essential. But at the same time this can prove to be somewhat time-consuming for the nursing staff.

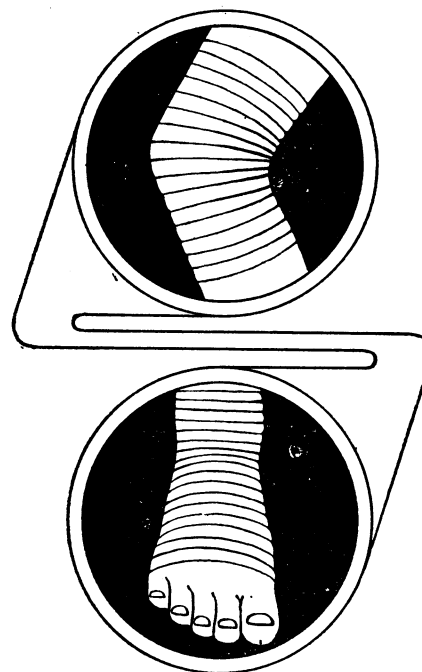

However, recent experience in a London hospital has shown that the patient can help to provide his own nursing care, with the minimum of effort.

This experience covers patients who are fed intravenously and post-operative cases who find normal eating and drinking difficult. These patients often exhibit signs of mouth infection very quickly, and treatment for this can often cause considerable discomfort.

A more pleasant treatment is possible in many cases, for it has been found that giving the patient chewing gum promotes salivary gland activity. Patients are encouraged to chew gum at two-hourly periods, and this treatment frequently allays the symptoms and produces a considerable improvement in the condition of the tongue and mucosa. Quite striking results have been noted after carrying out this treatment for a 24-hour period.

Senokot restores natural rhythm to the constipated colon

Senokot, standardized senna, has earned a reputation for effectiveness and safety. Over 150 references in medical journals and text books testify to its value. Senokot is suitable for all ages and is useful in pregnancy and in geriatric cases. It is predictable in its action and, taken in the correct dosage, is free from griping. Acting specifically in the colon, it induces controlled peristaltic action and restores the normal defaecation reflex leading to re-education of the bowel.

From dispensing packs, the basic NHS cost of a teaspoonful of granules or two tablets is about a halfpenny; thus treatment with Senokot is very economical.

In addition to granules and tablets, there is now a syrup presentation – a highly acceptable form, specially suited to the needs of children and elderly patients.

Tablets: 50, 100 and 200. Granules (chocolate flavour-
ed): 56 and 170 grammes. Syrup: 150 millilitre bottle.

BALANCED ANTACID TREATMENT

Plus anti-flatulent properties

By its dual action, Diovol restores gastric acid balance, quickly dispels flatus and relieves the pain and discomfort of gastric distension. The silicone defoaming agent infiltrates the mucoid bubbles in the stomach, causes them to burst and release the imprisoned gas.

Diovol is NOT, therefore 'just another antacid' but represents a remarkable advance in the therapy of dyspepsia and peptic ulcer, and for the dispersion of wind post-operatively—particularly after abdominal surgery.

DIOVOL

Diovol tablets and suspension

The Antacid with a Plus

Each tablet contains:—

Aluminium hydroxide and Magnesium carbonate co-dried gel	300mg.
Magnesium hydroxide	100mg.
Dimethylpolysiloxane	25mg.

Each 5ml of suspension contains:—

Aluminium hydroxide	200mg.
Magnesium hydroxide	200mg.
Dimethylpolysiloxane	25mg.
Spearmint flavoured.

This allowance is also payable in respect of doctors joining existing partnership who satisfy conditions laid down in E.C.N. 601.

Further details can be obtained from the Clerk, West Riding Executive Council, 5 St. John's North, Wakefield. (H.8764)

THIRD ADVERTISEMENT
BROMLEY, KENT
(DOWNHAM WAY AREA)

"Open" area, retiring practitioner, male. List at present approximately 2,250. Leasehold premises including living accommodation will be available for sale to an appointed successor.

Application forms, E.C.16A, obtainable from the Clerk, Inner London Executive Council, Insurance House, Insurance Street, W.C.1. Completed applications to be received by the Council, not later than 12 noon, Thursday, July 11, 1968. (H.8768)

GREATER LONDON BOROUGH OF
WALTHAM FOREST, LEYTON

Applications are invited for a medical practice vacancy in the above urban area (classified as "open") arising from death of practitioner.

Total number on list—2,200 approx. Surgery accommodation may be available. Form E.C.16A and further details obtainable from the Clerk, North-East London Executive Council, Ilford Lane Chambers, Ilford Lane, Ilford, Essex. Applications to be received not later than July 19, 1968. (H.8725)

KIMBERLEY, NEAR NOTTINGHAM

Applications invited for vacancy (open area) due to retirement on September 30, 1968. List at present 2,494. Separate surgery premises available for rental.

Completed application forms to be received by the Clerk, Nottingham County and City Executive Council, 11 The Ropewalk, Nottingham NG1 5EP, not later than July 27, 1968. (H.8724)

STORRINGTON, WEST SUSSEX

Applications invited for rural general practice vacancy caused by resignation of lady doctor on September 30, 1968. Intermediate area. List approximately 2,490. Further particulars and form of application may be obtained from the Clerk, West Sussex Executive Council, 175 Broyle Road, Chichester, to whom completed application should be sent, by July 22, 1968. (H.8763)

WARWICKSHIRE AND SOLIHULL
EXECUTIVE COUNCIL
Chelmsley Wood, Warwickshire

This area is in the course of development and is to house a population of approximately 60,000 by 1971. To date, 2,500 houses have been completed and will increase by stages to a total of 15,762 houses. Building is continuing in several places at the same time. It is proposed to establish four groups of doctors each of up to ten members practising from group surgery premises adjacent to local authority services and separate dental practitioner suites. Until group premises are built, temporary accommodation from which to practise will be available on a rental basis. The first doctor of the first group commenced practising 12 months ago and the group premises, etc., for that part of the area are expected to be completed by the end of 1968.

Applications are now invited for the first of the second group of doctors for another part of the area. This vacancy provides an excellent opportunity for a doctor experienced in general practice to form and organize a partnership with a potential of 15,000 patients. The area is designated and Type A Initial Practice Allowance will be payable to the appointed doctor subject to the usual conditions. He will be expected to commence practising in September, 1968.

Forms of application (E.C.16A), and further information are obtainable from the undersigned, to whom completed applications should be sent, to arrive not later than July 22, 1968.—R. V. Nellthorpe, Clerk, Warwickshire and Solihull Executive Council, 15 Waterloo Place, Warwick Street, Leamington Spa. (H.8766)

PRACTICES (Offered)

PARTNER REQUIRED FOR PROGRESSIVE
group practice in Reading. Open x-ray and pathology facilities. Young British graduate preferred to share our interest in proposed postgraduate centre. Full details on application.—Box PR.1340, B.M.J.

RESEARCH AWARDS

BRITISH DIABETIC RESEARCH FUND

The British Diabetic Association announces intention to form research groups for the support of long-term clinical and laboratory investigation. The establishment of such groups will be in addition to the normal range of grants made by the association. Applications are invited for the long-term support (at least five years) of projects of medical and practical importance for the study of diabetes in man.

Further details are available from the Secretary-General, The British Diabetic Association, 5/6 Alfred Place, London W.C.1. (H.8784)

EDUCATIONAL

CRASH COURSE DESIGNED FOR graduates working for the M.R.C.P. examination, will be held in the week commencing Monday, November 4, 1968, and lasting five days. It will include intensive tutorials on tests of immunological function, terapeutics, malabsorption, anti-cancer drugs, chromosomal diseases and tests of endocrine function.

There will also be clinical demonstrations and in particular the correct routine for the examination of patients. This course is approved by the British Postgraduate Medical Federation for study leave, so that junior hospital medical staff can reclaim fees and expenses from regional hospital board. For full particulars apply to the Dean, Royal Northern Hospital, London N.7. (10238)

Cases in out-patient department at 11 a.m. Discussion in nurses' lecture room at 11 a.m. to 12 noon. Members of the London Jewish Hospital Medical Society, London general practitioners, senior medical students and any other doctors who are interested are most cordially invited. (10264)

COMMERCIAL APPOINTMENTS*The Wellcome Research Laboratories*

PART-TIME LADY DOCTOR

(Clinical Research)

The Clinical Research Department of the Wellcome Research Laboratories seeks the part-time services of a lady medical practitioner.

Her work will be concerned with the collation and assessment of scientific data on specific projects and will involve liaison with laboratory and clinical staff. Previous experience of research is not essential. The post is designed to attract a married woman doctor with family commitments so that, while the number of half-day session equivalents will be fixed, the distribution of these between school terms and holidays within each week can be flexible.

The Laboratories are situated at Beckenham, Kent, in pleasant parkland surroundings within easy reach of Beckenham and Bromley.

Please write for further information, enclosing a brief curriculum vitae and quoting AM.419, to the **Senior Personnel Officer, The Wellcome Research Laboratories, Langley Court, Beckenham, Kent, BR3 3BS.**

(10278)

INDUSTRIAL APPOINTMENTS—see also p. xxiv

ASSISTANT MEDICAL OFFICER

required at **REGIONAL HEADQUARTERS,**
EAST DIDSbury, MANCHESTER, 20.
Salary range £2,165/2,660 per annum.
Superannuable.

The successful applicant will assist the Regional Medical Officer in the administration and development of the Region's health service. Duties will include the medical examination of employees at nuclear and conventional power stations, advice to management on the rehabilitation of employees disabled through sickness or injury, advice on the health aspects of the working environment, supervision and training of nurses and the supervision and training of first aid attendants. The Assistant Medical Officer will be responsible for providing a medical service to a number of power stations.

A good standard of clinical medicine is necessary and previous experience of general practice would be an advantage. Experience in occupational health is not essential. The successful candidate will be encouraged to attend the part-time course in Occupational Health at the University of Manchester, if not already qualified in this branch of medicine. He must be able to drive a car.

Apply giving full details to **Regional Personnel Manager, Central Electricity Generating Board, 825 Wilmslow Road, Manchester, 20,** by 30th July, 1968. Please quote Vacancy No. E.829/59/M.

(10251)

SENIOR MEDICAL OFFICER -Coventry

We require a full-time Senior Medical Officer for our manufacturing plants in Coventry. He will be responsible for the provision of a comprehensive occupational health service to the 8,000 employees in these two major plants. There is a team of State Registered Nurses and Welfare Officers who are responsible to the Medical Officer.

He will be taking over from the present Senior Medical Officer who is retiring shortly. Considerable reorganisation of these factories and the medical services for them is being developed and the new man would be joining a young and progressive management team.

He will be administratively and professionally responsible to the Medical Director, Rootes Motors, who will play an active part in the future development of the occupational health service to the Company.

Suitable candidates will have already had some years' experience in occupational health, possibly in another field. Possession of a Diploma in Industrial Health is a considerable advantage.

Salary will be in accordance with the British Medical Association scale for Senior Medical Officers, but allowance will be made for previous experience in selecting the starting point on the scale.

The successful applicant will be allocated a Company Management Roll Car at a nominal charge. Generous pension arrangements are in force and assistance will be given with removal expenses, where necessary.

Please write to: **Dr. W. M. Dixon, M.B., M.R.C.P., D.I.H., Medical Director, Rootes Motors Limited, P.O. Box 317, Bowater House, Knightsbridge, S.W.1.**

Medical Officer

Ford Motor Company Limited requires a full-time Medical Officer to join the medical staff at its Dagenham plant. The post offers exceptional experience in Occupational Health at a location where over 30,000 personnel are employed in a wide variety of manufacturing activities.

The Company has a medical staff of over 130 including ten full-time Medical Officers. Opportunities for advancement are excellent. The Medical Department includes an Industrial Hygiene service in the charge of a graduate specialist in Industrial Hygiene.

It is the Company's policy to assist suitable medical officers to undertake further studies. A real interest in occupational health problems, with the intention to follow a career in this field, is desirable.

Suitable candidates are likely to be under 40, and the starting salary will be at an appropriate point on the B.M.A. recommended scale for a Medical Officer. A good contributory pension scheme is in operation and other benefits are available.

Applications giving full details of qualifications and experience together with the names of two persons to whom references may be made, should be addressed to:

Chief Medical Officer
Room 1/162
Ford Motor Company Ltd
Warley
Brentwood, Essex.

Applicants should state name, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given. Canvassing disqualifies (Statutory Instrument, 1966, No. 569).

SALARY SCALES OF HOSPITAL MEDICAL STAFF

Following the Seventh Report of the Review Body, new salary scales have been approved. These came into force on October 1, 1966. The scales are set out below:

HOUSE OFFICERS: Each post in this grade shall be tenable for six months. £1,100 per annum for the posts held during the first year; £1,200 per annum for posts held during the second year; £1,300 per annum for posts held during the third and subsequent years, subject to full registration.
Deductions of £150 per annum in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

SENIOR HOUSE OFFICERS: £1,450 per annum in the first year; £1,550 per annum in the second year; £1,650 per annum in the third or subsequent years. Deductions of £175 per annum in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

REGISTRARS: £1,650 per annum, rising by four annual increments of £100 to £2,050.

Deductions of £175 per annum for those with remuneration at the first two points on the scale, and £200 per annum for those on the third and subsequent points will be made in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)
On assimilation to the scale for Registrars, one increment and one only shall be given for any year or part of a year in excess of two spent previously in the senior house officer grade.

Allowances at rates up to £140 per annum shall be payable to house officers, senior house officers and registrars occupying posts approved for such allowances in peripheral hospitals.

SENIOR REGISTRARS: £1,950 per annum rising by one increment of £100 and four further annual increments of £125 to £2,550.

Deductions of £225 per annum in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

On assimilation to the salary scale for senior registrars, increments to a maximum of two shall be given for each year or part of a year in excess of three spent previously in the registrar grade.

MEDICAL ASSISTANTS: £1,850 per annum rising by fourteen annual increments of £100 to £3,250.

Deductions of £225 per annum in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

CONSULTANTS: £3,200 per annum rising by five annual increments of £185, and then by four further increments of £190 to £4,885.

Deductions of £350 per annum in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

Doctors with satisfactory training will not be excluded from consideration for appointment to consultant posts on the grounds that they have spent little or no time as senior registrars.

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff. Memoranda on the following subjects of particular interest have been issued by the Ministry of Health: Standard of Residential Accommodation, Telephone Charges, Removal Allowances, Study Leave.

Further details may be obtained from the Hospital Secretary, or B.M.A. members may obtain summaries of the Memoranda or explanatory handouts from the Secretary, British Medical Association. (August, 1967)

HOSPITAL BOARD, Scotland

Applications are invited for the post of **CONSULTANT IN VENEREOLOGY** whole-time or maximum part-time, for the region.

The main duties will be at the Royal Infirmary of Edinburgh but responsibilities for the regional services will be shared with the present consultant. This post will carry responsibilities for the teaching of graduates and undergraduates and for the development for research within the unit.

Apply, by July 20, 1968, giving particulars of age, qualifications and previous experience, together with the names of three referees, to the Secretary, 11 Drumsheugh Gardens, Edinburgh 3. (H.8751)

GOVERNMENTAL

TREASURY MEDICAL SERVICE

Applications are invited from medical practitioners, practising in the districts detailed below, for appointment, in a part-time and mainly advisory capacity, as Local Treasury Medical Officer for each of the districts or groups of districts shown. The towns shown in brackets after the district name indicates the Head Post Office Area in which the district, or group of districts, is situated. Applicants must have a surgery in the district.

Successful applicants will be required to examine and report on the condition of certain Government officers, teachers, candidates for appointment, etc., who may be referred to them from time to time; and to attend when summoned to an emergency case of accident or sudden illness occurring in a Government office in the neighbourhood.

Fees for this work, and mileage allowance where journeys in excess of a certain distance are necessary, will be paid on a scale agreed with the British Medical Association. Intending applicants should write, within 14 days, to:

**TREASURY MEDICAL ADVISER,
TREASURY CHAMBERS,
GREAT GEORGE STREET,
LONDON S.W.1.**

for a form on which application may be made. Applicants should not be more than 60 years of age.

The districts for which applications are invited are as follows:

England and Wales
Fishponds (Bristol)
Christchurch (Bournemouth)
Dagenham (Romford)
Liverpool 6 (Liverpool)
Millom (Barrow in Furness)
Newbury (Newbury)
Stamford Bridge (York)

Scotland
East Kilbride (Glasgow)
Portobello, Edinburgh 15 (Edinburgh). (10333)

DOCTORS ABROAD. Copies of vacancies advertised in the "Journal" can be sent by **AIR MAIL.** The minimum cost is 3s. per week, which covers up to five separate headings: additional headings 1s. each. Orders for specific grades cannot be accepted. **PLEASE ENCLOSE PAYMENT** to avoid delay.

PUBLIC HEALTH

(see also p. xxxviii)

ANTRIM COUNTY HEALTH COMMITTEE
Northern Ireland

ASSISTANT COUNTY MEDICAL OFFICER
Applications are invited for a post of Assistant County Medical Officer.

Duties: Child welfare, school medical inspection, and others as directed by the County Medical Officer. Qualifications as prescribed in S.R. and O. (N.I.) 1966 No. 108 (copy supplied on request).

Applicants holding a D.P.H. or equivalent preferred, but another applicant may be appointed and may subsequently be seconded on generous financial terms on a course of training for the D.P.H.

Salary: £1,795 to £2,445 per annum, starting point depending on qualifications and experience. Post superannuable. Car essential, allowance payable.

Apply by July 17, 1968, on form obtainable from the Committee at 21 Alexandra Gardens, Belfast, BT15 3LJ. (H.8723)

CITY AND COUNTY OF NEWCASTLE
UPON TYNE

Health and Social Services Department

MEDICAL OFFICER

(Assisted D.P.H. scheme)

Applications are invited from registered medical practitioners for the appointment of a Departmental Medical Officer. Duties mainly in connexion with school health and maternity and child health services with opportunities in all public health fields.

Opportunity to take part-time D.P.H. course, commencing January, 1969, will be provided on full salary.

Salary: £1,795 to £2,445 per annum. Previous professional experience since qualification will be taken into account in determining commencing salary. A casual user car allowance is available.

The council are prepared to offer 50% of total removal expenses up to a maximum of £50 and either the tenancy of a dwelling, or a loan under the house mortgage scheme of up to 100% of valuation.

Further particulars and application forms may be obtained from the Medical Officer of Health, Civic Centre, Newcastle upon Tyne NE1 8PB, and should be returned by not later than July 26, 1968. (10023)

BURGH OF CLYDEBANK

DEPUTY MEDICAL OFFICER OF
HEALTH

Applications are invited from registered medical practitioners holding the Diploma in Public Health for the above post at a salary of £2,260 rising to £2,520. The person appointed will require to act as a Deputy Medical Referee to the Clydebank Crematorium for which an additional payment is made. The duties of the post will include maternity and child welfare, chest clinic and mental health, in addition to experience in general administration, etc. Applications, giving details of age, experience, together with the names of two referees, should be lodged with the undersigned, within three weeks of the insertion of this advertisement. —John B. Morris, M.B., Ch.B., D.P.H., Medical Officer of Health, Health and Welfare Department, 235 Dumbarton Road, Clydebank. (H.8790)

CITY OF LIVERPOOL
HEALTH DEPARTMENTASSISTANT MEDICAL
OFFICER (£1,795-£2,445)

Applications are invited for the above post. The starting salary will be in accordance with previous experience.

The officer will undertake general medical duties, including epidemiology, and tuberculosis, medical examination of personnel, port health and rota duties, and such other duties as may be allotted from time to time. Possession of the Diploma in Public Health is desirable and previous experience in epidemiology or tuberculosis would be an advantage.

General local government conditions apply, together with removal, etc., expenses in appropriate cases.

Application forms obtainable from the Medical Officer of Health, Hatton Garden, Liverpool 3, and should be returned by July 31, 1968. (10242)

GOVERNMENTAL

Applicants should not be more than 60 years of age.

Salary is in the range £2,315 per annum at age 28 and up to £2,895 per annum at age 35 and over.

Application forms may be obtained from the Ministry of Defence, C.E.2a(Air), Sentinel House, Southampton Row, London W.C.1.

(10232)

RESEARCH FELLOWSHIPS

MICROBIOLOGICAL RESEARCH ESTABLISHMENT
Porton, Salisbury, Wilts.

The following JUNIOR or SENIOR RESEARCH FELLOWSHIPS are vacant:

(a) **Histopathology.** In the Section of Experimental Pathology to work on virus encephalitis. Excellent laboratory facilities available for light and electron microscopy and for specialised work with small laboratory animals. Preference given to candidates who hold a medical or veterinary degree as qualification (see below), but those with a science degree and experience in histology will be considered. (Reference: S/570/MOD(A)/1.)

(b) **Virology.** To study virus-cell inter-action or virus transmission and pathogenesis. Candidates should hold a science or medical degree as qualification (see below), and should have an interest in the properties and processes which lead to infection. (Reference: S/570/MOD(A)/2.)

Qualifications: A good honours degree or equivalent or higher qualification in appropriate subject, together with at least two years' (for Junior Fellowship) or three years' (for Senior Fellowship) post-graduate research. **SALARY:** Senior R.F. between £1,745 and £2,155 annually.

Junior R.F. between £1,180 and £1,575 annually. Both are tenable for three years.

F.S.S.U. terms.

Fellowships at this and other establishments are available in most scientific disciplines and successful candidates have considerable freedom of choice of their specific research topics.

Requests for application forms for the above posts and enquiries about opportunities for fellowships elsewhere should be addressed to Civil Service Commission, Savile Row, London, W1X 2AA, stating age, qualifications, and research interests, and quoting appropriate reference. Closing date July 31, 1968.

(10237)

ADMINISTRATIVE

MSL MANAGEMENT SELECTION

Please state briefly, in writing, how each requirement is met. Nothing will be disclosed, unless you give permission after a confidential interview.

Secretary

The King's Fund

Following the sudden death of Mr. R. E. Peers, C.B.E., applications are invited for the Secretaryship of King Edward's Hospital Fund for London. The Fund is a well-endowed charitable organization concerned with the Hospital and Health Services which it assists by making grants, providing education, undertaking research and promoting the exchange of ideas and information.

In his role as chief administrative officer, the Secretary directs a staff of 150. He is responsible to the Management Committee for the overall management and co-ordination of the Fund's activities, including the College of Hospital Management and the Hospital Centre.

The successful candidate will be between 45 and 55 years of age, and following professional training will have demonstrated his administrative abilities at senior management or board level. Experience in hospital or medical administration and an established relationship within the Health Service will be an advantage. He would currently be earning not less than £4,500 p.a.

The appointment calls for high personal qualities and standing, a deep appreciation of the expanding hospital world, and a flair for obtaining results by encouragement and persuasion.

Initial salary and other emoluments will be by arrangement, but not less than £6,000. The King's Fund has its own pension scheme which includes transfer arrangements with the National Health Service Superannuation Scheme. Please write to S. W. J. Simpson, quoting AM.38005, preferably not later than July 15, 1968.

MANAGEMENT SELECTION LIMITED

17 STRATTON STREET LONDON W1

(10302)

Public Health—contd.**CARDIGANSHIRE COUNTY COUNCIL****ASSISTANT MEDICAL OFFICER OF HEALTH (Female)**

Applications are invited from female registered medical practitioners for appointment as Assistant Medical Officer of Health and School Medical Officer, to work in all sections of the health and school health department. Previous experience of local authority work an advantage.

Whitley Council conditions of service and salary scale £1,795 to £2,445 per annum, starting point depending on qualifications and experience.

Forms of application can be obtained from the County Medical Officer, Swyddfa'r Sir, Aberystwyth, to whom they should be returned not later than July 19, 1968.—J. E. R. Carson, Clerk of the County Council, Swyddfa'r Sir, Aberystwyth. (H.8758)

COUNTY BOROUGH OF SOUTH SHIELDS**Health and Welfare Department****Appointment of Assistant Medical Officer/School Medical Officer**

Applications are invited from registered medical practitioners for the above mentioned full-time post. Duties are mainly in connection with the School Health Service and the Maternity and Child Welfare Services.

The successful candidate will also be given every opportunity of gaining administrative experience in other aspects of the work of a County Borough Health and Welfare Department.

The salary will be within the scale £1,795 to £2,445 per annum, commencing salary depending upon qualifications and experience. Essential user's car allowance. Removal expenses. Five-day week. Housing accommodation for a period of six months, if required.

Forms of application and further particulars can be obtained from Dr. I. D. Leitch, Medical Officer of Health, Health and Welfare Department, Stanhope Parade, South Shields, Co. Durham, to whom they should be returned not later than July 26, 1968.

R. S. YOUNG,
Town Clerk.
(H.8791)

**CITY OF NOTTINGHAM
Health Services****APPOINTMENT OF MEDICAL OFFICER**

Applications are invited from registered medical practitioners for above post. Duties mainly clinical, but other opportunities may be offered.

Salary within scale £1,795 to £2,445 per annum. Commencing point will be fixed, having regard to present salary and experience. Previous holder of post was granted an essential user's car allowance. House loans may be available. Post superannuable subject to medical examination.

Application forms and further particulars from Medical Officer of Health, Huntingdon House, Nottingham, NG1 3LZ, to be returned by July 19, 1968. (21134)

**LANCASHIRE COUNTY COUNCIL
Health Department
Skelmersdale New Town**

Applications are invited from registered medical practitioners (male or female) for vacancies as

ASSISTANT DIVISIONAL MEDICAL OFFICER

in and around the urban district of Skelmersdale and Holland. The salary scale is £1,795 to £2,445, and the starting salary will be on the basis of one point for each year of experience since qualification. Two further increments are granted for the possession of D.P.H. and for those not holding this qualification there is a scheme of financial assistance, which includes leave on full salary and payment of 75% of approved expenses. Subsistence allowance and travelling expenses are payable, and there is an assisted car purchase scheme in operation. Housing accommodation can be made available if required. The successful applicant will operate from a modern clinic, which has been purpose built for the services of this new town.

In addition to their county council duties, county council medical officers are permitted to assist general practitioners at evening surgeries, and may be remunerated in accordance with local executive council rates.

Application forms are available from County Medical Officer of Health, Serial No. 6237, East Cliff County Offices, Preston, to whom they should be returned by July 22, 1968. (10276)

Health Department**ASSISTANT COUNTY MEDICAL OFFICER**

Applications are invited for post of for duty in the mid-county area (based at Mansfield).

Salary scale £1,795 to £2,445. Commencing salary according to experience and qualifications. Duties mainly concerned with school health and maternity and child welfare services. Car user post, and travelling expenses and subsistence in accordance with approved scale. Assisted car purchase scheme.

Application forms and further particulars from the County Medical Officer, County Hall, West Bridgford, Nottingham—A. R. Davis, Clerk of the County Council. (21135)

KENT COUNTY COUNCIL**Applications invited for posts of ASSISTANT COUNTY MEDICAL OFFICER**

in Maidstone, Medway towns, mid-Kent, and Folkestone areas.

Salary in scale £1,795 by £70(1) by £80(5) by £90(2) to £2,445. Posts superannuable. Duties mainly in school health and child welfare services. Experience in classification of educationally subnormal children an advantage. Assistance with removal expenses can be considered in certain cases. Applications, stating age, qualifications and experience, together with the names of two persons to whom reference may be made, as to professional ability and character to: Dr. A. Elliott, Principal School Medical Officer, County Hall, Maidstone. (10282)

OXFORDSHIRE COUNTY COUNCIL**DEPUTY COUNTY MEDICAL OFFICER OF HEALTH AND DEPUTY PRINCIPAL SCHOOL MEDICAL OFFICER**

Applications are invited from registered medical practitioners possessing a diploma in Public Health or its equivalent, with administrative ability and previous experience of public health administration.

The salary scale is £2,720 to £3,100 with the addition of the award, affecting chief officers from July 1, 1967.

A car allowance will also be paid in accordance with the Whitley Council scale. The appointment is subject to the Local Government Superannuation Act and to a medical examination.

Application forms obtainable from me must be returned by July 16, 1968, in an envelope endorsed "Deputy County Medical Officer."

GERALD GALE BURKITT, Clerk of the Council, County Hall, Oxford. (21003)

COUNTY BOROUGH OF ROTHERHAM

Applications are invited from registered medical practitioners for the post of

DEPUTY MEDICAL OFFICER OF HEALTH AND DEPUTY PRINCIPAL SCHOOL MEDICAL OFFICER

at a salary of £2,810 per annum.

Applicants must possess a D.P.H. and have had previous experience in school health, maternity and child welfare, and general public health work. The person appointed will be responsible, under the direction of the Medical Officer of Health, for carrying out administrative and other duties in all sections of the work of the health department, and must be capable of assuming full responsibility for the department when necessary. Special interests are encouraged.

The appointment will be terminable at any time by three months' notice in writing on either side and will be subject to the Medical Whitley Council's general conditions of service for Public Health Medical Officers. Housing accommodation is available, and approved removal expenses will be paid. Car allowance.

The person appointed may be required to act as Deputy Medical Referee to the crematorium, for which there is additional remuneration.

Forms of application and further information may be obtained from the Medical Officer of Health, Municipal Offices, Rotherham, and must be returned to him, giving the names of three referees, and endorsed "Deputy Medical Officer of Health," by July 22, 1968.—John S. Wall, Town Clerk and Chief Executive Officer, Municipal Offices, Rotherham. (21237)

MEDICAL JOURNALISM

REGISTRARS, SENIOR REGISTRARS. Lecturers in all fields required to prepare material, reviews, etc., in spare time for new medical journal. Attractive fees.—Box MJ.1714, B.M.J.

Anaesthetist

The RST Group of Companies requires an anaesthetist for its company hospitals at Mufulira on the copperbelt of Zambia.

The successful applicant, who should have had a good grounding and experience in modern anaesthetics, will be required to undertake the bulk of the routine anaesthetics at two hospitals (total 460 beds) where there are normally seven routine operation lists a week. Emergency anaesthetic calls after hours are shared with other medical officers experienced in anaesthetics. In addition, he will be required to undertake a small amount of general medical work but, as general duty night and weekend calls are shared on a roster basis, these are not onerous.

Mufulira has a team of eleven medical officers and maintains two modern, well equipped hospitals with excellent laboratory, radiographic, surgical and other facilities.

Employment will be on a contract basis initially for a period of either three or five years. Starting salary, which will be paid in Zambian currency, will be dependent on qualifications and experience but, including bonus and gratuity, will not be less than 7,524 Kwacha per annum (sterling equivalent approximately £4,390). Paid leave will accrue at 55 days per annum and a car is provided for professional use.

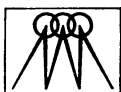

Additional Benefits

- Paid return passages for successful applicant and family
- Generous baggage allowance
- Furnished house at sub-economical rental
- Free life assurance scheme
- Education and travel allowance for children over the age of nine receiving education at schools outside Zambia.

At 4,000 ft. A.S.L., the Copperbelt enjoys an ideal climate with sunshine all year round. Excellent facilities exist for practically all sports and leisure activities including television.

Applications will be treated in strictest confidence. Application forms may be obtained from :

MINISTRY OF OVERSEAS DEVELOPMENT

The Need

GENERAL DUTY MEDICAL OFFICERS

For duty both in large new hospitals and in the outlying districts of the Developing Countries overseas, for contract appointments of 2 to 3 years.

The Opportunity Overseas service offers a unique chance for world travel, an opportunity to widen professional experience, and to acquire a broader understanding of the world and its people.

The Advantages Doctors' skill and knowledge will be used to the full on people who have a crying need for their service. Salaries reflect the local cost of living and are normally higher than one would expect to receive in the United Kingdom. There are generous gratuities on satisfactory completion of contract, education allowances for children, free family passages. Accommodation provided usually at a low rent. In most cases superannuation rights can be preserved or maintained. **Salaries** Vary widely from country to country with the local cost of living. However, with certain exceptions they range from approximately £1650 to £2900 per annum.

Training Scheme for Recently Qualified Doctors

In return for an undertaking to serve for at least two years in the developing countries overseas the Ministry offers a course of training to recently qualified doctors which is designed to fit them for service overseas and which will be attractive professionally and financially. During the period of training of 12 to 15 months the doctor will receive a retaining fee of £200 per annum in addition to his hospital salary. Write now for full details of the scheme.

Where Required

KENYA, LESOTHO, SWAZILAND, ANGUILLA, FALKLAND ISLANDS AND BRITISH SOLOMON ISLANDS.

SPECIALISTS ZAMBIA

Require a **Pathologist** at Ndola. Candidates must possess the D.C.P. or Diploma in Pathology, plus at least three years' full-time experience in pathology since obtaining the additional qualification. Appointment for three years. Age limit 50 years. Salary, basic, Kwacha 5,540 (£3,231) per annum, plus an inducement allowance of £274 per annum. A supplement of £260 per annum (increased to £350 from July 1, 1968) is payable by the British Government to a bank in the U.K. or Republic of Ireland. An allowance in lieu of private practice of Kwacha 2,000 (£1,166) per annum is also payable.

UGANDA

Require a **Consultant Neurosurgeon** and also a **Consultant in Venereology** for clinical duties. To assist also in an honorary capacity with the teaching of students at Makerere College Medical School and of hospital junior medical staff. Candidates for the Neurosurgeon post must possess F.R.C.S. Candidates for the Venereology post must have a postgraduate qualification in their specialty. In both posts proven experience is essential. Appointment for 21 to 27 months. Salary, basic (subject to Uganda income tax), East African Shillings 43,500 to 46,000 (£2,537 to £2,683) per annum, plus an inducement allowance (free of Uganda income tax) of £1,010 per annum. Inducement allowance paid by British Government direct into officer's bank account in Uganda.

THE EAST AFRICAN COMMUNITY

Require a **Senior Medical Research Officer** at Tororo, Uganda, to undertake clinical investigations in the epidemiology of human trypanosomiasis. Candidates must possess either the M.R.C.P. or the D.P.H. At least five years' experience in clinical research of epidemiological investigations is essential. A degree or diploma in tropical medicine is desirable. Appointment for 21 to 27 months. Age limit 55 years. Salary, basic (subject to East African income tax), East African Shillings 43,500 to 46,000 (£2,538 to £2,683) per annum, plus an inducement allowance of £1,010 per annum payable to an officer's bank account outside East Africa by the British Government (free of East African income tax).

SARAWAK

Urgently require the services of a **Medical Specialist** to serve as Medical Consultant to the Medical and Health Department, and to head the Medical Unit in the General Hospital at Sibul, Miri or Kuching. Candidates must possess the M.R.C.P. or equivalent; an M.D. would be an advantage. Appointment for two to three years. Salary, basic, \$Malaysian 18,240 per annum (£2,485), plus a gratuitable inducement allowance of £582 per annum and a non-gratuitable inducement allowance of £678 per annum.

BRITISH HONDURAS

Require an **Ophthalmologist** (male) for clinical duties, including outpatient, operative and emergency ophthalmology. Candidates must possess a higher diploma in ophthalmology, but preference will be given to candidates with the F.R.C.S. (Ophthalmology). Appointment for two years. Salary, basic, £1,950 per annum, plus an inducement allowance of £1,072 per annum.

ST. LUCIA

Require a **Medical Registrar** for duties in medical wards and outpatient clinics. Candidates should have three years' postgraduate experience, of which two years have been spent in this specialty. Appointment for two to three years. Salary, basic, \$West Indian 6,480 to 7,440 (£1,350 to £1,550) per annum, plus an inducement allowance of £540 to £620 per annum. Basic salaries are under review. Private practice is not permitted, but an allowance in lieu is payable at \$West Indian 1,500 (£312) per annum.

Candidates should normally be nationals of the United Kingdom or the Republic of Ireland. They must possess medical qualifications and be able to meet all other requirements for full registration in the United Kingdom.

For application forms, full details of salaries and allowances and further information, please write, stating full name, to the

**Appointments Officer,
Room 444A, Ministry of Overseas Development,
Eland House, Stag Place, London SW1**

(10313)

Oversea—contd.

EAST TEXAS T.B. HOSPITAL
P.O. Box 2003, Tyler, Texas 75701

CHIEF OF MEDICINE
Modern 400-bed hospital needs internist (preferably with chest disease experience) to assume supervision of medical staff and serve as Consultant to the surgical division. Selected individual will be a member of a team of 13 staff physicians. A special programme for the rehabilitation of patients with chronic obstructive chest diseases is in operation under a federal grant and the pending medical school affiliation is expected to be consummated by early 1969. Entering salary will be \$20,000 per annum with an additional \$1,000 for Board Certification. Additional salary increments have been requested from the legislature—excellent fringe benefits, including dual retirement plans, paid vacations, sick leave, 40 hour work week, minimum "on call" duty. This is a challenging position in a progressive community of 60,000 population in the rolling piney woods of East Texas.

In addition, there is need for a staff physician experienced and/or trained in chest diseases. Entering salary \$19,000 per annum. Candidates for both positions must possess Texas licence or be eligible to secure Texas licence within one year. E.C.F.M.G. certified candidates will be considered. Contact Medical Superintendent. (H.8546)

The programme is under the direction of a Director of Medical Education and offers Rotating 1, 2, 3, and 4 internships. Stipend includes full maintenance, uniforms and hospitalization insurance. Single interns: \$5,400 per year. Married interns living outside with their families: \$6,600 per year. E.C.F.M.G. certificate required. Write: Stanley Brownstein, M.D., Director of Medical Education. (H.7735)

INTERNATIONAL GRENELL ASSOCIATION

Northern Newfoundland, Canada

TRAVELLING PHYSICIAN required to cover district in Northern Newfoundland. Base St. Anthony, Headquarters of the Association in the North. Salary \$15,000 a year less \$90 per month for furnished house if required to include heating. Interesting and responsible post. Sub-Arctic conditions but roads open all year. Applications, stating age, qualifications and experience, to Secretary, Grenfell Association, P.O. Box 349, Hope House, 45 Great Peter Street, London S.W.1. (H.8626)

PULMONARY PHYSIOLOGIST NEEDED:

A Pulmonary Physiologist is needed for a staff position in a growing clinic of more than 100 physicians and scientists housed in a new \$11 million complex, including a 325 bed hospital. Located in Texas. Excellent working environment and fringe benefits.—Box OV.1717, B.M.J.

CANADA

ONTARIO CANCER INSTITUTE INCORPORATING THE PRINCESS MARGARET HOSPITAL
TORONTO, CANADA

Applications are invited for two positions as Staff Radiotherapist at the above-named Institute.

The Princess Margaret Hospital (one of the Teaching Hospitals of the University of Toronto) is primarily a radiation treatment centre and carries out all forms of cancer therapy exclusive of major surgery. It has 175 beds of which 25 comprise a paediatric unit and 30 are assigned to the department of medicine and clinical investigation. More than 3,600 new cancer patients are registered and 30,000 follow-up examinations carried out annually in the outpatients department.

The Department of Biophysics of the University of Toronto is also housed in the Ontario Cancer Institute.

Higher qualifications are necessary. The post will carry an appropriate Teaching Appointment in the University of Toronto. Research activities are encouraged with adequate facilities available.

Successful candidates will join a staff of 10 radiotherapists. Remuneration will be commensurate with previous experience.

For further information, please write, enclosing curriculum vitae, and the names of three referees, to Dr. C. L. Ash, Director, Ontario Cancer Institute, 500 Sherbourne Street, Toronto 5, Ontario, Canada. (Please reply by Air Mail.) (H.8547)

UNIVERSITY OF MELBOURNE

FIRST ASSISTANTSHIP

in the

DEPARTMENT OF PSYCHIATRY (AUSTIN HOSPITAL)

Applications are invited for the above-mentioned post.

QUALIFICATIONS: Diploma of Psychological Medicine.

DUTIES: Develop clinical teaching and research in psychiatry at the hospital with status of honorary psychiatrist.

SALARY: \$A9,900-\$A12,000.

Initial salary will be determined according to qualifications and experience.

Commencing date—January 1, 1969.

Further information, including details of superannuation, travel and removal expenses, housing assistance and conditions of appointment, is available from the Association of Commonwealth Universities (Branch Office), Marlborough House, Pall Mall, London S.W.1.

Applications close in Australia and London on August 31, 1968. (10283)

hydrocortisone 1%

both antifungal and antibacterial
anti-inflammatory anti-eczematous

the ideal first treatment

SAFE SIMPLE EFFECTIVE NULACIN

EFFECTIVE, because Nulacin achieves *continuous* neutralisation of hyperacidity. As peptic ulcers arise and recur only in the presence of free acid, Nulacin not only relieves symptoms but is the ideal long-term medical treatment.

SIMPLE, because Nulacin is specially designed to dissolve slowly in the mouth and produce a continuous intragastric milk-alkali drip in the ambulant patient. One tablet provides up to 30 minutes' relief from excess acid.

SAFE, because clinical experience has shown that Nulacin produces no electrolyte disturbances and can be used in *all* patients with peptic ulcers.

NULACIN is a unique combination of whole milk protein and fats with dextrans, maltose and suitable antacids and provides *economical*, long-term medical treatment for peptic ulcer.
