

# Just anxiety. or depression as well?

'Anxiety is frequently intermingled with depression . . . '

Clin. Trials J., 1965, 2, 317 (Nov)

When symptoms of anxiety and depression co-exist, the anxiety is usually easy to recognise, but the depressive state is often less obvious.

In anxiety-depressive conditions, 'Tryptizol', a well-established antidepressant with an intrinsic tranquillising action, has proved of considerable value. In many cases, the patient becomes calmer, mood is lifted, and sleep and appetite improve.

# Psoriasis can be for life. It's hard for your patients to face.

You can make it a little easier by prescribing Alphosyl.

Over the years Alphosyl has proved the most effective known treatment for Psoriasis. It contains Allantoin\* combined with a unique alcoholic extract of coal tar to break up clear away tough resistant scales.

And Alphosyl continues to prove itself. Everyday there is new evidence of Alphosyl's effectiveness.

Trials in the United States of America have shown that... 70% to 80% of patients were helped and 50% or more had their lesions cleared completely by the treatment.

Long after 'revolutionary' advances have been tried and forgotten, Alphosyl remains the product most widely prescribed for the specific treatment of Psoriasis

"It certainly avoids the hazards of antimetabolites and local and systemic corticosteroids, and it does not have the disadvantages of staining, burning and discoloration that occur with other tropical preparations."

\*BRITISH MEDICAL JOURNAL (1967) 4,535. Alphosyl is available as a 5% refined alcoholic extract of coal tar and allantoin in a cream and lotion.

Stafford Miller Ltd., Hatfield, Hertfordshire, England.

# Pyopen: Pseudomona

# and PROTEUS VULGARIS PROTEUS RETTGERI PROTEUS MORGANII PROTEUS MIRABILIS

Proteus organisms are commonly responsible for many urinary infections, meningitis, septicaemia and superficial infections.

# **ESCHERICHIA COLI**

E. coli is the causative organism in such infections as cystitis and pyelonephritis.

Pyopen (carbenicillin) is an injectable penicillin effective against the majority of strains of *Pr. morganii, Pr. rettgeri, Pr. vulgaris* and *E. coli* in contrast with many other antibiotics which are inactivated by the penicillinases produced by these organisms.

However, some penicillinase producing strains of *Pr. mirabilis* and *E. coli* may inactivate Pyopen.

Pyopen is unique among antibiotics as it combines the safety of a penicillin with the ability to destroy *Pseudomonas pyocyanea* (*Ps. aeruginosa*), *Proteus* organisms, and certain cephaloridine- and ampicillin-resistant hospital strains of *E. coli*.

Pyopen (carbenicillin) is a product of British research at Beecham Research Laboratories Brentford, England. originators of the new penicillins

# destroys s pyocyanea

# Dosage

URINARY TRACT INFECTIONS 1g. every six hours by intramuscular injection for 5-10 days.

INFECTED BURNS (Prophylactic Dosage) 1g. every six hours by intramuscular injection for five days.

SEVERE SYSTEMIC INFECTIONS AND SEPTICAEMIA 12-30g. daily by intravenous injection or infusion, together with probenecid 1g. three times daily by mouth.

**MENINGITIS** Dosage as for septicaemia plus 40mg. daily by intrathecal or intraventricular routes. Full information may be obtained from the Company's Medical Department.

**OTHER INFECTIONS** Dosage will depend on the site of infection and the sensitivity of the infecting organisms. High intramuscular or intravenous dosage will generally be required. In certain situations, local therapy by irrigation, injection or aerosol inhalation may be used in addition to parenteral administration.

**PAEDIATRIC DOSAGE** Adult dosage should be reduced according to the age and weight of the child, and will vary widely with the site and severity of infection, and with the sensitivity of the causative organisms. A daily dosage varying between 100-300mg./kg. body weight is suggested as suitable.

**Probenecid** facilitates attainment of higher and better-sustained blood levels by delaying renal elimination of Pyopen.

### Contra-Indication

Pyopen should not be given to penicillin hypersensitive subjects. Caution should be exercised in the treatment of patients with an allergic diathesis.

### Side-Effects

As with Penicillin G, slight pain may be experienced at the site of injection. Otherwise side effects are similar to those experienced with other injectable penicillins. Should pain become a problem, the powder may be dissolved in a 0.5% solution of lignocaine. Further information is available from the Company's Medical Department.

### Availability

Vials containing 1g. carbenicillin as the disodium salt. Pyopen is the disodium salt of  $\infty$ -carboxybenzylpenicillin. Basic N.H.S. price is 17/6d per vial.

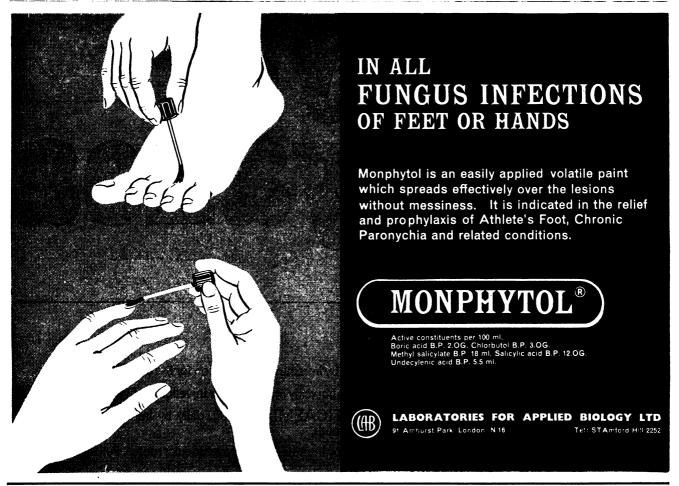

New Basic N.H.S. price is 14/- per vial.

Further information is available on request.

# An ai hygiene

Maintenance of oral hygiene during the postoperative period, especially among geriatric patients, is obviously essential. But at the same time this can prove to be somewhat timeconsuming for the nursing staff.

However, recent experience in a London hospital has shown that the patient can help to provide his own nursing care, with the minimum of effort.

This experience covers patients who are fed intravenously and post-operative cases who find normal eating and drinking difficult. These patients often exhibit signs of mouth infection very quickly, and treatment for this can often cause considerable discomfort.

A more pleasant treatment is possible in many cases, for it has been found that giving the patient chewing gum promotes salivary gland activity. Patients are encouraged to chew gum at two-hourly periods, and this treatment frequently allays the symptoms and produces a considerable improvement in the condition of the tongue and mucosa. Quite striking results have been noted after carrying out this treatment for a 24-hour period.

# Scholl make sure the patient wears them

Scholl know as well as you do just how much women hate the idea of elastic hosiery. And that though they'll often take the prescription, they don't always wear the stockings.

So Scholl make their elastic hosiery attractive by making the stockings as un-detectable as possible. They conform to all the specifications of the Drug Tariff and they give the patient all the support and comfort you want her to have. But they look nicer than ordinary elastic stockings. Feel lighter. So that your patient doesn't feel embarrassed by them. And instead of leaving them in the drawer, she wears them.

Scholl 'Soft Grip' for conditions requiring 'Elastic Yarn Standard Weight'.

Worn under normal sheer nylons, Soft Grip are almost invisible. They are made in double-expansion mesh with two-way elasticity to provide firm, even support around the leg with plenty of comfortable 'give' lengthwise.

### Scholl 'Nylastik'

for cases needing 'Lightweight Elastic Yarn Stockings'.

Nylastik are worn instead of nylons, and, on the leg, appear almost indistinguishable from an ordinary 30 denier stretch stocking.

# **Each year** two million migraine attacks are treated with

# 'Migril'

### What factors have contributed towards the great success of 'Migril'?

Each 'Migril' tablet contains **two milligrammes** of ergotamine. 'Migril', alone, averts nausea and vomiting by the inclusion of cyclizine (a fast acting anti-emetic).

After more than ten years of extensive clinical use both doctors and patients have found that 'Migril' does master migraine.

Each tablet of 'Migril' brand Ergotamine Compound contains 2 mg. ergotamine tartrate, B.P., 50 mg. cyclizine hydrochloride, B.P. and 100 mg. caffeine hydrate, B.P.

# **Best for British women**

### **New Feminor 21-Specially** formulated for efficient conception control

The dose of oestrogen required for consistent inhibition of ovulation shows individual and racial differences. For British women the best results have been obtained with 0.1 mg.\* Feminor 21 is thus the ideal formulation for them. To inhibit ovulation it employs o.1 mg of an oestrogen (mestranol) alone for the first sixteen days-with the addition of a progestogen

(ncrethynodrel) for the last five days to establish a normal, secretory endometrium. Because the total amount of hormone taken is limited to that necessary for effective inhibition of ovulation there is minimum physiological disturbance. The sequential dosage establishes a very regular menstrual cycle with a marked reduction in side effects such as breakthrough bleeding, breast discomfort and weight gain. The 21-tablet regimen is simple to follow, and the new cosmetic-type pack is designed for ease and convenience.

Feminor 21 is presented in packs con-

taining three months supply. A pack containing one month's supply is also available. Each menthly course consists of 21 tablets: 16 pink tablets containing mestranol o.1 mg, 5 white tablets containing mestranol o.1 mg, norethynodrel 2.5 mg.

Basic NHS Cost: 15/- three month

pack, (5/10d one month pack).

THE CHEST AND HEART ASSOCIATION Tavistock House North, London, WCI

Haelan certainly is effective—it contains flurandrenolone, one of the most powerful steroids for topical use. Haelan has the right concentration of flurandrenolone (0.0125%) to resolve most steroidresponsive skin conditions without undue risk of systemic side effects. But there's more to Haelan than that.

Because flurandrenolone is so active, Haelan provides an ample quantity of base for easy application, and the big 60G (2 oz) tube is large enough to treat the average patient without the need for repeat prescriptions. Last, but by no means least, Haelan, at less than 2½d per gramme is clearly economical.

Haelan cream and ointment contain 0.0125% flurandrenolone in 60G (2 oz) tubes. For the most severe or resistant conditions, Haelan X containing 0.05% flurandrenolone is available as cream or ointment in 15G tubes.

# VARICOSITY?

# She'll willingly take your advice if it means wearing fashionable Burson Lightweights

A woman's psychological need for fashion often makes her reluctant to accept your advice to wear elastic stockings. Burson Lightweights have been specially created to provide the answer.

Undetectable in wear, they are truly acceptable to the most fashion-conscious woman—yet are completely effective in relieving the pain and discomfort of a mild varicose condition and are approved by the N.H.S.

Made of alternating strands of strong, supple elastic with strands of sheer nylon, Burson Lightweights combine strength and resilience with stretch in both directions. Horizontal stretch eases the pressure of distended veins; vertical stretch aids the natural flow of blood

back to the heart. Available under N.H.S. (on the EC 10 form) in six normal stocking sizes scientifically adjusted to fit all leg shapes, they come in a pleasing shade.

Thus, in specifying Burson Lightweights when prescribing for mild varicosity, you will ensure your patient's relief from discomfort—whilst preserving her confidence and femininity.

### **PRACTICES** (Executive Councils)

For vacancies (except those in Scotland) apply on Form E.C.16A, obtainable from the Executive Council. Mark envelopes "Vacancy."

# KINGSTON UPON HULL EXECUTIVE COUNCIL BRANSHOLME

COUNCIL

Applications invited for vacancy in practice with group practice prospects commenced some 12 months ago on new corporation housing development on outskirts of Kingston upon Hull. Completion of estate with population of about 22,000 scheduled for 1972 and an adjoining private development for about 6,000 is proposed. Further corporation development adjoining to the north is contemplated and if proceeded with will increase total population to about 40,000.

A successful applicant with qualifications and experience mentioned in E.C.N. 631 will be entitled to type "D" initial practice allowance.

Temporary surgery accommodation is insitu for renting from Hull Corporation. At an appropriate stage of development of estate it is intended to build a health centre in a central position and practice from temporary accommodation will then cease.

Initially the practice area will be restricted to one doctor (the successful applicant). At July 1 the list was 1,123, near the present population and by October, 1968, it is anticipated that 2,100 persons will be housely subject to building contingencies.

Hull is a pleasant and progressive university city with a population of 300,000 approximately. There is new evilopment of a Condition of the process of the certifications of the process of the certification of the condition of the certifications of the certification of the certification of the certifications of the certification of the certif

### SALARY SCALES OF HOSPITAL MEDICAL STAFF

SALARY SCALES OF HOSPITAL MEDICAL STAFF

Following the Seventh Report of the Review Body, new salary scales have been approved. These came into force on October 1, 1966. The scales are set out below: 
HOUSE OFFICERS: Each post in this grade shall be tenable for six months. 
1,100 per annum for the posts held during the first year; £1,200 per annum for posts held during the second year; £1,300 per annum for posts held during the third and subsequent years, subject to full registration.

Deductions of £150 per annum in respect of lodging only for voluntary residence. 
(No deductions for lodging will be made for compulsory residence.)

SENIOR HOUSE OFFICERS: £1,450 per annum in the first year; £1,550 per annum in the second year; £1,650 per annum in the third or subsequent years.

Deductions of £157 per annum in respect of lodging only for voluntary residence. 
(No deductions for lodging will be made for compulsory residence.)

REGISTRARS: £1,650 per annum rising by four annual increments of £100

REGISTRARS: £1,650 per annum, rising by four annual increments of £100

to £2.05.0.

Deductions of £175 per annum for those with remuneration at the first two points on the scale, and £200 per annum for those on the third and subsequent points will be made in respect of lodging only for voluntary residence. (No deductions to lodging will be made for compulsory residence.) On assimilation to the scale for Registrars, one increment and one only shall be piven for any year or part of a year in excess of two spent previously in the senior holds the senior holds of the senior senior house officers and registrars occupying posts approved for such allowances in peripheral hospitals.

Allowances at rates up to £140 per annum shall be payable to house omeres, senior house officers and registrars occupying posts approved for such allowances in peripheral hospitals.

SENIOR REGISTRARS: £1,950 per annum rising by one increment of £100 and four further annual increments of £125 to £5,550.

Deductions of £225 per annum in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

On assimilation to the salary scale for senior registrars, increments to a maximum of two shall be given for each year or part of a year in excess of three spent previously in the registrar grade.

MEDICAL ASSISTANTS: £1,850 per annum rising by fourteen annual increments of £100 to £3,250.

Deductions of £225 per annum in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

CONSULTANTS: £3,200 per annum rising by five annual increments of £185, and then by four further increments of £100 to £4,855.

Deductions of £350 per annum in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

Doctors with satisfactory training will not be excluded from consideration for appointment to consultant posts on the grounds that they have spent little or no time as senior registrars.

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff. Memoranda on the following subjects of particular interest have been issued by the Ministry of Health: Standard of Residential Accommodation, Telephone Charges, Removal Allowances, Study Leave.

Further details may be obtained from the Hospital Secretary, or B.M.A. members may obtain summaries of the Memoranda or explanatory handouts from the Secretary, British Medical Association.

#### The Need

## **GENERAL DUTY MEDICAL OFFICERS**

For duty both in large new hospitals and in the outlying districts of the Developing Countries overseas, for contract appointments of 2 to 3 years.

The Opportunity Overseas service offers a unique chance for world travel, an opportunity to widen professional experience, and to acquire a broader understanding of the world and its people.

The Advantages Doctors' skill and knowledge will be used to the full on people who have a crying need for their service. Salaries reflect the local cost of living and are normally higher than one would expect to receive in the United Kingdom. There are generous gratuities on satisfactory completion of contract, education allowances for children, free family passages. Accommodation provided usually at a low rent. In most cases superannuation rights can be preserved or maintained. Salaries Vary widely from country to country with the local cost of living. However, with certain exceptions they range from approximately £1650 to £2900 per annum. Training Scheme for Recently Qualified Doctors In return for an undertaking to serve for at least two years in the developing countries overseas the Ministry offers a course of training to recently qualified doctors which is designed to fit them for service overseas and which will be attractive professionally and financially. During the period of training of 12 to 15 months the doctor will receive a retaining fee of £200 per annum in addition to his hospital salary. Write now for full details of the scheme.

#### **BIOCHEMISTS**

#### **GUY'S HOSPITAL**

#### POISONS REFERENCE **SERVICE**

#### CLINICAL BIOCHEMISTS

In the new extended Poisons Reference Laboratory at Avonley Road, New Cross, S.E.14, it is intended to appoint two biochemists of responsibility and experience—one well-versed in modern analytical techniques and instrumentation and the other with a background of clinical pharmacology. Enquiries are invited from graduates, both medical and non-medical, for both posts.

Grading, salary and conditions of employment will be in accordance with those in the National Health Service and will be decided for each indi-vidual on the basis of qualifications and experience.

The work of the department is concerned with service and research in clinical toxicology. There is close clinical toxicology. There is close association with the academic departments of the medical school. The opportunities are unique and anyone interested should telephone or write, to the Director, Poisons Reference Service, New Cross Hospital, Avonley Road, S.E.14, telephone 407 7600, extension 305. (10982)

# What would be your diagnosis?

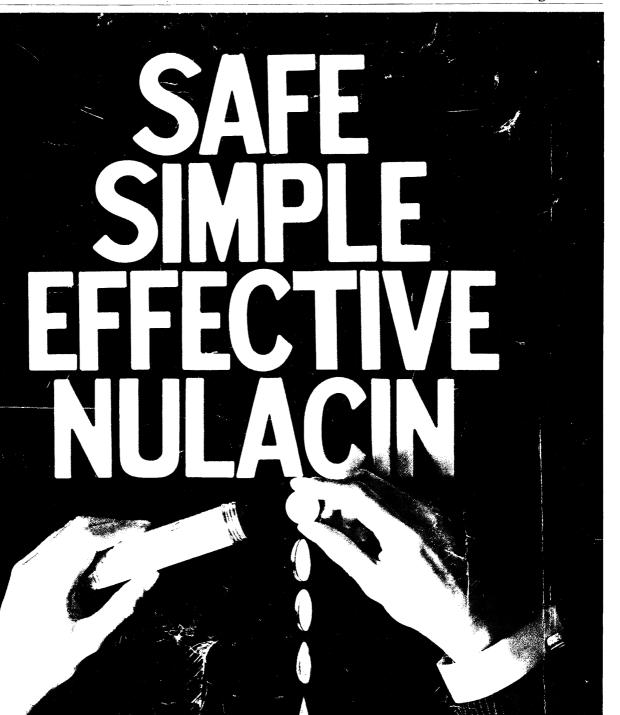

whether the skin is infected or likely to be infected

# Vioform-Hydrocortisone 1%

both antifungal and antibacterial anti-inflammatory anti-eczematous

the ideal first treatment

EFFECTIVE, because Nulacin achieves continuous neutralisation of hyperacidity. As peptic ulcers arise and recur only in the presence of free acid, Nulacin not only relieves symptoms but is the ideal long-term medical treatment.

SIMPLE, because Nulacin is specially designed to dissolve slowly in the mouth and produce a continuous intragastric milk-alkali drip in the ambulant patient. One tablet provides up to 30 minutes' relief from excess acid.

SAFE, because clinical experience has shown that Nulacin produces no electrolyte disturbances and can be used in all patients with peptic ulcers.

NULACIN is a unique combination of whole milk protein and fats with dextrins, maltose and suitable antacids and provides economical, long-term medical treatment for peptic ulcer.
