

### 'AVOMINE' the most widely prescribed anti-emetic MA 4788

whenever treatment is essential.

'Avomine'\* is prescribed more than half a million times in a year.

Presented as Promethazine Theoclate Tablets B.P. 25 mg.

Full information available on request.

## Depression?

initial improvement is often seen within a week on 'Concordin'

# CONCORDIN Protriptyline hydrochloride

Patients with depression usually respond quickly to 'Concordin'. Fatigue and lethargy as well as the overall depressed mood are relieved, and the patient may very soon regain interest in everyday activities. This improvement often starts within a week and is generally not complicated by drug-induced sedation, as drowsiness is rare. The patient has full freedom in choice of food as 'Concordin' is *not* a monoamine oxidase inhibitor.

Each tablet of 'Concordin'-5 contains 5 mg protriptyline hydrochloride, each tablet of 'Concordin'-10 contains 10 mg. Detailed information is available to physicians on request.

# in siaphylococcal infection of the lung

### powerful · bactericidal · antistaphylococcal

Whether in acute 'post-virus' pneumonia or more localized infection such as empyema, the potential severity of staphylococcal infection demands prompt and specific antibacterial therapy. FUCIDIN is rapidly and easily absorbed, gives serum and tissue levels which are bactericidal against almost all pathogenic staphylococcal strains; FUCIDIN exhibits remarkable ability to reach the nidus of infection despite poverty of blood supply or presence of pus. For early control of these difficult infections FUCIDIN has proved a reliable and economical choice — in over five years of clinical use.

For full literature and prescribing information please write to the Medical Information Department.

### In the elderly, the special problems of constipation ...

Constipation in the elderly can present special problems of treatment. Weakened abdominal muscles . . . the dangers inherent in straining . . . refusal to co-operate . . . the presence of pain, to which anal fissures or haemorrhoids may contribute . . . the need for enemas and suppositories . . . the risk of faecal impaction, with consequent manual removal . .

Clinical trials have shown the distinctive value of Dorbanex in the treatment of the elderly patient. In a recent trial in a geriatric ward, Dorbanex achieved 23% more bowel openings than did standardised senna, and 61% more than miscellaneous laxatives. The stool formation "allowed easy defaecation without an increase in faecal incontinence". Suppositories were needed only five times during 644 patient-days of treatment, and side-effects were negligible and transient.

"Dorbanex was readily accepted by all patients, even those with some degree of senile dementia to whom the administration of other medicaments has proved difficult"?. In this trial Dorbanex achieved an average of more than one bowel opening every day—an increase of more than 50% over the openings achieved by standard aperients. No patient complained of griping, whereas other medicaments had caused several such complaints. No suppositories were needed, and in 360 patient-days of treatment only one manual removal was performed.

Dorbanex can simplify management of the patient posing these problems by providing comfortable, reliable and trouble-free evacuation. Dorbanex produces a soft but well-formed stool without griping or other unpleasant side-effects, reduces the need for enemas and suppositories, helps to prevent faecal impaction, and makes defaecation easier without increasing faecal incontinence.

### have a straightforward solution

Now available in three forms—as capsules and in two strengths of liquid—Dorbanex provides in one preparation a balanced treatment for constipation. By softening the stool and stimulating peristalsis, Dorbanex prepares the way for pain-free evacuation.

# Announcing Intertulle fucidin the world's most advanced

the world's most advanced antibacterial dressing

**Intertulle Fucidin** dressings are thoroughly practical. They are the only doubly-interleaved surgical dressings available; doubly-interleaved for incomparable ease of handling and economy.

Presented in special white plastic packs containing 10 4" x 4" gauze squares. Now available on EC.10.

Intertulle Fucidin are the only surgical gauze dressings impregnated with Fucidin Ointment (2% sodium fusidate BP in a neutral ointment base) to give bactericidal power against the organisms responsible for the majority of infections met with in skin lesions, without exhibiting any sensitivity reactions.

# for gentle control in the elderly hypertensive SALUPRES

Salupres' is an antihypertensive agent containing hydrochlorothiazide, reserpine and a potassium supplement, 'Salupres' is for the treatment of mild to moderate hypertension in cases where some insurance against thiazide-induced potassium loss is necessary. Such cases include older patients on diets low in potassium, and patients receiving digitalis.

The action of 'Salupres' is gradual and smooth in onset, and does not produce undue fluctuations in blood pressure—advantages to remember when treating the elderly patient.

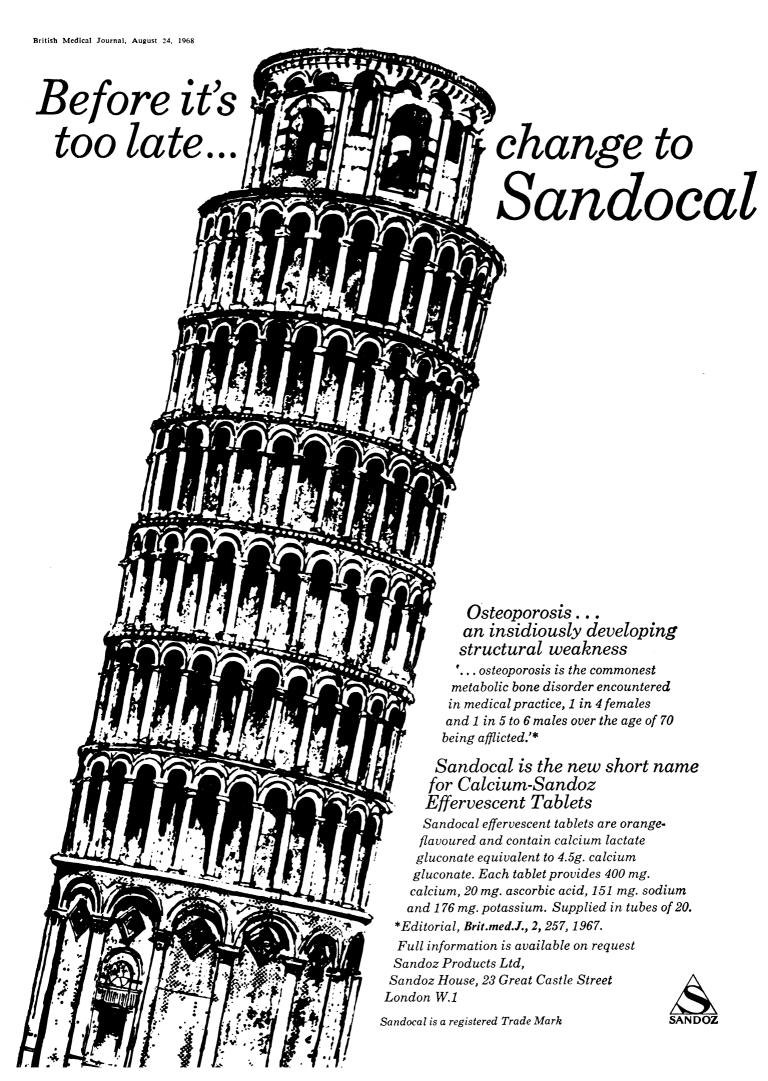

'Salupres' is supplied as white sugar-coated tablets containing 12.5 mg hydrochlorothiazide, 0.0825 mg reserpine and 572 mg potassium chloride, in bottles of 25, 100, and 500. Detailed information is available to physicians on request.

Note: 'Salupres' contains potassium chloride. Symptoms and signs which might indicate ulceration or obstruction of the small bowel in patients taking tablets or capsules containing potassium salts are indications for stopping treatment with such preparations immediately.

### Psoriasis can be for life. It's hard for your patients to face.

You can make it a little easier by prescribing Alphosyl.

Over the years Alphosyl has proved the most effective known treatment for Psoriasis. It contains Allantoin\* combined with a unique alcoholic extract of coal tar to break up clear away tough resistant scales.

And Alphosyl continues to prove itself. Everyday there is new evidence

of Alphosyl's effectiveness.

Trials in the United States of America have shown that ... 70% to 80% of patients were helped and 50% or more had their lesions cleared completely by the treatment.

Long after 'revolutionary' advances have been tried and forgotten. Alphosyl remains the product most widely prescribed for the specific treatment of Psoriasis

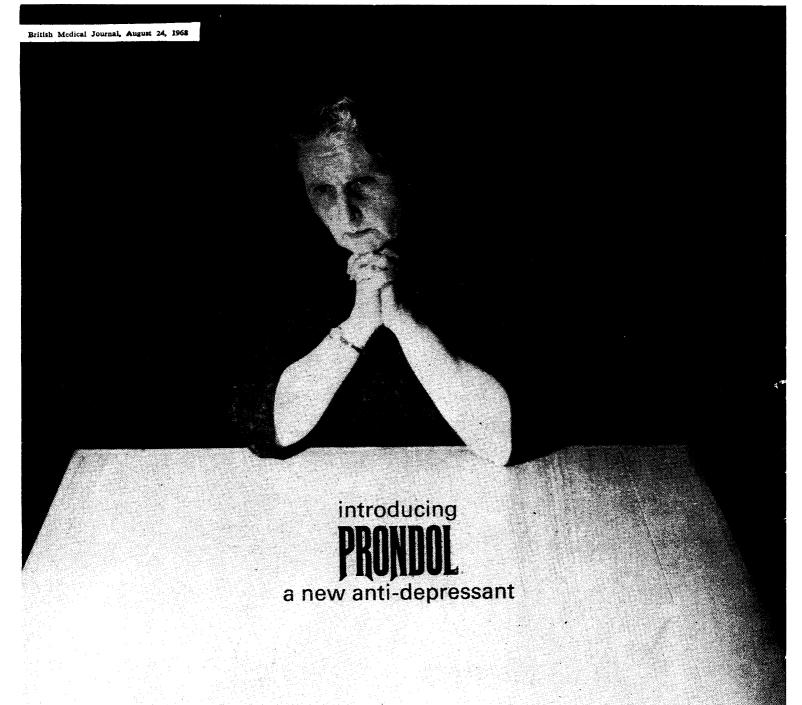

"It certainly avoids the hazards of antimetabolites and local and systemic corticosteroids, and it does not have the disadvantages of staining, burning and discoloration that occur with other tropical preparations."

\*BRITISH MEDICAL JOURNAL (1967) 4,535 Alphosyl is available as a 5%refined alcoholic extract of coal tar and allantoin in a cream and lotion.

Stafford Miller Ltd., Hatfield, Hertfordshire, England.

PHOSYL

it's no more effective DU loos and it's a big BUT because, whilst PRONDOL\* (iprindole, Wyeth) may not be more effective or rapid in action than older anti-depressants, it has been shown in clinical use<sup>1-4</sup> to exhibit a lower incidence of the atropine-like side-effects which have often made antidepressant therapy so unpleasant in the past. PRONDOL can thus be said to allow you greater treatment control in depression because of fewer treatment problems.

# Each year two million migraine attacks are treated with

# 'Migril'

### What factors have contributed towards the great success of 'Migril'?

Each 'Migril' tablet contains two milligrammes of ergotamine.

'Migril', alone, averts nausea and vomiting by the inclusion of **cyclizine** (a fast acting anti-emetic).

After more than ten years of extensive clinical use both doctors and patients have found that 'Migril' **does** master migraine.

Each tablet of 'Migril' brand Ergotamine Compound contains 2 mg. ergotamine tartrate, B.P., 50 mg. cyclizine hydrochloride, B.P. and 100 mg. caffeine hydrate, B.P.

#### COMMERCIAL APPOINTMENTS

### **MEDICAL ADVISER**

We wish to appoint an additional Medical Adviser to our Research Department in Nottingham. The Medical Sciences section of this department is engaged upon research in a number of important therapeutic fields and the post represents an interesting and challenging opportunity.

sents an interesting and challenging opportunity.

Applications are invited from male registered practitioners in the age bracket 30–35 years: they will preferably have had both hospital and general practice experience. Additionally, knowledge of the Pharmaceutical Industry or of clinical pharmacology will be an advantage. The successful applicant will become a member of a medical team, but will have his own specific areas of responsibility with scope for initiative and original work. He will be principally concerned with initiating and progressing clinical trials of research-based compounds in the United Kingdom, involving a certain amount of travel and attendance at medical conferences. Occasionally, he will deal with medical queries of a specialized nature and lecture on medical subjects.

The starting salary is negotiable, but will reflect qualifications and experience: contributory pension and profit-sharing schemes apply. Candidates are invited to write in the first instance to:

The Personnel Manager, Boots Pure Drug Co. Ltd., 1 Thane Road West, Nottingham NG2 3AA.

(11613)

### INDUSTRIAL APPOINTMENTS

### medical officer

David Brown require the services of an experienced Industrial Medical Practitioner. A Diploma in Industrial Health is a desirable qualification.

The Corporation's activities include gearing, tractor production, shipbuilding, electronics and the production of Aston Martin cars, in plants throughout the U.K. The successful applicant will be expected to supervise and co-ordinate the Corporation's medical services.

The appointment is based in Huddersfield and some travelling will be required, for which a Company car will be provided. The commencing salary will be negotiated in the light of qualifications and experience based on the B.M.A. recommended scale. Medical Officer will be invited to become a member of the Executive Pension Plan.

Write with brief details of age, education and experience

#### SYDNEY HOSPITAL **AUSTRALIA**

#### SENIOR MEDICAL REGISTRAR

Applications, closing September 13, 1968, are invited for the above position, duties to commence not later than January 13, 1969, appointment to be made by the Board on September 30, 1968.

The initial appointment is for one year with eligibility for reappointment up to a maximum of three years.

A higher qualification in medicine and at least four years' experience from graduation are essential.

Salary at rate of \$A6,600 per annum, which includes a higher qualification allowance.

Duties include supervision, under the direction of the Honorary Physicians, of the House and Trainee Specialist Physicians, and approximately 100 general medical patients.

Teaching of undergraduates and organization of clinical meetings are part of his responsibility. Sydney Hospital is a teaching hospital of the University of Sydney with 172 students allocated to the hospital for clinical training.

Honorary medical staff totals more than 200, full-time medical staff more than 100.

Further particulars and application forms are obtainable from the Medical Superintendent, Sydney Hospital, Macquarie Street, Sydney, 2000, N.S.W., AUSTRALIA.—H. R. Beer, Chief Executive Officer.

#### MONASH UNIVERSITY Melbourne, Australia

FOUNDATION CHAIR OF PSYCHOLOGICAL MEDICINE

Applications are invited from suitably qualified persons to fill the Foundation Chair in a new department of psychological medicine to be established at Prince Henry's Hospital, one of the teaching hospitals associated with the University. Plans are being prepared for a contiguous hospital/university area of 11,700 sq. ft. (gross). The department of psychological medicine will occupy 4,500 sq. ft. and a further 4,100 sq. ft. has been set aside for a 17-bed psychiatric treatment ward. The departmental area includes offices, laboratories, interview, therapy and observation rooms and is to be ready by late 1969.

The Professor will be expected to conduct research and to co-ordinate the teaching of psychological medicine (including institutional

The Professor will be expected to conduct research and to coordinate the teaching of psychological medicine (including institutional
psychiatry) in the clinical years of the medical course. He will have
the co-operation of the staff of hospital departments of psychiatry
at Alfred and Prince Henry's Hospitals, which are the two general
teaching hospitals of the University, and of Queen Victoria Memorial
Hospital where the departments of obstetrics and gynaecology and
paediatrics are located. In addition assistance in teaching is provided by the Mental Health Authority staff at Royal Park and
Larundel Hospitals where students spend two weeks in residence
during their course. He will be appointed to the hospital staff with
the status of in-patient physician. The initial full-time academic
staff will be three including the chairman of the department.

Planning is in progress to build the Monash Medical Centre on
the campus at Clayton. Further development of psychological medicine, with facilities based on estimates of future community and
teaching needs, is planned at the Medical Centre, and it is anticipated that the Professor would take over the direction of this service.

It is hoped the Professor would take over the direction of this service.

It is hoped the Professor will take up his appointment in 1969.

Salary: \$A13,900. Superannuation will be available on the
F.S.S.U. pattern. By agreement with the Council of the University
and the Board of Management of Prince Henry's Hospital, consultative work could be permitted. Enquiries about the department should
be directed to Professor R. R. Andrew, Dean of the Faculty of
Medicine.

Full information on application procedure, conditions of appoint-

Medicine.

Full information on application procedure, conditions of appointment, superannuation, travel and removal allowances, study leave and housing is available from the Secretary-General, Association of Commonwealth Universities (Branch Office), Marlborough House, Pall Mall, London S.W.1, or the Academic Registrar, Monash University, Clayton, Victoria 3168, Australia.

Closing date: Applications close with the Academic Registrar of the University on October 12, 1968.

The Council reserves the right to make no appointment or to appoint by invitation at any stage.

#### SYDNEY HOSPITAL **AUSTRALIA**

#### SURGICAL REGISTRAR

Applications, closing September 13, 1968, are invited for the position of Surgical Registrar at Sydney Hospital for one year from January 13, 1969, with eligibility for re-appointment up to a maximum of three years.

A higher qualification in surgery, and at least four years' experience from graduation, are essential. Salary at commencement is \$6,600 per annum, which includes higher qualifications allowance. Duties include supervision, under the direction of the Honorary Surgeons, of approximately one hundred general surgical patients, and the House and Trainee Specialist Surgeons. Teaching of undergraduates and organization of clinical meetings are part of his responsibility. responsibility.

Sydney Hospital is a teaching hospital of the University of Sydney, with over 180 students being allocated to the hospital for clinical training. Honorary surgical staff totals 108, and full-time Resident Medical Officers, 85.

Further particulars and application forms are obtainable from the Medical Superintendent, Sydney Hospital, Macquarie Street, Sydney, 2000, N.S.W., AUSTRALIA.—H. R. Beer, Chief Executive Officer.

#### ROYAL HOBART HOSPITAL Hobart—Tasmania—Australia Part-time Specialist Staff

#### ORTHOPAEDIC SURGEON

Applications are invited from Orthopaedic Surgeons interested in an appointment to the part-time Specialist Staff of the hospital. The appointment will be on the basis of up to twenty hours per week paid sessions, on a sessional basis of from \$6 to \$9 per hour (\$5,760 — \$8,648 per annum) depending on experience in the specialty. The successful applicant will, in addition, be required to make a monthly visit to the West Coast on a paid basis. He may also apply for appointment as an Orthopaedic Visiting Specialist to the Repatriation Department.

Excellent opportunities exist for an Orthopaedic Surgeon in private practice in Hobart.

Hobart and surrounding districts have a population of 186,000. The Royal Hobart Hospital is a 540-bed teaching hospital and is at present being remodelled and extended. There are several private hospitals serving the area.

Applicants should be duly qualified Medical Practitioners registrable in Tasmania and holding higher qualifications.

Applications close September 30, 1968. Enquiries and applications should be addressed to the General Superintendent, Royal Hobart, Hospital, G.P.O. Box 1061L, Hobart, Tasmania, 7001,

EFFECTIVE, because Nulacin achieves continuous neutralisation of hyperacidity. As peptic ulcers arise and recur only in the presence of free acid, Nulacin not only relieves symptoms but is the ideal long-term medical treatment.

SIMPLE, because Nulacin is specially designed to dissolve slowly in the mouth and produce a continuous intragastric milk-alkali drip in the ambulant patient. One tablet provides up to 30 minutes' relief from excess acid.

SAFE, because clinical experience has shown that Nulacin produces no electrolyte disturbances and can be used in *all* patients with peptic ulcers.

NULACIN is a unique combination of whole milk protein and fats with dextrins, maltose and suitable antacids and provides economical, long-term medical treatment for peptic ulcer.

Further information is available from Horlicks. Pharmaceuticals Ltd., Winkfield, Windsor, Berks
