

SYRUP FOR SYRUP

WHICH ONE'S BEST ?

Whenever your patient needs the benefit of a liquid antibiotic preparation choose Broxil Syrup—for these reasons:

Reliable absorption of Broxil gives higher antibacterial levels at the site of infection, while bactericidal activity against the common Gram-positive pathogens—plus mildly resistant staphylococci—ensures rapid eradication of the infection. Broxil works better and faster than penicillin V.
(Practitioner (1960) 185, 214).

Broxil Syrup is readily accepted by all patients, especially the young and elderly who find difficulty in swallowing tablets and capsules. Broxil Syrup's pleasant fruit flavour encourages patients to continue the prescribed course of treatment until completed—an important factor when combating bacterial infection.

BROXIL SYRUP

INDICATIONS Tonsillitis, Pharyngitis, Otitis Media, Strep Throats, Acute Bronchitis and infections due to sensitive organisms where a syrup preparation is more acceptable than tablets or capsules.

AVAILABILITY Syrup (125 mg./5 ml.) in 60 ml. bottles. Tablets (125 and 250 mg.) and capsules (250 mg.) are also available.

DOSAGE Children: 62.5-125 mg. ($\frac{1}{2}$ -1 teaspoonful) four times daily, $\frac{1}{2}$ hour before meals. Adults: 125-250 mg. (1-2 teaspoonfuls) four times daily, $\frac{1}{2}$ hour before meals.
In severe infections the dosage may be safely increased.

CONTRA-INDICATION Penicillin allergy.

SIDE-EFFECTS Side-effects, when they occur, are mild and typical of oral penicillins.

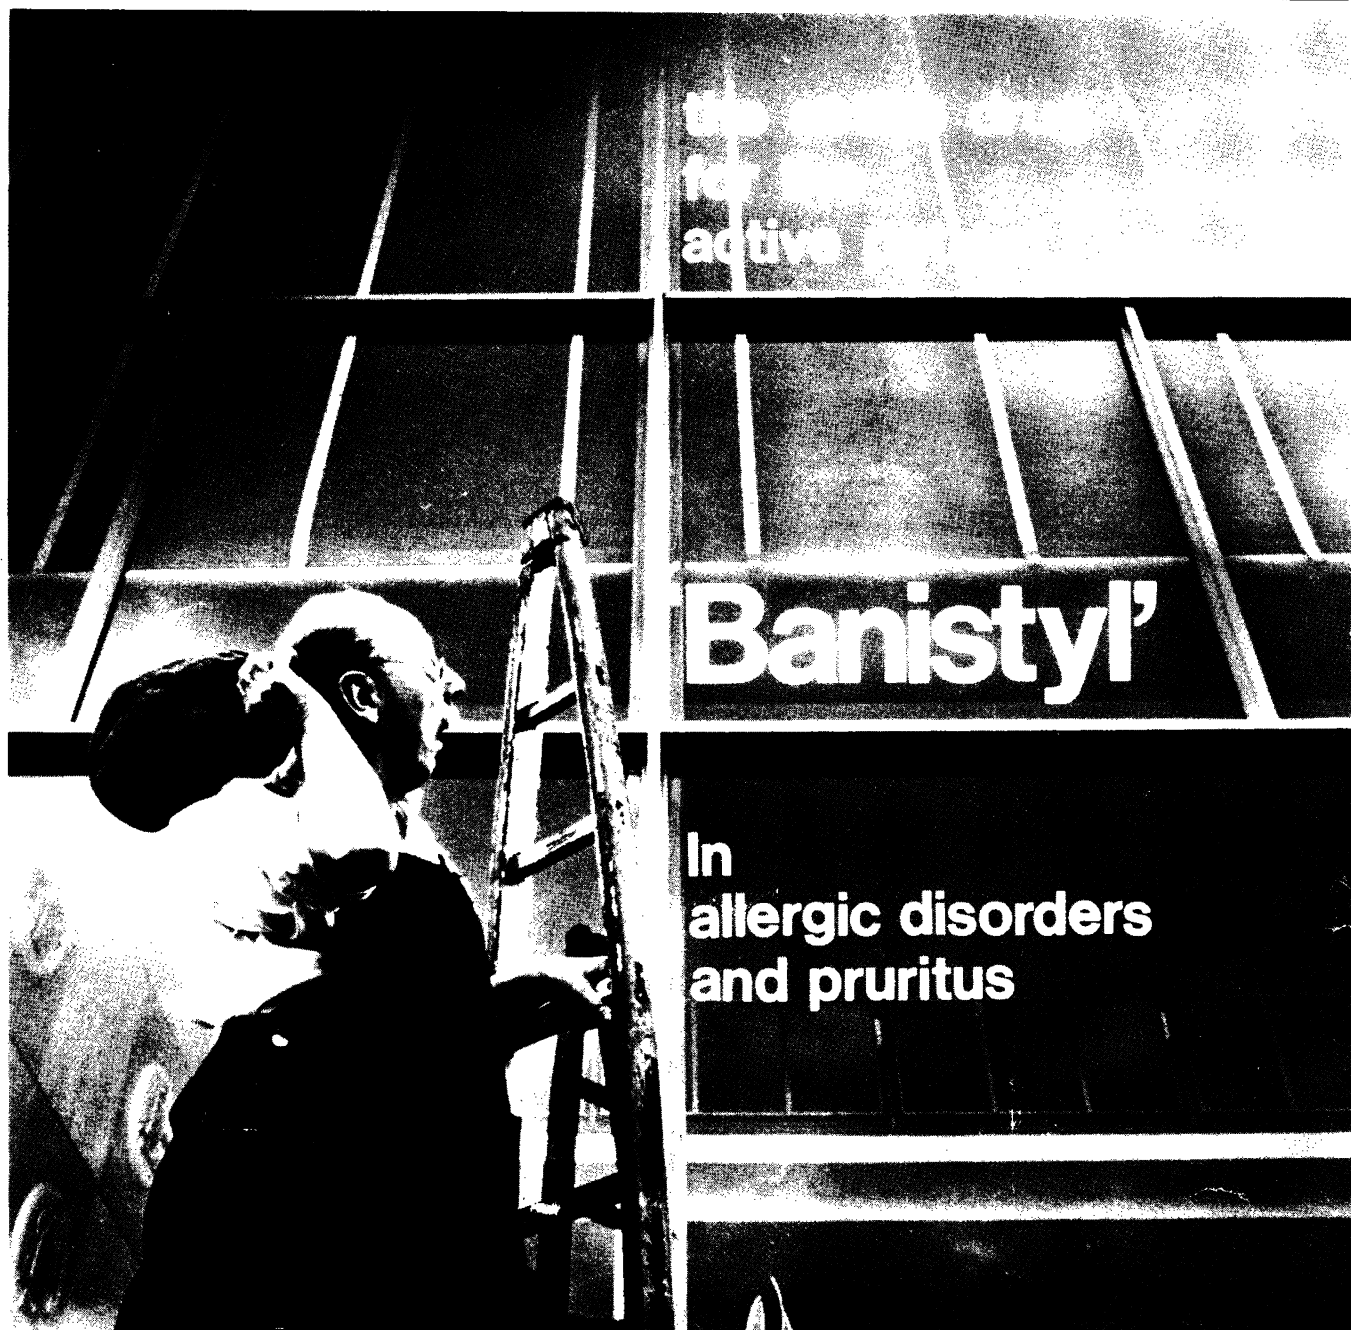

Full information is available on request.

the most active

Banistyl'

In
allergic disorders
and pruritus

Highly effective with little if any soporific action. One tablet three times a day sufficient in the majority of adult cases.

'Banistyl' is generally well-tolerated at the recommended dosage levels; side-effects are usually of a mild and transient nature.

Somnolence is infrequent and generally not marked; when it does occur, it frequently subsides after the first few days of treatment or may be controlled by dosage adjustment. Other side-effects which have been reported (infrequently) include nausea, epigastric pain, vertigo, diarrhoea and headache.

Although there is no evidence to suggest that 'Banistyl' is embryopathic, it is a sound medical principle to avoid, wherever possible, prescribing any drug during the first three months of pregnancy.

Certain activities, including control of vehicles or machinery, should not be undertaken by a patient starting a course of 'Banistyl', until it is evident that the drug has no soporific or other central nervous system side-effects, or until any such effects have subsided.

'Banistyl' is supplied as tablets containing dimethothiazine 20 mg.

When you prescribe elastic stockings

Scholl make sure the patient wears them

Scholl know as well as you do just how much women hate the idea of elastic hosiery. And that though they'll often take the prescription, they don't always wear the stockings.

So Scholl make their elastic hosiery attractive by making the stockings as un-detectable as possible. They conform to all the specifications of the Drug Tariff and they give the patient all the support and comfort you want her to have. But they look nicer than ordinary elastic stockings. Feel lighter. So that your patient doesn't feel embarrassed by them. And instead of leaving them in the drawer, she wears them.

Scholl 'Soft Grip' for conditions requiring 'Elastic Yarn Standard Weight'.

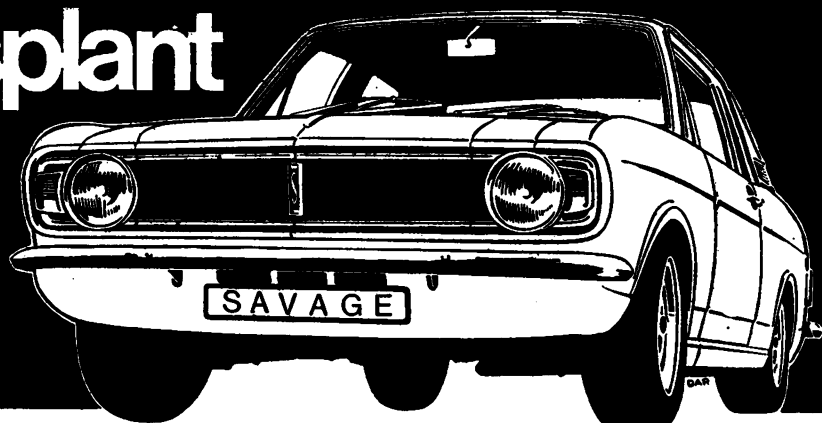

Worn under normal sheer nylons, Soft Grip are almost invisible. They are made in double-expansion mesh with two-way elasticity to provide firm, even support around the leg with plenty of comfortable 'give' lengthwise.

Scholl 'Nylastik' for cases needing 'Lightweight Elastic Yarn Stockings'.

Nylastik are worn instead of nylons, and, on the leg, appear almost indistinguishable from an ordinary 30 denier stretch stocking.

What Type of Work Can a General Practice Nurse do?

THE NEW GENERAL PRACTICE,

published on 24 June, answers these and many other questions. The book contains 22 articles published in the *B.M.J.* in the last two years, many of them describing pioneering work in the field of general practice. In his Introduction to the book Lord Platt says "Those who have already reorganized and reformed their practices will read this book with interest as they will be able to compare their own ideas with those of others, sometimes learning, sometimes having the satisfaction of knowing better."

a suspension for relief of arthritic pain and inflammation

- for patients who have difficulty in swallowing tablets and other solid forms, and would rather take a liquid

- for older patients who traditionally prefer their medicine in liquid form

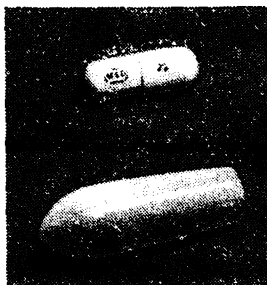

'Indocid' Suspension is a palatable preparation which can promote a more co-operative attitude to the treatment of many types of arthritis.

'Indocid' is a non-steroid, anti-inflammatory agent, widely used in treating rheumatoid arthritis and osteoarthritis. In many cases 'Indocid' rapidly reduces pain, inflammation and joint swelling, and allows a progressive restoration of mobility, even in severely disabled patients.

Supplied as a suspension of 25 mg per 5 ml, 25 mg capsules and 100 mg suppositories.

Embarrassment is short-lived with Synalar

Inflammatory dermatoses frequently respond to Synalar in 24-48 hours

Low concentration, optimal skin penetration, prolonged action.

Speed of action. Low concentrations of Synalar achieve optimal skin penetration, frequently with therapeutic response in 24-48 hours. This rapid action greatly reduces the incidence of scratching. The speedy restoration of the epidermal barrier lessens the risk of secondary bacterial infection.

Efficacy. Synalar has a 95% success rate in inflammatory dermatoses and in pruritic and allergic conditions of

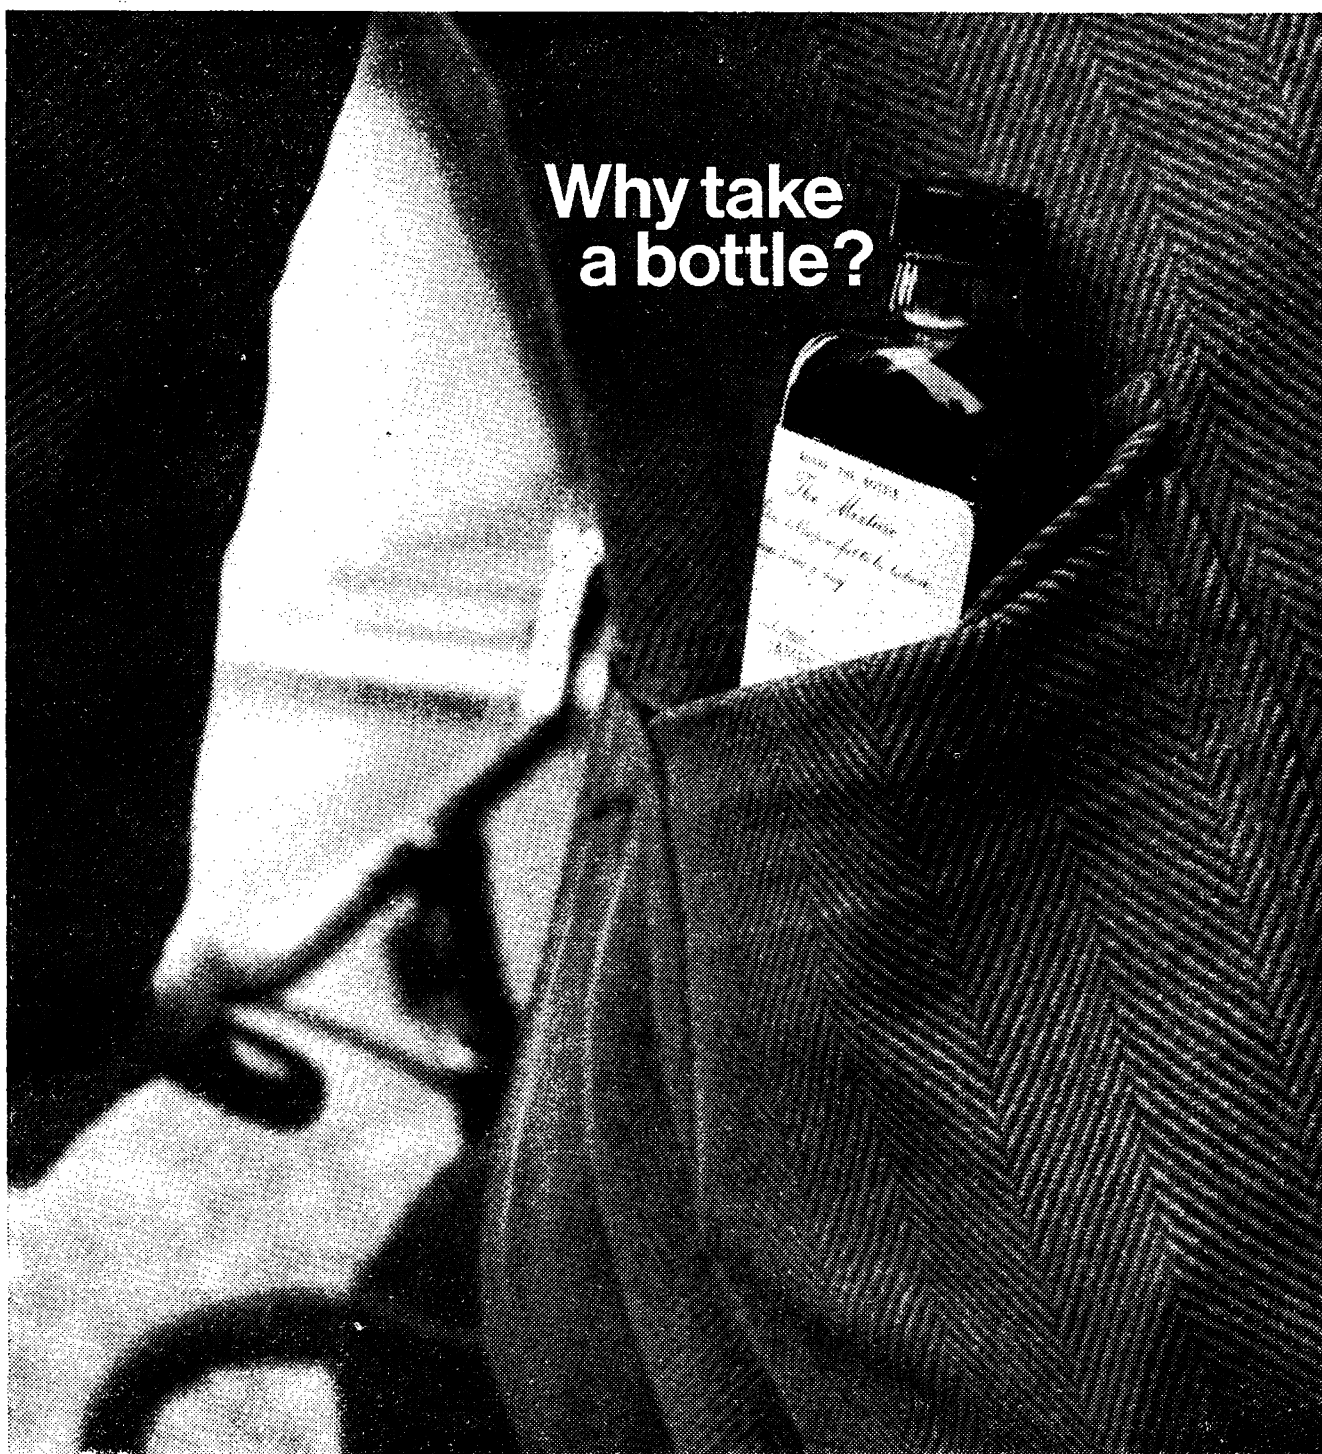

the skin. It has often been successful in difficult skin conditions which, previously, had been unresponsive to other steroid preparations.

Range. The complete flexibility of the Synalar range makes the selection of treatment, according to the type and severity of the condition, a simple one. Synalar is available in cream, ointment, lotion and aerosol form, for the initial treatment of severe

cases; for maintenance therapy and less severe dermatoses, Synandone is available as cream, ointment and lotion.

URELIM

for the treatment of gout

"Few people realise how common a disease is gout. The incidence in the United Kingdom and the U.S.A. is at least 4 to 5 per cent. Some authors have suggested that the incidence is decreasing but it seems more likely that it is the suspicion of the disease and not the disease itself which is diminishing".*

Urelim is considered by many to be the uricosuric agent of choice for the long term treatment of gout, since it has proved to be a reliable and economical preparation of low toxicity.

Each Urelim tablet contains 0.5g ethebenecid.

True value of long-term antihypertensive therapy emerges from 5-year study

A unique clinical trial* from a well-known British teaching hospital evaluated the long-term effects of reducing high blood pressure in more than 200 hypertensive patients, many of whom were treated for over 5 years with only one drug—

Ismelin®

The following important findings emerged from this balanced and comprehensive report.

Dramatic improvement in prognosis

"The outstanding feature among these results is of course the 5-year mortality of only 8 per cent—although scarcely less remarkable is the fact that all of the 11 patients who presented originally with malignant hypertension are still alive."

Increased efficacy with long-term usage

"Over the whole series an average of 83 per cent were at least moderately controlled and over 60 per cent showed excellent or good control, but it is of interest that the standard of control improved very strikingly among patients treated in excess of 4 years with only 5 per cent of failures in these groups."

* Angiology, 1967, 18: 705.

Minimal interference with normal routine

"The surviving patients present on the whole a fairly happy picture, for the great majority are leading unrestricted lives, free from hypertensive headache. Very few are troubled by their treatment and none have abandoned it. . . . Side effects were not troublesome and diarrhoea was readily controlled by codeine phosphate."

KINGSTON UPON HULL EXECUTIVE COUNCIL

BRANSHOLME

Applications invited for vacancy in practice with group practice prospects commenced some twelve months ago on new corporation housing development on outskirts of Kingston upon Hull. Completion of estate with population of about 22,000 scheduled for 1972 and an adjoining private development for about 6,000 is proposed. Further corporation development adjoining to the north is contemplated and if proceeded with will increase total population to about 40,000. Temporary surgery accommodation is available for renting from Hull Corporation. At an appropriate stage of development of estate it is intended to build a health centre in a central position and practice from temporary accommodation will then cease.

Initially the practice area will be restricted to one doctor (the successful applicant). At July 1968 the list was 1,123 near the present population (1,230 at August 20, 1968) and by October, 1968, it is anticipated that 2,100 persons will be housed subject to building contingencies.

Initial practice allowance will not be payable. Hull is a pleasant and progressive University city with a population of 300,000 approximately. There is a new large hospital and activity to promote development of a medical school. Further information and application form on request.

Applications on Form EC16A, to be received by the Clerk, Kingston upon Hull Executive Council, 83 Fernway, Hull, Yorkshire, not later than September 11, 1968. (H.9513)

MEDICAL PRACTICE VACANCY—

STRETFORD, LANC.

Applications invited for vacancy (urban) due to resignation. Open area. List at present approximately 4,500. Residence and surgery combined available for sale or rental. Successful candidate will be required to take over on November 1, 1968, or as soon as possible thereafter.

App'y on Form E.C.16A (obtainable from the undersigned) not later than September 14, 1968.—The Clerk, Lancashire Executive Council, 42 West Cliff, Preston PR1 8HQ. (H.9546)

LANCASHIRE EXECUTIVE COUNCIL

(NATIONAL HEALTH SERVICE)

WIDNES (WIDNES) OVERSEAS

DEVELOPMENT AREA

(TYPE D INITIAL PRACTICE

ALLOWANCE)

A vacancy exists for the first of five doctors who will be required to practise in the western area of the above overspill estate, where it is proposed to erect a health centre to cater for a population of approximately 12,000 in a planned community of 2,600 houses, 115 of which are already occupied.

Initially the Widnes Corporation will make a house available for the incoming doctor at an economic rent for use as temporary living and surgery accommodation until such time as a health centre is erected.

The vacancy attracts a special Type D allowance (see E.C.N. 611) for a doctor with the necessary qualities and experience. The experience expected is normally about ten years as a qualified doctor, of which two years have been spent in hospital appointments and five in a busy general practice in the United Kingdom.

Further particulars may be obtained from the Clerk, Lancashire Executive Council, 42 West Cliff, Preston PR1 8HQ, to whom application on Form E.C.16A should be forwarded to arrive not later than September 14, 1968. (H.9547)

**Boehringer Ingelheim Limited****Medical Adviser**

This expanding subsidiary of a large and distinguished German pharmaceutical company wishes to appoint a physician to join the Medical Department following promotion within the international organisation.

The parent company has extensive research laboratories in Germany, Austria and Canada. A major part of the duties involve the initiation of well designed trials on a series of new compounds in this country. This provides the opportunity to study all stages of the development of a drug, from early animal work through human pharmacology to established use in clinical practice.

It therefore requires a doctor with a real interest in the whole field and with well-based post-graduate medical experience.

An attractive salary is offered and a car provided, together with a very generous non-contributory pension scheme and life assurance.

If this post interests you, please write in confidence giving a broad outline of your career to:
Dr. J. H. Shelley, Medical Director, Boehringer Ingelheim Limited, Great West Road, Isleworth, Middlesex.

SALARY SCALES OF HOSPITAL MEDICAL STAFF

Following the Seventh Report of the Review Body, new salary scales have been approved. These came into force on October 1, 1966. The scales are set out below:

HOUSE OFFICERS: Each post in this grade shall be tenable for six months. £1,100 per annum for the posts held during the first year; £1,200 per annum for posts held during the second year; £1,300 per annum for posts held during the third and subsequent years, subject to full registration.

Deductions of £150 per annum in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

SENIOR HOUSE OFFICERS: £1,450 per annum in the first year; £1,550 per annum in the second year; £1,650 per annum in the third or subsequent years. Deductions of £175 per annum in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

REGISTRARS: £1,650 per annum, rising by four annual increments of £100 to £2,050.

Deductions of £175 per annum for those with remuneration at the first two points on the scale, and £200 per annum for those on the third and subsequent points will be made in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

On assimilation to the scale for Registrars, one increment and one only shall be given for any year or part of a year in excess of two spent previously in the senior house officer grade.

Allowances at rates up to £140 per annum shall be payable to house officers, senior house officers and registrars occupying posts approved for such allowances in peripheral hospitals.

SENIOR REGISTRARS: £1,950 per annum rising by one increment of £100 and four further annual increments of £125 to £2,550.

Deductions of £225 per annum in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

On assimilation to the salary scale for senior registrars, increments to a maximum of two shall be given for any year or part of a year in excess of three spent previously in the registrar grade.

MEDICAL ASSISTANTS: £1,850 per annum rising by fourteen annual increments of £100 to £3,250.

Deductions of £225 per annum in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

CONSULTANTS: £3,200 per annum rising by five annual increments of £185, and then by four further increments of £190 to £4,885.

Deductions of £250 per annum in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

Doctors with satisfactory training will not be excluded from consideration for appointment to consultant posts on the grounds that they have spent little or no time as senior registrars.

**MARSHFIELD CLINIC
MARSHFIELD, WISCONSIN, U.S.A.**

The Marshfield Clinic is a multi-specialty clinic with a staff of 80 physicians, located in the central Wisconsin dairyland. All medical and surgical specialties and subspecialties are represented. Our need for additional physicians with specialty training is becoming more acute. At this time we are particularly interested in orthopaedic surgeons, as well as specialists in internal medicine, pulmonary diseases, infectious diseases, cardiology, endocrinology, and gastroenterology. We are also interested in specialists in psychiatry, urology, ophthalmology and otolaryngology.

Our practice is a combination of referred cases from a wide geographic area, plus responsibility for family health care to the immediate community. All facilities are provided. Consultative services are immediately available within the group. When it is necessary for you to hospitalize your patients, you care for them in a modern, well equipped 400 bed hospital. A research foundation associated with the clinic encourages clinical and basic scientific research.

We are organized as a corporation for the private practice of medicine. We provide many attractive fringe benefits such as life insurance, malpractice insurance, health and accident insurance, disability insurance and retirement plan. All necessary equipment provided. Salary is liberal and is commensurate with training, experience and specialty.

Interested physicians should contact Procurement Chairman, Marshfield Clinic, Marshfield, Wisconsin, U.S.A.

FIGHT CANCER

WITH A WILL!

When you are consulted about bequests for medical work that deserves support, please remember the work of the Imperial Cancer Research Fund. Founded on the initiative of the Royal Colleges of Physicians and Surgeons, the I.C.R.F. is fighting all forms of cancer, including leukaemia, with every weapon of modern science in up-to-date laboratories. It has no official grants and is entirely supported by voluntary contributions. Will you please help—now?

How to word your Will

'I hereby bequeath the sum of pounds free of duty to the Imperial Cancer Research Fund, Lincoln's Inn Fields, WC2 for the purpose of scientific research, and I direct that the receipt of the Honorary Treasurer or Secretary shall be a good discharge for such legacy'.

IMPERIAL CANCER RESEARCH FUND (Dept. 101)
LINCOLN'S INN FIELDS, LONDON WC2

The I.C.R.F. Laboratories in Lincoln's Inn Fields and Mill Hill rely entirely on public support. Over £1 million is needed annually. Please help us to fight cancer with modern equipment and trained minds.

why

so many hypertensive patients do well on Aldomet®

Methyldopa BP

- 'Aldomet' offers smooth and even control of blood pressure when the dosage has been established.
- 'Aldomet' usually reduces lying as well as standing blood pressure.
- 'Aldomet' causes much less postural hypotension than other powerful antihypertensive agents.
- 'Aldomet' rarely causes exertional hypotension.
- The dosage of 'Aldomet' is simple, flexible and easily established.

Supplied as tablets containing methyldopa BP equivalent to 250 mg anhydrous methyldopa and, for emergency use, as an injection. Detailed information is available to physicians on request.

In a trial comparing three antihypertensive agents, it was shown that, '... in the patients who could take adequate doses methyldopa provided the best control of blood pressure, with the lowest levels of blood pressure when the patient was supine.'
