Spasm Secretion Sickness Stress

Long-acting 'Stelabid', with its comprehensive therapeutic action, ensures swift and prolonged relief of distressing local symptoms in a wide range of gastro-intestinal disorders, and particularly in peptic ulcer. 'Stelabid' reduces gastric hypersecretion, prevents nausea and vomiting, inhibits hypermotility and relieves painful spasm through-

out the gut. At the same time, 'Stelabid' exerts a beneficent calming action which effectively allays the background stress and worry that so often provoke or aggravate such conditions. A single dose of 'Stelabid' protects the patient for 12 hours - a useful advantage during the working day - and to ensure an undisturbed night's sleep.

ANTIBIOTICS**AND THE INTESTINAL FLORA**

Treatment with broad spectrum antibiotics suppresses the normal flora, which may be replaced by abnormal resistant organisms causing diarrhoea.

This change can be prevented or reversed by the implantation of *Lactobacillus acidophilus* which has been rendered antibiotic-resistant, and is thus able to multiply freely under these abnormal conditions. The products of growth of the organism are inimical to that of many other bacteria^{1,2} and thus contribute to its rapid preponderance over other species.Oral treatment with antibiotic-resistant *L. acidophilus* in the form of ENPAC has been shown to eliminate *Candida* from the faeces of infants with antibiotic-induced diarrhoea, with relief of symptoms succeeded by rapid gain in weight^{3,4} and greatly to reduce the numbers of staphylococci in the faeces of patients treated with tetracyclines.⁵¹ *Ann. Pyopen destroys

Pseudomonas pyocyanea

The photo-electron micrographs (7,500 x) show cells of *Pseudomonas pyocyanea* (*aeruginosa*) before and after overnight exposure to 50 µg/ml Pyopen (carbenicillin), demonstrating the formation of the aberrant 'long' form.

Proteus species

The photographs show the bactericidal action of Pyopen on cells of *Proteus rettgeri* (x 7,500: overnight exposure to 20 µg/ml). Pyopen destroys other *Proteus* species, *Proteus morganii*, *Proteus vulgaris* and *Proteus mirabilis* in the same way.

E.coli

Pyopen interferes with the synthesis of cell wall mucopeptide and the cells (in this case *Escherichia coli*, x 7,500: overnight exposure to 20 µg/ml) have lysed following growth in the absence of a properly constituted cell wall.

Clinical activity against these refractory Gram-negative organisms, coupled with the characteristic safety of a penicillin, makes Pyopen unique among antibiotics.

Full information on Pyopen is available on request.

s your disease paperwork?

Wouldn't you like to make a rapid recovery and save more time in your day-to-day routine?

Then don't type or write out copies, use a Copymate. Photocopy case histories for the consultant. Make comments on notes from your colleagues and return them. Keep a copy. Free your nurse to spend more time assisting you and caring for your patients.

A Copymate is not one of your big office copiers, you can use it where and when you want, home or surgery, Sunday or midnight. It gives you crisp, clear copies up to 10" x 8" of anything written, drawn, printed or photographed (a good way to keep a detailed reference from a medical book—you can copy a page without tearing it out).

Using a Copymate is easy, too. The timing is automatic. You get a copy in less than 60 seconds. It's all dry, so there are no powders, chemicals or inks to get all over your fingers.

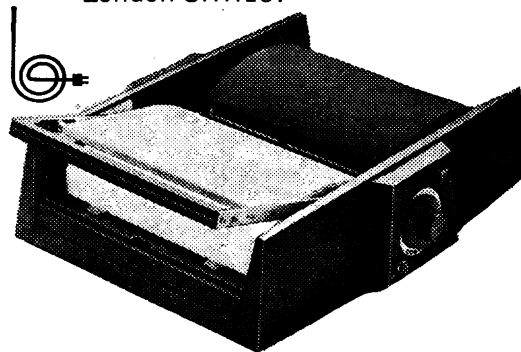

And the cost for all this? Only 16 gns. Petty cash really.

Copymate paper costs 32/6d. for 33 sets (enough for a month of average use). And no extras—no rental, no large depreciation, no chemicals, and none of the wastage of wet copiers.

You can find a Copymate at major department stores, or stationers including Boots the Chemist and W. H. Smith and Son Ltd. If by chance you can't find a Copymate in your area, let us know and we'll locate one quickly. So you can start treatment immediately.

For further details, or a demonstration on your own premises (available only in Greater London at the moment) write to us:

An aid to oral hygiene

Maintenance of oral hygiene during the post-operative period, especially among geriatric patients, is obviously essential. But at the same time this can prove to be somewhat time-consuming for the nursing staff.

However, recent experience in a London hospital has shown that the patient can help to provide his own nursing care, with the minimum of effort.

This experience covers patients who are fed intravenously and post-operative cases who find normal eating and drinking difficult. These patients often exhibit signs of mouth infection very quickly, and treatment for this can often cause considerable discomfort.

A more pleasant treatment is possible in many cases, for it has been found that giving the patient chewing gum promotes salivary gland activity. Patients are encouraged to chew gum at two-hourly periods, and this treatment frequently allays the symptoms and produces a considerable improvement in the condition of the tongue and mucosa. Quite striking results have been noted after carrying out this treatment for a 24-hour period.

new once-daily iron
tablets—easy for
patients to remember

Fersaday and Pregaday are once-daily iron tablets—easy for patients to remember. Each Fersaday Tablet contains 100 mg ferrous iron as ferrous fumarate BP for prevention of iron deficiency anaemia. Each Pregaday Tablet contains 100 mg ferrous iron as ferrous fumarate BP plus 350 micrograms folic acid for prophylactic use during pregnancy. The low irritancy of ferrous fumarate means Fersaday and Pregaday can be taken in one dose without the risk of gastric upsets.

Fersaday and Pregaday
in once-monthly packs—
easy for you to prescribe

The specially designed Fersaday and Pregaday packs make it even easier for the patient to remember, by identifying each tablet with the day of the week. The pop-out packs each contain 28 tablets so it's easy for you too—simply prescribe Fersaday or Pregaday once a month. Fersaday and Pregaday are among the least expensive of the once-daily iron and iron plus folic acid tablets—another good reason for prescribing them whenever extra iron is needed.

In athlete's foot Tinaderm gives swift relief—even in resistant cases

Tinaderm (1% tolnaftate) brings swift relief from burning, itching and discomfort—often within 48 hours—followed by rapid clearance of lesions. Tolnaftate, although applied topically is not a keratolytic agent. It penetrates the lesions to kill the fungus. Thus there is no excessive scaling to cause soreness and spread infection. Tinaderm cream is gentle and soothing even when applied to raw areas. Tinaderm powder is recommended for use where perspiration is a problem, and can be sprinkled into footwear which may act as reservoirs of infection. Where other preparations fail, Tinaderm usually works.

A morning's surgery brings a lot of Crystapen G patients

Penicillin is still the drug of choice in so many infections. An established penicillin in a modern form is Crystapen G (penicillin G)—one you can rely on in the treatment of strep. throats for example.* All Crystapen G Tablets have their full name and strength printed on them. They are film-coated, tasteless and easy to swallow. Specify Crystapen G Tablets 250 mg for adults, and 125 mg for children. In each 100 ml bottle of Crystapen G Syrup there is sufficient for twenty doses—five days' continuous therapy at normal dosage. When the patient "doesn't like tablets" specify Crystapen G Syrup—old and young like its pleasant fruit flavour. For adults 250 mg/5ml, for children 125 mg/5ml. **Lancet* (1967) 2, 1,176

BRITISH MEDICAL ASSOCIATION

REGIONAL MEDICAL SECRETARY BASED ON BIRMINGHAM

The Council of the British Medical Association invites applications from registered medical practitioners for the post of Regional Secretary. The post is a new one, based on the Council's policy of decentralization. The Regional Medical Secretary will be in charge of the Association's Birmingham office and his duties will consist generally in supervising and promoting the Association's activities in the Midlands and surrounding area.

The successful candidate will be based on the Association's Birmingham office and will be required to reside in the area. He will be expected to travel widely throughout the whole of his region, to attend Branch and Division meetings whenever practicable, and generally to advise and assist the profession locally.

The salary scale for this appointment is £3,800 by £200-£4,600 per annum, but in fixing the starting salary regard may be had to the successful candidate's age and experience. Although the appointment is a whole-time one, the Council would be prepared to consider applications from candidates with other commitments which would not prevent them from devoting the major part of their time to the duties of the post.

The appointment will be for a probationary period of six months in the first instance, and thereafter may be terminated by six months' notice on either side. The post, which is superannuable, offers opportunities for promotion within the Association's medical secretariat.

Applications, giving details of qualifications and experience, and accompanied by the names of three persons to whom reference may be made, should be addressed to the Secretary of the Association, B.M.A. House, Tavistock Square, London W.C.1, and must be received not later than August 30, 1969.

PRACTICES

UNIVERSITY OF EXETER
Postgraduate Medical Institute

A full-time postgraduate course lasting ten weeks will begin on October 6, 1969. These courses are held three times a year starting in October, January, and April. Each course includes instruction in general medicine, paediatrics, preventive medicine, pathology, psychiatry, orthopaedics, and general surgery. The programme is planned so that students wishing to specialize in a particular clinical subject are given facilities to do so, while other students are taught in each of the main clinical departments. Unpaid clinical attachments can be arranged at the end of the course for students requiring a longer period of training, but these are normally reserved for students sponsored by some official body.

It is sometimes possible to accept general practitioners for one or two weeks of a course, and attendance for this period is recognized under section 63 of the Health Services and Public Health Act, 1968. These courses are also recognized under the special scheme for the re-training for general practice of doctors who have been out of the Health Service for at least five years.

The fee for this course will be £40 (£83 for students from outside the United Kingdom). Further particulars and application forms for these courses are obtainable from the Director, The Postgraduate Medical Institute, The University, Exeter, Devonshire, (18511)

National Coal Board MEDICAL SERVICE

Applications are invited for posts of Assistant and Deputy Area Medical Officers in the Durham, Yorkshire and Nottinghamshire coalfields.

The Medical Service is responsible in general terms for ensuring that new entrants to the coal industry are fit for their proposed employment, that the working environment is kept as healthy as possible and that employees who are injured or become ill at work are given efficient first treatment. The Medical Service is also responsible for the health aspects of the ancillary industries which are growing in number and diversity. Investigation of industrial health problems is actively encouraged, as is close liaison between the Area Medical Staff and the Institute of Occupational Medicine in Edinburgh.

Experience in Occupational Medicine is desirable, but not essential; training will be given and facilities for taking the Diploma in Industrial Health provided. Starting salaries according to age and experience, will fall within the range £2,220-£4,050. For those who wish to make the Board's Medical Service their permanent career, there are excellent prospects of promotion to more senior posts.

Applications giving personal details and brief outline of career, should be sent to: Head of Staff Administration Branch, Room 307, Hobart House, Grosvenor Place, London S.W.1 to arrive by August 29, 1969. (10520)

Applications are invited for the appointment of **SENIOR REGISTRAR IN PSYCHIATRY** at Exe Vale Hospital, Exeter, near Exeter. Candidates should possess an appropriate higher qualification.

The successful candidate will be based at the Digby Section of the Exe Vale Hospital, and he will be concerned both with treatment of acute psychotics and in research work being carried out in the unit. He will also be associated with out-patient clinics held in the area.

The appointment, which is vacant from October 9, 1969, will be held for one year in the first instance, and will then be subject to review.

An unfurnished house near the hospital, residential accommodation for a single person or a furnished flat for a married couple is available.

Applications by letter, stating date of birth, qualifications and experience, together with the names and addresses of two recent referees, should be sent to the Secretary of the Regional Hospital Board, 27 Tyndalls Park Road, Bristol BS8 1PJ by April 28, 1969. (H.9468)

SOUTH-WESTERN REGIONAL HOSPITAL
BOARD

Plymouth Clinical Area

Applications are invited for the appointment of **SENIOR PSYCHIATRIC REGISTRAR** based on Moorhaven Hospital, Ivybridge, South Devon.

The appointment will be held for one year in the first instance, and will then be subject to review. Candidates should possess an appropriate higher qualification.

The post, which is vacant, is non-resident, but a good modern house (furnished or unfurnished) is available at a very reasonable rental. The hospital (765 beds) had 1,200 admissions in 1968, and has a medical staff of fifteen.

A comprehensive mental health service is in operation, and experience can be gained in all branches of in-patient and out-patient psychiatry (including neurology, child guidance and E.E.G. work). The out-patient service is based on Plymouth General Hospital and the Plymouth Nuffield Community Mental Health Centre. The Annual Report, which gives full particulars of the service, can be obtained from the Physician Superintendent, Moorhaven Hospital.

Applications by letter, stating date of birth, qualifications and experience, together with the names and addresses of two recent referees, should be sent to the Secretary of the Regional Hospital Board, 27 Tyndalls Park Road, Bristol BS8 1PJ, by August 28, 1969. Selected candidates will be interviewed on September 12, 1969. (H.9469)

**CANE HILL HOSPITAL
Coulson, Surrey CR3 3YL**

Applications are invited for the post of whole-time

REGISTRAR IN PSYCHIATRY

The hospital is situated within the London borough of Croydon, and is half an hour's rail journey from central London. It is run on the "firms" system, and the successful candidate would have the opportunity of taking part in all aspects of clinical psychiatry. There are links with London teaching hospitals. Postgraduate training is undertaken in conjunction with the Benlenn Royal and Maudsley Hospital. Special concessions can be obtained for attendance at courses at the Institute of Psychiatry. Registrars are expected to take the D.P.M. and regular teaching seminars are held for them. A regional postgraduate tutor in psychiatry for Part II of the D.P.M. organises training courses at a special teaching unit near the hospital.

Out-patient clinics are held at various general hospitals at which Registrars assist in treatment. In addition there is an in-patient unit and a day centre at an associated general hospital at which the successful candidate will be expected to do a tour of six months' duty. There is good liaison with the staff of local authorities and ample opportunity for experience in community care.

Application forms obtainable from, and returnable to the Group Secretary, by August 22, 1969. Candidates may visit the hospital by appointment. (22398)

Medical Officers

The Anglo American Corporation Group Medical Service wishes to strengthen its staff of medical officers in South Africa. Its several hospitals are outstandingly well-equipped and serve many thousands of African employees.

In addition to the normal work common to all hospitals for men, the Group's medical officers supervise the health, housing, nutrition and general welfare of the employees, and also assist in maintaining the high standards of public health on the mines. They can further expect to have opportunities of gaining invaluable experience in traumatic surgery.

A starting salary in the range £3,780-£4,375 p.a. is offered. Income Tax is considerably less than that paid in U.K., and

commodities in general cost noticeably less. A spacious detached house is provided at a rental of approximately £6 a month. There are excellent pension and health schemes. In all centres there are facilities for at least the popular games including golf and tennis—and time to play them. Help in the house is readily obtainable and moderately inexpensive. The South African climate is acknowledged to be one of the most congenial and healthy in the world.

Air fares to South Africa for employees and their families are paid for *in toto* by the Group and generous assistance is given towards the cost of moving baggage and possessions.

The Anglo American Corporation with its associated groups, including De Beers, forms

the largest single concern in South Africa. It has interests outside South Africa too, and has a reputation for progressive policies in regard to the welfare of its African and European employees.

CANADA—THE ONTARIO CANCER INSTITUTE RESIDENT TRAINING IN THERAPEUTIC RADIOLOGY

The Ontario Cancer Institute incorporating The Princess Margaret Hospital offers a two-year Diploma Course which combines clinical work on the wards and in the out-patient department of the hospital, and didactic courses in Anatomy, Nuclear Medicine, Pathology, Physics, Radiobiology, and Radiotherapy. This course leads to the Diploma in Medical Radiology (Therapeutic) from the University of Toronto, and is accredited by the Faculty of Radiologists in London. The hospital is recognized by the Royal College of Physicians and Surgeons of Canada, and the American Board of Radiology, for complete training in Radiotherapy over a period of three years. In addition it is accredited for Internal Medicine and Anatomic Pathology for a period of one year, and for six months in Diagnostic Radiology. The Princess Margaret Hospital provides complete facilities for cancer research, diagnosis and treatment, exclusive of major surgery. Over 3,800 new patients are seen annually; there are 175 active treatment beds, and facilities include six Cobalt Units, two Caesium Units and a Betatron. Salaries range from \$6,760 to \$9,460 per annum.

Applications are invited for the year beginning July, 1970. For further details enquiries should be addressed to:

The Chairman, Interne Committee,
THE PRINCESS MARGARET HOSPITAL,
500 Sherbourne Street, Toronto 5, Ontario, Canada.

TWO DOCTORS REQUIRED FOR GENERAL PRACTICE IN FORT NELSON, B.C.

One must have at least six months' anaesthetic experience. The second doctor should have some postgraduate experience in obs. and gynae. or medicine or paediatrics. Both are needed to join surgeon (F.R.C.S.Ed.) who also does general practice. This community has great future growth; present population 3,500 (school enrolment up 25% this year). We expect that the practice will double in three years. 250-mile railway extension under construction—copper mines, into production this year, pulp mill licence applied for and biggest gas field in Canada is being developed, agricultural development started. For outdoor man abundant hunting and fishing, boating and flying available 50 miles away in beautiful northern Rockies. New 35-bed hospital operated by incumbent doctors. Hospital equipped far beyond bigger new hospitals thanks to industrial interest in the area. Building new medical clinic this year. Applicants could design own offices. There are no limitations to scope of medicine practised other than training and ability. Interests outside medicine are boundless—except no nightclubs so no city orientated men should apply. Partnership offered after six months' probationary period but other arrangements could be considered.—Write Box 594, Fort Nelson, B.C., Canada.

MEDICAL OFFICERS

Good short term
contracts
with Anglo American
in Zambia

The Anglo American Corporation Group is the largest mining finance organisation in the world. In Zambia the Group mines copper and lead-zinc; as the world's fourth largest producer of copper, Zambia has an output that represents 90% of the country's exports. Well over half the copper is mined by Anglo American. To give you an outline picture of the well-equipped medical facilities provided at four centres by the Group, take Nchanga mine at Chingola: there are two hospitals, one contributory and fee-paying, the other non-fee-paying. Both have diagnostic, radiological and laboratory services. There are nine medical officers including a Chief Medical Officer, a Specialist Surgeon and Physician, and a visiting Radiologist. Zambia Broken Hill Development Company at Kabwe operates three clinics for employees and their dependants, and has facilities at the Government hospital for the hospitalisation of mine patients under the care of the Mine Medical Officers who number three, including the Chief Medical Officer. Duties are of a general nature, including hospital care of patients and domiciliary visiting; obstetrics, anaesthetics and surgery.

VACANCIES

From time to time vacancies arise for Medical Officers on a contract period

of three years. Typical minimum salaries would not be less than K6,400 per annum (equivalent to £3,733 sterling). Other benefits include Christmas Bonus, terminal gratuity, educational allowances, partly furnished accommodation at moderate rentals, and free return passages to and from Zambia. There are generous leave conditions. A car allowance is paid and an initial interest free loan is also available for the purchase of a car.

Short-term locums

There are occasional locum appointments for minimum periods of 2 months. Terms and conditions differ from the more permanent positions but they are no less attractive. The sunny climate of Zambia, the full social life, and the many sports and cultural activities one can take up make for a most enjoyable time. Swimming, tennis, sailing; amateur dramatics; these are just a few ways in which you can live a really satisfying off-duty life. Posts are usually filled for an initial contract period of three years.

AUSTRALIA—REPATRIATION GENERAL HOSPITAL
ADELAIDE, SOUTH AUSTRALIASPECIALIST IN
PATHOLOGY

Applications are invited from registered medical practitioners, with appropriate postgraduate qualifications, for appointment to Specialist in Pathology at the Repatriation General Hospital, Daw Park, Adelaide, South Australia.

The 400-bed hospital is located approximately six miles from the City of Adelaide and provides treatment for eligible ex-servicemen and their dependants. Wards comprise medical, surgical, orthopaedic and urological, a chest unit and a psychiatric unit. Full-time specialists posts include pathology, radiology, chest diseases, anaesthesia, medicine and psychiatry and in addition, there is a system of sessional work by visiting specialists.

A salary range on appointment will be determined within the limits \$8,638-\$11,458. Commencing salary will be within the determined range and will be dependent on experience since gaining postgraduate qualifications.

Subject to medical fitness, the successful applicant will be permanently appointed to the Commonwealth Service and will be eligible to contribute to a Superannuation Scheme. The appointee will also receive generous recreation, sick and long service leave entitlements. On completion of a bond of service for three years, the appointee's and dependants' first-class fares to Adelaide will be paid by the Commonwealth and some assistance may also be given towards removal of effects. The department will arrange initial accommodation and in the case of a married appointee, a reasonable settling-in allowance may be paid, for a limited period, depending on particular circumstances.

Applications, in writing, including details of name, age, qualifications and experience, should be forwarded to:

The Public Service Board Representative,
Canberra House, 10-16 Maltravers Street,
The Strand, London W.C.2.

the best iron is useless

(unless it's taken)

'The co-operation of patients on a once-daily dosage of iron (Ferro-Gradumet) was significantly better than those taking a thrice-daily preparation.'[†]

Each Ferro-Gradumet contains the exsiccated equivalent of 525 mg ferrous sulphate BP (\equiv 105 mg Fe) in a Gradumet for maximum absorption with minimum gastric upset: *the right iron, in the right form, at the right dosage.*
