URINARY TRACT INFECTION

PENBRITIN

She has a history of urinary tract infection in pregnancy and was distressed rather than concerned when the symptoms recurred this time. The concern is yours, for you know that the renal tissue may already be infected – or could become so if this infection ascends. And that a chronic and serious condition may result. You need an antimicrobial agent which will minimise these risks.

Penbritin is the answer-first time

Highly active against the common domiciliary causes of urinary tract infection (E.coli, Proteus mirabilis and Strep. faecalis). Not only active, but bactericidal—killing rather than just inhibiting. And bacteridical not only in urine, where very high levels are achieved, but also in the bloodstream and renal tissue.

This combination of extensive bactericidal activity with effective concentration at the possible sites of urinary infection means the elimination of sensitive organisms from the renal tract, and the minimum risk of relapse—well proven in clinical trials.

Penbritin also brings the safety of a penicillin to the treatment of urinary tract infections, particularly important in your pregnant patients. And in severe cases, for instance acute pyelonephritis, treatment may be commenced by injection.

In the treatment of urinary tract infections, Penbritin is the answer—first time. And so often the only prescription needed.

Availability: Penbritin (ampicillin B.P.)

Capsules, 250 and 500 mg. Injections, 100 mg, 250 mg, 500 mg. Syrup, 125 mg/5 ml. Syrup Forte, 250 mg/5 ml. Paediatric Tablets, 125 mg.

Dosage in Urinary Tract Infections:

Adults 500 mg
Children 2-10 years 250 mg
Children under 2 years 125 mg

In severe infections these doses may be increased or Penbritin given by injection.

Contra-indication: Penicillin allergy. **Side-effects**: As with other penicillins. *Further information is available on request.*

Penbritin* is a product of British research at

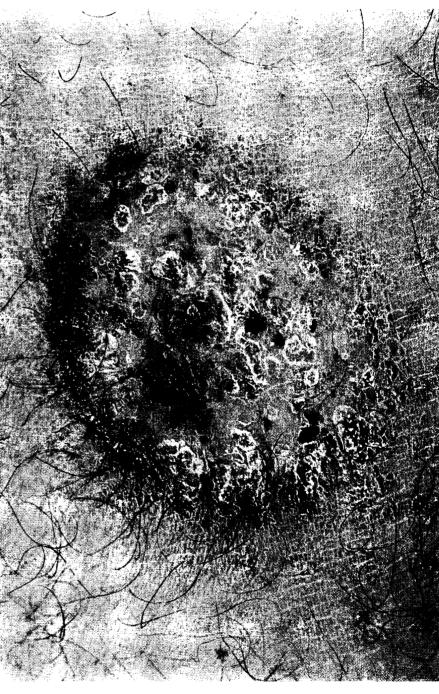

Beecham Research Laboratories, Brentford, England. originators of the new penicillins. *regd.

Betnovate

the classic topical corticosteroid

A simple case for Betnovate

Left: leg lesion in discoid eczema of nine months' duration treated unsuccessfully with hydrocortisone Right: complete clearance after two weeks' treatment with Betnovate Ointment under occlusion

Betnovate, Betnovate-C and Betnovate-N

Presentation
Betnovate (0.1% betamethasone as 17-valerate)
Cream: 15, 30 and 100 gram tubes
Ointment: 15, 30 and 100 gram tubes
Lotion: 20 ml bottle

Scalp Application: 30 gram plastic squeeze bottle

Betnovate-C (Betnovate +3% clioquinol) Cream: 15, 30 and 100 gram tubes. Ointment: 15, 30 and 100 gram tubes

Betnovate-N (Betnovate+0.5% neomycin sulphate) Cream: 15, 30 and 100 gram tubes Ointment: 15, 30 and 100 gram tubes

Lotion: 20 ml bottle
Tulle*: tin of 10 pieces (4 in x 4 in)

Betnovate Rectal Ointment (0-05% betamethasone 17-valerate + 0·1% phenylephrine hydrochloride + 2·5% lignocaine hydrochloride)

Betnovate Compound Suppositories (0.5 mg betinovate compound suppositories (0-5 mg betamethasone 17-valerate + 2-0 mg phenylephrine hydrochloride + 40-0 mg lignocaine hydrochloride) box of 10 suppositories

*Now prescribable on the NHS except in Northern Ireland

Indications

All steroid-responsive dermatoses including psoriasis. Betnovate-N preparations should be used if bacterial infection is present or suspected. As an alternative, or when there is fungal infection, Betnovate-C preparations may be used.

Application
Ointment, cream, lotion and scalp application Apply a small quantity once or twice daily

Apply a small quantity two or three times daily Compound suppositories
Insert a suppository night and morning

Apply direct to the lesion and cover with an absorbent dressing if necessary

Adverse reactions

Rectal Ointment

Betnovate preparations are usually tolerated well, but if signs of hypersensitivity appear, application should be stopped immediately. When used with occlusive dressings on extensive areas, or for prolonged periods, as with all topical steroids the possibility of systemic absorption should be considered. Absorption is more likely in infants and children and may occur even in the absence of occlusion. Prolonged corticosteroid therapy may cause local atrophy.

Betnovate is a Glaxo trade mark Detailed literature available on request

"Introduced almost a decade ago, Flagyl (Metronidazole) is still the only acceptable systemic therapy available for trichomoniasis."

With 'Flagyl' a pessary is unnecessary.

Hydroderm, simply treats 'skins'

'skins' allergic dermatoses (such as contact dermatitis), eczematoid dermatitis, atopic dermatitis (allergic eczema), infantile eczema, food eczema, neurodermatitis, pruritus with lichenification, seborrhoeic dermatitis, non-specific anogenital pruritus, miliaria, intertrigo, insect bites, acute actinic dermatitis, severe sunburn

Many common skin conditions respond quickly to treatment with 'Hydroderm' Ointment. 'Hydroderm' contains hydrocortisone, with neomycin and bacitracin for broad antibacterial cover when susceptible infection is present or anticipated.

Supplied as a one-strength, one-base formulation for easy prescribing, 'Hydroderm' often provides the simple answer to many common skin conditions seen in general practice.

'Hydroderm' Ointment contains, in each gram, 10 mg hydrocortisone, 5 mg neomycin sulphate and 1,000 units zinc bacitracin, in tubes of 5 G and 15 G.

Detailed information is available to physicians on request.

iv

With a faecal softener to prepare the way, and just a small dose of peristaltic stimulant completing evacuation, Dorbanex avoids the problems of conventional laxative treatment. What difference does the faecal softener make to treatment? A soft but formed stool; the restoration of faecal bulk to normal; non-oily lubrication of the gut contents. By this comprehensive approach, *Dorbanex* provides easier and more predictable evacuation than conventional laxatives, reduces the need for enemas and suppositories, minimises the risk of straining at stool or faecal impaction, lessens apprehension about answering the call to stool, helps to break the laxative habit, gently restores neuromuscular sensitivity, and simplifies patient management.

Available in three forms to treat constipation in any patient of any age, *Dorbanex* provides the prospect of successful treatment that avoids the problems of conventional laxative therapy.

Dorbanex Capsules:

porbanex Capsules: each capsule contains 1 :8-dihydroxyanthra-quinone 25 mg., poloxalkol 200 mg. Dosage: Adults, one or two capsules. Children, one capsule. Before or after surgery: two to four capsules. Treatment should be taken at

Dorbanex Forte: each 5 ml. teaspoonful contains 1:8-dihydroxyanthraquinone, 75 mg., poloxalkol 1000 mg. Dosage: One teaspoonful or as directed by the physician. Treatment should be taken at bedtime.

Dorbanex Liquid: each 5 ml. teaspoonful contains 1:8-dihydroxyanthraquinone 25 mg. poloxalkol 200 mg. Dosage: Adults, one or two teaspoonfuls. Children, half to one teaspoonful, as required. Before or after surgery two to four teaspoonfuls. Treatment should be taken at bedtime.

Contra-indications In common with other gastro-intestinal evacuants, *Dorbanex* should not be given when acute, painful conditions of the abdomen are present, or the cause of constipation is suspected to be obstruction of the small or large intestine. Side-effects Dihydroxyanthraquinone may cause a temporary harmless, pink or red colouring of the urine and, in prolonged use or high dosage, of the mucosa of the large intestine. Doses larger than two teaspoonfuls may cause slight gastro-intestinal discomfort in a few patients. Basic NHS Prices *Dorbanex* Capsules: bottles of 30 capsules 8/8; bottles of 30c capsules 78/-; *Dorbanex* Liquid: bottles of 60 ml. 4/-; bottles of 500 ml. 30/-; *Dorbanex* Forte: bottles of 60 ml. 6/-; bottles of 500 ml. 45/-.

an advance on the antibiotics

(Trimethoprim and Sulphamethoxazole)

■ 'Septrin' acts quickly and decisively.

■ eradicates common pathogens – including

H. influenzae, Pneumococci, Proteus sp., E. coli, Klebsiella sp.

- effective against penicillinase-producing organisms.
- new mode of bactericidal action overcomes problems of bacterial resistance.

clearly superior in URINARY INFECTION

'Septrin' was compared with ampicillin and sulphadimidine in the treatment of 106 hospitalised patients with urinary infections. Cure rates one week after finishing treatment were: 'Septrin' 85 per cent, ampicillin 70 per cent, and sulphadimidine 40 per cent; and after four or five weeks 67, 52 and 15 per cent respectively. (Cure—eradication of original organism from urine).¹

'Septrin' was"... clearly superior to either of the other treatments, and this superior effect was even more appreciable in the re-treatment of patients who had failed on another drug."²

When treating respiratory tract infections

'Ilosone' effectively destroys the pathogens in tonsillitis, acute bronchitis, streptococcal pharyngitis, otitis media, and bacterial pneumonia.

'Ilosone' causes minimal interference with the natural gut flora, thus diarrhoea or gastrointestinal upset is rare.

In addition to its high activity against Grampositive cocci, 'Ilosone' is also active against H. influenzae, and Mycoplasma pneumoniae. The clinical response is rapid, and the chance of relapse is small.

The range of presentations is such that 'Ilosone' can be prescribed for the whole family.

For adults. 250 mg* capsules and 500 mg* tablets.

For children under seven years of age. Pleasant tasting suspension, containing 125 mg* per 5 ml.

For older children and adults. Pleasant, orange flavoured Suspension Forte, containing 250 mg* per 5 ml. An ideal presentation for older children, and all adults who need full strength dosage, but have difficulty in taking solid dosage forms.

All suspensions are presented in 100 ml bottles for full five days' treatment.

*Strengths given as base equivalent.

DISEASES OF THE DIGESTIVE

from the British Medical Journal

Gastroenterology is one of the fastest-growing specialties in medicine. Many recent discoveries and developments have immediate clinical applications, and in 1967 the B.M.J. began to publish a series of articles on Diseases of the Digestive System. The series was widely acclaimed, and the articles have now been revised by their authors and collected together in book form. The list of authors includes many well-known names and the subjects range from peptic ulcer to rectal bleeding, and include pancreatic and liver disease. As a readable and authoritative refresher course the book will help doctors in hospital and general practice.

Bewitched, Bothered, **Bewildered?**

Before you emigrate have you considered the productive, fruitful and satisfying career of a

CLINICAL TRIAL INVESTIGATOR

The Medical Department of this international ethical pharmaceutical Company requires a doctor to join its energetic and expanding clinical investigation team. The Appplicant must be medically qualified, registered and between 28 and 45 years of age. Previous knowledge of drug evaluation is not necessary but the ability to Initiate and organise clinical investigations is essential.

The appointed doctor will, in addition to normal clinical trial responsibilities, specialise in

INFANT NUTRITION

Consequently, an interest in paediatrics or general medicine would be an advantage, although it is not essential. The successful applicant would be expected to maintain a permanent clinical attachment.

Career prospects in the pharmaceutical industry are above average. Initial salary will depend mainly on qualifications and experience and the Company operates a non-contributory pension fund and life assurance scheme. A company car is provided. Conditions of employment are good and could include assistance with removal expenses.

Please apply to:

Personnel Manager, John Wyeth and Brother Limited, Huntercombe Lane South, Taplow, Maidenhead, Berks.

(10681)

INDUSTRIAL APPOINTMENTS

Attention is drawn to the British Medical Association's statement of policy on the Remuneration of Industrial Medical Officers as approved by the Representative Body, which is available on request from the Secretary.

Medical

for one of the larger divisions of ICI.

The work involves every aspect of Industrial Medicine, and provides particularly interesting experience in industrial toxicology. Remuneration will depend upon age and experience, but will not be less than the scale recommended by the B.M.A. for the Medical Officer Grade.

There is a contributory Pension Scheme and assistance will be given to married men with housing and removal expenses.

Application forms may be obtained from:

i. G. Cope

Personnel Manager,

ICI Dyestuffs Division,

Hexagon House, Blackley, Manchester M9 3DA. quoting Ref. I.28/B

National Coal Board MEDICAL SERVICE

Applications are invited for posts of Assistant and Deputy Area Medical Officers in the Durham, Yorkshire and Nottinghamshire coalfields.

The Medical Service is responsible in general terms for ensuring that new entrants to the coal industry are fit for their proposed employment, that the working environment is kept as healthy as possible and that employees who are injured or become ill at work are given efficient first treatment. The Medical Service is also responsible for the health aspects of the ancillary industries which are growing in number and diversity. Investigation of industrial health problems is actively encouraged, as is close liaison between the Area Medical Staff and the Institute of Occupational Medicine in Edinburgh.

Experience in Occupational Medicine is desirable, but not essential; training will be given and facilities for taking the Diploma in Industrial Health provided. Starting salaries according to age and experience, will fall within the range £2,220-£4,050. For those who wish to make the Board's Medical Service their permanent career, there are excellent prospects of promotion to more senior posts.

Applications giving personal details and brief outline of career, should be sent to:

Head of Staff Administration Branch, Room 307, Hobart House, Grosvenor Place, London S.W.1 to arrive by September 5, 1969.

Educational-contd.

LONDON BOROUGH OF HACKNEY HEALTH DEPARTMENT

INNER LONDON EDUCATION AUTHORITY

PRINCIPAL **MEDICAL OFFICER** (SCHOOL HEALTH)

£3,255—£3,810 p.a.

Applications are invited from registered medical practitioners for the above post which becomes vacant in mid-September.

The duties of the post will cover the professional aspects of the school health service in the widest sense. In addition to the normal work within the department, the person appointed will be required to maintain any necessary liaison with other departments of the Council and appropriate bodies in the Area. The officer appointed will also be expected to participate to a certain extent in other administrative and clinical aspects of the work of the department.

Possession of a D.P.H. or D.C.H. will be an advantage and administrative experience in a senior position with a local health authority will be an added qualification. Conditions of service-Committee "C" of the Whitley Council for the Health Service. Essential user car allowance.

The appointment will be made jointly with the Inner London Education Authority.

Application form obtainable from the Town Clerk, Town Hall, Mare Street, E.8, quoting reference BMJ, returnable by September 1, 1969.

LONDON BOROUGH OF MERTON HEALTH DEPARTMENT

Senior Medical Officer

Applications are invited for the above post from Registered Medical Practitioners holding a Diploma in Public Health.

This post will offer a splendid opportunity for varied experience of the administration of a Health and School Health Department and will also afford some opportunity for clinical work. The person appointed will be required to have a special interest in matters relating to Mental Health and Social Welfare. The Borough, which comprises Wimbledon, Merton and Morden and Mitcham, is a pleasant one within very easy reach of central London and the Surrey countryside.

Candidates should have had previous experience of Local Health and School Health Services. The salary scale will be £2,610 to £3,165 per annum plus London Weighting allowance of £90 per annum. An essential user car allowance and telephone rental are also attached to the post. Commencing point on the scale will be fixed having regard to present salary and experience.

Application forms, obtainable from Medical Officer of Health, The Vestry Hall, Mitcham, Surrey. Completed application forms. together with the names of three persons to whom reference may be made, should be returned to the Medical Officer of Health not later than Monday, 8th September, 1969.

BARBADOS Pathologist/Bacteriologist

To take charge of the Haematology and Blood Transfusion Branch of the Department of Pathology and to teach Medical students and Student Nurses. He must have the M.C.Path. (Haematology) or D.C.P. (or equivalent) and six years' experience in Clinical Pathology and Blood Transfusion Serology. Salary \$WI 10,080 (£2,100) p.a. plus an inducement allowance of £630 p.a. Contract 2-3 years.

MALAYSIA (SARAWAK) Specialist Anaesthetist

Based at one of the General Hospitals at Kuching or Sibu he may be required to visit other hospitals for approximately three months in the year. Possession of the F.F.A. R.C.S. is essential. Salary M\$18,240 (£2,485) p.a. plus an inducement allowance of £1,357 p.a. Contract 2-3 years.

JAMAICA Medical Officer (Anaesthetist)

To act as Anaesthetist to the Consultant who heads an Anaesthetic firm at the Kingston Public Hospital (540 beds). He may be required to undertake similar work at other hospitals in Kingston. Salary £1,500-2,500 p.a. plus an inducement allowance, normally tax free, of £432-600 p.a. Private practice is not permitted. Contract 2-3 years.

UGANDA Consultant Psychiatrist

To advise the Chief Medical Officer and the Superintendent of a large Mental Hospital. He will also be required to supervise the training of staff and to lecture at Makerere Medical School. Possession of the D.P.M. essential.

Consultant Physicians

For clinical duties in an up-country location, either Gulu, Fort Portal or Mbale. They will be expected to assist in the teaching of junior staff. They must be M.R.C.P.

ALL POSTS: Salary £Ugandan 2,500-3,150 (£Sterling 2,916-3,675) p.a. plus an inducement allowance, normally tax free, of £Sterling 1,030-1,116 p.a. Contract 21-27 months.

FIJI Medical Officer (Public Health)

To teach Preventive and Social Medicine at the Fiji School of Medicine. Possession of the D.P.H. essential.

Clinical Tutor (Obstetrics)

To lecture to Medical Students and Nurses, conduct clinical teaching seminars and undertake duty in the Obstetric Unit of the Colonial War Memorial Hospital, Suva. At least one year's hospital experience in Obstetrics required.

BOTH POSTS: Salary \$F.2,700-5,022 (£1,294-2,406) p.a. plus an inducement allowance, normally tax free, of £596-841 p.a. Private practice is not permitted. Contract 3 years.

GENERAL DUTY MEDICAL OFFICERS

are required in Botswana, The Gambia, Kenya, Lesotho, Malawi, Uganda, Swaziland, Zambia, St. Kitts, Virgin Islands, Seychelles, Sabah, South Pacific Health Service (Fiji) and St. Vincent. Appointments are for 2 to 3 years. Salaries vary with local living costs, but with some exceptions range from £1,650-2,900 p.a.

TRAINING SCHEME FOR RECENTLY QUALIFIED DOCTORS

In return for an undertaking to serve for at least two years in the developing countries, the Ministry offers a course of training to recently qualified doctors approaching completion of their pre-registration year. The scheme is designed to fit them for service overseas and is attractive professionally and financially. During the training period of 12–15 months the doctor will receive a retaining fee of £220 p.a. in addition to his hospital salary.

Candidates should be citizens of, and normally resident in, the United Kingdom. They must possess medical qualifications and be able to meet all other requirements for full registration in the United Kingdom.

For application forms, full details of salaries and allowances and further information, please write, stating full name, to the

Appointments Officer, Room 409A, Ministry of Overseas Development, Eland House, Stag Place, London S.W.1.

(10710)

PROVINCE OF BRITISH COLUMBIA has opening for MEDICAL SPECIALIST Corrections Branch VANCOUVER

VANCOUVER

SALARY: \$20,880 per annum.

To be responsible to the Director of Correction for the organization, maintenance, development and supervision of medical services for the British Columbia Corrections Service, to supervise medical staff; to participate in the planning of medical treatment services; to direct and operate a small prison hospital.

Applicants must be Canadian citizens or British subjects, licensed to practise medicine in British Columbia; preferably holding Certification in psychiatry or public health; extensive administrative experience and familiarity with working in a disciplined Service.

COMPETITION NO. 69:922. (H.9958)

Medical Officer/ Physician £5,000 p.a.

Mufulira, one of the RST Group of Companies on the Copperbelt of Zambia invites applications for the above post from medical practitioners with adequate experience and a higher qualification in medicine, notably membership.

The Company's medical services cater for a population approximating 50,000 and centre round two well equipped hospitals with a total of 430 beds. The present establishment of medical officers is 12, including those with higher qualifications. An additional medical officer is now required who will serve primarily as a Consultant Physician. In common with the other medical officers employed, his duties will include a certain amount of general medical work which in this instance will be minimal. In addition, a limited amount of student nurse teaching will be involved, associated with a training school for registered nurses which is to be established at the larger hospital.

Employment will be on a 4 years' contract renewable by agreement, starting salary will depend on experience and qualifications but total annual emoluments will not be less than the equivalent of £5,000. Leave will accrue at 55 days per annum and a car is provided for professional use.

Additional benefits include paid return passages for applicant and family, baggage allowance, furnished house at sub-economical rental, free life assurance, children's education allowance up to the equivalent of £500 per child with two holiday fares per annum.

At 4,000 ft ASL, the Copperbelt enjoys an ideal climate with sunshine all year round. Excellent facilities exist for practically all sports and leisure activities including television.

All applications will be treated in strictest confidence.

For full particulars and application form, write or telephone: F. C. Wilson, 75/69, Overseas Appointments Division, RST International Metals Limited, One Noble Street, London EC2. Telephone: 01-606 8800 Ext 307

Medical Officer (Paediatrics) £4,400 p.a.

The RST Group has a vacancy in one of its Companies on the Copperbelt of Zambia for a Medical Officer experienced in paediatrics.

The successful applicant, who should have had experience, and preferably hold a qualification, in paediatrics, will be required to take charge of paediatric wards comprising a total of 100 beds in two Company hospitals. In addition he will be expected, in common with the other 12 medical officers on the staff, to undertake a certain amount of general medical work.

Employment will be on either a two or four year contract renewable by agreement. Starting salary will depend on experience and qualifications but total annual emoluments will not be less than the equivalent of £4,400. Leave will accrue at 55 days per annum and a car will be provided for professional use.

Additional benefits include paid return passages for successful applicant and family, baggage allowance, furnished house at sub economical rental, free life assurance, childrens' educational allowance up to the equivalent of £500 per child with two holiday fares per annum. At 4,000 ft ASL, the Copperbelt enjoys an ideal climate with sunshine all year round. Excellent facilities exist for practically all sports and leisure activities including television.

All applications will be treated in strictest confidence.

ST. ANDREW'S HOSPITAL NORTHAMPTON

Medical Director: James Harper, M.B., F.R.C.P.(Edin.), D.P.M.

James Harper, M.B., F.R.C.P.(Edin.), D.P.M. St. Andrew's Hospital is a private psychiatric hospital situated in 130 acres of parkland in the county town of Northampton. In general, patients are admitted to Wantage House, a reception unit in the grounds, which is equipped for the investigation and treatment of all forms of mental and nervous illness. In addition, there is accommodation mainly in private rooms, both in the main hospital and in various villas, for longer stay patients and geriatric patients.

villas, for longer stay patients and solutions patients.

The hospital's amenities include Gloucester House, which comprises an occupational therapy department, swimming-pool, a squash court and library, while in the grounds there are tennis courts, a nine-hole course, etc.

grounds there are tennis courts, a nine-hole golf course, etc.

Fees range from 25 guineas per week, and charges for treatment at St. Andrew's Hospital are allowable for benefit to British United Provident Association and Private Patients Plan subscribers.

Further particulars can be obtained from the Medical Director, St. Andrew's Hospital, Northampton (Tel.: Northampton 34554) who can be seen in consultation by appointment either at the hospital or at 55 Harley Street, London W.1.

Fight cancer with a will

When your advice is sought about bequests for worthwhile causes, please remember the vital work being done by the Imperial Cancer Research Fund. Founded on the initiative of the Royal Colleges of Physicians and Surgeons, I.C.R.F. is fighting all forms of cancer, including leukaemia, in its own laboratories. It has no official grants and is entirely supported by voluntary contributions.

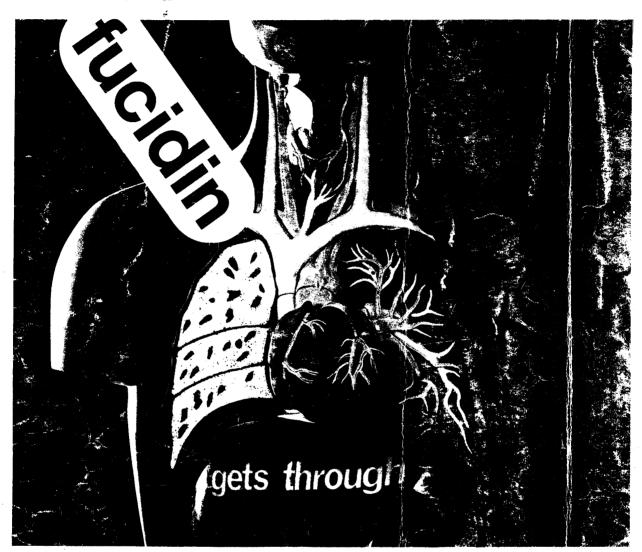

FORM OF WILL

I hereby bequeath the sum of.......pounds free of duty to the Imperial Cancer Research Fund, Lincoln's Inn Fields, London, W.C.2. for the purpose of scientific research, and I direct that the receipt of the Honorary Treasurer or Secretary shall be a good discharge for such legacy.

Please write for further information to:
The Honorary Treasurer, A. Dickson Wright, Esq., M.S., F.R.C.S.,
Imperial Cancer Research Fund (Dept. 101) Lincoln's Inn Fields, London, W.C.2.

IMPERIAL CANCER RESEARCH FUND

in staphylococcal septicaemia

powerful · bactericidal · antistaphylococcal

The potential severity of staphylococcal septicaemia demands prompt antibacterial therapy—often well before sensitivity reports become available. FUCIDIN is rapidly and easily absorbed, and gives serum levels which are bactericidal against almost all pathogenic staphylococcal strains; FUCIDIN exhibits remarkable ability to reach the nidus of infection despite poverty of blood supply or presence of pus. For early control of these dangerous infections FUCIDIN has proved a reliable and

economical choice—in over five years of clinical use. For full literature and prescribing information please write to the Medical Information Department.

fucidin

Capsules, 250 mg, sodium fusidate B.P., in bottles of 36 and 250; also as Paediatric Suspension equivalent to 35 mg. sodium fusidate per ml., in bottles of 60 ml.
