A simple case for Betnovate

Left: leg lesion in discoid eczema of nine months' duration treated unsuccessfully with hydrocortisone
Right: complete clearance after two weeks' treatment with Betnovate Ointment under occlusion

Betnovate, Betnovate-C and Betnovate-N

Presentation

Betnovate (0.1% betamethasone as 17-valerate)

Cream: 15, 30 and 100 gram tubes

Ointment: 15, 30 and 100 gram tubes

Lotion: 20 ml bottle

Scalp Application: 30 gram plastic squeeze bottle

Betnovate-C (Betnovate + 3% clioquinol)

Cream: 15, 30 and 100 gram tubes.

Ointment: 15, 30 and 100 gram tubes

Betnovate-N (Betnovate + 0.5% neomycin sulphate)

Cream: 15, 30 and 100 gram tubes

Ointment: 15, 30 and 100 gram tubes

Lotion: 20 ml bottle

Tulle*: tin of 10 pieces (4 in x 4 in)

Betnovate Rectal Ointment (0.05% betamethasone

17-valerate + 0.1% phenylephrine hydrochloride +

2.5% lignocaine hydrochloride)

20 gram tube

Betnovate Compound Suppositories (0.5 mg betamethasone 17-valerate + 2.0 mg phenylephrine hydrochloride + 40.0 mg lignocaine hydrochloride) box of 10 suppositories

*Now prescribable on the NHS except in Northern Ireland

Indications

All steroid-responsive dermatoses including psoriasis. Betnovate-N preparations should be used if bacterial infection is present or suspected. As an alternative, or when there is fungal infection, Betnovate-C preparations may be used.

Application

Ointment, cream, lotion and scalp application

Apply a small quantity once or twice daily

Rectal Ointment

Apply a small quantity two or three times daily

Compound suppositories

Insert a suppository night and morning

Tulle

Apply direct to the lesion and cover with an absorbent dressing if necessary

Adverse reactions

Betnovate preparations are usually tolerated well, but if signs of hypersensitivity appear, application should be stopped immediately. When used with occlusive dressings on extensive areas, or for prolonged periods, as with all topical steroids the possibility of systemic absorption should be considered. Absorption is more likely in infants and children and may occur even in the absence of occlusion. Prolonged corticosteroid therapy may cause local atrophy.

Latest news about PYOPEN

IN THE TREATMENT OF REFRACTORY GRAM-NEGATIVE INFECTIONS

25 patients with urinary tract infections - pyelonephritis and cystitis due to Pseudomonas pyocyanea and other Gram-negative organisms were reported in a recent paper in the Medizinische Klinik (1969), Vol. 64, No. 7 page 284.

ORGANISMS	NO. OF PATIENTS	NO. OF PATIENTS BACTERIOLOGICALLY CURED	NO. OF PATIENTS CLINICALLY CURED
Ps. pyocyanea	21	13	18
Ps. + E.coli	1	-	1
Ps. + Proteus	1	-	1
Ps. + Enterococci	2	2	2
	25	15	22

Clinical cure was obtained in 22 patients (88%), the urine becoming sterile in 15 (60%).

The author concludes:-

Pyopen (Carbenicillin) is a useful drug in the treatment of Gram-negative organisms. Especially in the urological field of infections caused by Ps. pyocyanea it appears to be very reliable and so far non-toxic.

It happens every autumn...

Royal Highland Gathering, Braemar September 6th. The great annual sporting event in which Scotsmen compete at traditional games and contests.

St. Leger, Doncaster September 10th. One of the five racing 'classics' and a highlight of the Autumn flat-racing calendar.

National Chrysanthemum Show, R H S Halls September 16th and 17th. The yearly Mecca of chrysanthemum enthusiasts: a lively and colourful display.

Autumn Antiques Fair, Town Hall, Chelsea September 17th-27th. A rare opportunity to admire the latest fashions on King's Road *and* some rather older fashions in furniture and bric-a-brac.

Coughs and respiratory congestion. A less welcome feature every Autumn, happens everywhere, throughout the season.

To many of your patients an attack of respiratory congestion and cough is one of Autumn's 'annual events'.

Benylin* Expectorant helps to relieve this respiratory discomfort while being pleasant to take and acceptable to children as well as adults. With a basic NHS cost of 2/6d. for 200 ml. small wonder that Benylin Expectorant is the most widely prescribed ethical linctus.

asthma & bronchitis

Full antispasmodic effect from
fractional dose of ephedrine

Tests show that 2-Diethylaminoethyl- α -phenylbutyrate Citrate has a more pronounced bronchodilatory effect than ephedrine. Three parts of 2-Diethylaminoethyl- α -phenylbutyrate Citrate producing the same effect as 5 parts of ephedrine. It acts more rapidly than ephedrine, reaches maximum effect somewhat later and falls away at a slightly slower rate. With a mixture of the substances the curve of bronchial dilatation showed that the effect produced was considerably greater than when double the quantity of each substance was administered separately. 4 mg OF THE MIXED SUBSTANCES (CONTAINING 2 mg OF EPHEDRINE) has the BRONCHODILATORY EFFECT OF 8 mg. EPHEDRINE. Whilst a full bronchodilatory effect is produced with this mixture, side-effects, such as nausea, restlessness, sweating, etc., due to over-dosage or idiosyncrasy to ephedrine are avoided.

ANTIBIOTICS AND THE INTESTINAL FLORA

Treatment with broad spectrum antibiotics suppresses the normal flora, which may be replaced by abnormal resistant organisms causing diarrhoea.

This change can be prevented or reversed by the implantation of *Lactobacillus acidophilus* which has been rendered antibiotic-resistant, and is thus able to multiply freely under these abnormal conditions. The products of growth of the organism are inimical to that of many other bacteria^{1,2} and thus contribute to its rapid preponderance over other species.

Oral treatment with antibiotic-resistant *L. acidophilus* in the form of ENPAC has been shown to eliminate *Candida* from the faeces of infants with antibiotic-induced diarrhoea, with relief of symptoms succeeded by rapid gain in weight³ and greatly to reduce the numbers of staphylococci in the faeces of patients treated with tetracyclines⁴.

Duphar laboratories concentrate all their resources and efforts on just four fields of medicine.

Gastroenterology, Obstetrics and Gynaecology, Cardiovascular and Respiratory Pathology are the areas in which Duphar, the UK associates of an international organisation, have chosen to deploy their resources. Duphar products are marketed in the knowledge that they are born of thorough investigation and exhaustive research. Since Duphar concentrate their efforts on a small range, the medical profession can be sure that any product released represents an advance in a specialised field.

Molecular roulette is not Duphar's game

Duphar research aims solely at the development of original molecular structures which represent therapeutic advances. Before we develop any product we must be assured that it will fill a definite gap in the therapeutic armamentarium. By adhering to this policy Duphar have succeeded in making their contributions to four carefully

selected fields of medicine—gastroenterology, obstetrics and gynaecology, cardiovascular and respiratory pathology. In these areas we have acquired depth of knowledge and expertise—and it is to these areas that we will continue to devote the major part of our resources.

SOLPRIN**

He sees no reason to change from Solprin because, like many doctors, he knows that Solprin still maintains its reputation as the most acceptable form of aspirin. He knows that salicylate therapy is still the first choice treatment for rheumatoid arthritis, and that the aspirin in Solprin is an extremely soluble form to minimise the risk of gastric irritation – a point of particular importance when high doses are used.

A recent report from a London teaching hospital demonstrated the anti-inflammatory effect of salicylate in high dosage for the treatment of rheumatoid arthritis, and comparisons were made with prednisone and paracetamol. Both prednisone and high doses of salicylate produced measurable reduction in joint size, but paracet-

amol did not do so. The authors state.

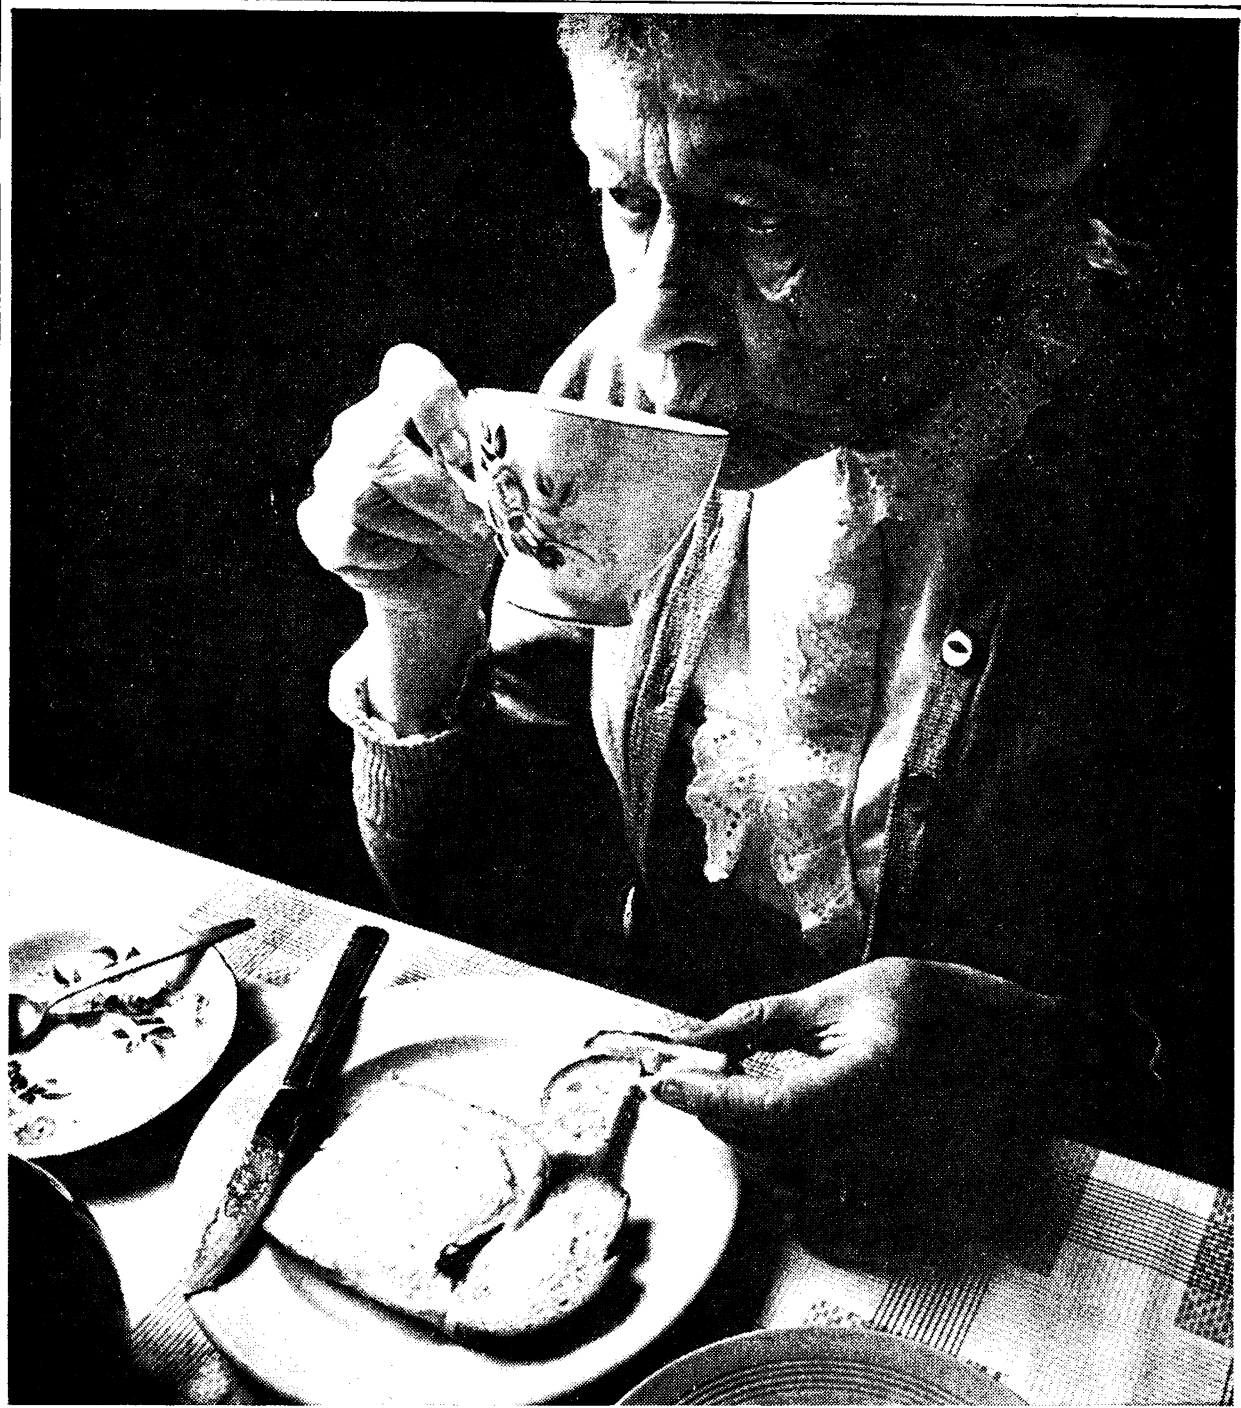

"It is suggested that high dosage of salicylate, unlike low dosage, has a clinically measurable anti-inflammatory effect. If suppression of inflammation is desirable in rheumatoid arthritis high dosage of salicylate is indicated..."

Sustanon makes a man a man again

in body and in mind

When gonadal activity is inadequate the young or middle-aged male may demonstrate diminished genital structure, and response, to the point of impotence. Understandably the repercussions reach far beyond the purely physical – often playing havoc with the patient's psyche, marriage and career.

Every physician knows how complex is diagnosis of the condition, with the patient frequently hiding the facts not only from his doctor but *from himself*. Even when the diagnosis is established, therapy is not straightforward and many factors must be considered. Nevertheless with Sustanon a clear, early and sustained response may occur at all levels, physical, mental, and emotional.

Sustanon is preferable to testosterone propionate as of course no single testosterone ester provides both lengthy activity and rapid onset of action. This Sustanon does. Its prolonged activity is such that only an occasional injection is needed to maintain the required therapeutic level.

Sustanon '100'

2 weeks' activity – contains 100mg testosterone per ml:

Testosterone Propionate B.P. 20mg
Testosterone Phenylpropionate B.P. 40mg
Testosterone Isocaproate 40mg

Sustanon '250'

4 weeks' activity – contains 250mg testosterone per ml:

Testosterone Propionate B.P. 30mg
Testosterone Phenylpropionate B.P. 60mg
Testosterone Isocaproate 60mg
Testosterone Decanoate 100mg

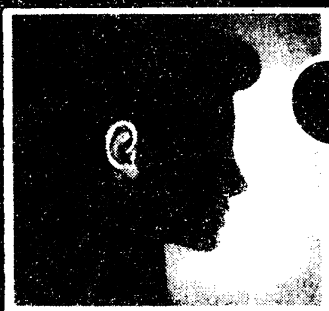

Packs: Boxes of 3 ampoules of 1 ml in either strength.
Single 1 ml Orgaject disposable syringes in either strength.
Contraindication: in males, carcinoma of the prostate.

The Dermal range of products

Over the last few years, Dermal Laboratories have developed, tested and introduced a number of successful aids to the treatment of skin diseases. These have all earned the confidence of Consultants, General Practitioners and Dispensing Chemists alike, because they know that the results of Dermal's constant wide ranging research into new treatments are only made available for clinical use after the strictest independent testing. The Dermal products currently available are illustrated below.

Psoriderm Cream. For subacute and chronic psoriasis including the hair bearing areas and flexures. Contains 8% special coal tar plus 0.4% lecithin, and is formulated as a vanishing cream designed for twice-daily application.

Psoriderm Bath Emulsion. A 40% tar treatment beneficial in acute as well as subacute and chronic psoriasis. Emulsified to enable non-staining tar to disperse evenly in the bath.

Exolan Cream. Milder form of Exolan Paste containing 1% Triacetoxanthracene for patients who prefer to use an invisible vanishing cream. Can be used on scalp and hairy regions of the body.

Psoriderm Scalp Lotion. A preliminary shampoo treatment for psoriasis of the scalp which removes excess grease and scale debris. It contains 2.5% of special coal tar.

Prehensol Cream. Treatment for detergent dermatitis of the hands. Contains zinc salicylate and lecithin to restore pH to mild acidity and replace natural skin grease removed by modern alkaline detergents.

Exolan Paste. Resolves psoriatic lesions in the same way as Dithranol, without burning and staining. Active constituent; 1.8.9 Triacetoxanthracene 3%. Can safely be applied at home by the patient. Healing is rapid, unlike steroids chances of swift relapse very low.

Callusolve. A new non-caustic treatment for plantar and other warts. Active constituent: Alkyl dimethyl benzyl ammonium halide dibromide, 25%. Can safely be applied by patient; especially suitable for removing multiple and mosaic warts.

THE NEW GENERAL PRACTICE

answers these and many other questions. The book contains 22 articles published in the *B.M.J.* in the last two years, many of them describing pioneering work in the field of general practice. In his Introduction to the book Lord Platt says "Those who have already reorganized and reformed their practices will read this book with interest as they will be able to compare their own ideas with those of others, sometimes learning, sometimes having the satisfaction of knowing better."

INDUSTRIAL APPOINTMENTS

Attention is drawn to the British Medical Association's statement of policy on the Remuneration of Industrial Medical Officers as approved by the Representative Body, which is available on request from the Secretary.

VISITING
PHYSICIANS

RANKS HOVIS McDOUGALL LIMITED require physicians with general medical and some occupational health experience for sessional appointments at the Headquarters of the Group's Occupational Health Service at Croydon.

Applicants should be between 30 and 40, have a sound knowledge of clinical medicine, a genuine interest in people and an appreciation of the value of health maintenance.

The physicians, who will work closely with the Chief Medical Officer in a modern and well-equipped Health Centre, will undertake medical and health screening examinations to advise management on the medical aspects of selection and job placement.

Sessions will be of 2½-3 hours' duration, and will be restricted to two days per week.

Remuneration will be related to qualifications and experience and based on B.M.A. recommendations.

Applications, quoting reference number 27/69, with details of age, qualifications, and experience, together with the names of two referees (one to be a professional colleague), should be addressed to the Chief Medical Officer,

Ranks Hovis McDougall Ltd.,

Pembroke House, 44 Wellesley Road, Croydon, Surrey, CR9 3PA.

(11082)

ASSISTANT
MEDICAL OFFICER

We invite applications for the post of Assistant Medical Officer, to be located in the Company's Industrial Health Unit in Nottingham. Candidates will be men or women under 35 years of age, who are interested in occupational health and who are training (or prepared to train) in this field with a view to a career in industry.

Duties will include the routine examination of new employees and of staff returning from sick absence; the treatment of injuries and minor illness; and the management and investigation of occupational disorders. The occupational groups for which the Health Unit is responsible include Chemical Plant Operators, Printers and Engineers, together with Warehouse, Transport and Office Staff.

Salary will be in accordance with the B.M.A. recommendations, as published in "The Doctor in Industry".

Application should be addressed to: The Chief Medical Officer, Industrial Health Unit, Boots Pure Drug Co., Limited, Station Street, Nottingham NG2 3AA, to arrive not later than September 27, 1969.

(11110)

Industrial
Medical Officer

An additional medical officer is required by Michelin to assist in expansion of the already well established occupational health service at the Company's U.K. headquarters at Stoke-on-Trent.

He will be responsible to the Head of the Factory Medical Department for the maintenance and development of the medical services at the Stoke-on-Trent factory and offices where a well equipped medical centre, shortly to be enlarged, caters for over 8,000 employees.

This post is likely to interest a practitioner within the 30-40 age range, who has either experience of or a direct interest in this

field of occupational medicine.

Remuneration will be at least commensurate with the BMA recommended scales for industrial medical officers. Assistance with housing and removal is available.

Those seeking further information or wishing to be considered for this vacancy should write to D. C. Jeffrey, Recruitment Manager, Michelin Tyre Co Ltd, Stoke-on-Trent, ST4 4EY quoting IMO as a reference and giving brief details of experience and qualifications.

IMPORTANT. Applicants should read the revised NOTICE at the top of page xxxiii

ADMINISTRATIVE**EAST ANGLIAN REGIONAL
HOSPITAL BOARD****PRINCIPAL ASSISTANT SENIOR
MEDICAL OFFICER POST**

concerned with the application and development of "on line" computing systems in the hospital environment.

As part of its development programme the Board is required to investigate the applicability of "on line" computing systems in the hospital environment and on the basis of its investigation to plan the installation of such systems in selected district hospital centres within the region.

The feasibility study is expected to occupy 4/5 years and will be undertaken by a multi-disciplinary regional computer development team, and the appointee to this new post will be a member of this team. Subsequently the team, in collaboration with local hospital group officer teams, will be responsible for the detailed planning leading to the installation of the systems in the chosen centres.

Whilst previous experience in medical administration will be an advantage this is not essential. The primary requirements looked for in prospective applicants should include all or some of the following:

- (1) a broadly based experience of clinical practice;
- (2) substantial experience in one clinical specialty, preferably up to the level of senior registrar;
- (3) experience in research methodology;
- (4) a sound appreciation of, and preferably experience of, systems analysis and the application of computer(s) to clinical practice;
- (5) an interest in and desire to participate in studies designed to identify some of the basic considerations which will influence patient care in the hospital setting.

It is thought that this novel appointment would be interesting and of value to a research minded doctor as an interlude before returning to his specialty of choice or to a doctor interested in pursuing a career in the medical computer field.

Whilst the duties of the post will be as indicated above, opportunity would be given by arrangement to cultivate interest in other aspects of the work of the medical department of the Board's headquarters which relate to computer and statistical techniques.

The salary scale is £3,060-£3,880 and the post is subject to the National Health Service (Superannuation) Regulations.

Applications should reach the Senior Administrative Medical Officer, East Anglian Regional Hospital Board, Union Lane, Chesterton, Cambridge CB4 1PU, by September 22, 1969. (2323)

**NORTH-WEST METROPOLITAN
REGIONAL HOSPITAL BOARD
TRAINING IN MEDICAL
ADMINISTRATION****MEDICAL OFFICER**

Applications are invited from registered medical practitioners for a course of training in medical administration with a view to a career in the National Health Service. Applicants should have had not less than three years' post-registration experience, corresponding roughly to the years of general professional training envisaged in the "Todd" Report. Subject to review at the end of two years the post would be tenable for four years, and the holder will be eligible during that time for leave with pay and fees to attend the two-year course in medical administration at the London School of Hygiene leading to the London M.Sc. degree.

The appointment will be in the grade of Medical Officer. Salary £2,280, age 29 or under, to £2,530, age 33 or over, then by £754 by £802-£2,990.

Application and further particulars from the Secretary, North-West Metropolitan Regional Hospital Board, 40 Eastbourne Terrace, W.2, quoting reference 61, returnable by October 3. (11036)

**NORTH-WEST METROPOLITAN
REGIONAL HOSPITAL BOARD**

ASSISTANT SENIOR MEDICAL OFFICER
Applications are invited from registered medical practitioners, male or female, for a post of Assistant Senior Medical Officer to the North-West Metropolitan Regional Hospital Board at a salary scale of £3,000 by £15(3) by £20(3)-£3,705.

He or she will assist the Senior Administrative Medical Officer in the planning and administration of the hospital and specialist services of the region and carry out such duties as are assigned. Some evidence of administrative ability inside or outside the hospital service is desirable, and recent experience in the National Health Service would be an advantage. Arrangements will be made for in-service training in medical administration. The appointment will be whole-time and subject to the approved Witley Council conditions.

Application forms and further particulars obtainable from the Secretary, North-West Metropolitan Regional Hospital Board, 40 Eastbourne Terrace, London W.2, quoting reference 62. Closing date for receipt of applications October 3. (11037)

**SHEFFIELD REGIONAL
HOSPITAL BOARD****MEDICAL CARE RESEARCH****APPOINTMENT OF
ASSISTANT
SENIOR MEDICAL
OFFICER**

A medical care research unit has been established in the Department of Preventive Medicine and Public Health (Professor J. Knowelden) of the University of Sheffield. The unit is supported by the Department of Health and Social Security and the Sheffield Regional Hospital Board. It will investigate a range of problems concerned with the provision of medical care, primarily, but not exclusively, concerned with the hospital service. The Board wish to appoint a medical graduate to their headquarters staff in the grade of Assistant Senior Medical Officer (current salary £3,000 by £15(3) by £20(3)-£3,705) and to second him to the Medical Care Research Unit for a period of three years in the first instance. It is essential that applicants should have an interest in the application of epidemiological methods; to the solution of the problems studied by the unit; experience of hospital or public health administration and a sound clinical background are desirable. Opportunities for the development of personal research will be provided.

Further information and application form (to be returned not later than September 22, 1969) from the Senior Administrative Medical Officer, Sheffield Regional Hospital Board, Fulwood House, Old Fulwood Road, Sheffield S10 3TH, quoting reference L.35473/1. (23197)

SERVICES

What's in the R.A.F. for a young doctor?

Interesting out-of-the-rut medicine

The typical R.A.F. station doctor is a G.P. — with probably a lot of experience in pediatrics! He also has important responsibilities in aviation medicine, public health and industrial health. He does much more preventive work than most civilian doctors are able to do. There are wide opportunities for hospital practice — 47% of R.A.F. doctors are now working in specialist departments.

The chance to travel

You could live and work abroad, in many different conditions and climates, treating not only R.A.F. personnel and their families, but local populations. Your gain in clinical experience would be marked.

**... a fair crack of the whip
for the Doctor's wife**

A Doctor's wife is a Doctor's *wife*. She should not also have to be his telephone-answerer, appointment-maker, dispenser and general auxiliary! In the R.A.F., these things are done by professionals: the typical R.A.F. doctor, on a typical R.A.F. station, works in a fully equipped Medical Centre, which he shares with another doctor; between them they would probably have about 12 staff—secretarial as well as nursing.

£3,000 (tax free) after 5 years

In the first case, you would probably join the R.A.F. for 5 years. If you decide to go back to civil life at the end of this time, you would take with you a tax-free honorarium of £3,000. (You might of course wish to stay on: you can apply after the first year.) Now for income: suppose you are a married man of 25, fully registered. If you were in the R.A.F., your income would be at least £2,522 p.a. The R.A.F. would probably provide you with a house, furnished right down to the last coffee-cup; for this, the rent would be £16 a month.

To find out more please write, giving your age, nationality, qualifications and date of full registration with General Medical Council, to The Directorate General of Medical Services, RAF (MA1 (RAF)), Ministry of Defence (724QS1), 1-6 Tavistock Square, London W.C.1.

Sir Charles Gairdner Hospital
PERTH—WESTERN AUSTRALIA

REGISTRAR in
Geriatric Medicine

Applications are called for the post of Senior Registrar or Registrar in Geriatric Medicine at the above hospital for 1970.

Preference will be given to applicants who either hold, or who are working towards a higher qualification in medicine.

Sir Charles Gairdner Hospital is a general hospital of 390 beds, associated with the Medical School of Western Australia, and is at present undergoing an expansion programme to become a major medical centre. This includes the building of a major geriatric unit for restorative and permanent care, due to completion in 1971. In the interim the hospital will support an acute assessment area and the applicant will also work under the direction of the physician in geriatric medicine at the restorative care section at Mount Henry Hospital.

Salary within the range \$A5,332 to \$A5,693 to \$A6,470 to \$A7,034 to \$A7,331 according to qualifications and experience—rates at present under review.

The successful applicant may live out, but if desired, single quarters are available for which a charge at the rate of \$A656 per annum is made.

Some assistance with fares and moving expenses may be available.

Applications, addressed to the Medical Superintendent, enclosing a recent photograph of the applicant, the names of three referees, full personal details and particulars of qualifications and experience, close on September 30, 1969.

A. F. T. THOMSON,
ADMINISTRATOR.

ALFRED HOSPITAL
Commercial Road, Prahran, Victoria
Australia

Applications are invited for the position of **DIRECTOR OF BIOCHEMISTRY** at Alfred Hospital, Melbourne. The vacancy occurs because the present Director is taking up a senior University appointment in the United Kingdom. It would be desirable that the successful applicant be available to commence duties during February 1970.

Applicants should be legally qualified medical practitioners with extensive training in clinical biochemistry and a sound knowledge of biochemical investigations in the problems of general medicine.

The biochemistry department is extensively automated, with approximately 80% of the total tests being done by auto-analysers. Results from the auto-analysers are interpreted by a computer. Experience with laboratory electronic data-processing would be desirable although is not essential.

Commencing salary, depending on qualifications and experience, will be within the range \$10,080 to \$11,822 (Aust.).

Alfred Hospital is an acute general hospital of 331 beds, and is affiliated with Monash University for undergraduate medical teaching. Monash University has established, on the hospital site, departments of medicine, surgery, social and preventive medicine, pathology and microbiology.

Work is about to commence on a new hospital block which will include a new biochemistry laboratory of approximately 9,800 sq. ft. and accommodation for 600 in-patients.

Application forms and further details may be obtained from the undersigned. Applications close on November 3, 1969.—G. B. Canham, Manager. (H.9808)

**MEDICAL
OFFICERS**

Good short term
contracts
with Anglo American
in Zambia

The Anglo American Corporation Group is the largest mining finance organisation in the world. In Zambia the Group mines copper and lead-zinc; as the world's fourth largest producer of copper, Zambia has an output that represents 90% of the country's exports. Well over half the copper is mined by Anglo American. To give you an outline picture of the well-equipped medical facilities provided at four centres by the Group, take Nchanga mine at Chingola: there are two hospitals, one contributory and fee-paying, the other non-fee-paying. Both have diagnostic, radiological and laboratory services. There are nine medical officers including a Chief Medical Officer, a Specialist Surgeon and Physician, and a visiting Radiologist. Zambia Broken Hill Development Company at Kabwe operates three clinics for employees and their dependants, and has facilities at the Government hospital for the hospitalisation of mine patients under the care of the Mine Medical Officers who number three, including the Chief Medical Officer. Duties are of a general nature, including hospital care of patients and domiciliary visiting; obstetrics, anaesthetics and surgery.

VACANCIES

From time to time vacancies arise for Medical Officers on a contract period

of one year. Typical minimum salaries would not be less than K6,400 per annum (equivalent to £3,733 sterling). Other benefits include Christmas Bonus, terminal gratuity, educational allowances, partly furnished accommodation at moderate rentals, and free return passages to and from Zambia. There are generous leave conditions. A car allowance is paid and an initial interest free loan is also available for the purchase of a car.

Short-term locums

There are occasional locum appointments for minimum periods of 2 months. Terms and conditions differ from the more permanent positions but they are no less attractive. The sunny climate of Zambia, the full social life, and the many sports and cultural activities one can take up make for a most enjoyable time. Swimming, tennis, sailing; amateur dramatics; these are just a few ways in which you can live a really satisfying off-duty life. Posts are usually filled for an initial contract period of three years.

WEST COAST HOSPITAL BOARD

SURGICAL REGISTRAR

Grey Hospital, Greymouth, New Zealand Applications are invited from suitably qualified medical practitioners for the position of Surgical Registrar—Senior or Junior. The post of Registrar in General Surgery is recognized for training by the Royal Australasian College of Surgeons.

Registrars with higher qualifications can expect a considerable degree of independent clinical responsibility if suitably experienced. Both single and married residential accommodation is available.

Substantial assistance towards travelling expenses to New Zealand.

Salaries in accordance with rates payable under Hospital Employment (Medical Officers) Regulations, the current salary range being \$4,200-\$5,550 (maximum of \$5,185 under higher qualification) plus compensatory payments where appropriate. Applications should be sent to the Secretary, West Coast Hospital Board, Grey Hospital, Greymouth, New Zealand. (1121)

WEST COAST HOSPITAL BOARD

SPECIALIST IN OBSTETRICS AND GYNAECOLOGY

A new post has been created by the West Coast Hospital Board and applications are invited from specialists in this field who are qualified as such under the Hospital Employment Regulations, i.e., have been qualified eight years, hold an appropriate higher qualification and have had at least five years' experience in this specialty. Essentially the appointee will take charge of, and supervise, the Board's obstetric and gynaecological services throughout the whole West Coast. He will be resident in Greymouth and it is the Board's policy that major gynaecological surgery be done at the hospital by the appointee. With the impending departure of a practitioner with a large obstetric practice, opportunity to enter this field on a specialist basis is good. The appointee would be required to administer the maternity unit at Greymouth and supervise and advise on the medical and nursing staffs of the Board's other obstetric units, which hospitals he would visit from time to time, for consulting and advisory purposes in both obstetrics and gynaecology, undertaking such lesser operative work as he thought proper. Salary scale \$6,090 to \$8,100, plus special incentive allowance for Hospital Medical Officers employed on the West Coast ranging from \$300 to \$400. This is a new post and the Board is willing to appoint a suitable applicant on either a full-time or 9/10 basis. A schedule of terms and conditions of appointment, etc., are available from the Superintendent-in-Chief, West Coast Hospital Board, P.O. Box 387, Greymouth, New Zealand. (11251)

WEST COAST HOSPITAL BOARD

WHOLE-TIME ANAESTHETIST (Two)

Grey Hospital, Greymouth, New Zealand Applications are invited for the above positions from suitable qualified medical officers registrable in New Zealand.

There are two vacancies for the above posts based at Grey Hospital. The positions are of specialist status and applicants should have been qualified for a minimum period of eight years, have had five years' experience in the specialty and possess an appropriate higher qualification.

Salary and conditions will be in accordance with the Hospital Employment (Medical Officers) Regulations in the scale \$6,090 to \$8,100, plus special incentive allowance for hospital medical officers employed on the West Coast ranging from \$300 to \$400. The commencing rate will be determined by the Director-General of Health, having regard to qualifications and previous experience.

Housing may be available and can be the subject of negotiation with applicants. The anaesthetic, resuscitation and allied services for the whole region are to be re-organized, co-ordinated and improved.

The scheme is dependent upon the appointment of two full-time Specialists who will work in close conjunction and share responsibility by agreement for routine list surgery of three hospitals, for some emergency work at Grey Hospital, and for the organization and maintenance of first aid resuscitation and emergency respiratory care and parenteral therapy procedures (in collaboration with local specialists and technologists and an advisory haematology group for the whole region). They may also be required to train part-time visiting medical staff as relief anaesthetists for all hospitals.

Conditions of appointment and further information are available from the Superintendent-in-Chief, West Coast Hospital Board, P.O. Box 387, Greymouth, New Zealand, to whom applications should be addressed. (11252)

WESTERN CANADIAN CITY INVITES applications from anaesthetists, obstetricians and gynaecologists, paediatricians, medical specialist willing to do some general practice. State age, training and qualifications.—Box OV.4356, B.M.J.

UNIVERSITY HOSPITAL OF THE WEST INDIES

REGISTRARS IN MEDICINE

Applications are invited from medical practitioners for the posts of Registrar in Medicine at the University Teaching Hospital of 484 beds.

The appointment will be for one year in the first instance subject to renewal, and salary will be paid in the scale—£1,650-£1,800 per annum. Point of entry in the scale will depend on qualifications and experience.

Gratuity: Where an officer on contract is not superannuated or superannuable, such officer will be eligible for a gratuity equivalent to 10% of salary, in respect of every three months of satisfactorily completed service with the hospital. Gratuity is payable at the end of service.

Accommodation: The board provides furnished accommodation at a rental of the equivalent of 10% of salary (up to a maximum rental of £180 per annum) in addition to a flat charge of £3 per month for furniture plus £3 per month for electricity. However, payment of a house allowance at the rate of £250 per annum for married officers or £200 per annum for unmarried officers will be made only if hospital accommodation is not available.

Passages to and from the country of recruitment is normally provided for one person only in the case of one year appointment.

Further information may be obtained from the Hospital Manager and Secretary, University Hospital of the West Indies, Mona, Jamaica, to whom applications stating age, marital status, nationality, details of qualifications and experience, together with the names and addresses of three referees, should be sent as early as possible. The successful applicants will be expected to assume duties on January 1, 1970. (H.9804)
