

Neo-NaClex-K

for easier management of all grades of hypertension

Effective in all grades of hypertension

In mild hypertension, bendrofluazide – the white layer of Neo-NaClex-K Tablets – lowers the blood pressure by an average of 10 to 15 mm Hg. In moderate or severe hypertension, Neo-NaClex-K may be given in conjunction with other more potent drugs to enable the dosage and side effects of the latter to be substantially reduced.

Doubly economical
Neo-NaClex-K economically combines 2.5 mg bendrofluazide with a potassium supplement of 630 mg KCl in one tablet. This, together with once-daily dosage, makes therapy easier for the hypertensive patient.

High level of safety

The antihypertensive effect of Neo-NaClex-K is smooth and sustained – side effects are uncommon and postural hypotension does not normally occur.

Adequate potassium supplement
In addition to bendrofluazide, each Neo-NaClex-K tablet contains a potassium supplement that is normally adequate to compensate for any potassium loss that may occur with prolonged thiazide treatment. Embedded in protective material, the potassium is released very slowly so that no great concentration is reached at any one time. The possibility of causing gastric irritation or small bowel ulceration is therefore minimised.

Once-daily dosage
The usual dosage is one to three tablets once daily.

For your detailed reading
Neo-NaClex-K

Description

Neo-NaClex-K is a film-coated two-layer tablet containing the thiazide drug bendrofluazide in the white layer and potassium chloride in the pink layer. The potassium chloride crystals are embedded in protective material which is designed to release potassium chloride gradually, so minimising gastro-intestinal irritation. Potassium taken in this form is well absorbed.

Indications

Essential hypertension. Neo-NaClex-K may be used alone, or in conjunction with other antihypertensive drugs, when either the dosage of the latter can be reduced, or full doses can be used to control resistant cases which do not respond satisfactorily to either drug alone. When Neo-NaClex-K is used alone, the fall in blood pressure may range from 20 to 40 mm Hg systolic and from 10 to 30 mm diastolic.

Administration and dosage

The usual dosage of bendrofluazide is 5 to 7.5 mg daily, but a few patients need only 2.5 mg, while others need 10 mg. Larger doses do not give a correspondingly greater therapeutic effect. When Neo-NaClex-K is used as a supplementary drug, the dosage of the other antihypertensive drug is normally gradually reduced as the Neo-NaClex-K takes effect.

Side effects and precautions

Neo-NaClex-K is a relatively safe drug and side effects of treatment are uncommon. Mild anorexia or indigestion is rare and can be avoided or reduced by taking the dose during or immediately after a meal. Symptoms and signs which might indicate ulceration or obstruction of the small bowel in patients taking tablets or capsules containing potassium salts are indications for stopping treatment with such preparations immediately. These complications are usually associated with enteric coated preparations, and are unlikely to occur with Neo-NaClex-K, which is designed to release potassium chloride slowly.

Skin reactions have been reported in a few patients and blood dyscrasias have occurred rarely. Diabetes mellitus with glycosuria, and raised serum uric acid levels (with or without gout), may occur in some patients, especially in those who are susceptible to these disorders.

Contra-indication

Renal insufficiency complicated by hyperkalaemia.

Presentation

Neo-NaClex-K Tablets each contain 2.5 mg bendrofluazide and 630 mg potassium chloride, providing 330 mg elemental potassium (8.4 mEq) bottles of 25, 100 and 500 tablets

An aid to oral hygiene

Maintenance of oral hygiene during the post-operative period, especially among geriatric patients, is obviously essential. But at the same time this can prove to be somewhat time-consuming for the nursing staff.

However, recent experience in a London hospital has shown that the patient can help to provide his own nursing care, with the minimum of effort.

This experience covers patients who are fed intravenously and post-operative cases who find normal eating and drinking difficult. These patients often exhibit signs of mouth infection very quickly, and treatment for this can often cause considerable discomfort.

A more pleasant treatment is possible in many cases, for it has been found that giving the patient chewing gum promotes salivary gland activity. Patients are encouraged to chew gum at two-hourly periods, and this treatment frequently allays the symptoms and produces a considerable improvement in the condition of the tongue and mucosa. Quite striking results have been noted after carrying out this treatment for a 24-hour period.

With five days of Norgesic, next week could be worked, not wasted

In just five days, the patient with a painful muscular condition could be back at work or well on the way—with *Norgesic*. Of 251 patients given *Norgesic*, nearly nine out of every ten recovered or improved in five days¹. Six days was the average treatment time when uniformly good or fair relief of pain was gained by nine-tenths of 478 patients given *Norgesic*².

Norgesic gives the patient the chance of rapid and reliable relief of pain—and an early return to normal work.

Each tablet contains Orphenadrine Citrate B.P. 35 mg. and Paracetamol B.P. 450 mg. Dosage is two tablets three times daily. **Side effects:** within the recommended dosage, undesirable side-effects are uncommon. Dry mouth, nausea, blurring of vision, dizziness, restlessness or drowsiness may however occur in some patients susceptible to the parasympatholytic action of orphenadrine. These symptoms disappear rapidly following reduction of dosage or withdrawal of treatment. **Contra-indications:** to *Norgesic* result from the parasympatholytic action of orphenadrine. *Norgesic* should not be given to patients with glaucoma, urinary retention (e.g. in prostatic hypertrophy or bladder neck obstruction) or myasthenia gravis. It should be used with caution in patients with tachycardia.

Norgesic contains two agents acting in different but complementary ways. Orphenadrine citrate releases muscles from painful and incapacitating stiffness. Paracetamol relieves the pain of local tissue damage. By relieving both pain and muscle spasm *Norgesic* quickly restores the pain-free movement that plays a major part in speeding recovery, overcomes the limitations of simple analgesics, and spares the patient wasted days of immobility and needless pain.

Basic NHS prices: 100 tablets 14/4; 500 tablets 70/-. *Norgesic* is a registered trade mark.

Cedilanid is quickly eliminated from the body and the range between therapeutic and toxic doses is wider than that of most other digitalis glycosides¹. The incident recreated here is taken from an actual report of the results achieved with Brufen. Many such reports about Brufen have been received, and provide convincing evidence of the very real benefits which this highly effective antirheumatic agent can bring to the arthritic. To those restricted by an arthritic condition, Brufen means the freedom of reduced stiffness,

improved joint flexion and an extended range of pain-free movement. There is also a remarkable freedom from adverse effects, and Brufen is so well tolerated by the gastro-intestinal tract that the first dose of each day can be taken on an empty stomach, as soon as the patient is awake.

Prevention is better than migraine

Migraine is one of the most disabling causes of cancelled appointments, ruined occasions and disruption of the daily routine. Now you can prescribe a more normal pattern of living for your migraine patient, with the new tablet form of Dihydroergotamine from Sandoz.

The hydrogenation of ergotamine to dihydroergotamine retains the vasoconstrictor action on distended extracranial arteries but the uterotonic and pressor actions are largely abolished. Side effects are greatly reduced and there has been no evidence of ergotism. This reduction in toxicity makes dihydroergotamine suitable for prophylactic use in migraine.

Hitherto, the routine prophylactic use of dihydroergotamine has been impeded by the absence of a convenient oral dosage form. Sandoz now make available Dihydroergotamine Tablets, each containing 1 mg. dihydroergotamine mesylate (860 mcg. dihydroergotamine base). The ampoules and oral solution of dihydroergotamine continue to be available.

Verton

Rationale

Verton is a new kind of oral contraceptive containing a progestogen (chlormadinone acetate).

It provides contraception primarily by thickening the cervical mucus and thus preventing the entry of spermatozoa into the cervical canal. Contraception is enhanced because minor alterations in the endometrium make nidation of any fertilised ovum more difficult, and because ovulation is occasionally inhibited.

Indications

Verton is an oral contraceptive particularly suited to those women who experience side-effects with the conventional oestrogen-progestogen combinations, e.g. nausea, weight-gain, oedema, headaches and depression.

Since it does not inhibit lactation, it is particularly suitable for use during the post-partum period, for those who wish to breast-feed their babies.

It is useful for all those who are unreliable at taking their tablets because of the simplicity of everyday medication.

Side-effects

Apart from some irregularity of cycles, other side-effects with Verton are uncommon.

Nausea, abdominal discomfort, headache and weight changes are seldom recorded.

Laboratory studies suggest there is no effect on blood-clotting as there is with other oral contraceptives, but it is too early to suggest that this kind of oral contraceptive is completely safe in this regard. There appears to be no long term effect on the endometrium even after three years administration.

Further, normal pregnancies occur after discontinuing Verton.

Contra-indications

Although so far it does not appear to have any effect on blood-clotting factors, Verton should not be used in women with a history of thrombosis.

It is inadvisable to give Verton to women with liver dysfunction, although it has no effect on liver function in normal women.

Directions for use

Please see comprehensive literature.

Non modo plus Alphosyl psoriasis curiae praescribitur quam quidquid aliud medicamentum... Sed ecce Alphosyl capillare!

It's a fact. Alphosyl is the most widely prescribed product used specifically for the treatment of psoriasis.

Alphosyl Lotion, Alphosyl Cream, Alphosyl Shampoo.

The Cream and the Shampoo are recent additions. Alphosyl Cream is particularly effective in the intertriginous areas. Even in the most resistant cases.

The Shampoo removes scales

from the scalp preparing the head for treatment with the Lotion.

Alphosyl Therapy (Lotion, Cream and Shampoo) can be adjusted to suit the patient's individual needs... or preferences.

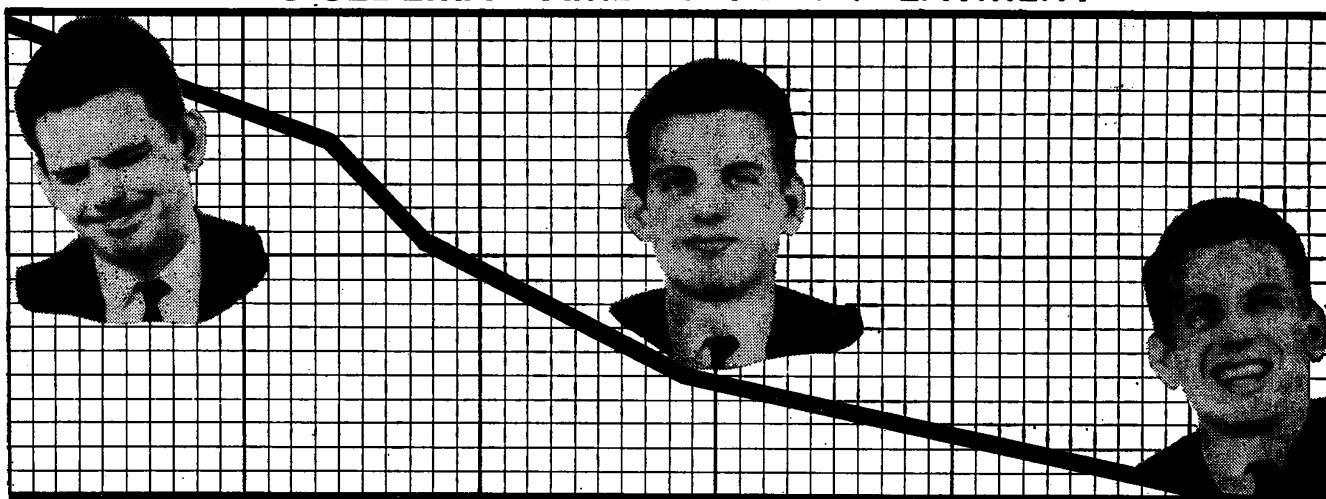

Alphosyl is available as a 5% refined alcoholic extract of coal tar and allantoin (2%) in a Cream and Lotion. Alphosyl Shampoo is a unique combination of coal tar extract (5%) and hexachlorophene (1%).

■ Strict dieting unnecessary ■ Assists healing

formula Prepared Liquorice Juice. 300 mg.

Bismuth Subnitrate 350 mg. Magnesium Carbonate 400 mg.
Calcium Carbonate 200 mg. Rhamnus Frangula Cortex 25 mg

Dose 2 tablets 3 times daily after meals.

Packing Containers of 60 & 150 tablets.

Professional samples and literature on request.

Continuing work on liquorice stresses its growing importance in the treatment of peptic ulcer.

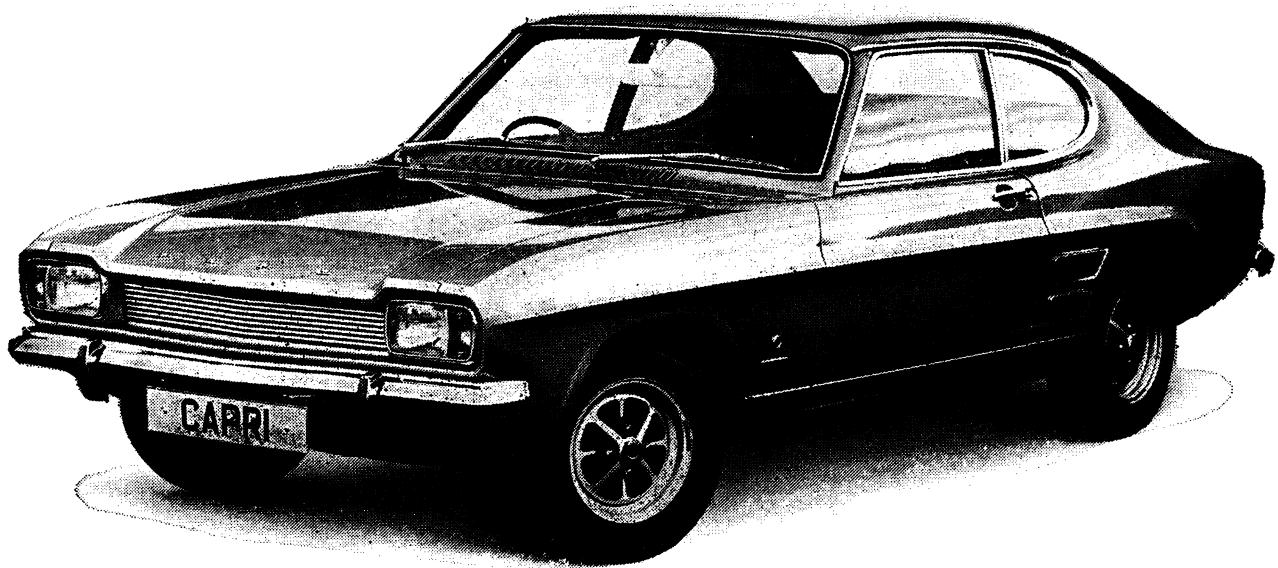

Untreated liquorice is known to produce undesirable side effects. In Rabro tablets the liquorice has been modified to overcome this. The fact that treatment is effective without the patient being confined to bed makes it the prescription of choice.

We'll help you feel at home abroad.

We have a couple of helpful schemes for people who want to take a car abroad.

If you're about to leave Britain you can take a 'tax-free' Ford with you. And, before you go, you can run it in this country for up to 6 months. So with this in mind, we rustled up our personal Export Scheme.

But if you're coming home temporarily, you can also buy a Ford free of purchase tax. Provided you've been away at least a year. And

you return abroad again within 12 months. In this case use our Visit Europe Scheme.

Both schemes mean that Ford's personal service doesn't stop at Dover. We'll arrange to ship your car anywhere in the world. And wherever you go, you'll find a Ford service depot. But if you do get stuck, we'll fly a spare part out specially.

So, although you're abroad, it won't seem all that far from home.

For Information about the Ford Visit Europe or Personal Export Schemes, contact your local Ford dealer. Or write to the Showroom Manager, Ford Motor Company Ltd., 88 Regent Street, London W1.

PRACTICES

(Executive Councils)

For vacancies (except those in Scotland) apply on Form E.C.16A, obtainable from the Executive Council. Mark envelopes "Vacancy."

BOURNEMOUTH (NORTHBORNE)

Intermediate area. Death vacancy, male. List approximately 2,000. Bournemouth area. Surgery premises available.

Applications on form E.C.16A must be received by Tuesday September 30, 1969 by the Clerk, Bournemouth Executive Council, 469 Christchurch Road, Boscombe, Bournemouth. (H.9866)

DURHAM COUNTY EXECUTIVE COUNCIL

(NATIONAL HEALTH SERVICE)

PRACTICE VACANCY—JARROW CO. DURHAM

Applications are invited for a single-handed practice vacancy in Jarrow, Co. Durham. The practice is situated mainly in Jarrow which is classified as an "Open" area. The total number of patients involved is 1,950 but it is understood that a husband and wife partnership in the area wish to reduce their joint list sizes quite considerably during the next few months. It is also understood that surgery accommodation will be available for purchase by the successful applicant. It should be realized by intending applicants that Jarrow 1969, owing to extensive re-development, has a very different environment from that appertaining to the Jarrow of the 1930's. Further details and application form E.C.16A may be obtained from the undersigned. Closing date for applications will be October 4, 1969, and the successful doctor will be expected to take up the practice as soon as possible. Applications should be addressed to the Clerk, Durham County Executive Council, Green Lane, Old Elvet, Durham City. (Telephone: Durham 2403.) (H.9821)

WOLVERHAMPTON EXECUTIVE COUNCIL

Applications are invited for a vacancy (Gurham) due to resignation on December 31, 1969. List approximately 2,600.

House and surgery premises may be available for purchase.

The area is now designated and the designated area allowance will be payable from February 18, 1972.

Application forms (E.C.16A) and further information may be obtained from the Clerk, Wolverhampton Executive Council, St. John's House, St. John's Square, Wolverhampton, to whom completed applications should be submitted by September 30, 1969. (H.9874)

NATIONAL HEALTH SERVICE : FIFE EXECUTIVE COUNCIL

MEDICAL PRACTICE VACANCY

THORNTON BY KIRKCALDY

Applications are invited for a single-handed vacancy arising on December 1, 1969, due to resignation. The list is about 2,150, there is little miliege, and the nearest practice will co-operate in off-duty rotas. A house can be made available in the adjacent new town of Glenrothes, and rented surgery accommodation is available.

Additional information and application forms may be obtained from the undersigned, with whom applications must be lodged by September 30, 1969.

133 Dunnikier Road,
Kirkcaldy.

J. R. Abel,
CLERK OF COUNCIL
(11378)

DURHAM COUNTY EXECUTIVE COUNCIL

(NATIONAL HEALTH SERVICE)

PRACTICE VACANCY—SHOTTON CO. DURHAM

Applications are invited for a single-handed practice vacancy. The practice is situated mainly in an Urban District which has been classified as "Designated" for over three years and the addition to the basic practice allowance is therefore payable. List as at July 1, 1969—2,578 all prescribing. Residential and surgery accommodation is not immediately available but the possibility of this being provided by the Easington Rural District Council is currently being explored. Branch surgery facilities are also available on a rental basis at the Peterlee Health Centre. The successful applicant will be required to take over as soon as possible. The closing date for the receipt of applications will be October 4, 1969. Further details and application form E.C.16A may be obtained by writing to the Clerk, Durham County Executive Council, Green Lane, Old Elvet, Durham. (Telephone: Durham 2403.) (H.9822)

RE-ADVERTISED PRACTICE VACANCY

WEST RIDING EXECUTIVE COUNCIL, MALTBY, NEAR ROTHERHAM

Applications are invited from doctors interested in starting an entirely new practice at Maltby, which is a "Designated" area. Surgery accommodation will be available on rental in the Local Health Authority Clinic and the Local Council will make residential accommodation available on rental, if required. Local authority staff attachments, week-end rota in operation, pathology and x-ray services readily accessible. Local G.P. co-operate in maternity unit. New District Hospital at Rotherham in planning stage. Teaching hospital at Sheffield. Pleasant surrounding rural area. Initial practice allowance payable to a doctor now to area, for a period of four years commencing at £1,880 for the first year and at a reducing rate during following three years, subject to successful applicant having been in general practice for a total period of not less than four years in the United Kingdom. Applications on Form E.C.16A (obtainable from the undersigned) should be submitted to "B. England, Clerk, West Riding Executive Council, 5 St. John's North, Wakefield, by not later than Friday, October 3, 1969. (H.9790)

RESEARCH FELLOWSHIPS IN OTOLARYNGOLOGY The Department of Otolaryngology (Chairman: Professor D. P. Bryce), University of Toronto, Canada, offers two Research Fellowships for the study of problems related to immunity in human malignant cells. The purpose of this study is to attempt to identify the antibodies to malignant cells in man and to assess the beneficial effects of specific and non-specific immunization in the management of patients with cancer. Most of the work will be carried out in the laboratory, with a team already working on this subject, but some clinical experience could also be gained, if desired. Candidates should preferably be either pathologists with the M.C.PATH., or physicians or members of the Royal College of Physicians, but a higher qualification is not essential. The work might form an acceptable basis for an M.D. or Ph.D. thesis. Starting date as soon as possible after November 1. Salary in region of £2,500 per annum. F.S.S.U. Apply with names of two references and full particulars, to the Secretary, 34 Summer Place, S.W.1, quoting ref. 300/G/42. (11376)

RESEARCH FELLOWSHIPS IN OTOLARYNGOLOGY

The Department of Otolaryngology (Chairman: Professor D. P. Bryce), University of Toronto, Canada, offers two Research Fellowships for the study of problems related to laryngeal and pharyngeal cancer and reconstructive head and neck surgery. These Fellowships are tenable for one year as from July 1, 1970. Candidates should be of middle/senior registrar grade and have passed a Final Fellowship examination.

Salary is dependent upon qualifications and experience. Apply in writing, naming three referees, to Dr. M. Fredrickson, D.F.C.S., F.A.C.S., Associate Professor, Medical Sciences Building, 1 King's College Circle, University of Toronto, Department of Otolaryngology, Room 7310, Toronto 5, Ontario, Canada.

MEDICAL ENGINEERING RESEARCH

Deputy Project Leader

Our work is at present centred on organ preservation for spare parts surgery, and includes a range of medical engineering topics amongst which new ones are constantly under consideration.

We are looking for a medical graduate or physiologist with creative and inventive ability. He will probably be in his late twenties or early thirties and will have held a research appointment. Experience in project or bio-engineering would be an asset.

The appointment—deputy to the Head of the Medical Projects Group—is a senior one with good career prospects.

We offer excellent conditions of work, attractive salary, and worthwhile fringe benefits.

Applications will be treated in strict confidence and should be addressed to the Controller of Research, Vickers Limited, Vickers Research Establishment, Sunninghill, Ascot, Berks.

The British Nutrition Foundation

invites applications for the post of

DIRECTOR-GENERAL

to succeed the late Dr. Alastair Frazer, C.B.E., D.Sc., M.D., F.R.C.P., whose untimely death has caused the vacancy.

The Foundation, which was established in 1967, is financed by the Food Industry. It is a completely independent organisation and its main activities, not necessarily in order of importance, are research, education and information in the field of nutrition. It supports research projects in the Universities and appropriate research institutes. The Foundation also keeps abreast of all developments in the nutritional and related fields through the literature and by direct contact with the laboratories concerned and with the Government research bodies.

The Foundation endeavours to keep the general public enlightened on the importance and progress of nutritional science and how it affects their health and well being.

The Director-General should not only be eminent in medicine or science, but should have that sound judgement and personality necessary to cope with the different functions of the Foundation; he will be encouraged to use his own initiative in developing the scope of the Foundation. Desirably, the upper age limit should be in the range 50-55. The salary will be negotiated at around £12,500 but this could be exceeded for an exceptionally well qualified candidate.

Applications, which will be dealt with in strict confidence, should give full relevant details of career and qualifications, and be marked for the personal attention of:

Mr. Joseph Rank, Chairman of the Council, The British Nutrition Foundation Limited, Alembic House, 93 Albert Embankment, London, S.E.1.

When you prescribe elastic stockings

Scholl make sure the patient wears them

Scholl know as well as you do just how much women hate the idea of elastic hosiery. And that though they'll often take the prescription, they don't always wear the stockings.

So Scholl make their elastic hosiery attractive by making the stockings as un-detectable as possible. They conform to all the specifications of the Drug Tariff and they give the patient all the support and comfort you want her to have. But they look nicer than ordinary elastic stockings. Feel lighter. So that your patient doesn't feel embarrassed by them. And instead of leaving them in the drawer, she wears them.

Scholl 'Soft Grip'

for conditions requiring 'Elastic Yarn Standard Weight'.

Worn *under* normal sheer nylons, Soft Grip are almost invisible. They are made in double-expansion mesh with two-way elasticity to provide firm, even support *around* the leg with plenty of comfortable 'give' lengthwise.

Scholl 'Nylastik'

for cases needing 'Lightweight Elastic Yarn Stockings'.

Nylastik are worn instead of nylons, and, on the leg, appear almost indistinguishable from an ordinary 30 denier stretch stocking.

WEST COAST HOSPITAL BOARD
SPECIALIST IN OBSTETRICS AND GYNAECOLOGY
A new post has been created by the West Coast Hospital Board and applications are invited from specialists in the field who qualify as such under the Hospital Employment Regulations, i.e., have been qualified eight years, hold an appropriate higher qualification and have had at least five years' experience in this specialty. Essentially the appointee will take charge of, and supervise, the Board's obstetric and gynaecological services throughout the whole West Coast. He will be resident in Greymouth and it is the Board's policy that major gynaecological surgery be done at this hospital by the appointee. With one impending departure of a practitioner with a large obstetric practice, opportunity to enter this field on a specialist basis is good. The appointee would be required to administer the maternity unit at Greymouth, and supervise, guide and advise the medical and nursing staffs of the Board's other obstetric units, which hospitals he would visit from time to time, for consulting and advisory purposes in both obstetrics and gynaecology, undertaking such lesser operative work as he should proper. Salary scale \$6,090 to \$8,100 plus special incentive allowance for Hospital Medical Officers, commensurate on the West Coast ranging from \$300 to \$400.

This is a new post and the Board is willing to appoint a suitable applicant on either a full-time or 9/10 basis. A schedule of terms and conditions of appointment, etc., are available from the Superintendent-in-Chief, West Coast Hospital Board, P.O. Box 387, Greymouth, New Zealand. (11251)

YOUNG GENERAL PRACTITIONER required by large provincial clinic in Victoria. G.P. obstetric experience essential. Opportunity to enter partnership after six months' trial period or to take over branch surgery on an independent basis. Successful applicant expected to remain for minimum of three months. \$195 per week plus furnished accommodation and petrol. Apply with full curriculum vitae. Dr. Waderton, Box 424, Moiwell, Victoria, 3840.

WEST COAST HOSPITAL BOARD

WHOLE-TIME ANAESTHETIST (Two)
Grey Hospital, Greymouth, New Zealand

Applications are invited for the above positions from suitable qualified medical officers registerable in New Zealand.

There are two vacancies for the above posts based at Grey Hospital.

The positions are of specialist status and applicants should have been qualified for a minimum period of eight years, have had five years' experience in the specialty and possess an appropriate higher qualification.

Salary and conditions will be in accordance with the Hospital Employment (Medical Officers) Regulations, the scale \$6,090 to \$8,100, plus special incentive allowance for hospital medical officers employed on the West Coast ranging from \$300 to \$400. The commencing rate will be determined by the Director-General of Health, having regard to qualifications and previous experience.

Housing may be available and can be the subject of negotiation with applicants.

The anaesthetic, resuscitation and allied services for the whole region are to be reorganized, co-ordinated and improved.

The scheme is dependent upon the appointment of two full-time specialists who will work in close conjunction and share responsibility by agreement for routine list surgery of three hospitals, for some emergency work at Grey Hospital, and for the organization and maintenance of first aid resuscitation and emergency respiratory care and parenteral therapy procedures (in collaboration with local specialists and technologists) and an advisory haematologist for the whole region. They may also be required to train part-time visiting medical staff as relief anaesthetists for all hospitals.

Conditions of appointment and further information are available from the Superintendent-in-Chief, West Coast Hospital Board, P.O. Box 387, Greymouth, New Zealand, to whom applications should be addressed. (11252)

MEDICAL OFFICERS

The present Superintendent is relinquishing administrative duties as he is now Regional Orthopaedic Specialist and there is shortly to be a vacancy due to the departure of a Medical Officer. Applications therefore are invited for either:

(1) 3/10 Anaesthetist or Physician.
(2) 6/10 Medical Superintendent—clinical duties general—some orthopaedic and general surgical experience and capability would be advantageous (in both cases salary as Medical Officer of Specialist scale unless qualified as Specialist).

(3) Full-time Medical Superintendent—duties as shown above, salary range Medical Officer of special scale \$4,480/\$6,20.

An additional payment of up to \$400 for a full-time appointee in the salary range \$5,130/\$7,800 and an appropriate portion thereof for a part-time appointee has been authorized for these positions.

Note.—There is opportunity for private general practice in the town and districts as the Board would prefer to appoint two suitable part-time appointees. The Board may be in a position to assist re-housing and rooms. Scale as per regulations according to experience and qualifications.

Terms, conditions and further information may be obtained from Medical Superintendent-in-Chief, P.O. Box 387, Greymouth. (11457)

ST. ANDREW'S HOSPITAL
NORTHAMPTON

Medical Director: James Harper, M.B., F.R.C.P.(Edin.), D.P.M.

St. Andrew's Hospital is a private psychiatric hospital situated in 130 acres of parkland in the county town of Northampton. In general, patients are admitted to Wantage House, a reception unit in the grounds which is equipped for the investigation and treatment of all forms of mental and nervous illness. In addition, there is accommodation mainly in private rooms both in the main hospital and in various villas, for longer stay patients and geriatric patients.

The hospital's amenities include Gloucester House, which comprises an occupational therapy department, swimming-pool, a squash court and library, while in the grounds there are tennis courts, a nine-hole golf course, etc.

Fees range from 25 guineas per week, and charges for treatment at St. Andrew's Hospital are allowable for benefit to British United Provident Association and Private Patients Plan subscribers.

Further particulars can be obtained from the Medical Director, St. Andrew's Hospital, Northampton (Tel.: Northampton 34354), who can be seen in consultation by appointment either at the hospital or at 55 Harley Street, London W.1.

Children, safety and Penbritin

Penbritin is powerful across a broad spectrum of bacteria, yet its record of safety is such that you can prescribe it with confidence for children.

Penbritin has all the safety of penicillin. More than 1,600 published papers show that it is virtually non-toxic for all age-groups, including neonates and pregnant mothers. It does not stain teeth nor deposit in the bones of young children.

Penbritin kills the pathogens that cause many paediatric conditions, especially respiratory infections. Penbritin minimises the risk of complications because Penbritin kills the organisms, whereas many other treatments merely inhibit them.

Penbritin is available as a pleasant-tasting syrup. This helps children finish the prescribed course, even after the symptoms have gone.

Penbritin - the power of a broad spectrum, the safety of penicillin.

Penbritin* (ampicillin B.P.) is a product of British research at
Beecham Research Laboratories Brentford, England.
