

Uro-tract infections— Penbritin Territory

Penbritin is being used increasingly in the treatment of urinary tract infections because it

- kills rather than inhibits the main causative organisms,
- is active in renal tissue as well as in urine,
- has the safety of penicillin,
- offers a choice of presentations.

Penbritin's value in the treatment of urinary tract infection is confirmed by 8 years' published evidence which reveals a success rate of more than 80% in acute infections.

At the recommended dosage of 500 mg. three times a day Penbritin achieves high blood and urine levels and can attack and eradicate pathogens in all parts of the urinary tract. Having the safety of traditional penicillins, it may confidently be prescribed for children, for expectant mothers and even for patients with impaired renal function. Furthermore, Penbritin is available in a complete range of presentations: 500 mg. and 250 mg. capsules, syrups of 125 mg. and 250 mg./5 ml. strengths, 125 mg. paediatric tablets and three strengths of injectable.

Adult Dosage: 500 mg. three times daily.

Contra-indication: Penicillin allergy.

Side-effects: As with other penicillins.

Further information is available on request.

Most aerosol bronchodilators act immediately^{1,2}
Some of them provide prolonged relief of wheezing^{3,4}
A couple have little cardiac effect⁵

But only Alupent Metered Aerosol provides all these patient benefits, plus the economic benefit to you of a refill vial, at only ½d. per puff.

Why patients who hate the idea of elastic hosiery like wearing Scholl

Scholl know as well as you do just how much women hate the idea of elastic stockings. That's why they've made Scholl elastic stockings as acceptable to women as they are effective in bringing relief. Scholl elastic stockings do look nicer than ordinary elastic stockings. That's why patients are going to wear them when you prescribe them. Not just for the support. Not just for the comfort. But for the look of stockings that look like stockings—or are indiscernible under them.

Scholl 'Nylastik' (illustrated)

(prescribed as 'Lightweight Elastic Yarn') Nylastik are suitable for mild to average varices or for expectant mothers. They are worn instead of nylons and, on the legs,

appear almost indistinguishable from an ordinary 30-denier stretch stocking.

Scholl 'Soft Grip'

(prescribed as 'Standard Elastic Yarn')

Scholl Soft Grip are suitable for average to moderately severe varices. They are worn *under* normal sheer nylons. They are circular knit in double-expansion mesh with two-way elasticity to give firm, even support *around* the leg with plenty of comfortable 'give' lengthwise.

Obesity

The case for continuing research

When there is already a great deal of very high quality published data on Ponderax (fenfluramine), and the glycoliptic activity in obesity, one may ask, 'Is there a need for further studies?'

Over the last ten years 128 publications have shown that Ponderax produces greater weight loss than previous drugs (up to 3.6 lbs. a week), rectifies defects in glucose and lipid metabolism, has a mild hypotensive action and does not stimulate the central nervous system.

However, the interest of Ponderax has extended into many fields and data already demonstrates that Ponderax has important activity in several disease areas. Currently, 203 experiments and trials are revealing that Ponderax, besides the valuable therapeutic properties in obesity, has other activities in diabetes, hypertension, anxiety and atheroma.

Our massive research programme is your safeguard to the continuing prescription of Ponderax for the basic treatment of the serious disease called obesity.

Trasicor

oxprenolol hydrochloride

a new and better beta-blocker

not only relieves anginal pain and raises exercise tolerance

also increases cardiac efficiency

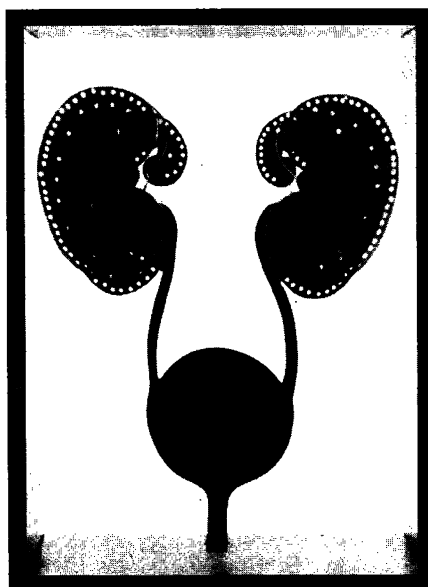

Unlike earlier beta-blockers, Trasicor also exerts a mild stimulating effect on heart-muscle fibres. Trasicor can produce a fundamental improvement in the myocardial state.

In Arrhythmias

Trasicor has given good results in sinus and paroxysmal tachycardias, atrial fibrillation and flutter, ectopic beats, ventricular tachyarrhythmias and in relief of cardiac arrhythmias in thyroid disease.

Before using Trasicor, it is important that doctors consult the detailed literature for full prescribing information.

in urinary infections 'clearly superior' to ampicillin or sulphadimidine

Higher cure rates

These comparative results were obtained in treating hospital in-patients with UTI¹, most of whom were infected with entrenched hospital pathogens.

85% cure rate	SEPTRIN*
70% cure rate	ampicillin
40% cure rate	sulphadimidine

(Cure criterion=eradication of original organism 1 week after treatment ended.)

SEPTRIN was "clearly superior to either of the other treatments" and this superior effect was "even more appreciable in the re-treatment of patients who had failed on another drug."²

SEPTRIN Tablets, SEPTRIN Paediatric Suspension and SEPTRIN Paediatric Tablets contain trimethoprim and sulphamethoxazole. Full information is available on request.

Clear reasons for using Septrin

Abstracted from a Leading Article in the *British Medical Journal*².

- ☐ Trimethoprim not only attains therapeutic tissue levels, but is excreted unchanged in high concentration in the urine.
- ☐ All Gram-negative bacilli occurring in the urine, except *Pseudomonas aeruginosa*, are usually highly sensitive to it.
- ☐ Its minimum inhibitory concentration is extremely low.
- ☐ Trimethoprim and a sulphonamide, by blocking successive stages in the same bacterial metabolic process, exert a strong synergic effect, and this action is bactericidal.

ANTIBIOTICS AND THE INTESTINAL FLORA

Treatment with broad spectrum antibiotics suppresses the normal flora, which may be replaced by abnormal resistant organisms causing diarrhoea.

This change can be prevented or reversed by the implantation of *Lactobacillus acidophilus* which has been rendered antibiotic-resistant, and is thus able to multiply freely under these abnormal conditions. The products of growth of the organism are inimical to that of many other bacteria^{1 2} and thus contribute to its rapid preponderance over other species.

Oral treatment with antibiotic-resistant *L. acidophilus* in the form of ENPAC has been shown to eliminate *Candida* from the faeces of infants with antibiotic-induced diarrhoea, with relief of symptoms succeeded by rapid gain in weight^{3 4} and greatly to reduce the numbers of staphylococci in the faeces of patients treated with tetracyclines.⁵

from asthmatic attack

British Medical Journal, 11 July, 1970

The unique mode of action of disodium cromoglycate offers the asthmatic patient outstanding benefits. A prophylactic treatment, it prevents the onset of asthmatic episodes - thus minimising long-term damage to lung tissue. Freedom from asthma attacks permits a happier, more normal life for the asthmatic patient.

Published clinical reports^{1,22} confirm that with INTAL COMPOUND, the incidence and severity of acute attacks is considerably reduced - even in patients on conventional therapy such as bronchodilators, antihistamines and corticosteroids. Less time is lost from work or school,

exercise tolerance is improved and a consistent clinical comment on disodium cromoglycate has been the total absence of serious side effects.

INTAL COMPOUND - supplied in SPINCAPS (each containing 20 mg disodium cromoglycate, and 0.1 mg Isoprenaline Sulphate BP in powder form, together with an inert carrier). For use in a special insufflator - SPINHALER.

The Department of Clinical Epidemiology and Social Medicine in conjunction with the King Edward's Hospital Fund for London announce a course beginning on October 9, 1970. The course, occupying 16 study days, will be held on Fridays.

Applications are invited from consultants, senior registrars and administrators. The course is limited to a maximum of 10 and there is no fee. Further details can be obtained from Prof. W. W. Holland, to whom applications should be made as soon as possible. (19419)

UNIVERSITY OF LONDON

A lecture entitled "Theories of Antibody Formation" will be delivered by Professor N. K. Jerne (Basle) at 8 p.m. on July 21 at the London Hospital Medical College (Burstard Theatre), Turner Street, E.1. Admission free, without ticket. M. A. Baatz, Academic Registrar. (19417)

THE LONDON HOSPITAL
MEDICAL COLLEGE

COURSE IN ADVANCED MEDICINE

A Postgraduate Course in Medicine will be held at The London Hospital commencing Monday, January 4, and finishing Wednesday March 10, 1971. Classes will be held on Mondays, Wednesdays and Fridays. The course will be limited to 24 students. The fee for the course will be £40. Applications should be made to the Dean, J. R. Ellis, M.B.E., M.A., M.D., F.R.C.P., The London Hospital Medical College, Turner Street, London, E.1. (19367) 2

UNIVERSITY OF EXETER
Postgraduate Medical Institute

A full-time postgraduate course lasting 10 weeks will begin on October 7, 1970. These courses are held 3 times a year starting in October, January and April. Each course includes instruction in general medicine, paediatrics, preventive medicine, pathology, psychiatry, orthopaedics and general surgery. The programme is planned so that students wishing to specialise in a particular clinical subject are given facilities to do so, while other students are taught in each of the main clinical departments. Unpaid clinical attachments can be arranged at the end of the course for students requiring a longer period of training, but these are normally reserved for students sponsored by some official body.

It is sometimes possible to accept general practitioners for 1 or 2 weeks of a course, and attendance for this period is recognized under Section 63 of the Health Services and Public Health Act 1968. These courses are also recognized under the special scheme for the re-training for general practice of doctors who have been out of the Health Service for at least 5 years.

The fee for this course will be £40 (£83 for students from outside the United Kingdom).

Further particulars and application forms for these courses are obtainable from the Director, The Postgraduate Medical Institute, The University, Exeter, Devonshire. (19377) 2

UNIVERSITY OF SURREY
Department of Mechanical EngineeringPOSTGRADUATE COURSE IN
BIOMECHANICS

Applications are invited for a one-year course in Biomechanics commencing in October 1970.

The course, which leads to the degree of M.Sc. by examination, is intended for graduates in engineering or physical sciences on the one hand and graduates in medicine or biological sciences on the other.

The branch of the course for graduates in engineering or physical sciences aims to fit them for work in the medical field, e.g., the design of prostheses or of hospital equipment, and to introduce them to the physiological problems which they can help to solve.

The branch of the course for graduates in medicine or biological sciences aims to introduce them to the mathematical and engineering methods and techniques which are applicable to medical and physiological practice and research.

Clinical application of the studies is provided through close collaboration with hospitals and medical specialists and the department specialises in research problems related to internal and external prostheses and blood flow measurement.

The Science Research Council has accepted the course as suitable for the tenure of its Advanced Course Studentships.

Requests for further particulars and application forms should be sent to: Professor J. M. Zarek, Head of the Mechanical Engineering Department, University of Surrey, Stag Hill, Guildford, quoting Ref. No. B.M.J. 1JU. (19449) 2

ELECTIONS**NOTICE OF BY-ELECTION
GENERAL MEDICAL COUNCIL
MEDICAL ACTS 1956 to 1969**

Notice is hereby given that pursuant to the Medical Acts 1956 to 1969 an Election of one member of the General Medical Council to represent the fully registered medical practitioners resident in England and Wales is about to be held.

Every fully registered medical practitioner is qualified to be nominated as a candidate.

Each candidate must be nominated by a separate nomination paper.

Every fully registered medical practitioner resident in England and Wales is entitled to take part in nominating one candidate.

Every nomination paper must state the name, registered address, and registered qualification or qualifications of the candidate nominated; it must be signed by not fewer than six fully registered medical practitioners resident in England and Wales, as nominating such candidate; and the registered address and registered qualification or qualifications of each one so signing must be appended to his signature. Every nomination paper, accompanied by a declaration in writing signed by the candidate, acknowledging that he consents to be nominated, must be delivered, by post or otherwise, on or before July 29, 1970, addressed to the Registrar of the Council from whom forms of nomination may, on application by post or otherwise, be obtained. Copies of the Electoral Scheme which governs the election may also be obtained from the Registrar.

Every nomination paper in respect of which any of these Regulations has not been complied with, or which is not received by me on or before July 29, 1970, will be invalid.

If the number of persons nominated exceeds one an electoral roll will be prepared of those fully registered medical practitioners who are qualified by residence on August 28, 1970, to vote in the election. Any other person who becomes fully registered or is fully registered and becomes qualified by residence to vote in the election after that date but before the last day fixed for the return of voting papers will be entitled to obtain a voting paper on application by letter to the Registrar provided that he signs an undertaking that he has not and will not mark more than one voting paper in the election. A Department of Pulmonary Physiology is to be developed, initially i.e. for six months, in association with the Department of Cardiology, for the reason that until now this latter department has assumed responsibility for tests of respiratory function. The appointee who will have consultative and teaching responsibilities will be required to direct routine pulmonary function services.

Salary: Within the range \$8,137 to \$13,390 per annum according to qualifications and experience.

Memorandum of Information, including details of travel assistance on appointment, available on request.

Further information regarding the Hospital or the State of Western Australia may be obtained from the Office of the Agent General for Western Australia, Western Australia House, 115 Strand, London W.C.2.

Applications, which should indicate date of birth, qualifications, experience, present and previous positions, research interest, publications, the names and addresses of three professional referees and be accompanied by a recent photograph, close on 31 August, 1970.

TARANAKI HOSPITAL BOARD Hawera Hospital, New Zealand

MEDICAL OFFICER

Immediate applications are invited from qualified Medical Practitioners for the position of whole-time Medical Officer, Hawera Hospital. Applicants should have medical and/or surgical experience including some experience in anaesthetics.

The position will very likely be established as that of Medical Officer of Special Scale and the salary will be within grade \$4819/5103/5372 per annum. The commencing salary will be as determined by the Medical Officers' Salaries Grading Committee and approved by the Minister of Health.

Enquiries would be welcomed from more junior applicants and the salary payable in these circumstances would be based upon length of time qualified.

As the Board is endeavouring to obtain a relaxation of the New Zealand Medical Council's temporary suspension of registration of Indian medical graduates, enquiries would be welcomed from graduates of Indian Universities.

Rental accommodation, adjacent to hospital, is available.

Official application form and Conditions of Appointment are obtainable from the office of the High Commissioner for New Zealand, Haymarket, London, S.W.1. (19401) 61-1

TARANAKI HOSPITAL BOARD Hawera Hospital, New Zealand

PHYSICIAN

Applications for full time employment are preferred, but applicants are welcomed to apply for the above position on the basis of the following alternatives:

(a) Part-time with a minimum of 6 sessions per week (i.e. 6/10ths);

(b) Whole-time with right to vary to part-time later as shown above, by arrangement with the Board.

Openings exist in the district for private practice.

Transport expenses for a whole-time employee are refundable subject to a contract for two years service with the Board.

It is preferred that applicants be members of one of the Royal Colleges of Physicians, but consideration will be given to those who can demonstrate experience and clinical ability in the field of general medicine.

The basic salary scale for specialists in N.Z.\$6740-N.Z.\$9101, the commencing rate depending on the length of experience in the specialty and promotion by progressive steps would be automatic. Advancement to a higher salary grading N.Z.\$9550-N.Z.\$10,562, will be subject to determination by a Salaries Grading Committee, upon the Board's application. Part-time appointees will receive a proportion of these whole time salary rates, such proportion being related to the hours worked.

For those not qualified as 'specialist' the position is that of Medical Officer of Special Scale with a salary range for whole time service of N.Z.\$4819-N.Z.\$8202, the commencing rate and maximum to be determined by a Salaries Grading Committee.

House or flat for rental will be made available to a whole-time appointee and temporary house or flat may be rented by a part-time appointee by arrangement with the Board.

As the Board is endeavouring to obtain a relaxation of the New Zealand Medical Council's temporary suspension of registration of Indian medical graduates, enquiries would be welcomed from graduates of Indian Universities.

Official application form and Conditions of Appointment are obtainable from the office of the High Commissioner for New Zealand, London, England. (19402) 61-1

WELLINGTON HOSPITAL BOARD Wellington, New Zealand

PHYSICIAN IN RESPIRATORY

DISEASES The Wellington Hospital Board invites applications from suitably qualified medical practitioners for the position of Physician in Respiratory Diseases to the Board.

A higher qualification in medicine and previous experience in respiratory diseases are essential.

The Wellington Hospital Board serves a population of 300,000 and is a Branch Faculty Teaching Centre for the University of Otago. A major hospital in the country, with 955 general beds, Wellington Hospital covers a wide range of specialties and has a Medical Unit for research and teaching purposes.

The Chest Department consists of a Chest Hospital in Wellington adjacent to the main hospital and two Chest Clinics—one in Wellington and the other in the Hutt Valley. The Chest Hospital has four wards with a total bed state of 100. Two of the wards are for tuberculous patients and two for non tuberculous diseases. At the Wellington Chest Clinic there were some 16,000 attendances last year. Routine respiratory function tests are done in both the clinics and the wards. A respiratory laboratory for more sophisticated tests is situated in the main hospital. The medical establishment is four full time and two part time physicians, a registrar and a house surgeon.

This appointment will be made in accordance with the New Zealand Hospital Employment (Medical Officers) Regulations, 1964.

Salary scale applicable is NZ\$6740-9101 per annum. NZ\$52,149 approximately equals £1 sterling).

Assistance may be given towards the payment of the appointee's transport expenses to New Zealand, in return for an undertaking to remain in the Board's services for two years.

A schedule of conditions of appointment and a form of application may be obtained from the Office of the High Commissioner for New Zealand, New Zealand House, Haymarket, London, S.W.1.

Applications will be received by the Secretary, Wellington Hospital Board, Wellington Hospital, Wellington, New Zealand up till 9 a.m. on Friday August 14, 1970. (19394) 61-1

ST. ANDREW'S HOSPITAL NORTHAMPTON

Medical Director: James Harper M.B., F.R.C.P. (Edin.), D.P.M.
St. Andrew's Hospital is a private psychiatric hospital situated in 130 acres of parkland in the county town of Northampton. In general, patients are admitted to Wantage House, a reception unit in the grounds, which is equipped for the investigation and treatment of all forms of mental and nervous illness. In addition, there is accommodation mainly in private rooms, both in the main hospital and in various villas, for longer-stay patients and geriatric patients. The hospital's amenities include Gloucester House, which comprises an Occupational Therapy department, a swimming pool, a squash court and library, while in the grounds there are tennis courts, a nine-hole golf course, etc.
Fees range from £31 10s. per week, and subscribers to private medical insurance schemes, such as British United Provident Association and Private Patients Plan, may claim benefit in respect of these charges. Further particulars may be obtained from the Medical Director, St. Andrew's Hospital, Northampton (Tel. Northampton 34354), who can be seen in consultation by appointment, either at the hospital or at 55 Harley Street, London, W.1. 67-13

HALOPERIDOL

The beauty of Ferrograd C is its effectiveness

FC187

Too often, when iron deficiency is treated by simple iron salts alone, the return of the haemoglobin percentage to normal is regarded as sufficient. In fact, with this type of treatment, iron absorption tails off as 100% Hb is approached. And – *body iron stores remain depleted.*

With Ferrograd C, taken once daily before food from the start of treatment, not only is the haemoglobin percentage quickly returned to normal; absorption of iron is maintained so that body iron stores are replenished. Ferrograd C's high dose Vitamin C sees to that. It almost doubles the absorption of iron.* It provides total treatment.

Each tablet contains the exsiccated equivalent of 525 mg ferrous sulphate BP (\equiv 105 mg Fe) in a Gradumet® plus 500 mg Vitamin C as sodium ascorbate.
