

when acute peri-articular disorders lead to loss of work or play

is treating pain with simple analgesics *enough?*

Pain must be relieved of course; but it is the inflammation behind the peri-articular disorder that can delay recovery. This is why 'Indocid' can play such an important part in treatment.

'Indocid' is both analgesic *and* anti-inflammatory. 'Indocid' may help patients begin graded exercise sooner—and hence speed full recovery.

a little knowledge is not enough . . . give teen-agers the facts about menstruation

Some teen-agers have heard they shouldn't bathe or wash their hair during their menstrual periods. Some think unmarried girls shouldn't use tampons. Others say exercise brings on "cramps". No wonder they call it the "curse".

Give them the facts...with the help of the illustrations in charts like the one above prepared by R. L. Dickinson, M. D. and available to you free from Tampax Limited. These 11"x8½" coloured charts are laminated in plastic for permanence and are suitable for marking with grease pencil. Social myths can be exploded, too, by giving teen-agers either of the two booklets we will be glad to send you in quantity for distribution. One booklet is written for the young girl just beginning menstruation and the other for the older teen-ager. The booklets tell them what menstruation is, how it will affect them, and how easily they can adjust to it normally and naturally.

Unmarried girls, of course, can use tampons. And

they have many good reasons to do so. Tampax tampons are easy to insert—comfortable to wear. Because they're worn internally there's no irritation or chafing; no menstrual odour.

Tampax tampons are available in Regular and Super absorbencies, with explicit directions for insertion enclosed in each package.

Simply write to the address below for your free set of charts and sample booklets. These booklets may then be reordered in any quantity you need for your patients' personal use.

Road Accidents and the Family Doctor

Road accidents are now acknowledged to be one of the major epidemics of our time. It has been estimated that as many as a quarter of accident deaths could be saved by skilled treatment at the site of the accident, and recently doctors in Britain and abroad have been playing an increasingly active part in this. This booklet, which reprints a series of articles which appeared in the *B.M.J.* last autumn, contains contributions on organization and medical equipment, the management of soft-tissue injuries, resuscitation, fractures of the spine, and extrication of persons trapped in a vehicle. The introduction is written by Mr. Norman Capener, Chairman of the Medical Commission on Accident Prevention.

Why not ask more of bronchodilator tablet therapy

because with Numotac you can get it

Numotac is a new Riker bronchodilator tablet with a special kind of effectiveness. Its most striking feature is that in all respects except immediacy of action it compares favourably in performance with inhalations from a long-acting aerosol.

Selective action on β_2 -receptors gives *Numotac* marked bronchodilator action with virtual absence of cardiac effect. Clinical trials have shown its superiority over both choline theophyllinate and

oral orciprenaline. Neither urinary retention nor gastric reactions have been reported. Moreover, in contrast to sympathomimetic amines of the ephedrine type, *Numotac* has no effect on sleep — the day's final dose can be taken with confidence at bedtime.

Both in efficacy and low incidence of side-effects, *Numotac* can be regarded as a major advance in oral treatment for asthma and chronic bronchitis.

Composition Each tablet contains isoetharine hydrochloride 10 mg. in a porous plastic matrix. **Indications** For relief of bronchospasm in bronchial asthma, chronic bronchitis and pulmonary emphysema. **Dosage** Adults: one tablet three or four times daily. Children: the 10 mg. tablet should not be broken, and this dose is not recommended for children aged 12 years or under. Clinical and pharmacological studies have shown that *Numotac* acts for between four and six hours. In a small number of susceptible patients, administration at shorter intervals may give rise to side-effects. When this occurs dosage should be adjusted accordingly. **Side-effects** Side-effects are unlikely to occur within the recommended dose range of *Numotac*. With higher doses, or in persons sensitive to sympathomimetic amines, tachycardia, palpitations, tremor or vertigo may occur. **Cautions** *Numotac* should be used with caution in the presence of cardiac disease or hypertension. Dosage in excess of that recommended does not produce any increase in bronchodilator effect. **Contra-indications** The use of *Numotac* is contra-indicated in thyrotoxicosis. **Basic NHS prices** 100 tablets, 20/-; 500 tablets, 90/- *Numotac* is a registered trade mark.

The smooth response to Seborrhoeic Dermatitis

Healthy hair is the envy of most people because scalp dermatoses, which are unsightly and disfiguring, are so common. These conditions include simple dandruff and seborrhoeic dermatitis.

'Synalar' Gel provides rapid

and effective treatment for the scalp and at the same time enlivens the hair.

It does this in a pleasant and highly acceptable way because it is a clear, non-greasy, non-sticky preparation which leaves the hair clean and healthy.

'Synalar' Gel in 30G. tubes, sufficient for approximately two weeks' treatment.

CANDIDAL VAGINITIS

NON SPECIFIC VAGINITIS

Five years of clinical trials with Magmilor, involving more than 6,000 patients with vaginitis, have shown success rates of the order of 90 per cent. The Magmilor Treatment Pack—a *single* drug presented as tablets and pessaries—deals effectively with all three common types of infective vaginitis—giving maximum assurance of a quick response in a condition where it is often difficult to make a clinical distinction as to pathogenesis:

Trichomonal vaginitis The systemic action of Magmilor oral tablets attacks *Trichomonas* in the vaginal walls. The local action of the pessaries eliminates free-swimming Trichomonads from the vaginal lumen, giving quicker and more complete relief than can be obtained with systemic action alone.

Candidal vaginitis The local action of Magmilor pessaries eradicates candidal infection and, in cases of trichomonal infection, prevents the candidal overgrowth which may occur if a trichomonocide only is used.

Non-specific vaginitis Magmilor pessaries also provide coverage against the bacteria which are implicated in non-specific vaginal infections—including *Streptococci* and *Coccobacilli*.

No co-prescribing hazards By using only one drug, Magmilor eliminates the potential hazard of drug incompatibility associated with co-prescribing.

R MAGMILOR TREATMENT PACK Xsingle-drug coverage in vaginitis

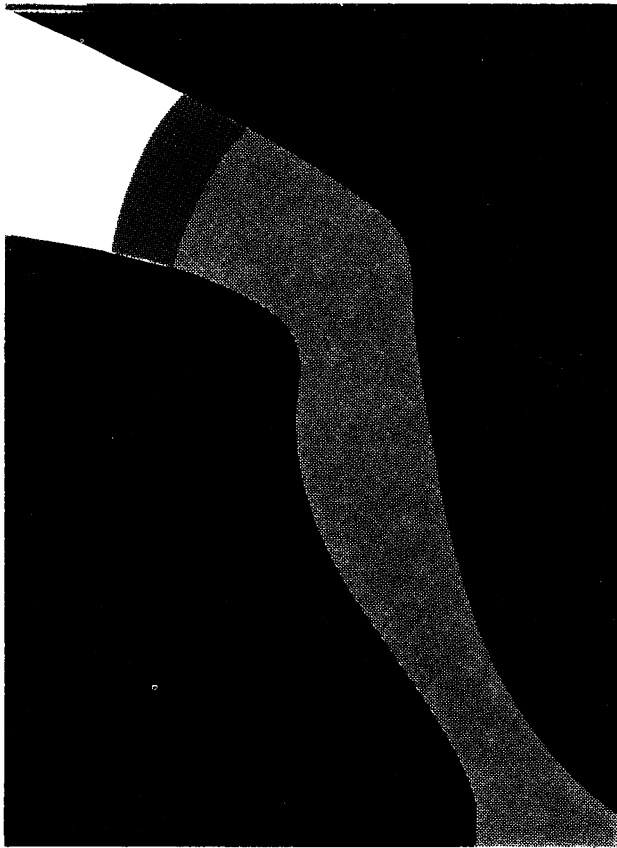

Magmilor Treatment Pack consists of twenty-one oral tablets (each containing 200 mg nifuratel) and ten pessaries (each containing 250 mg nifuratel).

NIGHT CRAMPS

90% improvement

"The most obvious effect of treatment with HR (Paroven) is the very constant relief of night cramps, with an improvement exceeding 90 per cent."

(Brit J Clin Pract (1970) 23, 161)

CHRONIC ACHING PAIN

54% improvement

"The degree of relief in chronic aching pain in the legs was not so marked, (compared with 90% improvement in night cramps and 70% improvement in heaviness of the legs), but still amounted to 54 per cent."

(Brit J Clin Pract (1970) 23, 161)

PAROVEN®

HEAVY LEGS 70% improvement

PAROVEN[®] in varicose veins and post phlebitic syndrome

Recent clinical and double blind trials^{1 2} have confirmed that PAROVEN provides outstanding relief of symptoms due to chronic venous insufficiency or back pressure. Particularly good results were obtained in night cramps, heavy legs and chronic aching pain. Other symptoms which respond to long-term therapy with Paroven include:

superficial thrombophlebitis, varicose ulcers, varicose eczema, ankle oedema, restless legs, paraesthesia, haemorrhoids.

Dosage Initial treatment: 4 capsules a day, preferably with meals. Maintenance treatment: 1-2 capsules a day.

Side effects and Precautions In a few patients, slight gastro-intestinal disorders, flushes and headaches have been reported. These are usually overcome by taking the capsules with meals or by slight adjustment of dosage. There are no known contra-indications to Paroven; it is virtually non-toxic and has no teratogenic effects. In keeping with current teaching and practice its use during the first trimester should, however, be avoided.

Availability Capsules, each containing 250 mg of 0-(β hydroxyethyl) - rutosides (not less than 45% troxerutin), in bottles of 20 and 100 capsules.

What is the word for emotional distress?

The presenting symptoms? "Can't sleep . . . irritable . . . no appetite . . . tired . . . aches and pains"—consultation after consultation.

The task? To penetrate behind the facade to the underlying condition.

The aim? To make the patient feel better quickly and reveal the problem, without unnecessary consultations.

Tranquillizers or hypnotics may deal with part of this aim, but only part.

Prothiaden can meet all the requirements. It is rapidly effective in both anxiety and depression.

One ingredient, a single-strength capsule means straightforward dosage.

Prothiaden is well tolerated even by the elderly.

Prothiaden can mean trouble-free treatment of anxiety, depression, in fact any manifestation of emotional distress.

Clear reasons for using Septrin

Abstracted from a Leading Article in the *British Medical Journal*².

- ☐ Trimethoprim not only attains therapeutic tissue levels, but is excreted unchanged in high concentration in the urine.
- ☐ All Gram-negative bacilli occurring in the urine, except *Pseudomonas aeruginosa*, are usually highly sensitive to it.
- ☐ Its minimum inhibitory concentration is extremely low.
- ☐ Trimethoprim and a sulphonamide, by blocking successive stages in the same bacterial metabolic process, exert a strong synergic effect, and this action is bactericidal.

TODAY'S DRUGS

New 1970 Edition

I—Antibiotics

The problem facing the prescribing doctor today is choice. Catalogues of drugs—no matter how detailed—are of little help unless accompanied by advice on which drug to give for what condition. So this new edition of "Today's Drugs" not only gives a full account of the drugs but also includes clear accounts of the management of common conditions such as urinary infections and epilepsy.

The new edition differs from the earlier one in other ways. It deals with only three subjects— infections, vitamin deficiencies and anaemias, and disorders of the nervous system. Further volumes will be published at intervals of about a year, and by the time the whole field of therapeutics has been covered this first volume will have become obsolete and due for replacement. In order to further emphasize the ephemeral nature of books on therapeutics—and to cut costs—the book is a paperback.

NATIONAL HEALTH SERVICE WEST SUSSEX EXECUTIVE COUNCIL CRAWLEY, BROADFIELD

Applications are invited from medical
practitioners interested in commencing a new
practice on the Broadfield development
which is situated to the south of the New
Town of Crawley. On present information the
population of the new neighbourhood by
the end of 1973 will be approximately 4,500.
It is anticipated that the first houses will be
occupied from the beginning of 1971
onwards and that by the end of that year
the population will be 1,700.

Subject to necessary approvals the
southern part of the Broadfield area will be
developed after 1973 and the ultimate
estimated population of the whole of the
Broadfield area by about 1981 could be as
much as 14,000.

Pending the erection of a permanent
Health Centre, a temporary Health Centre is
being provided containing two general
practice consulting room suites and it is
hoped that one of these will be operating as
soon as the first people move into the
houses. The doctor appointed would be
required to practise from the temporary
Health Centre and the Commission for the
New Towns will be able to offer a house
for sale in their first development immedi-
ately north of the proposed temporary
Health Centre. Other houses for purchase
are available on private developments in the
area. Alternatively, the Crawley U.D.C.
would be prepared to allocate a dwelling for
a doctor at an economic rental.

The Broadfield development area has been
classified as Restricted, but will be
Designated for one day on the date of
appointment of a doctor and an Initial
Practice Allowance will thus be payable to
the successful applicant if he is eligible in
accordance with the necessary criteria.

COMMERCIAL APPOINTMENTS

Senior Pharmacologist

Cardiovascular/neuropharmacological research
Salary to £3,500

A leading U.K. pharmaceutical company, with very well equipped research facilities in the Home Counties, is seeking a senior pharmacologist to take charge of one of its major research activities.

The Company's present research interests are wide, and include the study and development of drugs for the treatment of cardiovascular and hyper-sensitive diseases and disorders of the central nervous system, in addition to certain more speculative areas of research.

The successful applicant will be asked to assume responsibility for research into cardiovascular or

central nervous system pharmacology. He will probably be in his early 30's and have either a medical qualification or a Ph.D. in pharmacology, together with some years of post-doctoral research experience.

In addition to carrying out a research programme of his own, he should be able to lead a group of pharmacologists and technicians and should welcome the opportunity to collaborate on topics of mutual interest with organic chemists, biochemists and medical trials staff. The ability to initiate and develop new ideas is essential.

There are close links with

university departments, with units of clinical pharmacology and with clinicians engaged in medical trials. The Company has a positive attitude towards the publication of results, attendance at scientific meetings and career development.

Conditions of service are good, with salary advancement based on merit, and assistance may be provided with the expenses of removal where appropriate.

Please write to the Managing Director, Box 4463 BMJ. All communications will be treated in the strictest confidence, but will not be acknowledged except where an interview is offered.

CLINICAL RESEARCH BAYER GERMANY

Bayer Germany wish to appoint a young British physician to their multi-national Clinical Research Department based at Elberfeld, West Germany. The man or woman appointed will work in the United Kingdom as a member of the Medical Department of the British subsidiary company

FBA PHARMACEUTICALS LIMITED
HAYWARDS HEATH

and will be responsible to the Medical Director.

The duties will be the initiation and control of clinical trials of new and existing products. Considerable travel both in the United Kingdom and Europe will be necessary. Ideally, applicants

should have a higher medical qualification and be of registrar status. Knowledge of German desirable but not essential. The salary, which is reviewed annually, is negotiable and the conditions of service are excellent, including company car, pension and life assurance schemes, etc.

There are considerable career prospects in this very large international organisation. Interested doctors are invited to write giving full details of qualifications and career, in confidence, to

Dr. H. B. Allen, Medical Director
FBA Pharmaceuticals Limited
Haywards Heath, Sussex

ARE YOU ABLE, AFFABLE, AVAILABLE? If so, we need you for our varied and interesting general practice in Northern Manitoba, Canada. We have a new fully equipped office building and a 130 bed hospital with a three million dollar expansion to be completed in 1971. We are an unopposed practice and are nearly all of British origin. The town population is presently 7,000 and will double in two years owing to a large Forestry Complex recently put into operation. This rapid growth necessitates an increase in group size. Our drawing area is approximately 30,000 people. We offer \$18,000 minimum for first year depending on experience with partnership after 1 year if mutually compatible—four weeks paid vacation for first year with one week increase each year thereafter—subsidized house rental—assistance with passage if needed. Applicants must be on G.M.C. Home List and have some post graduate experience. All speciality experience will be considered but paediatricians urgently required. Please reply in detail by Air Mail to Associate Medical Clinic, Box 930, The Pas, Manitoba or Telephone—Area Code 204, 623-2403. 61-1

NEW ZEALAND SOUTHLAND HOSPITAL BOARD INVERCARGILL PSYCHIATRIST

A newly created post for practitioner with 5 years' psychiatric experience and D.P.M. Appointee will have his own team alongside the present Psychiatrist, who opened the Department of Psychiatry in November, 1969. A purpose-built Psychiatric Unit will shortly open to serve a mixed urban-rural population of 110,000 the team to include 2 registrars and a psychologist. The nearest public psychiatric hospital is 165 miles away.

The Department of Psychiatry is an integral part of a progressive and rapidly expanding General Hospital; a neuro-surgeon visits regularly from Otago Medical School and an E.E.G. Department is being provided. Invercargill is a prosperous city of 50,000 within easy reach of coast, mountains and bush.

Appointee may be either full time and eligible for travelling expenses for self and family, or 7/10 part time with ample scope for private practice.

Salary scale at present \$6090-\$8100, but is being revised upwards.

Conditions of appointment and application form may be obtained from the High Commissioner for New Zealand, Haymarket, London, S.W.1, or from the Secretary, Southland Hospital Board, P.O. Box 39, Invercargill, who will be glad to supply further particulars. (10139) 61-1

CANADA—THE ONTARIO CANCER INSTITUTE RESIDENT TRAINING IN THERAPEUTIC RADIOLOGY

The Ontario Cancer Institute incorporating The Princess Margaret Hospital offers a two year Diploma Course which combines clinical work on the wards and in the Out-patient Department of the hospital, and didactic courses in Anatomy, Nuclear Medicine, Pathology, Physics, Radiobiology, and Radiotherapy. This course leads to the Diploma in Medical Radiology (Therapeutic) from the University of Toronto, and is accredited by the Faculty of Radiologists in London. The hospital is recognized by the Royal College of Physicians and Surgeons of Canada, and the American Board of Radiology, for complete training in Radiotherapy over a period of three years. In addition it is accredited for Internal Medicine and Anatomic Pathology for a period of one year, and for six months in Diagnostic Radiology.

The Princess Margaret Hospital provided complete facilities for cancer research, diagnosis and treatment, exclusive of major surgery. Over 3800 new patients are seen annually; there are 175 active treatment beds, and facilities include six Cobalt Units, two Caesium Units and a Betatron. Salaries range from \$7,600 to \$10,300 per annum.

Applications are invited for the year beginning July, 1971. For further details enquiries should be addressed to:

WELLINGTON HOSPITAL BOARD
Wellington, New Zealand

SPECIALIST AND TUTOR IN OBSTETRICS AND GYNAECOLOGY
The Wellington Hospital Board and University of Otago invite applications from registered medical practitioners for the position of Specialist and Tutor in Obstetrics and Gynaecology at Wellington Hospital. An appropriate higher qualification is essential.

Wellington Hospital is a base hospital of 900 general beds serving a population of over 300,000. There is a full range of specialties and active postgraduate programme. Wellington Hospital is a Branch Faculty of the University of Otago Medical School with 25-30 final year students, shortly to increase to 60.

The appointee will be Tutor in Obstetrics and Gynaecology to final year students, and he will be expected to supervise actively instruction of these students on an individual and small group basis in collaboration with the Tutors of Medicine and Surgery. He will also contribute to teaching programmes of O. & G. registrars, and conduct such outpatient clinics as are required.

Conditions will be in accordance with the New Zealand Hospital Employment (Medical Officers) Regulations and the appointee must qualify for specialist status as defined in these regulations.

Commencing salary would be within the scale NZ\$6740-7417 per annum.

N.Z.\$2,149 equals £1 sterling approximately. Assistance may be given towards the appointee's transport expenses to New Zealand in return for an undertaking to remain in the Board's service for a period of two years.

Applicants should obtain a copy of the Conditions of Appointment and a form of application from the Office of the High Commissioner for New Zealand, New Zealand House, Haymarket, London, S.W.1.

Applications will be received by the Secretary, Wellington Hospital Board, Private Bag, Wellington, New Zealand up to 9 a.m. on Friday September 18, 1970. (19395) 61-1
