Roche Medical Information Service | Larodopa

In our last Information Service announcement we stated that Larodopa,* the Roche brand of L-Dopa, was only available on a limited basis. Our total supply was allocated to the Department of Health who nominated those Consultants who should receive supplies of Larodopa through Senior Administrative Medical Officers in each region.

We are now pleased to announce that Larodopa is available to all hospitals, and supplies can be obtained by your hospital pharmacist contacting Roche Hospital Sales at Welwyn Garden City. We are continuing to develop our production capacity as quickly as possible to increase Larodopa supplies even further.

We have now published the first two reviews in our Information Service series on the use of Larodopa in Parkinsonism. The series represents the very latest and most comprehensive information on clinical trials results available throughout the world, showing the effectiveness of Larodopa.

^{*}Larodopa is the trade mark for Roche preparations containing L(-)- β (3,4-Dihydroxyphenyl)-alanine.

Roche Medical Information Service | Larodopa

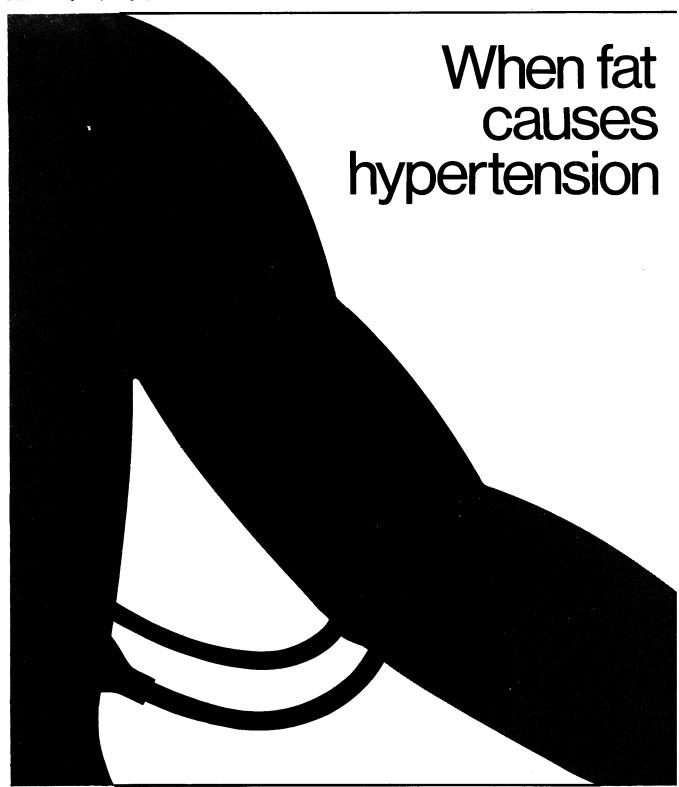

For example in a trial reported in February 1970 60 of the 77 patients showed benefit from Larodopa treatment.

If you have not received copies of the reviews and wish to see them, then please let us know.

This is just one function of the specially set up Roche Medical Information Service planned to expand the field of knowledge concerning the use of Larodopa in Parkinsonism and help doctors on the subject.

We shall continue to keep you up-to-date with all developments concerning the use of Larodopa and if you have any questions please phone the Roche Medical Information Service/Larodopa direct on 01-935 5566 or write to the address below.

PONDERAX®

Glycoliptic therapy for no stimulation

"The implications of these observations for treatment of mildly or moderately hypertensive obese patients is that maximum weight reduction should be attempted before institution of anti-hypertensive therapy, and that fenfluramine may well be worth trying in this situation."

See The Lancet, (1969), ii, 1392.

ustained, substantial weight loss with us mild hypotensive action.

Full information from:

Concordin. Tryptizol.

for listless, withdrawn depressives

They complain they're always tired and have no energy. They don't want to go anywhere or do anything. Bored, apathetic and withdrawn, they have few if any symptoms of anxiety—the symptoms of depression predominate.

These are the very patients for whom 'Concordin' offers special advantages—

improvement often begins within a week □ a prompt return to normal interests in many patients □ essentially free from sedative activity □

Merck Sharp & Dohme Limited, Hoddesdon Hertfordshire *Telephone*, *Hoddesdon 67123*

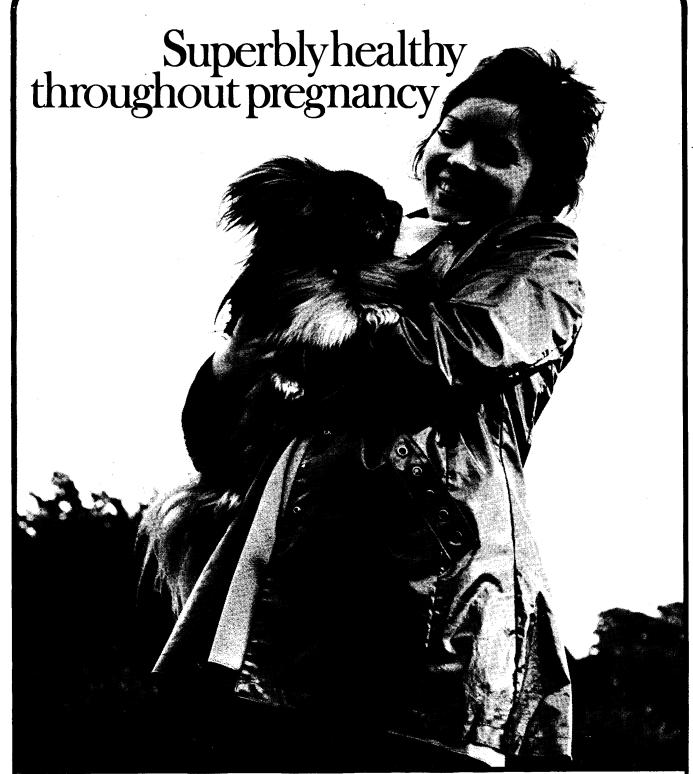

for anxious depressives

They may complain of always feeling on edge.
They are often so worried that they can't sleep properly—they tend to wake up in the early hours and brood.
Anxiety may mask an underlying depression—but both demand early treatment.

'Tryptizol' is more appropriate for many patients where anxiety predominates—

- ☐ anxiety and agitation are quickly relieved
- ☐ disturbed patterns of sleep are rapidly improved
- ☐ the underlying depressed mood is lifted

'Concordin' is available as 10 mg ('Concordin'-10) and 5 mg ('Concordin'-5) tablets. Tryptizol' is available as 10 mg, 25 mg, and 50 mg tablets, a syrup, and an injection. Detailed information on both products is available to physicians on request. ® denotes registered trademark.

Ferrograd[®]-Folic

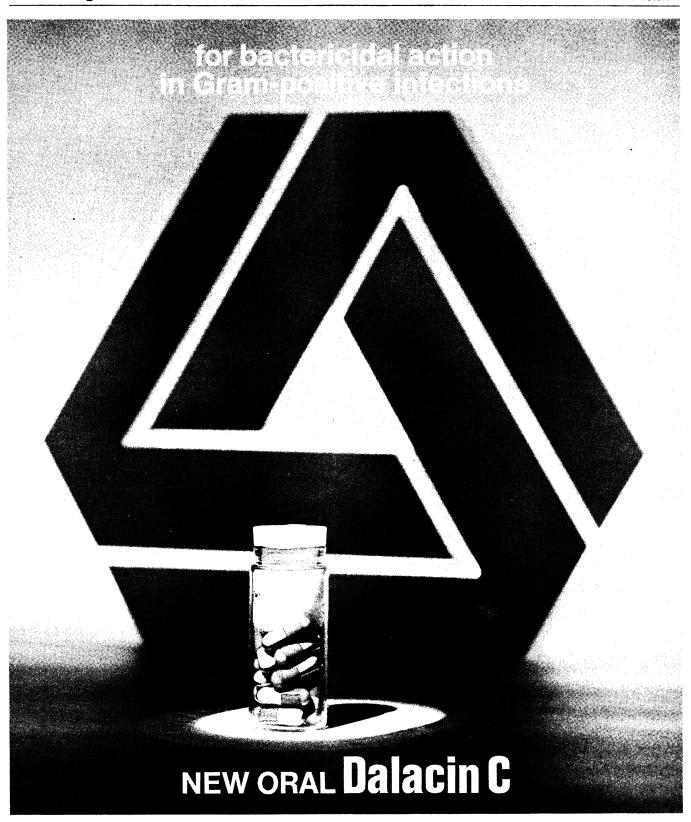

once-daily before food ferrous sulphate (≡ 105 mg. Fe) with 350 micrograms folic acid for routine prophylaxis in pregnancy.

"... folic acid should be incorporated with iron in a single tablet to be given once daily to the ante-natal population."

Today's Drugs, Brit. Med. J., 1964, ii, 1248.

Full information is available on request from Abbott Laboratories Ltd Queenborough Kent FF146

- a product of Upjohn research Dalacin C is a semi-synthetic antibiotic produced by a chemical substitution of the 7(R)hydroxyl group of lincomycin, by a 7-chloro substituent
- hydroxyl group of lincomycin, by a 7-chloro substituent
 a single 150 mg. dose of new Dalacin C provides serum levels in excess of minimum in vitro bactericidal concentrations for sensitive Staphylococci, Streptococci and Pneumococci
- 90% absorption regardless of what or when your patient eats or drinks
- peak serum levels in 45 minutes (fasting)
- serum levels in excess of minimum inhibitory concentrations for most common Gram-positive pathogens maintained for at least 6 hours
- no serious side effects reported
- effective against penicillinase-producing Staphylococci

Supplied:

150 mg. Capsules:

Each capsule contains clindamycin hydrochloride hydrate equivalent to 150 mg. clindamycin base. Bottles of 16, 100 and 500.

75 mg. Pædiatric Capsules:

Each capsule contains clindamycin hydrochloride hydrate equivalent to 75 mg. clindamycin base. Bottles of 16, 100 and 500.

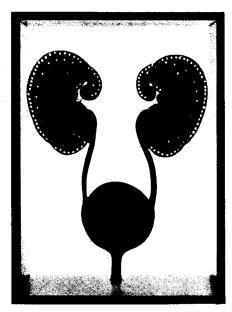

Full product information available on request.

UPJOHN LIMITED • CRAWLEY • SUSSEX

in urinary infections 'clearly superior' to ampicillin or sulphadimidine

Higher cure rates

These comparative results were obtained in treating hospital in-patients with UTI1, most of whom were infected with entrenched hospital pathogens.

85% cure rate	SEPTRIN*
70% cure rate	ampicillin
40% cure rate	sulphadimidine

(Cure criterion=eradication of original organism 1 week after treatment ended.)

SEPTRIN was "clearly superior to either of the other treatments" and this superior effect was "even more appreciable in the re-treatment of patients who had failed on another drug."2

SEPTRIN Tablets, SEPTRIN Paediatric Suspension and SEPTRIN Paediatric Tablets contain trimethoprim and sulphamethoxazole. Full information is available on request.

References: 1. Brit med J. (1969) 1, 541.

for bacterial infections

an advance on the antibiotics

Non modo plus Alphosyl psoriasis curiae praescribitur quam quidquid aliud medicamentum... Sed ecce Alphosyl capillare!

The dietary treatment of metabolic disorders in infancy and allied conditions is aided by Trufood's extensive range of readily available synthetic and modified foods. Nearly 50 years' specialised experience of making foods for babies, combined with continuous and intensive research into their preparation, has enabled us to provide such trusted products as:

Minafen—
for the dietary treatment of phenylketonuria

HF (2)—
for the dietary treatment of histidinaemia

LPT (1) and LPTM (2)

for the dietary treatment of tyrosinosis

Galactomin No. 17-

for the dietary treatment of galactosaemia and lactose in-tolerance—No. 18 with reduced fat—No. 19 with fructose as the sole carbohydrate.

MCT(1)

for the dietary treatment of certain fat malabsorptions.

Edosol-

for low sodium diets

Locasol for the dietary treatment of hypercalcaemia

Himaizol-

for the dietary treatment of hypercholesterolaemia And—for normal babies—TRUFOOD baby milk.

We will be pleased to share our skill and knowledge with you if you have any problems involving special diets, especially if they are for babies.

Medical Department, London Road, Guildford, Surrey. Guildford 68181

"...Streptotriad has been found to be by far the most effective...after prolonged clinical trials"

Br. med. J., ii, 316, 1969.

FOR THE PREVENTION AND TREATMENT OF NON-SPECIFIC DIARRHOEAS

'Streptotriad' (trisulphonamide streptomycin association) is a trade mark of MAY & BAKER LTD Dagenham Essex RM10 7XS

Comparatively speaking...

TRIPTAFEN-DA

IS A SUPERIOR TREATMENT FOR DEPRESSION WHEN ANXIETY IS ALSO PRESENT.

"... superior to amitriptyline alone in the treatment of depression ..."

Brit. J Psychiat., (1967) 113, 201.

". . . significantly more effective than imipramine 25mg in relieving most of the key symptoms of the M.R.C. rating scale."

Brit. J Psychiat., (1969) 115, 693.

The published evidence shows that
Triptafen-DA is remarkably effective in
relieving the majority of depressed and
anxious patients so frequently seen in
general practice. However, the best evidence
you can obtain is from your own assessment
of Triptafen-DA, in your own practice.

Each Triptafen-DA Tablet contains: amitriptyline hydrochloride BP 25mg, perphenazine BP 2mg. Also available: Triptafen-DA Suspension.

Full information is available on request.

See next page for more information

"It's that pain again when I pass water"

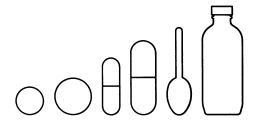

It's her third attack of acute cystitis in six months. A number of treatments were tried. This time Ceporex is being prescribed. The vast majority of urinary tract infections are caused by a few gram-negative bacilli, e.g. *E. coli* and *Proteus mirabilis*. Ceporex rapidly kills these organisms. The antibiotic is virtually completely absorbed when given orally and quickly achieves high serum concentrations allowing rapid diffusion into the affected tissues. And it is excreted into the urine in the active form. It has low

toxicity, is well tolerated and can be considered in patients hypersensitive to the penicillins.

For detailed information on Ceporex (trade mark), write to Glaxo Laboratories Ltd Greenford, Middlesex

Successful treatment starts with Ceporex

See previous page for more information

"And I've found Ceporex just as successful in pneumonia and otitis media"

Ceporex means successful treatment in respiratory and ear, nose and throat infections as well as in urinary infections. Clinical trials have demonstrated clinical success rates of over 80% in acute urinary tract infections, over 90% in pneumonia, and over 85% in ear, nose and throat infections.*

But that's not all. Ceporex is available in the widest possible variety of presentations to suit almost every patient-need.

The new 500 mg/5 ml syrup provides the high dosage treatment needed in more serious infections such as pyelonephritis or pneumonia. The 250 mg/5 ml syrup is suitable for more susceptible infections in adults and is particularly useful for otitis media in children.

Ceporex Tablets 250 mg and 500 mg are film-coated and the smallest cephalexin tablets available. They are easily identified by their engraved name and strength. As an alternative to tablets there are small, red and grey capsules in 250 mg and 500 mg strengths.

Dosage Paediatric dosage	25 to 40 mg/kg/day	40 to 60 mg/kg/day	60 to 100 mg/kg/day
Adult dosage	250 mg q.d.s.	500 mg q.d.s.	1 gram q.d.s. or t.d.s.
Urinary Tract Infections	Acute simple cystitis	Acute simple pyelonephritis	Chronic, recurrent or complicated pyelonephritis
ENT Infections	Acute pharyngitis, Acute tonsillitis	Acute sinusitis, Acute otitis media	Chronic sinusitis, Chronic otitis media
Respiratory Tract Infections		Acute bronchitis	Pneumonia

^{*} References available from Medical Department on request

Adverse reactions and precautions
A small proportion of patients receiving
cephalexin may experience gastrointestinal disturbances such as nausea,
vomiting, anorexia and general abdominal
discomfort. As with all broad-spectrum
antibiotics, superinfection can occur
(mostly monilial) and sometimes presents
as vulvo-vaginitis. Reversible neutropenia

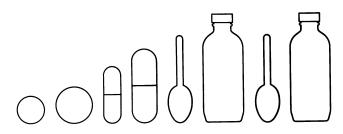

has occurred in a few patients, but is very rare. Generalised drug rashes — urticarial or maculopapular — are uncommon. When renal function is very markedly impaired, Ceporex will accumulate in the tissues unless the dosage is suitably reduced.

Contra-indication
Hypersensitivity to the cephalosporins.

Glaxo 🏶

Successful treatment starts with Ceporex

Ceporex

the more completely absorbed **oral** antibiotic

Day after day of freedom from asthmatic attack

The unique mode of action of disodium cromoglycate offers the asthmatic patient outstanding benefits. A prophylactic treatment, it prevents the onset of asthmatic episodes – thus minimising long-term damage to lung tissue. Freedom from asthma attacks permits a happier, more normal life for the asthmatic patient.

Published clinical reports confirm that with INTAL COMPOUND, the incidence and severity of acute attacks is considerably reduced – even in patients on conventional therapy such as bronchodilators, antihistamines and corticosteroids. Less time is lost from work or school, exercise tolerance is improved and a consistent clinical comment on disodium cromoglycate has been the total absence of serious side effects.

INTAL COMPOUND - supplied in SPINCAPS (each containing 20 mg disodium cromoglycate, and 0.1 mg Isoprenaline Sulphate BP in powder form, together with an inert carrier). For use in a special insufflator-SPINHALER.

Full information is available on request. Fisons Limited, Pharmaceutical Division, Loughborough, Leicestershire.

ANTIBIOTICS AND THE INTESTINAL FLORA

Treatment with broad spectrum antibiotics suppresses the normal flora, which may be replaced by abnormal resistant organisms causing diarrhoea.

This change can be prevented or reversed by the implantation of Lactobacillus acidophilus which has been rendered antibiotic-resistant, and is thus able to multiply freely under these abnormal conditions. The products of growth of the organism are inimical to that of many other bacterial 2 and thus contribute to its rapid preponderance over other species.

Oral treatment with antibiotic-resistant L. acidophilus in the form of ENPAC has been shown to eliminate Candida from the faeces of infants with antibiotic-induced diarrhoea, with relief of symptoms succeeded by rapid gain in weight³ 4 and greatly to reduce the numbers of staphylococci in the faeces of patients treated with tetracyclines.⁵

UNIVERSITY OF BRISTOL

DAY-RELEASE COURSE IN BASIC MEDICAL SCIENCE 1970-1971

This is an integrated course planned to provide guidance and tuition to those sitting the first part of postgraduate examinations in Surgery, Anaesthesia, Obstetrics and Gynaecology, Pathology and Medicine (Primary F.R.C.S., F.F.A., M.R.C.O.G., M.C.Path and Part I M.R.C.P.).

Refresher lectures in some general subjects will be given to the course as a whole, but individual needs will be met by running afternoon tutorial sessions for the different specialist groups.

The course will be held every Wednesday from September 16, 1970 until March 1971, and will take place in Bristol.

The fee for the course will be £40 but those attending may claim to have this fee and travelling expenses paid by their employing authority.

Application forms and further details may be obtained from the Medical Postgraduate Dean, Senate House, Tyndall Avenue, Bristol, BS8 ITH.

British Steel

GENERAL STEELS DIVISION

TEESSIDE AND WORKINGTON GROUP

Medical Officers

Ref. No. TSWG/22

Two medical officers are required to assist the Senior Medical Officer in the task of setting up a comprehensive Occupational Health Service for the steelworks on Teesside. One of these Medical Officers will be appointed as soon as possible and will be based at Hartlepool to serve the steelworks on the North of the Tees. The other Medical Officer will be based at Lackenby (South of the Tees) with the Senior Medical Officer and will be appointed in about four months' time.

The proposed Health Service is a new one and will serve over 30,000 employees. Nurses are yet to be recruited.

The doctors appointed will have a unique opportunity to gain experience in the development and organisation of a large Occupational Health Service. There will be considerable scope for clinical and industrial medicine. Applicants should have a genuine desire to make a career in industrial medicine.

There are opportunities within the British Steel Corporation's Medical Service promotion, and post-graduate training in industrial medicine is encouraged. The salary will be in accordance with the British Medical Association's scales for Medical Officers.

Applications, giving details of experience and personal details, and also quoting Ref. No.,

Manager, Staff Development (Group), British Steel Corporation, General Steels Division, Teesside and Workington Group, G.P.O. Box II,

Royal Exchange, Middlesbrough, Teesside, TSI IDY.

Applicants should state name, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given. Canvassing disqualifies (Statutory Instrument, 1969, No. 163).

SALARY SCALES OF HOSPITAL MEDICAL STAFF

Following the Twelfth Report of the Review Body, new salary scales have been approved. These came into force on April 1, 1970. The scales are set out below: HOUSE OFFICER: Each post in this grade shall be tenable for six months. £1,626 per annum for the posts held during the first year; £1,755 per annum for posts held during the second year; £1,884 per annum for posts held during the third and subsequent years, subject to full registration.

Deductions of £165 per annum in respect of lodging only for voluntary residence.

residence. SENIOR HOUSE OFFICER: £2,040 per annum in the first year; £2,184 per annum in the second year; £2,328 per annum in the third or subsequent years. Deductions of £195 per annum in respect of lodging only for voluntary

residence.

REGISTRAR: £2,328 per annum × £144(3) × £126(1)—£2,886.

Deductions of £195 per annum for those with remuneration at the first point on the scale, and £225 per annum for those on the second and subsequent points will be made in respect of lodging only for voluntary residence.

On assimilation to the scale for Registrars, one increment and one only shall be given for any year or part of a year in excess of two spent previously in the senior house officer grade.

Allowances at rates up to £183 per annum shall be payable to house officers, senior house officers and registrars occupying posts approved for such allowances in peripheral hospitals.

SENIOR REGISTRAR: £2,760 per annum × £126(1) × £174(1) × £177(1) × £177(1) –£3,588.

Deductions of £250 per annum in respect of lodging only for voluntary residence.

residence.

On assimilation to the salary scale for senior registrars, increments to a maximum of two shall be given for each year or part of a year in excess of three spent previously in the registrar grade.

MEDICAL ASSISTANT: £2,415 per annum × £138(1) × £150(3) × £138(10)—£4,383.

Deductions of £250 per annum in respect of lodging only for voluntary residence.

residence.

CONSULTANT: £3,990 per annum × £231(9)—£6,069.

Deductions of £390 per annum in respect of lodging only for voluntary

Deductions of 4,390 per annum in respect or adapting only for residence.

COMPULSORY RESIDENCE: The Terms and Conditions of Service of Hospital Medical and Dental Staff state:
173. A practitioner who is required as a condition of his appointment to reside in a hospital shall be provided with lodging without charge, except where the practitioner elects to occupy a house, flat or apartment for which a rental is appropriate.

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters may be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association.

MOBILE WELFARE SERVICES IN KENYA (male or female)

The International Planned Parenthood Federation is assisting the development of Kenya's family planning programme providing mobile teams for rural areas. Each team is based in a town and covers the surrounding rural area and will be led by a doctor, assisted by a nurse and a health worker. The teams carry out maternal and child health work, with special emphasis on family planning, nutrition, child health and immanization.

Previous experience of maternal and child health work is less important than the enthusiasm nucessary to develop a service in a health duration and the training of personnel.

There will be opportunity for the doctor to do original work especially in the obstetric and paediatric fields.

Salary according to experience but minimum £2.750 per annum.

Medical Officer/ Physician

£5,000 p.a.

Mufulira, which is one of the four mines on the Copperbelt of Zambia managed by RST and owned in partnership with the Zambian Government, invites applications for the above post from medical practitioners with adequate experience and a higher qualification in medicine, notably

The Company provides a comprehensive health service for its employees and dependants which number approximately 55,000 local and 3,000 expatriate personnel. The curative medical services centre round two well equipped hospitals totalling 460 beds. The present establishment of medical officers is 13, including those with higher qualifications. An additional medical officer is now required who will serve primarily as consultant physician. In common with the other medical officers employed, duties will include a certain amount of general medical work which in this instance will be minimal. In addition, a limited amount of student nurse teaching will be involved, associated with a training school for registered nurses which has recently been established at the larger hospital.

Employment will be on a two or four year's contract renewable by agreement. Starting salary will depend on experience and qualifications but total annual emoluments will not be less than the equivalent of £5,000. Leave will accrue at 55 days per annum and a car is provided for professional use.

Additional benefits include - paid return passages and, in the case of a 4 year contract, mid contract leave passages for applicant and family = baggage allowance = furnished house at sub-economical rental = free life assurance = children's education allowance up to the equivalent of £500 per child with two holiday fares per annum.

At 4,000 ft a.s.l. the Copperbelt enjoys an ideal climate with sunshine all year round. Excellent facilities exist for practically all sports and leisure activities including television.

All applications will be treated in strictest confidence.

For application form write or telephone:

F. C. Wilson, 124/70, Overseas Appointments Division, RST International Metals Limited, One Noble Street, London EC2 Telephone 01-606 8800 Ext 300

Overseas Development

The provision of skilled manpower is a vital element in Britain's aid to the developing countries. Your professional skills will be welcome and you will have the satisfaction of doing a challenging, responsible and worthwhile job. In addition to the emoluments quoted for the vacancies below there are usually substantial extra benefits, including terminal gratuities, family passages, paid leave, educational grants and free or subsidized accommodation. For certain of these appointments an appointment grant of up to £200 and a car purchase loan of up to £300 may be payable. Employment will be on contract to the overseas Government; in most cases superanuation rights can be preserved or maintained. Candidates should be citizens of, and permanently resident in, the United Kingdom. They must possess full medical qualifications and be eligible for full registration with the General Medical Council in the United Kingdom.

REGISTRAR (E.N.T.) £2,834-3,424/Barbados

The officer will be directly responsible to the Head of Department at the Queen Elizabeth Hospital and under the general direction and control of the Hospital Director for those duties usually required in a teaching hospital. He should be under 25 and preferably possess FRCS or equivalent OR have at least one year's post registration experience in ENT. Emoluments quoted above include an inducement allowance, normally tax free, of £684-924. Contract 2-3 years.

ANAESTHETIST £3,424/Barbados

For work in a general hospital of 600 beds. In addition to clinical duties the officer will be required to help train medical students and student nurses. Candidates must be under 57, qualified and have the FFA OR equivalent with at least 5 years' post-registration experience, four of which must have been spent in the practice of anaesthesia. Emoluments quoted above include an inducement allowance, normally tax free, of £924. Private practice permitted. He will receive 75% of fees of paying patients. Contract 2-3 years.

CONSULTANTS £3,946-4,791/Uganda

Post A: Consultant Physicians. For clinical duties in an up-country location, either Gulu, Fort Portal or Mbale. They will be expected to assist in the teaching of junior staff. They must possess the MRCP or equivalent followed by four years' proven experience in a responsible position.

position. Post C: Officer in Obstetrics and Gynaecology. For clinical duties in obstetrics and gynaecology and to assist in teaching of junior staff. Candidates should possess the MRCOG.

All Posts: Emoluments quoted above include an inducement allowance, normally tax free, of £1,030-1,116. Contract 21-27 months

SURGEON SPECIALIST £2,986/St. Kitts

To be responsible for all general surgical patients and for casualty cases at Joseph France General Hospital and for other duties as required by the Chief Medical Officer. He should be FRCF. Emoluments quoted above include an inducement allowance, normally tax free, of £1,236. In addition an allowance of £750 is payable in lieu of private practice. Contract 2-3 years.

ANAESTHETIST £2,986/St. Kitts.

Required at the Joseph France General Hospital to administer anaesthetics during operating sessions, and when necessary, to share duty as medical officer on wards. He should possess a high qualification in anaesthetics. Emoluments quoted above include an inducement allowance, normally tax free, of £1,236. Limited private practice is permitted or an allowance of £250 is paid in lieu. Contract 2-3 years.

CONSULTANT PSYCHIATRIST £3,538-3,717/Fiji

NEW ZEALAND ALUMINIUM SMELTERS LIMITED

INDUSTRIAL MEDICAL SERVICES - GENERAL MEDICAL PRACTICE

Inquiries are invited in relation to a part-time position of Medical Officer in a manufacturing plant and an opportunity to establish a private medical practice. New Zealand Aluminium Smelters is constructing an aluminium smelter scheduled to commence production on July 1, 1971, near Invercargill, New Zealand

Medical facilities and services will be established on the plant site. The plant will operate 24 hours per day with a work force of nearly 1,000.

Advice and guidance on medical matters will be available from Kaiser Aluminium and Chemical Corporation of U.S.A. and the New Zealand Government Health

The Company envisages that an arrangement will be made with a Medical Officer for part-time employment by the Company with the remainder of his time being available for private practice of medicine.

The duties of the Medical Officer in relation to the Company would include—

- (1) Pre-employment and periodic medical examinations.
 (2) Supervision of emergency medical care.
 (3) Advice on health and safety matters throughout the plant.

Australia.

Provision will be made for the Medical Officer to require a full working knowledge of the manufacturing processes and the plant environment.

New Zealand Aluminium Smelters Ltd. invites inquiries from registered medical practitioners who may be interested. Inquiries should be marked "Confidential" and addressed to:

The Executive Director, New Zealand Aluminium Smelters Ltd., G.P.O. Box 59A Melbourne 3000,

(10506)

JUST PUBLISHED

TODAY'S DRUGS

New 1970 Edition

I—Antibiotics

The problem facing the prescribing doctor today is choice. Catalogues of drugs—no matter how detailed—are of little help unless accompanied by advice on which drug to give for what condition. So this new edition of "Today's Drugs" not only gives a full account of the drugs but also includes clear accounts of the management of common conditions such as urinary infections and epilepsy.

The new edition differs from the earlier one in other ways. It deals with only three subjects infections, vitamin deficiencies and anaemias, and disorders of the nervous system. Further volumes will be published at intervals of about a year, and by the time the whole field of therapeutics has been covered this first volume will have become obsolete and due for replacement. In order to further emphasize the ephemeral nature of books on therapeutics—and to cut costs—the book is a paperback.

NIGHT CRAMPS 90% improvement

CHRONIC ACHING PAIN 54% improvement

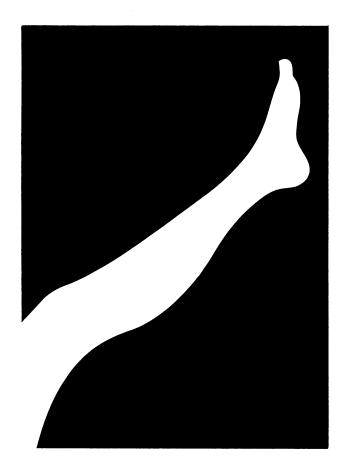

"The most obvious effect of treatment with HR (Paroven) is the very constant relief of night cramps, with an improvement exceeding 90 per cent."

(Brit J Clin Pract (1970) 23, 161)

"The degree of relief in chronic aching pain in the legs was not so marked, (compared with 90% improvement in night cramps and 70% improvement in heaviness of the legs), but still amounted to 54 per cent."

(Brit J Clin Pract (1970) 23, 161)

PAROVEN

HEAVY LEGS 70% improvement

"Symptoms of heavy legs are improved in 70 per cent, and it was generally agreed that not only did legs feel lighter but the patients were more agile."

(Brit J Clin Pract (1970) 23, 161)

improves capillary flow

PAROVEN varicose veins and post phlebitic syndrome

Recent clinical and double blind trials^{1 2} have confirmed that PAROVEN provides outstanding relief of symptoms due to chronic venous insufficiency or back pressure. Particularly good results were obtained in night cramps, heavy legs and chronic aching pain. Other symptoms which respond to long-term therapy with Paroven include:

superficial thrombophlebitis, varicose ulcers, varicose eczema, ankle oedema, restless legs, paraesthesia, haemorrhoids.

Dosage Initial treatment: 4 capsules a day, preferably with meals. Maintenance treatment: 1-2 capsules a day

Side effects and Precautions In a few patients, slight gastro-intestinal disorders, flushes and headaches have been reported. These are usually overcome by taking the capsules with meals or by slight adjustment of dosage. There are no known contra-indications to Paroven; it is virtually non-toxic and has no teratogenic effects. In keeping with current teaching and practice its use during the first trimester should, however, be avoided.

Availability Capsules, each containing 250 mg of 0-(β hydroxyethyl) – rutosides (not less than 45% troxerutin), in bottles of 20 and 100 capsules.

- 1 Brit J Clin Pract (1970) 23, 161-164.
 2 Practitioner accepted for publication 1970.

SCALP APPLICATION GETS DOWN TO THE ROOT OF SCALP DERMATOSES... AND NO MESSING!

Betnovate Scalp Application has been developed specifically for the treatment of steroid-responsive dermatoses of the scalp such as psoriasis and seborrhoea capitis. It contains, in a slightly gelled, alcoholic solution, 0-1% betamethasone as 17-valerate—the most successful topical steroid.

Betnovate Scalp Application is contained in a plastic squeeze bottle with an elongated nozzle. This allows the liquid to be applied directly to the affected area without disturbing the hair. The slightly gelled solution needs no rubbing-in — it spreads itself easily without dripping.*

Betnovate Scale Application leaves no odour and no visible residue. The spirituous nature of the liquid allows the preparation to dry off quickly and cleanly, leaving only an invisible layer of Betnovate. This quick-drying action produces a cooling effect on the scalp, accompanied by the rapid relief which Betnovate (trade mark) brings from itching and inflammation.
