

When testators ask your advice, please remind them of the urgent work of the Imperial Cancer Research Fund. In the Fund's up-to-date laboratories trained minds are using every weapon of modern science to fight all forms of cancer, including leukaemia.

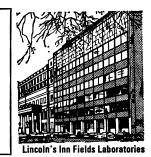

Now one of the world's great research centres, the I.C.R.F. relies entirely on public support. The cancer problem *must* be solved. Please help now.

Form of Bequest

I hereby bequeath the sum of......pounds free of duty to the Imperial Cancer Research Fund, Lincoln's Inn Fields, London, WC2A 3PX for the purpose of scientific research, and I direct that the receipt of the Honorary Treasurer or Secretary shall be a good discharge for such legacy.

Please write for further information to: The Secretary, I.C.R.F. (Dept101), PO Box 123, Lincoln's Inn Fields, London WC2A 3PX

IMPERIAL CANCER RESEARCH FUND

Roche Medical Information Service | Larodopa

Roche has played a prominent role in the development of L-Dopa; beginning with the first chemical studies, through years of intensive clinical research, and culminating with the introduction of Larodopa.

This commitment to the subject of Parkinsonism and its treatment is reflected in the decision to establish the Roche Medical Information Service/Larodopa.* The aim of the Service is to provide doctors with Parkinsonian patients with the latest available information on the disease and its treatment.

For this reason, considerable space has been devoted in our Information Service reviews to a comprehensive list of clinical trials results, since these are the doctors main guides to effectiveness and safety on those rare occasions when the introduction of a new product really does mark a breakthrough in treatment. The results are encouraging.

The following table shows the cumulative percentage results of 19 trials carried out in 1969 and 1970.

Total no.	Results	Results
of patients	"worthwhile"	"slight or nil"
1012 (107 not	70%	20%
classified = 10%)	(703)	(202)

^{*}Larodopa is the trade mark for Roche preparations containing 3-(3,4-Dihydroxyphenyl)-alanine.

Roche Medical Information Service | Larodopa

Fuller details of all these trials are included in reviews mailed earlier this year. If you have not received your copies, simply write to Roche Medical Information Service/Larodopa at the address below or phone 01-935 5566.

For example in a trial, 1 60 of the 77 patients showed benefit from Larodopa. Neither age nor duration of illness appeared to affect results. Seven of the nine patients whose disease was of more than 16 years duration and 13 of the 16 subjects aged over 70 showed improvement.

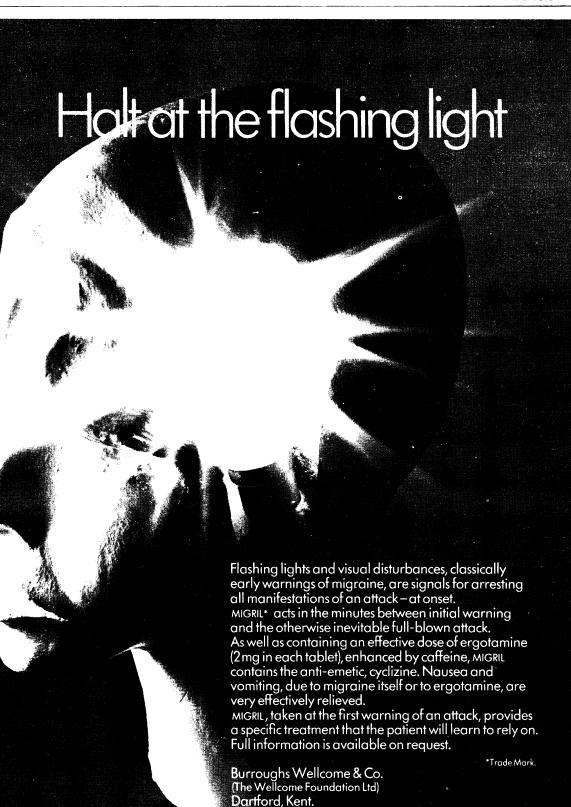

During these early days we shall continue to keep doctors informed of all important developments but meanwhile the supply situation remains unchanged and Larodopa is available through your hospital pharmacist. The great interest shown in the product will ensure the maximum effort to expand availability at the earliest possible moment.

1. Paper presented to the French Society of Neurology, Paris, February 1970.

Full information is available on request from: Roche Products Limited, Medical Information Service/Larodopa, 15 Manchester Square, London W1M 6AP.

iv

拉 Wellcome Migril masters migraine

With a faecal softener to prepare the way, and just a small dose of peristaltic stimulant completing evacuation, Dorbanex avoids the problems of conventional laxative treatment. What difference does the faecal softener make to treatment? A soft but formed stool; the restoration of faecal bulk to normal; non-oily lubrication of the gut contents. By this comprehensive approach, Dorbanex provides easier and more predictable evacuation than conventional laxatives, reduces the need for enemas and suppositories, minimises the risk of straining at stool or faecal impaction, lessens apprehension about answering the call to stool, helps to break the laxative habit, gently restores neuromuscular sensitivity, and simplifies patient management.

Available in three forms to treat constipation in any patient of any age, Dorbanex provides the prospect of successful treatment that avoids the problems of conventional laxative therapy.

Dorbanex Capsules: each capsule contains 1:8-dihydroxyanthra-quinone 25 mg., poloxalkol 200 mg. Dosage: Adults, one or two capsules. Children, one capsule. Before or after surgery: two to four capsules. Treatment should be taken at

Dorbanex Forte: each 5 ml. teaspoonful contains 1:8-dihy-droxyanthraquinone, 75 mg., poloxalkol 1000 mg. Dosage: One teaspoonful or as directed by the physician. Treatment should be taken at bedtime.

Dorbanex Liquid:
each 5 ml. teaspoonful contains 1:8-dihydroxyanthraquinone 25 mg. poloxalkol 200 mg. Dosage: Adults, one or two teaspoonfuls. Children, half to one teaspoonful, as required. Before or after surgery two to four teaspoonfuls. Treatment should be taken at bedtime.

Contra-indications In common with other gastro-intestinal evacuants, Dorbanex should not be given when acute, painful conditions of the abdomen are present, or the cause of constipation is suspected to be obstruction of the small or large intestine. Side-effects Dihydroxyanthraquinone may cause a temporary harmless, pink or red colouring of the urine and, in prolonged use or high dosage, of the mucosa of the large intestine. Doses larger than two teaspoonfuls may cause slight gastro-intestinal discomfort in a few patients. Basic NHS Prices Dorbanex Capsules: bottles of 30 capsules 8/8; bottles of 30c capsules 78/-; Dorbanex Liquid: bottles of 60 ml. 4/-; bottles of 500 ml. 30/-; Dorbanex Forte: bottles of 60 ml. 6/-; bottles of 500 ml. 45/-.

Domost of your elderly patients admit to urinary fr

Regrettably, the lack of socially acceptable words for the excretory functions makes communication between patient and doctor difficult².

eauency?

(They should: most of them have it)

The very next elderly patient you will see probably needs Cetiprin to control urinary frequency. In a recent investigation reported in 'The Practitioner', the drug produced a 'good' or 'excellent' response in over 75% of the patients'. The consequent improvement in the patient's general health following treatment with Cetiprin is obvious, as will be the saving of your precious time. Imperfect bladder control is a troublesome problem in general practice, leading in many patients to anxiety, depression and loss of sleep's. Perhaps this is one of the prime reasons for the statement made in 'The

Biocrats', by Gerald Leach (pub. Jonathan Cape Ltd, London, 1970, p. 285) that '... old people on average need medical treatment twice as frequently, with each treatment lasting twice as long, as do the rest of the population'.

Cetiprin (emepronium bromide); Ethyl (3,3-diphenyl-1-methylpropyl) dimethylammonium bromide.

FOR THE PREVENTION AND TREATMENT OF NON-SPECIFIC DIARRHOEAS

Prevention

'Migraine does not destroy life but can destroy the joy, value and rewards of living.'1

Dihydroergotamine-Sandoz is a new tablet formulation that makes migraine prophylaxis simpler and more practicable than ever before. Dihydroergotamine modifies the vasomotor activity; side-effects are rare and there has been no evidence of ergotism

on prolonged administration. In one trial², Dihydroergotamine 2 mg. administered regularly 3 times a day was used to treat 80 patients with migraine. Improvement was recorded in 58 (72.5%); migraine disappeared in 32 patients and was greatly or partially reduced in the remaining 26.

Dihydroergotamine-Sandoz

each tablet contains I mg. dihydroergotamine mesylate. Further information is available on request.

See next page for more information

"It's that pain again when I pass water"

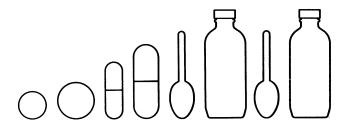

It's her third attack of acute cystitis in six months. A number of treatments were tried. This time Ceporex is being prescribed. The vast majority of urinary tract infections are caused by a few gram-negative bacilli, e.g. *E. coli* and *Proteus mirabilis*. Ceporex rapidly kills these organisms. The antibiotic is virtually completely absorbed when given orally and quickly achieves high serum concentrations allowing rapid diffusion into the affected tissues. And it is excreted into the urine in the active form. It has low

toxicity, is well tolerated and can be considered in patients hypersensitive to the penicillins.

For detailed information on Ceporex (trade mark), write to Glaxo Laboratories Ltd Greenford, Middlesex

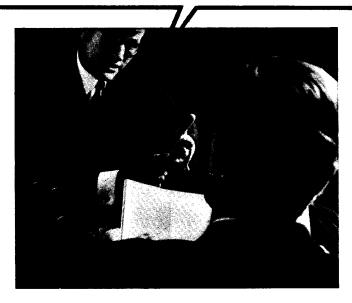

Successful treatment starts with Ceporex

"And I've found Ceporex just as successful in pneumonia and otitis media"

Ceporex means successful treatment in respiratory and ear, nose and throat infections as well as in urinary infections. Clinical trials have demonstrated clinical success rates of over 80% in acute urinary tract infections, over 90% in pneumonia, and over 85% in ear, nose and throat infections.*

But that's not all. Ceporex is available in the widest possible variety of presentations to suit almost every patient-need.

The new 500 mg/5 ml syrup provides the high dosage treatment needed in more serious infections such as pyelonephritis or pneumonia. The 250 mg/5 ml syrup is suitable for more susceptible infections in adults and is particularly useful for otitis media in children.

Ceporex Tablets 250 mg and 500 mg are film-coated and the smallest cephalexin tablets available. They are easily identified by their engraved name and strength. As an alternative to tablets there are small, red and grey capsules in 250 mg and 500 mg strengths.

Dosage Paediatric dosage	25 to 40 mg/kg/day	40 to 60 mg/kg/day	60 to 100 mg/kg/day
Adult dosage	250 mg q.d.s.	500 mg q.d.s.	1 gram q.d.s. or t.d.s.
Urinary Tract Infections	Acute simple cystitis	Acute simple pyelonephritis	Chronic, recurrent or complicated pyelonephritis
ENT Infections	Acute pharyngitis, Acute tonsillitis	Acute sinusitis, Acute otitis media	Chronic sinusitis, Chronic otitis media
Respiratory		Acute bronchitis	Pneumonia

^{*} References available from Medical Department on request

Adverse reactions and precautions
A small proportion of patients receiving
cephalexin may experience gastrointestinal disturbances such as nausea,
vomiting, anorexia and general abdominal
discomfort. As with all broad-spectrum
antibiotics, superinfection can occur
(mostly monilial) and sometimes presents
as vulvo-vaginitis. Reversible neutropenia

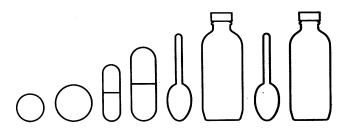

has occurred in a few patients, but is very rare. Generalised drug rashes – urticarial or maculopapular – are uncommon. When renal function is very markedly impaired, Ceporex will accumulate in the tissues unless the dosage is suitably reduced.

Contra-indication
Hypersensitivity to the cephalosporins.

Glaxo 🏶

For detailed information on Ceporex (trade mark), write to Glaxo Laboratories Ltd Greenford, Middlesex

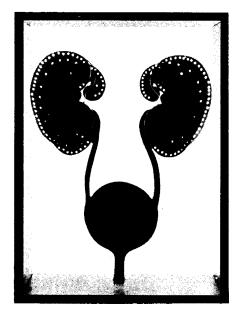

Successful treatment starts with Ceporex

the more completely absorbed oral antibiotic

in urinary infections 'clearly superior' to ampicillin or sulphadimidine

Higher cure rates

These comparative results were obtained in treating hospital in-patients with UTI¹, most of whom were infected with entrenched hospital pathogens.

85% cure rate	SEPTRIN*	
70% cure rate	ampicillin	
40% cure rate	sulphadimidine	

(Cure criterion=eradication of original organism 1 week after treatment ended.)

SEPTRIN was "clearly superior to either of the other treatments" and this superior effect was "even more appreciable in the re-treatment of patients who had failed on another drug."²

SEPTRIN Tablets, SEPTRIN Paediatric Suspension and SEPTRIN Paediatric Tablets contain trimethoprim and sulphamethoxazole. Full information is available on request.

*Trade Mark

Clear reasons for using Septrin

Abstracted from a Leading Article in the *British Medical Journal*².

- □ Trimethoprim not only attains therapeutic tissue levels, but is excreted unchanged in high concentration in the urine.
- ☐ All Gram-negative bacilli occurring in the urine, except Pseudomonas aeruginosa, are usually highly sensitive to it.
- Pseudomonas aeruginosa, are usually nightly sensitive to it leads to be be be being the sensitive to it.
 □ Its minimum inhibitory concentration is extremely low.
- ☐ Trimethoprim and a sulphonamide, by blocking successive stages in the same bacterial metabolic process, exert a strong synergic effect, and this action is bactericidal.

JUST PUBLISHED

Today's Drugs

New 1970 Edition

1—Antibiotics

The problem facing the prescribing doctor today is choice. Catalogues of drugs—no matter how detailed—are of little help unless accompanied by advice on which drug to give for what condition. So this new edition of "Today's Drugs" not only gives a full account of the drugs but also includes clear accounts of the management of common conditions such as urinary infections and epilepsy.

The new edition differs from the earlier one in other ways. It deals with only three subjects—infections, vitamin deficiencies and anaemias, and disorders of the nervous system. Further volumes will be published at intervals of about a year, and by the time the whole field of therapeutics has been covered this first volume will have become obsolete and due for replacement. In order to further emphasize the ephemeral nature of books on therapeutics—and to cut costs—the book is a paperback.

PRICE 20s. (U.S.A. \$3.00) including postage

Diseases of the Digestive System

"... an authoritative review of digestive systems ..." "... can be strongly recommended to undergraduate and postgraduate students, to general practitioners and to consultant physicians and surgeons ... to help them in their day-to-day clinical practice of gastroenterology."

Practitioner (1969), 203, 331

- ". . . a most concise, easily read and accurate progress report . . ."
- ". . . a book which can be equally well recommended for those in general practice as well as for hospital doctors."

Brit. J. Hosp. Med. (1969), 2, 1734

". . . a volume such as this will be particularly welcomed by general practitioners."

Road Accidents and the Family Doctor

Road accidents are now acknowledged to be one of the major epidemics of our time. It has been estimated that as many as a quarter of accident deaths could be saved by skilled treatment at the site of the accident, and recently doctors in Britain and abroad have been playing an increasingly active part in this. This booklet, which reprints a series of articles which appeared in the *B.M.J.* last autumn, contains contributions on organization and medical equipment, the management of soft-tissue injuries, resuscitation, fractures of the spine, and extrication of persons trapped in a vehicle. The introduction is written by Mr. Norman Capener, Chairman of the Medical Commission on Accident Prevention.

the 'inside secret' of treating in-rolling feet

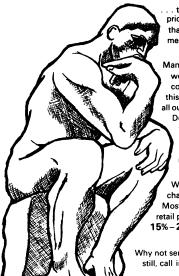

Prescribe an external shoe wedge, and you only do part of the job. The wedge wears away to become largely ineffective—and in any case it disturbs the proper balance of the shoe. On top of that you run the risk of introducing a psychological problem too—what child wants to wear shoes that make him look and feel abnormal?

The answer can be found in Start-rite INNERAZE, the shoes that are orthopaedically designed to correct in-rolling with an invisible built-in wedge that can't wear or change shape.

For further information about the shoes with an 'inside secret' or details of the explanatory 12-minute INNERAZE 16mm colour film available on loan, write to: C. James, Fitting Consultant, Start-rite Shoes Ltd., Crome Road, Norwich, NOR 60A.

THINKING PEOPLE KNOW

.. that there are no recommended prices for **CARPETS**. They realise that offers of 30% or 33½% discount mean absolutely nothing.

Many claim to give large discounts—we just say that our prices will stand comparison with anyone's. Couple this with the vast choice available in all our showrooms (the London Carpet Department is believed to contain the largest selection in the country with over 4,000 different carpets beautifully displayed) and you really can't go wrong.

We also have a huge, constantlychanging range of FURNITURE. Most makes have a recommended retail price and our discount varies from 15% – 20%*

Why not send for our free brochure or, better still, call in at one of our showrooms.

*Excluding Purchase Tax.

Margaret Pyke Centre for study and Training in Family Planning

A TWO-DAY LECTURE COURSE IN **SUBFERTILITY**

is being held at the Margaret Pyke Centre on 2 and 3 November

and is intended as a refresher course for doctors already doing, or interested in this work. Those doctors who have not previously worked in this field would be expected to need some practical sessions to complete their training. Applications to Mrs. A. Roberts, Margaret Pyke Centre, 27-35 Mortimer Street, London W1A 4QW, by September 14. (10943)

MARGARET PYKE **CENTRE**

for Study and Training in **Family Planning**

A one-day Course for Obstetric and Gynaecological Registrars and Housemen will be held on Friday, December 4, 1970.

Lecture titles are as follows:-

Metabolic Problems of Oral Contraception; Barrier Methods of Contraception; Sexual Problems, Marital Difficulties, The Unmarried Patient; Vasectomy; Advantages and Problems Associated with IUD; Methods of Contraception—The Present and the Future.

For application form apply to Mrs. A. Roberts, Margaret Pyke Centre, 27-35 Mortimer Street, London W1A 4QW (01-636 1813), by October 1, 1970.

UNIVERSITY OF BRISTOL

DAY-RELEASE COURSE IN BASIC MEDICAL SCIENCE 1970-1971

This is an integrated course planned to provide guidance and tuition to those sitting the first part of postgraduate examinations in Surgery, Anaesthesia, Obstetrics and Gynaecology, Pathology and Medicine (Primary F.R.C.S., F.F.A., M.R.C.O.G., M.C.Path and Part I M.R.C.P.).

Refresher lectures in some general subjects will be given to the course as a whole, but individual needs will be met by running afternoon tutorial sessions for the different specialist groups.

The course will be held every Wednesday from September 16, 1970 until March 1971, and will take place in Bristol.

The fee for the course will be £40 but those attending may claim to have this fee and travelling expenses paid by their employing authority.

Application forms and further details may be obtained from the Medical Postgraduate Dean, Senate House, Tyndall Avenue, Bristol, BS8 ITH.

SALARY SCALES OF HOSPITAL MEDICAL STAFF

Following the Twelfth Report of the Review Body, new salary scales have been approved. These came into force on April 1, 1970. The scales are set out below: HOUSE OFFICER: Each post in this grade shall be tenable for six months. £1,626 per annum for the posts held during the first year; £1,755 per annum for posts held during the second year; £1,884 per annum for posts held during the third and subsequent years, subject to full registration.

Deductions of £165 per annum in respect of lodging only for voluntary residence.

residence. SENIOR HOUSE OFFICER: £2,040 per annum in the first year; £2,184 per annum in the second year; £2,328 per annum in the third or subsequent years.

Deductions of £195 per annum in respect of lodging only for voluntary

Deductions of £195 per annum in respect of lodging only for voluntary residence.

**REGISTRAR: £2,328 per annum × £144(3) × £126(1)—£2,886.

Deductions of £195 per annum for those with remuneration at the first point on the scale, and £225 per annum for those on the second and subsequent points will be made in respect of lodging only for voluntary residence.

On assimilation to the scale for Registrars, one increment and one only shall be given for any year or part of a year in excess of two spent previously in the senior house officer grade.

Allowances at rates up to £183 per annum shall be payable to house officers, senior house officers and registrars occupying posts approved for such allowances in peripheral hospitals.

**SENIOR REGISTRAR: £2,760 per annum × £126(1) × £174(1) × £177(1) × £174(1) × £177(1)—£3,588.

Deductions of £250 per annum in respect of lodging only for voluntary residence.

residence.

On assimilation to the salary scale for senior registrars, increments to a maximum of two shall be given for each year or part of a year in excess of three spent previously in the registrar grade.

MEDICAL ASSISTANT: £2,415 per annum × £138(1) × £150(3) × £138(10) -£4,383.

Deductions of £250 per annum in respect of lodging only for voluntary residence.

residence.

CONSULTANT: £3,990 per annum × £231(9)—£6,069.

Deductions of £390 per annum in respect of lodging only for voluntary

Deductions of £370 per similar residence.

COMPULSORY RESIDENCE: The Terms and Conditions of Service of Hospital Medical and Dental Staff state:

173. A practitioner who is required as a condition of his appointment to reside in a hospital shall be provided with lodging without charge, except where the practitioner elects to occupy a house, flat or apartment for whether the practitioner elects to occupy a house, flat or apartment for the rental is appropriate.

where the practioner elects to occupy a house, hat or apartment for when a rental is appropriate.

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters may be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association. (June 1970)

CANADA—THE ONTARIO CANCER INSTITUTE RESIDENT TRAINING IN THERAPEUTIC RADIOLOGY

The Ontario Cancer Institute incorporating The Princess Margaret Hospital offers a two year Diploma Course which combines clinical work on the wards and in the Out-patient Department of the hospital, and didactic courses in Anatomy, Nuclear Medicine, Pathology, Physics, Radiobiology, and Radiotherapy. This course leads to the Diploma in Medical Radiology (Therapeutic) from the University of Toronto, and is accredited by the Faculty of Radiologists in London. The hospital is recognized by the Royal College of Physicians and Surgeons of Canada, and the American Board of Radiology, for complete training in Radiotherapy over a period of three years. In addition it is accredited for Internal Medicine and Anatomic Pathology for a period of one year, and for six months in Diagnostic Radiology.

ternal Medicine and Anatomic Pathology for a period of one year, and for six months in Diagnostic Radiology.

The Princess Margaret Hospital provided complete facilities for cancer research, diagnosis and treatment, exclusive of major surgery. Over 3800 new patients are seen annually; there are 175 active treatment beds, and facilities include six Cobalt Units, two Caesium Units and a Betatron. Salaries range from \$7,600 to \$10,300 per annum.

Applications are invited for the year beginning July, 1971. For further details enquiries should be addressed to:

medical adviser – France

The French member of the Nicholas Australia Group of Companies has a vacancy for a Medical Adviser.

Although a French national, qualified in France, would be the ideal applicant, it is possible that the job may suit a doctor of a different nationality, who is fluent in French and who wishes to settle in the Annemasse region of France. A good knowledge of English is essential.

The successful applicant will be responsible for the clinical investigation of new and existing pharmaceuticals in France, and for advising the management on medical aspects of the Company's business there.

An attractive salary is envisaged for the right applicant and a car will be provided. Applications should be addressed to:

K. S. Woodford, Personnel Manager ASPRO-NICHOLAS LIMITED 225 Bath Road, Slough, Bucks

SYDNEY HOSPITAL **AUSTRALIA** SENIOR SURGICAL REGISTRAR

Applications, closing September 25, 1970, are invited for the position of Surgical Registrar, at Sydney Hospital for one year from January 11 1971, with eligibility for reappointment up to a maximum of three years. A higher qualification is surgery, and at least four years' experience from graduation, are essential.

Salary rate of \$A7,838 per annum, which includes higher qualifications allowance. An additional \$A608 is payable for the Clinical Administrative responsibilities for the post.

Duties include supervision, under the direction of the Honorary Surgeons, House and Trainee Specialist Surgeons, of one hundred general surgical patients. Teaching of undergraduates and organization of clinical meetings are part of his responsibility.

Sydney Hospital is a Teaching Hospital of The University of Sydney with over one hundred and eighty students being allocated to the Hospital for clinical training. Honorary Surgical Staff totals one hundred and eight, and full-time Resident Medical Officers, ninety.

Further particulars and application forms are obtainable from the General Medical Superintendent, Sydney Hospital, Macquarie Street, Sydney, N.S.W., 2000, Australia.

H. R. Beer, Chief Executive Officer.

NEW ZEALAND

SOUTHLAND HOSPITAL, KEW, INVERCARGILL

VISITING OPHTHALMOLOGIST

An unusual opportunity exists in this rapidly growing district for an Ophthalmologist to develop an Ophthalmic Unit in a modern hospital and at the same time establish a large private practice with Private Hospital Operating facilities. The Southland Hospital Board invites applications from Registered Medical Practitioners with higher qualifications in ophthalmology for the position of part-time Ophthalmologist.

Wages and conditions of employment are in accordance with the New Zealand Hospital (Medical Officers) Regulations. The hospital post is offered on a 5/10ths basis. Salary scale for this position will be determined within the automatic progression scale for Specialists \$6,740-\$9,101 per annum, the commencing rate on the scale to be determined by the Medical Officers Salaries Grading Committee. The salary to be as a proportion of the whole-time rate. There exists on the scale three higher steps which are based upon special ability or responsibility. An increase in are based upon special ability or responsibility. An increase in the scale is currently being negotiated.

This year Southland Hospital will reach a total of 360 occupied beds and plans are well advanced for a large Obstetric Unit and the first of two proposed 120-bed ward blocks. An Out-patients Department, including a well designed Ophthalmic Suite and a new suite of four Operating Theatres have recently been completed. Equipment includes a Fundus Camera and a Cyro Therapy Unit.

The Hospital serves as a base hospital for the Southland region with a present population of 112,000, half of which is centred around the City of Invercargill. The population is growing rapidly as secondary industry is added to what has hitherto been a wealthy agricultural and pastoral economy.

The climate is similar to the South of England. Invercargill is within easy reach of sea, mountains, and rivers and access to outdoor sports is both easy and economical. There is ample work in the district for two Ophthalmologists and if two friends or a husband and wife team wish to apply, the Board would be prepared to negotiate a second hospital appointment.

Application forms and Conditions of Appointment and other data are available from the Secretary, Southland Hospital Board, P.O. Box 39, Invercargill, New Zealand. (11043) 61-1

RESIDENT MEDICAL OFFICERS **VACANCIES OCCURRING** MID-JANUARY 1971

Applications are invited from 1st and 2nd Year Medical Graduates for Resident Medical Officers. The Broken Hill and District Hospital is a 350-bed General Hospital with Resident Specialists in Medicine, Surgery, Anaesthetics and Rehabilitation. 1st and 2nd year Resident Medical Officers do rotating residencies every three months in Medicine, Paediatrics, Obstetrics, Anaesthetics, Surgery and Casualty. The Hospital provides excellent training and experience prior to entry into general practice. general practice.

The annual salary is \$4,919 for 1st year Graduates and \$5,538 for 2nd year Graduates; in addition, an annual Bonus as follows is payable on the completion of 12 months satisfactory service:

1st year Graduate: \$1,000 2nd year Graduate \$1,500

Three bedroom furnished residencies are available at the Hospital for the nominal rental of \$10.00 per week.

Further details may be obtained on application to the Medical Super-intendent, Broken Hill Hospital, Broken Hill, N.S.W. 2880.

F. R. NICHOLLS, Chief Executive Officer. 61-1

(H9892)

NEW ZEALAND ASHBURTON HOSPITAL

FULL-TIME PHYSICIAN

Applications are invited from Registered Medical Practitioners for the position of Full-time Physician. The position carries up to specialist status depending on the qualifications of the applicant and the actual commencing rate will be determined by the Salaries Grading Committee up to Scale \$NZ6,740-\$NZ9,101.

Excellent residential accommodation available as detailed in the conditions of appointment which together with the official application form are available from the undersigned or the High Commissioner for N.Z., N.Z. House, The Haymarket, London. Transport expenses to N.Z. will be refunded subject to a

two-year contract.

Further particulars may be obtained from the Surgeon Superintendent.

H. W. Kelk, Secretary, Ashburton Hospital Board, Box 284, Ashburton, N.Z. (13953)61-1

Sir Charles Gairdner Hospital Western Australia

HEAD OF DEPARTMENT OF PULMONARY PHYSIOLOGY

Applications are invited from suitably qualified medical practitioners for the newly created post of Head of the Department of Pulmonary Physiology. Applicants should hold a higher qualification in medicine and have had considerable experience and conducted some research into diseases associated with pulmonary physiology.

The Sir Charles Gairdner Hospital is a 380-bed general hospital which is being progressively expanded to become the major teaching hospital associated with the Faculty of Medicine of the University of Western Australia. The Hospital has a large thoracic unit. The building programme allows for an increase to 1000 beds within the next five years.

The appointee will be responsible for the organisation and management of the Pulmonary Physiology Department and will be engaged primarily in clinical pulmonary physiology. Facilities will be available for the undertaking of research projects. Appropriate University status will be sought for the successful applicant.

Remuneration will be within the range \$12,360—\$12,875—\$13,390 with progression to the maximum by annual increments.

Transport expenses will be provided for the successful applicant and his family (under 16 years of age) together with an allowance of up to £230 for the cost of removal of personal effects, subject to a bond to remain in the Hospital's service for a period of three years

Applications addressed to the undersigned enclosing details of qualifications and previous experience, together with full personal particulars, the names of three referees, and a recent photograph, close on September 30, 1970.

A. F. T. THOMSON, Administrator.

Saluric Discovered by MSD — the first and now standard

thiazide diuretic

Introduced in 1958, 'Saluric' (chlorothiazide MSD) was the first of the thiazides, and still today is unsurpassed in effectiveness and safety by the thiazides which have followed.

'Saluric' is often used as a standard reference drug by which other oral diuretics are measured. The documentation of course is vast.

'Saluric' is indicated in all types of oedema, including that which accompanies the premenstrual syndrome. In addition, 'Saluric' has an antihypertensive action and also potentiates the effect of other antihypertensive agents.

Each tablet of 'Saluric' contains 500 mg chlorothiazide MSD. Detailed information is available to physicians on request. ® denotes registered trademark
