PROGNOSIS IN ELEVATED BLOOD PRESSURE

Implications of insurance statistics

The charts on the opposite page are based on the accumulated experience of 26 insurance companies in America covering nearly 4,000,000 people who were accepted for life insurance. The statistics reveal that even modest elevations of blood pressure are associated with definite decreases in life expectancy.

For example, a male of 45 years with a blood pressure 150 100 mm Hg has his average life expectancy reduced from 32 to 20½ years—*a loss of* 11½ *years.*

Fortunately, substantial evidence has accumulated to show that effective treatment with modern antihypertensive drugs can considerably improve the depressing prognosis indicated by the insurance companies' statistics.

Prognosis in Elevated Blood Pressure

Reduction in Life Expectancy

Life Expectancy in Elevated Blood Pressure Compared with Normal Expectancy

Reductions in expectation of life associated with elevated blood pressure are **not** proportionate to the degree of excess mortality. This holds even for very high blood pressures.

The magnitude of the reduction in life expectancy increases with elevation in blood pressure, but decreases with age.

The figures illustrate approximate reductions in life expectancy associated with indicated elevations in blood pressure.

How many of the drugs you prescribe are as well documented as Alka-Seltzer?

TRADE MARK

In the booklet 'A Scientific Assessment of Alka-Seltzer' no less than forty-three sources of reference are quoted – and that represents only part of the documentation available on the product. Based on these references the facts about Alka-Seltzer are presented in explicit detail:

Physico-chemical studies–on pH, solubility, ionisation and fat-solubility, antacid and buffering action *in vitro*.

Pharmacological studies–on antacid and buffering action *in vivo*, effect on gastric emptying, absorption, salicylate blood levels, excretion.

Therapeutic studies–on its antacid and analgesic properties.

Safety studies–on the difference between sodium acetylsalicylate and acetylsalicylic acid, gastroscopic observations, faecal blood loss, and special studies related to alcohol ingestion.

The total picture that emerges is that of a safe and effective home remedy which is as well documented as many ethical prescription items.

For every doctor who is concerned about the subject of self-medication 'A Scientific Assessment of Alka-Seltzer' makes instructive reading. Copies available from: Dept G 1, Miles Laboratories Limited, Stoke Court, Stoke Poges, Bucks.

1905 An important year for coffee lovers

It was the year Dr. Ludwig Roselius discovered how to remove caffeine from coffee without altering its flavour.

Since then, thanks to him and his Kaffee H.A.G., no one need say "No" to coffee! Today, in nearly every country in the world, the Medical Profession is recommending it increasingly in cases where caffeine is contra indicated. Enjoy good coffee and good sleep.

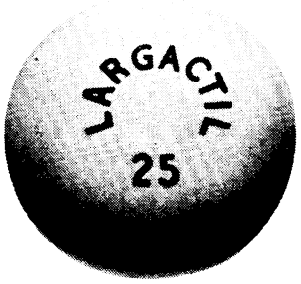
A name to conjure with.

'Largactil' has been a name to conjure with in psychiatric medicine for over sixteen years. An influence of such magnitude and long duration can be explained by examining this legendary name.

'Largactil' was so named because of its LARGe variety of ACTIons ; apart from being the first major tranquillizer, it acts in two other pharmacologically distinct ways – as a potentiator of central nervous depressants, including analgesics, narcotics and sedatives, and as an anti-emetic.

'Largactil' has achieved success in the fields of psychiatry, general medicine and anaesthetics in an ever-widening range of indications. These include major and minor psychoses ; as an adjuvant to E.C.T. ; drug withdrawal ; senile dementia ; the control of terminal pain and nausea and vomiting.



Alone, or as an adjuvant – are you making FULL use of 'Largactil' ?

Diseases of the Joints

Arthritis and rheumatism are common complaints, even if patients are often vague about the exact meaning of the terms they use. In the last few years the diagnosis of joint disorders has become more exact, while the introduction of local and systemic steroid therapy and the powerful non-steroidal anti-inflammatory drugs has revolutionized treatment. In an attempt to bring doctors up to date in this field, the *B.M.J.* published in 1969 a series of short articles giving practical advice on the common disorders of the joints. The articles have now been revised by their authors and collected together to form this handbook on the management of arthritis.

the diuretic that entirely obviates the need for potassium supplements

'Moduretic' is a completely new diuretic from Merck Sharp & Dohme that induces a highly effective diuresis as well as helping the body to *conserve* its natural balance of potassium.

'Moduretic' offers the physician the means of treating patients with a diuretic while avoiding the limitations imposed by potassium supplements. Indeed, 'Moduretic' conserves body potassium so effectively that potassium supplements are contra-indicated.

'Moduretic' is available as peach-coloured, diamond-shaped tablets containing 5 mg amiloride hydrochloride/MSD and 50 mg hydrochlorothiazide/MSD.

Detailed information is available to physicians on request.

What is the word for emotional distress?
The presenting symptoms? "Can't sleep . . . irritable . . . no appetite . . . tired . . . aches and pains"—consultation after consultation.
The task? To penetrate behind the facade to the underlying condition.
The aim? To make the patient feel better quickly and reveal the problem, without unnecessary consultations.
Tranquillizers or hypnotics may deal with part of this aim, but only part.
Prothiaden can meet all the requirements. It is rapidly effective in both anxiety and depression.
One ingredient, a single-strength capsule means straightforward dosage.
Prothiaden is well tolerated even by the elderly.
Prothiaden can mean trouble-free treatment of anxiety, depression, in fact any manifestation of emotional distress.

SPECTRUM 71

MEDICAL COMPUTING CONFERENCE

University of Bristol Union

15 - 17 September 1971

Spectrum 71 is a conference to emphasise the practical applications of computing in medicine to be held in the University of Bristol Union Building from 15th to 17th September, 1971.

Since the successful Medical Computing Conference in 1969 there have been extensive developments in the applications of computers to medicine. These applications cover a wide spectrum of subjects from decisions at the most intimate doctor-patient level to long range planning decisions in the Department of Health and Social Security.

This conference is designed to show what advances have been made since 1969 and to provide a forum for discussion of all aspects of medical computing. The papers are chosen to emphasise practical advantages of applying computing to medicine and, where possible, papers which describe achievements have been preferred. Theoretical papers or those describing achievements requiring computers for their widespread application have, however, not been excluded.

Accommodation is available in University halls of residence.

The proceedings of the conference will be published and a free copy will be sent to each registered delegate.

NORTHAMPTON EXECUTIVE COUNCIL
(Department of Health & Social Security)

NORTHAMPTON NEW TOWN EXPANSION AREA

The Executive Council invites General Medical Practitioners and Dental Practitioners interested in commencing single handed or group practice in the Eastern area of Northampton to seek an interview with the Clerk of the Council at an early date.

The development area lies on the fringe of the existing Borough boundary with a potential population of some 40,000 people by the year 1980, and the present stage of development indicates that 566 houses with an approximate population of some 1,700 persons will be completed towards the end of this year. Before the end of 1972 it is anticipated thata further 1,000 houses will be completed. The population growth is planned to be at the rate of some 8,000 person per year to the final total above.

Surgery premises will be situated in the shopping precinct and can be rented. Temporary accommodation can be provided until the specially designed premises are available if necessary.

JOINT APPOINTMENT BY UNIVERSITY OF LIVERPOOL AND EXECUTIVE COUNCIL FOR THE COUNTY PSLATINE OF CHESTER

Applications are invited from experienced general medical practitioners to be the first doctor to be appointed to a new Health Centre situation in Runcorn New Town.

The successful applicant will be appointed to the staff of the Faculty of Medicine at Liverpool University, as Senior Lecturer and Director of Studies in General Practice and the appointment will be subject to the normal review after the third year. The initial minimum time commitment to the Faculty is two half days per week, which arrangement will allow concentration on the task of building up a Health Centre group of doctors to provide general medical services for the residents and to form a University Teaching Practice responsible for the organisation of under-graduate teaching in general practice and advising the Faculty on matters relating to Postgraduate General Practice training.

The Health Centre will be near the centre of the New Town and adjacent to a new District General Hospital, the first phase of which will be completed in 1974. In addition there will be peripheral groups in Health Centres, one of which is nearing completion and will be in use by the Autumn of this year.

The rate of growth of the population to be served by the Centre to which this notice refers is estimated to be 5,500 by March, 1973 rising steadily to 14,000 by March, 1976 with a final population of about 20,000. Remuneration initially will be assessed by the Executive Council and the University on the Type D Initial Practice Allowance which, subject to certain conditions, guarantees the successful applicant an amount not less favourable than his previous year's net professional remuneration subject to a maximum of £5,290 per annum.

Applicants should have been qualified for about ten years and have had at least five years experience in general practice based on sound hospital background. Enthusiasm for a project which is breaking new ground in the area and the ability to attract others to work with them in building up a Centre which will express the concern of the University in general practice is particularly sought. The successful applicant will be required to take up his duties not later than 1st January, 1972 and the closing date for the receipt of applications is 24th July, 1971.

Application forms and further details of the area of Runcorn, the University appointment and Executive Council requirements may be obtained from the undersigned. Frederick Hayter, Clerk of the Executive Council, 28 Nicholas Street, Chester. (H5853) 3

NATIONAL HEALTH SERVICE
COUNTY OF AYR EXECUTIVE COUNCIL
IRVINE NEW TOWN

Applications are invited from registered medical practitioners to establish a new practice in a development planned within the Dreghorn/Bourtreehill area of Irvine New Town.

The projected population build-up is as follows:- By December, 1971 — 500; By April, 1972 — 1,200 By April, 1973 — 3,300; By April, 1974 — 6,500; By April, 1975 — 10,800.

It is hoped that initially, temporary consulting and residential accommodation will be available on rental. A Health Centre is planned for 1975, and the appointed practitioner will be expected to move to health centre accommodation when it becomes available. It is anticipated that the successful applicant will lead in the development of general medical services in the community and will assume a partner or partners as the need arises.

A Type "D" initial practice allowance will be payable to a doctor with the necessary qualities and experience. For payment of this allowance, the experience expected is normally about ten years as a qualified doctor, of which two years have been spent in hospital appointments, and five in a busy general practice in the United Kingdom. The allowance may continue for three years, and guarantees that the doctor's net annual professional income from all sources, after allowing for practice expenses actually incurred and accepted by the Scottish Home and Health Department, will be made up if necessary, to an amount accepted by the Department as the amount of his previous net annual professional income from all sources, subject to a maximum of £5,290 net per annum.

Further information and forms of application may be obtained from The Clerk, County of Ayr Executive Council, 56 London Road, Kilmarnock, with whom completed forms should be lodged by 12th July, 1971. (H5654) 3

SENIOR REGISTRAR TRAINING POSTS IN MEDICAL ADMINISTRATION

The 2 Hospital Boards together with the University have created a programme of training spanning four years designed for candidates with good clinical backgrounds who have an interest in medical administration. No previous administrative experience is expected, and the first year of the programme is intended to create a link between clinical work and administration, the candidate spending this year as Admissions Officer for the United Oxford Hospitals and as a Trainee Epidemiologist in the Department of the Regius Professor of Medicine. This attachment would continue in the second year when the candidate would be working with the Oxford Regional Hospital Board. The third year of the programme would be spent on the full time course at the London School of Hygiene and Tropical Medicine leading to the M.Sc. degree in medical administration. During the fourth year, the candidate would be engaged on research leading to the thesis required for the M.Sc. It is intended that the arrangements will allow the fourth year to be spent in Oxford with one or more of the organisations participating in the programme. The posts will be paid on the Senior Registrar grade.

Further details may be obtained from the Group Assistant Secretary/and Radcliffe Inf., Oxford. Application forms should be returned to him by 24th July, 1971. (48889) 14-1

Leeds Regional Hospital Board

Consultant in Mental Handicap Wakefield

(Whole-time or Maximum Part-time)

This post has been created in connection with the building of a new 480 bed hospital for the mentally handicapped in Wakefield. The hospital is due to be completed and commissioned early in 1972 and will serve a population of about 370,000.

The post provides a challenging opportunity to plan and organise a comprehensive service for the mentally handicapped in this area and of co-operating in the commissioning of the new hospital.

The accommodation has been designed to provide, as far as is possible, a domestic type of environment for the patients; and the buildings are arranged in a series of 'clusters' set out in street fashion on a compact, landscape site.

Appropriate higher qualification essential.

Further information and application forms obtainable from the Secretary, Park Parade, Harrogate, to whom they should be returned by 1st August, 1971. (48661) 44-1

Trends in Clinical Pathology

Essays in Honour of Gordon Signy

This book is no pious collection of personal tributes but a survey of the old and the new disciplines in clinical pathology since the second world war – research in atherosclerosis and ischaemic heart disease, progress in medical virology, microbiology and cytology, the impact of antibiotics on medical bacteriology, chemical pathology and also molecular defence, haematology in mid-century, including haemostasis and blood transfusion. The place of fibrin in the story of hyalin is another modern study, so also is that on automation. The outlook on some members of the family Enterobacteriaceae is changing, and the 'old' forensic medicine is indeed new. And those pathologists working in the under-developed countries are not forgotten. The contributors are internationally renowned.

GOVERNMENTAL

NATIONAL HEALTH SERVICE
HOSPITAL ADVISORY SERVICE

Medical Staff: Consultants

Consultants in mental handicap are invited to apply for a period of service (varying between six months and two years) with one of the professional teams of the Hospital Advisory Service.

The aim of the Hospital Advisory Service is to improve the standards of hospital care of patients and at present the Service is concentrating on long stay hospitals. There are four visiting teams, each consisting of one doctor, two nurses, one social worker and one administrator. The method of working is that each team visits a hospital, or group of hospitals and, in co-operation with the staff of the hospital, studies the conditions therein. Subsequently the team prepares a report jointly on its findings and recommendations. The work is interesting and exacting, and of necessity team members usually work away from their homes except at weekends.

Applicants must have a thorough knowledge of the hospital service, must be fully registered as medical practitioners in the United Kingdom, and must be of Consultant grade.

Appointments will normally be made from medical practitioners now employed in the hospital service, who will be seconded to the Hospital Advisory Service and will return to their present posts at the end of their period of secondment. The length of the period will be by arrangement, but will not be more than two years. Exceptionally, medical practitioners who do not currently hold a post in the National Health Service may be appointed for a similar period of service.

For seconded staff existing salary arrangements (including increments due and scale improvements negotiated nationally during secondment) and existing superannuation arrangements will apply. Consultants outside the health service may be appointed on the National Health Service Consultants' scale of remuneration. When on duty National Health Service subsistence allowances at Class 1 level and first class travel allowances will be payable.

Applications in writing, giving details of age, experience and qualifications, and the names of two referees to whom the applicant is not in any way related should be sent to: The Principal Establishment Officer and Director of Personnel, Room 410, Ivybridge House, 1-5 Adam Street, WC2N 6AB, by 13th July 1971. (10023) 55

LONDON BOROUGH OF HOUNSLOW
HEALTH DEPARTMENT

Medical Officer of Health:
R. L. Lindon, M.R.C.S., L.R.C.P., D.P.H., D.C.H.

Appointment of Senior Departmental Medical Officer

Applications are invited for the above-mentioned appointment. Duties will be mainly concerned with child health clinics, developmental paediatrics, school health and screening clinics for well women, although other general public health duties may be allocated by the Medical Officer of Health. Facilities exist for in-service clinical training in the assessment of handicapped children. The Borough is currently participating in an important four-year combined child health/obstetric project. The Borough possesses the first local authority purpose-built hearing clinic (Audiology Unit) and a new medical unit has been opened extending existing facilities for assessment and treatment of cerebral palsied and other physically handicapped children. Medical surveillance is provided by the department of handicapped children in special schools for: (i) educationally subnormal pupils; (ii) delicate/maladjusted; (iii) deaf, with associated classes for partially hearing pupils in normal schools; (iv) physically handicapped, and (v) in two junior training schools and two special care units. For some years the department has accepted, as a matter of routine, medical students from London Teaching Hospitals for visits to the various units and services comprising the Department of Health. Successful applicants will be placed in an appropriate point within the scale of £2988-£3651 a year.

A lump sum car allowance is payable.

A full-time assisted D.P.H. course scheme is in operation in the Borough. Subject to medical assessment the appointment is permanent and pensionable. Whitley Council conditions of service apply.

Application forms obtainable from the Medical Officer of Health, 92 Bath Road, Hounslow, Middlesex, (Tel: 01-570 7715, Ext. 120), returnable by 12th July 1971. (10325) 56

Sir Charles Gairdner Hospital — Western Australia

DIAGNOSTIC RADIOLOGIST

Applications are invited from suitably qualified Medical Officers for appointment as Diagnostic Radiologist. Applicants should hold a specialist qualification for diagnostic radiology either M.C.R.A., or F.F.R., or equivalent, and preferably have a special interest in chest diseases or neuroradiology. The appointee will be responsible directly to the Head of the Department and will be required to undertake some teaching at undergraduate and registrar level.

The Sir Charles Gairdner Hospital is a three hundred and forty bed general hospital (expanding to five hundred beds later this year), which is being progressively developed to become the major teaching hospital associated with the Faculty of Medicine of the University of Western Australia. It is anticipated that the Hospital will expand to over one thousand beds in the ultimate. A new Medical School is being constructed in the grounds. Radiological facilities are at present being expanded, which has resulted in this newly created position. Further staff expansion can be anticipated in the near future.

The position is geographically full-time and is eight-tenths salary plus 15% loading (in lieu of superannuation), and carries a right to private practice within the Hospital. The adjusted salary will be within the range $9423 — $9820 — $10,369 — $11,122 — $11,536 — $11,856 — $12,394 — $12,972 — $13,354, depending upon qualifications and experience. A Departmental Trust Fund provides some support for research and postgraduate study.

Further conditions of service, including provision of travelling expenses and details of the Hospital are available on request from the Head of the Department.

***Information pertaining to the City of Perth and the State of Western Australia may be obtained from the Agent General for Western Australia, 115 Strand, London, W.C.2.*

A Radiologist representing the Department is visiting London and will be pleased to interview prospective applicants up to the 5th July. Contact should be made through the Agent General's office.**

Applications should be addressed to the undersigned and forwarded prior to the 31st July 1971. *Administrator.*

UNIVERSITY OF CAPE TOWN
PROVINCIAL ADMINISTRATION OF THE CAPE OF GOOD HOPE
JOINT MEDICAL STAFF

LECTURER IN PHYSIOLOGY

Applications are invited from medical or science graduates for a Lectureship in Physiology, which falls vacant on 1st October, 1971. The duties include systematic teaching of medical and science students and medical auxiliaries and supervision of laboratory classes. The timetable allows ample time for research.

The salary is on the scale R5700 x 300 — R8100 p.a., the appointment and initial salary depending on qualifications and experience. Applicants should state age, qualifications, teaching experience, publications and research interests and should indicate the date when they could assume duty. Applicants should give the names and addresses of two referees (preferably persons with recent knowledge of the applicant's academic qualifications and experience) whom the University may consult.

Two copies of the application should reach the Secretary-General, Association of Commonwealth Universities (Appts), 36 Gordon Square, London WC1H OPF (from whom memoranda giving the conditions of service, including transport expenses on appointment, and information on the work of the Department should be obtained) not later than 15th August, 1971. A third copy of the application with a recent photograph and medical certificate should be sent directly by airmail to the Registrar, University of Cape Town, Private Bag, Rondebosch, Cape Town, South Africa, by the same date. The University reserves the right to appoint a person other than one of the applicants, or to make no appointment. (10341) 61-1

UNIVERSITY OF THE WITWATERSRAND
Johannesburg Faculty of Medicine

SENIOR LECTURER AND LECTURER IN DEPARTMENT OF PHYSIOLOGY

Applications are invited for the abovementioned posts. A medical qualification or a higher degree would be a recommendation for a lectureship, and essential for a senior lectureship.

The salary range for a lectureship is R4,800-R8,100, for a senior lectureship R8,100-R10,800 (£1 = R1.7). Fringe benefits include an annual savings bonus, housing subsidy and pension and medical aid fund facilities. Facilities and funds are available for research and this will have a high priority in the departmental programme. Information sheets relating to the post are available from the office of the University of the Witwatersrand, Chichester House, 278 High Holborn, London, W.C.1, (for applications from Europe and United States) or from the Registrar, University of the Witwatersrand, Jan Smuts Avenue, Johannesburg.

Applications should be lodged at either of the two addresses before 12th July, 1971. Professor C. Rosendorff, the head of the department, will be in London for interviews during the week 12th-16th July and may be contacted via the University's London Office (tel: 01-242 2221). (10342) 61-1

ST. ANDREW'S HOSPITAL
NORTHAMPTON

Medical Director: James Harper M.B., F.R.C.P. (Edin), D.P.M.

St. Andrew's Hospital is a private psychiatric hospital situated in 130 acres of parkland in the county town of Northampton. In general, patients are admitted to Wantage House, a reception unit in the grounds which is equipped for the investigation and treatment of all forms of psychiatric illness. In addition, there is accommodation mainly in private rooms, both in the main hospital and in various villas, for longer-stay patients and geriatric patients.

The hospital's amenities include Gloucester House, which comprises an Occupational Therapy Department, a swimming pool, a squash court and library, while in the grounds there are tennis courts, a nine-hole golf course, etc.

Fees range from £31.50 per week, and subscribers to private medical insurance schemes such as British United Provident Association and Private Patients Plan, may claim benefit in respect of these charges.

Further particulars may be obtained from the Medical Director, St. Andrew's Hospital, Northampton (Tel. Northampton 34354), who can be seen in consultation by appointment, either at the hospital or at 55 Harley Street, London, W.1. 99

the potent topical corticosteroid with minimal systemic effects.

Deflamene has been especially formulated to provide a highly-effective **topical** action.
Unlike other corticosteroids applied topically, Deflamene has little activity on entering the systemic circulation and the risks of pituitary-adrenal suppression are minimised.
