Unique 3-fold action

Highly effective in all types of anxiety

Good to excellent results are to be expected in 4 out of 5 cases.

Restores emotional stability in anxiety with overtones of mild depression

Tacitin exerts a mood-enhancing effect which improves the underlying depressive features.

Rèlieves the physical tension which so often accompanies anxiety

Tacitin gently but specifically reduces the exaggerated muscle tone which commonly hinders treatment of anxiety.

10mg tablets benzoctamine hydrochloride in packs of 100. Basic NHS price 100: £1·32.

Full information on request to CIBA Laboratories, Horsham, Sussex.

tension leeds

Tacitin

The first of a completely new group of psychoactive drugs

Tacitin is a unique new tranquilliser developed from 10 years of CIBA research. In action and structure, Tacitin is unrelated to any other psychotherapeutic agent.

three faces of Valium* Roche

Valium Roche in simple anxiety

Anxiety may be a physical, as well as an emotional state. Often, it presents as a rather bizarre pattern of largely physical symptoms, things like headache, 'dyspepsia', insomnia, muscular pains and disturbances of appetite.

Hundreds of clinical trials, involving tens of thousands of patients in almost every country in the world have shown that Valium Roche affords remarkable symptomatic relief in such cases, 'curing' a long list of apparently intractable physical symptoms.

2 Valium Roche in psychosomatic illness

Sometimes, anxiety disturbs physiological or bio-chemical function to the point of producing functional or structural disorders. Such conditions take on a life of their own and demand – in addition to the relief of anxiety – active, specific treatment

In such cases Valium Roche curbs anxiety and – coupled with specific treatment – helps to ease or eradicate a long list of conditions involving the skin, gastro-intestinal tract, the heart and circulation, the muscles and the organs of reproduction and excretion.

3 Valium Roche in organic disease

Even patients whose clinical condition is clearly organic can become excessively anxious. When they do, the anxiety and its physical effects may hinder recovery or – in conditions like myocardial infarction – amount to a major complication.

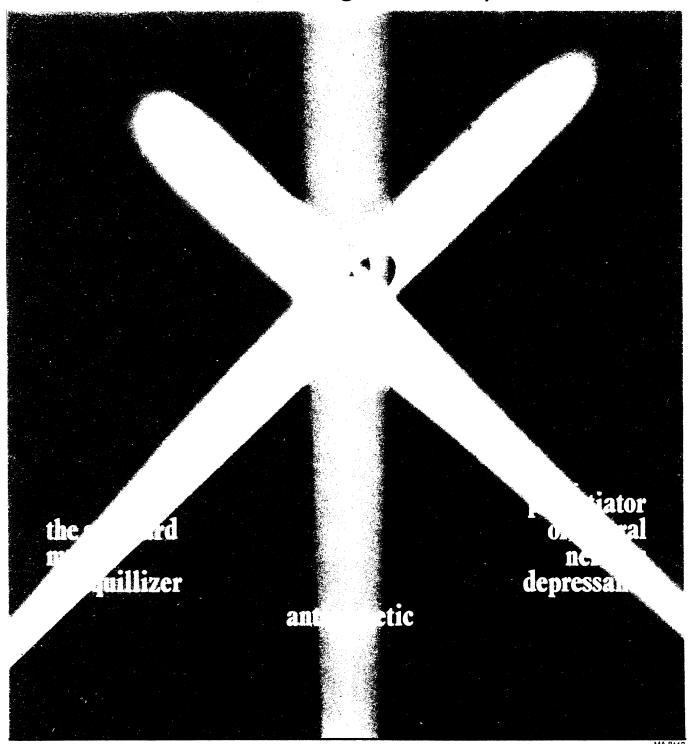

Valium Roche has been used in many such cases. Invariably, it produces a sharp improvement in the patient's emotional outlook and attitude. Where anxiety has produced an increase in sensations of pain or discomfort Valium Roche can afford dramatic relief from organic symptoms.

Full information is available on request from Roche Products Limited, 15 Manchester Square, London W1M 6AP.

LARGACTIL

let's throw a little light on the subject...

The tablet that started the psychiatric revolution in 1954, derives its name from an early worker's description of chlorpromazine's LARGe variety of ACTIons. Apart from being the first major tranquillizer, 'Largactil' acts in two other pharmacologically distinct ways—as a potentiator of central nervous depressants, including analgesics, sedatives

and narcotics and as an anti-emetic. 'Largactil' has achieved success in the fields of psychiatry, general medicine and anaesthetics in an ever-widening range of indications. These include major and minor psychoses; drug withdrawal; senile dementia; the management of terminal pain and nausea and vomiting.

An M&B Medical Product Full information is available on request 'Largactil' is a trade mark of May & Baker Ltd Dagenham Essex RM10 7XS for its preparations of chlorpromazine

Alone, or as an adjuvant - are you making FULL use of 'Largactil'?

Now a fundamental treatment for peptic ulcer symptoms

Maxolon's action in restoring normal gastro-duodenal motility² is of great benefit to all who suffer peptic ulcer symptoms, including those patients with no demonstrable pathology, and post-operative cases.

Maxolon provides a rational method of treatment not afforded by either antacids or anticholinergics.

These relieve symptoms by lowering acid levels in the stomach. Maxolon promotes gastric emptying¹, and thus removes both the stimulus to secrete and the excess acid present in the stomach. In this way it also relieves the symptoms of "over-fullness".

Maxolon's effect of synchronising antral and duodenal contractions² is even more significant in treating peptic ulcer symptoms. By eliminating regurgitation through the pyloric and oesophageal sphincters³, it prevents the repeated reflux of acid or bile which aggravates the condition. This action also relieves the symptoms of regurgitation and epigastric pain⁴.

Maxolon introduces a new concept into the treatment of peptic ulcer. But it can be prescribed with more confidence than if it were something entirely new. Maxolon, in establishing a seven-year record of clinical success as an anti-emetic, has demonstrated a reassuring freedom from toxicity, even when used for long periods.

MEDICOVISION ROCHE

Tutorials by world leaders in medicine and surgery for every post-graduate medical centre

Medicovision* distils the knowledge and experience of leading figures in many fields of medicine into a series of closed-circuit colour television presentations. Each presentation is a concise (15-20 minute) review of a subject of direct relevance and interest to general practitioners. The latest thinking is discussed, the latest techniques are explained and demonstrated.

The presentations are produced by combining two very different disciplines. The medical consultants have complete editorial freedom and control over the content of the programme. Presentation is in the hands of professional writers, directors and cameramen of outstanding skill and talent. Between them they achieve a quality of communication which is probably unique in the field of medical teaching. *trade mark

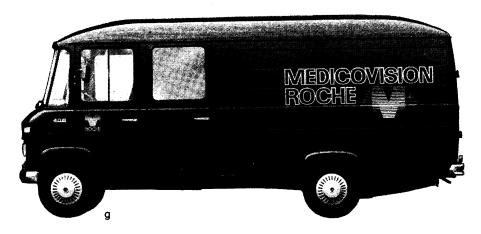

Roche Products Limitéd 15 Manchester Square London W1M 6AP

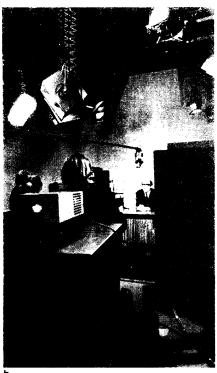

MEDICOVISION ROCHE

- **a** A Medicovision monitor set upon which programmes are shown in Post-Graduate Centres.
- b One of the crew sits in the auditorium and relays comments on picture quality to the control unit in the van.
 c The Medicovision monitors in position in a lecture theatre.
- **d** Case material which is usually recorded in the hospital or clinic run by a consulting physician, is viewed on close-up from the most informative angles.
- e The control unit in the Medicovision van makes it possible to maintain the highest picture and colour quality.
- **f** When the programmes are made the consultant and the director sit in the control room, deciding which of the available pictures should be recorded in any given moment. They also have an instant replay facility.
- **g** The Medicovision van contains all the equipment needed for showing the programmes. The control equipment remains in the van. All that goes into the lecture theatre are the power cable, the monitor sets and the communication equipment.
- h The programmes are produced using either a fully equipped studio or the complete facilities needed for outside television broadcasts.

Diseases of the Joints

Arthritis and rheumatism are common complaints, even if patients are often vague about the exact meaning of the terms they use. In the last few years the diagnosis of joint disorders has become more exact, while the introduction of local and systemic steroid therapy and the powerful non-steroidal anti-inflammatory drugs has revolutionized treatment. In an attempt to bring doctors up to date in this field, the *B.M.J.* published in 1969 a series of short articles giving practical advice on the common disorders of the joints. The articles have now been revised by their authors and collected together to form this handbook on the management of arthritis.

ANXIETY EXPLODES INTO THE BODY

Anxiety makes the heart work harder but less efficiently

In anxiety, heart rate and variation in heart rate¹ increase, so does the blood pressure. Blood viscosity rises and clotting time shortens² often to a fraction of the normal value. Serum cholesterol levels rise.³ Recovery from exercise is slow and inefficient. Cardiac arrhythmias are not uncommon. These effects can produce cardiac reactions in previously healthy patients. In existing cardiac disease they may be a direct threat to the patient's life

1 Psychosom.Med., 1949, II, 25 2 J.Amer.med. Ass., 1952, **148**, 265 3 Circulation, 1959, **19**, 496

Anxiety attacks, often damages, the gastro-intestinal tract

Direct observations through gastrostomies, dating back as far as 1833¹ record changes in the tone, motility, secretion, and vascularity of the digestive tract produced by emotional stress, changes which frequently lead to functional disorders and structural damage. Authoritative lists of gastro-intestinal conditions produced or exacerbated by anxiety typically² range from one end of the tract to the other: from globus hystericus to irritable colon

1 Experiments and observations on the gastric juice and the physiology of digestion Plattsburg, 1833 2 Med. Clin. N. Amer. 1956, **40**, 329

Anxiety that takes the patient's breath away

Anxiety increases the rate of respiration¹ but impairs respiratory efficiency.² Hyperventilation, which is common in anxiety³ can produce dizziness, visual disturbances, feelings of unreality, sighing, yawning, sensations of suffocation and many other symptoms, apparently involving the heart, gastro-intestinal tract or the body generally. Anxiety often plays a distinct role in the aetiology and exacerbation of asthma

1 Arch. gen. Psychiat., (Clin), 1964, **10**, 382 2 J. psychosom. res., 1960, 5, 52 3 Amer. J. Med., 1950, **8**, 691

Anxiety as a burden on the muscles

The physical tension characteristic of anxiety has been measured electromyographically. This tension is associated with physical symptoms and disorders. Skeletal muscle hypertonia is associated, in susceptible persons subject to emotional stress, with low back pain.² Patients with limb pain or 'rheumatic pain' showed high forearm readings while those with headaches showed high frontalis levels ³

- 2 Res. Publ. Ass. nerv. ment. Dis., 1950, **29**,750 3 Neurol. Neurosurg. Psychiat, 1954, **17**, 216

A MOVE TOWARDS TRUE PRECISION IN THE CONTROL OF ANXIETY WHICH PRODUCES A GOOD TO EXCELLENT RESPONSE IN 72.1% OF ANXIETY-BASED PHYSICAL DISORDERS

In December 1970 a survey* was made of 58 published clinical trials of Nobrium. Analysis of these data showed that of 563 patients with symptoms affecting the heart, gastro-intestinal system and lungs or with headache presumably related to muscular tension, 406 (72.1%) showed a good or excellent response to treatment with Nobrium. Of 1,122 symptoms reported as 'anxiety with physical symptoms and psychosomatic disorders' 870 (77.6%) showed a good to excellent response

Terramycine Trade Mark Syrup

The antibiotic syrup you know. Extra smooth, pleasing to the young palate, and highly competitive in price.

AVAILABLE IN BOTTLES OF 100 ML.

For the bronchitic who needs a broad-spectrum antibiotic PLUS an expectorant PLUS a bronchodilator in a simple 5 ml. spoonful dosage.

AVAILABLE IN BOTTLES OF 150 ML.

For many years isoniazid has been accepted as the leading standard drug in the chemotherapy of tuberculosis^{1,2}.

And more recently Myambutol (ethambutol) has become a firmly established drug in cases of toxicity or resistance to PAS and streptomycin³. Now these two leading drugs have been combined in one product – Mynah.

RANGE OF STRENGTHS Dosage of Mynah is established according to the patient's bodyweight; therefore Mynah is presented in four different strengths - to cover weights and dosages in both initial and subsequent periods of treatment. It is the included quantity of Myambutol that varies; the amount of isoniazid in each tablet remains standard at 100 mg

CONVENIENT FOR THE DOCTOR The dosage of Myambutol and isoniazid when used together has therefore been made far more convenient; the physician need prescribe only one product to ensure the maximum benefit from both drugs.

CONVENIENT FOR PATIENTS Only one medicine to take, so the daily dose is less likely to be forgotten or ignored-and Mynah need be taken only once a day. SAFETY Isoniazid and Myambutol are among the safest of all antituberculous drugs. Myambutol has a different mode of metabolism from that of isoniazid with obvious advantages in terms of safety whereas several other drugs used against tuberculosis involve the same metabolic process as isoniazid. **DIMINISHED RESISTANCE** Although resistance to both Myambutol and isoniazid may develop if these drugs are used separately and alone, it has been shown that combination treatment with them greatly diminishes the risk of resistance developing4,5. There have been no reports of crossresistance between the two drugs.

Mynah has been developed in Britain for the purpose of easier management of tuberculosis. For full information on this important advance in chemotherapy – plus a dosage calculator – please apply to the Medical Department of Lederle Laboratories or ask your Lederle representative.

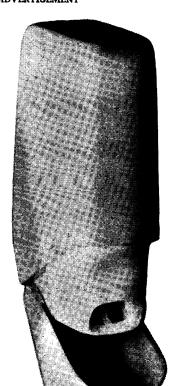

1. Brit. Med. J., 1968, ii, 664. 2. Amer. Rev. Resp. Dis., 1967, **96**, 428. 3. Pharmacological Basis of Therapeutics, 1970, 4th Ed., p.1333.

5. Tubercle Supp., Lond., 1969, 50, 32.

Presentation

Mynah 200 (ethambutol 200 mg plus isoniazid 100 mg) colour coded white. Mynah 250 (ethambutol 250 mg plus isoniazid 100 mg) colour coded yellow. Mynah 300 (ethambutol 300 mg plus isoniazid 100 mg) colour coded orange. Mynah 365 (ethambutol 365 mg plus isoniazid 100 mg) colour coded pink. All strengths are available in bottles of 84 tablets.

Autohaler

ISO-AUTOHALER OR DUO-AUTOHALER

A new kind of inhaler operated by breath alone

Breath-triggered operation

A dose is automatically released at exactly the right moment in the patient's breathing cycle.

Built-in synchronism

The patient no longer has to co-ordinate pressing a vial and inhaling to be sure of an effective dose. Autohaler makes every patient an expert in inhalation technique with little instruction.

Controlled action

Patients cannot pump the Autohaler unit and take several puffs while inhaling. And Autohaler eliminates wasted doses resulting from test-firing or faulty use.

Treatment economy

Treatment costs as little as 0.33p per inhalation.* (Some ordinary aerosols cost more per puff.)

*Average cost per dose calculated from cost of one *Iso-Autohaler* complete plus one replacement cartridge.

Governed doses

With Autohaler it is more difficult for the patient to take excess dosage because the unit must be reset between inhalations.

Unparalleled inhalation efficiency

Because every dose from Autohaler is made to count, a patient is more likely to get full benefit from treatment and therefore less likely to take extra, ill-advised doses.

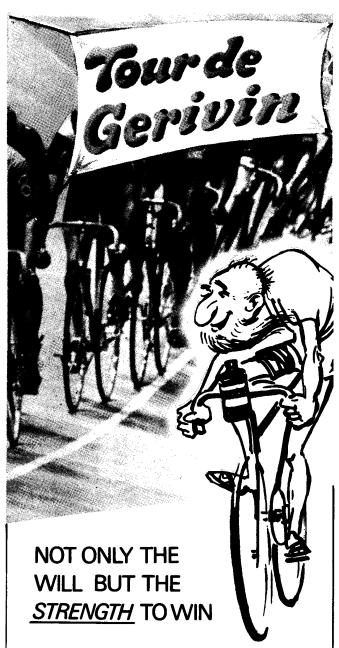

Iso-Autohaler and Duo-Autohaler are supplied as complete units for which replacement cartridges are available.

Composition Iso-Autohaler contains a suspension of Isoprenaline Sulphate B.P. 4 mg./ml. and delivers to the patient 0.08 mg. in each dose. Duo-Autohaler contains a suspension of isoprenaline hydrochloride 8 mg./ml. and phenylephrine bitartrate 12 mg./ml., and delivers to the patient 0.16 mg. isoprenaline hydrochloride and 0.24 mg. phenylephrine bitartrate in each dose. Indications Iso-Autohaler and Duo-Autohaler give immediate relief of bronchospasm in bronchial asthma, chronic bronchitis and emphysema. Dosage One to three puffs should be sufficient to provide relief in most cases. It should not be necessary for the patient to take further treatment for at least thirty minutes, or more than eight treatments a day. Children: Iso-Autohaler and Duo-Autohaler should be administered to children only under the supervision of a responsible adult. Side-effects Overdosage may cause dry mouth, palpitations, or

nervousness. Cautions and contra-indications There are no absolute contra-indications, but Iso-Autohaler and Duo-Autohaler should be used with caution in the presence of cardiac disease, hypertension or hyperthyroidism. Basic NHS prices Iso-Autohaler, complete unit £1-97, replacement cartridge £0-72. Duo-Autohaler, complete unit £2-10, replacement cartridge £0-85. Autohaler: registered trade mark. Iso-Autohaler, Duo-Autohaler: trade marks.

Your best assurance that the patient will take only the dose he needs

Iron deficiency anaemias in adults. Particularly useful in treating the vitamin deficiencies and nutritional anaemias so often met with in the old age group. A pleasantly flavoured and well tolerated syrup.

Dose

Adult Dosage: 5 ml. to be taken 3 times daily, in a little water if desired.

in a little water if desired.

Composition

Iron & Ammonium Citrate B.P. 800 mg. Riboflavine B.P. (Vitamin B2) 1.0 mg. Nicotinamide B.P. 20 mg.

Aneurine Hydrochloride B.P. (Vitamin B1) 8 mg in each 5 ml.

in each 5 in.

Mode of issue Bottles containing 115 ml. 250 ml.

Day after day of freedom from asthmatic attack

The unique mode of action of disodium cromoglycate offers the asthmatic patient outstanding benefits. A prophylactic treatment, it prevents the onset of asthmatic episodes—thus minimising long-term damage to lung tissue. Freedom from asthma attacks permits a happier, more normal life for the asthmatic patient.

Published clinical reports confirm that with INTAL COMPOUND, the incidence and severity of acute attacks is considerably reduced – even in patients on conventional therapy such as bronchodilators, antihistamines and corticosteroids. Less time is lost from work or school, exercise tolerance is improved and a consistent clinical comment on disodium cromoglycate has been the total absence of serious side effects.

INTAL COMPOUND - supplied in SPINCAPS (each containing 20 mg disodium cromoglycate, and 0·1 mg Isoprenaline Sulphate BP in powder form, together with an inert carrier). For use in a special insufflator-SPINHALER.

Full information is available on request. Fisons Limited, Pharmaceutical Division, Loughborough, Leicestershire.

Why choose DECLINAX*?

Because Declinax reduces blood pressure - even where other hypotensives have failed - with a mode of action which helps to overcome side-effects. Full information is available on request from: Roche Products Limited, 15 Manchester Square, London W1M 6AP

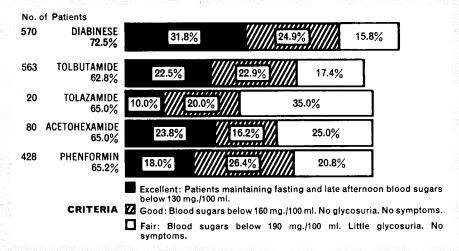

Of the four sulphonylurea preparations evaluated,
chlorpropamide [Diabinese] had the
best success rate (72.5 per cent),
and the fewest failures
(27.5 per cent)."

This statement and the histogram come from a comparative study which involved a total of 1,823 diabetics and five oral agents for a period up to twelve years.

HIGHEST SUCCESS RATE WITH DIABINESE

MORE PATIENTS FOR LONGER PERIODS AT BLOOD GLUCOSE LEVELS CLOSE TO NORMAL ON ONE DOSE A DAY

Diabinese is available as 100 mg. and 250 mg. tablets. 1. Med. Tms. (N.Y.), 1968, 96, 855.

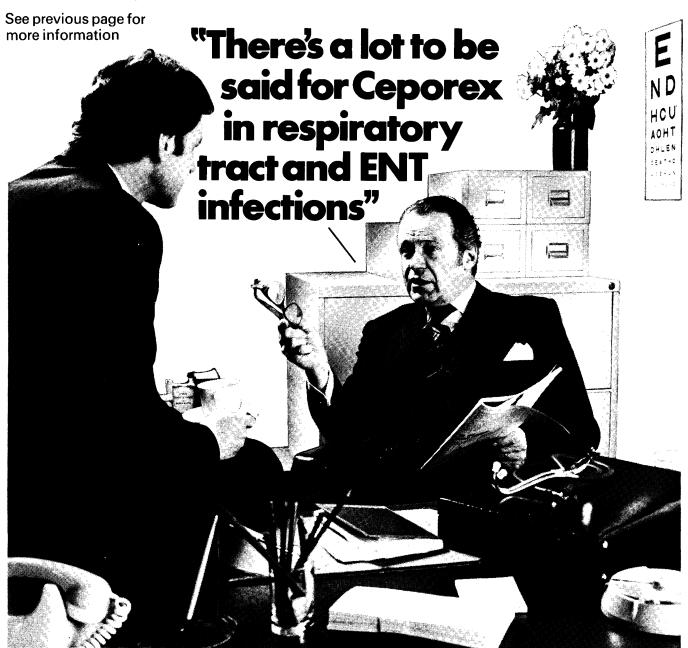

Mary Burns is thirty years old and she's suffering from an acute attack of pyelonephritis, with temperature, backache, rigors and dysuria. Her doctor's prescribing Ceporex because he wants a rapid remission of the symptoms and clearance of the causative organisms.

Ceporex is a bactericidal oral antibiotic which is

particularly effective against the common urinary pathogens. Within an hour of administration it produces high concentrations in the blood and urine, so essential for effective treatment.

In pyelonephritis, Ceporex therapy can prevent the acute condition becoming chronic. And it's well worth prescribing to that.

At the International Conference on Cephalosporins, 1970*, cephalexin was shown to be of great value in infections of the respiratory tract. That's because it kills the majority of pathogens commonly responsible for these conditions.

Ceporex was also shown to provide a valuable new therapy in ENT infections which had sometimes failed to respond to standard antibiotic treatment.

Rapid absorption, excellent serum and tissue levels, together with a wide spectrum of activity

against both gram-positive and gram-negative organisms, make it a logical choice in the stubborn infection. And a wide range of strengths and presentations make it simple and safe to prescribe. *Supp. to *Postgrad. med. J.* (Oct. 1970) **46**

'Hypokalaemia resulting from powerful diuretics is not always prevented by oral [potassium] supplementation.'

Brit. med. J., 1967,1,143 (21 Jan)

but NOW

the diuretic that entirely obviates the need for potassium supplements

'Moduretic' is a completely new diuretic from Merck Sharp & Dohme that induces a highly effective diuresis as well as helping the body to *conserve* its natural balance of potassium.

'Moduretic' offers the physician the means of treating patients with a diuretic while avoiding the limitations imposed by potassium supplements. Indeed, 'Moduretic' conserves body potassium so effectively that potassium supplements are contra-indicated.

'Moduretic' is available as peach-coloured, diamond-shaped tablets containing 5 mg amiloride hydrochloride/MSD and 50 mg hydrochlorothiazide/MSD.

Detailed information is available to physicians on request.

'Moduretic' is a registered trademark.

4 separate problemssolved with one antibiotic

multi-spectrum antibiotic

'Keflex' is the oral antibiotic that could resolve these problems – combining bactericidal action, broad-spectrum activity, and very high urine levels. With care, 'Keflex' may be used even in patients with renal damage.

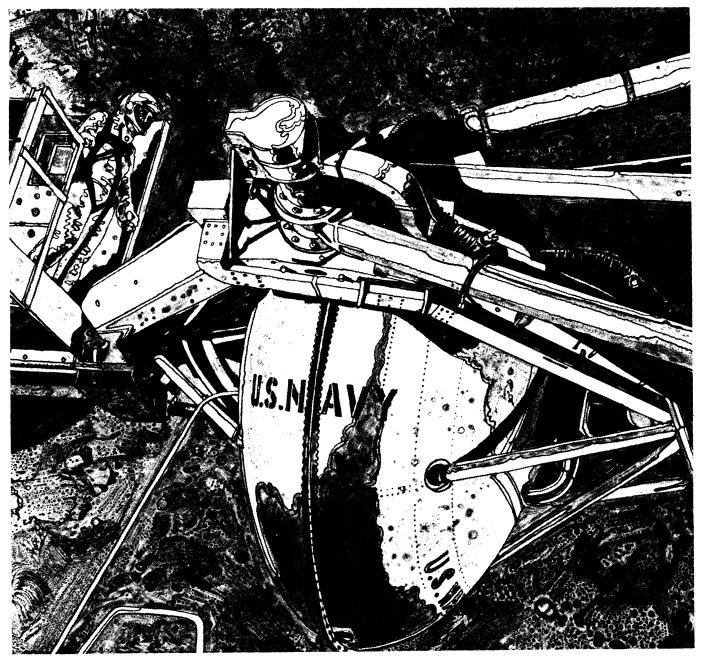

Its rapid action together with almost complete absorption, plus a very low incidence of gastro-intestinal side effects are the reasons why so many patients with urinary infections recover so quickly with so few problems following 'Keflex' therapy.

Further information available on request
Eli Lilly & Company Limited Basingstoke Hants

'Keflex' 250 mg capsules each containing 250 mg cephalexin (as the monohydrate), coded H69. Also available 500 mg* tablets (coded U49), 250 mg*/5 ml suspension and 125 mg*/5 ml suspension. *Cephalexin (as the monohydrate).

Actifed and Space age Medicine

The astronaut above is about to be subjected to G-forces in a massive centrifuge. In these situations it was thought that G-forces might restrict astronauts from performing vital tasks. To overcome this, an ingenious device which bounces light into the eye, can be made to actuate a switch or system, whenever the pupil crosses the path of the beam. This sight switch has already been adapted to help paraplegics to help themselves.

In the space programme, medical benefit has been a two-way exchange. Of the medicines taken on Apollo flights, ACTIFED* has been repeatedly chosen as the decongestant. ACTIFED TABLETS and SYRUP contain the decongestant pseudoephedrine and the established antihistamine triprolidine. ACTIFED COMPOUND LINCTUS contains, in addition, codeine. It provides effective and palatable cough control for all age groups.

Full information is available on request.

Fifty years ago Dr. John Rogers discovered that it pays to deal with the specialists.

He found our Society existed solely to look after the assurance needs of doctors and dentists.

For the rest of his life he had no worries about paying locums when he was ill. No worries about the effect of his death on his family. No worries about enjoying the retirement he felt entitled to. And he shared in all our profits because we're a mutual society.

Now his widow still has the added security of our pension cheque every month.

Isn't it time you discovered your Society?
We are the specialists. Get us on your side.
Start today by writing for our prospectus quoting ref. BMJ3. It will help you to live happily almost ever after.

1905 An important year for coffee lovers

It was the year Dr. Ludwig Roselius discovered how to remove caffeine from coffee without altering its flavour. Since then, thanks to him and his Kaffee H.A.G., no one need say "No" to coffee! Today, in nearly every country in the world, the Medical Profession is

recommending it increasingly in cases where caffeine is contra indicated.

BRITISH POSTGRADUATE MEDICAL FEDERATION

(University of London)

THE INSTITUTE OF LARYNGOLOGY AND OTOLOGY

330/332, Gray's Inn Road, London, W.C.1

ASSOCIATED WITH THE ROYAL NATIONAL THROAT, NOSE AND EAR HOSPITAL

The Institute is organized to provide instruction in this Specialty for the whole period of training necessary to reach full consultant standard. There are ample clinical and research facilities and teaching is carried on continuously daily throughout the year.

There are full-time courses of lectures and demonstrations suitable for those intending to take the D.L.O.(R.C.P.&S.Eng.), and the Final F.R.C.S. examinations in Otolaryngology. There are also short courses for senior students in practical surgery of the ear, nose and throat, head and neck, pathology, and in the treatment of the deaf child. In addition, there are lectures, demonstrations, and refresher courses suitable for general practitioners and advanced specialty training (post-Fellowship) for Consultants and Senior Registrars.

A number of paid appointments, which are open to postgraduate students in the different stages of training, give opportunities of clinical experience and research.

Further information may be obtained from the Dean.

EDINBURGH POST-GRADUATE BOARD FOR MEDICINE

GENERAL COURSES:

Commences January (not subsequent years) and September (16 wks.) (Fee, £50)

Basic Sciences (Anaesthetics) Commences February and July (2 wks.) (Fee, £15)

Surgery
Commences January (15 wks.) (Fee, £50)

Series of sequential special courses; students may enrol for individual courses or for the combined course.

Subjects:
Surgical Care
Neurosurgery
Orthopaedic Surgery
Thoracic and Vascular Surgery
Surgery of Endocrine Glands
Surgical Urology
Surgery of Abdomen
Surgical Paediatrics
Plastic Surgery
Obstetrics and Gynaecology
Otorhinolaryngology (Fee, £10) (Fee, £10) (Fee, £10) (Fee, £10) (Fee, £7) 2 wks. 2 wks. 2 wks. 2 wks.

Surgical Pathology and Operative Surgery Commences mid-July (9 wks.) (Fee, £40)

Anaesthetics (Final F.F.A.)
Commences May and November (2 wks.) (Fee, £20)

Internal Medicine
Commences January (18 wks.) (Fee, £60)
Series of sequential special courses; students may enrol for individual courses or for the combined course.

Subjects:
Neurology
Renal Disease and Endocrinology
Respiratory Diseases
Haematology
Cardiology
Rheumatology
Gastroenterology
Roadiotrics (Fee, £15) (Fee, £15) (Fee, £10) (Fee, £7) (Fee, £10) (Fee, £10) (Fee, £10) 3 wks. 3 wks. 2 wks. 1 wk. 2 wks. 4 days 2 wks. 2 wks. Gastroenterology 2 wks.
Paediatrics 2 wks.
8th/19 May
In conjunction with Internal Medicine Course.
Neonatal Care 22nd/26th May 1 wk.
**Developmental Paediatrics
29th May/2nd June 1 wk. (Fee, £15) (Fee, £15)

COURSES FOR GENERAL PRACTITIONERS:**

General Medicine — 15th/27th May 1972 and 18th/30th September 1972.

Special Subjects:
Obstetrics and Gynaecology — 8th/12th May 1972
Geriatrics — 15th/19th May, 1972
Psychiatry — 15th/19th May, 1972
Primary Care of Major and Minor Accidents — 15th/21st November, 1971 and 14th/20th February, 1972.

ADVANCED COURSES:

Surgery
Breast Surgery — Autumn 1971 (weekend) (Fee, £7)
Hand Surgery — 25th/29th October, 1971 (Fee, £15)
Stereotactic Surgery — 17th/19th November, 1971 (Fee, £10)

dicine
Endocrinology — 1 wk. in March, 1972 (Fee, £15)
Clinical Haematology — 13th/17th March, 1972 (Fee, £15)
Problems of Psychiatric Care in Developing Countries — 5 days
Easter 1972 (Fee, £15)

**Developmental Paediatrics — 29th May/2nd June, 1972 (Fee, £15) **Human Genetics - 1st/3rd June, 1972 (Fee, £7.50)

Courses marked thus meet the requirements of the National Health Service Act (Section 63)

Further information regarding these courses may be obtained on application to the Post-Graduate Dean, Edinburgh Post-Graduate Board for Medicine, Pfizer Foundation, Hill Square, Edinburgh EH8

UNIVERSITY OF DUNDEE

FACULTY OF MEDICINE

The University awards the following medical and dental qualifications: M.B., Ch.B., B.D.S., B.M.Sc. (Honours, M.D., Ch.M., M.D.S., D.D.Sc., M.M.Sc., Ph.D., D.J.H., D.P.D., C.J.H.,

MEDICAL CURRICULUM. Preclinical instruction in the Medical Sciences Institute (opened in 1970). Clinical instruction at Dundee Royal Infirmary (582 beds), Maryfield Hospital (366 beds), Royal Dundee Liff Hospital (650 beds), Perth Royal Infirmary (272 beds) and elsewhere and, as soon as it is completed, in the Ninewells Hospital and Medical School.

DENTAL CURRICULUM. Instruction in the Dundee Dental School and Hospital.

GENERAL INFORMATION. Halls of residence for men or women students available. An entrance scholarship and bursary competition is open to prospective medical and dental students. Facilities for postgraduate study and research.

CONSOLIDATED ANNUAL FEE. inclusive of matriculation fee, tuition fee, etc., for M.B., Ch.B., B.D.S., B.M.Sc.(Honours) and D.P.D. courses, £75 (£250 for overseas students). Fee for Ph.D. and M.M.Sc., £60 plus £15 laboratory fee if applicable (£250 for overseas students, with or without laboratory facilities). A composite membership fee of £12.25 per annum for the Students' Association and Sports Union is also payable. Fee for C.I.H. and D.I.H. Courses, both held during the Summer Term (April to June),

APPLICATIONS FOR ADMISSION for first degree courses in October 1972 should be sent to UCCA, P.O. Box 28, Cheltenham, Glos. GL50 1HY by 15th December, 1971 (or 15th October, 1971) for candidates who are also applying to Oxford or Cambridge).

Prospectus from Dean, Faculty of Medicine, The University, Dundee, DD1 4HN or from the Director of Dental Studies, as appropriate.

EDINBURGH POST-GRADUATE BOARD FOR MEDICINE

(The University of Edinburgh, The Royal College of Physicians of Edinburgh, The Royal College of Surgeons of Edinburgh).

HAND SURGERY COURSE

25th/29th October 1971

In conjunction with the Department of Orthopaedic Surgery an instructional course in Hand Surgery will be held at the Princess Margaret Rose Orthopaedic Hospital, Edinburgh from 25th to 29th October 1971.

The course is intended for consultants, senior registrars or registrars, casualty officers, and those interested in injuries of the hand. The following subjects will be discussed:—functional anatomy of the hand, principles of treatment of the hand, principles of reconstruction, rehabilitation of disabled hand, rheumatoid hand, splinting of hand, principles of tendon transfer, congenital anomalies of the hand, Depuytren's contracture, infections of the hand, peripheral nerve injuries of upper limb, fractures of hand, skin loss in the hand, tendon injuries, amputations, prosthetic replacement.

Among those participating will be Mr. Athol Parkes and Mr. W. White of Glasgow, Mr. John Barron, Salisbury, and Dr. C. Wynne Parry, R.A.F.

Fee = £15.

Applications to the Postgraduate Dean, Edinburgh Postgraduate Board for Medicine, Pfizer Foundation, Hill Square, Edinburgh, EH8 9DR.

ST. GEORGE'S HOSPITAL MEDICAL SCHOOL (University of London)

ST. GEORGE'S HOSPITAL MEDICAL SCHOOL

(University of London)

THE HOSPITAL at Hyde Park Corner is one of the oldest centres of medical learning and probably the most accessible in London. There are 905 beds in the Group which includes St. George's Hospital, Tooting, and Atkinson Morley's Hospital at Wimbledon.

THE SCHOOL. In spite of an increase in the number of students attending for clinical training, the School is still able to maintain its policy of close contact between staff and students in all departments and to offer a wide range of clinical experience in the two hospitals at Hyde Park Corner and Tooting. A major reconstruction of the School's buildings at Hyde Park Corner in the 1950's provided increased social and laboratory facilities and a new library. There are established clinical academic departments of Medicine, Surgery and Psychiatry in addition to Departments of Pathology, Chemical Pathology, Medical Microbiology, Haematology and Forensic Medicine.

HOUSE APPOINTMENTS. Pre-registration appointments are sufficiently numerous to allow most graduates of the School to hold one appointment within the Group.

RECREATION. There are School playing fields of thirteen acres at Atkinson Moreley's Hospital, Wimbledon which cater for all the usual field sports, squash courts on the Hospital site at Tooting and others only a few minutes walk from Hyde Park Corner. Club rooms and refectories are on the premises at Hyde Park Corner and at Tooting, those at Tooting forming part of a Students' Centre completed in 1968 with its own library.

FUTURE DEVELOPMENTS. A completely new Hospital with 1,400 beds is to be built at Tooting. It will include a new Medical School for pre-clinical and clinical studies which will be amongst the most modern in the country and closely integrated with the Hospital buildings and those of the Royal Dental Hospital and its School of Dentistry. The first phase of this development including the central facilities for the Medical School is due for completion in 1975-76.

THE MEMBERSHIP EXAMINATION DATES OF EXAMINATION PART I

PART I Wednesday, 24th November, 1971, October, 1972, April, 1973. PART II Written Thursday, 3rd February, 1972 Clinicals and Orals Week commencing 21st February, 1972. Written Clinicals and Orals November, 1972. Written Clinicals and Orals May, 1973.

CLOSING DATES FOR RECEIPT OF ENTRIES PART I (November 1971 examination) 1st September, 1971 (October 1972 examination) 1st August, 1972

972. April 1973 examination) 1st February, 1973. ART II

FART II (February 1972 examination) Ist February, 1973. PART II (February 1972 examination) Complete 30th November, 1971. Involving exemption 31st October, 1971. (November 1972 examination) Complete 1st September, 1972. Involving exemption 1st August, 1972. (May 1973 examination) Complete 1st March, 1973. Involving exemption 1st February, 1973.

EXEMPTIONS
For two years, and two years only, following the inception of the Royal College of Psychiatrists (16th June, 1971) candidates for the Membership Examination of the College who possess certain qualifications may be able to claim exemption from Part 1 and/or certain part(s) of Part II of the Examination.
All applications for exemption must be made on the prescribed form.

PART I All candidates in possession of a Diploma in Psychological Medicine (or a qualification judged to be equivalent thereto by the Court of Electors) and who can show that they have had three years' approved experience in psychiatry may claim exemption from Part I provided that these conditions are fulfilled before 1st February, 1973. Those who fulfil the necessary conditions before then will be able to claim exemption earlier and enter as appropriate for the first or second sittings of Part II to be held in February, 1972 and provisionally in November, 1972.

PART II to be find in February, 19/2 and provisionally in November, 1972.

PART II Candidates for Part II of the Examination may at any time before 1st February, 1973 apply for exemption from part(s) of the examination (except an Oral) on the grounds of having obtained special experience, or of having additional higher qualifications, or of having abulished original work. Each such application will be considered on its individual merits by the Court of Electors. The power to grant exemption from a part or the power of the grant exemption from a part or pass the Examination before the 16th June, 1973. Thus the last opportunity to take Part II of the Examination during the two year period will be in May, 1973, for which the last date for entry will be 1st February, 1973. It therefore follows that any candidate who has been granted exemption from part(s) of Part II who has failed the part(s) of the examination for which exemption has not been granted may only re-apply for examination up to the same date (1st February, 1973).

ROYAL COLLEGE OF SURGEONS IN IRELAND

ROYAL COLLEGE OF SURGEONS IN IRELAND

The Medical School attached to the College offers a complete medical course of six years, including the Pre-registration year in Chemistry, Physics and Biology. Students may take the M.B. of London University as external students.

The Students Union includes a social centre, rugby, sailing, cricket, caving and other clubs.

The Students Union includes a social centre, rugby, sailing, cricket, caving and other clubs.

The Hollowship of the College in Surgery, Otolaryngology or Ophthalmology, Fellowships are also awarded in the Faculties of Anaesthetists, Dentistry, and Radiologists, following Primary and Final examinations.

The Primary Fellowship of the College and that of the Faculty of Anaesthetists, is reciprocal with the examinations of the other Royal Colleges.

The Primary examination of the Faculty of Dentistry is reciprocal with the examination for the Fellowship of the Faculty of Public Health Dentistry as the special subject.

The Fellowship of the Faculty of Radiology may be taken in either Radiodiagnosis or Radiotherapy. The Primary Fellowship of the Faculty of Radiology of London are exempted from the Primary Fellowship of the Faculty of Radiology, Medicine and Surgery. Fellows of the Faculty of Radiology of London are exempted from the Primary Endowship of the Saculty of Radiology of London are exempted from the Primary Endowship of the Faculty of Indictions. Postgraduate Education:

Postgraduate Education:

1. There are two couses each year for primary fellowship students.

2. Thimary fellowship of the Fellowship examinations. Early application for places desirable.

Further particulars may be obtained from the Registrar, Royal College of Surgeons in Ireland, 123 St. Stephen's Green, Dublin 2. 2

UNIVERSITY OF WALES

THE WELSH NATIONAL SCHOOL OF MEDICINE Cardiff

COURSES OF INSTRUCTION FOR MEDICAL, DENTAL AND NURSING DEGREES AND DIPLOMAS

Courses of Instruction are conducted for the medical degrees (M.B., B.Ch.) of the University of Wales, and may be attended by students preparing for degrees of other examining bodies. Courses are also provided University of Wales In Baldition from October, 1972 a course for a degree in nursing (B.N.) will be arranged.

Fees.— The composition fee for each year of study is 275. The approximate total for the six years' medical course is £610, and for the five years of the dental course is £495, including laboratory fees, students' societies fees, and the matriculation, examination and graduation fees of the University of Wales. (In accordance with Government policy, the annual fee for verseas students for each cannual fee for verseas students for each cannual fee for verseas students for each cannual fee for verseas students for each contents ees.) Certain scholarships, etc., are available.

Posteraduate Study.— Facilities are

course will be £250 exclusive of students' societies fees.) Certain scholarships, etc., are available.

Postgraduate Study.— Facilities are provided for approved research. Postgraduate scholarships are available, ranging in value from £200 to £400 per annum.

Complete Postgraduate Courses of Instruction are conducted for the Diploma in Public Health (D.P.H.), the Diploma in Tuberculosis and Chest Diseases (D.T.C.D.) of the University of Wales. Full time Postgraduate Courses are also arranged for the Diploma in Orthodontics (D.Orth.) and the Diploma is of medical and dental practitioners are arranged for the Welsh National School of Medicine, Heath Park, Cardiff CF1 4XN.

N.B.— Application for admission to undergraduate courses of instruction must be made to the Universities Central Council on Admissions. G.P.O. Box 28, Cheltenham, Glos. GL50 1HY by 15th December in the year immediately preceding that in which admission is sought.

INSTITUTE OF CANCER RESEARCH in assocation with the ROYAL MARSDEN HOSPITAL. Fulham Road, London, SW.

THE LYMPHOID SYSTEM AND ITS TUMOURS

A 5-day course in two parts to be held at the end of January, 1972 dealing with physiology, pathology, diagnosis and treat-ment.

nt. Open to all members of the medical Open to an inclusion of the profession.

Further details and application forms from: The Dean, 34 Sumner Place, London SW7 3NU.

Fee: £12.50 (or £2.50 per day).

INSTITUTE OF DISEASES OF THE CHEST

(University of London) FULHAM ROAD, S.W.3

The Institute is associated with the Brompton Hospital, S.W.3, and the London Chest Hospital, E.2.
Instruction is arranged as follows:

MEDICAL
Ten-week courses in Diseases of the Chest are arranged during the Autumn and Spring terms. Each course consists of clinics at the two hospitals, radiological and pathological demonstrations, discussions and formal lectures. The fee is £80.
Courses for Registrars and general practitioners are arranged at intervals.

SURGICAL AND CARDIOLOGICAL Training in thoracic surgery and the surgical aspects of cardiology is provided by attachments to the clinical staff at ward rounds and out-patient teaching and sessions in the operating theatre and investigating sessions. Attendance at routine lectures and demonstrations is optional

RADIOLOGY
Part-time instruction in radiology of the chest for trainee radiologists is given by arrangement.
An enrolment fee of £4 (deducted from the fees due, but not returnable) is payable on reserving places in advance in any of these courses.

OPEN DEMONSTRATIONS AND LECTURES
Clinical demonstrations, Fridays at 5 p.m.
Formal lectures, Wednesdays at 5 p.m.
These are open to the medical profession without fee. Further information may be obtained from the Secretary.

FULL TIME COURSE IN BASIC SCIENCES

The next course in the Basic Sciences for the Primary Fellowship of the College will commence on Monday 4th October, 1971.

A full time course in Anatomy, Physiology and Pathology will be run in the College for four months approximately.

Further details may be obtained from the Registrar, Royal College of Surgeons in Ireland, St. Stephen's Green, Dublin 2.

UNIVERSITY COLLEGE DUBLIN DEPARTMENT OF PAEDIATRICS

A one-month whole-time postgraduate course will commence in the College and its associated hospitals on Monday 18th October. The course will fulfil the requirements for the Diploma in Child Health Examination for candidates who have completed the recognized children's hospital appointments. Enquiries to Dean of the Faculty of Medicine, University College, Earlsfort Terrace, Dublin 2.

LONDON SCHOOL OF HYGIENE AND TROPICAL MEDICINE

(University of London)

INCORPORATING THE ROSS INSTITUTE THE TUC CENTENARY INSTITUTE

INCORPORATING THE ROSS INSTITUTE

Full-time courses, starting annually in October and lasting for an academic year except where stated below, are held for the following diplomas and MSc degrees of the University of London: (diplomas) BACTERIO COLORDON, COL

DIPLOMA IN BACTERIOLOGY
(LONDON)

For graduates in medicine, science (including veterinary science) and pharmacy who intend to follow a career in bacteriology. Closing date for applications: 1st March. The number of places is strictly limited.

DIPLOMA IN CLINICAL MEDICINE
OF THE TROPICS (LONDON)
Designed particularly for the training of
intending specialist physicians and medical

research workers in the tropics. Closing date for applications: 1st March.

DIPLOMA IN TROPICAL PUBLIC HEALTH (LONDON)
Intended for medical practitioners proposing to make a career in public health administration or in preventive medicine in the tropics. Closing date for applications: 1st March.

March.

MSc in HUMAN NUTRITION

A new course starting in 1971 for medical practitioners and graduates in science or agriculture with a biochemical or physiological background. Applicants not qualifying for an MSc degree may attend the course and sit a School examination for the Diploma in Human Nutrition. After the written examination MSc students will carry out practical work — which may take place overseas — for at least six months and will submit a written report. Closing date for applications: 1st March.

MSc in MEDICAL DEMOGRAPHY
For graduates in medicine, science or
social science with suitable experience.
Candidates with insufficient experience of the
kind required may be accepted on condition
that they take not less than two academic
years and attend specified courses in the
School during the first year. Closing date for
applications: 1st March.

MSc in MEDICAL PARASITOLOGY
Designed mainly for graduates in
medicine, veterinary medicine and veterinary
science, but graduates in science or persons
with approved non-graduate qualifications in
medicine and veterinary medicine can be
accepted, Gives training with special emphasis
on parasitic and vector-borne diseases in the
tropics. Closing date for applications: 1st
March. The number of places is strictly
limited.

MSc in MEDICAL STATISTICS Intended for graduates with a mathematics background and a good general knowledge of mathematical statistics. Closing date for applications: 1st March.

MSc in OCCUPATIONAL HYGIENE
Designed for graduates in physics,
chemistry, engineering, medicine or allied
subjects. Closing date for applications: 1st
April.

MSc in OCCUPATIONAL MEDICINE For registered medical practitioners, covering all aspects of occupational health and also fulfilling the requirements for the Diploma in Industrial Health of the Conjoint Board. Previous experience in occupational medicine is not essential. Closing date for applications: 1st February.

MSc in SOCIAL MEDICINE
A two-year course, starting each autumn, designed to provide professional training for doctors wishing to specialize in social medicine and follow careers in either medical administration and community medicine or teaching and research in social medicine or students must be medically qualified and have had at least two years' clinical experience. A limited number of bursaries are available to suitable candidates. Closing date for applications: 1st March. The number of places is strictly limited.

DIPLOMA IN TROPICAL MEDICINE
AND HYGIENE (ENGLAND)
A five-menths' course for medical practitioners starting next on 21st February, 1972. Closing date for applications for the 1973 course: 1st May, 1972.

EXTENDED AND SHORT COURSES
IN MEDICAL STATISTICS
Intended primarily for medically qualified
research workers but those with an
appropriate scientific qualification are also
eligible. Will run next from 27th September
to 17th December, 1971, occupying Monday
and Friday mornings, with the Extended
Course continuing until 11th March, 1972.
Closing date for applications for the 1972-73
session: 1st June, 1972.

COMBINED COURSE
IN MEDICAL STATISTICS
AND EPIDEMIOLOGY
The next course, starting on 27th
September, 1971 and occupying the mornings
of Monday, Tuesday, Thursday and Friday
until 24th March, 1972, is designed for
medical practitioners, Only a small number of
students will be accepted. Closing date for
applications for the 1972-73 session: 1st
June, 1972.

FURTHER DETAILS MAY BE OBTAINED FROM THE REGISTRAR LONDON SCHOOL OF HYGIENE AND TROPICAL MEDICINE, KEPFEL STREET (GOWER STREET), LONDON, WCIE 7HT.

THE UNIVERSITY OF SHEFFIELD FACULTY OF MEDICINE

Dean — Professor R. KILPATRICK, M.D., F.R.C.P.Ed., M.R.C.P. Administrative Dean — Dr. G. HUDSON, D.Sc., M.D., M.R.C.Path.

Dr. G. HUDSON, D.Sc., M.D., M.R.C.Path.

Entry into both the Medical and Dental Schools is being increased from October, 1971. Lectures and laboratory classes are at present given in the University whilst clinical instruction, for which very good facilities are available, is provided in the general and special Hospitals in the city. A new teaching hospital and medical school is under construction and will be increasingly brought into use within the next few years.

HALLS OF RESIDENCE — For Men. Crew Hall, Clarkehous Road, Sheffield S10 2LL: Stephenson Hall, Oakholme Road, Sheffield \$10 3DG; Sorby Hall, Endclifte Vale Road, Sheffield, \$10 3ES; Earnshaw Hall, Endclifte Cresent, Sheffield, \$10 3EG. UNIVERSITY OF BRISTOL

FACULTY OF MEDICINE
THE SESSION commences on 1st October, 1971.

THE SESSION commences on 1st October, 1971.

The University grants the Degrees of Bachelor of Medicine and Surgery (M.B., Ch.B.). Master of Surgery (Ch.M.). Doctor of Medicine (M.D.), Bachelor of Dental Surgery (B.D.S.), Master of Dental Surgery (R.D.S.) and Decider of Philosophy (Ph.D.) as only the surgery of Philosophy (Ph.D.) as Diploma in Public Health (D.P.H.), and holds a Training Course for Health Visitors.

The lectures and laboratory courses, which are given in the University, are designed to cover the curricula for the University's qualifications.

Hospital Practice and Clinical Instruction are provided in the Hospitals associated with the University for this purpose, and students have exceptional opportunities for studying the practice of medicine from a large variety of Cases.

have exceptional opportunities for studying the practice of medicine from a large variety of cases.

There are Halls of Residence for men and women students.
Inclusive fees:
Inclusive fees:
Inclusive fees:
For the M.B., Ch. B., curriculum 194 p.a.
For the B.D.S. curriculum 194 p.a.
For additional particulars apply to the Registrar, The University, Senate House, Bristol BS8 4LJ.

THE BRITISH DIABETIC ASSOCIATION

Hermon Whittaker Memorial Bursary

This Bursary consists of a supplementary grant of £50 per annum available to any diabetic medical student in the United Kingdom and Eire.
Further details may be obtained on application to the Secretary-General, British Diabetic Association, 3—6 Alfred Place, London, WC1E 7EE.

UNIVERSITY OF ABERDEEN FACULTY OF MEDICINE

FACULTY OF MEDICINE

The Degrees in Medicine granted are:
Bachelor of Medicine and Bachelor of Surgery
(M.B., Ch.B.), Doctor of Medicine (M.D.),
Master of Surgery (Ch.M.), and Doctor of
Philosophy (Ph.D.). The Degree of Bachelor
of Medical Biology is conferred on candidates
who have passed 1 one-year course which day
be taken at any time after the third D.P.H.;
dearn. Diplomas in Psychothers and Medical
Radio-diagnosis (D.M.R.D.) are also granted.
Radio-diagnosis (D.M.R.D.) are also granted,
the period of study for which may be
between one and two years depending on
whether study is full-time or part-time.
The total cost of the curriculum for the
Degrees of M.B., Ch.B., including textbooks,
class, hospital, matriculation, and Degree fees,
is approximately 4850. Students are required
to begin study in the Winter Term, which
starts in October, and the period of study
covers six years, unless exemption from the
first year is granted.
The University also grants degrees in Arts,
Science (Pure Agriculture, Forestry and
Engineering), Divinity, and Law, particulars
of which may be had on application to the
Secretary, University of Aberdeen, Marischal
College, Aberdeen AB9 1AS

UNIVERSITY OF NEWCASTLE UPON TYNE

Courses of 3-4 sessions in various medical and surjucal subjects are arranged on an extended weekly sessional basis during term time. These courses are suitable for those preparing for a higher qualification.

Clinical attachments, full-time or part-time, are arranged throughout the year at a fee of £10 per month.

Attachments of one or two weeks for general practitioners are arranged in general medicine, dermatology, obstetrics, paediatrics, psychiatry, geriatrics and other subjects by arrangement. Approved under Section 63 of the Health Services and Public Health Act.

One-week refresher courses in obstetrics are arranged: residential accommodation is available. Approved under Section 63 of the Health Services and Public resorts of the Health Services and Public resorts of the Health Services of the Health Service

UNIVERSITY OF CAMBRIDGE

SCHOOL OF CLINICAL RESEARCH AND POSTGRADUATE MEDICAL TEACHING

Advanced courses in medicine and research are held from time to time. The annual course on BIOLOGY OF SKIN will be held from 13th-18th December, 1971 at Churchill College. This is intended for registrars and others who have recently commenced the study of Dermatology, but is open to other medical practitioners who are interested. Two one-week REFRESHER COURSES for general practitioners will be held from 3rd-8th July and 10th-15th July 1972, accommodation for which will be available in College. The third Cambridge Seminar on learning and teaching in General Practitioners to attend the practice of the United Cambridge Hospitals for short or long periods.

Further information may be obtained from the Secretary, the Medical School, Hills Road, Cambridge CB2 1QT.

CHARING CROSS HOSPITAL MEDICAL SCHOOL (University of London)

CHARING CROSS HOSPITAL

MEDICAL SCHOOL
(University of London)

WINTER SESSION BEGINS
6th OCTOBER, 1971

The School and its parent Hospital at present occupy adjoining sites in the centre of London. A new and fully integrated Hospital and Medical School of unique design and three times the present size is, however, under construction at Fulham, the move to which is due to take place in 1972-73.

Full clinical instruction is provided for students proceeding to the degrees of the Universities of Oxford, Cambridge and London, and the total number of beds is sufficient to provide nearly every student with a pre-registration house post upon qualification. Entrance Scholarships. A number of scholarships are open to members of Oxford and Cambridge Universities withing to proceed to their clinical studies. These scholarships are awarded on the results of examinations held annually in late June or early July, embracing subjects (1) Anatomy and Physiology or (2) Bio-chemistry or Pathology. Their annual value is £100 for each of the three years of the clinical period. Many other scholarships, exhibitions and prizes are open to students pursuing their clinical course.

The Fathological Museum, which is subject to continual revision, is designed so as to display exhibits to the greatest advantage. It includes the well-known Lockyer Collection of the library, which includes a branch at Fulham, is extensive and contains not only a wide range of books for undergraduate and specialist use but also an exceptionally comprehensive section allocated to periodicals.

The Students' Union provides facilities for almost every form of athletic activity at its Sports Ground of 24 acres at Coham, Surrey, and also includes a large number of societies, both social and cultural.

The annual composition fee is £100. Any further information may be obtained from the Dean or the Secretary, both of whom are available for interview by appointment at:

The Adelphi, 1-11 John Adam Street,

London W.C.2.

SALARY SCALES OF HOSPITAL MEDICAL STAFF

SALARY SCALES OF HOSPITAL MEDICAL STAFF
Following the Twelfth Report of the Review Body, new salary scales have been approved. These came into force on April 1, 1970. The scales are set out below:

HOUSE OFFICER: Each post in this grade shall be tenable for six months. £1,626 per annum for the posts held during the first year; £1,755 per annum for posts held during the second year; £1,884 per annum for posts held during the third and subsequent years, subject to full registration.

Deductions of £177 per annum in respect of lodging only for voluntary residence.

SENIOR HOUSE OFFICER: £2,040 per annum in the first year; £2,184 per annum in the second year; £2,328 per annum in the third or subsequent years.

Deductions of £210 per annum in respect of lodging only for voluntary residence.

voluntary residence.

Or subsequent years.

Deductions of £210 per annum in respect of lodging only for voluntary residence.

REGISTRAR: £2,328 per annum x £144(3) x £126(1) — £2,886.

Deductions of £210 per annum for those with remuneration at the first incremental point on the scale, and £243 per annum for those on the second and subsequent points will be made in respect of lodging only for voluntary residence.

On assimilation to the scale for Registrars, one increment and one only shall be given for any year or part of a year in excess of two spent previously in the senior house officer grade.

Allowances at rates up to £183 per annum shall be payable to house officers, senior house officers and registrars occupying posts approved for such allowances in peripheral hospitals.

SENIOR REGISTRAR: £2,760 per annum x £126(1) x £174(1) x £177(1) x £174(1) x £177(1) £3,588.

Deductions of £270 per annum in respect of lodging only for voluntary residence.

On assimilation to the salary scale for senior registrars, increments to a maximum of two shall be given for each year or part of a year in excess of three spent previously in the registrar grade.

MEDICAL ASSISTANT: £2,520 per annum x £124(1) x £156(3) x £144(10)-£4,572.

Deductions of £270 per annum in respect of lodging only for voluntary residence.

CONSULTANT: £4,512 per annum x £201(8) x £210(1)-£6,330.

Deductions of £420 per annum in respect of lodging only for voluntary residence.

COMPULSORY RESIDENCE: The Terms and Conditions of Service of Hospital Medical and Dental Staff state:

173. A practitioner who is required as a condition of his appointment to reside in a hospital shall be provided with lodging without charge, except where the practitioner elects to occupy a house, flat or apartment for which a rental is appropriate.

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

MINISTRY OF DEFENCE

PHYSIOLOGIST PATHOLOGIS

2 vacancies for medical practitioners fully registered in the U.K.

ARMY PERSONNEL RESEARCH ESTABLISHMENT, Farnborough, Hants.

A medical physiologist is required to undertake research on the response of man to environmental stress and to join a group working with special emphasis on arctic, tropical, and protective clothing. There will be opportunities to develop interaction between this field of research and that of teams working in ergonomics, physical fitness, fatigue, nutrition acclimatization. Preference will be given to candidates with experience in climatic physiology.

CHEMICAL DEFENCE ESTABLISHMENT, Porton Down, Salisbury, Wilts.

A pathologist is required to assist in investigations into the mode of action of a wide range of toxic and therapeutic substances and the assessment of the mechanisms of acute and chronic toxicities. A substantial proportion of the work involves conventional histology, histochemistry, electron microscopy, and possibly tissue culture. Opportunities for research projects with scientists of other disciplines and for publication of results.

SALARY: £4031 - £5490: Starting salary may be above minimum. Non-contributory pension. Promotion prospects to £6490

For further details and an application form (to be returned by 28th September, 1971) write to Civil Service Commission, Alencon Link, Basingstoke, Hants, or telephone BASINGSTOKE 29222, ext. 500 or LONDON 01-839 1696 (24 hour "Ansafone" service), quoting S/630(H). (12499)

Cheshire County Council

Child **Psychiatrist** £3,240 - £5,517

Applications are invited from duly qualified persons for the above post for an area including the Macclesfield, Northwich and Runcorn areas of Cheshire.

The work in the main is with the County Child Guidance teams, which include educational psychologists and social workers, at modern and well equipped clinic centres; there is close co-operation with the Education and Social Services departments and this work is likely to increase in the future.

The salary scale is £3240 to £5517 and the commencing point will be fixed according to qualifications and experience.

Application forms are obtainable from the **County** Medical Officer and should be returned to the Health Department, Pepper House, Pepper Row, Chester, not later than 13th September.

Further details may be obtained from the Principal Medical Officer for School Health, telephone number Chester 24678, ext. 115, or by letter addressed to the County Medical Officer.

12510-56

Cheshire County Council

Medical Officer in Department £2,493 - £3,342 Wirral area

Applications are invited from registered medical practitioners for the above post. Full-time or part-time applications would be considered.

In the main, the post will involve work with children from birth to sixteen years; a knowledge of developmental paediatrics, of experience with handicapped children, and of the work in a school health service would be desirable, but full training facilities exist if the successful candidate requires this.

The Wirral area forms part of the Bebington and Deeside division of the county, and the Divisional Medical Officer is the Senior Administrative Doctor who will be responsible for the allocation of the above mentioned duties and any others that may be required.

Salary will be within the scale £2,493 - £3,342, the starting point being fixed according to experience and qualifications. Travelling and subsistence allowances will be paid in accordance with the county scale.

Application forms are obtainable from the County Medical Officer, Pepper House, Pepper Row, Chester. Closing date 17th September.

... diminishes the response of peripheral blood vessels to constrictor and dilator stimuli

... has a simple dosage regimen

Dixarit is the only specific preparation for migraine prophylaxis which is not derived from the ergot alkaloids. Therefore patients do not experience ergot-like side effects. In particular it does not compromise the peripheral blood supply. On the contrary, Dixarit, a pharmacologically simple preparation, is ideal for the prophylactic management of the migrainous patient, exerting its effect by diminishing the responsiveness of the peripheral blood vessels to constrictor and dilator stimuli.¹

Convenient morning and evening dosage means the patient is unlikely to forget his dose which is often the difference between therapeutic success or failure.

There is conclusive evidence from controlled clinical trials that Dixarit is effective in lessening the severity and frequency of migraine attacks.^{2,3,4}

- 2 Lancet, 1969, 2, 430
- 3 In: Background to Migraine, 3rd Migraine Symposium 1969, Cochrane, A.L. (ed.) Heinemann, London, 1970
- 4 Acta Neurologica 1970, **637**, 1

Chemistry

Dixarit is 2–(2, 6–dichlorophenylamino)–2–imidazoline hydrochloride. (Approved name clonidine HCl).

Pharmacological Action

Dixarit diminishes the responsiveness of peripheral vessels to constrictor or dilator stimuli.

Indications

Dixarit is indicated for the prophylactic management of migraine or recurrent vascular headaches in adult patients.

Contra-indications

There are no absolute contra-indications to the use of Dixarit.

Precautions

Dixarit is unsuitable for patients suffering from migraine who have co-existing or previous history of depressive illness, since further depressive episodes have been attributed to it.

As with any drug, during the first trimester of pregnancy normal precautions must be observed. Animal tests have shown no foetal abnormality.

Using higher doses than those recommended for migraine, clonidine is an effective anti-hypertensive agent. It is available for this indication as Catapres tablets and ampoules.

Caution must be used in patients where anti-hypertensive agents are being used. Provided the dosage regimen below is followed, no difficulty should arise during the routine management of such patients. Where Catapres is already being used Dixarit therapy is obviously illogical.

Accidental overdosage could give rise to hypotension and bradycardia; these effects may be counteracted by ∞ -adrenergic blocking drugs such as phentolamine.

Side effects

In general these occur only during the initial period of treatment. Sedation and dry mouth occur in some patients. Dizziness, nausea and nocturnal unrest have been reported. Occasional rashes have been attributed to Dixarit.

A single case of toxic hepatitis has been reported during the use of clonidine for the treatment of hypertension at doses considerably higher than those recommended for migraine. However at these higher dosages monitoring of haematological, renal and hepatic status in large numbers of patients has revealed no drug-related adverse effects.

Dosage

Adults only: a simple twice daily dosage, morning and evening.

1 tablet twice daily. If after 2 weeks there has been no remission, increase to 2 tablets twice daily. In turn this may be increased to a maximum of 3 tablets twice daily.

Duration of treatment depends upon frequency and severity of attacks.

Presentation and Identification

Tablets, each containing 0.025 mg Dixarit in containers of 100. Blue, biconvex, sugar-coated tablets with Company symbol on one side.

Note: Compressed tablets each containing 0.1 mg clonidine hydrochloride are available as Catapres for the treatment of hypertension.

The right-first-time antibiotic for infections in children

Penbritin is right because it is active against the causative organisms in Otitis Media. Its broad spectrum includes H. influenzae which commonly causes this infection in the under fives. This pathogen is insensitive to oral Penicillin V and G and only partially sensitive to the erythromycins. Penbritin destroys it.

Penbritin is right because its safety is well proven. This contrasts with recent publicity drawing attention to the problems of tooth staining and bone deposition which may follow tetracycline therapy.

Two palatable syrups, capsules, tablets and the new paediatric suspension enable you to prescribe Penbritin in the right form for any patient. Injectable Penbritin is also available if required. Following the recent price reduction the average daily cost of treating Otitis Media with Penbritin is just 8½p.

Penbritin is right because it is well proven. Published references involving more than 600 patients with Otitis Media show an overall success rate of 84%. This figure confirms Penbritin as the right-first-time antibiotic.

Dosage:

Children under 10 years — 125 mg q.i.d. $\frac{1}{2}$ — 1 hour a.c. Older children and adults — 250 mg q.i.d. $\frac{1}{2}$ — 1 hour a.c. In severe infections these dosages may be increased.

Contra-indication: Penicillin hypersensitivity.

Side-effects: as with other penicillins.

Further information is available on request.

Penbritin

Penbritin* (ampicillin B.P.) is a product of British research at **Beecham Research Laboratories** Brentford, England originators of the new penicillins

THAL GANGER SEARCH FUND

PROGNOSIS IN ELEVATED BLOOD PRESSURE

Implications of insurance statistics

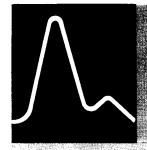

The charts on the opposite page are based on the accumulated experience of 26 insurance companies in America covering nearly 4,000,000 people who were accepted for life insurance. The statistics reveal that even modest elevations of blood pressure are associated with definite decreases in life expectancy.

For example, a male of 45 years with a blood pressure 150 100 mm Hg has his average life expectancy reduced from 32 to 20% years—a loss of 11½ years.

Fortunately, substantial evidence has accumulated to show that effective treatment with modern antihypertensive drugs can considerably improve the depressing prognosis indicated by the insurance companies' statistics.

This information is made available by Merck Sharp & Dohme Limited, the discoverers of

Disano de la Elevente de Sicone Dicesime

Reduction in Life Expectancy

Life Expectancy in Elevated Blood Pressure Compared with Normal Expectancy MEN

Reductions in expectation of life associated with elevated blood pressure are **not** proportionate to the degree of excess mortality. This holds even for very high blood pressures.

The magnitude of the reduction in life expectancy increases with elevation in blood pressure, but decreases with age.

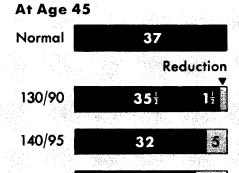

The figures illustrate approximate reductions in life expectancy associated with indicated elevations in blood pressure.

Fucidin H Ointment First

Whenever a topical antibiotic/steroid preparation is indicated.

Combines the proven antipruritic/anti-inflammatory action of hydrocortisone with the rapid, bactericidal action of Fucidin. In view of the mounting concern about the adverse effects of the more potent steroids '* and the proven clinical effectiveness of Fucidin H Ointment in the treatment of a variety of common dermatoses, "... there would seem to be no case for the use of a more potent steroid until hydrocortisone has been first tried."
