

# There is no chemical or clinical equivalent to Carbenoxolone.

A decade of clinical success and biochemical research distinguishes carbenoxolone sodium from liquorice. Carbenoxolone sodium, the single active principle of BIOGASTRONE and DUOGASTRONE, is not a mere extract of liquorice. It is a unique drug, behaving in many ways quite differently from the parent glycoside from which it was first synthesised.

There is abundant evidence, clinical, radiological and endoscopic, that carbenoxolone accelerates the healing of both gastric and duodenal ulcers.

No liquorice extract can show any comparable weight of proof.

## In urinary infections

three major organisms

98%  
sensitive to  
**Bactrim<sup>\*</sup>**  
**Roche<sup>1</sup>**

In a recent multicentre trial which included over 6,000 outpatients, the three most common causative organisms in urinary infections were reported to be *E. coli*, *Proteus mirabilis* and *Klebsiella aerogenes*. In one of the centres more than 98% of these organisms were sensitive to Bactrim Roche, whereas only 65% were sensitive to ampicillin and 70% to sulphonamide.<sup>1</sup>

### 90% clinical success in recent double-blind trial<sup>2</sup>

"The extreme effectiveness of Bactrim in controlling and curing over 90% of patients with urinary infection in hospital suggests that this combination will become a most efficient agent in treating urinary infections, and therefore probably be the therapy of choice in most instances."<sup>2</sup>

### Problems of the Newborn

Many doctors outside the neonatal and paediatric field may be unaware of the rapid advances made in the care of the newborn in the last decade. Last year the *B.M.J.* published a series of articles discussing the diagnosis and management of common conditions affecting newborn babies. The articles have been revised by their authors and collected together as a booklet, forming a useful guide to both serious problems and more everyday topics which confront doctors in their practice.

PRICE £1.00 (U.S.A. \$3.00), *including postage*

### Gynaecology in General Practice

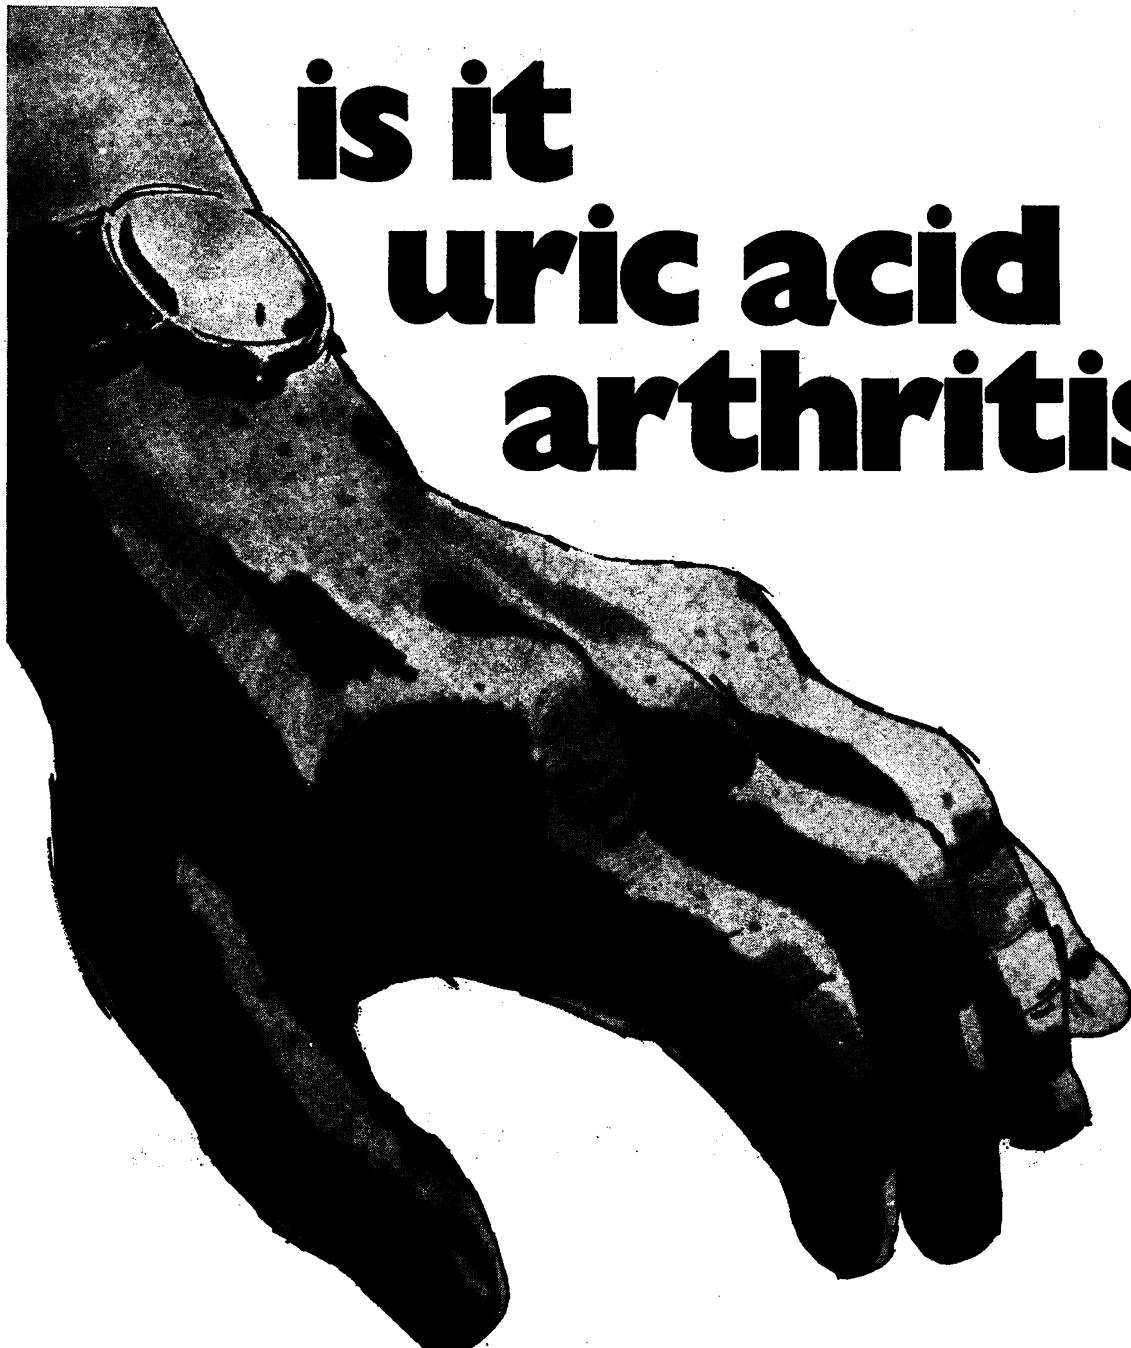

As in other branches of medicine, the pattern of gynaecological problems likely to be encountered by the general practitioner will probably change in the future. Moreover, many doctors, now in practice were taught little about some of the topics which are important today and are likely to become even more so. In 1971 the *B.M.J.* published a series of articles in the "Medical Practice" section discussing the management of various gynaecological disorders in a domiciliary setting. These have now been collected together as a booklet entitled *Gynaecology in General Practice* and provides a useful and up-to-date account of gynaecology in general practice.

**“...chronic psoriasis is indeed a grave social and medical problem...”**

In this review\* of advances in the treatment of disease of the skin, the author pointed out that many dermatologists are becoming alarmed at the increasing amount of permanent cutaneous damage following the long-term use of topical steroids. After discussing the merits of coal tar preparations, the author concluded: “It is clear that such... therapy is extremely effective in the control of psoriasis, ...”

**Alphosyl cream and lotion** contain 5% extract of coal tar and allantoin 2% for removal of cutaneous debris. **Alphosyl Application P.C.** is a combination of coal tar extract (5%) and hexachlorophane (1%) in a special foaming detergent base (shampoo). \*The Practitioner (1970) 205, 452-458.

“

Treatment with Paroven significantly altered the  $\text{PO}_2$ , oxygen saturation, and the oxygen content of varicose vein blood and the oxygen extraction in tissues of varicose vein legs towards normal values. The improved venous blood oxygenation and the reduced tissue oxygen extraction indicated better tissue perfusion with less blood oxygen having been taken from the increased capillary blood flow.

”

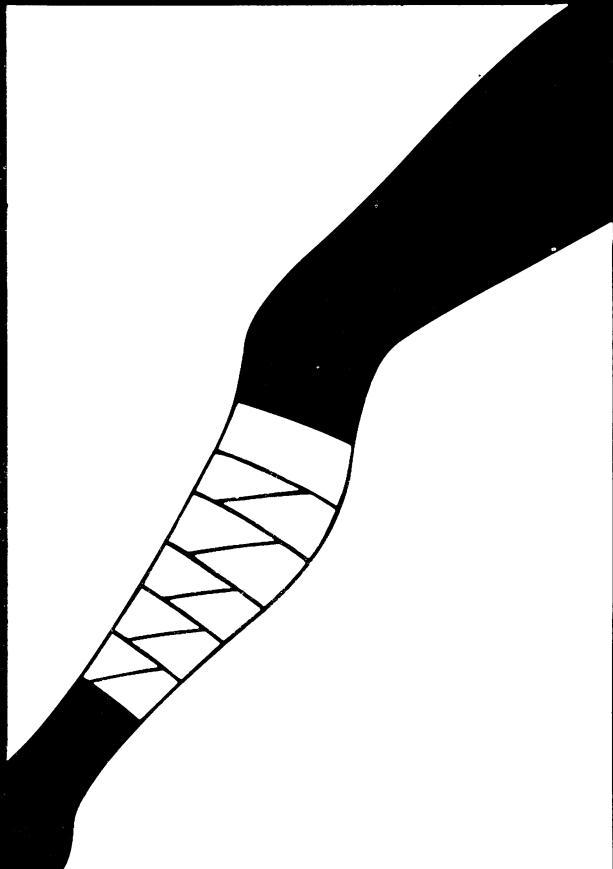

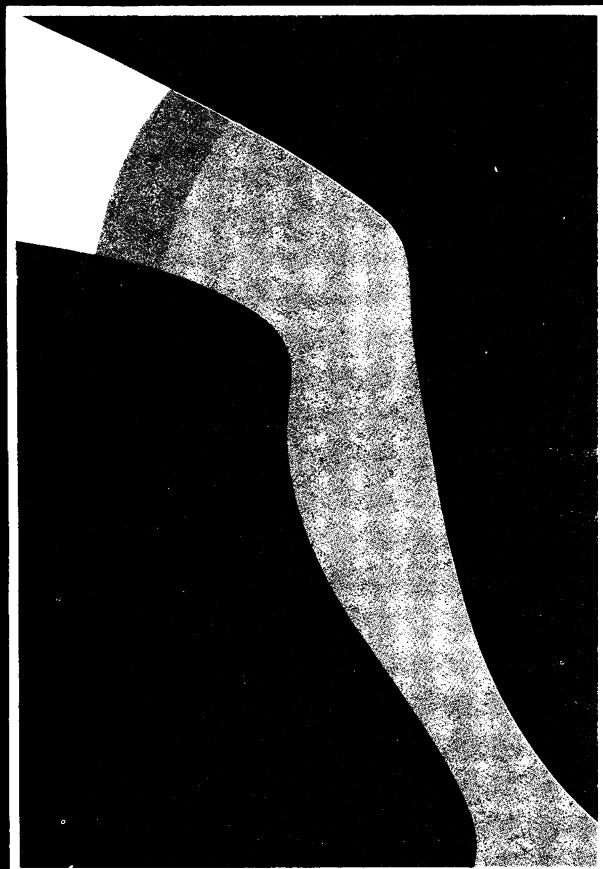

**improves capillary flow relieves varicose disorders**

"The most obvious effect of treatment with HR (Paroven) is the very constant relief of night cramps, with an improvement exceeding 90 per cent".

(Brit J Clin Pract (1970) 23, 161)

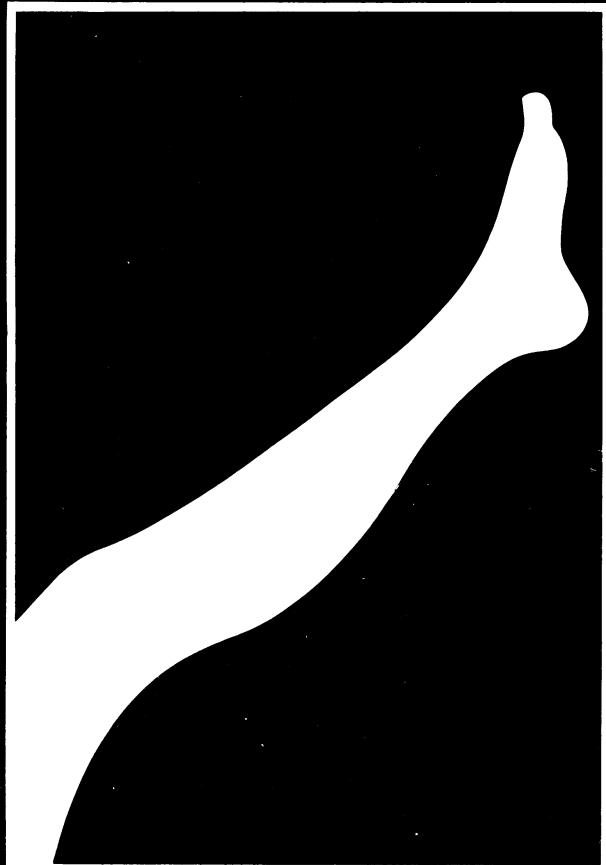

"The degree of relief in chronic aching pain in the legs was not so marked (compared with 90% improvement in night cramps and 70% improvement in heaviness of the legs), but still amounted to 54 per cent".

(Brit J Clin Pract (1970) 23, 161)

"Symptoms of heavy legs are improved in 70 per cent, and it was generally agreed that not only did legs feel lighter but the patients were more agile".

(Brit J Clin Pract (1970) 23, 161)

# Long term treatment with **PAROVEN**<sup>®</sup> in varicose veins and post phlebitic syndrome

Recent clinical and double blind trials<sup>1, 2, 3</sup> have confirmed that PAROVEN provides outstanding relief of symptoms due to chronic venous insufficiency or back pressure. Particularly good results were obtained in night cramps, heavy legs and chronic aching pain. Other symptoms which respond to long-term therapy with PAROVEN include: superficial thrombophlebitis, varicose ulcers, varicose eczema, ankle oedema, restless legs, paraesthesia, haemorrhoids.

**Dosage.** Initial treatment: 4 capsules a day, preferably with meals. In most cases, at least four weeks treatment with PAROVEN is required before significant benefit is felt. At the point where the patient experiences benefit, the dosage may be adjusted to a maintenance level. Maintenance treatment: 1-2 capsules a day.

**Side effects and Precautions.** In a few patients, slight gastro-intestinal disorders, flushes and headaches have been reported. These are usually overcome by taking the capsules with meals or by slight adjustment of dosage. There are no known contra-indications to PAROVEN; it is virtually non-toxic and has no teratogenic effects. In keeping with current teaching and practice its use during the first trimester should, however, be avoided.

**Availability.** Capsules, each containing 250 mg of O-(β-hydroxyethyl)-rutosides (not less than 45% troxerutin), in bottles of 20 and 100 capsules.

# The beauty of Calmuriid HC in eczema

Double-blind studies have shown that Calmuriid HC is a safe and effective steroid, hydrocortisone, and urea, with the potent film-forming properties of urea, in efficacy. It is without the hazards of atrophy and telangiectasia, and its absorption and penetration are excellent. It is especially effective in long-term therapy. Calmuriid HC has a unique penetrating ability, enabling it to penetrate to the early clearing of the dermatitis and the remarkable rapid disappearance of the scaly skin. Any simple available steroid is best

## 1905 An important year for coffee lovers

It was the year Dr. Ludwig Roselius discovered how to remove caffeine from coffee without altering its flavour.

Since then, thanks to him and his Kaffee H.A.G., no one need say "No" to coffee! Today, in nearly every country in the world, the Medical Profession is recommending it increasingly in cases where caffeine is contra indicated.

## COMMERCIAL APPOINTMENTS

# Interesting temporary assignment

Each year during Autumn Duphar Jet Injector teams visit hospitals, schools and industrial premises to administer Influvac influenza virus vaccine to the staff.

The Teams comprise two S.R.N.s and one Registered Medical Practitioner. The nurses are trained in the use of Jet Injector equipment and are responsible for administering the vaccine and keeping appropriate records. The doctor is responsible for advising on the suitability of subjects for vaccination and to oversee the vaccination session.

Since the Jet Injector teams visit our clients' premises considerable travel throughout the U.K. is involved and members of the teams must be prepared to stay away from home for long periods of time. Hotel accommodation is provided and each team uses a Company vehicle to travel in.

Remuneration will be at a rate of £75 per week plus £10 per week bonus payable upon satisfactory completion of service with the Company.

Applications are invited from Registered Medical Practitioners who are available between September and December inclusive. The successful applicants will receive adequate instructions before they join a team.

Written applications should be addressed to:—  
The Medical Director, Duphar Laboratories Ltd.,  
Gaters Hill, West End, Southampton, Hants.

## INDUSTRIAL APPOINTMENTS

Attention is drawn to the British Medical Association's statement of policy on the Remuneration of Industrial Medical Officers as approved by the Representative Body, which is available on request from the Secretary.

## NATIONAL COAL BOARD MEDICAL SERVICE

The Board invite applications for three vacancies, the first two for Area Medical Officers in Durham, and Northumberland, and the other for a Deputy Area Medical Officer in South Wales.

In view of the wide range of occupational hazards in the industry and the Board's firm policy of progressively improving the working environment, the doctor's role in the Medical Service is unusually challenging requiring competence both in clinical and preventive medicine. The service is closely associated with the Institute of Occupational Medicine in Edinburgh.

For the senior posts, previous experience in occupational medicine or in cognate disciplines would be an advantage. The Deputy Area Medical Officer will be given full training in occupational medicine and an opportunity of acquiring a specialist qualification in this subject.

All posts carry prospects of promotion and are embodied in the Board's long term staffing plan. Salaries up to £6,500 and £5,550 respectively.

*Applications should be addressed to the Head of Staff Administration, Room No. 202, Hobart House, Grosvenor Place, London SW1X 7AE.*

## COMMERCIAL APPOINTMENTS

AN ETHICAL INTERNATIONAL pharmaceutical company in the south of England is seeking to appoint a Medical Director who combines energy and diplomacy with medical skills.

More specifically, he should present the necessary capabilities to assess clinically, those contributions to medical science emanating from productive Research and Development laboratories and to align the associated data output with the requirements of the Medicines Act 1968 and Regulations made thereunder. Additionally, he should feel challenged by the necessity to promote approved products to marketing reality. In more general terms, the Medical Director is expected to advise the Company on all aspects of medical practice pertinent to the Company needs.

Previous experience in the industry is considered advisable rather than mandatory. The salary will reflect the importance that is placed on this appointment. There is a non-contributory Pension and Life Assurance Scheme in operation and assistance with relocation will be given where appropriate. Please reply to Box 964 BMJ 34

## ADMINISTRATIVE

UNIVERSITY OF OXFORD  
Board of Governors  
of the United Oxford Hospitals  
Oxford Regional Hospital Board

SENIOR REGISTRAR  
TRAINING POSTS  
IN MEDICAL ADMINISTRATION  
The 2 Hospital Boards together with the  
University have created a programme of  
training spanning four years designed for  
candidates with good clinical backgrounds  
who have an interest in medical  
administration. Although previous  
administrative experience is not essential,  
candidates should be able to demonstrate  
their ability to organize effectively and work  
closely with professional and other  
colleagues. The first year of the programme is  
intended to create a link between clinical  
work and administration, the candidate  
spending this year as Admissions Officer for  
the United Oxford Hospitals and as a Trainee  
Epidemiologist in the Department of the  
Registrar General of Medicine. This  
attachment would continue in the second year  
when the candidate would be working with the  
Oxford Regional Hospital Board instead of the  
United Oxford Hospitals. The third year of the  
programme would be spent on the full time  
course at the London School of Hygiene and  
Tropical Medicine leading to the M.Sc. degree  
in medical administration. During the fourth  
year, the candidate would be engaged on  
research leading to the thesis required for the  
M.Sc. It is intended that the arrangements will  
allow the fourth year to be spent in Oxford  
with one or more of the organizations  
participating in the programme. The posts will  
be paid on the Senior Registrar grade.

Further details may be obtained from the  
Group Assistant Secretary, Radcliffe  
Infirmary, Oxford. Application forms should  
be returned to him by 5th August, 1972. (36100)

**The Institute of Medical  
 and Veterinary Science  
 Adelaide, South Australia**

**pathologist**

Applications are invited from medical graduates for the position of Pathologist at the Whyalla Hospital Laboratory, which is a branch laboratory of this Institute.

Whyalla is situated some 240 miles from Adelaide and has a population of about 30,000. A modern, 230-bed hospital with excellent laboratories and equipment serves this rapidly expanding city which is centred around Australia's largest shipbuilding yard, a modern steelmaking plant and allied industries. At present the laboratories carry a staff of twelve technicians. The appointee would be responsible for introducing histopathology and morbid anatomy, as well as directing all other branches of pathology.

The salary range is \$14,354- \$15,104- \$15,604, and the successful applicant may be offered the right of limited private practice (up to an additional 25 per cent of salary). Generous leave and superannuation are provided. First-class fares and reasonable baggage allowance will be paid for the appointee and his family. A modern residence is available at a reasonable rental.

Applications, stating full name, place, date and year of birth, nationality, marital status, details of qualifications, experience and published work, together with names of three referees, should be sent to The Director, Institute of Medical and Veterinary Science, P.O. Box 14, Rundle Street, Adelaide, South Australia, 5000. (13963)

# Medical Officer

## General duties & obstetrics

In Zambia, Roan Consolidated Mines provides a comprehensive medical service for its employees. Based at Mufulira, the doctor appointed will undertake general duties involving hospital out-patient sessions and domiciliary and clinic visits. He will also have medical and obstetrical in-patient responsibilities and will share hospital obstetrical call duties on a rota basis with the principal obstetrician and one other medical officer. Experience in hospitals and general practice is called for which must include obstetrics. This is a post for a doctor holding the DRCOG rather than MRCOG.

Curative medical services are centred on two well-equipped hospitals totalling 460 beds. There are a total of 13 medical officers, including those with higher qualifications working in their specialised fields. The services are provided for employees and their dependants which comprises about 55,000 local and 2500 expatriate personnel.

A competitive salary will be negotiated, depending on experience and qualifications. Employment will be on a two or four year contract by agreement. Benefits include ■ children's education allowances ■ return passages ■ low rental housing ■ paid leave which accrues at the rate of 55 days per annum.

Immediate interviews are offered but because of documentation procedures it will be about three months before the man appointed will take up his duties in Zambia.

Please write giving concise details of qualifications and experience, quoting reference AM.389, to:

In infected eczema, it's the eczema you worry about.

And no combination of anti-infectives will stop the scratching that starts the infection that results in infected eczema.

But Betnovate-N will.

And it will do it quicker than other preparations designed to combat infected eczema, because it contains betamethasone as 17-valerate, a more effective steroid.

Betnovate-N also contains neomycin so it stops the infection at the same time.

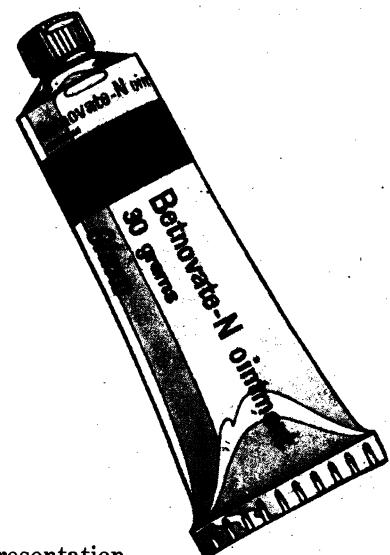

All at a price others can't match.
