What's better than having your key staff in your office?

When you have a Magneta direct speech intercom system, you get through to your staff in 2 seconds, as opposed to 12 seconds on the internal telephone. You talk at the touch of a button. No delays, no waiting. And you don't have to stop what you're doing while you're talking, neither does the called person, who can stand up to 30 feet from the instrument and talk away.

There are two systems from which to choose, varying from the very simplest to the most sophisticated multi-station installations.

1905 An important year for coffee lovers

It was the year Dr. Ludwig Roselius discovered how to remove caffeine from coffee without altering its flavour.

Since then, thanks to him and his Kaffee H.A.G., no one need say "No" to coffee! Today, in nearly every country in the world, the Medical Profession is recommending it increasingly in cases where caffeine is contra indicated.

MEDICAL Golf Tournament

GREAT BRITAIN **v** UNITED STATES

A challenge has been received from an American medical journal that sponsors the U.S. Medical Open for a Challenge Cup Match between British and American doctors, to be played off at Pebble Beach, California in 1973. Teams are to comprise 16 players in four sections based on the handicaps of 0-5, 6-10, 11-15, 16-20.

The Medical Golfing Society, in conjunction with the British Medical Association and Medical News-Tribune, has accepted the challenge and will arrange competitions on an area basis throughout the United Kingdom to select the teams. It is anticipated that the final will be played off in the London area.

The competitions will be organized with the assistance of the B.M.A.

Regional Offices. Golf and refreshment provided free of charge.

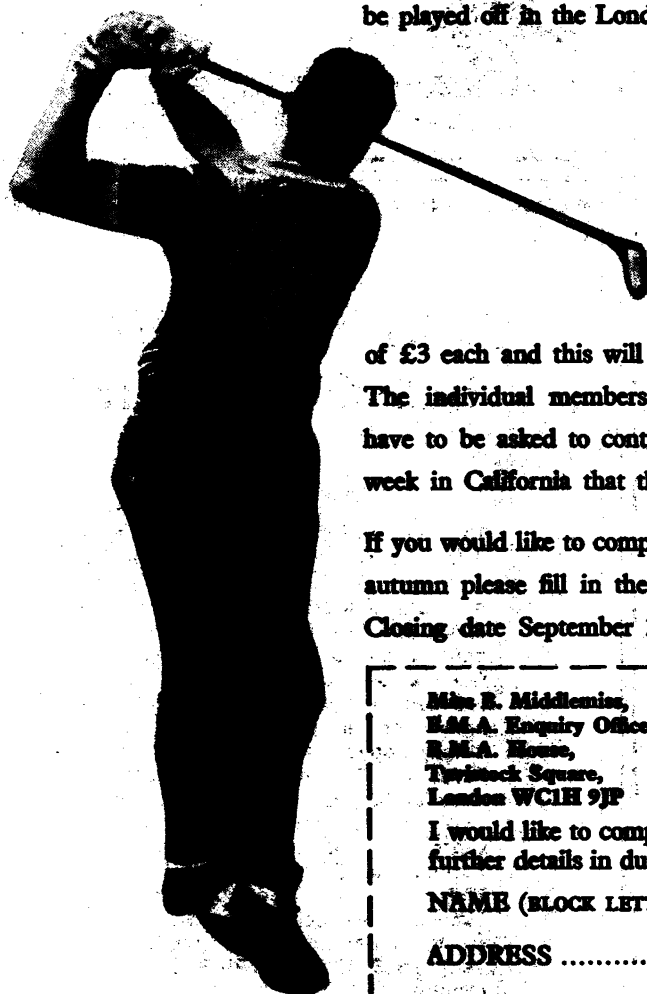

To send a British team to America is costly so all competitors will be expected to pay an entrance fee

of £3 each and this will meet some of the expenses of the team.

The individual members of the team to go to America might also have to be asked to contribute towards their own expenses of the week in California that the Challenge Match will occupy.

If you would like to compete in an area competition to be held later this autumn please fill in the coupon and return it as soon as possible.

Closing date September 23.

THE STRONG BOX

Analgesic strength – Codis provides double analgesic action with codeine and soluble aspirin. In a recent hospital trial,* Codis proved superior to pentazocine in the relief of pain.

Anti-inflammatory strength – Aspirin's proven anti-inflammatory effect (not found with paracetamol) provides a valuable source of relief in conditions such as

rheumatoid and osteo-arthritis where inflammation and pain occur together.

Strength in solubility – The aspirin and codeine in Codis are completely soluble, resulting in rapid absorption, fast action and relative freedom from gastric irritation.

Each Codis tablet contains Aspirin BP 500 mg, Codeine Phosphate

BP 8 mg, Calcium Carbonate BP 150 mg, Anhydrous Citric Acid BP 50 mg, Saccharin BP 6 mg.

British evidence confirms value of

Serc is the first drug to offer comprehensive action against all the manifestations of Meniere's syndrome. A British trial* now confirms its clinical value. Objective tests of hearing and vestibular function in 11 patients before and after treatment with Serc showed a dramatic improvement in many cases. 'There was an overall average gain in hearing over the whole group in both ears.' Studies of nystagmus suggested an improvement in vestibular function. 'Subjectively, 9 out of 11 patients claimed an improvement in the symptom of vertigo and all 11 claimed reduction in tinnitus.'

Flatulent dyspepsia. A repeated problem.

He is a frequent visitor to your surgery and you've tried him on a whole variety of antacids and other medications. But still the dyspepsia persists.

Maxolon offers a real break in the all-too-familiar routine of persistent flatulent dyspepsia. In a week, Maxolon will prevent symptoms in 4 out of 5 patients. In a month, normal motility may be re-established.

In your practice, there are patients who would benefit from a month's course of Maxolon.

Prove Maxolon for yourself. Use Maxolon on your regular flatulent dyspepsia patients. For a 7 day starter pack write to Beecham Research, Freepost, Brentford, Middlesex – post-free in the United Kingdom. *Full information is available on request.*

a certain way to treat a lady

The certainty of positive microbicidal action, against all classes of vaginitis pathogens, is provided by Betadine vaginal pessaries. Therefore the risk of overgrowth of non-susceptible organisms associated with specific therapies is avoided.

Because of povidone iodine's decisively microbicidal action Betadine pessaries deodorize, which is particularly important in all forms of infective vaginitis.

Oral systemic anti-protozoal agents, antifungals and antibiotics may be used concomitantly if this is desired.

The following alternative forms of Betadine vaginal therapies are recommended:

Betadine Vaginal Pessaries - night and morning
Each pessary contains povidone-iodine 200 mg (USNF)

Betadine Vaginal Gel - at night
contains povidone-iodine 10% w/w (USNF)

Betadine Vaginal Douche - in the morning
contains povidone-iodine 10% w/w (USNF)

GYNAECOLOGY IN GENERAL PRACTICE

from the British Medical Journal

As in other branches of medicine, the pattern of gynaecological problems likely to be encountered by the general practitioner will probably change in the future. Moreover, many doctors now in practice were taught little about some of the topics which are important today and are likely to become even more so.

In 1971 the *B.M.J.* published a series of articles in the "Medical Practice" section discussing the management of various gynaecological disorders in a domiciliary setting. These have now been collected together as a booklet entitled *Gynaecology in General Practice* and provides a useful and up-to-date account of gynaecology in general practice.

Flora margarine can help prevent heart disease.

Next year, one in four deaths in Great Britain will be caused by coronary heart disease. Some might be prevented simply by the careful regulation of dietary fat intake.

For the links between the consumption of saturated fats, high blood cholesterol levels, atherosclerosis and coronary disease are now generally believed to be positive.

One way to reduce the associated risks is to substitute polyunsaturated fats for saturated fats. Flora is particularly effective as part of the dietary treatment of hyperlipidaemia.

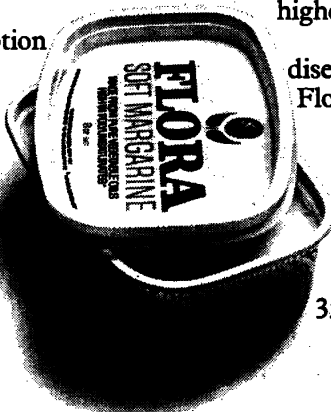

Flora margarine is exceedingly rich in polyunsaturated fats, containing 50% natural cis-cis linoleic essential fatty acid. There is no other spread higher in polyunsaturated fats than Flora.

For people at risk from coronary heart disease, indeed for almost anyone, Flora margarine makes very good advice.

Medical Adviser

If you are interested please write soon 'In confidence' giving full details of career to date to:—
The Managing Director,
Kabi Pharmaceuticals Ltd., Bilton House,
Uxbridge Road, Ealing, London W5 2TH.

(15379)

Group Marketing reorganization leaves us in need of a U.K. Medical Adviser.

We are a wholly owned subsidiary of AB Kabi, Stockholm, Sweden, marketing some of the highly ethical preparations of the parent Company's research. The challenging therapies of thrombolysis and antifibrinolysis were first launched in the U.K. by ourselves and there is still far to go in these fields.

The Medical Adviser must hold British Medical Qualifications and preferably be between the ages of 30 and 45. Experience in the industry is not absolutely essential, but could be an advantage. Very important are enthusiasm and a keen desire to make a progressive career with us. The Medical Adviser will be directly responsible to the Managing Director.

We seek a doctor with a lively and active mind; a great interest in therapeutics, with an ability to communicate with all levels of medical personnel, and with the ability to help to train medical representatives.

For all this and more we offer a good salary with progressive possibilities; a company car; free life insurance; pension scheme; foreign travel; pleasant working conditions at our Ealing Office with a good team of ardent enthusiasts for the Company and its products.

Research-oriented Physician

This appointment is for a physician who can derive satisfaction from working in an environment which is advancing medical knowledge. As a specialist member of the R & D team, he will work closely with members of his profession and the company's scientists whose activities are centred on both new and existing pharmaceutical products. In particular this will entail organising and evaluating clinical trials and ensuring that the most effective use is made of existing medical knowledge. Candidates must be registered medical practitioners with experience or an interest in the various aspects of human pharmacology, and an aptitude for highlighting worthwhile areas for future research activities. Our client is a well-known British company with a high R & D budget and a range of ethical products many of which have been "firsts" in their field. Salary is negotiable around £5,000; car provided; location Southern Home Counties. Please write or telephone 01-629 1844 (at any time)—in confidence—for further information.

INDUSTRIAL APPOINTMENTS (See also P.xxii)

R.A.E. Farnborough Industrial Health Specialist £7276

Research at Farnborough and Bedford and other subsidiary research establishments involves advanced industrial technology. It covers such fields as radiation and radio-active materials, lasers, rockets and rocket fuels, aviation medicine, and a wide span of industrial chemicals and processes, often in areas where the potential medical hazards have not yet been defined. It will be the Senior Medical Officer's prime responsibility to supervise the occupational health services at the establishments and to minimise risk.

Candidates must be fully-registered medical
(15402)

practitioners in the UK with considerable experience in industrial medicine, and preferably aviation medicine. A diploma in industrial health would be an advantage.

Non-contributory pension scheme. Promotion prospects.

Fuller details of this appointment may be obtained by writing to the **Civil Service Commission, Alencon Link, Basingstoke, Hants.**, or by telephoning **BASINGSTOKE 29222, ext. 500** or **LONDON 01-839 1992** (24-hour "Ansafone" service) quoting reference **S/8040/AM/1**. Trends in Clinical Pathology

Essays in Honour of Gordon Signy

This book is no pious collection of personal tributes but a survey of the old and the new disciplines in clinical pathology since the second world war — research in atherosclerosis and ischaemic heart disease, progress in medical virology, microbiology and cytology, the impact of antibiotics on medical bacteriology, chemical pathology and also molecular defence, haematology in mid-century, including haemostasis and blood transfusion. The place of fibrin in the story of hyalin is another modern study, so also is that on automation. The outlook on some members of the family Enterobacteriaceae is changing, and the 'old' forensic medicine is indeed new. And those pathologists working in the under-developed countries are not forgotten. The contributors are internationally renowned.

Medical Officers Zambia

You are offered the prospect of a tour of duty – for as little as one year – in Zambia, one which will give you both a wide range of professional experience and early responsibility (all in addition to a wide extension of your personal horizons). It is with the nation's major mining organisation, Nchanga Consolidated Copper Mines Ltd., with an international staff of technical specialists.

The company is responsible for providing full medical care to its employees – over 30,000 – and their families; the total of persons to be looked after is about 150,000.

There is a senior doctor staff of over 40, including a full complement of specialists, and 150 fully qualified nurses. The modern facilities include 5 well-equipped hospitals (814 beds), 16 clinics and 8 main first aid dressing stations.

General Duty Medical Officers will be involved in preventive and curative medicine, surgery, anaesthetics, gynaecology/obstetrics, public health and nutrition; and although the mines have a strict safety code, an amount of accident work can be expected.

Contracts may be negotiated for periods of one to three years. Locums can also often be arranged.

Salaries will depend on experience but the minimum is K8620 (£4,600) gross per annum. In addition there is a cash settling-in allowance: a detached, furnished house with garden is provided for £1.50 per week; and children receiving secondary education overseas are granted up to £480 per child per year towards school fees and two free return passages to visit their parents during holidays.

Income Tax is lower than in the U.K. Currency regulations allow up to 33½% of gross income to be sent home per month with an additional end of contract allowance. Please send for details to:

SHEFFIELD REGIONAL HOSPITAL BOARD and the UNIVERSITY OF NOTTINGHAM

RESEARCH FELLOWSHIPS IN CLINICAL BIOCHEMISTRY

A research fellowship in Clinical Biochemistry has recently been established between the Sheffield Regional Hospital Board and the University of Nottingham.

Applications are invited for the first of these fellowships of two years' duration leading to a Master's Degree. The successful candidate will carry out research in the laboratories of the Department of Chemical Pathology of the Derby Group of Hospitals and the Department of Biochemistry of the University of Nottingham. It is expected that the appointee will be selected from candidates with at least an Upper Second Class Honours Degree in an appropriate scientific subject who has already had two or three years' postgraduate experience.

Candidates with a degree of lower standard, but more extensive postgraduate experience, may also be considered.

Salary scale: £1,350-£2,214 — assimilation depending upon present grading.

Application form (to be returned by 19th September, 1972) and further details can be obtained from the Secretary, Sheffield Regional Hospital Board, Fulwood House, Old Fulwood Road, Sheffield S10 3TH. Please quote Reference M98. (38144) 132
