

Introducing
a new generation
of oral contraceptives
from Schering

Eugynon 30/Eugynon 50

Schering sets the pace...

Eugynon 30

**THE NEW 'PILL' WITH REDUCED OESTROGEN,
FOR THE NEW PATIENT**

- Provides an extremely low dose of the advanced new progestogen, 0.5 mg. dl-norgestrel per day.
- Reduces oestrogen intake to 30 mcg. ethinyl oestradiol per day.
- Exhibits unsurpassed reliability together with high acceptability and good cycle control.
- Especially indicated for the new patient.

Eugynon 50

**THE NEW 'PILL' FOR THOSE WOMEN
REQUIRING 50 mcg. OESTROGEN**

- Provides the same extremely low dose of advanced new progestogen as Eugynon 30, 0.5 mg. dl-norgestrel per day, but differs in oestrogen content, containing 50 mcg. ethinyl oestradiol.
- Proven world-wide to be a reliable oral contraceptive with outstanding cycle control.
- Particularly indicated for those women whose cycles will benefit from 50 mcg. oestrogen.

The Eugynon System

**THE NEW GENERATION
OF ORAL CONTRACEPTIVES FROM SCHERING,
WORLD LEADERS IN ORAL CONTRACEPTION**

Eugynon 30 and Eugynon 50 together form a simple but comprehensive system, setting a new standard in oral contraception.

Note: The name 'Eugynon' is derived from the Greek and freely translated means 'Happier Women'. It is pronounced 'U-guy-non'.

What makes *Lergoban* the antihistamine that suits most patients?

Lergoban is highly effective whenever allergic reactions occur. It is equally valuable in skin conditions and in hay fever^{1,2,3}

Lergoban reduces the dosage needed to control allergic reactions—two doses can give protection all day and all night.

Lergoban keeps most patients active—clinical trials have shown marked absence of drowsiness or interference with normal activity.

2. *Acta Medica* (1969) 24: 1069
3. *Svenska Lakartidningen* (1961) 58: 1245

Composition

Each tablet contains 5 mg. diphenylpyraline hydrochloride in a porous plastic matrix.

Indications

Allergic skin conditions and irritation; urticaria, hay fever, allergic rhinitis; allergic conjunctivitis; angioneurotic oedema.

Dosage

Adults: One or two tablets every twelve hours, or as indicated by the physician.

Children: Older children may be given one tablet every twelve hours.

Caution

Like all antihistamines, *Lergoban* may cause drowsiness. If affected, the patient should not drive or operate machinery.

Side-effects

Although side-effects are less likely with this sustained release tablet, slight drowsiness, dizziness, flushing, headache, anorexia or dryness of the mouth may occur.

Contra-indications

Antihistamines should not be given to epileptics.

ADVERTISEMENT REPRESENTATIVE REQUIRED

The BRITISH MEDICAL JOURNAL, published by the British Medical Association, which also publishes seventeen specialist journals, and is responsible for the advertising in, and publication of the ANNALS OF THE ROYAL COLLEGE OF SURGEONS OF ENGLAND and the BRITISH DENTAL JOURNAL, requires an Advertisement Representative between 20 and 30 years of age.

Applicants must be experienced in selling. Knowledge of the medical/pharmaceutical field and of advertising would be an advantage but to have both is not necessary. The position is therefore equally suitable, for instance, for a pharmaceutical detail representative or a space salesman.

The successful applicant must be London based and have his own car for which there is a satisfactory allowance. The salary is good and the position progressive. There is a generous superannuation scheme. The 3 weeks annual holiday increases after a few years to 4 weeks.

This is a splendid opportunity to make a worthwhile career in a group of journals of the highest quality and of worldwide renown.

Please write, giving age, education, full details of experience, qualifications and present salary to Mr. M. B. Cozens, Advertisement Manager, British Medical Journal, B.M.A. House, Tavistock Square, London WC1H 9JR. Applications will be treated with strict confidence.

There may be more to his insomnia than sleepless nights

'Tryptizol' can help to relieve the anxiety-depression that disturbs sleep.

Insomnia is one of the most frequent presenting symptoms of the anxiety-depressive syndrome. In addition to its antidepressant action, 'Tryptizol' has a rapidly apparent anti-anxiety effect. It can quickly relieve the sleep disturbance associated with depression, usually obviating the need for hypnotics. While the patient is encouraged by this early improvement, 'Tryptizol' can effectively treat other distressing symptoms of the illness, such as agitation, anorexia, lack of interest, and lowered mood.

Tryptizol[®]

Amitriptyline hydrochloride/MSD

a single solution to a dual problem

'Tryptizol' is supplied as tablets containing 10 mg, 25 mg, and 50 mg amitriptyline hydrochloride/MSD. The 50 mg tablet is especially convenient when a relatively large dose is prescribed at bedtime. 'Tryptizol' is also available as a syrup, and as an injection. Detailed information is available to physicians on request. ® denotes registered trademark.

Brufen has the powerful analgesic and anti-inflammatory properties needed to relieve the pain, stiffness and swelling of arthritis. There is now little doubt that Brufen is the best tolerated of the available antirheumatic drugs.

Experience has shown that at least 7 out of every 10 arthritic patients on Brufen improve as judged by both subjective and objective criteria. It has been well demonstrated that patients prefer Brufen to other drugs.

Given at the recommended dosage, Brufen can do much for those who suffer with arthritis.

Brufen is ibuprofen, available as tablets containing 200 mg and as a Suspension containing 100 mg in each 5 ml. Full information from  The Boots Company Ltd., Nottingham.

Amoxil is an excellent antibiotic for the commonly occurring bacterial infections in children. For a start, Amoxil is pleasant to take. The citrus-flavoured syrup or paediatric suspension pleases even the fussiest of patients.

Then Amoxil can get to work. Its broad spectrum of bactericidal activity and outstanding oral absorption¹ ensure the high serum levels necessary for a rapid response. In fact, just three daytime doses give 24 hour therapeutic effect.

children's infections.

It is not surprising, therefore, that Amoxil's extensive clinical trials have proved it so reliable: a recent study², involving 150 children, demonstrated a success rate of 94%.

Add to this Amoxil's penicillin safety and low treatment cost and you really have an excellent antibiotic for children – and for grown-ups too.

Further information on Amoxil (regd) is available from Bencard, Freeport, Brentford, England.

Prescribing information

Dosage: Adults 250 mg three times a day.

Children – up to 10 years: 125 mg three times a day. In the case of severe infections the dosage should be doubled.

Presentation: Amoxil capsules 250 mg. Amoxil syrup 250 mg/5 ml, 100 ml bottle. Amoxil syrup 125 mg/5 ml, 100 ml bottle. Amoxil Paediatric Suspension 125 mg/1.25 ml, 20 ml bottle with pipette. Amoxil presentations contain amoxycillin as the trihydrate.

Contra-indication: Amoxil is a penicillin and should not be given to penicillin-hypersensitive patients.

Side effects: No serious side effects have been reported in extensive clinical trials. Those side effects which were encountered were mild and of a transitory nature.

ZYLORIC

Nobrium is the most recent product of the vast Roche international research programme into anxiety. It has a precise action which curbs anxiety at the source—the amygdala in the limbic system of the brain.¹ Nobrium also damps the transmission of anxiety into the body by its action on the hypothalamus. As other brain structures are virtually unaffected,¹ the incidence of side-effects is remarkably low.

This precise action is highly effective in anxiety and the many conditions caused by or associated with it. In clinical trials Nobrium has consistently produced success rates of between 80 and 90%, in a wide range of conditions including psychosomatic disorders of the gut, heart or lungs; organic disease complicated by anxiety; phobias; menopausal syndrome; and alcoholism.

THE HISTAMINE CHALLENGE:

Can any single antihistamine tablet fight off attacks for 24 hours?

In a study† designed to test the duration of protection afforded by PRO-ACTIDIL*, human volunteers were given intradermal injections of histamine and the areas of flare and weal response were measured. After the responses had completely disappeared one PRO-ACTIDIL tablet was administered to each volunteer and the histamine challenge was repeated. By measuring the reduction in areas of flares and weals the protective effect of PRO-ACTIDIL could be plotted for the 24 hours following administration. After 24 hours the weals still showed a reduction of 65 per cent and the flares a reduction of 83 per cent. The authors concluded that the antihistaminic effect of PRO-ACTIDIL lasts for 24 hours.

Next week may be too late

An illness or an accident can be costly.
Fortunately, most of us recover and the setback to family finance is only temporary.
But can the same be said of permanent incapacity?
Adequate insurance is the answer for the majority of doctors.

Area Medical Officers

The Area Medical Officer will be an Officer of the Area
Health Authority and will be a member of the Area
Team of Officers. He will advise the AHA both as a
member of the Area Team of Officers and as the Authori-
ty's senior specialist in community medicine. As a mem-
ber of the Area Team of Officers he will share responsi-
bility for planning the use of available resources to
achieve national and regional objectives. His functions
will include assisting in and advising on the preparation
of a research and development programme to improve
the quality of planning and the establishment and
maintenance of a comprehensive health information
system. His main tasks in relation to the management of
resources will be to maintain and evaluate the operation
of all health services, including their working relation-
ship with related services provided by central and local
government and by voluntary bodies, and to promote
improvements in the organisation and delivery of health
services within available resources. He will be responsi-
ble for ensuring that medical advice is available to the
relevant local authorities and will share responsibility
in the joint planning of services with the local authority.
In AHA(T)s the AMO will also have certain personnel
responsibilities for consultants and senior registrars.

Applicants will be registered medical practitioners with
broad experience of administrative medical work at a
senior level employed in the provision of health services
by local health and education authorities or in the Pub-
lic Health Services of Local Authorities; or in the NHS
Hospital Service.

Salary scales will be based on the published recommenda-
tions of the Review Body.

Medical Officers

Zambia £6,770 + p.a.

You are offered the prospect of a tour of duty — for as little as one year — in Zambia, one which will give you both a wide range of professional experience and early responsibility (all in addition to a wide extension of your personal horizons). It is with the nation's major mining organisation, Nchanga Consolidated Copper Mines Ltd. with an international staff of technical specialists.

The company is responsible for providing full medical care to its employees — over 30,000 — and their families; the total of persons to be looked after is about 150,000.

There is a senior doctor staff of over 40, including a full complement of specialists and 150 fully qualified nurses. The modern facilities include 5 well-equipped hospitals (814 beds), 16 clinics and 8 main first aid dressing stations.

General Duty Medical Officers will be involved in preventive and curative medicine, surgery, anaesthetics, gynaecology/obstetrics, public health and nutrition; and although the mines have a strict safety code an amount of accident work can be expected.

Contracts may be negotiated for periods of one to three years. Locums can also often be arranged.

Salaries will depend on experience, but the minimum is K10,750 (£6,772) gross per annum. In addition there is a tax free settling-in allowance; subsidised Company private primary schools; a detached, furnished house with garden is provided for £1.50 per week; and children receiving secondary education overseas are granted up to K900 per child per year, tax free, towards school fees and two free return passages to visit their parents during holidays; interest free car loan available.

Exchange Control Regulations allow for the annual externalisation of up to 33½% of gross income.

Wellcome

Medical Adviser

for West Africa, East Africa
and the Middle East

Medical Advisers are employed by our principal companies and organisational units overseas to provide professional medical advice and support services, including the setting up and monitoring of promotional trials of marketed products, the dissemination of medical information, and assisting in the training of medical representatives.

We now wish to appoint a Medical Adviser who will provide these services to our operating companies in Nigeria and East Africa and for our substantial export business to the remainder of West Africa and the Middle East. Reporting to the Zone General Manager responsible for these areas, he will be based at Berkhamsted but will be required to undertake considerable travel.

This appointment offers an excellent opportunity to medical advisers with some years experience in the pharmaceutical industry who now wish to extend their knowledge and experience into international operations. A high degree of administrative ability is required in addition to professional skills, business aptitude and physical fitness.

We offer a good salary and conditions of employment, including a generous pension scheme, the use of a Company car, and assistance with removal expenses.

Please write quoting reference AM:65 to the Personnel Manager, International Services, **THE WELLCOME FOUNDATION LTD.**, 183 Euston Road, London NW1 2BP. (26278) 118

TARANAKI HOSPITAL BOARD

MEDICAL STAFF VACANCIES
New Plymouth, New Zealand

Applications are invited from qualified and appropriately experienced medical officers for the following positions in the Board's service, based on the Taranaki Base Hospital, New Plymouth.

Anaesthetist
(Whole- or Part-time)
Applicants should hold a higher qualification in anaesthesia and be of specialist status. While it is desired that the appointee be whole-time, enquiries would be welcome from those wishing to accept a substantially whole-time position.

A modern four theatre suite is contained in the newly commissioned Base Hospital. A clinical attachment to an 8 bed I.C.U. could be linked with the appointment.

Pathologist
(Whole-time)
Applicants should hold a higher qualification and be of specialist status. The Department of Pathology is well equipped and modern being situated in the newly commissioned Base Hospital, and serves the Board's region.

Geriatrician
(Whole-time)
This is a new position involving responsibility for the care of geriatric patients in the Board's Hospitals for Old Peoples' Homes. While a Specialist qualification is desirable, enquiries would be welcome from practitioners with experience and interest in the care, assessment and rehabilitation of patients within this branch of medicine.

Conditions of employment will be in accordance with New Zealand Hospital Service Determination for Medical Officers. The salary for a Specialist will be within a 10 step scale \$N210,224 — \$N213,768 p.a. with automatic annual increments to the maximum. An appointee, not being a Specialist, will hold the position of Medical Officer of Special Scale on a salary within the range of \$N21,157 — \$N212,438 p.a. with intermediate steps within six individual scales. The commencing salary in either case will be determined by the Medical Officers' Salaries Grading Committee.

The Taranaki Hospital Board serves an area with a population of 100,000. New Plymouth is a coastal city of 35,000 and educational, cultural and sporting (from surfing to ski-ing) facilities to such a community are ready and economically available. There is an equitable climate and a minimum of social ills such as

may be found in more densely populated countries.

Considerable assistance towards fares and removal expenses can be given to whole-time or substantially whole-time appointees subject to a contract of minimum service.

Conditions of appointment and application form are available from the High Commissioner for New Zealand, N.Z. House, Haymarket, London, S.W.1., England or on airmailed request from The Secretary, Taranaki Hospital Board, Private Bag, New Plymouth, New Zealand, with whom applications close on 20th August, 1973. TARANAKI HOSPITAL BOARD

PHYSICIAN

Hawera Hospital, Hawera, New Zealand
Applications are invited from Registered Medical Practitioners for the position of whole-time or part-time Physician to Hawera Hospital.

The position is being offered on the following alternative basis:

(a) Part-time with a minimum of 6 sessions per week (i.e. 6/10ths).

(b) Whole-time with right to vary to part-time later by arrangement with the Board.

A worthwhile opening may be available in the Hospital district for private practice.

Salary: (Whole-time) Medical Officer of Special Scale: 6 grades \$N27,157 — \$N212,438 p.a.; Specialist \$N210,224 — \$N213,768 p.a. The institution has 108 beds and is well equipped for a Hospital of its size. There are four wards including a modern 60-bed two-storied ward block commissioned in February, 1969. This block includes a small intensive and coronary care unit. The theatre suite has been extended and altered recently and a laboratory of high standard was commissioned in 1969. There is a 23-bed maternity hospital on the site and the Board owns a 32-bed Old Peoples' Home, in another part of town.

The Hawera Hospital serves a closely settled prosperous farming area with a district population in excess of 22,000. The area has a temperate climate, attractive countryside and excellent educational facilities for the family. Sporting activities such as ski-ing, fishing, shooting, golf, etc., are easily accessible and relatively inexpensive.

Full particulars are available from the High Commissioner for New Zealand, Haymarket, London, S.W.1., England, or upon airmailed request from the Secretary, Taranaki Hospital Board, Private Bag, New Plymouth, New Zealand with whom applications close on 20th August, 1973. (26461) 118

Duogastrone is receiving full recognition

In recent years, increasing use of the fibroscope has confirmed what clinical papers* have been saying for some time—Biogastrone and Duogastrone are highly effective, specific ulcer-healing agents. What is more—both gastric and duodenal ulcers have been seen to heal more rapidly than with other treatments. And because they eliminate the need for long-term treatment with antacids or anticholinergics, these preparations make economic, as well as therapeutic sense.

**more than 40 English language papers have been published on the clinical use of carbenoxolone.*

A New Horizon in Asthma Therapy

Becotide INHALER
steroid control without steroid side effects

Effective treatment the equal of oral steroids

"Beclomethasone dipropionate is a highly active topical steroid with weak systemic effects. By exerting a selective, topical, anti-inflammatory effect on the bronchial mucosa, it is able, as this trial shows, to control asthma as well as prednisolone given by mouth."

(*Brit. med. J.*, 1972, 3, 314.)

Freedom from steroid side effects including adrenal suppression

"Of the 31 steroid-dependent patients (transferred to Becotide Inhaler), 29 showed loss of weight and 10 of these lost their Cushingoid facies."

Biochemical evidence of adrenal suppression was not observed . . ."

(*Curr. med. Res. Opin.*, 1972, 1, 173.)

Earlier treatment giving a less restricted life

"On the data presented here there seems to be no contra-indication to the use of this preparation (Becotide Inhaler) by mild asthmatics who would not normally be considered for the use of corticosteroids. As many of them had already failed to respond to disodium cromoglycate this new therapeutic approach may have much to offer, especially in paediatrics".

(*Brit. med. J.*, 1972, 1, 585.)

Becotide Inhaler is a metered aerosol delivering 50mcg beclomethasone dipropionate BP per inhalation.
