BRUFEN
BENEFIT

Brufen has the powerful analgesic and anti-inflammatory properties needed to relieve the pain, stiffness and swelling of arthritis. There is now little doubt that Brufen is the best tolerated of the available antirheumatic drugs. Experience has shown that at least 7 out of every 10 arthritic patients on Brufen improve as judged by both subjective and objective criteria. It has been well demonstrated that patients prefer Brufen to other drugs. Given at the recommended dosage, Brufen can do much for those who suffer with arthritis.

 Brufen is ibuprofen, available as tablets containing 200 mg and as a Suspension containing 100 mg in each 5 ml. Full information from The Boots Company Ltd., Nottingham.

The collaborators.

We have our own workshops where skilled craftsmen make Seward surgical instruments. Nothing less than ultimate perfection will satisfy them.

Our sales people's viewpoint is also important. They're in constant touch with the medical profession. So they know what is wanted – and why.

Then there's the surgeon. We never hesitate to ask a surgeon for his advice. After all, we make surgical instruments, and he uses them. So it's naturally beneficial to work closely together, for both of us.

It's true we have an enviable reputation at Seward for fast delivery of our instruments.

But when it comes to design, we take all the time it needs to get things right.

In a few minutes his antacid will stop working. What then?

Antacids and stomach coatings work. Very well. But not always for long, and only against one of the major symptoms of the distress. That's why you need 'Stelabid'.

'Stelabid' provides protection against hypersecretion, hypermotility and painful spasm.

Its calming action alleviates the anxiety and stress so often associated

with gastro-intestinal disturbances.

'Stelabid' prescribed with antacids, provides a most persistent and effective symptomatic control of gastro-intestinal disorder throughout the whole spectrum from functional disorders to ulceration.

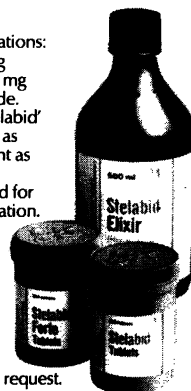

And a simple b.i.d. dosage protects the patient even throughout the night.

'Stelabid' is now available in three presentations: **'Stelabid' Tablets** Each tablet contains 5 mg isopropamide present as the iodide, and 1 mg trifluoperazine present as the hydrochloride.

NEW 'Stelabid' Elixir Each 5 ml dose of 'Stelabid' Elixir contains 5 mg isopropamide present as the iodide, and 1 mg trifluoperazine present as the hydrochloride.

'Stelabid' Elixir is particularly recommended for those patients who prefer a liquid presentation. **NEW 'Stelabid' Forte Tablets** Each tablet contains 7.5 mg isopropamide present as the iodide, and 2 mg trifluoperazine present as the hydrochloride.

'Stelabid' Forte Tablets are especially useful in more severe cases when an extra measure of relief from spasm and hypersecretion is required. Full prescribing information is available on request.

Collector's silverware to commemorate the 850th anniversary of St. Bartholomew's Hospital.

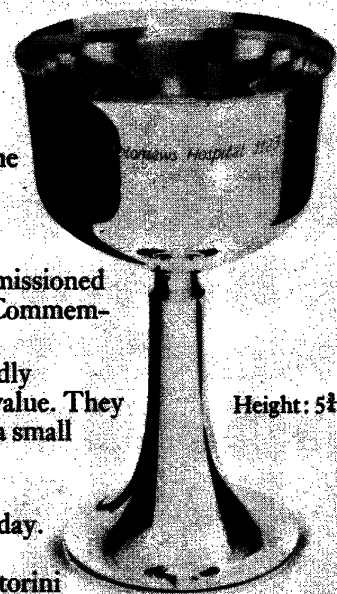

St. Bartholomew's Hospital, one of the world's greatest teaching hospitals, was founded in 1123 by Rahere, an Augustinian monk.

He built the hospital, together with a Priory, in Smithfield, just outside the walls of the City of London. The present hospital stands on the original medieval site.

To mark the 850th anniversary of the founding of Rahere's great hospital, the Governors of St. Bartholomew's have made a unique gesture. They have specially commissioned three supremely beautiful pieces of collector's Commemorative Silverware in a limited edition.

These magnificent pieces are undoubtedly destined to become collector's items of great value. They consist of a Silver Plate, a Silver Goblet and a small Silver Dish.

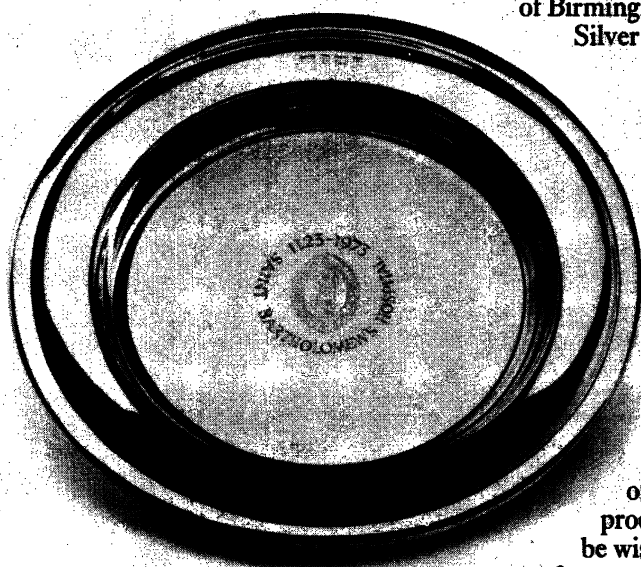

The superb design is by Eric Clements, probably the leading artist working in this field today. The items have been made by one of the world's leading firms of silversmiths, Thomas Fattorini of Birmingham. All pieces carry the 1973 Sterling Silver Hallmark.

Height: 5½"

Diameter: 3½"

Diameter: 9"

The Silver Plate is priced at £125. It is available with the St. Bartholomew's seal and title surrounded by a sunray design or with the seal and title alone. It is complete with leather-covered case, gold-blocked with the seal and title. The Silver Goblet is priced at £58 and the small Silver Dish at £12.

There are also eighty-five 9-carat gold Goblets available, one for each decade of the Hospital's existence. (Prices on application.)

This fitting tribute to one of the world's oldest and greatest hospitals is a unique one and this magnificent Commemorative Plate is available only from St. Bartholomew's Hospital itself. All proceeds will be used to aid medical research. It would be wise to make sure that you obtain the items you need for your collection by completing and returning the coupon below without delay.

N.B. Please allow up to three months for delivery.

To: The Treasurer, Dept. JOR, St. Bartholomew's Hospital, Smithfield, London EC1. Please send me:

Amoxil is an excellent antibiotic for the commonly occurring bacterial infections in children. For a start, Amoxil is pleasant to take. The citrus-flavoured syrup or paediatric suspension pleases even the fussiest of patients.

Then Amoxil can get to work. Its broad spectrum of bactericidal activity and outstanding oral absorption¹ ensure the high serum levels necessary for a rapid response. In fact, just three daytime doses give 24 hour therapeutic effect.

children's infections.

It is not surprising, therefore, that Amoxil's extensive clinical trials have proved it so reliable: a recent study², involving 150 children, demonstrated a success rate of 94%.

Add to this Amoxil's penicillin safety and low treatment cost and you really have an excellent antibiotic for children – and for grown-ups too.

Further information on Amoxil (regd) is available from Bencard, Freepost, Brentford, England.

Prescribing information

Dosage: Adults 250 mg three times a day.

Children – up to 10 years: 125 mg three times a day. In the case of severe infections the dosage should be doubled.

Presentation: Amoxil capsules 250 mg. Amoxil syrup 250 mg/5 ml, 100 ml bottle. Amoxil syrup 125 mg/5 ml, 100 ml bottle. Amoxil Paediatric Suspension 125 mg/1.25 ml, 20 ml bottle with pipette. Amoxil presentations contain amoxycillin as the trihydrate.

Contra-indication: Amoxil is a penicillin and should not be given to penicillin-hypersensitive patients.

Side effects: No serious side effects have been reported in extensive clinical trials. Those side effects which were encountered were mild and of a transitory nature.

DAILY NEWS Friday 17th August, 1973 Page 7

Ceporex reduced in price - again!

THIRD REDUCTION IN UNDER THREE YEARS

Takes effect from 20th August, 1973

Glaxo Laboratories, the largest and most successful British pharmaceutical company, today announced a reduction in price of their outstanding antibiotic, Ceporex.

Today's statement means that Glaxo have lowered the cost of treatment with this oral antibiotic by over a third since the product was introduced, just under four years ago.

Valuable antibiotic

It seems that Glaxo are able to do this at a time of general price increases, because Ceporex is now firmly established as a really valuable antibiotic for both G.P. and hospital use. Its speed of action, good tolerance, broad spectrum and effectiveness make Ceporex useful in a wide range of clinical indications.

Wide range of presentations

Ceporex is available in a wide range of presentations, including tablets, capsules and syrups, in strengths of 125mg, 250mg and 500mg.

Information available on product

You can find out more about Ceporex (trade mark) from the manufacturers Glaxo Laboratories Ltd, Greenford, Middlesex UB6 0HE.

Nobrium is the most recent product of the vast Roche international research programme into anxiety. It has a precise action which curbs anxiety at the source—the amygdala in the limbic system of the brain.¹ Nobrium also damps the transmission of anxiety into the body by its action on the hypothalamus. As other brain structures are virtually unaffected,¹ the incidence of side-effects is remarkably low.

This precise action is highly effective in anxiety and the many conditions caused by or associated with it. In clinical trials Nobrium has consistently produced success rates of between 80 and 90% in a wide range of conditions including psychosomatic disorders of the gut, heart or lungs; organic disease complicated by anxiety; phobias; menopausal syndrome; and alcoholism.

THE VICTORIA UNIVERSITY OF MANCHESTER FACULTY OF MEDICINE

MEDICAL SCHOOL

UNDERGRADUATE

Degrees. The course for the degrees of M.B., Ch.B. may be completed in a minimum of five years providing that exemption from the First Examination is gained on performance in the G.C.E. "A" level examination. The intake into the school is 200, of which approximately 30% are women. A new curriculum was established in 1968.

The degree of Bachelor of Nursing was introduced in 1969. The course is full-time and may be completed in four years.

Certificate Course. A one-year full-time course for the Certificate for Psychiatric Social Workers is held annually.

Detailed information from the Dean of the Medical School, The University, Manchester M13 9PL.

POSTGRADUATE

The University confers the degrees of M.D., Ch.M., Ph.D., and M.Sc. The Faculty also offers postgraduate courses for the Diplomas in Public Health, Psychological Medicine and Bacteriology, in addition to courses of preparation for the D.M.R.D., D.M.R.T., and D.I.H. of the Examining Board in England.

Advanced courses in medicine, pathology, surgery, and anaesthesia are held yearly and occasional week-end symposia on particular topics are arranged. Intensive and extended refresher courses conforming to Ministry of Health requirements are held for G.P.s from time to time.

Detailed information from the Dean of Postgraduate Medical Studies, Gateway House, Piccadilly South, Manchester 1.

DENTAL SCHOOL

UNDERGRADUATE

The course for the degree of B.D.S. may be completed in a minimum of four years and three months providing that exemption is gained from the first B.D.S. examination on performance in the G.C.E. "A" level examination.

POSTGRADUATE

The University confers the degrees of M.D.S. and D.D.S.

Detailed information about all dental degrees from the Dean of the Dental School, The University, Manchester M13 9PL.

UNIVERSITY OF OXFORD MEDICAL SCHOOL

The University grants the degrees of Bachelor of Medicine and Bachelor of Surgery (B.M., B.Ch.), Master of Surgery (M.Ch.), and Doctor of Medicine (D.M.).

A candidate who wishes to read for the degrees of B.M., B.Ch. must be accepted as a member of a college and must subsequently be matriculated as a member of the University. A candidate for these degrees must also take the B.A. degree in some subject (usually the Final Honour School of Physiological Sciences). Application for admission should be made to the Oxford Colleges Admissions Office, 58 Banbury Road, Oxford.

Pre-clinical Course. The pre-clinical course lasts nine terms. The first five terms are spent preparing for the First B.M. examination. After the First B.M. four further terms are spent in the study for a Final Honour School which qualifies for the B.A. degree. Then follows the clinical course. For further information apply to the Medical School Office, 43 Woodstock Road, Oxford.

Clinical Course. This course lasts for 28 months. The clinical school is based on the Radcliffe Infirmary, the Churchill Hospital, the John Radcliffe Hospital and the specialist hospitals in Oxford. There are ten University Chairs in clinical subjects in the teaching hospital group and several important Research Units.

The United Oxford Hospitals (over 1,400 beds) serve both as the Area Hospital and also as a Regional Centre. The range of clinical material is exceptional for a teaching hospital and clinical firms are small. The tutorial system continues throughout the clinical course.

The first phase of the new John Radcliffe teaching hospital at Headington which contains a 167 bed maternity unit, opened in 1972. The second phase, designed to contain 450 acute beds and new Medical School accommodation, is scheduled for completion in 1978.

Osler House and its garden adjoin the Radcliffe Infirmary and provide attractive premises for the clinical students' club.

A Prospectus may be obtained on application to the Medical School Office, 43 Woodstock Road, Oxford.

Higher Degrees. The degrees of D.M. and M.Ch. are open to those who have taken the degrees of B.M., B.Ch. at Oxford or to Masters of Arts from Oxford who hold the medical qualifying degree of another approved university. The degrees of M.Sc. and D.Phil. are also available. Further information may be obtained from the Director of Postgraduate Medical Education and Training.

Research and Specialist Training. Enquiries may be addressed to the head of the relevant clinical or laboratory department in one of the teaching hospitals or to the Director of Postgraduate Medical Education and Training, 43 Woodstock Road, Oxford.

ST. GEORGE'S HOSPITAL MEDICAL SCHOOL (University of London)

St. George's Hospital Group and St. James', Balham together provide about 1,500 beds for teaching purposes. The Group includes St. George's Hospital, Hyde Park Corner, St. George's Hospital, Tooting, and Atkinson Morley's Hospital at Wimbledon. 600 beds are available at St. James' Hospital, Balham and in addition there is a special psychiatric teaching unit at Springfield Hospital. The Medical School maintains a policy of close contact between staff and students and offers a wide range of clinical experience, with a high staff/student ratio for the present annual intake of up to 70 students.

House Appointments Pre-registration appointments are sufficiently numerous to allow the majority of graduates of the School to hold one appointment in the Group.

Recreation There are School playing fields of thirteen acres at Atkinson Morley's Hospital in Wimbledon which cater for all the usual field sports. Club rooms, refectories and squash courts are available at both Tooting and Hyde Park Corner.

Future Developments A completely new School and Hospital is in the course of construction at Tooting; this will be one of the most modern in Europe. The first phase of the new Medical School buildings are due to open in 1976, accepting students for a five year integrated medical course. On completion of the whole scheme in the early 1980's, the site will contain a hospital of over 1,400 beds, a medical school with an annual intake of 150 students, a dental school with an annual intake of 64 students, and most of the Basic Medical Science Departments of Chelsea College (which is being rebuilt nearby).

Fees £87.35 including full membership of Club with its amenities and sporting and social activities.

Entry All applicants for entry to the whole course should be made through the Universities Central Council on Admissions. Cambridge and Oxford students who will have completed their pre-clinical course, should apply to the Medical School.

ROYAL COLLEGE OF SURGEONS IN IRELAND

THE MEDICAL SCHOOL attached to the College offers a complete medical course of six years, including the Pre-registration year in Chemistry, Physics and Biology. Students may take the M.B. of London University as external students.

The Students' Union includes a social centre, rugby, sailing, cricket, caving and other clubs.

THE COLLEGE conducts examinations leading to the Fellowship of the College in Surgery, Otolaryngology or Ophthalmology. Fellowships are also awarded in the Faculties of Anaesthetists, Dentistry and Radiologists, following Primary and Final examinations.

The Primary Fellowship of the College and that of the Faculty of Anaesthetists is reciprocal with the examinations of the other Royal Colleges.

The Primary examination of the Faculty of Dentistry is reciprocal with the examinations of the other Royal Colleges. Candidates for the final examination for the Fellowship of the Faculty of Dentistry may offer Oral Surgery, Orthodontics, Prosthetics, Restorative Dentistry or Public Health Dentistry as the special subject.

The Fellowship of the Faculty of Radiology may be taken in either Radiodiagnosis or Radiotherapy. The Primary Fellowship of this Faculty includes Physics, Pathology, Medicine and Surgery. Fellows of the Faculty of Radiology of London are exempted from the Primary Examination. Holders of the D.M.R.D. and other higher qualifications may be exempted single subjects in the examination.

Postgraduate Education:

- There are two courses each year for primary fellowship students.
- There is a postgraduate course in advanced surgery organized with the co-operation of University College and Trinity College. This intensive whole-time course is for candidates preparing for the Fellowship examinations. Early application for places desirable.

Further particulars may be obtained from the Registrar, Royal College of Surgeons in Ireland, 123 St. Stephen's Green, Dublin 2. 4

ROYAL COLLEGE OF SURGEONS OF ENGLAND

Courses of clinical conferences at London hospitals, tutorials and surgery lectures are arranged each Spring and Autumn. Applications for the Spring Course (4 weeks — March/April) (fee £63.00) are due before 1st December, 1973. Only 32 applicants can be accepted.

Attendance at the lectures only (fee £21.00 or £1.00 per lecture) and Saturday morning tutorials (fee £10.50) is not restricted.

The closing date for application for the Autumn Course will be 1st June, 1974. These courses are recognized for study leave.

Further information can be obtained from the Secretary, Royal College of Surgeons of England, 35-43 Lincoln's Inn Fields, London WC2A 3PN. 4

CHARING CROSS HOSPITAL MEDICAL SCHOOL

(University of London)

WINTER SESSION BEGINS
3rd OCTOBER, 1973

During the year 1972-73 Charing Cross Hospital and its associated Medical School have moved from the site in Central London which they have occupied for the last 150 years into their new premises at Fulham where the Hospital will expand to close on 1,000 beds and the Medical School increase its annual intake of students from 48 to 120.

Full clinical instruction is available for students proceeding to the degrees of the Universities of Oxford, Cambridge and London, and the total number of beds is sufficient to provide nearly every student with a pre-registration house post upon qualification.

Senior Entrance Scholarships. A number of scholarships are open to members of Oxford and Cambridge Universities wishing to proceed to their clinical studies. These scholarships are awarded on the results of examinations held annually in late June or early July, embracing subjects (1) Anatomy and Physiology or (2) Bio-chemistry or Pathology. Their annual value is £100 for each of the three years of the clinical period. Many other scholarships, exhibitions and prizes are open to students pursuing their clinical course.

The Pathological Museum, which is subject to continual revision, is designed so as to display exhibits to the greatest advantage. It includes the well-known Lockyer Collection of Gynaecological and Obstetric Pathology specimens.

The Library, is extensive and contains not only a wide range of books for undergraduate and specialist use but also an exceptionally comprehensive section allocated to periodicals.

The Students' Union provides facilities for almost every form of athletic activity at its Sports Ground of 24 acres at Cobham, Surrey, and also includes a large number of societies, both social and cultural. All members are entitled to use the facilities of the newly-opened Amenity Centre at Fulham, including squash courts and a swimming pool, and there is a small Hall of Residence at Notting Hill.

The annual composition fee is £100. Any further information may be obtained from the Dean or the Secretary, both of whom are available for interview by appointment at:

UNIVERSITY OF EXETER

POSTGRADUATE MEDICAL INSTITUTE

A full-time postgraduate course lasting 10 weeks will begin on 4th October, 1973. These courses are normally held 3 times a year starting in October, January and April, but there will be no course in January, 1974. Each course includes instruction in general medicine, paediatrics, preventive medicine, pathology, psychiatry, orthopaedics and general surgery. The programme is planned so that students wishing to specialize in a particular clinical subject are given facilities to do so, while other students are taught in each of the main clinical departments. Unpaid clinical attachments can be arranged at the end of the course for students requiring a longer period of training, but these are normally reserved for students sponsored by some official body.

It is sometimes possible to accept general practitioners for 1 or 2 weeks of a course, and attendance for this period is recognized under Section 63 of the Health Services and Public Health Act 1968. These courses are also recognized under the special scheme for the re-training for general practice of doctors who have been out of the Health Service for at least 5 years.

The fee for this course will be £40 (83 for students from outside the United Kingdom).

Further particulars and application forms for these courses are obtainable from the Director, The Postgraduate Medical Institute, The University, Exeter, Devonshire. (26026)

UNIVERSITY OF NEW CASTLE UPON TYNE

Courses of 3-4 sessions in various medical and surgical subjects are arranged on an extended weekly sessional basis during term time. These courses are suitable for those preparing for a higher qualification.

Clinical attachments, full-time or part-time, are arranged throughout the year at a fee of £10 per month.

Attachments of one or two weeks for general practitioners are arranged in general medicine, dermatology, obstetrics, paediatrics, psychiatry, geriatrics and other subjects by arrangement. Approved under Section 63 of the Health Services and Public Health Act.

One-week refresher courses in obstetrics are arranged: residential accommodation is available. Approved under Section 63 of the Health Services and Public Health Act.

Full details of the above and further courses may be obtained from the Administrative Assistant, Regional Postgraduate Institute for Medicine and Dentistry, The Medical School, The University, Newcastle upon Tyne NE1 7RU.

Further details regarding courses for University postgraduate qualifications may be obtained from the Deputy Registrar, The Medical School, The University, Newcastle upon Tyne NE1 7RU.

MANCHESTER REGIONAL HOSPITAL BOARD

Whole-time, non-resident
SENIOR REGISTRAR
IN CHILD
AND ADOLESCENT PSYCHIATRY
at Booth Hall (Children's) Hospital and Parkside Hospital.
The training scheme allows training in the selected specialty Child or Adolescent Psychiatry for two years and a year in the alternative one as part of the training scheme. Transfer from one specialty to the other will be allowed when practicable if the trainee is uncertain which to choose at the outset.
Training in Child Psychiatry will be at the unit at Booth Hall Hospital which includes a busy O.P. clinic and a large I.P. department. Members of the staff hold University appointments and are responsible for various training courses. Training includes courses of lectures, regular supervision of diagnostic and long term treatment cases and visits to special hospital units, special schools and homes and hospitals of the Social Services Department. Multi disciplinary team conferences and seminars are an important feature of the work of the Unit and all members of staff contribute to these. The 22-bedded in-patient Unit, in its school, Occupational Therapy Department and gymnasium is organized on a family group basis and the Senior Registrar attached to each Consultant plays an important role in the relevant family group responsible for individual therapy with the children.
Training in the 20-bedded purpose-built unit for disturbed adolescents will involve team management under the supervision of the Consultant (who also holds a university appointment), daily group therapy, (initially as a co-therapist), daily group therapy training meetings, weekly groups for families, experience working in a team with individual families and experience in therapeutic community methods. Teaching hospital O.P. visits to other units run by other caring agencies will also be arranged. The adolescent unit also provides a course of lectures from external sources including the Tavistock Clinic.
Interested candidates are encouraged to visit the two units for interview.
Application forms from the Senior Administrative Medical Officer to the Board, Gateway House, Piccadilly South, Manchester M60 7LP, to be returned by 12th September, 1973. (27664) 84-5

OVERSEA

Attention is drawn to the importance of detailed careful consideration to the terms of any contract, especially as terms and conditions of service may differ markedly in different areas. 'Notes on Contracts Overseas' may be obtained on application to the Secretary.

Before any contract is signed it is advisable to obtain full details of remuneration and of terms and conditions of service and information about local conditions. These may often be obtained from the local B.M.A. Branch or affiliated Medical Association whose address may also be obtained on application to the Secretary.

AUSTRALIA THE NEW SOUTH WALES STATE CANCER COUNCIL

THE MEDICAL DIRECTOR
The Council is seeking a Medical Director of The New South Wales state Cancer Council. He shall also be in charge of and responsible for the re-development of the Special Unit for research into human cancer.

The Council has in mind the need for change in character of the Special Unit and for its possible re-development as an institute. The nature of these changes will depend on the interests, qualifications and experience of the Medical Director and so the Council does not wish to lay down terms and conditions of appointment which are so explicit that they will restrict the Medical Director after his appointment.

Therefore the Council, while outlining the qualifications, as stated hereunder, that it seeks in its Medical Director is prepared to discuss appropriate variations of these with candidates.

Council will welcome enquiries from interested persons who: (a) are medical graduates qualified for registration in New South Wales; (b) are of clinical professional status; (c) have already had substantial experience in cancer research or have demonstrated their potential to direct and conduct such research; (d) will work full-time with the Council and will be responsible for the general administration of the Council and the Special Unit or Institute; (3) with to teach medical and science graduates and to supervise postgraduates.

Further enquiries may be made of The Chairman of the New South Wales State Cancer Council; The Vice Chancellor, Sydney University, Sydney 2006. The closing date will be 31st January, 1974. (27384) 118

Pharmaceuticals Division

Medical Adviser Australia

ICI's Pharmaceutical business in Australia and New Zealand is expanding rapidly and there is now a splendid opportunity for a doctor who would like to live and work in Melbourne. The work itself includes assisting in the development of new drugs, especially in the field of cardiovascular medicine; the technical servicing of established drugs; and advising commercial colleagues on ethical and technical matters generally. Much of the work will be carried on in collaboration with leading clinicians in Australia and New Zealand and this will involve travelling both interstate and overseas. Occasional visits will be made to the ICI Research Laboratories in the U.K.

Doctors with a good general medical background are invited to apply for this appointment. An attractive salary

will be paid, commensurate with experience and qualifications. Assistance will be given towards relocation expenses for the successful candidate and his family. Preliminary interviews will take place as soon as possible and a final decision will be made in September when our Australian Medical Director will be in the U.K.

Applications should be made, in confidence, in the first instance, to:

**The Medical Director,
Imperial Chemical Industries Limited,
Pharmaceuticals Division,
Alderley Park, Macclesfield,
Cheshire SK10 4TF**

The habitual offender. Flatulent dyspepsia.

His is a common enough case. He has been before you many times. And it's always the same old trouble. Flatulent dyspepsia. Antacids and a variety of other preparations have failed to provide the complete answer. His symptoms keep recurring.

Now, with Maxolon, you can break this unpleasant routine. Maxolon, in contrast to antacids, overcomes the motility defects which

are so often the cause of flatulent dyspepsia. So Maxolon can work where antacids would fail.

Prescribe Maxolon for your flatulent dyspepsia patients and judge the results for yourself.

K for kids and kidneys.

In paediatric and urinary tract infections KEFLEX provides a broad spectrum of bactericidal activity that covers even penicillinase-producing organisms. Rapidly absorbed to reach high serum and urine levels. KEFLEX controls infection quickly —and with the minimum risk of adverse reactions. In fact KEFLEX gives an excellent chance of first-time success in a wide variety of conditions.
