Fibre in the Diet: is it only a precaution against constipation?

The medical profession has long accepted fibre in the diet as a prophylactic and therapeutic measure against constipation. But fibre—or lack of it—is now a key factor in much current thinking on other pathological states.

A number of leading gastroenterologists believe that those diets with a low-fibre content, which induce constipation, may also eventually lead to other diseases: diverticulosis, cancer of the colon, haemorrhoids in pregnancy and ischaemic heart disease.

Certainly more evidence will be needed to support their hypotheses before they can be regarded as conclusive, but it is now widely accepted by those who subscribe to them, that a daily intake of 2–3 grammes of cereal fibre is a reasonable precaution.

Kellogg's All-Bran provides dietary fibre in palatable form; it can be enjoyed as a breakfast cereal or as a cooking ingredient; it is not habit forming; and a 1–2 oz. serving a day will raise the dietary fibre intake to a satisfactory level and can safely be prescribed for the treatment of constipation for those with a low-residue diet and as an aid to the digestion of any normal person.

If you would like further details, please send for Kellogg's 'Significance of Fibre in the Diet'.

Its sections include: 'The Composition and Milling of Wheat'; 'Processing and Composition and Nutritive Value of Kellogg's Products'; 'Diet and Disease' and a full bibliography.

Constipation is a bind

Constipation may not be the most serious condition requiring treatment; but the distress and pain that it can lead to are often cause for concern to the patient, doctor and nurse alike.

That's why all concerned will appreciate new Laxoberal.

New Laxoberal is a liquid laxative containing just one active agent – sodium picosulphate – whose actions promote the gentle passing of a soft but formed stool, to avoid both pain and strain. While side-effects are kept to a minimum.

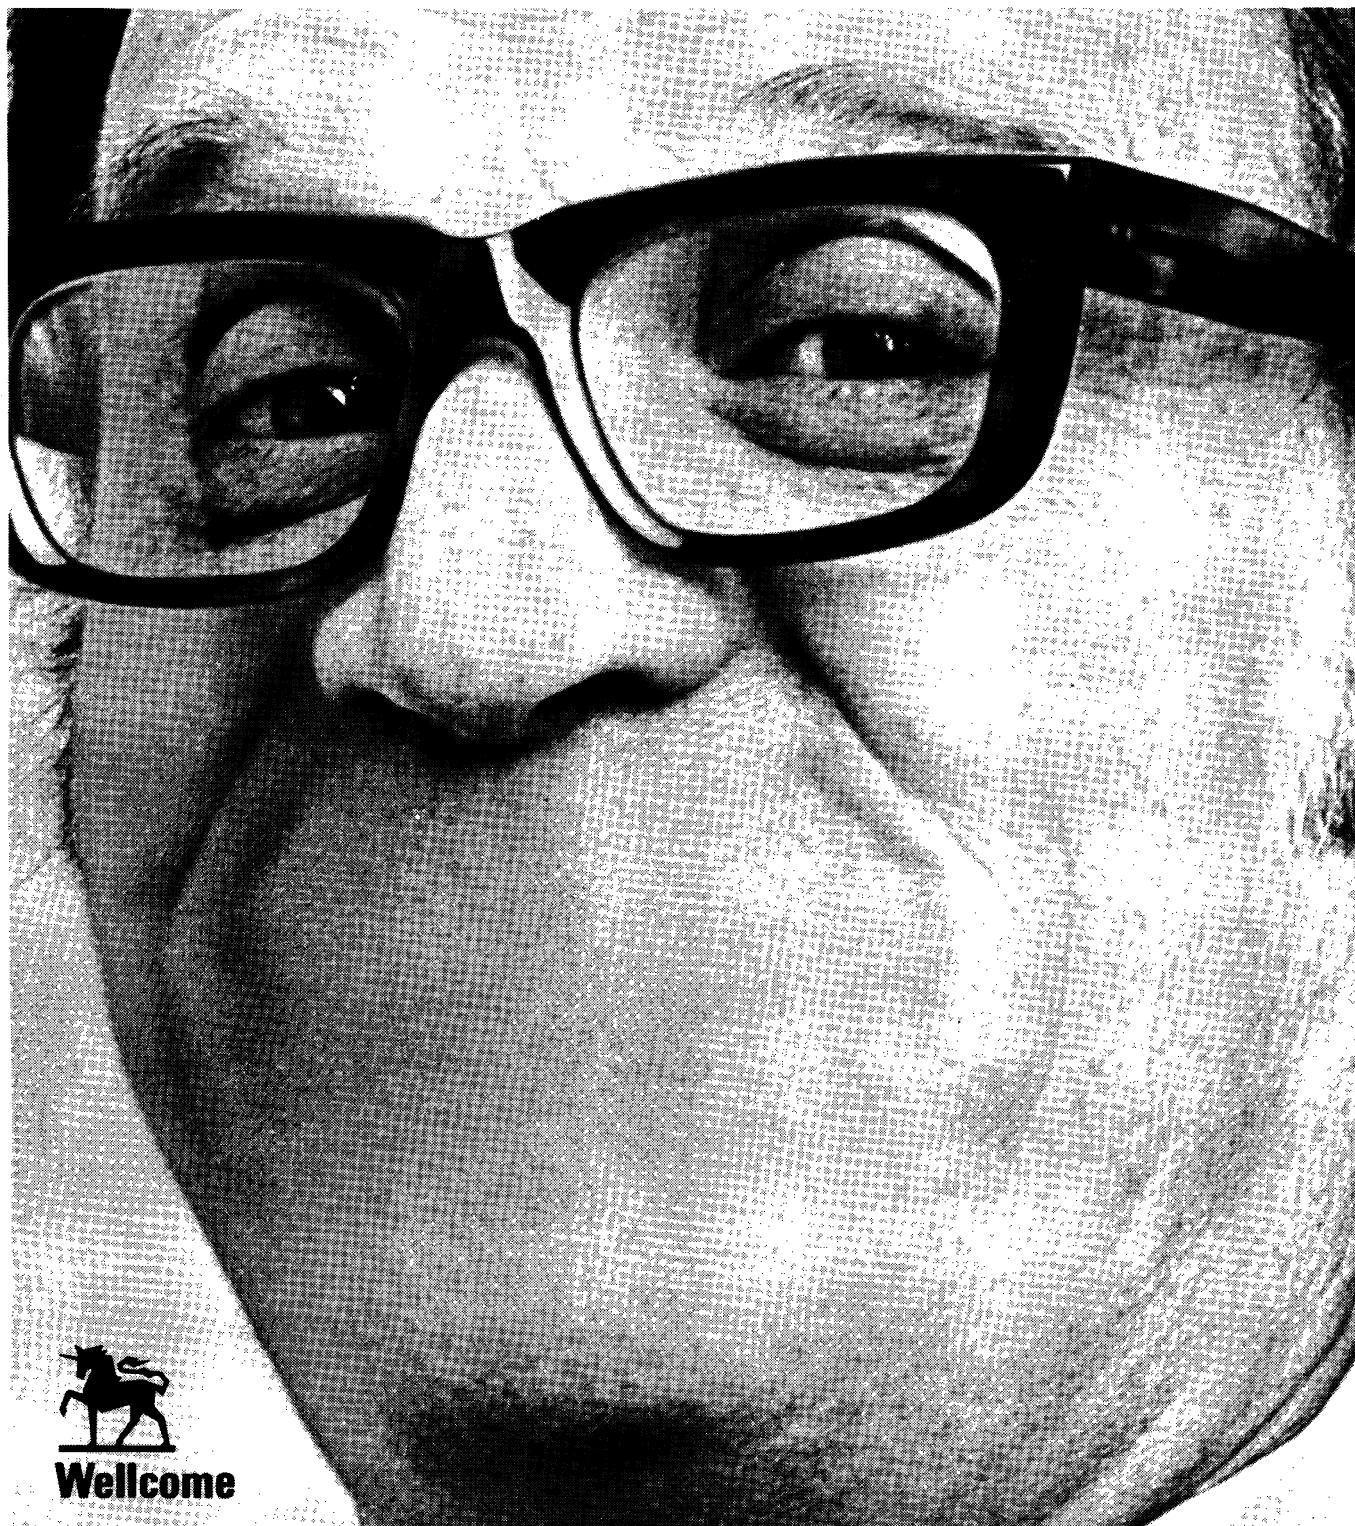

Moreover, new Laxoberal comes in a light, easy-flowing, pleasant-flavoured preparation that's easy to take and goes down well – with young and old alike.

That's why Laxoberal makes constipation less of a bind – for all concerned.

New! Laxoberal®
shows concern
for all concerned.

Will your depressed patients
get tired of their treatment?

Not if you prescribe the non-sedative, widely effective antidepressant from ICI.

'Vivalan', in trials involving over 2,000 patients, has proved to be a unique antidepressant. In one trial in which 77 patients took 'Vivalan' there was "...virtual complete absence of drowsiness and dry mouth at any dose level. These are considerable advantages when treating ambulant patients who may be driving a motor car, or who may wish to remain at work, despite their illness and treatment."¹

'Vivalan' is the fresh approach to the problems of depression: patients achieve recovery without hindrance from unwanted drowsiness.

Permanent Health Insurance

is a contract that remains in force no matter how many claims you make or how long they last—it enables your income, and practice expenses to be maintained during periods of ill-health, when your regular income ceases or is considerably reduced.

There are a number of plans from which we can help you choose the contract most suited to your personal circumstances. The plan you select will run until you reach the age of 55, 60 or 65 — whichever fits in with your personal pension arrangements.

You may choose a plan where the benefits remain constant throughout the term, as do the premiums payable; or for a slightly higher premium which also remains constant you can arrange for the benefit to be increased by 3% p.a. compound whilst claiming; this plan is specially attractive in the event of incapacity lasting for a long period of time.

Policies are available under which benefits automatically increase annually irrespective of whether a claim is being made or not, whilst premiums are only altered every five years. One plan attracts bonuses which are allocated in a similar way to with-profit Life Assurance policies — the bonuses being paid at the selected terminating age or earlier death.

You will be surprised how little it costs to enjoy the peace of mind that a Permanent Health Insurance can bring.

You insure your house, car and other possessions, yet none is so valuable as your earning power. Doesn't it make sense to insure that too?

The Medical Insurance Agency will in this — as in all matters — give an unbiased opinion and advise on the alternatives available. Please return the coupon below for further information.

Antidiuretic activity without pressor effect.

DDAVP DESMOPRESSIN

For control of vasopressin-sensitive diabetes insipidus

Now available in Britain

DDAVP (trademark) desmopressin, desamino-cys-1-8-D-arginine vasopressin is a synthetic analogue of the natural antidiuretic hormone. These structural changes have increased the antidiuretic activity, prolonged the duration of action and greatly reduced the pressor effect from that seen in the natural hormone. It is supplied in special packs for intra-nasal administration.

THE FINEST PRIVATE PSYCHIATRIC HOSPITAL IN BRITAIN IS IN NORTHAMPTON

St. Andrew's Hospital, which was established in 1838 as a non-profit making charitable foundation, is a progressive hospital staffed and equipped for the treatment of every type of psychiatric illness.

All patients are under the care of Consultant Psychiatrists.

In general, short stay patients are admitted to Isham House, a luxuriously appointed Nursing Home in the grounds. The accommodation consists of private bedrooms, most of which have private bathrooms. All forms of treatment are available, with emphasis on individual and group psychotherapy.

Facilities for occupational therapy and recreation are excellent, and include a 9-hole golf course, squash court, tennis courts, swimming pool and a Social Centre with restaurant, shop and hairdressing salon. All these are set in the hospital's own 100 acres of well-wooded grounds.

Long stay and psychogeriatric admissions are into the main hospital which has been modernised specifically for the purpose. Again, accommodation is mostly in private bedrooms.

St. Andrew's Hospital is only 65 miles from London and is easily accessible from all parts of the country by rail and road.

B.U.P.A., and P.P.P., subscribers are able to claim benefit in respect of their treatment fees.

St. Andrew's Hospital offers the highest standards of treatment for the whole spectrum of psychiatric illness in an ideal environment.

Further particulars, including fees, may be obtained from the Medical Director, St. Andrew's Hospital, Northampton, (Tel. 0604 21311) who can be seen in consultation by appointment at the hospital.

Surgery of Violence (1975)

Injuries caused by explosive weapons may suddenly present a doctor with urgent, unfamiliar problems in the treatment of the victims. The recent experience of surgeons and physicians at the Royal Victoria Hospital, Belfast, has been drawn upon to provide advice on some important aspects of the surgery of violence. First published as a series of articles in the *BMJ* during February and March this year, they are now collated into a book. Among the subjects the authors discuss are wounds of trunk and limbs, blast injuries of the ear, intensive care, and disaster planning. In addition the book includes a bibliography of 30 recent papers on traumatic surgery written by members of the staff of the Royal Victoria Hospital.

Price £1.00 (U.S.A. \$3.00)

Cardiovascular Diseases in the Tropics (1974)

The book presents the present state of knowledge regarding many conditions previously thought to be peculiar to the temperate and developed countries and also deals with those disorders peculiar to the tropical situation. It provides an up-to-date review suitable both for clinical and epidemiological work and for further research into these disorders.

Price £4.50 (U.S.A. \$13.50)

Medicine in Old Age (1974)

The series of twenty two articles published in the *British Medical Journal* throughout the winter have been collected in book form as a convenient source of reference for general practitioners. The emphasis is on remedial mechanisms, and the use that can be made of psychogeriatric and social services in keeping the elderly healthy and relatively independent members of the community.

Price £2.00 (U.S.A. \$6.00)

Today's Drugs/3 (1973)

The third and final volume of the 'Today's Drugs' series, like its predecessors, is based on *BMJ* articles revised and brought up to date by their authors. It deals with respiratory agents, drugs acting on central nervous system, and a miscellaneous group of drugs.

Medical Officer

TBA Industrial Products Ltd

TBA Industrial Products Ltd., one of the largest companies in the Turner & Newall Group, employs 4,500 people in four factories in the U.K. and manufactures a wide range of products based on asbestos fibre, glass fibre, rubber and plastics.

We wish to appoint a Medical Officer whose primary duties will be concerned with the operation of the medical units at the Company's two main factories in Rochdale and Hindley Green (near Wigan) under the general guidance of the Chief Medical Officer. X-ray facilities and a pulmonary physiology laboratory are available on site. Opportunities exist for collaboration on various research projects concerned with the analysis of statistics relating to the effects of asbestos exposure on the health of employees and ex-employees.

The position, which is based at Rochdale, offers a young Doctor with a genuine interest in industrial medicine the chance to gain further experience. An opportunity to attain a Diploma in Industrial Health would be offered if necessary. The post carries with it excellent prospects for advancement in this field of medicine.

Salary will be commensurate with age and experience but will not be less than that recommended by the B.M.A. for Medical Officers in industry.

M.R.C. CLINICAL RESEARCH CENTRE (Northwick Park Hospital) Watford Road, Harrow Middx. HA1 3UJ

Applicants are invited to fill a senior vacancy in the Clinical Scientific Staff
of the Division of Inherited Metabolic Diseases of the Medical Research
Council's Clinical Research Centre, Harrow (Head of Division, Dr. R. W. E.
Watts). An honorary clinical contract at consultant level will be negotiated
with the North West Thames Regional Health Authority on behalf of the
successful applicant.

The Division of Inherited Metabolic Diseases is multi-disciplinary, the staff
including physicians, geneticists and biochemists: collaborative work with
other divisions of the Clinical Research Centre is encouraged.

The Division aims to study the clinically important aspects of human
biochemical variation, in particular inborn errors of metabolism and some
aspects of abnormal drug sensitivity. The successful applicant will be required
to initiate research in one of these areas, and to have already demonstrated his
capacity for original work. He/she must hold the M.R.C.U.K. and have had
training and experience in the scientific discipline relevant to his field of clinical
research. This is most likely to have been biochemistry, pharmacology or
genetics.

The clinical work of the Division is primarily related to its research activities,
but also includes an element of adult general medicine which is undertaken by
the Head of the Division and by the present holder of this post. The scope of
the Division is such that the new appointee could be an adult physician with a
special interest in metabolic diseases, a paediatrician or a specialist in mental
subnormality. The clinical work undertaken would be in the appointee's
clinical discipline. If it were necessary for the appointee to carry out part of his
work at any other hospital a joint appointment with that hospital would be
considered or negotiations undertaken for an appropriate honorary
appointment there.

The Division is well equipped for most types of biochemical research, and
clinical facilities for metabolic studies are excellent.

Application forms may be obtained from Mrs. J. Tucker-Bull.

UNIVERSITY OF NEW SOUTH WALES

Regional Training Centre Centre for Medical Education, Research and Development

APPOINTMENT OF ACADEMIC STAFF

A Centre for education in health sciences for the Western Pacific Region was created in 1972 by agreement between the World Health Organisation, University of New South Wales and the Australian Government. A Centre for Medical Education, Research and Development to assist the Faculty of Medicine in the University of New South Wales was created at the same time. The Centre has developed a health education management role in facilitating various educational activities in the health field in Australia. The Centre is conducting a course for a Master's degree in Education for health personnel from July, 1975.

Duties within the Centre overlap broadly. Tasks include the following: teaching in the Master's course; planning, implementing and evaluating short courses and workshops; assisting members and committees of the Faculty of Medicine in curriculum development, instructional design and evaluation; conducting needs assessments, task analyses and curriculum design with various health professions; and undertaking research in these fields (a research interest in the Centre is the elucidation and teaching of clinical decision making).

High academic qualifications in education or one of the health sciences are required. Experience in teaching health personnel would be valuable, as would experience of the health and education problems of developing countries.

Salaries: A15,954 range18,544 per annum (senior lecturer); A11,635 range15,645 per annum (lecturer). Commencing salary according to qualifications and experience. Consideration may be given to appointing an outstanding applicant at the level of associate professor (salary: A20,202 per annum).

For details of appointment, including superannuation, study leave and housing scheme, write to the Association of Commonwealth Universities (Appts), 36 Gordon Square, London WC1H 0PF. Applications close on 1st September, 1975 (26051) 25

APPOINTMENTS

Applicants for medical appointments are advised to check whether the post advertised is included in the Important Notice and to scrutinize carefully the remuneration and terms of service offered. Any member who is in doubt about these terms in relation to B.M.A. agreements should consult the Secretary of the Association.

Advertisers are reminded that the Race Relations Board insists that no descriptive term implying racial, national, or ethnic characteristics may be used in any advertisement. Further, readers are advised not to apply for any appointment which discriminates between applicants on grounds of creed or sex.

HOSPITAL APPOINTMENTS

Applicants should state names, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given: Canvassing disqualifies (Statutory Instrument, 1974, No. 361).

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters should be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association.

In particular, they will find full details of facilities provided in most hospitals in the United Kingdom in the current edition of the *Hospital Gazetteer*. If such details are not included members are advised to consult the Secretary of the B.M.A.

Applicants requiring hospital married accommodation are strongly advised to obtain, prior to interview, clarification in writing from the employing authority as to whether such accommodation will be available on appointment.

No advertisement may stipulate that a non-resident must live less than 10 miles from a hospital. Advertisements for post-registration house officers, senior house officers and registrars should state clearly whether the post is resident, i.e. compulsorily resident.

In all advertisements grade should be clearly indicated. Normally a consultant vacancy must be advertised as (a) part-time with the number of sessions clearly stated, or (b) whole-time with the option of maximum part-time.

In the view of the BMA, an advertiser should not insist on possession of English higher qualifications in preference to Scottish or Irish qualifications (or vice versa).

SALARY SCALES OF HOSPITAL MEDICAL STAFF

HOUSE OFFICER: Each post in this grade shall be tenable for six months. £2,859 per annum for the posts held during the first year; £3,075 per annum for posts held during the second year; £3,294 per annum for posts held during the third and subsequent years, subject to full registration.

NON-RESIDENT REGISTRAR
Two-year appointment renewable after one year to be held at Claybury Hospital with the possibility of rotating for one year to Whipps Cross Hospital. Both hospitals are within easy reach of central London. The post is accredited for the full course of psychiatric training towards the M.R.C. Psych. and recognised for the D.P.M. Claybury is a progressive mental hospital of 1,560 beds with seven admission firms and a high turnover of patients. It is well known for its therapeutic community methods of approach to treatment. The hospital is organised into firms, each serving a sector of catchment area. Each Registrar works on an admission ward under Consultant supervision and has responsibility for long-stay wards. The Registrar undertakes out-patient work and has the opportunity to train in group psychotherapy under a Consultant Psychotherapist. Whipps Cross is a general hospital with a very active psychiatric out-patient service and limited facilities for selected in-patients. The Psychiatric Registrar at this hospital works under the direct supervision of one Consultant and could obtain wide experience of psychiatric problems presenting to a general hospital. There are no formal night duties at Whipps Cross. There is a psychiatric library at Claybury and an active educational centre at Whipps Cross. One half day a week is devoted to postgraduate seminars and case conferences. Facilities are also offered for attendance at other recognised courses. Married or single accommodation is available if required.

MERTON, SUTTON & WANDSWORTH AREA HEALTH AUTHORITY

(Teaching)

PRINCIPAL MEDICAL OFFICER (CHILD HEALTH)

Applications are invited from registered medical practitioners with experience in the community child health services. The post is designed to provide at Area level the necessary support for the Area Specialist in Community Medicine (Child Health) in order to ensure the effective planning and organisation of the newly created integrated child health services, to assist in the training of doctors working in the field of child health and to participate in the assessment of the handicapped child.

The Merton/Sutton/Wandsworth Area provides a particularly interesting challenge in regards child health. Apart from the complexity imposed by the three Districts not being coterminous with the four collaborating local authorities there is the necessity to restructure the services to take into account the changed pattern of child health. This will involve close collaboration between the paediatric hospital services and the primary care teams in the community to ensure the universal surveillance of all children in order to promote the early detection of physical and mental defect or emotional disorder.

In association with the Education Authorities and Social Service Departments plans are being made to broaden the existing comprehensive assessment of all children suspected of handicap with the view to providing treatment and meeting the needs of the handicapped child and his family.

Salary scale: £450-£8307 plus London Weighting.

Job description and application forms can be obtained from Dr. Rosemary Graham, Area Specialist in Community Medicine (Child Health), Merton/Sutton/Wandsworth Area Health Authority (Teaching), "Homewood", 14 Atkins Road, Balham, SW12 0AD. Closing date 29th July, 1975. (26073) 113

General enquiries, including enquiries regarding positions at the training level, are welcomed and should be directed to: Associate Professor of Haematology, A. Morley, Haematology Unit, Flinders Medical Centre, Bedford Park, SA 5042 or Associate Professor Elect of Immunology, Dr. J. Bradley, Sub-Department of Immunology, Medical School, Crown Street, Liverpool, United Kingdom.

These posts are full-time positions at the Specialist or Senior Specialist level. The salary range is \$16,250-\$21,428 per annum (currently under review) according to qualifications and experience. The positions carry limited right of private practice, the terms of which are at present being negotiated. It is anticipated that appointees will commence duty late in 1975 or early in 1976.

Applicants for the above positions should write to The Administrator, Flinders Medical Centre, Bedford Park, SA 5042, giving names of three referees and a curriculum vitae which should include qualifications, previous positions and details of experience in clinical and laboratory haematology or immunology and in teaching and research.

Applications close: 31st August, 1975.

TARANAKI HOSPITAL BOARD

ANAESTHETIST(WHOLE OR PART-TIME)
New Plymouth — New Zealand

Applications are invited from suitably qualified medical practitioners for the position of Specialist Anaesthetist — either whole-time or on a not less than 7/10ths sessional basis — at the Taranaki Base Hospital in New Plymouth.

Applicants should hold a higher qualification in anaesthesia, be of specialist status and preferably be aged 40 or less. It is hoped that the appointee will have an interest and experience in intensive care work so that he can assume responsibility for the intensive care section of the combined intensive and coronary care unit of seven beds.

The Board at present employs two whole-time specialist anaesthetists and there is a modern four theatre suite at the Base Hospital.

There is a progressive private hospital in New Plymouth and the part-time appointee could expect work at this hospital.

Conditions of employment will be in accordance with the New Zealand Hospital Service Determination for Medical Officers. Salary will be within a ten step scale N.Z. \$13,102/N.Z. \$17,547 p.a. with automatic annual increments to the maximum. The salary of a part-time appointee will be in proportion to the number of hours worked. The commencing salary will be determined by the Medical Officers' Salaries Grading Committee.

The Taranaki Hospital Board serves an area with a population of 100,000. New Plymouth is a coastal city of 39,000. It enjoys an equitable climate and educational, cultural and sporting facilities (from surfing to skiing), appropriate to such a community, are readily and economically available.

Considerable assistance towards fares and removal expenses can be given to whole-time appointees or substantially whole-time appointees subject to a contract of minimum service. Please write to the undersigned, giving full details of qualifications experience etc.

Conditions of appointment and application forms will be sent by return airmail. **The Secretary, Taranaki Hospital Board, Private Bag, New Plymouth, New Zealand**, applications close on 24th July, 1975. (25959) 118
