Will your depressed patients
get tired of their treatment?

Not if you prescribe the non-sedative, widely effective antidepressant from ICI.

'Vivalan', in trials involving over 2,000 patients, has proved to be a unique antidepressant. In one trial in which 77 patients took 'Vivalan' there was "...virtual complete absence of drowsiness and dry mouth at any dose level. These are considerable advantages when treating ambulant patients who may be driving a motor car, or who may wish to remain at work, despite their illness and treatment."¹

'Vivalan' is the fresh approach to the problems of depression: patients achieve recovery without hindrance from unwanted drowsiness.

Your health may suffer *but* *your income need not.*

Permanent Health Insurance

is a contract that remains in force no matter how many claims you make or how long they last—it enables your income, and practice expenses to be maintained during periods of ill-health, when your regular income ceases or is considerably reduced.

There are a number of plans from which we can help you choose the contract most suited to your personal circumstances. The plan you select will run until you reach the age of 55, 60 or 65 — whichever fits in with your personal pension arrangements.

You may choose a plan where the benefits remain constant throughout the term, as do the premiums payable; or for a slightly higher premium which also remains constant you can arrange for the benefit to be increased by 3% p.a. compound whilst claiming; this plan is specially attractive in the event of incapacity lasting for a long period of time.

Policies are available under which benefits automatically increase annually irrespective of whether a claim is being made or not, whilst premiums are only altered every five years. One plan attracts bonuses which are allocated in a similar way to with-profit Life Assurance policies — the bonuses being paid at the selected terminating age or earlier death.

You will be surprised how little it costs to enjoy the peace of mind that a Permanent Health Insurance can bring.

You insure your house, car and other possessions, yet none is so valuable as your earning power. Doesn't it make sense to insure that too?

The Medical Insurance Agency will in this — as in all matters — give an unbiased opinion and advise on the alternatives available. Please return the coupon below for further information.

COMMERCIAL APPOINTMENTS

MEDICAL ADVISER (CLINICAL RESEARCH)

Applications are invited by CIBA-GEIGY (UK) Limited from registered medical practitioners preferably in the 30-40 year age group.

The duties will involve the design, initiation and follow-up of clinical trials of a variety of products. Though the emphasis will be on the evaluation of new compounds, some work with established products will also be involved. Co-operation with hospital staff, research units, general practitioners and the Committee on Safety of Medicines will be required and the duties will involve the investigation of adverse reactions to drugs and the preparation of relevant manuscripts.

The Company has wide therapeutic interests but the present post will initially be concerned mainly with compounds in the fields of cardiovascular diseases and rheumatology.

The work will involve travelling within the U.K. and occasionally abroad. Clinical work is encouraged. Appreciation of modern trends and ideas in medicine is important and this is aided by attendances at specialist society meetings and conferences both in the U.K. and abroad.

Previous experience in the Pharmaceutical Industry is not essential. The new member will join a team of doctors

experienced in this field and initially will be given help and advice in this interesting and expanding branch of medicine which offers wide scope for an excellent career.

Further details of the type of work and duties involved will be sent to interested applicants, and will be discussed in depth with applicants selected for interview.

The successful candidate will be based in the North Cheshire area within easy travelling distance of the more highly sought after residential areas to the south of Manchester. Salary will be negotiable in accordance with experience and qualifications. Good conditions of work include a first class contributory pension scheme. Generous financial assistance towards expenses associated with house removal and purchase is offered in appropriate cases.

Registered Medical Practitioners interested in the appointment are invited to write, giving full particulars of age, qualifications and previous experience to:

Dr. J. G. Domenet,
Head of Clinical Research,
CIBA-GEIGY (UK) Limited,
30 Buckingham Gate,

FELLOWSHIP AWARDS

The Wellcome Trust

WELLCOME RESEARCH TRAINING FELLOWSHIPS IN SURGERY

The Wellcome Trust is offering up to four fellowships in Surgery. The object of these awards is to give research training to young surgeons who may wish to take up an academic career. The fellowships will be tenable in Great Britain, in University Departments of Surgery, or in other departments where problems relevant to Surgery can be studied.

Professors of Surgery are invited to nominate candidates, who must be medical graduates, under the age of 35, who wish to spend one or two years on a research project. The sponsor must undertake to supervise the work and provide facilities.

The stipend offered will be in the range £2,860-£6,280 per annum, according to age and experience. The Fellow may take up his post at any time within 12 months of the award.

A copy of the regulations and an application form may be obtained from The Assistant Director, (Surgical Fellowships), The Wellcome Trust, No 1 Park Square West, London NW1 4LJ.

The closing date for applications is 30th September 1975.

OCCUPATIONAL HEALTH

**NATIONAL COAL BOARD
MEDICAL SERVICE****Doctors**

The Board are seeking able young doctors who are interested in making a career in occupational medicine. Candidates should preferably be under 35 years of age and have some experience in one or more of the following specialities – chest diseases, casualty surgery, dermatology, community or occupational medicine.

The range of occupational hazards in the coal industry is wide. It is, therefore, the Board's firm policy progressively to improve the working environment. The doctor's role in this work is a challenging one, calling for competence both in clinical and preventive medicine.

The Medical Service is responsible for occupational health matters in the coalfields, working in close collaboration with the Institute of Occupational Medicine in Edinburgh, the industry's research centre for medical and allied problems.

There are vacancies in the Yorkshire and Lancashire/Staffordshire coalfields. There is the chance for a suitable candidate to move at a later date to the Institute for a period.

Full training in occupational medicine will be given. In addition to close personal supervision of training within the mining industry, the Board will arrange for study periods averaging a month in each of the first three years. It would be expected that candidates should obtain the Diploma in Industrial Health or some higher qualification in this period.

Salary will be in accordance with a range agreed with the B.M.A. and on appointment is likely to be about £7000, depending on age and experience. For the able man there are excellent chances of promotion. Please apply in writing to:

Director

Institute of Hearing Research

The Council have resolved to take a major initiative in develop-
ing research in hearing. The aim of the Institute is to provide a
base for staff and facilities for a major multi-disciplinary
research effort in this field and to provide a national centre for
the co-ordination and initiation of research in deafness. A major
part of the research effort will be in the areas identified by their
expert Sub-committees on Deafness, particularly the
epidemiology and systematic clinical characterisation of deaf-
ness and the rehabilitation of the deaf. It is expected that the
field research will need to be conducted on a multi-centre basis
and hence there will be outstations as an integral part of the
institute. The institute will be funded, at least in part, under the
new arrangements for commissioning research by the Health
Departments who will also be responsible for providing the
necessary Health Service facilities.

The person appointed as Director must have an established
reputation as a scientific investigator in his own specialist field,
and evident ability to manage a research team, as he would be
expected to develop the institute's research programme in
addition to his own personal research, for which he would have
facilities in the headquarters building of the institute. Initially a
major part of the programme would concern the setting up of
multi-centre clinical studies and rehabilitation research. He
need not necessarily be medically qualified, but will be required
to establish collaborative links with clinicians. The location of
the director will be a matter for negotiation in the light of the
director's research interests and the need to organise studies
at several centres. When the director has been appointed and
his location agreed, negotiations will be opened with the
appropriate university for the establishment of a Chair in Hear-
ing Research. If the director's work makes it possible for him to
hold an Honorary Clinical Contract, and this is awarded at
Consultant level, he will be paid on the MRC Clinical Scale
equivalent to the NHS Consultant Grade (max. at present
£10,689 per annum). If the holding of a Clinical Contract is not
appropriate, the director will be paid at MRC non-clinical rates
at a suitable point in the range of up to £9,517 per annum.
Superannuation provision under the MRC Pension Scheme.

Applications should be submitted no later than 30th September
1975 in the form of a statement not exceeding 2000 words
outlining in general terms the scientific programme that the
applicant would wish to undertake, and indicating the type of
staff and facilities he would require, together with *curriculum
vitae* and list of publications, to the Secretary, Medical
Research Council, 20 Park Crescent, London W1N 4AL.
Applicants should write for further particulars, including the
Report of the Sub-Committee on Deafness, to the same
address.

APPOINTMENTS

Applicants for medical appointments are advised to check whether the post advertised is included in the Important Notice and to scrutinize carefully the remuneration and terms of service offered. Any member who is in doubt about these terms in relation to B.M.A. agreements should consult the Secretary of the Association.

Advertisers are reminded that the Race Relations Board insists that no descriptive term implying racial, national, or ethnic characteristics may be used in any advertisement. Further, readers are advised not to apply for any appointment which discriminates between applicants on grounds of creed or sex.

HOSPITAL APPOINTMENTS

Applicants should state names, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given: Canvassing disqualifies (Statutory Instrument, 1974, No. 361).

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters should be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association.

In particular, they will find full details of facilities provided in most hospitals in the United Kingdom in the current edition of the *Hospital Gazetteer*. If such details are not included members are advised to consult the Secretary of the B.M.A.

Applicants requiring hospital married accommodation are strongly advised to obtain, prior to interview, clarification in writing from the employing authority as to whether such accommodation will be available on appointment.

No advertisement may stipulate that a non-resident must live less than 10 miles from a hospital. Advertisements for post-registration house officers, senior house officers and registrars should state clearly whether the post is resident, i.e. compulsorily resident.

In all advertisements grade should be clearly indicated. Normally a consultant vacancy must be advertised as (a) part-time with the number of sessions clearly stated, or (b) whole-time with the option of maximum part-time.

In the view of the BMA, an advertiser should not insist on possession of English higher qualifications in preference to Scottish or Irish qualifications (or vice versa).

SALARY SCALES OF HOSPITAL MEDICAL STAFF

HOUSE OFFICER: Each post in this grade shall be tenable for six months. £2,859 per annum for the posts held during the first year; £3,075 per annum for posts held during the second year; £3,294 per annum for posts held during the third and subsequent years, subject to full registration.

Government of Western Australia

State Public Service
Mental Health Services

Consultant Psychiatrists

Applications are invited from consultant psychiatrists interested in joining the Mental Health Services of Western Australia.

The duties and status of appointees will be substantially those of a consultant in the National Health Scheme.

Vacancies exist at in-patient, out-patient and child psychiatry units. All units are in the Perth metropolitan area. Community psychiatric services are being developed and consultative services are provided to a number of country towns.

Perth, the capital of Western Australia, has a mild Mediterranean type of climate with abundant opportunities for outdoor recreations. Secondary and tertiary educational facilities are of a high standard. Perth has two universities and an Institute of Technology.

SALARY: A\$20,106-A\$23,523 per annum. Commencing salary is dependant upon nature and duration of relevant experience since attaining psychiatric qualifications.

QUALIFICATIONS: Applicants must be eligible for registration as a Medical Practitioner with the Medical Board of Western Australia, and possess a Diploma in Psychological Medicine from a recognised body or be a member of the Royal College of Psychiatrists or of the Australian and New Zealand College of Psychiatrists, in addition to having a minimum of five years' experience in psychiatry.

CONDITIONS OF SERVICE: For permanent appointees: Three months long service leave after each seven years continuous service, four weeks annual leave plus public holidays (13), generous cumulative sick leave entitlements and superannuation benefits.

Temporary appointees: Three months long service leave after ten years continuous service in the first instance and thereafter three months long service leave after each continuous seven years service, four weeks annual leave after twelve months service plus public holidays (13) and generous cumulative sick leave entitlements. Appointees may be eligible for superannuation benefits after two years service.

TRANSPORT: First class air fares for married appointee, wife and dependent family under sixteen years of age, plus a reasonable amount for removal of essential personal effects, subject to the appointee entering into an agreement to serve the State for one to two years, according to amount of assistance given. Single persons receive assistance in the form of fares only.

ACCOMMODATION: Furnished three-bedroom housing is available at nominal rental.

GENERAL: Applicants can be appointed to the permanent Public Service staff or may also be engaged on a two year contract, with return fares paid if the officer decides to return to United Kingdom within six months of the expiry of the contract period.

Mental Health Services enjoy a close relationship with the University of Western Australia, Department of Psychiatry, and metropolitan teaching hospitals. Opportunities exist for teaching, and participation in approved research programmes.

Successful applicants who are not Australian citizens will require visas. On receipt of an offer of a specific appointment, the applicant should lodge an application immediately with the Office of the High Commissioner for Australia, Strand, London W.C.2, and advise the Migration Liaison Officer, Western Australia House, that they have done so.

SATISFYING AND REWARDING POSTS OVERSEAS

Satisfying and rewarding posts overseas

The Ministry of Health of the Government of Malawi is moving towards decentralization of the present control of health services as recommended by the Planning Team of the W.H.O. It is recognised that the success of such a policy will depend on the quality of the supervision available. To provide the necessary human resources, the Ministry offer a number of posts to expatriates with UK obtained medical qualifications.

Although faced with the problems of a developing country, Malawi has one of the most vigorous economies in Africa; the Government is committed to progress, and is willing to use the best skills and talent available to help in achieving it especially in the medical field. The climate of Malawi is warm and comfortable and the country has great natural beauty. The cost of living and taxation are both low and the quality of life can give considerable personal satisfaction.

Scope in Zambia for a

Medical Officer General Duties and Anaesthetics

Roan Consolidated Mines Limited in Zambia has a vacancy at its Chibuluma Division for a Medical Officer whose responsibilities will include hospital out-patient sessions, clinic visits and some administration. He will also have medical in-patient responsibilities and will have one routine anaesthetic list per week and, on a rota basis, will share emergency anaesthetic call duties with usually one other medical officer. Previous hospital appointments should therefore include experience in anaesthetics.

A broad general experience in hospitals and general practices over several years would be an advantage, as the successful candidate will be expected to take charge of the medical unit in the absence of the Chief Medical Officer. The man appointed will be based at Kalulushi where the company provides a comprehensive health service for its employees and their dependants of Chibuluma Division. The curative medical services have an establishment of 4 doctors and consist of well-equipped hospital and 4 clinics in the area. The hospital has nearly 100 beds and is run by qualified nursing and para-medical staff.

A competitive salary will be negotiated depending on experience and qualifications for a three-year contract.

Additional benefits include ■ return passages for employee and family ■ generous baggage allowance ■ tax free settling-in allowance ■ tax free children's education and travel allowances ■ furnished accommodation at low rental ■ generous paid leave ■ free life assurance ■ car for professional use.

Madopar is a combination of levodopa (Larodopa) and benserazide, a decarboxylase inhibitor developed by Roche, in the well-researched and documented ratio of 4:1. Trials in many centres confirm this ratio as the one best tolerated in clinical practice.

Benserazide inhibits the peripheral decarboxylation of levodopa with the result that therapeutic levels of dopamine in the brain are achieved with lower doses and a clinical response occurs within days.

Thus, the well-known benefits of levodopa are realised but with a dramatic reduction in both side-effects and the refractory period – aspects of levodopa therapy which up to now have posed problems for many Parkinsonian patients.

Madopar is the trade mark for pharmaceutical preparations containing levodopa and benserazide.

Larodopa is the trade mark for Roche pharmaceutical preparations containing levodopa.
