A Colour Atlas of HISTOLOGY

M. B. L. Craigmyle, MD., MB., Ch.B.

Senior Lecturer in Histology and Anatomy, University College, Cardiff

Designed to provide a comprehensive and easily accessible collection of photographs showing the microscopic appearance of normal cell and tissue structure, this atlas will be of value to students of anatomy, biochemistry, physiology and pathology. Different staining methods in common use are illustrated, and the book presents a range of material, as seen under laboratory conditions, rarely available in any one teaching establishment.

Contents: Epithelium; Connective Tissue; Muscular Tissue; Nervous Tissue; The Circulatory System; The Lymphomyeloid Complex; The Endocrine Glands; The Integument; The Alimentary Tract; The Respiratory System; The Urinary System; The Male Reproductive System; The Female Reproductive System; The Auditory Apparatus; The Visual Apparatus; The Olfactory Apparatus; Bone Development; Tooth Development.

Surgery of Violence (1975)

Injuries caused by explosive weapons may suddenly present a doctor with urgent, unfamiliar problems in the treatment of the victims. The recent experience of surgeons and physicians at the Royal Victoria Hospital, Belfast, has been drawn upon to provide advice on some important aspects of the surgery of violence. First published as a series of articles in the *BMJ* during February and March this year, they are now collated into a book. Among the subjects the authors discuss are wounds of trunk and limbs, blast injuries of the ear, intensive care, and disaster planning. In addition the book includes a bibliography of 30 recent papers on traumatic surgery written by members of the staff of the Royal Victoria Hospital.

Price £1.00 (U.S.A. \$3.00)

Cardiovascular Diseases in the Tropics (1974)

The book presents the present state of knowledge regarding many conditions previously thought to be peculiar to the temperate and developed countries and also deals with those disorders peculiar to the tropical situation. It provides an up-to-date review suitable both for clinical and epidemiological work and for further research into these disorders.

Price £4.50 (U.S.A. \$13.50)

Medicine in Old Age (1974)

The series of twenty two articles published in the *British Medical Journal* throughout the winter have been collected in book form as a convenient source of reference for general practitioners. The emphasis is on remedial mechanisms, and the use that can be made of psychogeriatric and social services in keeping the elderly healthy and relatively independent members of the community.

Price £2.00 (U.S.A. \$6.00)

Today's Drugs/3 (1973)

The third and final volume of the 'Today's Drugs' series, like its predecessors, is based on *BMJ* articles revised and brought up to date by their authors. It deals with respiratory agents, drugs acting on central nervous system, and a miscellaneous group of drugs.

Price £1.25 (U.S.A. \$3.75)

TRAINING PROGRAMME IN PSYCHOTHERAPY

It is proposed to begin a programme of training in psychotherapy in January, 1976. The programme will extend over a period of two years, each year being divided into three terms of ten weeks. The programme will consist in seminars upon the various theories underlying "analytically orientated" psychotherapeutic practices, training and sensitivity groups, and transference groups. The seminars, and training and sensitivity groups will be held on Tuesday afternoons, beginning at 2.30p.m. and ending at 5.30p.m. The transference groups, which will be held during the second year of the course, may meet later in the evening and upon a different day in the week — these will be matters for negotiation, towards the end of the first year, between the therapist concerned and those attending the course.

The programme is open to members of the medical and nursing professions, social workers, probation officers and others concerned in dealing with people in difficulty in their relationships with others. However, applicants will be expected to provide a Curriculum Vitae and furnish evidence of acceptable motivation to taking part in the course.

Further details may be obtained from Mrs. Christine Neal, Postgraduate Secretary, Uffculme Clinic.

Fees for the course will be £60 per annum.

The course is recognised under Section 63 for General Practitioner training. (27791) 4

APPOINTMENTS

Applicants for medical appointments are advised to check whether the post advertised is included in the Important Notice and to scrutinize carefully the remuneration and terms of service offered. Any member who is in doubt about these terms in relation to B.M.A. agreements should consult the Secretary of the Association.

Advertisers are reminded that the Race Relations Board insists that no descriptive term implying racial, national, or ethnic characteristics may be used in any advertisement. Further, readers are advised not to apply for any appointment which discriminates between applicants on grounds of creed or sex.

HOSPITAL APPOINTMENTS

Applicants should state names, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given: Canvassing disqualifies (Statutory Instrument, 1974, No. 361).

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters should be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association.

In particular, they will find full details of facilities provided in most hospitals in the United Kingdom in the current edition of the *Hospital Gazetteer*. If such details are not included members are advised to consult the Secretary of the B.M.A.

Applicants requiring hospital married accommodation are strongly advised to obtain, prior to interview, clarification in writing from the employing authority as to whether such accommodation will be available on appointment.

No advertisement may stipulate that a non-resident must live less than 10 miles from a hospital. Advertisements for post-registration house officers, senior house officers and registrars should state clearly whether the post is resident, i.e. compulsorily resident.

In all advertisements grade should be clearly indicated. Normally a consultant vacancy must be advertised as (a) part-time with the number of sessions clearly stated, or (b) whole-time with the option of maximum part-time.

In the view of the BMA, an advertiser should not insist on possession of English higher qualifications in preference to Scottish or Irish qualifications (or vice versa).

SALARY SCALES OF HOSPITAL MEDICAL STAFF

HOUSE OFFICER: Each post in this grade shall be tenable for six months. £2,859 per annum for the posts held during the first year; £3,075 per annum for posts held during the second year; £3,294 per annum for posts held during the third and subsequent years, subject to full registration.

Deductions of £177 per annum in respect of lodging only for voluntary residence.

SENIOR HOUSE OFFICER: £3,663 per annum x £243(1) — £3,906 x £246(1) — £4,152

Deductions of £210 per annum in respect of lodging only for voluntary residence.

REGISTRAR: £4,152 per annum x £222(3) — £4,818 x £291(1) — £5,109.

Deductions of £210 per annum for those with remuneration at the first incremental point on the scale and £234 per annum for those on the second and subsequent points will be made in respect of lodging only for voluntary residence.

On assimilation to the scale for Registrars, one increment and one only shall be given for any year or part of a year in excess of two spent previously in the senior house officer grade.

Allowances at rates up to £204 per annum shall be payable to house officers, senior house officers and registrars occupying posts approved for such allowances in peripheral hospitals.

SENIOR REGISTRAR: £4,818 x £291(1) — £5,109 x £294(1) — £5,403 x £291(2) — £5,985 x £294(1) — £6,279.

Deductions of £270 per annum in respect of lodging only for voluntary residence.

On assimilation to the salary scale for senior registrars, increments to a maximum of two shall be given for each year or part of a year in excess of three spent previously in the registrar grade.

MEDICAL ASSISTANT: £4,548 x £258(4) x £234(1) x £222(9) — £7,812.

Deductions of £270 per annum in respect of lodging only for voluntary residence.

CONSULTANT: £7,536 x £786(1) x £789(3) — £10,689.

Deductions of £420 per annum in respect of lodging only for voluntary residence.

COMPULSORY RESIDENCE: The Terms and Conditions of Service of Hospital Medical and Dental Staff state:

173. A practitioner who is required as a condition of his appointment to reside in a hospital shall be provided with lodging without charge, except where the practitioner elects to occupy a house, flat or apartment for which a rent is appropriate.

COMMUNITY MEDICINE

National Scale. Specialist in Community Medicine/District Community Physician/District Medical Officers: £7,536 x £786(1) x £789(3) — £10,689 p.a. National scales for Regional and Area Medical Officers/Chief Administrative Medical Officers vary according to authority. Information available from the Secretary of the B.M.A.

CONSULTANT ANAESTHETISTS
(Whole-time or Maximum Part-time)
Applications are invited for two additional Consultant posts in Anaesthetics. The three main acute hospitals in this single-district Area, serving a population of approximately 275,000 are teaching hospitals associated with the expanding University of Manchester Medical School. Hope Hospital is being developed as a University (and district) general hospital of about 1,200 beds. The University is represented by a Senior Lecturer post in Anaesthetics, with main duties in the Salford Area.
All the usual specialties are provided in the Area, including one of the Regional neurosurgical units, and paediatric surgery at Royal Manchester Children's Hospital. Candidates should have wide experience, the F.F.A. and an interest in teaching. For one post, an interest in paediatric surgery would be an advantage; for the other post an interest in intensive care work would be desirable.

Medical Officers

£7,600+

You are offered the prospect of a tour of duty in Zambia, which will give you both a wide range of professional experience and early responsibility. It is with the nation's major mining organisation, Nchanga Consolidated Copper Mines Ltd, with an international staff of technical specialists.

The company is responsible for providing full medical care to its employees—over 30,000—and their families: the total of persons to be looked after is about 150,000.

There is a senior doctor staff of over 40, together with a full complement of specialists and 150 fully qualified nurses. The modern facilities include 5 well-equipped hospitals (847 beds), 18 clinics and 9 main first aid dressing stations.

General Duty Medical Officers will be involved in preventive and curative medicine, surgery, anaesthetics, gynaecology/obstetrics, public health and nutrition; and although the mines have a strict safety code an amount of accident work can be expected.

Contracts may be negotiated for periods of one to three years. Locums can also often be arranged.

Salaries will depend on experience, but the minimum is K11,275 gross per annum (£7667 based on an exchange rate of K1. = 68p). In addition there is a tax free settling-in allowance: subsidised Company private primary schools; a detached, furnished house with garden is provided for £7 per week; and children receiving secondary education overseas are granted up to £816 per child per year, tax free, towards school fees and three free return passages to visit their parents during holidays; interest free car loan available. Study leave is available, and there are 60 days standard annual leave.

Up to one third of gross income can be sent home each month.

Clinical Chemist (Medical)

(\$16,250 to \$18,469) (Under review)

or

Assistant Clinical Chemist (Medical)

(\$11,072 to \$14,770) (Under review)

Applications are invited from suitably qualified medical officers for immediate appointment to a position of Clinical Chemist (Medical) or Assistant Clinical Chemist (Medical) in the Division of Clinical Chemistry. Salary will be in the above ranges commensurate with experience and some rights of private practice are available for appropriately qualified staff. Fares and a reasonable baggage allowance will be paid for the appointee and his family.

The Division of Clinical Chemistry performs all the routine and special investigations for the Royal Adelaide Hospital, for peripheral hospitals and for a proportion of the private practitioners in South Australia. Special procedures already established include automated analytical systems, enzyme analyses, protein fractionation and quantification, lipid and lipoprotein analyses, endocrine, renal and gastroenterological function testing. The Division is also responsible for data processing throughout the Institute of Medical and Veterinary Science, which has CDC computers for this purpose.

The medical staff of the Division provide the consultant service for the Royal Adelaide Hospital, certain other hospitals and private practitioners. The Division is also responsible for the organisation and running of the Metabolic Ward within the Royal Adelaide Hospital, and is closely associated with the Intensive Care Unit. Applicants should have an interest in the clinical application of biochemical data, and have, or be studying for, F.R.A.C.P. (Part I) or F.R.C.P.A. (Or equivalent).

The Division is engaged in a range of different research projects and is in receipt of grants for these purposes. Current areas of interest include carbohydrate metabolism, lipid disorders, radioimmunoassay, intrahepatic cholestasis and disorders of bone and calcium homeostasis. Participation in research will be encouraged either at a clinical or laboratory level. The Institute is an approved training laboratory for the Royal College of Pathologists of Australia.

Applications, stating full name, place, date and year of birth, marital status, nationality, past and present employment, qualifications and experience, together with the names of three referees, should be addressed to the Director, Box 14, Rundle Street Post Office, Adelaide, South Australia, 5000, to reach him no later than 30th September, 1975.

New product

Lopresor[®]

metoprolol tartrate

new β_1 selective beta-blocker

All you expect of a modern beta-blocker

- effectively lowers blood pressure
- no postural effects or sexual impotence
- improved effort tolerance in angina
- reduces the frequency of anginal attacks

Plus the benefits of β_1 selectivity

**greater safety margin than non-selective agents in
asthma or bronchitis**

- less risk of bronchospasm
- does not interfere with adrenergic
bronchodilators

**less likely than non-selective agents to cause
undesirable peripheral vasoconstriction**

Lopresor 50mg for angina pectoris

Lopresor 100mg for hypertension

Brief Pharmacological Profile

Selectivity	β_1 only
Plasma half-life	3 - 4 hours
Physiological half-life	~ 8 hours
Intrinsic sympathomimetic activity	No
Local anaesthetic activity	No
Renin suppression	Yes
Isoprenaline-induced lipolysis	Inhibition
Isoprenaline-induced insulin release	Minimal inhibition
Protein binding	12%

Lopresor is available as pale blue tablets for hypertension containing 100mg, and as pale red tablets for angina pectoris containing 50mg metoprolol tartrate in packs of 100 tablets.

Further information is available to the medical and allied professions on request.
