

Constipation is a bind

Constipation may not be the most serious condition requiring treatment; but the distress and pain that it can lead to are often cause for concern to the patient, doctor and nurse alike.

That's why all concerned will appreciate new Laxoberal.

New Laxoberal is a liquid laxative containing just one active agent – sodium picosulphate – whose actions promote the gentle passing of a soft but formed stool, to avoid both pain and strain. While side-effects are kept to a minimum.

Moreover, new Laxoberal comes in a light, easy-flowing, pleasant-flavoured preparation that's easy to take and goes down well – with young and old alike.

That's why Laxoberal makes constipation less of a bind – for all concerned.

New! Laxoberal®
shows concern
for all concerned.

Why forbid the patient coffee?

Thanks to H-A-G Decaffeinated Coffee even in cases of Insomnia, Palpitations, Disorders of the Heart and Circulation, Excitability, Gastritis and Peptic Ulcer, Gallstones, certain Diseases of the Liver **the patient need not forego his favourite beverage.**

* THE H-A-G DECAFFEINATING PROCESS.
Swelling the green beans by steam pressure enlarges the pores and exposes the maximum surface to the highly volatile caffeine solvent (not trichlorethylene) which is flushed through the beans, carrying the caffeine with it. The surplus solvent is removed by a final steam flushing. The beans are then roasted in the normal way.

H-A-G coffee is available in 3 forms, Beans, Ground and Instant.

Liberal samples of Ground or Instant will be sent free and post free to any Doctors applying to:

THE COMPLICATIONS OF DIABETES

Edited by HARRY KEEN
and JOHN JARRETT

It is not the metabolic disorder, but the complications of diabetes which present a major clinical problem. This book focuses on modern concepts of their cause and management. The approach is unique, in that the book deals solely and specifically with the complications of diabetes, emphasising mechanisms, recent research, and recent developments in treatment.

This book is an attempt to summarize current knowledge in experimental and clinical organ grafting. Readers interested would be senior medical students and junior doctors, particularly those concerned in nephrology and surgical transplantation. The subject is taken from an elementary stage and would be suitable for anyone with a background in biology.

In bronchitis Septrin b.d. leaves nothing to chance

Septrin has a powerful action against the pathogens likely to cause acute episodes of bronchitis; *H. influenzae*, the most troublesome organism, is highly sensitive.

Septrin has been shown to give better results than ampicillin¹ and tetracycline² with regard to:

- * Rapidity of resolution of symptoms.**
- * Eradication of pathogens from sputum.**
- * Conversion of purulent to mucoid sputum.**

Will your depressed patients
get tired of their treatment?

Not if you prescribe the non-sedative, widely effective antidepressant from ICI.

'Vivalan', in trials involving over 2,000 patients, has proved to be a unique antidepressant. In one trial in which 77 patients took 'Vivalan' there was "...virtual complete absence of drowsiness and dry mouth at any dose level. These are considerable advantages when treating ambulant patients who may be driving a motor car, or who may wish to remain at work, despite their illness and treatment."¹

'Vivalan' is the fresh approach to the problems of depression: patients achieve recovery without hindrance from unwanted drowsiness.

THE FINEST PRIVATE PSYCHIATRIC HOSPITAL IN BRITAIN IS IN NORTHAMPTON

St. Andrew's Hospital, which was established in 1838 as a non-profit making charitable foundation, is a progressive hospital staffed and equipped for the treatment of every type of psychiatric illness.

All patients are under the care of Consultant Psychiatrists.

In general, short stay patients are admitted to Isham House, a luxuriously appointed Nursing Home in the grounds. The accommodation consists of private bedrooms, most of which have private bathrooms. All forms of treatment are available, with emphasis on individual and group psychotherapy.

Facilities for occupational therapy and recreation are excellent, and include a 9-hole golf course, squash court, tennis courts, swimming pool and a Social Centre with restaurant, shop and hairdressing salon. All these are set in the hospital's own 100 acres of well-wooded grounds.

Long stay and psychogeriatric admissions are into the main hospital which has been modernised specifically for the purpose. Again, accommodation is mostly in private bedrooms.

St. Andrew's Hospital is only 65 miles from London and is easily accessible from all parts of the country by rail and road.

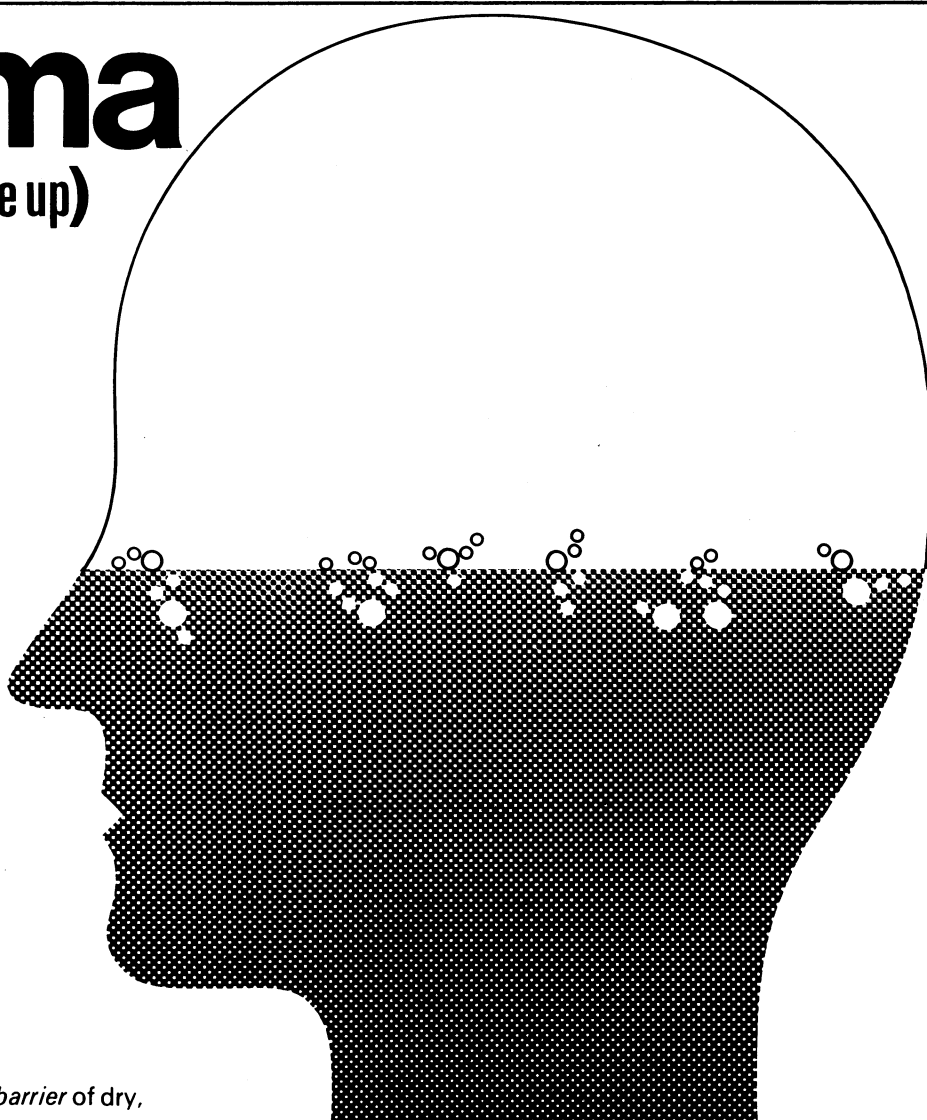

B.U.P.A., and P.P.P., subscribers are able to claim benefit in respect of their treatment fees.

St. Andrew's Hospital offers the highest standards of treatment for the whole spectrum of psychiatric illness in an ideal environment.

Further particulars, including fees, may be obtained from the Medical Director, St. Andrew's Hospital, Northampton, (Tel. 0604 21311) who can be seen in consultation by appointment at the hospital.

*Dry eczema occurs *beneath a barrier* of dry, scaly skin.

*Treatment with massively potent fluorinated steroids may produce skin atrophy and wasting, systemic absorption and adrenal suppression.

*The milder, natural steroid, hydrocortisone, in Calmurid® HC achieves at least equal results... without the hazards of the fluorinated steroids.

"The results show that in the treatment of atopic eczema a preparation of 1% hydrocortisone and 10% urea (Calmurid HC) was as effective as a 0.1% betamethasone 17-valerate cream".

Brit. J. Derm., 88, 493 (1973).

*Calmurid HC achieves these *major* results with a *milder* steroid because of the deeply penetrating power of the base (Calmurid).

Potential loss of income tax relief

Following the latest Review Body increases, numbers of part-time consultants with private practice will find themselves in a situation where they will have to discontinue or at least reduce the contributions they are making to retirement annuity contracts based on their private practice income.

This means that a tax benefit enjoyed over past years may no longer be available.

Since it is in only very limited areas that full tax relief (both basic and higher rates where appropriate) can be secured in respect of annual payments, it is important that early consideration be given to this subject.

It so happens that at present it may be possible to arrange for some at least of this full tax relief to be obtained on another form of annual outlay. **No time must be lost, however, since this other facility will be available for a few months only.**

If there are any part-time consultants who now find their NHS salary in excess of £10,000 (and distinction payments count towards this figure) they should contact us as soon as possible. The point is also of relevance to those whose NHS income may not yet have reached £10,000 but may attain that figure within the next year or two. Unless they take the appropriate action now they may find themselves in the near future, unable to obtain tax relief on their private pension policies and with no chance of making the other arrangements.

Further information will be willingly provided on receipt of the attached coupon, duly completed.

SURGERY OF VIOLENCE

ISBN 0 7279 0004 8

Injuries caused by explosive weapons may suddenly present a doctor with urgent, unfamiliar problems in the treatment of the victims. The recent experience of surgeons and physicians at the Royal Victoria Hospital, Belfast, has been drawn upon to provide advice on some important aspects of the surgery of violence.

First published as a series of articles in the *British Medical Journal* during February and March this year, they are now collated into a book. Among the subjects the authors discuss are wounds of trunk and limbs, blast injuries of the ear, intensive care, and disaster planning. In addition the book includes a bibliography of 30 recent papers on traumatic surgery written by members of the staff of the Royal Victoria Hospital.

THE ROTUNDA HOSPITAL Dublin

The Rotunda Hospital contains 163 maternity beds, 33 gynaecological beds and 51 paediatric beds. Over 5,000 patients are delivered annually in the hospital, and the External Maternity Service attends patients in their own homes.

Our Undergraduate teaching includes the conduct of normal labour, attendance at gynaecological operations and abnormal labour cases, and opportunities for gynaecological examinations. Comprehensive lecture courses are arranged throughout the year and cover clinical obstetrics and gynaecology, pathology and paediatrics. The large ante-natal clinic, which offers comprehensive care, affords excellent opportunities for the study of all aspects of ante-natal obstetrical practice.

There are extensive facilities for postgraduate tuition, consisting of lecture programmes as listed above, together with opportunities for limited participation in clinical work under supervision. Postgraduate courses cater especially for the D.G.O., M.A.O. and L.M. (Rotunda).

Full particulars of all courses are available from the Master, Rotunda Hospital, Dublin 1.

ST. GEORGE'S HOSPITAL MEDICAL SCHOOL

(University of London)
Blackshaw Road, Tooting, SW17 0QT (and at Hyde Park Corner)

St. George's Hospital and Medical School are being rebuilt in South Wandsworth at a cost of over £50 million. The first phase of the new buildings is under construction and due to open in 1976, providing a new preclinical school for an eventual intake of 150 medical students and 64 dental students for the Royal Dental Hospital of London School of Dental Surgery. The Medical School is associated with Chelsea College, which is also being rebuilt on a nearby site. From October 1976, St. George's will offer its own integrated medical course, which will extend over five years leading to the M.B., B.S. degree of the University of London. For the first four years, students will study the scientific basis of medicine; the first two years will include some clinical work and the next two years will consist predominantly of clinical appointments with attachments to wards, outpatient departments and other clinics. In the fifth year, students will study clinical practice and will have an opportunity to undertake electives elsewhere. Up to one third of the students will be allowed to spend an extra year of study, leading to a B.Sc. degree. Special features include a wide range of clinical experience, unusually small firms and a high staff/student ratio.

There are preclinical academic departments of physiology, structural biology, biochemistry and pharmacology and clinical academic departments in medicine, surgery, psychiatry, obstetrics and gynaecology, histopathology, microbiology, chemical pathology, haematology, forensic medicine, clinical epidemiology and social medicine, and child health. A new department of general practice will start within the next two years.

House Appointments: Pre-registration appointments are sufficiently numerous to allow most graduates of the School to hold one appointment within the Group. **Scholarships:** Two Open Scholarships, each to the value of £400 (£100 spread over the preclinical period of training and £300 over the period of clinical training) are open for competition each year. Further information and entry forms can be obtained from the Admissions Secretary.

Recreation: There is an active Students' Club offering a wide range of facilities, four squash courts are available at Tooting and there are extensive playing fields at Wimbledon.

Fees: Annual Composition fee £162, which covers full membership of the Club. A prospectus giving full particulars may be obtained on application to the Admissions Secretary. Applications for entry should be made through the office of the Universities Central Council on Admissions.

UNIVERSITY COLLEGE DUBLIN DEPARTMENT OF PAEDIATRICS

A one month whole-time postgraduate course will commence in the College and its associated hospitals on Monday 20th October, 1975.

The course will fulfil the requirements for the Diploma in Child Health Examination for candidates who have completed the recognised children's hospital appointments.

A five month part-time course will commence in the first week of January, 1976.

As from October 1976 the whole-time course will be of six weeks' duration and will take place twice yearly, in October and January. The last part-time course will take place from January-June, 1976.

Enquiries to the Dean of the Faculty of Medicine, University College, Earlsfort Terrace, Dublin 2. Closing date for receipt of applications Friday, 19 September, 1975. 4

UNIVERSITY OF OXFORD MEDICAL SCHOOL

The University grants the degrees of Bachelor of Medicine and Bachelor of Surgery (B.M., B.Ch.), Master of Surgery (M.Ch.), and Doctor of Medicine (D.M.).

A candidate who wishes to read for the degrees of B.M., B.Ch. must be accepted as a member of a college and must subsequently be matriculated as a member of the University. A candidate for these degrees must also take the B.A. degree in some subject usually the Final Honour School of Physiological Sciences. Application for admission should be made to the Oxford Colleges Admissions Office, 58 Banbury Road, Oxford.

Pre-clinical Course. The pre-clinical course lasts nine terms. The first five terms are spent preparing for the First B.M. examination. After the First B.M. four further terms are spent in the study for a Final Honour School which qualifies for the B.A. degree. Then follows the clinical course. For further information apply to the Medical School Office, 43 Woodstock Road, Oxford.

Clinical Course. The clinical course lasts 34 months. The clinical school is based on the Radcliffe Infirmary, the Churchill Hospital, the new John Radcliffe Hospital and the specialist hospitals in Oxford. There are thirteen University Chairs in clinical subjects in the teaching hospital group and several important Research Units.

The general hospitals associated with the University (over 1,400 beds) serve both as the Area Hospitals and as a Regional Centre. The range of clinical material is exceptional for a teaching hospital and clinical firms are small. The tutorial system continues throughout the clinical course.

The second phase of the new John Radcliffe Hospital is being built and is due to come into commission in 1978. It will contain 450 acute beds and new Medical School accommodation.

Oxler House and its garden adjoin the Radcliffe Infirmary and provide attractive premises for the clinical students' club.

A Prospectus may be obtained on application to the Medical School Office, 43 Woodstock Road, Oxford.

Higher Degrees. The degrees of D.M. and M.Ch. are open to those who have taken the degrees of D.M., B.Ch. at Oxford and to Masters of Arts or Doctors of Philosophy from Oxford who hold the medical qualifying degree of another approved university. The degrees of M.Sc. and D.Phil. are also available. Further information may be obtained from the Director of Postgraduate Medical Education and Training.

Research and Specialist Training. Enquiries may be addressed to the head of the relevant clinical or laboratory department in one of the teaching hospitals or to the Director of Postgraduate Medical Education and Training, 43 Woodstock Road, Oxford. 4

CHARING CROSS HOSPITAL MEDICAL SCHOOL
(University of London)

Winter Session Begins
8th October, 1975

Charing Cross Hospital and its associated Medical School have now completed their move from the site in Central London which they had occupied for the last 150 years into their new premises at Fulham, where the bed complement has expanded to close on 1,000 beds and the Medical School has increased its annual intake from 48 to 120.

Full clinical instruction is available for students proceeding to the degrees of the Universities of Oxford, Cambridge and London, and the total number of beds is sufficient to provide nearly every student with a pre-registration house post upon qualification.

Senior Entrance Scholarships. A number of scholarships are open to members of Oxford and Cambridge Universities wishing to proceed to their clinical studies. These scholarships are awarded on the results of examinations held annually in late June or early July, embracing subjects (1) Anatomy and Physiology or (2) Biochemistry or Pathology. Their annual value is £100 for each of the three years of the clinical period. Many other scholarships, exhibitions and prizes are open to students pursuing their clinical course.

The Pathological Museum, which is subject to continual revision, is designed so as to display exhibits to the greatest advantage. It includes the well-known Lockyer-Collection of Gynaecological and Obstetric Pathology specimens.

The Library is extensive and contains not only a wide range of books for undergraduate and specialist use but also an exceptionally comprehensive section allocated to periodicals.

Student Amenities. A new and spacious building is currently under construction which will contain the Administrative Offices, the Library and the Students Union. In addition there is a first class Sports Ground of 25 acres at Colindale, Surrey and a Hall of Residence at Notting Hill.

All members are entitled to use the new Amenity Centre, which includes squash courts and a swimming pool and the Students Union also comprises a number of student societies both social and professional.

The annual composition fee is £170. Any further information may be obtained from the Dean or the Secretary, Brandenburgh House, Fulham Palace Road, London W6 9HH. Tel: 01-748 2050. Dean: S. J. R. Reynolds, M.A., m.N., B.Ch., D.M.R.C. Secretary: Graham K. Buckley, M.A., F.H.A., F.R.S.H.

LIVERPOOL SCHOOL OF TROPICAL MEDICINE
(Incorporated)

TROPICAL MEDICINE AND HYGIENE
Courses are given twice-yearly for the postgraduate Diploma in Tropical Medicine and Hygiene (D.T.M. & H.) of the University of Liverpool. Courses start in January and September. A non-returnable fee of £50 is charged on acceptance for registration. The total fee for the course, (including fees for examination and Diploma) is £138.

Nurses, sanitary engineers and other qualified health personnel may take the course for the D.T.M. & H. with electives, leading to the Certificate in Tropical Community Medicine and Health. The inclusive fee is £55.50.

MASTER OF COMMUNITY HEALTH
The University of Liverpool has issued Ordinances for the Degree of Master of Community Health. The course lasts 12 months, and, for those taking the Degree in tropical health, includes three months work in a tropical country other than that from which the student may come. It is intended to start the course at the School of Tropical Medicine as from January, 1975.

The fee for the course is £350. To cover the secondment abroad, a further sum of £1,150 is required, payable to the School.

TROPICAL CHILD HEALTH
Courses lasting 18 months are given, leading to the Diploma in Tropical Child Health of the University of Liverpool. The course includes 12 months in-service training in a children's hospital and other clinical services, plus six months in the School of Tropical Medicine. Applicants must possess an acceptable qualification in medicine and must have had at least one year's recognized hospital service in paediatrics. A non-returnable fee of £30 is charged on acceptance for registration. Total fee (including fees for examination and Diploma) is £138.

Courses start in September each year and examinations are held in March. Under special circumstances, applicants with adequate paediatric clinical experience may be allowed to proceed to the Diploma after taking only the six months course in the School.

APPLIED PARASITOLOGY
A course lasting three academic terms is given for graduates in medicine, science or veterinary science, leading to the degree of M.Sc. in Applied Parasitology of the University of Liverpool. Veterinary graduates take special elective to qualify for the M.V.Sc. in Applied Parasitology. The course begins in October each year.

RESEARCH
Opportunities are available for research for higher degrees of the University of Liverpool and in certain circumstances, of other Universities, in all Departments of the School.

For information: Apply to the Dean, Liverpool School of Tropical Medicine, Pembroke Place, Liverpool L3 5QA.

ROYAL COLLEGE OF
SURGEONS IN IRELAND

THE MEDICAL SCHOOL attached to the College offers a complete medical course of six years, including the Pre-registration year in Chemistry, Physics and Biology.
The Student's Union includes a social centre, rugby, sailing, cricket, caving and other clubs.

THE COLLEGE conducts examinations leading to the Fellowship of the College in Surgery, Otolaryngology or Ophthalmology. Fellowships are also awarded in the Faculties of Anaesthetists, Dentistry, Radiologists and Nursing following Primary and Final examinations.

The Primary Fellowship of the College and that of the Faculty of Anaesthetists is reciprocal with the examinations of the other Royal Colleges.

The Primary examination of the Faculty of Dentistry is reciprocal with the examinations of the other Royal Colleges. Candidates for the final examination for the Fellowship of the Faculty of Dentistry may offer Oral Surgery, Orthodontics, Prosthetics, Restorative Dentistry or Public Health Dentistry as the special subject.

The Fellowship of the Faculty of Radiology may be taken in either Radiodiagnosis or Radiotherapy. The Primary Fellowship of this Faculty includes Physics, Pathology, Medicine and Surgery. Fellows of the Faculty of Radiology of London are exempted from the Primary Examination. Holders of the D.M.R.D. and other higher qualifications may be exempted single subjects in the examination.

Postgraduate Education:
1. There are two courses each year for primary fellowship students.

2. There is a postgraduate course in advanced surgery organized with the co-operation of University College and Trinity College. This intensive whole-time course is for candidates preparing for the Fellowship examinations. Early application for places desirable.

Further particulars may be obtained from the Registrar, Royal College of Surgeons in Ireland, 123 St. Stephen's Green, Dublin 2.

St. Charles' Hospital, Exmoor Street W10 6DZ Vocational Training Scheme for General Practice

Applications are invited for a limited number of vacancies which will arise on 1st December, 1975 in this active and demanding Scheme which has been approved by the Department of Health and Social Security and is recognised for the M.R.C.G.P.

Based at St. Charles', a busy acute General Hospital located in an area of great social change, the successful candidates, for whom accommodation will be provided, will be appointed to the Senior House Officer Grade with an annual salary in the range of £3663 — £4152 (excluding allowances) and will receive four weeks leave each year in addition to the usual statutory holidays.

A period of six months will be spent in each of the Departments of **General Medicine, Paediatrics, Geriatrics and Accident and Emergency** during the first two years, followed by placement throughout the third year in a carefully selected general practice in either the North or West London area. Additional clinical assistantship training will be provided in **Venereology, Dermatology, E.N.T. and F.P.A. work.**

The exceptional study facilities offered by St. Charles', including its flourishing postgraduate Medical Centre and fine medical library, will be supplemented throughout the three years by a weekly half-day release course in general practice topics in collaboration with both the Hammersmith and Charing Cross Hospitals. During the final year an additional attachment will be made at a unit specialising in Psychiatry.

Applicants should forward a detailed curriculum vitae with the names and addresses of two referees to the Medical Staffing Officer at St. Charles' Hospital to arrive not later than 17th October, 1975. (46187) 21

The Welsh Vocational Training Scheme
For General Practice
At Bridgend, Glam.

An opportunity exists to take part in a forward looking Vocational Training Scheme for General Practice based on Bridgend General Hospital.

There will be vacancies on the scheme commencing 1st August, 1976.

Bridgend is situated in the very attractive Vale of Glamorgan and the area is such that it will provide a most agreeable home for the single or the family man throughout the three years of the course.

It is the firm intention of the Organisers to provide a stimulating three year course. The appointments commencing in the S.H.O. Grade will consist of (1) Six months in General Medicine (2) Six months in Accident and Emergency Surgery (3) Six months in General Practice (4) Six months in Obstetrics and Gynaecology (5) Six months in Paediatrics (6) a further six months in the same General Practice, with an option for 6 months in Psychiatry.

Special arrangements will be made throughout the Course for experience in E.N.T., Ophthalmology, Psychiatry, Dermatology and other subjects relevant to General Practice.

During the General Practice appointments day release will be given to attend the Vocational Training Course at the General Practice Unit of the Welsh National School of Medicine in Cardiff. The appointments are recognised to qualify candidates for entry to the following examinations — M.R.C.G.P., D.C.H. and D.Obst.R.C.O.G.

Married accommodation may be available. Applications giving full particulars and the names and addresses of two referees should be sent to the District Administrator, Ogwr Health District, Maesteg Road, Tondur, Bridgend, Glamorgan, as soon as possible. (28043) 21

Senior Medical Officer

The Authority has just under 9,000 employees, the great majority in water supply or effluent treatment operations where health and hygiene are of vital importance, both for the employees themselves and the 7 million population for whom these services are provided.

One of the principal tasks of the Senior Medical Officer will be to establish and take charge of an occupational health service, both directly for employees within a convenient distance of the Head Office and through local doctors in other parts of the Region.

The successful candidate will be expected also to contribute, with Authority Scientific Staff, to the evaluation and control of health hazards, epidemiological studies, advice on public water supply standards, and general medical liaison with local authorities and Area Health Authorities.

Relevant qualifications such as a D.P.H. and experience in industrial medicine will be an advantage. The appointment will be in the Directorate of Scientific Services. The Authority at present has a part-time Medical Consultant whose advice on the aspects other than industrial medicine will continue to be available for a limited period after his appointment is made.

Salary — about £11,500 p.a., depending on qualifications and experience.

Barking and Havering Area Health Authority

A WHOLE-TIME OR MAXIMUM PART-TIME

for duties in the Havering District, mainly at Harold Wood Hospital

Harold Wood is an acute General Hospital of 456 beds including a modern 60 bedded Maternity Unit. The five theatres are used by three general surgeons specialising in Gastric, Urological and Arterial cases, one E.N.T. surgeon, and two Orthopaedic surgeons associated with the hospital.

Facilities include a Coronary Care and an ITU and a Cardiac Arrest Team has been in existence for some years. The postgraduate Centre has an excellent medical library and an active programme.

The other hospitals in the District where Surgery takes place are Brentwood District Hospital (62 beds) and High Wood Hospital. (221 beds).

The Consultant will, if he desires, take administrative control of the ITU, and will have six or seven theatre lists including General Surgery, Gynaecology and Orthopaedics. Actual sessions will be arranged with the person appointed. The opportunity to practise Obstetric Epidural Analgesia exists in the Obstetric Department.

All junior posts are recognised for D.A. and F.F.A.R.C.S. The successful candidate must live within ten miles of the main hospital unless specific approval is given by the Regional Health Authority to a greater distance.

Assistance will be given with relocation expenses in accordance with the terms and conditions of service. Arrangements can be made for interested applicants to visit the hospital if they wish, and an informal occasion will be arranged to allow short listed candidates to meet potential future colleagues.

APPOINTMENTS

Applicants for medical appointments are advised to check whether the post advertised is included in the Important Notice and to scrutinize carefully the remuneration and terms of service offered. Any member who is in doubt about these terms in relation to B.M.A. agreements should consult the Secretary of the Association.

Advertisers are reminded that the Race Relations Board insists that no descriptive term implying racial, national, or ethnic characteristics may be used in any advertisement. Further, readers are advised not to apply for any appointment which discriminates between applicants on grounds of creed or sex.

HOSPITAL APPOINTMENTS

Applicants should state names, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given: Canvassing disqualifies (Statutory Instrument, 1974, No. 361).

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters should be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association.

In particular, they will find full details of facilities provided in most hospitals in the United Kingdom in the current edition of the *Hospital Gazetteer*. If such details are not included members are advised to consult the Secretary of the B.M.A.

Applicants requiring hospital married accommodation are strongly advised to obtain, prior to interview, clarification in writing from the employing authority as to whether such accommodation will be available on appointment.

No advertisement may stipulate that a non-resident must live less than 10 miles from a hospital. Advertisements for post-registration house officers, senior house officers and registrars should state clearly whether the post is resident, i.e. compulsorily resident.

In all advertisements grade should be clearly indicated. Normally a consultant vacancy must be advertised as (a) part-time with the number of sessions clearly stated, or (b) whole-time with the option of maximum part-time.

In the view of the BMA, an advertiser should not insist on possession of English higher qualifications in preference to Scottish or Irish qualifications (or vice versa).

SALARY SCALES OF HOSPITAL MEDICAL STAFF

HOUSE OFFICER: Each post in this grade shall be tenable for six months. £2,859 per annum for the posts held during the first year; £3,075 per annum for posts held during the second year; £3,294 per annum for posts held during the third and subsequent years, subject to full registration.

Consultant Physician

WALTON HOSPITAL

(Wholetime or maximum part-time)

This is an appointment essentially in General Medicine with duties concentrated in the main (6 or 7 sessions) at Walton Hospital, Liverpool, but with 3 or 4 sessions at Fazakerley Hospital. A particular interest in Diabetes and Endocrinology would however be an appropriate special interest, but candidates with other specialised interests would not be excluded.

Undergraduate teaching is at present undertaken at Walton Hospital and it is hoped, that subject to University approval, the successful applicant will participate in this teaching.

The successful candidate will be required to reside within ten miles by road from Walton Hospital.

Consultant Physician

FAZAKERLEY HOSPITAL

(Whole-time or maximum part-time)

This is an appointment essentially in General Medicine with duties concentrated in the main (7 or 8 sessions) at Fazakerley Hospital, Liverpool, but with 2 or 3 sessions at Walton Hospital. It is expected that applicants will have a special interest and this they will be encouraged to pursue within the basic remit of providing a general medical service at Fazakerley.

Undergraduate teaching is at present undertaken at Walton Hospital and it is hoped that, subject to University approval, the successful applicant for the Fazakerley post will also participate in this teaching.

The successful candidate will be required to reside within 10 mile by road from Fazakerley Hospital.

A higher qualification is required

Canvassing will disqualify.

Application forms and further information for both the above posts obtainable from the Regional Medical Officer, Wilberforce House, The Strand, Liverpool L2 7RW, to be returned by 17th September, 1975.

Area Health Authority

CONSULTANT PHYSICIAN
IN GERIATRIC AND
GENERAL MEDICINE
(whole-time or maximum part-time)
required in the South Sefton group of hospitals with duties mainly at Fazakerley and Walton Hospitals (total beds 1,690). The successful applicant will join two other consultants with joint appointments to supply a geriatric service for the South Sefton district (population 380,000).
The 60 acute geriatric assessment beds are sited in the new District General Hospital at Fazakerley while supportive beds and a

purpose-built 50 place Day Hospital are situated on the same campus. A further 55 rehabilitation beds are nearing completion in a specially designed unit at Walton Hospital.

General Medical Ward and Out-Patient duties are undertaken at Walton Hospital as part of a fully integrated general medical service and will include emergency admissions of all age groups (except children).

The successful applicant will be expected to devote 7 sessions to Geriatrics and 4 sessions to General Medicine. It is expected that the University of Liverpool by the advice of the Professor of Geriatric Medicine, will offer a suitable candidate an honorary lectureship and involve him in the undergraduate teaching of geriatrics. A higher qualification is essential. The successful candidate will be required to reside within ten miles by road of his main hospital. Canvassing will disqualify.

qualified and experienced registered Medical
Practitioners in the United Kingdom for the
following two posts:

AREA SPECIALIST
COMMUNITY MEDICINE
(Child Health)
AREA SPECIALIST
COMMUNITY MEDICINE
(Health Care Planning)

The salary for each post is £7,536-£10,689 per
annum.

The Child Health Specialist will be a
member of the team of Community Physicians
on the staff of the Area Health Authority, and
will play a leading role in planning and
developing child health services in the Area in
addition to managing a well-staffed team of
clinical and senior medical officers engaged in
community child health work.

The Specialist in Health Care Planning will
be a member of the team of four Community
Physicians on the staff of the Authority, and,
in conjunction with the Area Medical Officer,
will review the medical needs of the Area. In
particular he will be responsible for the
planning of operational health care services in
both primary and secondary systems and will
co-operate with other colleagues to this end;
this will include planning of new health
buildings within the Area.

The successful candidate will be
encouraged to develop any special interests,
for example statistical analysis of health
problems and the application of computers in
the field of community medicine. The doctor
appointed will have medical personnel
functions for junior medical staff employed by
the Area Health Authority.

International Medicine

**Europe
based**

**Age
28 to 35**

**£11,000 to
£15,000+**

This is an appointment that will appeal to a young doctor seeking real scope for personal initiative within a truly international context. It offers:

- **Travel for up to 30% of the time - mainly in Europe, but also overseas.**
- **Strong intellectual interest and challenge within a research environment.**
- **The chance to make a direct personal contribution to medical progress.**
- **An attractive salary, well cushioned against high taxation and inflation.**
- **The opportunity to become fluent in another major European language.**
- **More free time for family and outside pursuits.**

The position is a new and wide-ranging one within the International Division of a young-minded and highly successful pharmaceutical company in Germany. The company is allied to one of Europe's largest research-based organisations, and has grown ten-fold over the last ten years.

The post

The successful candidate's prime role will be to act as adviser and co-ordinator for the company's expanding clinical research programmes in the major European countries *outside* Germany. It will be his job to plan, initiate and evaluate clinical studies on new medicines under development, and to direct and control ongoing medical studies on products already on the market. These activities will involve him in close liaison with health and drug registration authorities throughout Europe.

In addition, the physician appointed will be an important member of the company's international management team. His advice on medical matters will be sought by other managers, giving him the opportunity for a wider involvement in the many and varied activities of the company.

The requirements

Applicants should be physicians in their late 20's or early 30's. They should have *either* existing experience in the pharmaceutical industry *or* an up-to-date knowledge of therapeutic medicine backed by several years' successful postgraduate achievement in a hospital, academic or progressive GP environment. Intellectual horizons, potential and enthusiasm are more important than specific experience to date, as any necessary training will be given. However, a specialist interest in cardiovascular medicine would be particularly appropriate.

Existing knowledge of German is not important as English is the major language for communication within the Group and "crash course" tuition facilities are available for both husband and wife.

The benefits

The position commands an attractive salary with good opportunities for progression. Other benefits include 5-7 weeks' holiday, non-contributory pension, interest-free loan facilities and generous financial assistance with relocation.

If you are seeking a chance to make fuller use of your abilities and experience, please write briefly or 'phone for an application form and more detailed information on the company, the country, the opportunity and the rewards. Your enquiry will be treated in complete confidence.

North Canterbury Hospital Board
Christchurch New Zealand

Diagnostic Radiologist

Applications are invited from suitably qualified registered medical practitioners for this position.

Applicants should possess a postgraduate radiological qualification, be experienced in all aspects of diagnostic radiology, have been medically qualified for not less than eight years and have had least five years' practical experience in radiology.

The successful applicant would be based at either the Christchurch or The Princess Margaret Hospital, which are both teaching institutions. The Christchurch Hospital with approximately 427 beds, is currently being re-built and a large new X-ray Department, which will be comprehensively re-equipped, is due to open in 1976. The Princess Margaret Hospital, with 319 beds, was opened in 1959 and has a well equipped, modern department. All types of special radiological investigations are carried out in these hospitals, including bascular, neuro-radiological and cardiac procedures, bronchography, percutaneous lung biopsies, etc. There is also a highly developed consultation service, including regular meetings and film viewing sessions. Students of the Christchurch Clinical School of the University of Otago receive training in both these hospitals and Radiologists participate in the training of undergraduate medical students. An establishment of five registrars is maintained.

Salary will be in accordance with the New Zealand Hospital Service Determination applicable to Medical Officers on the specialist scale — \$NZ13,102 to \$NZ17,547, plus cost of living order. The commencing salary within this scale will be determined by the Medical Officers Salaries Grading Committee.

The North Canterbury Hospital Board serves a population of approximately 330,000. Christchurch itself has an equitable climate, is close to the sea and within easy reach of the mountains, where skiing and tramping are readily available. It is also noted for its excellent cultural and sporting facilities.

Conditions of Appointment and schedule of duties, together with details of assistance towards travelling expenses which is available, can be obtained from the Chief Executive, NORTH CANTERBURY HOSPITAL BOARD, Christchurch, New Zealand, with whom applications close at 9 a.m. on Wednesday, 1st October, 1975. Applications should contain full details — age, qualifications, experience etc. together with the names and addresses of three referees. Please quote vacancy number 10-174 (A).

Overseas applications should be forwarded by airmail.

Resident Medical Officers

Applications are invited from medical graduates, normally in the 2nd year postgraduation and registered or eligible for registration in South Australia, for 25 resident positions.

There are:

14 positions — 12 months A.C.H. with rosters including medical, surgery, casualty and anaesthetics.

6 positions — 6 months A.C.H. and 6 months Royal Adelaide Hospital.

4 positions — 6 months A.C.H. and 6 months Queen Victoria Hospital.

1 position — 6 months A.C.H. and 6 months Queen Elizabeth Hospital.

ACCREDITATION:

All resident positions at this hospital have full accreditation by the Royal Australasian College of Physicians for basic training in adult or paediatric medicine. Similarly all positions have accreditation from the Australasian College of Surgeons and the Royal Australian College of General Practitioners for basic training.

TRAINING:

There is an active in-service postgraduate training programme under the overall guidance of a committee of graduate studies. Subject to satisfactory staffing arrangements, leave will be granted for participation in the basic training course conducted by the postgraduate committee, University of Adelaide.

CONDITIONS OF SERVICE:

Where possible rosters will be arranged to meet individual demands. It may be necessary to roster member of the Resident Medical Officer staff to a country area for a short term not exceeding three weeks in a twelve months term of office. This would only be necessary if there was a crisis in providing medical staff for the country town. General conditions of service will be similar to those operating within Government hospitals in Adelaide. A document covering the existing conditions is available on request.

SALARY:

According to the ranges determined by the Public Service Board in South Australia. Salaries vary according to hours of rostered duty, and are currently under review.

TERM OF APPOINTMENT:

From Wednesday February 5th, 1976 to February 1st 1977.

MARRIED ACCOMMODATION:

Eight furnished flats for married members of staff are available on the hospital site.

BOARD AND LODGING:

Deducted by the rates prescribed by the R.M.O. Award (at present this charge is \$6.25 p.w. for room only). Meals are charged for separately.

APPLICATION FORMS:

Applications must be submitted on standard forms, which are available from the Medical Superintendent. They will be received until Friday 10 October, 1975, and should be addressed to the:

Medical Superintendent

This is the device for controlling a major IUCDifficulty

Namely the increased and prolonged menstrual
bleeding which often results with the IUCD.

€psikapron[®]

(Epsilon aminocaproic acid)

inhibits the excess fibrinolytic activity of the
endometrium stimulated by the presence of the IUCD.
It is effective within 2 hours of oral administration,
and is prescribed only during menstruation, as it is
when treating heavy periods or menorrhagia.
