talampicillin

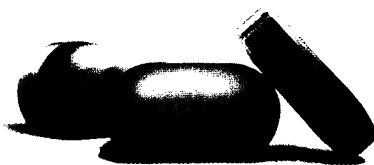

## a major advance on ampicillin

Talpen is particularly well absorbed in comparison to ordinary ampicillin

**Peak blood levels are twice as high  
and are usually achieved in half the time<sup>1</sup>**

**The incidence of diarrhoea is greatly reduced<sup>2</sup>**

**The t.i.d dosage is more convenient.**

Following oral administration, Talpen is particularly well absorbed and rapidly hydrolysed to give high blood levels of ampicillin. Talpen makes more ampicillin available more quickly.

Talpen has proven its reliability over a wide range of infections, including respiratory infections, where it has achieved a 95% success rate.<sup>2</sup> It has also been shown,<sup>2</sup> that with Talpen there is significant reduction in the incidence of diarrhoea, a common and sometimes troublesome occurrence with oral ampicillin.

1. To be published. 2. Br.J.Clin.Pract., 1975, in press.

**Indications:** Typical indications include: Acute and Chronic Bronchitis, Pneumonia, and ENT infections.

**Usual Adult Dosage:** One tablet three times a day.

Each tablet contains 250mg of the ampicillin ester, talampicillin hydrochloride.

**Contra-indication:** Penicillin hypersensitivity.

**Precaution:** Talpen is not recommended for patients with severe renal or hepatic impairment.

**Side-effects:** As with other penicillins. An erythematous rash may occasionally occur, the incidence is particularly high in patients with infectious mononucleosis.

Each 250mg of talampicillin hydrochloride is chemically equivalent to 169mg of ampicillin.

**“Inderal: Britain’s  
most tried and trusted  
Beta Blocker.”**

**How can ICI  
support a claim like that?**

# With ten years of unequalled clinical experience supported by a mass of documented evidence.

Ten years of widespread clinical use and over 5,000 papers published on the many different aspects of the drug indicate that 'Inderal' is the most tried and trusted beta blocker. 'Inderal' has withstood the test of long-term worldwide use and is currently prescribed more often than all other beta blockers put together. Let some of the evidence during the past ten years speak for itself.

“

With the introduction of propranolol ['Inderal'], . . . a new dimension in antianginal, anti-ischemic therapy has been made available.

*American Journal Cardiology*, 1966, 21, 44.

“

Numerous trials have confirmed its effect, and it is the drug of choice for patients who do not respond to conventional methods of treatment.

*British Medical Journal*, 1966, 2, 1311.

”

”

“

. . . propranolol ['Inderal'] counteracts in part an undesirable effect of nitroglycerin, namely tachycardia. This drug combination is easily the most effective and reliable pharmacological means available for increasing exercise capacity in anginal patients.

*Cardiovascular Beta Adrenergic Responses*, 1970, ed. Kasper, Ross & Hall, Los Angeles: University of California Press, p. 200.

”

“

We conclude that propranolol ['Inderal'] produces objective and subjective improvement in unselected angina pectoris patients . . .

*Clinical Pharmacology and Therapeutics*, 1974, 15, 203.

”

“

Of all the beta-blocking drugs which are available, most experience has been gained with propranolol ['Inderal'] . . .

*Update*, 1975, 10, 403.

”

# In the treatment of Angina Pectoris there is no better beta blocker than Inderal.

## **5,000 published papers.**

There are over 5,000 published papers on the many different aspects of 'Inderal' including several hundred clinical trials dealing with its use in angina, hypertension, dysrhythmias, anxiety, thyrotoxicosis and essential tremor. *More papers have been published on 'Inderal' than on all the other beta blockers put together.*

## **1,000,000 patients a day.**

'Inderal' is available in almost every country in the world. It is estimated that worldwide, over 1,000,000 patients a day are being treated with 'Inderal' and that the cumulative clinical experience amounts to the equivalent of 5,000,000 patient years. *There is more clinical experience with 'Inderal' than with all other beta blockers put together.*

## **10 years' worldwide experience.**

'Inderal' was first introduced in the United Kingdom five years ahead of any similar drug. 'Inderal' has withstood the test of long-term worldwide use and is still being prescribed more often than any other beta blocker.

## **Surgery of Violence (1975)**

Injuries caused by explosive weapons may suddenly present a doctor with urgent, unfamiliar problems in the treatment of the victims. The recent experience of surgeons and physicians at the Royal Victoria Hospital, Belfast, has been drawn upon to provide advice on some important aspects of the surgery of violence. First published as a series of articles in the *BMJ* during February and March this year, they are now collated into a book. Among the subjects the authors discuss are wounds of trunk and limbs, blast injuries of the ear, intensive care, and disaster planning. In addition the book includes a bibliography of 30 recent papers on traumatic surgery written by members of the staff of the Royal Victoria Hospital.

Price £1.00 (U.S.A. \$3.00)

## **Cardiovascular Diseases in the Tropics (1974)**

The book presents the present state of knowledge regarding many conditions previously thought to be peculiar to the temperate and developed countries and also deals with those disorders peculiar to the tropical situation. It provides an up-to-date review suitable both for clinical and epidemiological work and for further research into these disorders.

Price £4.50 (U.S.A. \$13.50)

## **Medicine in Old Age (1974)**

The series of twenty two articles published in the *British Medical Journal* throughout the winter have been collected in book form as a convenient source of reference for general practitioners. The emphasis is on remedial mechanisms, and the use that can be made of psychogeriatric and social services in keeping the elderly healthy and relatively independent members of the community.

Price £2.00 (U.S.A. \$6.00)

## **Today's Drugs/3 (1973)**

The third and final volume of the 'Today's Drugs' series, like its predecessors, is based on *BMJ* articles revised and brought up to date by their authors. It deals with respiratory agents, drugs acting on central nervous system, and a miscellaneous group of drugs.

Price £1.25 (U.S.A. \$3.75)

All the more reason for prescribing  
Gaviscon rather than simple antacids.

Gaviscon suppresses gastric

## UNIVERSITY OF NOTTINGHAM

MEDICAL SCHOOL

### CHAIR OF BIOCHEMISTRY

The University of Nottingham invites applications for a second Chair of Biochemistry which has been established in the Department of Biochemistry. Applications from medically qualified and non-medically qualified people will be equally welcome. It is expected that the successful candidate will have interests in research relevant to clinical medicine. The University would be prepared to enter into negotiations with the Nottinghamshire Area Health Authority (Teaching) regarding honorary consultant status or other arrangements should a medically qualified applicant be appointed.

The Department of Biochemistry was established as a foundation department in the new Medical School in 1969 and has moved recently into its newly completed Medical Sciences Building. It is hoped that it will be possible for the headship of the department to rotate between the two professors.

The salary will be within the appropriate Professorial range or membership of F.R.S.U. or U.S.S. as appropriate.

Full particulars of the appointment, together with copies of relevant documents concerning the Medical School, and application forms, may be obtained from the Senior Assistant Registrar, Medical School Faculty Office, University Hospital & Medical School, Clifton Boulevard, Nottingham NG7 2UH. Applications should be returned by 15th November 1975. (28760) 25

Medical School  
Department of Community Health

Applications are invited from medical graduates for a new post of

### SENIOR LECTURER

in the Department of Community Health (Professor R. M. Backett).

Applicants should have experience and/or a higher degree in one or more of the main branches of community medicine. The person appointed will, if appropriately qualified, be awarded an honorary consultant contract within the National Health Service. He or she will have an opportunity to become a member of an active Health Services Research Group with international commitments and funds for epidemiological and medical care research. He or she will also be able to assist in the development of some unusual under and postgraduate teaching including the only honours degree in Community Health in the United Kingdom.

The salary will be on the senior lecturer clinical scale from £7,074 to £8,688 and the initial salary will be dependent upon qualifications, age and experience. If the person appointed is awarded an N.H.S. honorary contract as a community physician the salary will be on the N.H.S. consultant scale.

Other particulars and a form of application may be obtained from the Senior Assistant Registrar, Medical School Faculty Office, University Hospital & Medical School, Clifton Boulevard, Nottingham NG7 2UH to whom completed applications should be returned by 20th October, 1975. (28805) 25

## APPOINTMENTS

Applicants for medical appointments are advised to check whether the post advertised is included in the Important Notice and to scrutinize carefully the remuneration and terms of service offered. Any member who is in doubt about these terms in relation to B.M.A. agreements should consult the Secretary of the Association.

Advertisers are reminded that the Race Relations Board insists that no descriptive term implying racial, national, or ethnic characteristics may be used in any advertisement. Further, readers are advised not to apply for any appointment which discriminates between applicants on grounds of creed or sex.

## HOSPITAL APPOINTMENTS

Applicants should state names, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given: Canvassing disqualifies (Statutory Instrument, 1974, No. 361).

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters should be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association.

In particular, they will find full details of facilities provided in most hospitals in the United Kingdom in the current edition of the *Hospital Gazetteer*. If such details are not included members are advised to consult the Secretary of the B.M.A.

Applicants requiring hospital married accommodation are strongly advised to obtain, prior to interview, clarification in writing from the employing authority as to whether such accommodation will be available on appointment.

No advertisement may stipulate that a non-resident must live less than 10 miles from a hospital. Advertisements for post-registration house officers, senior house officers and registrars should state clearly whether the post is resident, i.e. compulsorily resident.

In all advertisements grade should be clearly indicated. Normally a consultant vacancy must be advertised as (a) part-time with the number of sessions clearly stated, or (b) whole-time with the option of maximum part-time.

In the view of the B.M.A., an advertiser should not insist on possession of English higher qualifications in preference to Scottish or Irish qualifications (or vice versa).

## SALARY SCALES OF HOSPITAL MEDICAL STAFF

**HOUSE OFFICER:** Each post in this grade shall be tenable for six months. £2,859 per annum for the posts held during the first year; £3,075 per annum for posts held during the second year; £3,294 per annum for posts held during the third and subsequent years, subject to full registration.

Deductions of £177 per annum in respect of lodging only for voluntary residence.

**SENIOR HOUSE OFFICER:** £3,663 per annum x £243(1) — £3,906 x £246(1) — £4,152

Deductions of £210 per annum in respect of lodging only for voluntary residence.

**REGISTRAR:** £4,152 per annum x £222(3) — £4,818 x £291(1) — £5,109.

Deductions of £210 per annum for those with remuneration at the first incremental point on the scale and £234 per annum for those on the second and subsequent points will be made in respect of lodging only for voluntary residence.

On assimilation to the scale for Registrars, one increment and one only shall be given for any year or part of a year in excess of two spent previously in the senior house officer grade.

Allowances at rates up to £204 per annum shall be payable to house officers, senior house officers and registrars occupying posts approved for such allowances in peripheral hospitals.

**SENIOR REGISTRAR:** £4,818 x £291(1) — £5,109 x £294(1) — £5,403 x £291(2) — £5,985 x £294(1) — £6,279.

Deductions of £270 per annum in respect of lodging only for voluntary residence.

On assimilation to the salary scale for senior registrars, increments to a maximum of two shall be given for each year or part of a year in excess of three spent previously in the registrar grade.

**MEDICAL ASSISTANT:** £4,548 x £258(4) x £234(1) x £222(9) — £7,812.

Deductions of £210 per annum in respect of lodging only for voluntary residence.

**CONSULTANT:** £7,536 x £786(1) x £789(3) — £10,689.

Deductions of £420 per annum in respect of lodging only for voluntary residence.

**COMPULSORY RESIDENCE:** The Terms and Conditions of Service of Hospital Medical and Dental Staff state:

173. A practitioner who is required as a condition of his appointment to reside in a hospital shall be provided with lodging without charge, except where the practitioner elects to occupy a house, flat or apartment for which a rent is appropriate.

## COMMUNITY MEDICINE
