histamine

what histamine deserves

Histamine deserves the antihistamine that can really take it on. For right away the allergies that thrive on histamine will respond.

Typical examples are havifever, pereppial

Typical examples are hay fever, perennial rhinitis, allergic conjunctivitis and different forms of urticaria.

Hismanal is unique by the strength of its histamine-antagonism.
Without any risk of sedation, its full antihistamine strength can be utilized.

And there is no weakening during the 24 hour dosing interval, so that the symptoms won't get a chance to cause untimely trouble.

Hismanal

(astemizole

The antihistamine of exceptional strength.

Effective from the first to the last day of therapy.
