Medicine & Global Survival

EDITOR: JENNIFER LEANING, M.D.

Medicine and Global Survival is a new international journal to be launched in March 1994. This journal, previously published as The PSR Quarterly will be published by the BMJ Publishing Group. Medicine and Global Survival looks at major catastrophic issues of our time from the physicians' perspective. It discusses the role of medicine and public health in determining and changing the ways in which our societies respond to these serious challenges to global survival.

The journal aims to enlist physicians and other professionals in a truly international analysis of major issues relating to:

- war
- civil conflict
- disaster
- the environment
- public health and development
- human rights

AUDIT IN ACTION

From a minority interest to an integral part of good medical practice, audit has come a long way. *Audit in Action* traces this development in a selection of articles originally published in the *BMJ*. Topics range from practical aspects of starting to audit to the wider aspects of achieving quality based on experience in the United States and Europe. The contributors are leaders in or experienced practitioners of audit. Covering audit both in hospitals and in general practice, *Audit in Action* is valuable reading for all those concerned to improve the quality of health care.

Also available from major medical booksellers including the BMJ bookshop in BMA House.

BMJ

Mr. President, Mr. Secretary-General,

Is your Association or Society realizing its Full Potential?

Is it being held back by a lack of sound administrative and organizational support?

Association Management Services is a skilled team of association managers located in Geneva, Switzerland, with many successful years of specialized national and international medical association management.

Now A.M.S. has the capacity to operate the *Permanent Secretariat* or *International Liaison Office* of your Association or Society.

Our dynamic team of specialists is there to help you:

- better achieve existing goals and expand future horizons
- streamline membership and dues-collecting activities and improve services
- strengthen your recruitment programme
- take responsibility for meeting planning and organization
- publicise and expand attendance at courses, seminars and conferences using its unique medical address database
- implement or enhance a publications programme through its advanced inhouse desk-top publishing resources
- institute fund-raising programmes to enhance financial resources
- upgrade accounting, financial control and reporting

To learn how we can work with you to devise and implement a successful strategy for your association or society, contact:

*Association Management Services (AMS), B.&D. Reed
Case Postale 284, 1233 Bernex, Geneva, Switzerland.

CHILDHOOD CANCER AND NUCLEAR INSTALLATIONS

Edited by **Valerie Beral, Eve Roman & Martin Bobrow**

Ever since a television programme in 1983 on the people of Windscale (Sellafield) revealed an unusually high incidence of cancer in children researchers have been attempting to uncover the reason for the clusters. None of the studies to date has caused such a stir as that led by Martin Gardner in Sellafield, published by *BMJ* in 1990, which found a statistical link between fathers' exposure to radiation and the incidence of leukaemia among their children.

As a result of the Gardner report more studies were set up, many of which have also been published in *BMJ*, but none as yet has confirmed the findings. In fact, different

associations have been found near other plants and new theories that challenge any link at all between the clusters and radiation have been put forward.

Childhood Cancer and Nuclear Installations tells the story from the beginning to the present day, with a lively commentary by three of the major contributors to the debate, and reproduces the key papers, commentaries, and correspondence from the UK and abroad, along with extracts from reports produced by official bodies set up to monitor the problem. This book, which is dedicated to the late Martin Gardner, is a lasting document of the first ten years of the story.
