## Medicine & Global Survival

EDITOR: JENNIFER LEANING, M.D.

Medicine and Global Survival is a new international journal to be launched in March 1994. This journal, previously published as The PSR Quarterly will be published by the BMJ Publishing Group. Medicine and Global Survival looks at major catastrophic issues of our time from the physicians' perspective. It discusses the role of medicine and public health in determining and changing the ways in which our societies respond to these serious challenges to global survival.

The journal aims to enlist physicians and other professionals in a truly international analysis of major issues relating to:

- war
- civil conflict
- disaster
- the environment
- public health and development
- human rights

# ABC OF SLEEP DISORDERS

Edited by  
**Colin M Shapiro**

Everyone knows the importance of a good night's sleep - when our sleep routine is disrupted we are unable to perform effectively. As many as one in seven people in the West have a long term sleep disorder. The general and specific effects of disorders such as insomnia and sleep apnoea present an enormous problem for society.

The *ABC of Sleep Disorders* describes what is known about sleep and sleep disorders. It will help doctors recognise the presence of a sleep related problem; investigate the cause; and offer practical management.

#### TOPICS INCLUDE:

- Function of sleep
- Insomnia
- Daytime sleepiness
- Sleep apnoea
- Circadian rhythms
- Dreams and medical illness
- Medicolegal aspects.

The importance of sleep disorders is being increasingly recognised by doctors and governments. Better treatment and advice will improve the physical, psychological, and social wellbeing of many people.

Here is a comprehensive guide to the subject that will be invaluable to GPs, hospital doctors, psychiatrists, medical students, and anyone who needs to know about the causes and effects of disrupted sleep.
