

Indispensables

Certain things are *basic* . . . The books, for instance. You may not take them down every day, but you *know* them. Sound, fundamental.

You know Aspellin, too. A really effective, economical treatment for rheumatic conditions and muscular trauma—a spirit-based liniment containing Acid Acetylsalicylic to relieve symptomatic pain *rapidly*, and Methyl Salicylate, with Menthol and Camphor, to reduce inflammation and muscle tension.

Rheumatism sufferers can only obtain Aspellin if you prescribe it. Aspellin is *only* obtainable on prescription. Cost: 10½d. per oz.

ASPELLIN—indicated in the treatment of acute rheumatic conditions, sciatica, lumbago, fibrositis, muscular trauma.

'You and a few friends could create your own Lotus Elan in less than a week-end of simple constructive pleasure. I did.'

says Dr. Robertson

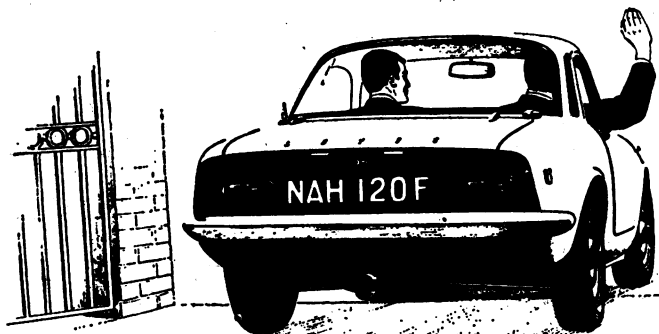

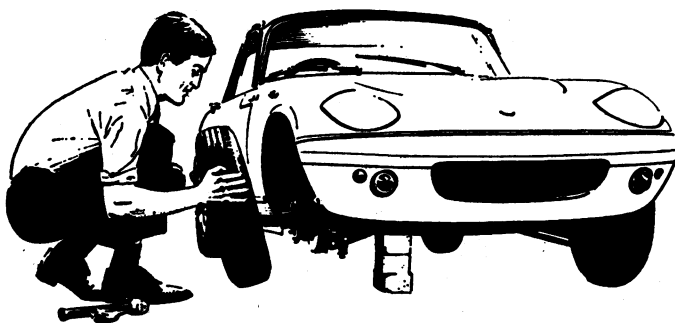

"The body-chassis unit arrived fully trimmed and painted with all electrical components, wiring, steering, brake pipes etc. already assembled ...

"Placing the car on trestles we found that the assembly of the front and rear suspension was quite simple. In went the propeller shaft and drive shafts and it was time for lunch ...

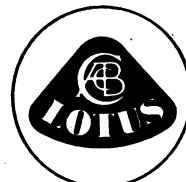

"We fitted the engine and gearbox with the aid of a light-weight pulley and chain. Then in went the radiator, exhaust system and all the main connections were checked. Then it was time for dinner ...

"On Sunday morning we fitted the number plate, checked the tyre pressures, filled up with oil, petrol and water and were driving down to the local by opening time."

Why Penbritin is so powerful against bronchitis

Many organisms, including pneumococci, streptococci, *H. influenzae* and staphylococci can cause the different types of bronchitis. It is therefore imperative to use an antibiotic which is active against **all** of them, because in General Practice treatment often has to begin before the causative organism can be identified. Penbritin's activity covers all the penicillin-sensitive Gram-positive organisms, and Gram-negative organisms as well.

Penbritin is bactericidal. Unlike most other broad-spectrum antibiotics which merely inhibit the growth of the offending organisms, Penbritin **kills** them. This is a positive advantage in the treatment of any patient – and virtually essential when treating young children, the old and those whose natural defences are inadequate.

Penbritin has all the safety of a penicillin. It is free from dangerous or permanent side-effects*. . . of special interest in the treatment of children.

Penbritin's broad spectrum, bactericidal action

and comparative safety – and the fact that its success in bronchitis is endorsed by many world references – establish it as a powerful force in the fight against bronchitis.

Penbritin is also highly effective in other respiratory tract infections including: Sinusitis Pharyngitis · Laryngitis · Tonsillitis · Pneumonia.

Availability: Penbritin (ampicillin B.P.)

Paediatric Tablets containing 125 mg.

Capsules 250 and 500 mg.

Syrup 125 mg./5 ml. teaspoonful.

Syrup Forte 250 mg./5 ml. teaspoonful.

I.M. Injections 100 mg., 250 mg., 500 mg.

Dosage:

Children under 2 years: 62.5–125 mg. four times daily, before meals.

2–10 years: 125–250 mg. four times daily, before meals.

Adults: 250 mg. four times daily, before meals.

In severe infections these doses may be increased or Penbritin may be given by injection.

* Contra-indication: Penicillin allergy. Side-effects: As with other penicillins.

When the soma reflects the psyche in the asthmatic patient...

When the psyche reflects the soma in the chronic bronchitic patient...

Alupent - Sed[®]

is a rational treatment.

Each tablet of Alupent-Sed contains:
20 mg. of orciprenaline sulphate
20 mg. of amylobarbitone.

This combination ensures that the patient receives the optimum dose of Alupent to relieve the wheezing and sufficient sedation to relieve anxiety.

Dosage:

Adult—1 tablet of Alupent-Sed four times daily.

Children 6-12 years— $\frac{1}{2}$ tablet Alupent-Sed 3-4 times daily.

Contra-indications:

Alupent-Sed should not be given to patients with thyrotoxicosis. Alupent-Sed should not be given to patients who have a known idiosyncrasy to barbiturates, or a condition in which barbiturates are contra-indicated.

Caution:

In view of the known interaction between sympathomimetic amines and monoamine oxidase inhibitors, care should be exercised if it is proposed to administer an MAO inhibitor concurrently with Alupent-Sed.

Obstetrics for the Family Doctor

David Brown

A book written for the busy G.P. containing specific answers to his obstetric problems. The author's principal aim has been to give one good, safe and reliable answer to each problem and the result is a sound workmanlike manual of obstetric practice.

"Based on sound clinical and teaching practices, this book is certain to be popular with family doctors, and those consultants who plan courses for general-practitioner obstetricians will find it most useful." *British Medical Journal*.

The United States Dispensatory

Edited by A. Osol, PhD, LID, R. Pratt, PhD and M. D. Altschule, MD

This world famous pharmaceutical reference book has now been in existence for 133 years. It is now more comprehensive than ever before and includes the whole range of medicines at present in use. This new edition has been redesigned in appearance to make it easier to handle and read. It also employs a single alphabetical list rather than the double one used in the last edition, and there is a series of articles on pharmaceutical groups written by experts. The 26th edition of the U.S.D. is an obvious choice for any good medical library.

A Manual of Abdominal Operations

R. M. Kirk, MS, FRCS

This book has been written to provide a compact and low-priced manual of operative surgery of the abdomen. The author has aimed the material principally at the surgeon commencing his career and preparing for higher qualifications. Beginning with fundamental principles and progressing to the complicated operation, he shows that the inexperienced surgeon can apply the basic techniques and principles to deal with a surgical condition.

Principles of X-Ray Diagnosis

By David H. Trapnell, MA, MD, MRCP, FFR, DMRD

This book is primarily intended for those who have just begun a full-time course in radiology, and it will act as an introduction to the system of observation and deduction by which a radiologist makes his diagnosis from radiographs. It will also be of value to candidates for such postgraduate qualifications as the MRCP and the FRCS, and senior medical students who wish to understand the principles that lie behind diagnostic radiology without getting bogged down by descriptive details.

Blood Coagulation Simplified

By F. Nour-Eldin, PhD, MB, BCh, LMSSA, MCPATH

This is a valuable book for undergraduate and postgraduate students in both medicine and technology as well as for laboratories already engaged in routine blood coagulation tests. It should also prove a useful handbook for general practitioners.

172 pages illustrated, soft cover 25s.

Progress in Medicinal Chemistry-5

Edited by G. P. Ellis, BSc, PhD, FRIC, and G. B. West, BPharm, DSc, PhD

This is the fifth volume in the series which describes the rapid advance of the frontiers of the medicinal sciences and records the progressively better drugs and procedures now available. Each volume contains reviews on a wide variety of topics of interest to the medicinal chemist, pharmacist, biochemist, pharmacologist, toxicologist and clinician.

Principles of Head and Neck Surgery

By H. Robert Freund, MD

This is an authoritative new text which provides essential information on head and neck surgery. The author presents step-by-step instructions for carefully selected operative techniques along with a detailed discussion of underlying principles. In addition to his own material, the author includes contributions by leading authorities on various methods of examination and treatment.

Lincocin penetrates... experimentally demonstrated in human tissue

Forty minutes prior to undergoing tonsillectomy, a child weighing 64 lb. received a single i.m. injection of 5 mg./lb. lincomycin hydrochloride (base equivalent). A sample of the patient's tonsil tissue was placed on a petri dish in which the agar had previously been seeded with a pathogenic strain of *Streptococcus haemolyticus*. After incubation, the adjacent photograph was taken. The clear zone demonstrates that Lincocin penetrated the human tonsil tissue in a concentration sufficient to inhibit the growth of the pathogenic inoculum. (Mepenzolate bromide)

For the Colon

Cantil effectively relieves pain due to colonic spasm in irritable colon, spastic colitis and diverticulitis. It counteracts colonic hypermotility in acute and chronic non-specific diarrhoeas, mucous colitis and ulcerative colitis.

SIDE EFFECTS have only rarely been observed. The selective actions of all three products—*fully supported by extensive clinical trials*—have been found to provide a high degree of therapeutic efficacy with almost complete freedom from the side effects commonly attributable to anticholinergic drugs.

CONTRA-INDICATIONS—Piptal, Dactil and Cantil are contra-indicated in glaucoma and should be used with caution in prostatic hypertrophy.

successfully
in the long-
term treatment
of gout

'Benemid' increases uric acid excretion and thereby significantly decreases serum uric acid concentration. The incidence and severity of acute attacks may therefore be reduced and in time they may cease. In addition, new tophus formation is minimised and old tophi may be resolved.

'Benemid' is available as tablets containing 0.5 G probenecid BP. Detailed information is available to physicians on request.

Even the wrapper typifies the convenience of Tampax tampons

Women dislike fumbling with cumbersome menstrual protection devices. At a time when nerves are already on edge, difficulties seem to magnify with the pin-pad-belt routine. The Tampax tampon, on the other hand, is immediately available for instant use—merely pull the handy tear-thread in the linen-paper wrapper and there it is, ready for simple, efficient insertion into the vagina.

This wrapper has hygienic importance, too. Not only does it assure complete cleanliness, but it enables the user to carry spares in her handbag, or special Tampax purse container, with assurance that they will remain hygienic right up to the moment of need.

Your patients will welcome the tidy convenience of this product and will soon recognize, as have millions of other women around the world, its many other advantages. With Tampax tampons, the problem of menstrual odour is virtually eliminated. They are disposable by flushing away, as are the container-applicator tubes, so necessary for correct and easy insertion. Bathing and showering are made aesthetically possible. Even sitting and walking are more comfortable.

If you have patients who are having psychological or emotional difficulties over menstruation, perhaps you can ease their problems by recommending the Tampax tampon. Its use, comfortable and practical as it is, can improve a woman's or girl's whole attitude toward the complex of menstruation.

Available in Regular and Super absorbencies to meet the varying needs during the menstrual period.

Isn't it time
we had a truly
specific
peripheral
vasodilator?

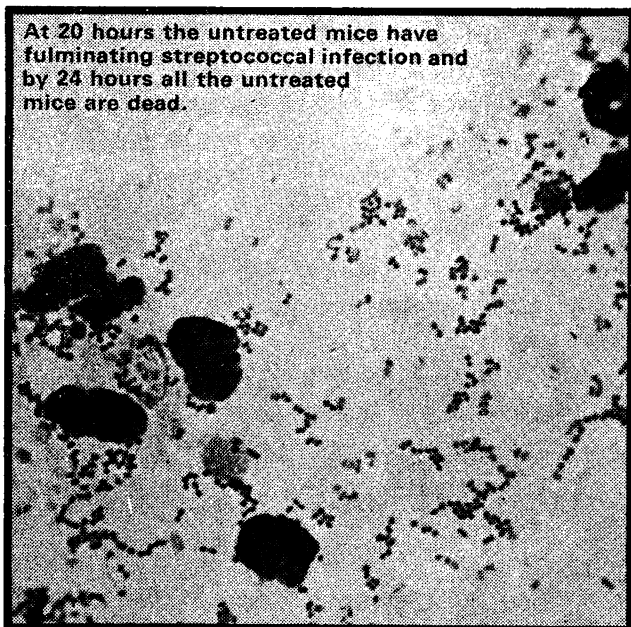

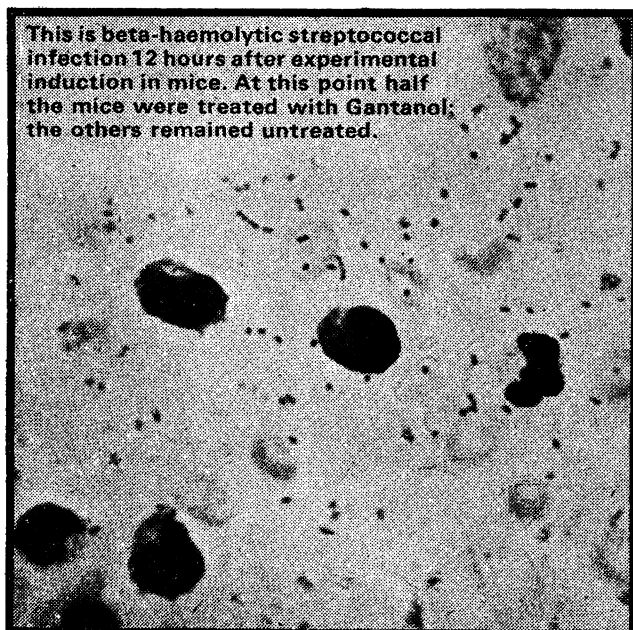

Opilon

Such peripheral vascular disorders as Raynaud's phenomenon, chilblains, acrocyanosis or excessively cold hands and feet have always been difficult to treat decisively. Now the introduction of OPILON gives the physician specific therapy for such conditions – because OPILON blocks the vasoconstrictor effect of noradrenaline in the arterioles of the skin. Unlike other vasodilators, OPILON does not alter blood flow to skeletal muscle; and because it is solely an alpha-adrenergic receptor blocking agent it cannot directly affect the heart or general circulation. When skin ischaemia is the cause of the complaint, OPILON reliably restores circulation.

OPILON is available as tablets of thymoxamine 40 mg., in bottles of 50 and 250. Basic NHS cost 18/- for 50 tablets, 84/- for 250 tablets. **Dosage:** One 40 mg. tablet four times a day, preferably at 8 a.m., 11 a.m., 2 p.m. and 5 p.m. **Side-effects:** Occasionally mild nausea, diarrhoea, vertigo, headache and facial flushing may be encountered. These are rare, however, and transient. No serious toxic effects have been reported and the development of tolerance has not been observed. **Contra-indications:** None is known. Full information and literature will gladly be sent on request.

a first-class
prescription for
a sick Doctor

It is commonly said that good doctors are bad patients. And more than three-quarters of a century's experience with the medical and dental professions has convinced us that the statement is very often true. A sick doctor is nearly always a worried doctor. Not because of the nature of his illness, but because of the loss of income it may entail.

But we have a specific for this kind of thing. By taking a Sickness and Accident Insurance with us, a doctor can be certain of receiving a substantial part of his normal income whenever he is incapacitated by illness or accident. Further, there is absolutely no limit to the number of claims he may make up to the age of 65.

This is just one example of the many policies we have designed specially for doctors and dentists. And since the Society is wholly owned by the policy holders all the profits belong to them and are distributed by bonus declaration every three years.

If you are eligible to join the Society you should be sharing these profits. So why not write to us for further details? There are separate brochures for Sickness and Accident; Educational; Life; Personal Pension; Family Income; Provision for Estate Duty; Car Hire Purchase.

We shall be pleased to send one or more of these at your request. When writing quote ref: No. 001.

OPENS AIRWAYS IN SECONDS

From the moment the asthmatic patient begins to fight for breath, only seconds need elapse before the onset of relief—with *Medihaler-iso* Forte.

Reports repeatedly confirm that *Medihaler-iso* Forte places rapid profound relief within easy reach of the patient. In one trial, mean expiratory flow rate of 24 patients had improved 47 per cent three to five minutes after inhalation—18 per cent higher than the next best preparation¹. In another trial,

Medihaler-iso Forte was the fastest-acting of six pocket aerosols². In yet another trial³, a single inhalation from *Medihaler-iso* Forte had greater effect than 5 mg. of isoprenaline inhaled over three minutes from an oxygen powered nebuliser³.

Simple to operate, compact to carry, giving profound relief from a minute dose, *Medihaler-iso* Forte opens airways in seconds when the fight for breath is on.

1. Brit. Med. J. (1966) 1:1014. 2. Rev. Inst. Hyg. Mines (Belgium) 1965 20(3): 170. 3. Brit. J. Dis. Chest (1964) 57: 140.

Medihaler-iso Forte contains a suspension of Isoprenaline Sulphate B.P. 20 mg./ml. and delivers 0.4 mg. per dose.

Dosage: *Medihaler-iso* Forte delivers a full strength dose which should be sufficient to provide relief in most cases.

Caution: Isoprenaline is well tolerated by most patients. However, it should be used with caution in the presence of impaired cardiac

function, hyperthyroidism and severe hypertension. Isoprenaline is a potent agent. The smallest dosage of it which provides relief should not be exceeded.

Basic NHS prices: 400-dose complete unit 17/-

ALCOHOL & ROAD TRAFFIC

PROCEEDINGS OF THE
THIRD INTERNATIONAL CONFERENCE
ON ALCOHOL AND ROAD TRAFFIC
HELD UNDER THE AUSPICES OF
THE *BRITISH MEDICAL ASSOCIATION* IN
SEPTEMBER 1962

AN IMPORTANT REFERENCE BOOK for police surgeons, lawyers, forensic scientists, police officers, criminologists, doctors, sociologists, psychologists, insurance offices, analytical chemists and others whose work brings them into contact with the problem of alcohol and road traffic.

In September 1962, the world's leading authorities met together in London to discuss problems of alcohol and road traffic. The 56 papers which were presented at this conference, the subsequent discussions, and the reports of nine special working parties set up to discuss particular issues, have been collected together in these proceedings to form the most comprehensive and authoritative statement available on this important and topical subject.

The proceedings contain the most up-to-date information on the relation of alcohol, tranquillizers and other drugs to road accidents, the role of alcoholism, the most recent chemical methods of detection including breath analysis, A.D.H. and gas chromatography, police procedure with drinking drivers, and presentation of evidence in courts of law.

INDUSTRIAL APPOINTMENTS

Attention is drawn to the British Medical Association's statement of policy on the Remuneration of Industrial Medical Officers as approved by the Representative Body, 1963, which is available on request from the Secretary.

**ASSISTANT
MEDICAL
OFFICER**

The Air Corporations Joint Medical Service is financed by BEA and BOAC and provides the two Airlines with a complete Occupational Health Service; its Sections deal with Industrial Medicine, Aviation Medicine and the Care of Overseas Staff.

This Assistant Medical Officer will be a member of a team of Occupational Health Specialists based at Heathrow Airport, and the position offers a challenging and worth-while career in industrial medicine.

Candidates must be medically registered in the United Kingdom and should be in possession of the Diploma in Industrial Health and/or the Diploma of Public Health. Good experience, either in Industrial Medicine or the Armed Services, is essential.

The salary will be in accordance with the BMA scales and the starting point will be fixed according to age, qualifications and experience. There are opportunities for overseas holiday travel and there is an excellent contributory pension scheme.

Application forms may be obtained from:

Manager Selection Services (B.M.J.)**BOAC****Heathrow Airport—London****Hounslow, Middlesex**

and should be returned with a photograph by January 10, 1968.

(25124)

**Senior Industrial Medical Officer**

Applications are invited from registered medical practitioners for a full-time Senior Industrial Medical Officer's appointment in the Greater London area.

The successful candidate will be responsible for the health supervision of a number of factories of a Unilever Company engaged in food production. The scope of the work will include among other things:

1. Advice to management concerning the physical and mental well-being of the working communities.
2. Assessment of, and advice on, environmental working conditions.
3. Pre-employment and other forms of medical examination.
4. Overall responsibility for the medical services in the various units of this company.

Candidates should have a good standard of clinical medicine and an interest in all aspects of preventive and occupational medicine. Previous experience in general practice and/or occupational medicine would be an advantage.

Salary will be in accordance with experience, qualifications and age, and will be not less than that set out in the B.M.A. scale. A car will be provided.

The list of those invited to attend for interview will be made out from the letters of application. The names of three persons to whom reference may be made should be included.

Applications should be submitted to the Principal Medical Adviser, Unilever House, Blackfriars, London E.C.4.

KINGSWOOD TRAINING AND CLASSIFYING SCHOOLS

Applications are invited for a

VISITING PSYCHIATRIST

at these schools, which consist of a Classifying School where approximately 1,000 newly committed approved school boys per year are observed and assessed prior to allocation to training approved schools; a Training School which has three house groups each of up to 35 boys, one of which is being run as a shared responsibility therapeutic community; and a Special Unit catering for up to 20 boys who have posed severe problems in other approved schools through persistent absconding, disruptive behaviour, or have exhibited other severe behaviour problems.

The work could be divided between two or more psychiatrists who should preferably have had experience with children and if possible in forensic psychiatry. Fees according to Min. of Health/B.M.A. agreements. Kingswood needs an average of 7½ sessions p.w.: similar work is available elsewhere in the Bristol area.

The total professional staff of the schools is in the region of 70: there are 4 psychologists, a research officer, a P.S.W. and other social workers: the psychiatrist appointed would provide liaison between them and other staff: he would co-ordinate his work with a psychiatrist who teaches at the University and who attends the United Bristol Hospitals and Child Guidance Clinic at Bristol, and who already spends 4½ sessions p.w. at the Schools.

Boys stay in the Classifying School for approximately three weeks: the work there will consist of 2 sessions p.w. for diagnostic interviews with disturbed adolescents in order that the psychiatrist may make recommendations for their further treatment. In the Training School, where boys stay on average for about 16 months, 4 sessions p.w. are required for counselling of staff, psychiatric oversight in connection with the therapeutic community and individual psychotherapy and psychiatric oversight with individual boys. In the Special Unit, where boys stay between 6 months and 3 years, an average of 1½ sessions p.w. is needed for individual psychotherapy and liaison with the present consultant psychiatrist, who already gives 1½ sessions p.w. at this Unit and 3 sessions p.w. at the Classifying School.

Further information from the Principal, Kingswood Training and Classifying Schools, Kenford Road, Kingswood, Bristol, Tel.: Bristol 672257, to whom applications should be addressed. (H.5676)

Ovulen , the most widely prescribed oral contraceptive in Britain today.

Doctor experience The physician finds Ovulen 1 mg. not only an effective contraceptive, but also one which is very well tolerated. More prescriptions are written for Ovulen 1 mg. than for any other oral contraceptive in Britain.

Clinical experience Ovulen 1 mg. was subjected to extensive clinical trials in 2,500 women before it was made commercially available. Today, more than 16,000 women have been involved in clinical trials for over 190,000 cycles of experience.

Patient experience The acceptability of Ovulen 1 mg. is, of course, an important reason for its wide usage. Today millions of women in Britain and overseas use this low dose oral contraceptive.

Company experience Searle's experience in oral contraception is well known. In the 14 years since Searle developed the first oral contraceptive, its products have been used by many millions of women. Ovulen 1 mg is widely used in national family planning programmes throughout the world and in routine clinical practice.

Ovulen is a Trade Mark*

What has apparently received little publicity and certainly very much less than it deserves is the potential of the method (oral contraception) for the production of highly desirable and pleasant side-effects, such as the heartening degree of personal happiness that seems to come to the patient, presumably from the confidence in the future that the method affords. I have also been favourably impressed by how readily and effectively this sense of happiness and confidence extends to other members of the family, husband and existing children . . .

or telephone GROsvenor 5921 for an application form

No details of candidates will be passed to clients without permission

One of the world's leading ethical pharmaceutical manufacturers with a fine record of international clinical research, wishes to appoint an International Medical Adviser to its research headquarters set in ideal surroundings in the BELGIAN countryside near Antwerp.

The reputation of the company has been built on world-wide acceptance of its range of ethical products, originated in its ultra modern laboratories. This NEW appointment is the result of the continuous planned expansion of the company's international team of doctors and scientists and will be a challenge to a young medical practitioner of all-round high standards of performance, who is capable of considerable personal development. The man appointed is likely to be in his 30's and will be a Registered Medical Practitioner. Good post-graduate clinical experience is important, ideally in psychiatric medicine, cardiology, neurology or general medicine.

It is desirable but not essential that candidates have some experience of the pharmaceutical industry, and experience of the supervision of clinical trials, and of dealing with drug registration authorities would be especially valuable. Candidates must have a marked aptitude for working with clinicians of various nationalities, plus proven ability for liaison work.

The International Medical Adviser will be responsible for assisting doctors who are carrying out clinical research programmes in various parts of the world—especially Europe, as well as maintaining liaison with the appropriate authorities concerned with drug registration. He will also act as Medical Adviser to major international licensees as well as the company's own commercial and marketing departments.

This appointment is of major importance and calls for an exceptional blend of medical and personal skills, as well as a desire to see something of many countries and understand their people.

Starting salary will not be less than £5,000 and could be considerably more for someone with an outstanding record. Conditions of service are unusually good and promotion opportunities exist in several directions.

Greymouth, N.Z.**SPECIALIST PHYSICIANS**
LOCUM TENENS SPECIALIST

The Board's Senior Full-time Physician is to serve in Vietnam for six months from early January and a locum tenens is urgently required. A higher qualification and experience in general medicine is essential. Salary will be equivalent to the new Specialist scale according to seniority, i.e., at present NZ\$5,700/NZ\$7,630 and from April 1, 1968—NZ\$6,000/NZ\$8,100, or, if the applicant's qualifications warrant a rate in excess of these maxima, a matter for negotiation between the Board and the applicant.

SPECIALIST PHYSICIAN (Full-time)
There is a vacancy for a full-time Physician of Specialist status. The applicant should be qualified eight years, have a higher qualification in medicine and have had five years' experience as a Physician. The appointee, in conjunction with the Senior Full-time Physician will provide the bulk of the Specialist service in medicine for the west coast region. The salary will be at present NZ\$5,700 by 10 annual increments to NZ\$7,630, but from April 1, 1968—NZ\$6,000/NZ\$8,100.

Applicants of greater experience may be appointed at an initial salary higher than the commencing level.

Substantial assistance is payable towards transport of successful applicant and his family to New Zealand.

Note: Applications may be made for either or both these positions. For further information about either post apply to the Surgeon Superintendent, Grey Hospital, Greymouth. (H.4301)

THE ROYAL MELBOURNE HOSPITAL

Applications invited from suitably qualified medical practitioners for appointment as:

ASSISTANT CARDIAC SURGEON
(Half-time)

Duties will include assisting in pre-operative and post-operative management of patients undergoing open heart surgery. The facilities of the surgical research department are available for research activities in cardiac surgery.

Appointment in the first instance will be for a period of twelve months commencing by arrangement with the Medical Superintendent, and the appointee will be eligible for reappointment.

Salary for the first twelve months will be financed by a grant from the Sunshine Foundation.

Conditions of appointment and salary within the range of \$3,399 to \$4,133 per annum (Australian currency) in accordance with qualifications, experience, and the provisions of the Medical Salaries Committee Report for an Assistant Specialist.

Applications on prescribed form obtainable from the undersigned close on January 19, 1968.

ST. ANDREW'S HOSPITAL NORTHAMPTON

President:
Lieutenant-Colonel J. Chandos-Pole, O.B.E.

Medical Director:
James Harper, M.B., F.R.C.P.(Edin.), D.P.M.

This private hospital receives patients, both
male and female, suffering from nervous and
mental disorders, including alcoholism and
senile illness. The fees range from twenty
guineas per week. Private rooms with
special nurses can be provided, either in the
hospital or in one of the villas in the
grounds. The hospital is situated in 130
acres of pleasant grounds which provide all
recreational facilities. These include a nine-
hole golf course, sports ground, tennis
courts, etc. A recreation and occupation
centre, known as Gloucester House, has been
opened recently, which includes an occupa-
tional therapy department, a swimming pool,
a squash court and a library with an adjoining
reading room.

WANTAGE HOUSE
This is a separate reception unit to which
patients may be admitted. It is equipped
for the complete investigation of nervous and
mental disorders by the most modern
methods. All forms of treatment are avail-
able. Charges for treatment at St. Andrew's are
allowable for benefit to British United Pro-
vident Association and Private Patients Plan
subscribers.

For terms and further particulars apply
to the Medical Director (Telephone No.
34354 Northampton) who can be seen in
London by appointment.
