ALCOHOL & ROAD TRAFFIC

PROCEEDINGS OF THE
THIRD INTERNATIONAL CONFERENCE
ON ALCOHOL AND ROAD TRAFFIC
HELD UNDER THE AUSPICES OF
THE BRITISH MEDICAL ASSOCIATION IN
SEPTEMBER 1962

AN IMPORTANT REFERENCE BOOK for police surgeons, lawyers, forensic scientists, police officers, criminologists, doctors, sociologists, psychologists, insurance offices, analytical chemists and others whose work brings them into contact with the problem of alcohol and road traffic.

In September 1962, the world's leading authorities met together in London to discuss problems of alcohol and road traffic. The 56 papers which were presented at this conference, the subsequent discussions, and the reports of nine special working parties set up to discuss particular issues, have been collected together in these proceedings to form the most comprehensive and authoritative statement available on this important and topical subject.

The proceedings contain the most up-to-date information on the relation of alcohol, tranquillizers and other drugs to road accidents, the role of alcoholism, the most recent chemical methods of detection including breath analysis, A.D.H. and gas chromatography, police procedure with drinking drivers, and presentation of evidence in courts of law.

LEPETIT S.p.A. MILAN - ITALY ANTIBIOTICS, CORTICOSTEROIDS, PSYCHO-DRUGS, VITAMINS

During the past 50 years, modern pharmacology has given medicine more drugs than in the past 5000 years.

This is the result of scientific research, the yardstick used to measure the importance of a pharmaceutical company. The activity of Lepetit research-workers, starting way back in 1903 with the preparation of Almateine (tetramethylenhematoxylin), which was patented in the United States and other countries, is confirmed by over 1,700 patents granted throughout the world since 1945, by 2,800 pending applications and by over 800 published papers. In recent years, the Lepetit Research Laboratories discovered and developed a completely new family of natural and semi-synthetic antibiotics, the rifamycins, including rifamycin SV (Rifocin°), rifamide (Rifocin® M) and rifampicin, the first orally active rifamycin.

Infective eczema - heap big trouble. Calls for heap strong medicine-Aureocort. Aureocort contains top ingredients: Aureomycini, the leading topical

broad-spectrum antibiotic, to attack infection; plus Ledercort*2, a steroid 10 times more effective than hydro-

cortisone, to attack the root trouble. 1. chlortetracycline HCI

2. triamcinolone acetonide.

It's what goes into

(Chlortetracycline HCI-triamcinolone acetonide Lederle)

that takes it out of infective eczema!

paintainaton

now NAPSALGESIC brings joint relief

'Napsalgesic' is a new formulation for the treatment of pain and inflammation associated with arthritic/rheumatic conditions. Aspirin in a readily-dispersed form to minimise gastric irritation, is combined with dextropropoxyphene to provide effective analgesia with a low incidence of adverse effects even in long term administration. Dextropropoxyphene has been the subject of well controlled clinical trials and described in the BMJ as 'the most promising alternative to codeine at present available'*.

PRESENTATION Each Napsalgesic tablet contains 50 mg. dextropropoxyphene napsylate with 500 mg. aspirin. Basic NHS Cost of 100 tablets – 15/od.

* Brit med J (1963) 1, 317

When pain overrides inflammation Napsalgesic brings joint relief

For the COUGH and CONGESTION of BRONCHITIS and COLDS

'Actifed' Compound Linctus

provides rapid and effective relief

It combines the decongestant properties of pseudoephedrine and the antihistaminic effect of triprolidine with the proven coughcontrolling action of codeine. 'ACTIFED' BRAND COMPOUND LINCTUS

Also available: 'Actifed' Tablets and Syrup each containing pseudoephedrine and triprolidine for the relief of nasal and respiratory congestion.

The case for using Penbritin

in Acute Pharyngitis and Tonsillitis

Upper respiratory infections respond more quickly to Penbritin than to tetracycline¹... a significant advantage when nearly 50% of patients attending surgery want treatment for these conditions, as a recent General Practice survey has shown.²

Clinical cure with Penbritin is surer, as well as faster. Penbritin actually kills the vast majority of bacteria that cause these infections. About one third of ß-haemolytic streptococci causing disease in man, however, are now insensitive to tetracycline³, and this organism is the most frequent cause of acute pharyngitis and tonsillitis.

Penbritin is also the safer broad spectrum antibiotic for children and during pregnancy, as it has no permanent or dangerous side effects*. There are two pleasant syrups, appreciated by all age groups—125 mg./5 ml. for

the child, and 250 mg./5 ml. for the adult or more severely ill child.

Penbritin is equally effective in other respiratory tract infections including:

Sinusitis · Laryngitis · Bronchitis · Pneumonia.

*Contra-indication: Penicillin allergy.

Side-effects: As with other Penicillins.

 ${\rm N.B.}$ Penbritin is not effective against penicillin-resistant staphylococci.

fast aid to a modelling session

Cremostrep.

'Sulfasuxidine', streptomycin, kaolin suspension

Diarrhoea may be caused by even the mildest bacterial infection. She felt quite well—but it looked as if she would have to give the photographic session a miss. Her doctor prescribed 'Cremostrep'.

'Cremostrep' combines the antibacterial actions of succinylsulphathiazole and streptomycin with the soothing and adsorptive effects of kaolin. For this girl, 'Cremostrep' provided rapid symptomatic control, and the photographic session went well.

checks diarrhoea-fast

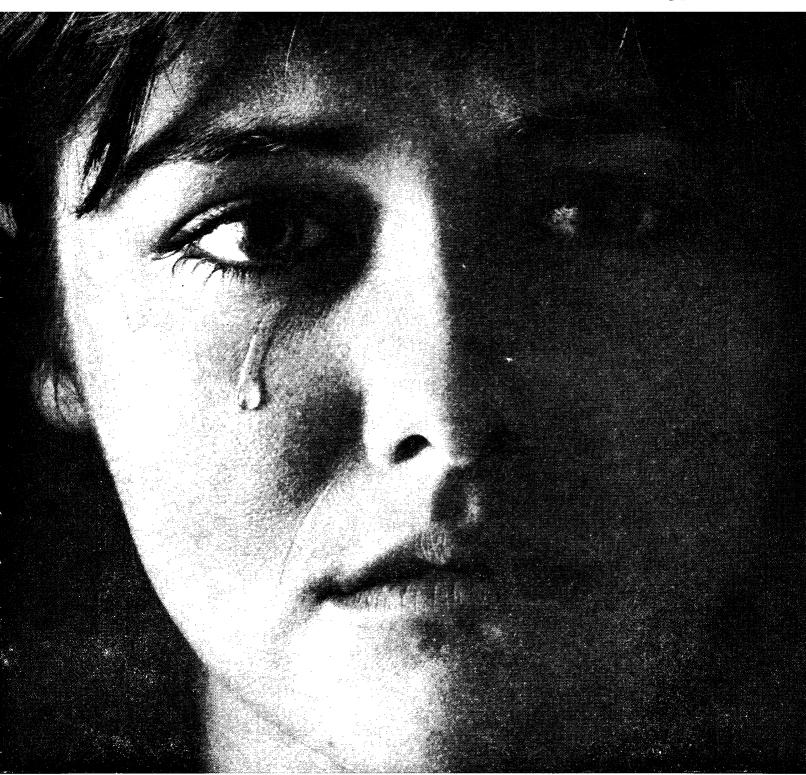

'Cremostrep' is supplied as a suspension, each 5 ml (teaspoonful) containing 0.5 G succinylsulphathiazole, 0.05 G streptomycin (as the sulphate), and 0.5 G kaolin.

Detailed information is available to physicians on request.

'Sulfasuxidine' is a registered trademark for succinylsulphathiazole.

Merck Sharp & Dohme Limited, Hoddesdon Hertfordshire. Telephone, Hoddesdon 67123

everyone's been telling her she must pull herself together but now she's sitting there asking you to do something to stop her feeling so awful about everything and you decide the best thing for her anxiety state is the true tranquillizing effect of 'Stelazine'

Detailed information supplied on request.

THE PRACTITIONER

The Leading Monthly Medical Journal

January 1968 Special Number CLINICAL PHARMACOLOGY

Intelligent prescribing demands a reasonable knowledge of the mode of action of drugs. The complexity of modern drugs renders it increasingly difficult for the practitioner to attain and maintain an understanding of the drugs which he has to prescribe. It is for this reason that the 1968 January Special Number is devoted to Clinical Pharmacology. Written by experts primarily for the p actising doctor, whether he be general practitioner or consultant, it provides one of the most comprehensive reviews yet published of the clinical action of modern drugs.

Human tonsil - assay organism: Streptococcus hæmolyticus

Lincocin penetrates Lincocin works - quickly

Lincocin penetrates... experimentally demonstrated in human tissue

Forty minutes prior to undergoing tonsillectomy, a child weighing 64 lb. received a single i.m. injection of 5 mg./lb. lincomycin hydrochloride (base equivalent). A sample of the patient's tonsil tissue was placed on a petri dish in which the agar had previously been seeded with a pathogenic strain of Streptococcus hæmolyticus. After incubation, the adjacent photograph was taken. The clear zone demonstrates that Lincocin penetrated the human tonsil tissue in a concentration sufficient to inhibit the growth of the pathogenic inoculum. (The small white dots appearing at one end of the tissue sample

were identified in subsequent studies as colonies of non-pathogenic Neisseria catarrhalis.)

Lincocin works ... clinically demonstrated in common respiratory infections

A Comparison of the Clinical Results in Streptococcal Infections* (Clinical diagnosis of tonsillitis or pharyngitis in over 80% of patients)

	Lincocin 100 patients	Ampicillin 101 patients	Penicillin G 102 patients
Cure Rate	82%	71.3%	70.6%
Recurrence (up to 4 weeks)	11%	10.9%	12.7%
Carriers (up to 4 weeks)	0%	7.0%	12.7%
Total Failures	12%	17.8%	25.4%

Lincocin Capsules Each capsule contains 500 mg. lincomycin base (as lincomycin hydrochloride monohydrate) in bottles of 12 and 100.

Lincocin Sterile Solution Ampoules (2 ml.) 600 mg. Each 2 ml. ampoule contains 600 mg. lincomycin base (as lincomycin hydrochloride mono-

If you think PAYNOCIL is just a strong, quick acting aspirin and nothing else

try it and see

Paynocil disperses instantly on the tongue in a release of sweetened lemon flavour, distributing aspirin into the stomach in minutely fine particles—and no water is needed.

Paynocil is aspirin in a most carefully planned form. At 10 grains per tablet in a glycine base it has twice the strength of aspirin tablets B.P. and it is also absorbed twice as fast. It is better tolerated than plain aspirin. Patients with rheumatic disorders who experienced nausea, heartburn or epigastric pain after plain aspirin have found Paynocil acceptable.

So Paynocil is especially valuable in rheumatic

disorders, for it provides the threefold activity of aspirin—analgesic, anti-pyretic, anti-rheumatic—in a form which is exceptionally pleasant and easy to take.

Long term in rheumatic disorders, short term in aspirin's many other indications (colds, influenza, headache, dysmenorrhoea etc.), Paynocil is an ideal therapy. It is convenient to take and it acts fast—patients who need aspirin will prefer Paynocil. It comes in convenient foil strips to slip easily into pocket or bag and is also available as Junior Paynocil—2½ grains per tablet—for children.

Full information is available on request.

CANADA ONTARIO CANCER INSTITUTE INCORPORATING THE PRINCESS MARGARET HOSPITAL, TORONTO, CANADA

Applications are invited for the position of Head of the Department of Diagnostic Radiology at the above named Institute.

The Princess Margaret Hospital (one of the Teaching Hospitals of the University of Toronto) is primarily a radiation treatment centre and carries out all forms of cancer therapy exclusive of major surgery. It has 175 beds, of which 25 comprise a paediatric unit, and 30 are assigned to the department of medicine and clinical investigation. More than 3,600 new cancer patients are registered and 30,000 follow-up examinations carried out annually in the outpatients department. patients department.

The Department of Biophysics of the University of Toronto is also housed in the Ontario Cancer Institute.

also noused in the Ontario Cancer Institute.

The successful candidate will take charge of a new Department of Diagnostic Radiology, which is now under construction. Just over 17,000 examinations were carried out this year in the existing department. When the construction is complete it is anticipated that this load will increase and two additional staff appointments will be made without delay in consultation with the successful candidate.

Higher qualifications and training in special procedures are necessary. The position will carry an appropriate Teaching Appointment in the University of Toronto. Research activities are encouraged with adequate facilities available.

For further information please write, enclosing curriculum vitae, and the names of three referees, to Dr. C. L. Ash, Director, Ontario Cancer Institute, 500 Sherbourne Street, Toronto 5, Ontario, Canade

Canada.

INSTITUTE OF DIRECTORS' MEDICAL CENTRE

BRITISH HEART FOUNDATION JUNIOR RESEARCH FELLOW

This is a new appointment, supported by the British Heart Foundation, in association with the Occupational Health Department of the London School of Hygiene. The work will mainly concern the evaluation of methods of preventing coronary Heart Disease.

The Institute of Directors' medical centre has an expanding research programme based on its clinical work in the field of executive health. There are also projects running in association with three outside research units in London and with B.U.P.A. The appointee will work under the full time deputy medical director (research) and will join a lively team of doctors specializing in this field. There will be opportunities for clinical work and teaching.

The appointment will be in the lecturer grade £1,745 to £2,150, with university pension provisions. It is likely to be suitable for someone of junior registrar or S.H.O. status, who wants to start a career in social medicine, epidemiology or medical computer technology. Prepared, if necessary, to learn statistics. Application form and details

APPLICANTS ARE ADVISED NOT TO send original testimonials when replying to advertisements. Copies will serve the purpose quite as well, and in the event of their being lost or mislaid no inconvenience will ensue.

APPOINTMENTS

Applicants should state name, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given. Canvassing disqualifies (Statutory Instrument, 1966, No. 569).

SALARY SCALES OF HOSPITAL MEDICAL STAFF

Following the Seventh Report of the Review Body, new salary scales have been approved. These came into force on October 1, 1966. The scales are set out below:

HOUSE OFFICERS: Each post in this grade shall be tenable for six months. £1,100 per annum for the posts held during the first year; £1,200 per annum for posts held during the second year; £1,300 per annum for posts held during the third and subsequent years, subject to full registration.

Deductions of £150 per annum in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

SENIOR HOUSE OFFICERS: £1,450 per annum in the first year; £1,550 per annum in the second year; £1,650 per annum in the third or subsequent years. Deductions of £175 per annum in respect of lodging only for voluntary residence, (No deductions for lodging will be made for compulsory residence.)

REGISTRARS: £1,650 per annum, rising by four annual increments of £100

to £2.050.

Deductions of £175 per annum for those with remuncration at the first two points on the scale, and £200 per annum for those on the third and subsequent points will be made in respect of lodging only for voluntary residence. (No deductions tool lodging only for voluntary residence. (No deductions tool points of the scale for Registrates on a form a similar tool to be scale for Registrates on the form and one only shall be given for any centre of a year in excess of two spent previously in the senior house officer grade.

Allowances at rates up to £140 per annum shall be payable to house officers and registrars occupying posts approved for such allowances in peripheral hospitals.

SENIOR REGISTRARS: £1,950 per annum rising by one increment of £100 and four further annual increments of £125 to £2,550.

Deductions of £225 per annum in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

On assimilation to the salary scale for senior registrars, increments to a maximum of two shall be given for each year or part of a year in excess of three spent previously in the registrar grade.

MEDICAL ASSISTANTS: £1,850 per annum rising by fourteen annual increments of £100 to £3,250.

Deductions of £225 per annum in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

CONSULTANTS: £3,200 per annum rising by five annual increments of £185, and then by four further increments of £190 to £4,885.

Deductions of £350 per annum in respect of lodging only for voluntary residence. (No deductions for lodging will be made for compulsory residence.)

Doctors with satisfactory training will not be excluded from consideration for appointment to consultant posts on the grounds that they have spent little or no time as senior registrars.

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff. Memoranda on the following subjects of particular interest have been issued by the Ministry of Health: Standard of Residential Accommodation, Telephone Charges, Removal Allowances, Study Leave.

Further details may be obtained from the Hospital Secretary, or summaries of the Memoranda may be obtained from the Secretary, British Medical Association.

ADMINISTRATIVE

MEDICAL RESEARCH COUNCIL

The Medical Research Council invite applications from

MEDICAL GRADUATES

preferably under the age of 35 years and interested in administrative aspects of research, for a vacancy in one of the Medical Divisions of their headquarters office.

The Council, whose funds are provided through a parliamentary grant-in-aid, now approximately £12 million annually, sponsor an extensive programme of research, both at home and abroad, in their own establishments and at many hospitals, universities and other and at man institutions.

The duties of the staff of the headquarters' Medical Divisions include maintaining liaison with members of the Council's scientific staff and others active in medical research, taking part in committee and conference activities and assisting, as required, in work in the fields of parliamentary affairs, public relations and publications. The day-to-day work is concerned in the main with the administration of matters relating to the Council's own research establishments and to their various schemes, such as research grants, fellowships and training awards, for the support of research in universities, hospitals and other institutions.

Applicants should be interested in administration, and in the opportunity of keeping in touch with the latest developments in medicine and the biological sciences. The present salary scale in the age range 28 to 35 is £2,345 to £2,922 rising subsequently to £3,980 per annum with provision for augrenanuation. The appointment will be to the Council's established staff, subject to satisfactory completion of a probationary period of two years.

Applicants should write (giving full details of education, qualifications and experience, with the names and addresses of two professional referces) to the Personnel Officer, Medical Research Council, 20 Park Crescent, Lordon W.1, before January 12, 1968, quoting ref : E2/348/D. (26030)

BRITISH MEDICAL JOURNAL

MINISTRY OF **OVERSEAS** DEVELOPMENT

The Need

GENERAL DUTY MEDICAL OFFICERS

For duty both in large new hospitals and in the outlying districts of the Developing Countries overseas, for contract appointments of 2 to 3 years. The Opportunity Overseas service offers a unique chance for world travel, an opportunity to widen professional experience, and to acquire a broader understanding of the world and its people. The Advantages Doctors' skill and knowledge will be used to the full on people who have a crying need for their service. Salaries reflect the local cost of living and are normally higher than one would expect to receive in the United Kingdom. There are generous gratuities on satisfactory completion of contract, education allowances for children, free family passages. Accommodation provided usually at a low rent. In most cases superannuation rights can be preserved or maintained. Salaries Vary widely from country to country with the local cost of living. However, with certain exceptions they range from approximately £1650 to £2900 per annum.

Training Scheme for Recently Qualified Doctors In return for an undertaking to serve for at least two years in the developing countries overseas the Ministry offers a course of training to recently qualified doctors which is designed to fit them for service overseas and which will be attractive professionally and financially. During the period of training of 12 to 15 months the doctor will receive a retaining fee of £200 per annum in addition to his hospital salary. Write now for full details of the scheme.

Where Required Antigua, Barbados, Botswana, British Honduras, British Solomon Is'ands, Falkland Islands, Gambia, Kenya, Lesotho, Malawi, Sabah, St. Lucia, St. Helena, St. Vincent, Tanzania, Turks and Caicos, Uganda and Zambia.

SPECIALISTS

ST. ANDREW'S HOSPITAL NORTHAMPTON

President: Lieutenant-Colonel J. Chandos-Pole, O.B.E.

Medical Director: James Harper, M.B., F.R.C.P.(Edin.), D.P.M.

James Harper, M.B., F.R.C.P.(Edin.). D.P.M.
This private hospital receives patients, both
male and female, suffering from nervous and
mental disorders, including alcoholism and
sentile illness. The fees range from twenty
guineas per week. Private rooms with
special nurses can be provided, either in the
hospital or in one of the villas in the
grounds. The hospital is situated in 130
acres of pleasant grounds which provide all
recreational facilities. These include a ninehole golf course, sports ground, tennis
courts, etc. A recreation and occupational
centre, known as Gloucester House, has been
opened recently, which includes an occupational therapy department, a swimming pool,
a squash court and a library with an adjoining reading room.

WANTAGE HOUSE

WANTAGE HOUSE

WANTAGE HOUSE

This is a soparate reception unit to which patients may be admitted. It is equipped for the complete investigation of nervous and mental disorders by the most modern methods. All forms of treatment are available.

Charges for treatment at St. Andrew's are allowable for benefit to British United Pro-vident Association and Private Patients Plan subscribers.

For terms and further particulars apply to the Medical Director (Telephone No 34354 Northampton), who can be seen in London by appointment.

Nulacin and only Nulacin provides intragastric milk-alkali drip therapy for the ambulant patient

66In view of the ineffectiveness of most of the tableted antacids, the milk-alkali tablet (Nulacin) would appear to be the antacid of choice for ambulatory therapy. 99

Safe, Simple, **Effective**

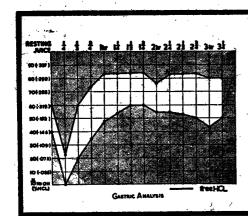

NULAÇIN TABLETS provide a safe, simple and effective treatment of peptic ulcer. In treating peptic ulcer a Ryle's tube may be passed through the nose and into the

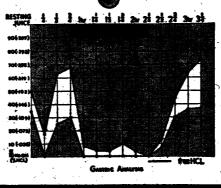

oesophagus and a mixture of milk and antacid allowed to flow continuously over the affected area. This form of therapy can only be employed in those patients who are in bed and for the ambulant patient Nulacin tablets are preferable. Nulacin tablets are prepared from whole milk combined with dextrins and maltose. together with the trisilicate, oxide and carbonate of magnesium and calcium carbonate. Nulacin tablets when allowed to dissolve slowly in the mouth provide milk-alkali drip therapy. In fact, Nulacin tablets have revolutionized the treatment of peptic ulcer.
